It is the practice of the multitude to bark at eminent men, as little dogs do at strangers.—Seneca.

We really can't say. But thousands of ADLERIKA users say they feel that way after ADLERIKA relieves them of bad breath, headaches, torturing gas pains brought on by spells of constipation. Try ADLERIKA for its DOUBLE action — 5 carminatives for relief of gas pains; 3 laxatives for QUICK action. The druggist at the corner has ADLERIKA — get it TODAY.

WNU—N 16—41

Deceiving Ourselves

We deceive and flatter no one by such delicate artifices as we do our own selves.—Schopenhauer.

Miserable with backache?

WHEN kidneys function badly and you suffer a nagging backache, with dizziness, burning, scanty or too frequent urination and getting up at night, when you feel tired, nervous, all upset . . . use Doan's Pills.

Doan's are especially for poorly working kidneys. Millions of boxes are used every year. They are recommended the country over. Ask your neighbor!

RED BRAND FENCE

The RED BRAND fence you put up now will stay tight, look right — for years. Fifty years of fence making experience assures it. Buy *time-tested* RED BRAND, put it up right, forget it — that's the way you end the work and worry of yearly fence repair.

It Saves for Years

The rugged service of RED BRAND fence means *lower cost per rod per year*. Plenty of copper in the steel to fight rust—an extra thick zinc coating put on by the "Galvannealing" process. These features mean CASH IN YOUR POCKET in the years to come.

We have every height and weight you need. Come in and look them over.

NORTHERN LUMBER CO.
BUILDING MATERIAL

W. S. C. S.

The W. S. C. S. will meet next week Thursday, May 1, at the Methodist Church parlors.

Mrs. Gertrude Carpenter is the Leader and Devotions are in charge of Mrs. Harry Gibbs.

Hostesses include Mrs. Mary Waterman, Mrs. August Baack, Mrs. Clifford Montgomery and Mrs. Wm. Zabilka.

Attended Conference

NOTICE, FUTURE KINDERGARTNERS!

Children who will come to Kindergarten next year are invited to a party at the schoolhouse, April 24th from 2:00 to 3:30 p. m. Primary Room.

Miss Potter, Teacher.

Wm. Baack, former Klemme resident and farmer, now residing on his farm southeast of Mason City, has been ill much of the past winter, and spent some time in a Mason City hospital. Tuesday he went to the University hospital at Iowa City for treatment and a possible operation. Mr. Baack has been suffering with lung trouble.

DRAMATICS

The play 'Skidding" will be presented by the senior class April 25 This is one Hardy family play that should not be missed.

MUSIC NOTES

Curtis E. Hansen, director of the St. Olaf Viking Male Chorus acted as director of our band Thursday morning.

You people may be wondering what kind of music you are going to hear at the senior class play There are going to be three numbrs played by the Klemme musicians.

One will be especially interesting because you have never heard a thing like it before in your life. Hi Ho. come to the play—and find out.

SPORTS NEWS

The Klemme nine were defeated last Thursday in a baseball game by the Hayfield nine The game was played on the local diamond The score was 2-1 in favor of Hayfield This was the first game Klemme has played this season This also was the first game of the County Tournament.

Thursday the Shamrocks will tangle with the Goodell nine.

FRESHMAN NEWS

Report cards were received, taken home and cried over Wednesday.

The large number of absent freshman on Thursday was due to this catastrophe

Thursday afternoon the general science class went on a field trip LaVonne Hanson wonders if the reason we shouldn't "Ish" to worms is because it isn't strong enough English

Friday Miss Ott greated the home economics I class with wonderful news of a test to be written if possible) by us

The lastest rumor Are Shirley Wesslund's ankle socks really not supposed to match?

SOPHOMORE NEWS

The sophomores went on a roller skating party Friday night at Clear Lake

In biology we are studying about roots of plants. In class Thursday we had some examples shown us of the dandelion and parsnip.

In English the sophomores are giving oral compositions.

JUNIOR NEWS

We always used to wonder why Melvin Coobs used to ride his bicycle back and forth in front of the school house at noon until recently we got wise He waits for a certain blond freshman to come back from dinner and then he disappears and is not seen for the noon.

Mr. Galbreth announced last Wednesday that he would like to have the work in our geometry workbook speeded up because the seniors will not be here the last week of school We are wondering if this means that the seniors need the juniors help.

FLASH ! ! ! !

Betty Lass has made a dog-house for Dagwood and her dream house for her-self, in typing class. Her ideas came to her when the class was assigned to make designs for class day exercises.

Grade News

KINDERGARTEN, GRADES 1-2

The following boys and girls were neither absent nor tardy for the past six weeks· Sharon, Ronald. Elaine. Billy, Maralee, Maxine, Peter, Richard and Sondra.

The second grade wrote stories about "Spring." Peter's story was· "Last Sunday I saw a Red-Wing Blackbird.s I said hello." Ruth' story was "Sunday I saw a robin in a cornfield when I went past. I saw flower too." Harley's story was· "I saw some tulips. They were in blossom. They were my mothers."

We are planning a party for the boys and girls who will come to school next year.

GRADES 3-4

Maurice brought the first spring flowers to school Monday. Willis brought a bouquet of pussywillows.

The third grade arithemtic class learned to multiply and divide by 4's

In health class we had the unit, "The Care of Our Eyes"

We finished our Holland Unit in Geography

The following had perfect attendance for the last six weeks. Isabelle. Norma, Luella, Richard Phyllis Kirkwood, Larry, Dolores, and Willis.

We had one hundred percent in spelling Iris, Marjory, Norma, Lucila and Phyllis Stokesbary.

GRADES 5-6

In science we are working on a unit called "Homes and Home Life of Birds" For art we have been drawing bird pictures. We went on a hike Friday to find birds.

Both grades took another self-testing drill this week and both got a class rating of nine.

The people who earned perfect spelling scores were Robert, Velma, Ruth Smith, Esther, Helen, Edward, Darwin. Rose, William, Arlene, Ruth Stokesbary, Roger R., Roger B, Clarence, Peggy, and Mary Lou

Helen was the first person to bring some spring flowers for our room.

The following people were neither absent or tardy last six weks: Edward, Donald, Irene, William, Helen, Esther, Velma, Darwin, Roger B., Phyllis Peggy,a Elizabeth Dean, Roger R. and Laverne.

GRADES 7-8

Patricia received a letter from a boy in the Philippine Islands. The letter was very interesting.

We are all trying to sell tickets for the senior class play.

There is a prize for the individual and class that sells the most.

Jean Trumbell has brought the first spring flowers for our room.

Miss Merritt finished reading "Dawn" by Eleanor Porter.

Ruth, Ronald, LaVonne, Duard Edward, Patricia, Junior B., and Junior R. received perfect scores in spelling.

SOUPS FOR EVERY OCCASION . . .
(See Recipes Below)

SOUP'S ON!

s may be a substantial addi- a rather lean menu, or a tive touch to a dinner de luxe, y vary all the way from the ear, delicate consommes and ns to the hearty chowders and ing cream soups.

omical, tasty, nutritious— nore could you ask of a dish satile? Make soup the main- a family lunch or supper or rfect beginning for a "com- dinner.

ttle "dressing up" can play odmother to the plainest dish -yes, even soup. Most people eat with their eyes, first of all. So, if you wish your soups to take on a party air, garnish them enticingly. Try sprinkling with butcroutons, chopped parsley, grains of popcorn, toasted cereals, minced chives, a paprika, or a few tiny round s; or place a spoonful of d cream in the center.

xtra goodness, why not try in soup? It will draw a big of approval, as you will see try Potato Cheese Soup. the recipe:

Potato Cheese Soup.
picture at top of column)
medium sized potatoes
cups boiling water
to 3 cups milk
tablespoons butter
small onion
easpoon salt
tablespoons flour
epper, cayenne
tablespoon parsley
cup cheese, grated

potatoes in boiling salted wa- il tender. Put through a . Measure the liquid and add milk to make four cups. Melt the butter, add the hopped onion and simmer utes. Add the flour and sea- and combine with the potato Cook three minutes and f desired. Add cheese and til smooth. Add chopped top with buttered croutons.

hattan Clam Chowder.
diced salt pork
diced potatoes
nion, diced
water
milk
inced clams (about 1 cup)
d pepper

he diced pork and onion, constantly 'til they are ten- not browned. Add the po- nd water and simmer until oes are tender. If the one ater is not sufficient to cov- otatoes, more should be add- n the potatoes are tender, milk and clams and season- heat thoroughly. Serve with ted crackers.

Dish Supper Soup.
cup rice
cup chopped celery
small onions
green pepper
pint tomatoes
eggs
cup cheese
ups water
lt

pped celery and onions to of boiling water. Add reen pepper. Cook slowly . Add tomatoes. Just be- break the eggs into the . Sprinkle with cheese. eep in warm place 5 min-

LYNN SAYS:

ater in which vegetables en cooked, and left-over egetables may often be in making excellent

tapioca, because of its g quality and attractive nce, makes an excellent

ickened to the desired y, cream soups should warm over hot water. ion caused by additional may make them thick

THIS WEEK'S MENU

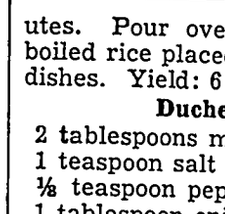
SUNDAY-NITE SUPPER
***Potato Cheese Soup**
Apple-Celery Salad With Sour Cream Dressing
Nut Bread Apricot Jam
Beverage
***Recipe given.**

utes. Pour over a mound of hot boiled rice placed in individual soup dishes. Yield: 6 servings.

Duchess Soup.
2 tablespoons minute tapioca
1 teaspoon salt
⅛ teaspoon pepper
1 tablespoon onion, finely chopped
4 cups milk
2 tablespoons butter
½ cup grated cheese
2 tablespoons parsley, chopped

Combine dry ingredients, onion, and milk in top of double boiler. Place over rapidly boiling water, bring to scalding point (allow 5 to 7 minutes), cook 5 minutes, stirring frequently. Add remaining ingredients; cook until cheese is melted. Serves 6.

Old-Fashioned Vegetable Soup.
2 quarts soup stock (see directions)
1½ cups potatoes, diced
¾ cup celery, cut in strips
2 small onions, sliced
½ cup peas
1½ cups carrots, cut in strips
1½ cups canned tomatoes
Salt and pepper
2 tablespoons parsley finely chopped



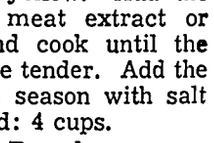
Heat stock, add vegetables and seasonings, and cook gently until vegetables are tender. Add chopped parsley and serve. Makes 8 portions.

Cream of Onion Soup.
2 tablespoons rice
2 medium-sized onions
2 tablespoons butter
1 cup water
1 teaspoon meat extract or a bouillon cube
3 cups milk
Salt and pepper

Chop the onions and cook in the fat until slightly yellow. Add the water, rice and meat extract or bouillon cube, and cook until the rice and onions are tender. Add the milk, reheat, and season with salt and pepper. Yield: 4 cups.

Russian Borsch.
1 pound soup meat
6 cups water
1 teaspoon salt
¼ teaspoon pepper
1½ cups potatoes, large cubes
½ cup grated raw beets
1 tablespoon chopped parsley
1 large onion
1 large carrot
1 tablespoon butter
2 cups medium-chopped cabbage
1 cup beets cut in ¼-inch strips
6 tablespoons sour cream

Cover meat with water, add salt and pepper and boil for 10 minutes. Cut onion and carrot in strips and brown in butter. Add to soup and boil for 1 hour, replacing water as it boils away. Add cabbage and beet strips to soup and cook until beets are tender, about 30 minutes. Add potatoes and cook until tender, or about 15 minutes. Just before serving, add grated raw beets and pour immediately into serving dishes. Place 1 spoon of sour cream in center of each serving and sprinkle with parsley. Makes 6 servings.



Soup Stock.
3 pounds shin of beef
3 quarts cold water

Cut meat in pieces free from fat, and place in kettle. Add water, partly cover, and heat slowly to boiling point. Simmer gently five hours, removing scum as it forms. Keep meat well covered with water. Then remove meat and set broth aside to cool. Skim fat from broth. Strain liquor carefully through fine sieve or cheesecloth. Chill. This gives a clear broth, free from fat, to be used as basis for soups. Makes about 2 quarts stock.

(Released by Western Newspaper Union.)

PATTERNS
SEWING CIRCLE

YOU must have a button-to-the-hem frock this season. This thoroughly American classic blooms in the spring with perennial but ever varied smartness. Here's a new design (No. 1338-B) that gives you a new slant on an all-important style — specifically, the rakish angle of the buttoned pockets, stressed by rows of stitching. The notched collar is made with the new longer points. Easy to make, to put on and to wear, it will fit so beautifully and prove so useful that you'll repeat the design time after time, and on into summer.

This classic style makes up smartly in practically every runabout fabric—flat crepe, thin wool, spun rayon and silk print. Pattern provides for short sleeves, or long sleeves in the popular bishop style. Detailed sew chart included.

* * *

Pattern No. 1338-B is designed for sizes 12, 14, 16, 18 and 20. Corresponding bust measurements 30, 32, 34, 36 and 38. Size 14 (32) requires, with short sleeves, 4 yards of 39-inch material; long sleeves, 4⅜ yards Send order to.

A Fellow's Got To Eat!

But acid indigestion, heartburn and sour stomach can sure take the joy out of a meal. If you're bothered this way ask your druggist for ADLA Tablets —Bismuth and Carbonates for quick relief.

Dangerous Lure

Example is a dangerous lure: where the wasp got through the gnat sticks fast.—La Fontame.

TIPS to Gardeners

REGARDING HERBS

MANY home gardeners may be interested in growing herbs this year because of the war, and because they make everyday dishes more appetizing and flavorful.

Herbs may be grown in a plot about four by six feet to supply the average needs of a family. They should have full sunlight and be planted in good loamy soil.

Almost all popular herbs—balm, basil, borage, fennel, marjoram, rosemary, thyme, sage, anise, dill, and caraway—may either be used when young, and fresh, or prepared for use dried.

Anise, basil, borage, dill and savory are annuals; caraway, and fennel are biennials, and balm, marjoram, sage, rosemary, thyme and chives are perennials, although balm and marjoram are best treated as annuals.

All the herbs mentioned here will probably produce enough growth for use the first year, however, if seeds are planted early, and climate is normally temperate.

City of Caverns

London, in these times, would be fortunate if the city were constructed as Paris is, for the French capital is built largely of stone brought from under the very ground on which it stands. Because of this, there is a ready-made underground city about one-tenth the size of Paris. One section of this cave city contains the Catacombs, where rest the bones of some six million. Another zone consists of vast layers of gypsum. The Quarry service has cut into this section tunnels which follow accurately the courses of the avenues above. Ordnance maps of this system show springs, galleries, rooms, arches, and reinforcements. Had the government of France decided to defend the city, the people could have occupied this underground fortress and defied Hitler's bombers till Doomsday.

Household Hints

Any place that is too hot to place your hand is too hot for a container of kerosene. Kerosene is absolutely safe only when it is cold.

* * *

New potatoes contain less starch than older ones and for this reason do not bake so well.

* * *

A salad should appear on the menu at least once a day. Not only does it give interest, color and variety in texture, but it is rich in vitamins, minerals and bulk, all necessary to growth and health.

* * *

Word of caution: If you are not going to wear your new hose promptly, rinse them carefully in warm water. This will prolong their wearing qualities.

* * *

Chopped onions and celery, browned in chopped salt pork, improve the flavor of green beans, stewed tomatoes or carrots.

Pull the Trigger on Lazy Bowels, with Ease for Stomach, too

When constipation brings on acid indigestion, stomach upset, bloating, dizzy spells, gas, coated tongue, sour taste and bad breath, your stomach is probably "crying the blues" because your bowels don't move. It calls for Laxative-Senna to pull the trigger on those lazy bowels, combined with Syrup Pepsin for perfect ease to your stomach in taking. For years, many Doctors have given pepsin preparations in their prescriptions to make medicine more agreeable to a touchy stomach. So be sure your laxative contains Syrup Pepsin. Insist on Dr. Caldwell's Laxative Senna combined with Syrup Pepsin. See how wonderfully the Laxative Senna wakes up lazy nerves and muscles in your intestines to bring welcome relief from constipation And the good old Syrup Pepsin makes this laxative so comfortable and easy on your stomach. Even finicky children love the taste of this pleasant family laxative. Buy Dr. Caldwell's Laxative Senna at your druggist today. Try one laxative combined with Syrup Pepsin for ease to your stomach, too.

KLEMME LOCALS

Last week Marvin Bredlow, who has operated a service station at Goodell for the past year, sold the business to Merle Holden of Fort Dodge, who took possession at once. Mr. Holden is married and has a 12 year old son. The family will move to Goodell May 1st. Mr. Bredow will work on the Kohler farm near Meservey.

Duane Johnson and Wayne Buseman, of Fort Des Moines, spent the week end visiting with Klemme folks. The boys expect to leave the Fort soon for another camp, as the May 1st draftees will go to the Des Moines camp. The boys did know where they will be sent. Both of these Klemme boys are enlisted in the regular army for three years.

Mr and Mrs. P M. Wilson drove to Des Moines Sunday morning to spend the day visiting at the home of their son-in-law and daughter, Mr and Mrs. Robt. Risser and son, Bobbie Mr. and Mrs. R. R. Reece accompanied them as far as Ames, where Mr. and Mrs. Reece spent Mrs. W. V. Wildman of Nevada, whehe Mr. and Mrs. Reece spent the day visiting.

COPPERAS ADDED TO DIRT IS ANEMIA-PREVENTIVE IN PIGS

Placing a piece of clean, fresh sod or dirt in the pen every few days is still a good way to prevent anemia in little pigs, says E. L. Quaife, extension animal husbandman at Iowa State College.

An even more effective way of getting pigs to get minerals into their systems is to add ¼ pound of finely ground copperas to 100 lbs of dirt. Quaife says that when such practice has been followed, anemia has been prevented almost entirely.

Ink Spots And Spatters

By Jergie

FINE RESPONSE TO CLEAN UP CAMPAIGN

Last week Mayor Grange published an advertisement asking the co-operation of property owners in cleaning up their premises of rubish and ashes which had gathered during the winter.

In driving around town the other evening this scribe noted with satisfaction that almost everywhere people were out raking their yard and cleaning up. That is the kind of civic pride which makes Klemme the cleanest little town in nortn Iowa.

There are a few houses that will soon need repainting and we unstand a number of property owners have a painting job on their list of improvements for spring.

Klemme has a reputation for well kept homes and gardens and many strangers are impressed with the genearl appearance of neatness.

A MOST EXTRAORDINARY WINDW DISPLAY

This scribe cannot resist taking a good natured crack at Art Wellemeyer's ability as a window trimmer. Art gets out some real masterpieces at times and then he recedes into a rather indifferent mood it sometimes is reflected in his window.

But the puzzler we bring up is the decoration Art had in his show window the week prior to Easter Sunday. Just what was the theme we have not been able to figure out. Perhaps Art was boosting his floral business, and again it hinted of his profession as undertaker, or perhaps a combination of the two. At least we have been unable to figure out what it all meant.

The display we are telling about were two lovely potted Easter plants in full bloom. Each was perched on of a small rough box!

MUSSOLINI WAS A LIAR

Another one of those jokes going the rounds and which probably originated on the other side of the pond.

Mussolini pointed to a nearby hill and ordered his captain to take one hundred men, twenty-five tanks and a company of machine gunners and shouted: "There's a Greek soldier over there, go get him."

In a couple of minutes the Captain came tearing back over the hill. Mussolini asked, "Where's my tanks, machine gunners, the hundred men and the Greek I want brought back."

Said the Captain, "The tanks, the gunners, the soldiers, they are all captured." "You darn big liar, there were TWO greeks on the other side of that hill!'

And so the captain high-tailed it for Rome and safety.

FISHING STORIES AGAIN IN SEASON

With the fishing season definitely here with reports of nice strings of bullheads being caught in Clear Lake and East Twin Lake, the season for telling fish stories is also here, and which reminds us that:

"A couple of fellows were fishing at Clear Lake last summer and one of the men's wife went along and while trolling back to the cottage in the evening she let her hand drag along in the cool water When she stepped out of the boat she noticed that her diamond had slipped out of it's setting. It was hard to tell just where the valuable stone had fallen into the water, so diving was out of the question. The lady felt very bad and was in tears. Just then the party in the other boat caught a large pike.

That night they cooked the pike for dinner.

All of a sudden one of the men bit into something hard, and what do you think it was? It was a fish bone!

Glenn Stokesbary, who has been assisting at the Times plant for the past two weeks, while Leo Brinkman, the linotype operator was off duty and a hospital patient, left Sunday for Oskaloosa, where he has a position as printer in a job printing shop. Glenn is a graduate of the School for the Deaf at Council Bluffs. We enjoyed having Glenn assist us the past two weeks and wish him success in his new position.

EGG OUTPUT PER HEN IS HIGHEST EVER RECORDED

The nation's laying hens are "laying into it" and boosting their eggs production. The average producttion of eggs per hen on March 1 was the highest on record, according to agricultural economist at Iowa State College.

Te mild weather this winter and the ample feed supplies have kept egg production up. The economists state that the Agricltural Marketing Service reports that here are fewer laying hens in farm flocks now than a year ago, but the average production is so much greater that total production exceeds that of a year ago.

Prices Down

Because of this fact egg prices were below last year's levels last month, in spite of stronger consumer demand.

Flock owners are increasing the hatch this year compared with 1940. The Agricultural Marketing Service reports that hatcheries increased the number of eggs set and chicks booked for future delivery by 25 percent on March 1 over a year ago. The number of chicks produced in February was 70 percent larger than the number hatched a year earlier.

Improving consumer demand probably will offset the larger supplies and maintain prices above the 1940 level. Chicken prices, the economist report, are expected to continue to average above last year's prices.

McCormick-Deering

Corn Planters

A GREAT COMBINATION OF TIME-PROVEN FEATURES

The principles employed in McCormick Deering CORN PLANTERS and drills are not new. Their soundness has been proven in the field by particular farmers. The factors which make these planters so satisfactory from the standpoint of accuracy and long wear are the manner in which these time-proved principles have been combined, the quality of workmanship which goes into the manufacture of the planters, and the rigid inspection which every part of the working mechanism has to undergo before it can get into a planter. It took years to perfect this combination and the result is a line of planters and drills to meet the most particular requirements of planting not only corn but a wide variety of other seeds.

NOTE THESE MANY FEATURES ON OUR PLANTER

1. Hoppers take edge, fl or hill-drop plates.
2. Especially adapted planting hybrid corn.
3. 28 to 48 row spacings.
4. Check row, drill and power hill drop.
5. Plunger type valves sure accurate seed pla ment.
6. Large diameter pla with "shakedown" motion sure positive filling of cell
7. Simple, trouble pr variable drop device.
8. Tilting hoppers, easy change plates.
9. Runner, stub-runner, single or double-disk fur openers.
10. Automatic markers.
11. Seed plates for anyth from tomato seed to lar horse beans.
12. Combination corn pea hoppers and fertil attachments available.

OFFICIAL TOWN PAPER

UME 45. KLEMME, IOWA, WEDNESDAY EVENING, APRIL 30, 1941 NUMBER 47.

C. Keraus Appointed Mayor Special Council Meeting

NATION OF GRANGE LEFT VACANCY IN OFFICE

Mayor Has Been Long Time esident Of Klemme, Likes Civic Improvements

a special meeting of the Town il held Tuesday evening, that accepted the resignation of Grange, who had held the of- f Mayor here for the past 8 and who asked to be releas- om the office as he is moving son City.

Grange, who was a commun- pirited man, was a good May- d many civic improvements made during the time of his

uncil Names W. C. Keraus

selecting the man to succeed ge, the councilmen were un- ous in their decision to name . Keraus as the man to suc- Grange for the office of May- Klemme.

. Keraus has spent most of his in Klemme and has always an ardent worker for the bett- nt of the community, often g valuable time from his own ess to work on some worthy unity project.

. Keraus states that he will uct the affairs of his office to best of his ability and to the interests of the taxpayers and ents of Klemme, conducting affairs in an efficient manner.

embers of the Klemme council John Etchen, Lloyd Lau, Her- Priebe, Art Wellemeyer and J. Thomas. A. J. Kudje is the

ayor Keraus took over his new s immediately.

HELLO, FOLKS!

and Mrs. John Lamont are parents of a seven pound baby born to them on Thursday, Ap- 24th. The young man has been d William John, and is named his father, his grand father, also his great grand father. So young man is William John La- t IV.

r. and Mrs. W. Henry Galbreth bear the title of "Papa" and mma" since Saturday, when a baby boy, age four months, cked at their door and hung his hat on their hall tree and eeded to make himself right at e. The Galbreths have named r new son, William, but Super- ndent Galbreth says we are to him "just Bill."

Mr. and Mrs. Marvin Bredlow of r Meservey are the proud par- s of a baby girl, weight seven nds, born to them at the Mercy pital on Thursday, April 24th.

Mr. and Mrs. Albert Gobeli are ents of a baby boy born to them Tuesday, April 15th.

Mr. and Mrs. Howard Baack who ide on a farm northeast of Klem- , are the parents of a baby son n to them on Tuesday evening, ril 22nd.

GIRL SCOUTS MET AT HOME OF THEIR NEW LEADER

Monday evening at 5 00 o'clock the Klemme Girl Scout Troop met at the home of their new leader, Mrs. R. R. Recce.

Mrs. Reece was recently appointed Leader of the local troop, taking the place of Mrs. E. G Schaeffer, who has moved out of the community. Mrs. Schaeffer had directed the Troop for several years.

Miss Elaine Buntenbach is Mrs. Reece's Assistant Leader for the local Troop.

Officers Elected

The following Troop Officers were elected at this meeting:

Troop Treasurer
Gertrude Grosshuesch
Troop Scribe
Corrine Merkel
Sunflower Patrol Leader
Lorraine Buntenbach
Gertrude Grosshuesch, Assit.
White Rose Patrol Leader
Barbara Johnson
Eunice Larsen, Assit.
For-Get-Me-Not Patrol Leader
Mavis Meyer
Ruth Bell, Assit

After the election of officers was held, the girls and their leaders enjoyed a weiner roast in Reece's back yard. a Camp fire and singing of scout songs was enjoyed.

The Troop presented La Vohn Hammitt with a Scout Hand Book as a farewell gift.

TWO KLEMME YOUNG MEN VOLUNTEER FOR SERVICE

Coach "Bodge" Bowles, teacher in the Klemme high school, and Milton Paul, have volunteered for a year of military service and have been notified that they would leave from Britt for Fort Des Moines on next Monday afternoon, May5tr at 2:00 o'clock.

Mr. Bowles has been given a release from his teaching contract by the school board, and Mrs. Ernest Gerardi has been secured as a substitute teacher to complete the term for Mr. Bowles.

Mr. Bowles has taught in the local high school for the past 'wo years, coaching athletic and heading the typewriting and business instruction.

Milton Paul, son of Mr. and Mrs Herman Paul, has been employed by the Northern Lumber Company as a carpenter the past few years. During the past winter Milton was employed as a carpenter on the defense project at Burlington.

MRS. FRED J. ARNOLD HOSTESS TO U-DELT-EM CLUB

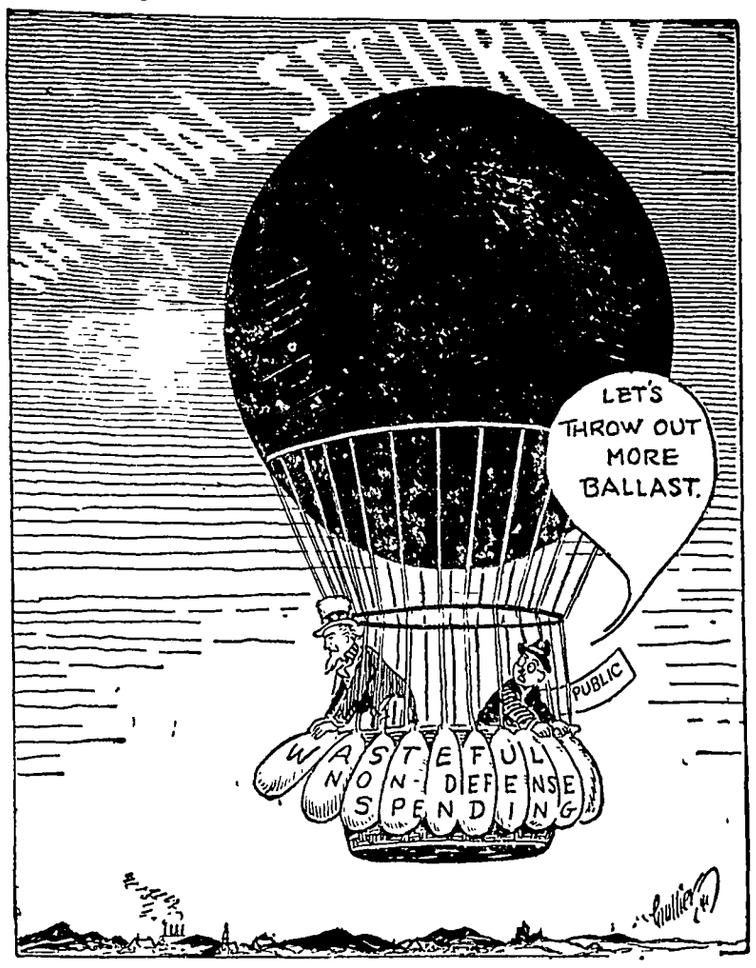
The U-Delt-Em Bridge Club held their last meeting of the season at the home of Mrs. Fred J. Arnold on Thursday afternoon.

Contract bridge was played and the high score was won by Mrs. Edna Thada, and Mrs. Art Kudje won the second high score for the afternoon.

Mrs. Sumner Trumbull was a guest.

Lunch was served by the hostess.

HOW TO RISE IN THE WORLD



Anglers Looking Forward To Opening Of Season

ANGLERS AWAIT OPENING OF IOWA FISHING SEASON

Fishing Expected To Be Good In Lakes Of North Iowa

Iowa's fishermen are getting their tackle in readiness for the opening of the Iowa angling season this month of May. With north Iowa lakes well up to top levels, fishermen are predicting good catches for the opening date

Season Open On Trout, Catfish

Catfish and Trout fishermen will inaugurate the season on May 1ts, while the season will open on many of the other game fishes on May 15th.

Fishing for catfi h in the inland streams is permitted during the period May 1 to May 30 The season will close during June, opening again on July 1 and extending to November 30 in all the inland waters of the state Minimum length limit on catfi h is 12 inches and anglers will be allowed 15 catfish per day Possession limit is 30.

Trout fishermen will find the season open at 5 00 a. m. on May 1, then trout fishing will open at one hour before sunrise each day thereafter. Fishing for trout must however, cease at 9:00 p. m. each day during the open season, May 1 to September 30

Pike Season Opens May 15th

The season on northern pike will begin on May 15. Minimum length limit is 15 inches, and fishermen will be allowed 8 pike daily, with a possession limit of 16.

Fishing for walleyed pike and sauger pike will also open on May 15. Legal length for these species is 13 inches. Daily catch is limited to 8, while the possession limit is set at 16.

May Take Silver Bass

The season on yellow perh, yellow bass, striped bass and silver bass will begin May 15. Minimum length for these species is 7 inches. Anglers will be allowed 15 daily or 30 in possession.

Continuous Season On Bullheads

There is a continuous open season on bullheads, sheepshead, suckers, redhorse, carp, buffalo, quillback, gar and dogfish. There is no catch limit or minimum length requirements for sheepshead, carp, buffalo, quillback, gar or dogfish. Daily catch limit on bullheads is 25 and possession limit is 50. Fishermen are allowed 15 each of suckers and redhorse per day, and the possession limit on these species is 50.

Limit Placed On Frogs

The Iowa minnom and frog season is scheduled to open May 12. There is no limit on minnows, but daily catch limit on frogs is four dozen. Possession limit for frogs is 8 dozen.

Catch Limit On Fish Is 25

The total catch limit of all fish under this division, excluding those on which there is no daily catch limit may not eyeed 25 per day Speial regulations apply to fishing in the Mississippi and Missouri Rivers and the Inland waters of Lee county, and artificial lakes of the state

Beed's Lake, near Hampton, will not be open until June 15th.

This is also true of the other artificial lakes in the state.

Fishing License Required

Fishing licenses, required of all males 16 years of age and over, are on sale at county recorders' offices and license depositaries at one dollar each. Licenses are required of women fishermen only when fishing in state owned lakes.

Licenses for both fishing and hunting may be obtained at the E. F. Jacobs Hardware Store, or the First National Bank in Klemme.

The licenses expire April 1st of each year.

STITCH AND CHATTER CLUB HONORED MRS. GRANGE WITH PARTY

The Stitch and Chatter Club and a few invited friends met at the home of Mrs. Fred J. Arnold Friday afternoon for a farewell party in honor of Mrs. Paul Grange, who with her family will move to Mason City.

Each of the ladies hemmed a towel which was later presented to Mrs. Grange as a farewell gift. Each of the ladies had also embroidered their own initial on the towel they presented Mrs. Grange.

Lunch was served later in the afternoon.

KLEMME BOY NOW IN ALASKA

Earl Reitz, graduate of the Klemme high school, and who made his home with Mrs. Mary Church and son, Burr south of Klemme, while attending the Klemme high schoo', is now located at Anchorage, Alaska.

Earl enlisted in the army air corps over a year ago and after training at various fields, was sent to Alaska.

Earl is a bombadier and is attached to the 36th Bombardment Squadron, Elmendorf Field, Anchorage, Alaska.

Incidently, through the courtesy of Mrs. Church, The Times will reach Earl at that far away post, and is the farthest distance the Times is being mailed at present.

LEGION AND AUFILIARY HAD FAREWELL PARTY

The Klemme American Legion and the Auxiliary Unit held a farewell party at the Legion Community Hall Tuesday evening for Mr. and Mrs. Paul Grange, who are moving to Mason City.

Mr. and Mrs. Grange have both been very active members in the organizations, and they will both be greatly missed in the Legion and Auxiliary.

G. S. CLUB MET MONDAY EVENING

Miss Viola Thieman was hostess to the G. S. Club at her home Monday evening, where the young ladies enjoyed playing bridge.

High score was won by Miss Elaine Buntenbach, and Miss Bernice Tanner held second high score.

Lunch was served by Miss Thieman.

CIVIC CLUB MEETING THIS THURSDAY EVENING

President R. R. Reece has called a meeting of the Klemme Civic Club to be held at the Community Hall, this week Friday evening, May 2, at 7:30 o'clock.

Important business will be taken up and an entertainment proposition for the early part of June will be discussed.

Dutch lunch after the meeting.

NO MONEY AUCTION AT THADA'S TONIGHT

Thada's Store will have their No Money Auction tonight, Wednesday, at 9:00 o'clock.

Trade tickets are used instead of money in bidding on the articles up for auction.

WILL TAKE OVER NEW DUTIES AT DES MOINES JUNE 1

Galbreth Completing Fifth Year As Superintendent Of Schools Here

At a special meeting of the local school board held Monday morning, the resignation of Superintendent W. Henry Galbreth was considered and approved and Mr. Galbreth was given a release for his contract as head of the Klemme school system.

Will Enter New Field Of Work

Mr. Galbreth will go to Des Moines where he will join the editorial staff of the "Midland Schools," the official publication of the Iowa State Teachers Association, as assistant editor of that publication. Mr. Galbreth, will, in addition to writing and editing, will also have charge of the advertising department of the magazine.

The new position which he takes over will be a fine promotion and will mean a substantial increase in salary over his present position.

The board considers it a compliment to the Klemme Schools that Mr. Galbreth was picked from a large field of applicants for the position at Des Moines. Mr. Galbreth is likewise to be congratulated on his good fortune.

Superintendent Here Five Years

Mr. Galbreth is rounding out his fifth year as superintendent of the Klemme Scrool system.

There has been a great change since Mr. Galbreth took over, for during that time the old school house was abandoned and for the past two years Mr. Galbreth and his corps of teachers have enjoyed being in a modern new building, perhaps the best arranged school building in North Iowa. The enrollment of the school has also grown under the supervision of Mr. Galbreth. New educational systems have also shown a great deal of progress under his guidance, and Klemme ranks well up in the rating of Iowa schools.

Graduate Of Upper Iowa

Mr. and Mrs. Galbreth are both graduates of the Plymouth High School and both are also graduates of Upper Iowa University at Fayette. Mrs. Galbreth taught school before her marriage and Mr. Galbreth taught at Westfield for three years, and then went to Hospers as high school principal and athletic coach. Mr. and Mrs. Galbreth came to Klemme from Hospers, where Mr. Galbreth taught four years.

In the summer of 1936 Mr. Galbreth was awarded his Masters Degree at the University of Iowa.

And to complete the history, Mr. and Mrs. Galbreth became parents of a fine four month's old boy last Saturday.

Mr. Galbreth takes over his new duties at Des Moines on June 1st and will be sent to the University of Iowa for a two week's short course in journalism.

Mrs. Galbreth and son will move to Des Moines about the middle of June.

The best wishes of their many friends go with them, and we join in wishing them success and happiness in their new work.

FATHER OF KLEMME WOMAN DIED FRIDAY AT LAKE

Mrs. Dorance Day was called to Clear Lake last Thursday by the serious illness of her father, G. P. Petersen, who had been ill for the past year.

Mr. Petersen, who was 70 years old, died Friday morning at 11:15 o'clock at his home.

Surviving Mr. Petersen are his wife and seven children, Fred, Detroit, Mich.; Verne, Roy, Arthur, Peter and Mrs. C. L. Conklan, Clear Lake, and Mrs. Dorance Day, of Klemme. There are also several brothers and sisters and numerous grandchildren.

Mr. Petersen had been a builder and contractor for many years and engaged in the construction of a number of buildings in Clear Lake and adjoining territory.

Funeral services were held Monday.

Funeral Services Held Sunday For Mrs. Haefner

Funeral services were held Sunday afternoon at 2:00 o'clock at the Klemme Methodist Church for Grandma Louisa Haefner, 96.

Services were in charge of the Wellemeyer Funeral Service and Rev. William Zabilka gave the address.

Special music was provided by a ladies' quartette, composed of Mrs. Wm. Zabilka, Mrs. C. A. Arnold, Mrs. C. G. Waterman and Mrs. R. Jorgenson who sang two numbers A duet number was also presented by Mrs. Zabilka and Mrs. Waterman.

Following is the obituary:

Louisa Stinieker was born Dec. 10, 1844 on a farm in Warren County, Missouri. Her parents, William Stinieker and Christina Fiegenbaum Stinieker were natives of Germany. Her four brothers, Henry, Herman, William and Ernest, and her one sister, Mrs. Henry Woker, all preceded her in death.

She attended the rural schools and became a member of the Evangelical Lutheran Church at Warrenton, Missouri, by confirmation.

At the age of 18 years she became the wife of Henry Stille. At this time they both joined the Methodist Church. After five years on a farm they sold and built a mill at Demolt, Mo. Here they ground wheat into flour, sawed logs into lumber and also operated a wool carding department. Seven years later, 1874, they sold the mill and came to Hancock Couny, locating on a farm where Liberty Church now stands. This farm was the home of Mr. and Mrs. Henry Stille and their family of six children for many years.

In 1883, after 9 years of farming, the husband, Henry Stille died at age of 48 years.

Mrs Stille operated the farm for 10 years, when she moved to Klemme, making her home with her daughter, Mrs. Frank Gruetzmacher.

In 1897, at the age of 53, she became the wife of Rev. Gotlieb Haefner who was pastor of the German Methodist Church in Klemme. Rev. and Mrs. Haefner served congregations at Parker, S. D., St. Charles, Ia, Flood Creek, Ia. and at Toma, Wis., after which they retired and spent the evening of life in Klemme.

On July 4, 1925, Rev. Gotlieb Haefner, age 88, died and was buried beside his former wife in the Liberty Township Cemetery.

And now, 16 years later, April 24, 1941, Mrs. Haefner too has been called home, at the age of 96 years, 4 months and 4 days. She was a clear thinker, a hard worker, a careful manager and her long, good life has been a blessing to this community.

She leaves sixty direct descendants. They are: three daughters, Minnie, (Mrs. Ernest Schuldt), Lizzie, (Mrs. F. Gruetzmacher), Emma, (Mrs. John Terhufen); three sons: Wm. F. Stille, Herman J. Stille, John E. Stille; also 17 grand children; 29 great grand children, and 8 great, great grand children.

Burial was in the Liberty Township Cemetery beside the former husband of the deceased, Mr. Henry Stille.

Florida Extends Nation's Editors Her Hospitality

Scribes Visit State During National Convention At Jacksonville.

By RUSSELL KAY
(Released by Western Newspaper Union.)

JACKSONVILLE, FLA.—Why do people go to Florida? What do they see, what do they do, how are they entertained while there?

These and many other questions concerning the state that has become known as the "nation's playground" were answered for hundreds of editors and publishers of the nation recently, who attended the National Editorial association convention at Jacksonville and toured the state as guests of the Florida Press association.

Florida, alert to impress this distinguished group, proved an admirable host. The three day convention period in Jacksonville itself was a gala occasion, climaxed with a banquet given in their honor by John H. Perry, who also arranged for a coast to coast salute on the National Farm and Home hour, originating from his Jacksonville Journal station WJHP, conducted by the Washington news commentator H. R. Baukhage.

Convention sessions were broken with interesting side trips that one afternoon carried the group to Jacksonville Beach for a dip in the Atlantic and a fish fry, another to St. Augustine where they visited Old Fort Marion, famed Marine Studios and other points of interest and again had supper on the beach.

Tour of State.

Determined that the group should really see something of Florida before leaving, Florida newspaper folks took the visiting scribes on a seven-day all-expense tour of the state.

There were shown the University of Florida at Gainesville, beautiful Silver Springs near Ocala where, from glass bottom boats, they viewed an underwater fairyland, watched the filming of scenes for the forthcoming screen version of "The Yearling," saw Ross Allen milk rattlesnakes at his Reptile institute and visited the Seminole Indian village.

Journeying on they traversed the scenic lake and hill section with its thousands of acres of citrus groves, stopped briefly at Leesburg and San Lando Springs to arrive at Orlando, central Florida's largest city and hub of the great citrus industry.

Guests of the city, they enjoyed a reception and banquet and found excellent hotel accommodations that insured a restful night.

Visit Bok Tower.

The second day carried them to the Bok Tower near Lake Wales, permitted a stop at Waverly to see the world's largest citrus packinghouse in operation and arrival at beautiful Cypress Gardens at Winter Haven, where they found a delightful luncheon awaiting them which was enjoyed in the enchanting gardens as they witnessed a special program of aquatic sports, acquaplaning and speed boat races.

At every rest stop along the route and with every meal, the scribes were loaded down with baskets of Florida's choicest oranges, grapefruit and tangerines. Citrus juice just seemed to flow without end for all who cared to drink.

Leaving Cypress Gardens the tour touched Winter Haven, Lakeland and Plant City. Here Hon. Nathan Mayo, Florida's agricultural commissioner, welcomed the group and escorted them through the world's largest state farmer's market and ladies of the community served fresh strawberry shortcake.

Florida extended a warm welcome to visiting editors. Two fair Floridans (upper left) conduct a tobogganing "demonstration," while others (lower left) display their charms between stalks of sugar cane. Believe it or not, but a native squaw (upper right) learns all about the convention from Bob Ripley himself. In a more serious vein, Governor Spessard L. Holland formally welcomes the delegates to "the land of sunshine."

Welcomed in St. Petersburg, the "Sunshine City," with bands and banners they toured the city and were guests at a banquet provided by the local daily papers, Times and Independent.

See 'Peerless Pinellas.'

The next day traversing the "Peerless Pinellas" peninsula they lunched at Clearwater on the Gulf, visited the sponge fisheries at Tarpon Springs and enjoyed a reception at Dupree Gardens, arriving in Tampa in time to view McDill field, the new southeastern army air base, and attend another banquet at which the Tampa Tribune was host.

Turning south through rich citrus and truck areas they saw the towns of Bradenton, Sarasota, Punta Gorda and arrived at Ft. Myers for luncheon, guests of the Chamber of Commerce.

Then across the mysterious Everglades via the Tamiami Trail to arrive in Miami for a supper at the swanky Royal Palm Club.

The next day was devoted to sightseeing in the greater Miami area and included breakfast at one of the famed beach hotels, luncheon at Coral Gables and supper at the Pan American International airport, where they witnessed the arrival of clipper ships from South America.

Here the party was divided with a portion of the group boarding a steamer for a side trip to Cuba, while those remaining continued the Florida tour and the following day breakfasted at Hollywood Beach, visited plantations of the United States Sugar corporation at Clewiston, where they were luncheon guests, skirted the shores of Lake Okeechobee to arrive in West Palm Beach where they were guests of the city.

Along East Coast.

Following a sightseeing tour of the Palm Beaches the party journeyed northward up the Florida east coast, stopping for luncheon at McKee Jungle Gardens near Vero Beach.

Bands, reception committees and a variety of souvenirs were waiting all along the route and while stops were of necessity short the visitors were given an opportunity to see the towns of Melbourne, Cocoa, where a reception was staged and refreshments served, Titusville, New Smyrna and at Daytona Beach completed the tour with a delicious hot chicken dinner served the party in a spacious grove at Farmer Dans which followed a spin on the world famed Daytona Beach and a reception and cocktail party.

Here the party broke up and the visitors were carried on to Jacksonville where trains were waiting to take them to their respective states.

Those who took the side trip to Cuba had an equally enjoyable time and were wined, dined and entertained during their three-day stay on the island.

All agreed that the Florida convention and tour was the most enjoyable and interesting in N. E. A. history and asserted that if their experience was typical of Florida hospitality and entertainment they could be depended on to return.

It was the first time the National Editorial association had conventioned in Florida for 20 years.

Eleanor Roosevelt Urges Compulsory Service for Girls

Eleanor Roosevelt in a current statement recommends that a year of compulsory service for girls be considered as part of a permanent home defense program.

Here is the manner in which the First Lady presents her ideas on the subject:

"I personally hope that a year of compulsory service will also be considered for girls. I do not, of course, think of girls as taking the same training, or doing the same kind of work that boys will probably do, nor do I think of them serving in camps. However, just as there are boys whose interests and capacities vary, so have girls interests and capacities. I think the opportunity should be offered to girls to work and train themselves along many different lines."

The above statement appears in the current issue of the Ladies Home Journal.

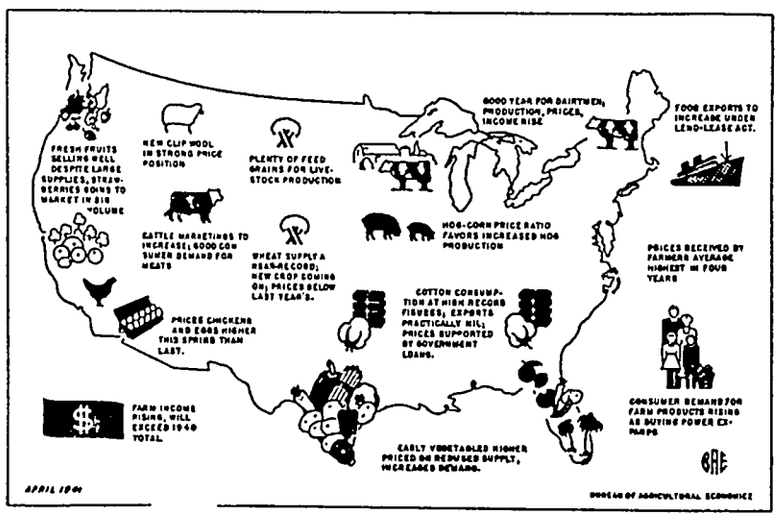
Specifically Mrs. Roosevelt suggests that the girls do their year of service, in large part, in their own communities . . . in hospitals . . . in home economics school courses . . . in farm-management courses in rural areas . . . and in optional courses in mechanical training in resident centers such as the National Youth administration's . . . "If a girl wished to go there, she could obtain training for a job, in case of an emergency, ordinarily filled by a man. And there is mechanical work suited to a woman's ability in many peacetime industries," she explains in advancing her idea.

"If we compel our children, for their own good, to go to school, I see nothing undemocratic in giving the people of the country an opportunity to decide at the polls whether they believe a year's service at a given age for the boys and girls of the nation would be of value to them as individuals and to the nation as a whole," she states.

"I believe that girls, if it is decided to require of them a year of service should be placed on exactly the same footing as men, and they should be given the same subsistence and the same wage."

"Of course, if a girl lives at home, what is allowed the boys as a subsistence in camps should be allowed to the home for the girl's subsistence, and she should receive the same cash remuneration which the boys receive. The difference in the type of service rendered makes no real difference, and they are entitled to equal remuneration," she explains.

Agricultural Outlook Improves



FRESH FRUITS SELLING WELL DESPITE LARGE SUPPLIES, STRAWBERRIES GOING TO MARKET IN BIG VOLUME
NEW CLIP WOOL IN STRONG PRICE POSITION
PLENTY OF FEED GRAINS FOR LIVESTOCK PRODUCTION
GOOD YEAR FOR DAIRYMEN, PRODUCTION, PRICES, INCOME RISE
FOOD EXPORTS TO INCREASE UNDER LEND-LEASE ACT.
CATTLE MARKETINGS TO INCREASE; GOOD CONSUMER DEMAND FOR MEATS
WHEAT SUPPLY A RECORD; NEW CROP COMING ON; PRICES BELOW LAST YEAR'S.
HOG-CORN PRICE RATIO FAVORS INCREASED HOG PRODUCTION
PRICES RECEIVED BY FARMERS AVERAGE HIGHEST IN FOUR YEARS
COTTON CONSUMPTION AT HIGH RECORD FIGURES; EXPORTS PRACTICALLY NIL; PRICES SUPPORTED BY GOVERNMENT LOANS.
PRICES CHICKENS AND EGGS HIGHER THIS SPRING THAN LAST.
FARM INCOME RISING; WILL EXCEED 1940 TOTAL
CONSUMER DEMAND FOR FARM PRODUCTS RISING AS BUYING POWER EXPANDS
EARLY VEGETABLES HIGHER PRICED ON REDUCED SUPPLY, INCREASED DEMAND.
APRIL 1941
BUREAU OF AGRICULTURAL ECONOMICS

The agricultural situation during April is graphically explained in this map issued by the bureau of agricultural economics, United States department of agriculture. The general outlook is very favorable.

College Students Speed Studies to 'Beat' Conscription

EVANSTON, ILL.—The increasing influence of the conscription act will have widespread effects on higher education, according to Dr. Shirley A. Hamrin, director of Northwestern university's summer session and university college.

"Because many students will not be able to complete a four-year college course before they become eligible for selective service," he said, "many will take three years' intensive work, including three summer sessions, in order to get their degree before they become 21 years old."

Since the deferment of college students of draft age ends on July 1 of this year, students will not be able to predict their own status in the future. This will undoubtedly have some effect on enrollment, Dr. Hamrin said. He predicted, however, that unless war is declared, there will be little, if any, in regular year registration.

The Washington MERRY-GO-ROUND

By DREW PEARSON & ROBERT ALLEN

Washington, D. C.

EGGS AND STEEL

The senate could learn a lot from the house about brevity in public address. Members of the house have learned to express themselves without taking two hours—in fact, some of the best speeches last for only one minute.

The other day Congressman William L. Nelson of Missouri rose in the house and said, "Mr. Speaker, I ask unanimous consent to speak for one minute." Then he delivered himself of the following, within exactly 60 seconds. The gavel fell in the midst of applause from the other congressmen:

"Mr. Speaker, headlines and footnotes are always interesting and thought-provoking. In the metropolitan press I note such headlines as these:

Indiana Standard Clears $33,597,342.

Record Breaking Backlog by Republic Steel.

$20,076,739 Earned by Eastman Kodak.

General Motors has Sales Record with $1,794,936,640 in 1940.

Anaconda Copper Earns $35,052,699.

United States Steel Reports 26 Per Cent Business Rise.

And so on.

"Then, in contrast, I notice this footnote in a country weekly:

"Eggs, strictly fresh, 14 to 15 cents a dozen."

* * *

LABOR SHORTAGE

A totally different labor problem than strikes gives increasing worry to defense chiefs. Some even consider it more serious—eventually—than disputes between management and unions.

It is the problem of securing trained workers for vital defense occupations.

The Army-Navy Munitions board has just completed a confidential report listing 661 occupations in which serious labor shortages are likely soon. The report warns that the tremendous increase in production, as high as 60 per cent in some industries, is certain to aggravate the problem.

The training program of the National Youth administration and others will afford some relief, but the labor shortage is so urgent that authorities have quietly taken steps to cull skilled workmen out of the draft.

Over 500,000 men are slated to be called to the colors by July 1. And although the Selective Service law bars "group deferments" so desperate is the need for trained labor that draft boards have been advised to exercise the greatest care in inducting certain groups.

Among these are experienced merchant seamen, also apprentices in highly skilled occupations—lens grinders, toolmakers, chemists, aircraft mechanics, and other crafts which the Army-Navy Munitions board calls "occupations that have special significance in the national defense program."

* * *

AMERICAN RUBBER

When a government bureau moves fast, that's news. A bureau of the department of agriculture, beginning last August, has completed a survey of potential rubber production in 11 Latin-American countries and is now moving into two more.

But more important than speed, the survey is the first step in an important long-range plan to make this country independent of East Indian sources for rubber, and increase trade between the Americas. Earlier this year, congress appropriated $500,000 to the department of agriculture "to develop rubber production."

First objective is to establish two permanent experimental stations, one for Central America, the other for South America. It is almost certain that they will be located in Costa Rica and Brazil.

Brazil originally produced most of the world's rubber, but the seeds were smuggled out of the country by the British, who set up their own rubber plantations in Malaya. The present drive is to restore to Latin America her birthright in this essential product.

* * *

THRILLED A FARMER

A home town farmer friend was kidding homely Claude Wickard, secretary of agriculture, about sitting next to Clark Gable at the President's defense "fireside chat."

"You know, Claude," the friend said, "there are a lot of young ladies back in Indiana whose hearts fluttered when they heard you were paling around with a movie star."

"Well," replied Wickard ruefully, "that's just about the closest I ever came to getting the ladies excited."

* * *

MERRY-GO-ROUND

In the caste-bound British navy enlisted men can rise to the rank of lieutenant commander, but the U. S. navy does not permit enlisted men to take examinations for permanent commissions except in one branch—the supply section.

Dr. George A. Buttrick, former president of the Federal Council of Churches and a supporter of Herbert Hoover's plan to feed Nazi-occupied Europe, claims that Secretary of State Hull also approves the idea.

Walter Winchell

(WNU Service)

Notes of an Innocent Bystander:

Broadway Small-Talk: H. V. Kaltenborn described him as "Von Ribbentripe." When we used it the air officials gave us a spanking . . . There's a Society for the Prevention of Disparaging Remarks About Brooklyn — with headquarters in Manhattan . . . The East 35th Street station house is going after the clip-joints that "took" several visiting R.A.F. lads . . . If Sec'y of the Navy Frank Knox wanted to scoop the world, imagine all the daily beats (about naval matters) he could tip off to the editors of his Chicago newspaper.

Sallies in Our Alley: Hettie Cattell, the reporter, records the one about Charles MacArthur and another scribbler who worked with him on the same gazette. They were at the funeral of a pal (and almost as stiff as he was) when the minister intoned: "The Lord giveth and the Lord taketh away" . . . To which MacArthur yelled out: "Well, wot could be fairer'n that?" . . . The present feuding of the drama critics has started rumors that the Prize Play, instead of getting the customary plaque, will be awarded the Gene Tunney Belt . . . NBC wouldn't permit commentator John B. Kennedy to use this on the network: "The only thing left for Mussolini to do is go over Niagara Falls in a balcony."

Manhattan Murals: The 14th Street bookshop which prominently displays Earl Browder's book: "This Way Out" . . . The impoverished looking gink on 42nd Street who peddles "ten-dollar bills" three for a dime . . . The middle-aged swish who carries a woman's large purse, and stops in the street every few minutes to powder his nose . . . The sign in the Tenth Avenue mission house lobby: "People Who Don't Write Home Don't Rate One!" . . . The midget usher at the Roxy who stands in the center of the huge lobby with a spotlight on him. Looks like a fugitive from a totem pole . . . The 50th and 6th Ave. restaurant which invites epitaphs about Hitler for the window display . . . The 9th Ave. place which placards: "We trust our food pleases you. Otherwise we don't trust."

Private Papers Of a Cub Reporter:

Strikes and lockouts may deliver the knockout punch to the American way of life—that the Panzer divisions cannot. It is time for plain talking. Democracy depends upon the individual . . . It cannot survive upon the blood and sweat and tears of The Other Fellow . . . Unless management and labor are each ready to yield a point, Democracy will be forced to yield the field.

By June, one and a half million Americans will have left their homes and jobs for the Army and Navy . . . These boys are an example of sacrifice to both labor and capital . . . Their lives may depend upon American factories producing materials in time . . . Because Hitler's warehouses already are bursting with ammunition for use against us all.

These American boys know that the Battle of the Argonne was not fought on any six hour day—with time and a half for overtime . . . And they know, too, that the Minute Men never wasted a second waiting for a dividend check . . . The hour is too late for bickering . . . The time has come for all of us to think of public duty—instead of private right . . . Every strike in the nation could be settled at once if the executive in the front office (who gets $21 a day) and the man in the overalls (who gets $42 a week) would remember this: That the American soldier (who gets $21 a month) is ready to die for them both!

George Holland and George MacKinnon were bitter rival chattercolyumists on Boston newspapers . . . MacKinnon eventually quit and came to New York . . . He is now at Medical Arts Hospital, where he underwent a major operation . . . He almost had a relapse the other day when his estranged wife (also a Boston newspaper writer) wrote him that she was very sorry to learn about his being so ill—by reading George Holland's column!

A Union College prof has predicted that in ten billion years the sun will lose the fuel that keeps it going . . . Gosh! Another thing for Miami hotel-keepers to worry about . . . An Omaha reader writes that he asked a local German storekeeper why he opposed Hitler and Naziism . . . He replied: "Even Hitler's Aryan aircastles have bars on the windows."

Arthur Krock got agitated over the threat of Gov't censorship, and yelled "Boo!" in his New York Times colyum. One neighbor he failed to scare was the Topics of the Times pillarist, a column to his left. The Topicker, the very next day, kicked off: "Freedom of the press was never more widespread or more secure than it is today" . . . Hollywood reporters are ganging up against a censor threat. It would violate the freedom of the press, they feel, if they were made to agree on whom Betty Grable is eating her dinners with.

ORCHARDS NEED AMPLE NITROGEN

Vital Element Is Essential For Heavy Growth.

By E. F. SERR

(Extension Horticulturist, University of California)

Springtime is time for fruit growers to think of nitrogen. Fruit trees draw heavily on soil supplies of nitrogen while making heavy spring growth. Deficiencies are likely to develop, especially when most of the nitrogen is tied up in a cover crop. Consequently, early fertilizer applications are often needed to carry the trees through in good condition.

The foliage of trees suffering from lack of nitrogen is pale yellow rather than bright green in color. Usually the individual leaves are also smaller and the tree has a more open appearance, the foliage being relatively sparse in comparison with the dense growth of normal trees. The shadows cast by trees well supplied with nitrogen are noticeably darker than those of trees whose nitrogen supplies are low.

Supplies of available nitrogen in the soil vary greatly throughout the year. They tend to be high in late summer and low in early spring. This brings the low point in supply just when the trees need the largest quantities in order to make spring growth.

A late growing cover crop will increase the natural shortage of nitrogen because it will tie up large quantities used in its growth. This may not become available to the trees for a considerable time after the green manure has been turned under. When the cover crop is allowed to become mature additional nitrogen will be tied up while soil organisms are decomposing the woody material. These organisms actually take up more nitrogen from the soil. This competition for nitrogen from late growing cover crops is especially important in unirrigated orchards where summer rainfall is light or does not occur at all.

Nitrogen fertilizers applied early enough so that the nitrates are available in sufficient quantities during the period of rapid spring growth have been found effective and profitable in many areas. Peaches are especially responsive to fluctuations in the nitrogen supply in the soil.

Broody Chickens Waste Feed, Lower Egg Profits

A nest of broody birds is a sign of poor poultry management, says J. C. Taylor, associate extension poultryman at the New Jersey college of agriculture, Rutgers university. With the prevailing narrow margin of profits in the poultry business, no poultryman can afford to tolerate broodiness in his laying flock, he reminds poultry owners.

"It should be remembered that for every day a broody bird stays on the nest, it takes three days to break up her broodiness," Taylor points out.

"Good management requires the removal of all birds showing any tendency to broodiness to special pens or coops," he says. "All laying pens should be inspected the last thing in the evening for broody birds. They can be readily identified by their presence on the nests. Brood coops in individual pens provide a satisfactory way of confining them, or if the number is large the use of a summer shelter for confining the broody birds is very satisfactory.

"It is not advisable to restrict any of the feed in an effort to break up broodiness. Confining the birds in small coops is all that is necessary. The important point is to remove them from the nests at the first indication of broodiness."

Sudan Safe Pasture If Caution Is Used

To farmers who are wondering whether or not it is safe to pasture cattle on Sudan grass, W. L. Boyd, chief of the veterinary division at University farm, St. Paul, advises that there is little or no danger from prussic acid (cyanide) poisoning as a result of feeding this crop.

Exhaustive tests by members of the veterinary staff have failed to develop a single case of poisoning where Sudan alone was fed to stock. With sorghum or cane, however, the situation is different. Under some conditions sorghum is a very dangerous feed and even if there is only a little of it mixed with the Sudan pasture trouble may result.

Feeding Iodine to Cattle

The most convenient method of feeding iodine to dairy cattle is to combine it with salt at the rate of about one ounce of potassium iodide to 300 pounds of salt. To facilitate mixing this small quantity of iodine, first mix one ounce with eight ounces of slaked lime or cornstarch.

Another method of feeding iodine is to use the iodine tablets that you can secure from the regular veterinary supply houses, dissolving these in water as recommended.

Children's Wardrobe Problems Made Simple by Home Sewing

By CHERIE NICHOLAS

JACK'S beanstalk of fairy tale days has nothing on little girls when it comes to growing rapidly. They seem to change from day to day, once they pass the doll-like stage of babyhood. It's a problem every mother has to face, but it is surprising how simple a problem it becomes if you can sew. The many needed changes don't upset the most rigid budget if wardrobes are planned carefully.

In the first place cotton fabrics are not only practical and inexpensive but smart as well. This spring, sand-boxes and dancing school alike will see cotton frocks on all of Fortune's favorite tikes. There are innumerable enchanting fabrics that cost so little you can make a six-year-old daughter a complete wardrobe of spring frocks for five or six dollars.

It's smart this season, too, to make children's clothes from the same basic pattern, varying materials and trimmings. This is a blessing for a busy mother. You'll find most children's patterns are so simple this season that you can complete a whole frock in a couple of hours' time.

The princess silhouette, as graceful and becoming to almost every child as its name implies, is particularly favored right now. For playtime, make it of sturdy denim or striped seersucker. Percale and gingham, crisp and trim, are favorites for school, likewise pique, which is simply ideal for practical wear. You can get pique in the new pastels as well as in white. As shown in the illustration, the little girl standing has on a winsome frock made princess style. To add to its charm, it has a cunning zippered front fastening. Mothers find that these gay colored zippers prove a constant source of delight to youngsters.

When party time calls something more dainty, novelty organdy or dotted swiss would be a good choice, and as for dimity, it is more of a favorite than ever. An Alice-in-Wonderland dimity frock is the pride and the joy of the little girl seated in the picture. In size four, this little dress costs but a few cents over a dollar to make, including organdy frills, tiny pearl buttons, pattern and thread. The same pattern in gingham makes a cunning play frock.

A most commendable thing about the frilled organdy panel that adds such a dainty touch to this gown is that it is made detachable so that the frills may be laundered separately. One of the delights of princess frocks is that they also are easy to launder. No gathers, no pleats! Be sure you use boilfast thread when you are sewing, so that it won't run or fade. Also, if you want to leave an extra two inches in the hem to take care of rapidly growing legs, boilfast thread will leave no mark when the hems are changed.

The pinafore with its apron and bib, so charming for little girls, has been revived, and a very sensible fashion it is. A change-about of gumpes and skirts is a flexible wardrobe note to be remembered when active playtime makes many changes necessary. You can often use last year's outgrown dresses to make the apron and pinafore bib. Use the extra fabric of the sleeves for little ruffles over the shoulders or for a big pocket on the skirt to hold a favorite toy.

A good time to teach youngsters to sew is when you are making their clothes. With a little supervision, leftover pieces of material can be fashioned into doll clothes just like mother's. You can't start them too young, and doll clothes are by far the happiest medium of approach.

(Released by Western Newspaper Union.)

Twin Hankies

Striking accessory notes are a fashion "must" this season Your quest for novelty and chic should lead you to the handkerchief counter where you will be rewarded with a real "find" in the way of plaid hankies. The "trick" is to wear these plaids in pairs, as here shown. You may choose these hankies in little pin checks or big bold plaids, with background colors that match or blend with the latest colors. These hankies never fail to add that dash of spice to the always smart, simple suit.

Lace Redingotes

A pretty fashion to be worn in late spring and throughout summer is the long redingote made of sturdy lace in colors, and in black or white. It is perfectly stunning when worn as a summer wrap.

Pleats, Longer Jackets Mark Newest Spring Suits

Precision in tailoring mars spring suits for 1941. Fashion has determined that m'lady will wear pleats in the suit skirt—knife, box or twin box pleats in back or front, but plain at the side. The fashionable length for jackets is 24 inches or wrist length. Other details to keep in mind if buying or making a suit are single link closing, neatly squared shoulders padded flush with the arm, and hip flap pockets.

Take your pick of the so-called "open shirt" revers, or the elongated type that creates the impression of a longer waist. The fancy feminine suit has a shorter jacket with a definitely nipped-in waist and easy fullness in the skirt. Knife pleating, grouped pleats, new soft yokes, double flap pockets and chunky gold buttons are characteristics.

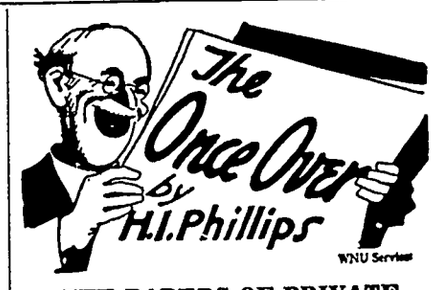
Chenille Dots in Veils Latest Addition to Hats

Ask at the veiling counter to see the new confetti veils. Chenille dots that look like huge snowflakes are closely scattered all over the fragile backgrounds. Cover your hat with this veil in billowy masses and you will achieve a true "spring" look.

All veils have a most fetching way about them this season. Their sole mission is to flatter and to lend allure. Little flower hats have as their main keynote whimsical colorful veils. Wide brims are also flatteringly veiled this season.

Dolman Sleeves

A coat destined to be a highlight in fashion is the new shirtwaist type with dolman sleeves. Its utter simplicity of cut and styling is its charm.



THE PAPERS OF PRIVATE PURKEY

Dear Ma—

I got your last letter and I wish you would stop worrying about me not getting enough sleep on account of having to get up so early in the morning. It won't do no good for you to write the camp general telling him that you know I need more sleep and will only make me a laughing stork. And, ma, it is silly for you to say you think maybe you can inflooence the general to let me sleep later mornings on account my grandfather served in the Spanish-American war. They don't even rate that as a war any more.

* * *

Anyhow I get enough sleep even if they do make me get up at daybrake. I know when I was home I couldn't get to sleep when I went to bed at 9 or 10 but up here I am plenty tired and I don't have to count no sheep. But there is one feller in my tent who has insomania and he keeps hollering "Halt" over and over all nite because insted of counting sheep he tries to challenge 'em. I got used to this now and he don't bother me.

* * *

I gess it aint so bad being in a army today because a mess sergeant up hear who was in the last war says they had insects called cooties in it and he made me itch all over by just describing 'em. He says they were a cross between a soft shell crab and a bedbug but we never had no soft shell crabs in our house, ma, so the descripshun is lost on me partly. He says these camps are so sanertarry that a soldier cant even get dirty if he wants to and he says no man can say he is a war hero until he has had cooties.

* * *

He says the reason the Allies licked Germany in the last war was the German soldiers had more cooties on 'em than the allies and he says if we get into this war it will be settled the same way.

* * *

The cooking is a lot better now that the cooks are getting out of the amachure class but how I would go for some of your griddle cakes or frickerseed chicken, ma. Somehow a frickerseed chicken in an army looks like the bird was still resisting up to the minitt the chef stopped cooking it. Nobody can make soup like you can either ma. The soup in a army always tastes like the cook wuzzent sure if he was making a soup a chowder or a stew.

* * *

I know how to oil a gun now, ma. I always thought a gun was self oiling. All I knew about guns was what I seen in the moving pitchers and I never saw nobody oil a gun even Jimmy Cagney. But I learnt here that a gun has to be loobercated and it is quite a job. The captain says oil is the life of a gun and I give mine plenty of oil as I want it to live to reach a ripe old age. I am glad you liked the snapshot I sent. It was taken after inspeckshun. We get inspected every few minutes and they are very fussy if they find a little thing like a thread on my shoulder or a button off. The army is very particular about buttons and I gess the general thinks one button off a coat can lose a battle.

* * *

I still wish they had cavalery in war as I luv horses and I think it is more fun to train on horseback than on foot but war has got so bad that horses won't have nothing to do with it.

* * *

Well, there goes the bugle for another drill but don't worry as it is all automatic with me now and when I aint drilling I think sumthing is all wrong.

Your loving son,
Oscar.

Ask Me Another

A General Quiz

The Questions

1. Which science has been called the dismal science?
2. Whose inventions made the motion picture an accomplished fact?
3. What makes a fish so slippery?
4. What is the explanation of sun dogs?
5. In what naval battle did Cleopatra figure?
6. How far is a pitcher's box from home plate?
7. Who discovered radio waves?
8. In Oliver Wendell Holmes' famous poem, how long did the wonderful one horse shay run before it collapsed?
9. In ancient mythology Cerberus was what?

The Answers

1. Economics.
2. Thomas A. Edison.
3. Its body is covered with a mucus, constantly secreted by special glands, which minimizes the friction between its body and the water.
4. According to the U. S. weather bureau, this term, applied to a form of halo around the sun, is caused by the refraction of sunlight by myriads of tiny six-sided ice crystals floating in the upper atmosphere.
5. Actium.
6. Sixty feet five inches.
7. Heinrich Hertz.
8. One hundred years.
9. A dog which guarded the gates of Hades.

J. Fuller Pep

By JERRY LINK

The widow Brown who's been sparkin' old Jed Moore says it isn't Jed's *dancin'* that fascinates her; it's his "pep appeal."

Which shows she's a discernin' woman, because Jed's a full-fledged vitamin fan and eats his KELLOGG'S PEP every morning.

PEP hasn't got all the vitamins, of course, but it's extra-long on the two that are extra-short in many people's meals—B_1 and D. What's more, it's plumb delicious. Why not try it tomorrow?

Kellogg's PEP

A cereal rich in vitamins B_1 and D

Local Happenings

Klemme and Vicinity

Rev. and Mrs. Wm. Zabilka and son, Billy, were visiting at Fort Dodge, Saturday.

Mr. and Mrs. Ernest Gerardi and little daughter, Gracka Maria, visited at Mason City, Friday.

Duane Johnson and Wayne Buseman, of Fort Des Moines, spent the week end visiting in Klemme.

Mrs. J. E. Stille and Mrs. J. C. Thomas were Mason City visitors, Saturday.

Mr. and Mrs. W. H. Galbreth and baby son, Billy, spent Sunday visiting at the Rev. Wm. Galbreth home in Mason City.

Ray Jorgenson, Jr., and his roommate of Simpson College at Indianola spent Sunday visiting at the R. A. Jorgenson home.

Ira Overholt was on the sick list the fore part of the week and unable to be at the implement shop Monday.

Granpa Henry Freie is again seriously ill after suffering two strokes, Sunday. At this writing he is somewhat improved.

Mrs. R. W. Specht and son, of Garner, were guests at the home of Dr. and Mrs. W. F. Missman, Sunday.

Mr. and Mrs. Wayne Pavey and baby daughter, Carol Ann, were at Clear Lake on business Saturday evening.

Miss Marie Schmidt, who is a freshman at the State Teacher's College at Cedar Falls, spent the week end visiting with her parents southwest of Klemme.

Mr and Mrs Harvey Hubbard, Glenn Bridges and family, Orville Stokesbary and family, Kermit Koerner and Roger Ridder enjoyed a picnic at East Twin Lake, Sunday.

Mr. and Mrs. A. L. Kingery took Mr. Kingery's mother, Mrs. Eva Kingery back to her home at Greene, Saturday, after she had spent a week visiting in Klemme.

Dr. and Mrs. C. B. Tice, of Mason City, and Mary Griffen of Minneapolis came Friday evening and were guests at the home of Mrs. C. A. Arnold.

Emil Patet is repainting his residence in southeast Klemme. Mr and Mrs. Patet purchased the property several months ago. It was the former Ben Swalve residence

Mr. and Mrs G. E. Shirley and Mrs. Frank Woodhouse, Marjory Mary and Raymond of Plymouth, were Sunday dinner and supper guests at the home of Mr. and Mrs Wayne Pavey.

Mrs. Ernest Lewis spent the past week at Grundy Center assisting her mother with house work on the farm. Mr. Lewis drove to Grundy Center, Sunday, to bring Mrs. Lewis home.

Miss Glenna Gruetzmacher, who teaches at Winthrop, and Harold Gruetzmacher, who teaches at Carrol, came to attend the funeral of their grandmother, Mrs. Haefner, held Sunday.

Herman Schleusner, of Garner is spending a week or more in Klemme visiting at the Quentin Stille home. Mr Schleusner is helping Mr. Stille with spring work at the cemetery.

Mrs. Frank Gruetzmacher, who has been at Excelsior Springs, Mo., taking treatments, was called back to Klemme by the death of her mother, Grandma Haefner, whose funeral was held Sunday.

Rev. Calvin Grosshuesch and Elder George Theiman of the Klemme Reformed Church left Monday noon for Fountain City, Wisconsin to attend a meeting of the Minnesota Classis. They expect to return today, Wednesday.

Glenn Stokesbary, who went to Oskaloosa a week ago to work in a printing office, returned home again Monday. Glenn lacked the exience to hold down the job. Glenn had been assisting at the Times for a couple of weeks before going to Oskaloosa to work.

The Senior class play which was given Friday evening, was attended by a record crowd. The play was greatly enjoyed and was well given. The seniors deserve a lot of credit for the splendid manner in which they acted out the parts.

Mrs. Arthur Wellemeyer spent several days of the past week assisting her daughter, Mrs. Donald Bacon at her farm home near Thompson. The Bacons purchased a farm which they moved on this spring and have just completed a house remodeling job.

George Bowles, who teaches at Charles City, came Friday evening for a visit with his brother, Coach "Bodge" Bowels and to attend the class play. George and "Bodge" drove to Waterloo Saturday morning and spent the week end visiting with their sister and family.

Kenneth Kluckhohn and Donald Turgasen, of Nashua, spent Sunday in Klemme visiting with relatives and frends. The young men demonstrate and sell aluminum cooking utensils and have headquarters at Nashua and work out on the territory from there.

Dr. and Mrs. M. C. Jorgenson of Watertown, South Dakota, spent Sunday in Klemme visiting at the Dr. A. H. Dulmes Home. Dr. Jorgenson and Dr. Dulmes were class mates in medical school at Northwestern Universtiy. Dr. Jorgenson and wife were starting on a vacation trip to New Mexico.

Herb Bailey returned home from Rochester, Minnesota, Monday evening. He reports that Mrs. Bailey underwent a major operation at the Mayo hospital and that she is getting along as well as can be expected. Her daughter, Miss Ruth, is with Mrs. Bailey for the balance of this week.

George Lawhorn is wearing a big patch over his right eye George has been suffering severe readaches the past week, which seems to have affcted his vision George sees two objects with his right eye instead of one, and it rather confuses him, so he keeps it covered until the vision again becomes normal.

Leo Brinkman, who has been a patient at the Mercy hospital for the past three weeks, where he underwent a major operation, had another operation performed Sunday evening. However, it was of a minor nature and performed to speed up Leo's condition. Leo is making a good recovery and reports are favorable.

"How the cannibals' wives saved me from their wife-trading chief." An Explorer's wife tells how the Papuan headhunter wanted to swap 7 pigs for her, the first white woman the tribe ever saw, but the shrewish, bossy women of New Guinea went to the rescue. Read Mrs Clo Wind's own story of her Thrilling adventures in the American Weekly, the magazine distributed with next week's Sunday Chicago Herald-American.

Otho Keraus, eldest son of Mr. and Mrs. W C Keraus of Klemme, and who has been employed as a printer on the Swea City Herald for the past five years, leaves today, Wednesday, from Kossuth County as a volunteer for a year of military service Sunday Mr and Mrs Keraus had dinner in honor of Otho. Otho learned the printing trade at The Times Office. He expects to enter the printing trade in the army after he has had his military training.

Friday, Mr and Mrs. John Day moved their household goods from their own home to the Dorance Day house just across the park and one block east of their home where they have lived for the past twenty-five years. The Harvey Barz family moved in the Day house on Monday, and the "Ole" Ramsay family moves out of the Mrs. Henry Wille house to the place vacated by the Barz family, on the east side of the park. We have not learned who moves into the Mrs Wille residence.

GET ROSES IN SOON IF THEY'RE BEING PLANTED

If you plan to replace the roses that were killed out during the winter, be sure to plant them within the next few days—before the end of the week, if possible, says L. C Grove, Iowa State College extension horticulturist.

Here are a few tips for planting hybrid tea roses:

Prepare the soil to a depth of 1½ feet, set the "swollen" joint or knuckle several inches below the soil level, and most important of all, tramp the soil in hard around the roots. Prune the canes back severely to an outside bud, allowing about three buds on each stub Mound the soil over the stubs to prevent shriveling When the shoots are about 1½ inches long, pick a calm cloudy day to brush away the soil.

The roses will produce more and bigger blooms if some well-rotted cow manure and several handfuls of bonemeal or superhosphate are worked into the soil. Roses grow best in areas that are shaded during part of the afternoon.

SPORTS NEWS

The "Shamrocks" traveled to Goodell last Thursday and turned in their first baseball victory of the season by a 5 to 1 margin. Klemme's runs came in during the second and seventh innings.

Goodell's lone run came in during the last half of the seventh inning. Goodell was credited with 5 hits and 1 run. Battery for Goodell was W Beller and Peterson.

Klemme had a total of 6 hits and 5 runs. Battery for Klemme was L. Kaduce and Grosshuesch.

DRAMATICS

Practice has started this week for the two one-act plays, 'The Neighbors," and "Misundersood Smith." These plays will be given May 16 at the Class Day exercises.

MUSIC NOTES

The Band played for the Arbor Day program last Friday at school when a tree was planted in back of the schoolhouse

The following are the entries at the State music contest at Wavery, May 1, 2, and 3. Also listed is the time of their appearances:

Clarinte Solo, Billy Zabilka, on Thursday at 1 15 P. M

Boys' Glee Club, Friday 8 A. M.

Saxophone Quartet, Friday 7:15 P. M

Marimba Solo, Irene Becker, on Friday at 7 14 P. M.

Good luck, Contestants!

If you folks around town and neighboring country folks are wondering what those strange noises you hear in the morning are, it's just the band out practicing marching to get their exercise before school.

FRESHMAN NEWS

Due to circumstances beyond their control the freshman girls were dubbed these nick-names:

Julia Bell	Toots
La Vonne Christie	Zanzi
Barbara Johnson	Babs
Nadine Kimball	Charlie
Eunice Larsen	Dub
Mavis Neuhring	Red
LaVohn Schlawin	Cookie
Doris Spitler	Freckles
Shirley Wesslund	Shorty
Mildred Busse	Musse
LaVonne Hanson	Bonnie
Freda Kaduce	Fritz
Phyllis Klotzbach	Phil
Corrine Merkel	Lizzy
Marie Perkins	Perkie
Wava Schoenwetter	Schone
Corrine Greiman	Billy
Miss Ott	Peggy

that until after we graduate.

But she said we couldn't call her Peter's rabbits.

The following boys and girls were on the committees for the party Thursday afternoon: Food Committee, Lucille, Jacqualea, Peter, Larry, Nancy and Harley. Favor Committee, Ruth, Iris, Maxine; Delores, Sondra, Janice, and Maralee. Serving Committee, Kindergarten class. Clean-up Committee, Jo Ann, Beverly Ann and Richard.

We had thirteen visitors at our party. This made forty boys and girls in our room. We had a good time.

Grade News

KINDERGARTEN, GRADES 1-2

We went on a field trip Wednesday afternoon to look for signs of Spring. We also saw Nancy and

GRADES 3-4

Dolores treated us to candy on her birthday. We all wish her many more happy birthdays.

Fourth Grade finished our readers, "The Childrens Own Readers."

Third Grade finished our "If I Were Going" readers.

We took part in the Arbor Day program Friday.

We made up a play which Iris, Marjory, and Phiyllis acted out.

The following had 100 per cent in spelling· Marjory, Isabelle, Dorance, Phyllis Stokesbary, an dLuella.

GRADES 5-6

Both grades took a self-testing drill in arithmetic his week. The sixth grade got a rating of en, excellent. Seven was the fifth grade score. Phyllis and Roger Bock had star ratings.

The sixth graders are studying "The Baltic Countries" in geography

We have started work on poem booklet covers. We are going to put the original poems we wrote this year in them.

The people who earned perfect spelling scores are Irene, Darwin, Rose, Ruth, Esther, Helen; Delores, Willis, Velma, Dean, Roger R, Phyllis; Ruth Stokesbary, Elidabeth, Mary Lou and Roger Bock.

In English we studied the picture "The Windmill" by Jacob van Ruysdael.

Clarence, Ruth Stokesbary and Roger Ridder are taking part in the Arbor Day program.

GRADES 7-8

Robert Tiggerman brought the first violets to school this year.

Our room won the contest selling tickets for tse Senior Class play.

Junior Buntenbach and Patricia each sold twenty-six tickets. Edward Barz was third high.

LaVonne, Patricia, Ronald, Ruth, and Bobby earned perfect spelliny scores.

Hunters

England has her foxhunts; Wayne county, Iowa, has her "rabbithunts". Last week a number of men gathered at the Will Hogue farm near Corydon for the purpose of chasing jackrabbits about the county. Three rabbits were accounted for.

-oOo-

New Board

E. T. Hughes of Selma went to considerable trouble to make a cribbage board but the results are worth it. The board is made from eight varieties of wood. The wild cherry, maple and mulberry he obtained himself, the walnut had been gotten at Selma, holly from the Pacific coast, the vermillion from East India, the amaranth from British Guinea. The ebony also came from a foreign country.

-oOo-

Pulled Loose

Those who were in Shipley's Cafe at Algona one day on for a wondered what was going on for a while. A tree that was being cut down fell in the wrong direction and went across city electric wires fastened to the cafe. The wires and part of the back wall were pulled out of the building.

-oOo-

Saved

The quick work of Eddie Sturm at the Stetezel Hatchery in Carroll saved Harold Mosman from serious injury. Harold was under the eleavtor when Paul Mosman's scream caused Sturm to stop the elevator just as it touched Harold.

-oOo-

Farm Sales

Some interesting farm transfers were made in Grundy county recently when Ferdinand Henze, 81, sold his six farms to his six sons. The farms consisted of 900 acres

-oOo-

Lost

Two days last week John Veith, Reinbeck, looked for his purse containing $20. He found it—in the wide cuff in the trousers he was wearing. It evidently had been there during the time he was searching.

-oOo-

Surprised

Remko Johnson of near Waverly wonders if he may expect a flood soon, because he says wild animals always seek higher ground at such time. Last week, as he opened the door of his house a large muskrat entered.

THIS WEEK'S MENU

Supper for Fifty

***Deviled Beans in Buttered Noodles**
***Perfection Salad**
Hot Rolls or Boston Brown Bread
***Fruit Whip**
Coffee Tea Milk
***Recipes Given.**

agree on that. So, with this in mind, here are recipes that will complement your very important main dish:

***Perfection Salad.**

Soak 10 tablespoons of gelatin (five envelopes) in 2½ cups cold water for five minutes. Add 2½ cups mild vinegar, 10 tablespoons lemon juice, 10 cups boiling water, 2½ cups sugar, and five teaspoons salt. Stir until dissolved and set in a cool place. When mixture begins to stiffen, add five cups finely shredded cabbage, five cups diced celery, 10 finely chopped pimientos and 30 small sweet pickles, chopped fine. Pour mixture into shallow pans that have been rinsed with cold water. When "set," cut into squares and place each square in a lettuce cup and top with mayonnaise. You will need 5 or 6 large heads of lettuce for 50 servings.

***Fruit Whip.**

1 quart fruit pulp
1 quart sugar
4 egg whites
¼ cup lemon juice

Put fruit pulp, sugar and unbeaten egg whites into a mixing bowl and beat until stiff. Chill. Serves 50. (In this quantity, dessert whips should be made with a power beater or mixing machine).

* * *

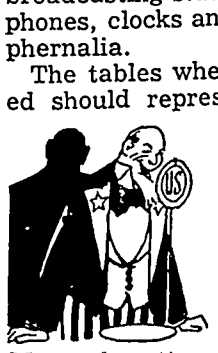
When feeding a crowd, the marketing problem may present difficulties. You will need six dozen rolls (depending on the size) to serve 50. As to beverages, put these amounts on your list: three pounds of coffee, ⅓ pound of tea or three gallons of milk — each of these amounts will serve 50.

* * *

Supper over, what next? Entertainment, of course. Half the success of a party lies in the "after-dinner" program.

And why not a radio party? Arrange the stage to represent a broadcasting studio . . . with microphones, clocks and other radio paraphernalia.

The tables where guests are seated should represent the radio stations of the American Network . . . a table for each state of the Union. Each one should be marked by its call letters (MINN for Minnesota, MASS for Massachusetts, etc.) . . . and each one appropriately decorated—miniature orange grove for California, wheat field for North Dakota, maple sugar trees for Vermont, a large pot of **baked beans** for Massachusetts, apple orchard for Oregon, dairy scene for Wisconsin, plantation scene for Virginia, etc.



Guests are seated at the table representing their birthplace. (This will work wonders in mixing up your crowd).

If each group is small, several states may be combined into one station, such as Station NEG (New England group), or Station NWG (Northwest group).

A master of ceremonies, dressed to represent Uncle Sam, invites all stations to tune in for the "coast-to-coast" broadcast. The program may be as varied as the talent available. A full hour show, consisting of music by instrumentalists or an orchestra . . . singing by a quartet or soloists . . . a dramatic sketch . . . etc.

A novel addition to your program would be a Professor Quiz type. Ask for volunteers to answer the questions submitted by the audience.

A prize can be offered for the best answers.

Commercials and time signals should be interspersed throughout the program. These may be announcements of forthcoming meetings, services, etc.

IMPROVED UNIFORM INTERNATIONAL

SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Dean of The Moody Bible Institute of Chicago.
(Released by Western Newspaper Union.)

S. S. Lesson for May 4

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

THE CHURCH ENLARGING ITS FELLOWSHIP

LESSON TEXT—Acts 8 1-8, 14-17, 25.
GOLDEN TEXT — Therefore they that were scattered abroad went everywhere preaching the word.—Acts 8 4.

In a time characterized by materialism and commercialism, it is refreshing to consider the manner in which the early church spread the gospel far and wide. They did this without thought of personal gain or advantage, and with a sacrificial devotion to Christ which caused men and women to be willing to die for Him, and, what may sometimes be even harder, to live for Him in the face of persecution. Here was loyalty that puts expediency to shame, and sacrifice of self for Christian principle which needs emphasis in this "soft" age.

The enlarging of the church is revealed by our lesson as being

I. By Death or by Life (vv. 1-4).

Stephen, one of the deacons, "a man full of faith and of the Holy Ghost" (6:5), was stoned because of his testimony for Christ. He became the first martyr of the church, leading the line of those noble men and women who down to our own day have been ready to die rather than to deny Christ. The day may not be too far distant when some of us may face that decision. Are we ready?

To every one of us who is a Christian comes the necessity of living for Christ. Some in Jerusalem died (v. 2), some were imprisoned (v. 3), but notice that the others were scattered abroad, like brands from a fire, carrying the message of God's Word. They were not afraid, did not go into hiding, nor did they "adjust" their message to meet the circumstances. They went "everywhere preaching the word."

While persecution may sometimes hinder the spread of the gospel, it also frequently stirs the zeal of God's people to preach and teach. Just now in the midst of the havoc of war and persecution the good news of salvation is spreading in lands which hitherto knew it not. Are you and I doing our part?

II. By Preaching That Brought Joy (vv. 5-8).

Philip, a layman (the first of many great evangelists) and a Jew, went to the despised Samaritans with the gospel, and God so signally blessed his ministry that a great revival broke out and "there was much joy in the city."

What we need is more gospel preaching and teaching. You laymen, please note that you are not to wait for the preacher to do it. Spread the good news yourself. And note too that it is to be preached to all people, even to those whom we might (humanly speaking) be tempted to despise, either by reason of race or position in life. It was a glorious thing that happened to Philip in Samaria. It can happen again, and "it can happen here."

III. By Fellowship That Brought Blessing (vv. 14-17).

When the church at Jerusalem heard what had happened in Samaria, they were overjoyed, and sent two of their leaders, Peter and John, to encourage and counsel with the new converts.

Such fellowship always brings blessing, and in this case it was unusual blessing; namely, the gift of the Holy Spirit. On this occasion God thus gave these new Samaritan believers the blessing and power of the Holy Spirit in such a way as to bind them in fellowship to the church in Jerusalem. Jew and Gentile believers in Christ thus were joined in one communion of love and faith.

IV. By Broadened Vision That Brought Action (v. 25).

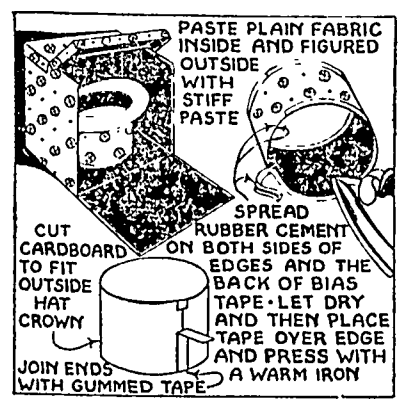
Peter and John had completed their work in Samaria and were on their way home to Jerusalem, but what they had seen had given them a new vision. They acted on that vision, and as they passed through the villages of Samaria they "preached the gospel" with joyful hearts. What an interest and stir they must have created!

It is one thing to see an opportunity and a need; it is quite another to do something about it. For that, one needs determination of purpose. As Lloyd George put it, "You cannot fight a winning battle with a retreating mind." These apostles were reaching out for God, and under His leadership and blessing, into the villages of Samaria.

The Christian church needs more real consecrated action; that is, in the name of Christ and for His glory. The business man who conducts his secular affairs with enthusiasm and dispatch, often forgets all that in his church duties He advertises and seeks new markets for his goods, but is not interested in the outreach of the church. He can get excited about the Rotary Club or the Lions or what not, but never develops the slightest enthusiasm about the Lord's work. It goes without saying that such a "picture" is all out of focus. Let's make it right. Vision? Yes, by all means. But also action for God.

NEW IDEAS for Home-makers

By RUTH WYETH SPEARS



PASTE PLAIN FABRIC INSIDE AND FIGURED OUTSIDE WITH STIFF PASTE
CUT CARDBOARD TO FIT OUTSIDE HAT CROWN
SPREAD RUBBER CEMENT ON BOTH SIDES OF EDGES AND THE BACK OF BIAS TAPE · LET DRY AND THEN PLACE TAPE OVER EDGE AND PRESS WITH A WARM IRON
JOIN ENDS WITH GUMMED TAPE

FEMININE headgear usually holds its shape best if it rests right side up on a stand that fits inside the crown, but this is not true of a man's hat. Its dashing lines may be preserved by placing it upside down in a holder.

The man's hat box, shown here, is covered on the outside with maroon and blue cotton print and lined with blue chambray. The lid and the front of the box are hinged with adhesive tape before the covering is pasted on with stiff paste. The stand is made of cardboard, as shown in the sketch, and is covered to match the box. The maroon bias tape edging of the stand is cemented in place in a way that you may find useful in making many other things. The secret is in spreading the cement evenly on both surfaces, letting it dry, and then vulcanizing the two together with the heat of the pressing iron.

TIPS to Gardeners

TRIM FLOWER GARDEN

THERE is much value in keeping the flower garden trimmed. Wise gardeners pick bouquets of favorite annuals like Marigold, Zinnia, Petunia, Sweet Peas and Snapdragon with systematic regularity, for the picking promotes continued blooming.

Periodic trimming is not best for such small, low-growing edging flowers as Alyssum. A complete cutting, however, will benefit this type of plant. This treatment may be applied to Ageratum, Linaria, Lobelia, and Nemesia as well as Alyssum.

Pinks, Cynoglossum, and Dwarf Bedding Rust Resistant Snapdragon are grown both for cutting and for garden beauty, but they too will profit by a thoroughgoing "haircut" such as that prescribed for the smaller, edging favorites.

It is advisable to pick the flowers of certain popular perennials when they are in their prime, to prevent their running to seed, and to promote the production of a second crop of blossoms in a single season. Delphinium, Sweet William, Coreopsis, Perennial Dianthus, and Pyrethrum should be handled in this manner.

Enthusiastic Spirit

Enthusiasm is that secret and harmonious spirit which hovers over the production of genius, throwing the reader of a book, or the spectator of a statue, into the very ideal presence whence these works have really originated. A great work always leaves us in a state of musing.—Isaac D'Israeli.

So You've Tried Everything?

and are still miserable with stomach gas! Spoils your sleep, and you hardly dare eat. ADLA Tablets bring QUICK relief. Your druggist has ADLA Tablets. Get them today.

Household Hints

Never scrape kitchen utensils with a knife. Use a stiff brush dipped in scouring powder to remove stains and burns.

* * *

If short of eggs when making scrambled eggs for the gang, add a tablespoon of fine bread or cracker crumbs for each egg short —up to half eggs and half crumbs.

* * *

To prevent metal salt-shaker tops from corroding, cover the inside of the tops with paraffin.

* * *

To keep down the cost of operating a mechanical refrigerator it is important to watch the frost on the cooling unit and defrost as often as it is necessary.

TRAIN FARM BOYS FOR NEW FIELDS

Present Vocational Training Mostly for Agriculture; It's Overcrowded

Iowa's farm youths need more vocational education to direct them out of farming and into pursuits with possibilities of future employment, suggests J. Allan Beegle, economist at Iowa State College, writing in the April Farm Economist.

The economist says most vocational training given farm youth has been in agriculture, where many youths cannot hope to find employment. He points out that at present Smith-Hughes teachers are conducting part-time classes with an enrollment of some 2.000 young farmers in Iowa.

Defense Schools

Beegle says that now, however, some 90 emergency "defense schools" have been set up in the state and are giving 120 hours of training m automobile repair, welding and elementary electricity to 1,300 to 1,400 youths, aged 18 to 24 As part of the defense effort. 1,000 youths of the National Youth Administration are enrolled in commerical, homemaking and mechanical courses at 90 points in Iowa

"These two programs may help more farm youths off the farm," the economist says, "but their combined enrollment is less than 1 percent of the 300,000 to 400,000 Iowans between the ages of 20 and 35."

High Schools Must Help

He says it seems likely that high schools will have to provide the vocational training for Iowa youth. The difficutly, here, he points out. is that the farm boy who attends a 1-room school in Iowa has little better than a 50-50 chance of getting a high school education because of the expense involved,

Hancock County Board Proceedings

1ST ADJOURNED APRIL MEETING

Garner, Iowa, April 21, 1941

The Hancock County, Iowa, Board of Supervisors met on above date wtih G E. Klipping, F. J. Schoun and Penn Eckels present.

The minutes of the last meeting were read and approved as read

On motion and second the Workman's Compensation Policy No. 221,506 of the Iowa Mutual Liability Insurance Company, is approved.

Supervisor Schoun is appointed a committee to investigate and cause repairs to be made in D D. No. 3 and 4, lateral 4, D D. No. 3 and 4 Main and D D. No. 102, lateral 150.

Supervisor Klipping is appointed a committee to investigate and cause repairs to be made in D D No. 3 and 4, lateral 36, D. D No. 7, section 5, D. D No. 1 and 2, lateral 1, D. D. No. 13, lateral 2 and D. D No. 7

In the matter of a cash allowance for Howard Hunsley, his cause having been investigated and he being found worthy of such aid,

BE AND IT IS HEREBY RESOLVED by the Board of Supervisors of Hancock County, Iowa, that Howard Hunsley be given a cash allowance of $10.00 per month, to be paid from the Poor Fund of Hancock County, Iowa, at the end of each month until further notice and that the County Auditor be and he is hereby authorized to draw warrants in favor of Howard Hunsley as by law directed

BE IT RESOLVED, by the Board of Supervisors of Hancock County, Iowa

That pursuant to the provisions of Chapter 246 1 Code of Iowa, 1939, it is hereby ordered

1 That each owner and person in the possession or control of any lands in Hancock County shall cut, burn or otherwise destroy all noxious weeds thereon, as defined in this chapter at such times in each year and in such manner as shall prevent said weeds from blooming or coming to maturity and shall render the streets or highways adjoining said land unsafe for public travel. Noxious weeds shall be cut or otherwise destroyed on or before the following dates and as often thereafter as is necessary to prevent seed production.

Group 1 June 20, 1941, for Leafy Spurge, Perennial Peppergrass, Sour Dock, Smooth Dock, Sheep Sorrel

Group 2 June 20, 1941 for Canadian Thistle, Russian Knapweed, Buckhorn, Wild Mustard

Group 3 July 10, 1941, for Field Bindweed, Wild Carrot

Group 4 July 15, 1941, for Perennial Sow Thistle, Horse Nettle, Quack Grass, Butter-Print, Puncture Vine, Cocklebur

2 That each owner and each person in the possession or control of any lands in Hancock County infested with any primary noxious weeds including quack grass, perennial sow thistle, Canada thistle, field bindweed, horse nettle, leafy spurge, perennial peppergrass, Russian knapweed, shall adopt a program of weed destruction, described by the, Weed Commissioner which in 5 years may be expected to destroy and will immediately keep under control such infestations of said primary noxious weeds

3 That all weeds other than primary noxious weeds on all county trunk and local county roads and between the fence lines thereof shall be mowed by the adjoining property owner to prevent seed production on or before July 15 1941 second cuting not later than September 20 1941

4 That if the owners or persons in possession or control of any land in Hancock County fail to comply with the foregoing orders the Weed Commissioner shall cause this to be done and the expense of said work, including costs of serving notice and other costs if any, be assessed against the land and the owners thereof

5 That the County Auditor be and is hereby directed to cause notice of the making and entering of the foregoing order by one publication in each of the offical newspapers of the county

The foregoing resolution was offered and read by Superisor Schoun who moved its adoption, seconded by Supervisor Klipping whereby the Chairman placed the motion of its adoption and upon roll call all members were present and the vote thereon is Penn Eckels George Klipping and Frank Schoun Aye

FRED C MISSAL, County Auditor

On motion and second Board adjourned to April 29, 1941 at 9 o'clock a m

ATTEST
Fred C Missal, County Auditor
Penn Eckels, Chairman.

SUPPLEMENTAL MINUTES

April 21, 1941

WHEREAS, Hancock County Iowa desires to adopt the Food Stamp Plan in cooperation with the Federal Surplus Commodity Corporation under the direction of the Secretary of Agriculture at Washington, D C, and

WHEREAS, Hancock County, Iowa desires to extend the Food Stamp Plan to all persons receiving public assistance and

WHEREAS, for the operation of such plan it is necessary to set up a revolving fund in the sum of $3,000, to be known as the Hancock County Food Stamp Revoling Fund.

BE IT THEREFORE RESOLVED, by the Board of Supervisors of Hancock County, Iowa, that a Hancock County Food Stamp Revolving Fund in the sum of $3,000 be set up and the county auditor is horeby directed to draw a transfer warrant authorizing the county treasurer to transfer $3,000 from the Emergency Fund of Hancock County, Iowa, to the Hancock County Food Stamp Revolving Fund, and the county treasurer is hereby directed to carry said fund on the records of Hancock County

The foregoing resolution was offered and read by Supervisor Klipping, who moved its adoption, was seconded by Supervisor Schoun, whereupon the Chairman, Penn Eckels, placed the motion of its adoption and on roll call the vote is F J Schoun, G E Klipping, Penn Eckels, Aye Nays none

Board adjourned until April 29, 1941

ATTEST·
Fred C. Missal, County Auditor
Penn Eckels, Chairman.

Locating Stawberry Bed

When selecting a spot to locate that strawberry bed this spring, make sure to pick an area that was clean cultivated last year, says S H. Edgecombe, Iowa State College extension horticulturis. Last year's sod land may be badly infested with wire worms and white grubs which could do considerable damage to new strawberry plants.

County Auditor

OLDER BIRDS ARE SPREADERS OF TB

That's One Good Reason for Keeping Chicks Away From Hen Flock

This spring grass which is so tempting to young chickens may be the means of spreading avian tuberculosis—a threat to the profitable raising of both poultry and hogs, warns W R. Whitefield, extension poultry husbandman at Iowa State College

Whitefield says this disease is contributed by old stock and that the only method of control is to segregate young and old stock Birds up to 1 year are very seldom infected. A survey of Iowa, however, has revealed that about 15 percent of all poultry from 1 to 2 years have the disease.

Use Range

"Young birds should be taken from the brooder house to range or summer shelter until old stock is sold," the specialist says. "When the hen house is cleaned the birds can be taken in from the range."

The disease is spread to hogs through the bacilli m the droppings of chickens. Records show that about 90 percent of the hogs that are retained at the market by the United States Bureau of Animal Industry on account of tuberculosis have the avia type of tuberculosis and only about 10 percent have the bovine type.

Can Wipe Out TB

Whitefield recommends that, this spring, chickens be raised apart from the old flocks and on clean range If there is no tuberculosis in a flock, he says it is not necessary to sell off old hens, as this practice is not recommended as anything but an emergency measure to control tuberculosis. In any case, however, it is well to house and yard old hens apart from selected birds.

The specialist says that if the practice of segregation and raising on clean ground is followed for 1 or 2 seasons that tuberculosis, as well as some other poultry diseases, will be wiped out He warns that to prevent introduction of the disease into clean flocks, adult stock never should be brought to the farm. New stock m the form of eggs and chicks never carry tuberculosis and should be purchased instead of older birds.

Whitefield also said that the practice of trading cockerels is bad from the standpoint of controlling tuberculosis.

WHAT SHALL WE EAT?

Scrapple
1 pound lean pork
3 cups water
1 cup cornmeal
1½ tsp. salt

Cook pork until rather tender, remove meat, cool broth and skim off fat. Heat 3 cups of broth to the boilmg point, stir m the cornmeal and cook one hour. Add seasoned chopped meat and fat. Cook 20 minutes longer, adding more liquid if necessary. Pour into cold, wet loaf pan and let set until firm. Then slice, dip in flour and brown in hot fat.

TEST PIKE HAUL REPORTED GOOD

CLEAR LAKE—The test haul of pike at the Iowa State fish hatchery Tuesday night turned out very well and a full crew as put on for Wednesday night. The fact that the fish seemed a little green shows that the netters are ahead of the run this year. In 1940 the work started near the middle of the run enabling the men to complete the work quickly.

In the absence of Ray Butler, superintendent of the fish hatchery, Maurice Hardman, Spirit Lake. is assisting local men in getting the seining started. Butler wast injured in an auto accident several weeks ago and is not yet able to be up. J. Z. Stevens, local conservation officer, is also helping with the work.

Those participating in the test haul Tuesday night state that all indications are for a good fishing season in 1941.

Ink Spots And Spatters

By Jergie

OBSERVATIONS OF A SUNDAY GOPHER HUNTER

This writer quite frequently gets the urge to "Commune with nature" and Sunday afternoon being a beautiful day the urge to tramp the fields was not to be resisted.

So we got down the old Winchester 52, a boxful of "lead poisoning", slipped on the 'scope sight and started down the street toward the railroad. Of course a few of the town loafers cast remarks about the coming Blitzkreig, "better join the army" and "did you go to church today?"

Noticed the well kept appearance around the elevator. Headed south down the tracks. Saw a tramp peacefully asleep in the little "hobo jungle" across from the hand-car house. Tempted to take a shot at a squirrel in Tom Blanks trees, but remembered that the season is now closed. Would have been fun to scare the tramp out of his peacefully slumber.

Jaunted down the track, noting Rock Island snow fence in very bad repair. Maybe snow fences are out of style, so why fix it? Quite a few groups of violets in bloom and buttercups just starting too bud out.

Drew a bead on a gopher across in pasture. Just ready to squeeze the trigger when he flew up That Meadowlark will never know how close he came to going to the happy hunting ground. Resolved that one should never shoot until sure of the game.

Lots of robins and blackbirds in the fields. Couldn't figure out what they were feeding on Field sparrow flying about in pairs

Noted a lot of new ties andheavier rails along the track.

Railway barb wire fence nothing to brag about.

Stopped at a pasture Gopher two hundred yards further down the pasture Strolled down that way. Gopher got a bad dose of lead poisoning. Sat down for half hour . . . no more gophers showed up Took off across field toward cemetery.

Noted a few wild ducks m pond southwest of town dump Didn t take a shot.

No gophers visible on hillside west of cemetery. Strolled over to town dump News to me . another dump started . evidently last year Must have dug out dirt for fill. Now filling hole with trash and junk from town. Hoped to see a woodchuck, but wrong time of day. Fun to inspect what people haul to junk heap. Queer thought came to us: Dead people on one side of the fence, dead merchandise, cars and what-not on the other side Everything eventually returns to the soil from which it came

Climbed through the fence and wandered along south side of cemetery. Nice start the spruce trees are getting and will look grand in a few years. Group of people looking at names on tomo stones. Kids having fun chasing each other. Sexton has good start on annual beauty treatment of lawn.

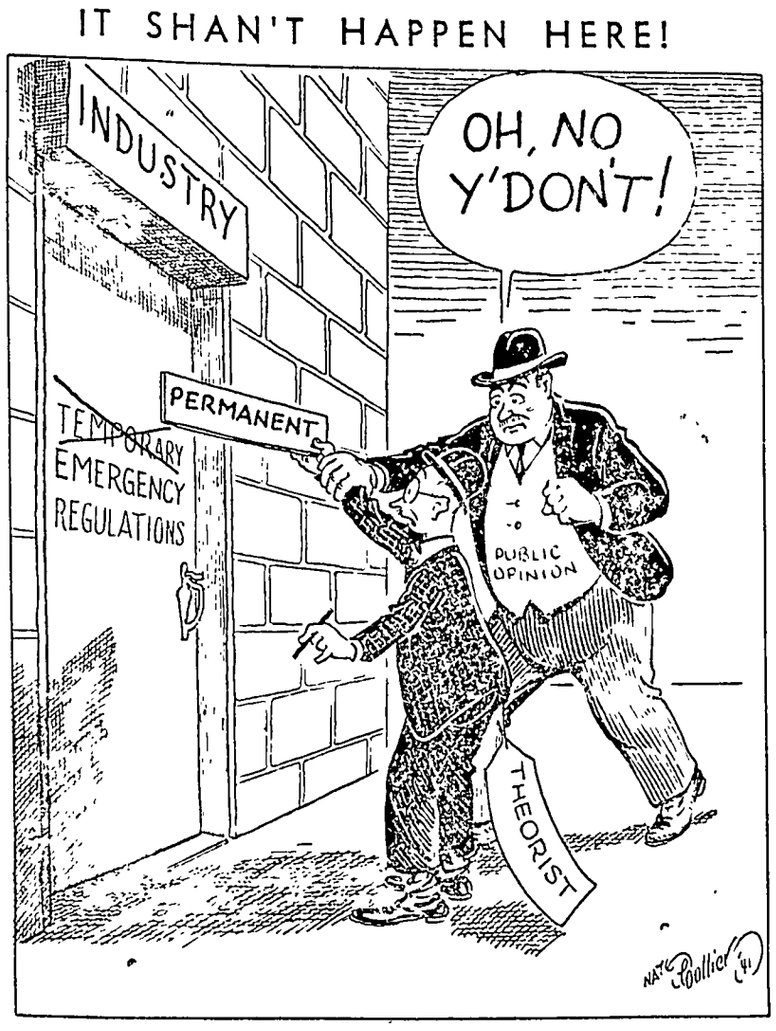
Spotted gopher down the pasture south. Sat down and lined up the scope cross hairs. Gopher folded up and joined his deceased relatives. Hung him on the fence for the crows to feed on.

Two small boys heading for the river.Could see several people on the railroad bridge. Good day for bullheads.

Made the rounds of the big pasture. Another gopher bit the dust Turned back and cut across cemetery. New group of people looking at names on stones.

Rambled across toward railroad and stopped again at first pasture. Saw another gopher which was too bad for him. Sat down with back against telegraph pole. Observed in distance lady in pink dress with dog trotting along going after the cows. Headed the herd toward farmyard and all had to cross river. Speculated whether or not she waded across or had stepping stones. Last seen cows, lady and dog all disappeared in farm yard half mile away.

IT SHAN'T HAPPEN HERE!



Annual Junior-Senior Banquet Plans Now Completed

Two cars parked at river road bridge People evidently fishing. Too far away to see Gophers evidently getting wise No more Checked shells Four left in clip six gophers, six shells That figured out one hundred per cent Satisfied

Headed up tracks for town Another gopher made the mistake of sitting up 50 yards to the right Noted stately cottonwoods which once grew along the track had been cut down past winter

Cut across back of elevator What will uncle Sam ever do with all that sealed corn Back in town the air again fragrant with plum blossoms. Noted Wayne Pavey s house shaping up

Pretty close to the preacher's house Reminded myself that I did not go to church in the morning Maybe he didn't see me coming in with rifle slung over one shoulder Maybe preachers too would like to hunt and fish on Sundays, who knows?

Alley could stand a bit of cleaning up Boys fixing their bike at Herman's. Back home, looked at the Sunday paper and called it a day.

MAYOR SAYS CLEAN-UP CAMPAIGN CONTINUES

Mayor W C Keraus urges a continuance of the Clean-Up Campaign advocated by former Mayor Grange, in order to make Klemme clean and attractive

He says the town will do its part and he wants the hydrants repainted Parking spaces marked off, park benches repaired and painted and other work down.

He is planning to have the councilmen go on a tour of inspection around town to check over streets and alleys, lights, fire hydrants and other town property. The will also inspect the disposal plant. The Mayor believes that all town oficials should "know their town" and the trip is planned with that in view.

RIDDER GETS OUR BOUQUET THIS WEEK

Levi Ridder took it upon himself to beautify the vacant lot west of what was the old barber shop. Lee likes things looking good, so he cleaned up the space, fenced it off, seeded it with grass, set out some vines to cover the unsightly part of the old building.

And with the Creamery lot looking good, the improvement Lee made fits right in to make that part of town look neater

Lee deserves a hand for his civic pride in going out of the way to make an eyesore an attractive place.

PLANTATION SINGERS TO GIVE CONCERT AT GOODELL

The plantation Singers, a negro quartette, will present a concert at the Goodell U. B. Church on Sunday evening, May 11h, beginning at 8 00 o'clock.

Rev. Knight, the pastor, invites the public to attend his fine muiscal program.

COMMENCEMENT TIME DRAWS NEAR

With only two and a half weeks of school remaining in the present school year, commencement activities are starting to loom up on the calendar of local events. The first major event in the series of the end-of-the-year functions is the Junior-Senior banquet to be given in the school gymnasium Friday evening of this week.

The Juniors have transformed the gym into a Hawaiian isle of paradise, complete with grass houses, grass-skirted girls, and all the beauty and loveliness of the real islands.

The public will be admitted to inspect the scene Friday afternoon after the close of school

Annual School Exhibit

The annual school exhibit will be held next Tuesday evening, May 13 It will be preceded by a musical program featuring the band and Klemme's contestants in the National music contest. This will be the last public appearance of the local musicians before their trip to St. Paul at the end of the week.

Class Day Exercises, including two one-act plays, will be presented Friday evening, May 16. More complete announcement of this and the remaining commencement events will appear in next week's Times.

HELLO FOLKS!

Mr. and Mrs. Harold Abele are the parents of an 8½ pound baby boy, born to them on Sunday, May 4th The new arrival has been named John Louis.

Mr. and Mrs. Frank Bailbrey are the proud parents of a fine baby boy, weight 8 pounds and 6 ounces, born to them at the Clarion hospital Monday, May 5th. Mr. and Mrs Bilbrey also have a five and a half-year old daughter in their family. Mr. Bilbrey is employed at the Lewis Radio Shop.

CHAMBERS SAYS THAT TIMES WANT ADS PAY!

John Chambers praises the pulling power of Klemme Times want ads. Mr. Chambers states that he disposed of nearly all of his hybrid seed corn, and although he used other newspapers to advertise his seed corn, he states that every bushel he sold was directly due to his ad in The Times Want Ad section.

Mr. Chambers still has a few bushels of seed left but he says his seed corn sold fast this year.

If you have something to sell, trade or rent, try a Times Want Adv. The cost is only one cent a word per week.

Soybean yields of 30 to 40 bushels per acre are possible in favorable seasons on soil of high fertility and with good cultural practices.

Klemme School Wins State Championships In Music

MISS ELSIE KJAR BRIDE OF KERMIT SCHLEI OF KLEMME

Couple Will Make Their Home On Scheli Farm Near Klemme

The home of Mrs. Jans Kjar at Rowan, Iowa, was the scene of a wedding Sunday afternoon, May 4 at 2:00 o'clock when immediate relatives and a few friends were invited to attend the marriage ceremonies of her daughter, Elsie and Mr. Kermit Scheli, young farmer of near Klemme. The ceremony was performed by Rev Arnett of the Rowan Congregational church.

The couple was attended by Miss Sena Hansen as Bridesmaid and Ernest E. Lewis as Best Man. The Bride wore a white formal dress, with finger-tip veil, and carried a bouquet of white roses and sweetpeas. Miss Hansen wore a blue formal and carried a bouquet of pink roses and pink larkspur. Both of the men wore dark suits.

After the ceremony the bridal party and the guests enjoyed lunch at the Kjar home. Decorations in white and pink was the predominating theme with a white wedding bell suspended above from which streamers came down to the table. A beautifully decorated wedding cake served as the center piece for the table on which also rested bouquets of flowers.

Out of town guests included Miss Sena Hansen, Mr. and Mrs. Ernest Lewis, Miss Oda Hansen, and Mrs. John Rust.

The Bride is a graduate of the Rowan high school and later took up beauty work. For a time she was employed in Klemme at Marie's Beauty Shop. She is the proprietor of a beauty business in Rowan at the present time, and until other arrangements are made, will devote part time to her work there.

Mr Schlei was raised in this community and attended the local high school until the death of his father when he assisted his mother in operating the farm. After her death he took charge of the farm along with his brother, who is now in the army. The young couple are making their future home on the Schlei farm south and west of Klemme.

ELEVEN YOUNH MEN CALLED INTO ARMY SERVICE TUSEDAY

Eleven young Hancock County men left Britt Tuesday morning at 5:00 o'clock for Fort Des Moines, to be inducted into military service for one year.

Those who left Tuesday were three volunteers: Glenn R. Bowles and Milton Paul of Klemme, and Raymond H. Trapps of Britt.

The draftees called into service were Don E. Frein and Maynard A. Schouneman of Garner Louie H. Schmidt, Lyle E. Dallma, and Edward J. McDermott and Henry Novak, all of Britt and Walter H. Schlichting and Mervin B. Grossbeck of Klemme.

Elmer J. Schnetzer of Kanawha and John C. Gatchel of Garner are reserves.

Two Called For May 9th

Two draftees will report at Britt at 2:28 a. m. on May 9th to be inducted into service. They are Marvin John Sloan of Corwith, and Elmer Joseph Schnetzer of Kanwha.

John Cecil Gatchel, of Garner, is the reserve.

KLEMME BOYS LAND AT JEFFERSON BARRACKS

Bowles, Paul, Grossbeck and Schlichting, who left Britt Tuesday morning for a year of military service, are at Jefferson Barracks at St. Louis.

The Times received a card from "Bodge" Bowles this morning stating that all eleven men passed a good physical examination at Fort Des Moines and they were on their way to Jefferson Barracks.

HANCOCK COUNTY RENTS HALF ACRE GRAVEL PIT

Garner — The Hancock county supervisors recently leased one half acre of land from Carl Wille for use as a gravel pit. The tract is located about two miles south of Klemme and will serve for graveling roads in that vicinity. The consideration was $260.

KLEMME SCHOOLS STEP INTO FRONT RANKS IN STATE MUSIC COMPETITION

Music Department Establishes New Records in Klemme Schools

Klemme school musicians under the direction of Bernard Onerheim and Mrs Ernest Gerardi established a new record for the town last week when they brought home first places from the state music contest at Waverly. The saxophone quartet, composed of three eighth graders and one senior, proved to be Mr. Onerhiem's Exhibit A, when they captured a Division 1 ranking. The group is composed of Edward Barz, Edward Buntenbach, Patricia Kudje and Edna Spitler.

Irene Becker Wins First Place

Irene Becker, accompanied by her instructor, Mrs. Gerardi, played her marimba solo in a strong field but gave her usual good performance and came out on top It was Irene's second appearance in state contest competition. She competed at Iowa City in her sophomore year,when she won a Division III rating.

Klemme's small group of boys' glee clubbers gave a fine account of themselves and very narrowly missed a first place rating. One of the three judges for the event gave the boys first, one gave them second, and the other gave them third.

Billy Zabilka's clarinet solo was well-received by the audience and was given much favorable comment by the judge of the solo events, but an exceptionally strong field crowded Billy's rating to Division III. Neighboring music directors however, were very complimentary about his performance.

Plans are being made to send the first division winners to the National School Music Competition Festival at St. Paul next week, May 15, 16 and 17. According to a preliminary announcement of that event, Irene will play on Friday and he saxoprone quartette on Saturday.

THRIFT CUTS—MORE MEAT FOR YOUR MONEY
(See Recipes Below)

MEATS FOR BUDGET MEALS

If you're meat-wise, then you're budget-wise! For the less expensive cuts of meat have a way of making food dollars really s-t-r-e-t-c-h.

What's more, the thrift cuts of meat are equally as chock full of flavor, health-guarding vitamins, body-building proteins and minerals as the more expensive ones. When you buy a chuck roast instead of chops; hamburger instead of steak; or baby beef liver instead of calves liver, your economy isn't depriving your family or guests of even a teeny, weeny bit of food value. That's the verdict of nutrition experts. And they know.

Economy in purchasing meat comes from knowing the wide variety of different meat cuts available, and from purchasing some of the cuts which are not in greatest demand. For example, a pot roast of beef, delicious as it is and as much as it is enjoyed by everyone, sells for considerably less per pound than a rib roast of beef. The reason, of course, is that there is a greater demand for rib roast.

You'll surely be pleased, and surprised, too, at the way you can save money on your food budget, at the same time adding variety to both your family and company meals, by following today's penny-pincher recipes.

***Stuffed Shoulder of Lamb.**

How to Buy: Good quality lamb is pinkish and well-marbled with fat. Outside fat is smooth, hard, glossy and cream-white. Look for both government inspection stamp and packer's private grade stamp. Find the grade that suits you, then always buy it. Ask your meat man to bone the shoulder, leaving a cavity to fill with stuffing. (You can use the bones for broth, soup or gravy stock.)

How to Cook: Prepare a well-seasoned stuffing; fill cavity, then sew up edges or skewer in place. Weigh meat after stuffing to compute cooking time. Place fat side up on rack in open pan, rub with salt and pepper. Cook in slow oven (325 degrees F.), allowing about 35 minutes per pound. Garnish with mint leaves and a vegetable; serve. Delicious!

Dressing for Lamb.

2 slices bacon
2 cups bread crumbs
1 cup sour apples, chopped
1 cup raisins
½ cup celery, chopped

Fry bacon until crisp and add to bread crumbs, raisins, diced apples and celery. Season with salt and pepper and pile lightly into cavity in lamb shoulder.

Eye-of-Round Roast.

How to Buy: The lean of beef should be well-marbled with fat, firm, smooth, glossy: soon after the meat is cut, the surface should turn bright red. The outer fat should be fairly thick, firm, flaky, cream-white. In lower grades fat is softer, yellower. Though price per pound will perhaps exceed that of rib roast, it is all solid meat—no bones, no fat, no waste of any kind.

THIS WEEK'S MENU

Cream of Pea Soup
*Stuffed Shoulder of Lamb
Parsley Buttered Potatoes
Buttered Carrot Strips
Sweet Cabbage Relish
Peppermint Ice Cream
Chocolate Cup Cakes
*Recipe Given

It goes a long way. For best results, slice very thin.

How to Cook: Put meat, well covered with fat, on rack in open roasting pan. Sprinkle with salt and pepper. Place in moderate oven (325 degrees F.) and allow about 25 minutes per pound for rare beef, 28 to 30 for medium and about 35 for well done. Do not baste. Potatoes may be cooked in same pan with roast.

Swedish Meat Balls.
(Serves 6)

2 pounds finely ground beef
1 cup mashed potato
½ cup apple sauce
1½ teaspoons salt
½ teaspoon pepper
¼ teaspoon nutmeg
Shortening
1 can vegetable soup
½ cup milk

Combine beef, potato, apple sauce and seasonings. Roll into small balls the size of a walnut. Brown well in hot shortening, in baking dish. Pour on soup and milk and bake in moderate oven (375 degrees F.). Thicken gravy; serve.

Cubed Steak With Vegetables.

Cube 1 pound of thrifty cut of steak, such as round or chuck. Brown it in hot fat. Add 1 cup boiling water and 1 teaspoon cornstarch, mixed with a little cold water, and salt and pepper to taste. Stir until mixture is boiling. Add 1 large green pepper cut into squares, and 2 large sweet onions cut into eighths. Cover and simmer until steak is tender. Add 2 large tomatoes cut in eighths and cook 2 minutes longer. The gravy may be seasoned with a few drops of seasoning sauce. Serve at once. Boiled rice is an excellent accompaniment.

Stuffed Flank Steak.
(Serves 6)

1 flank steak (about 1½ to 2 lbs.)
4 cups dry bread
½ cup milk
½ cup boiling water
¼ cup butter
½ cup finely chopped onion
¼ cup finely chopped parsley
1 egg
1½ teaspoons salt
Pepper

Have your butcher score the steak and cut a pocket in it. Break the bread into small pieces. Mix milk and boiling water. Pour over bread and let soak until soft. Melt the butter, add onion and cook without browning, about 5 minutes. Add to bread-milk mixture the parsley, beaten egg, salt and pepper. Press this stuffing into the pocket of the steak. Bake in a shallow pan, uncovered, in a moderate oven (350 degrees) two hours. Slice it generously and garnish with sprigs of crisp parsley.

There's plenty of good, substantial eating in stuffed flank steak, so the rest of the meal can be simple. A vegetable (stewed tomatoes, beans or cauliflower, perhaps); dessert and beverage would round out a satisfying, appealing menu.

Veal Birds With Mushroom Sauce.

2 pounds veal round
bread stuffing
3 tablespoons flour
3 tablespoons lard
salt and pepper
1 small can mushroom soup

Have veal round cut into one-half inch slices. Cut into pieces for individual servings as nearly 2 by 4 inches in size as possible. Place a spoonful of stuffing on each piece, roll and fasten edge with toothpicks. Dredge with flour and brown on all sides in hot lard. Season. Pour mushroom soup over veal birds, cover and cook very slowly until done, about 45 minutes.

For variety, instead of using a bread stuffing, spread finely chopped onion over the meat, place a partially cooked carrot in the center roll and fasten.

(Released by Western Newspaper Union.)

LYNN SAYS:

Spread apple or crabapple jelly over the top of roasting ham, veal or pork for the last 30 minutes. The jelly gives an appetizing flavor and a glossy brown top.

Crumbled bacon adds a wonderful new flavor to cooked green beans, yellow or white squash, browned navy beans or spinach. Add the bacon in the last 5 minutes.

Long, slow cooking at a low heat is the general rule for cooking the thrifty cuts of meat.

Ranking low on the butcher's price list but high in nutrition are such meats as kidney, brains, heart and liver. They make delicious dishes when properly cooked.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Dean of The Moody Bible Institute of Chicago
(Released by Western Newspaper Union.)

S. S. Lesson for May 11

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission

THE RESPONSIBILITY OF THE HOME REGARDING BEVERAGE ALCOHOL

LESSON TEXT—Deuteronomy 6:4-7; Jeremiah 35 5-10

GOLDEN TEXT—Train up a child in the way he should go; and when he is old, he will not depart from it.—Proverbs 22 6.

The responsibility of the home regarding liquor is primarily that of providing a place for children to grow up under proper principles and practice. That means that the home should be a Christian home, where both parents follow Christ in life as well as profession. Young people about to establish a new home should give themselves without reservation to Christ. Those who began their home as a Christian home, but who have drifted through carelessness or unbelief, should renew their devotion to Christ. America needs many things, but first and foremost stands its need of real Christian homes

I. Preparing to Meet Temptation (Deut. 6:4-7).

Temptations will come, and when they do it will be too late to prepare a defense against them. We are all "defense conscious" these days. We have seen in the sad events of the last year that there must be adequate preparation in advance if we are to withstand the enemy. That is doubly true in the realm of the moral and spiritual. We must build moral fiber and appreciation of spiritual things into the lives of our boys and girls from their infancy. How?

1. By a Consistent Example (vv. 5-6). Only the father (or mother) who loves the Lord with all his being and who has permitted God's Word to enter into his heart will set the right example. It is well to know something about child psychology, about the principles of rearing children, etc., but these, without a right relationship to God, are cold and powerless. But let the parents walk before their children in earnest Christian living, let them honor God's Word in their lives and in the home, and they will lay the finest foundation for Christian character in their children.

2. By Correct Teaching (v. 7). The parent should make the teaching of God's Word to children a matter of first importance. It is to be expected that the children will be in church and Sunday school with their parents (notice the word "with"—it's not enough to **send** them), but that is not sufficient. Blessed and fruitful is that home life in which the Word of God is a normal and easy topic of conversation, where spiritual things are discussed intelligently and without restraint. Every home can be that kind of a home, if the parents will do what they know they should do about it.

II. Standing in the Hour of Temptation (Jer. 35:5-10).

As a protest against the heathendom, the intemperance, and corruption of the city life of his day, Jonadab instructed his house or tribe to live an itinerant life and, above all, not to touch wine.

We are not called to imitate in detail their way of living, but rather to learn from them the principles of consistent temperance.

1. Remembrance (vv. 6, 7). Jeremiah was sent to test the Rechabites (not to tempt them to fall) by offering them wine, but to them it was a real temptation. They met it promptly and without fear, because they had in their hearts and minds the teaching of their "father" Jonadab.

Blessed is the boy or girl who in the lone and trying hour of temptation is not confused by the negative or unchristian example of parents, but who at once has a vision of a God-fearing father and mother, and a remembrance of their faithful teaching of God's standards of life.

2. Obedience (vv. 8-10). Here again is a lesson which must be learned from the tender years of babyhood, but which bears glorious fruit in the days of young manhood and womanhood. The parent who does not tactfully, kindly, but withal, firmly, teach children to obey has undermined their life in advance.

The Rechabites loyally obeyed the word of their founder, and passed their hour of testing with flying colors. They had his example, they knew his teaching, and life itself had proved to them that they were in the right way.

A closing word. The liquor interests are concerned because the consumption of beer is rapidly falling off and because most of their customers are "elderly or middle-aged." They are spending tremendous sums in advertising to "get the beer drinking habit instilled in thousands, almost millions, of young men who do not at present know the taste of beer."

That is their avowed aim. Shall they be permitted to put it across? Not if Christian people will put the influence of the American home squarely where it ought to be—against the liquor traffic.

PATTERNS

SEWING CIRCLE

DO YOU take a large size—anywhere between 36 and 52? Then this dress will simply delight you. It's so becoming and successful that two neckline styles are suggested in the pattern (No. 1333-B). One is the plain v-neckline cut to smart new depth, and the other is turned back in narrow revers. Make the dress in household cottons, trimming with braid and adding a couple of pockets, and it will be one of your most comfortable work-a-day styles. Make it of light, inconspicuous prints, flat crepe or spun rayon for street wear, with plain neckline, softened by a narrow touch of contrast.

The detailing is perfectly planned to create the high-busted, slim-hipped line most becoming to large figures. The skirt has a gradual flare. It's one of those utterly simple dresses that has loads of distinction.

* * *

Pattern No 1333-B is designed for sizes 36, 38, 40, 42, 44, 46, 48, 50 and 52. Size 38 requires, with short sleeves, 5⅛ yards of 39-inch material without nap; long sleeves, 5¼ yards. 1¼ yards braid or ¾ yard contrast for neck fold. Detailed sew chart included. Send order to.

Ask Me Another

A General Quiz

The Questions

1. What are obiter dicta?
2. In Roman numerals, what is the meaning of "M" with a line over it?
3. Where are the sunniest spots in the United States?
4. Is the ghost shrimp transparent?
5. Are all roses fragrant?
6. Could Mount Everest be submerged in the Pacific ocean?
7. What is the highest church in the world?

The Answers

1. Incidental remarks.
2. One million.
3. The sunniest spots in the United States are in southwestern Arizona and southeastern California.
4. The ghost shrimp is so transparent that the beating of its heart may be seen through its shell.
5. Of the thousands of varieties of wild and cultivated roses growing throughout the world, not more than 50 are fragrant.
6. If Mount Everest (29,002 feet) were located on the Pacific ocean floor in the Philippines, its summit would be submerged 6,000 feet.
7. The highest church in the world is the Protestant cathedral in Ulm, Germany. The spire extends 528 feet above the street, or a height equivalent to that of a 44-story building.

JUST LAUGHTER

Nice Attire

"Now, miss, what gear were you in at the time of the accident?"

"Oh, I had on a blue woollen sports coat, fur cap, gauntlet gloves and tan shoes."

YOU ARE AN INFLUENTIAL PERSON

The merchant who advertises must treat you better than the merchant who does not. He must treat you as though you were the most influential person in town.

As a matter of cold fact you are. You hold the destiny of his business in your hands. He knows it. He shows it. And you benefit by good service, by courteous treatment, by good value—and by lower prices.

ACT QUICKLY AGAINST
Coccidiosis
As A First-Aid Treatment Use Dr. Salisbury's Rakos
• Use this highly astringent liquid immediately at the first indication of dreaded Coccidiosis. Watch for those tell tale signs, droop wings, huddling, and shivering, loss of appetite, bloody and watery droppings. Neglect can be very serious, so ACT quickly! Also use sanitation and litter spray to kill Coccidiosis.
It is easy to use Merely mix RAKOS with grain. Get a bottle today from your local druggist who is a member of Dr. Salisbury's Poultry Health Service
WILSON'S
PHARMACY

An average gain of one-third pound per lamb daily on a carload of lambs is considered a good gain.

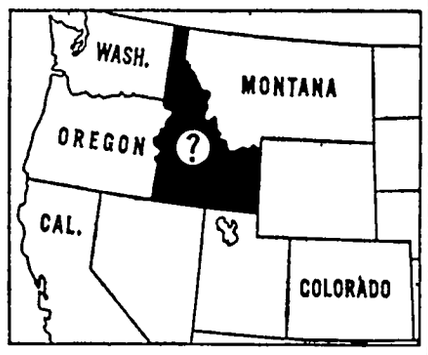
Purebred beef cattle are selling 20 percent higher in public auctions today than they were a year ago.

Always ease pastry into the pan without stretching. Make a single baked crust by baking pastry over the back of a pie pan, and be sure to prick the pastry with a fork to let the steam escape.

● *For all you know you may be a genius. This test won't prove it one way or another. But just for a little mental relaxation try it. Simply read the question, indicate your choice of answer in the space provided. Check for correctness, then tally score for your rating.*

(1) Carrie Chapman Catt is famous because: (a) the CCC camps were named in her honor, (b) she founded the Red Cross, (c) she was the first woman governor of Texas, (d) she was a noted suffragist worker. ☐

(2) Ceylon is: (a) type of beefsteak, (b) British island in the Indian ocean, (c) capital of French-Indo-China, (d) principal city of Peru. ☐



(3) Surely you know that this state is: (a) Wyoming, (b) Idaho, (c) Utah, (d) Nevada, (e) North Dakota. ☐

(4) 19th Amendment to the U. S. Constitution: (a) gives nation-wide suffrage to women, (b) authorizes federal income taxes, (c) abolishes child labor, (d) establishes the petunia as the U. S. national flower. ☐

(5) *Mark this statement true or false:* "Older than the U. S. Constitution is New York's state constitution." ☐

(6) Baseball's immortal George Herman Ruth set a world's record for major league home runs in 1927 by clouting 4-base hits totaling: (a) 50, (b) 39, (c) 60, (d) 56. ☐

(7) Scientific names for the Northern Lights is: (a) blitzkrieg, (b) cosmic nebulae, (c) aurora borealis, (d) H_2O. ☐

The Path
To Our Store

• MANY OF THE FURNITURE Factories who supply us are working on Defense Orders, at least part time. This slows up shipments of Furniture to the dealers, and many retail Furniture Stores are short of merchandise.

• OUR STORE EXPECTED THIS and we placed orders early and often, and we have a large, well sorted stock at the present time.

• WE ARE LUCKY TO HAVE THE STOCK—and outside buyers are Beating A Path To Our Store to purchase Furniture and Rugs.

• BUSINESS IS GOOD!

I hate the guys
Who criticize
And minimize
The other guys
Whose enterprise
Has made them rise
Above the guys
Who criticize
And minimize
The other guys

MUSIC MOTHERS CLUB WILL MEET SATURDAY EVE.

The Music Mothers Club will meet at the school house Saturday evening, May 10th at 8:00 o'clock.

This is the last meeting of the school year and there is a lot of important business to be taken care of. All members are urged to be present.

SEE SHORTAGE OF VEGETABLE SEEDS

Because there is a greater demand for vegetable seed and a shortage of seed of some vegetables this year home gardeners may well complte seed needs early, declares W. H. Collins, horticulturist at Iowa State College.

Collins points out that large supplies of a number of seeds used in this country are normally imported from Europe and that this year these supplies have been cut off. Great Britian, France, Germanv, Denmark and Holland have for years been the chief sources of some vegetable seeds for the United States.

Kinds Affected

"The kinds most seriously affected are spinach. cauliflower, radishes cabbage and carrots," Collins says

Supplies of most kinds of vegetable seeds are believed to be sufficient for the planting needs of the United States this year. However, Collins says that the supply of some varieties may not hold out as long this year as in previous years.

nnouncement

nge Of Manager Klemme

e wish to announce to our customers and friends of Klemme and surrounding territory have made a change in the management of our Klemme Lumber Yard.

r. Paul Grange, who has been in Klemme as our efficient manager and who has served tomers here for the past twenty-seven years, has been transferred to our Mason City In behalf of Mr. Grange, we want to thank you for the courtesies and good will you tended to him, and for the fine patronage you have given us during his stay in Klemme.

d, we want to take this opportunity to introduce to you KEITH ALBERTSON, who o Klemme from our Swea City yard. Mr. Albertson is a fine man and we are sure that ll like him and that he and his family will fit into your community. Stop in and get ac- with Keith . . . he will be glad to see you.

e also want to take this opportunity of again thanking you for your patronage in the d solicit a continuance of your good will and patronage under our new management.

Grade News ..... Arlene Schmidt

SPORTS NEWS

Thursday April 24, the Shamrocks were downed by the Crystal Lake nine 7-4 Crystal was credited with ten hits while Klemme collected nine Batteries for Crystal Lake were Christenson and Jenson and for Klemme, Kaduce and Grosshuesch.

Thursday May 1 in a game that was called off on account of rain Goodell defeated Klemme 3-1

Mr. Bowles, who has coached in Klemme for the past two years, is leaving Everyone is sorry to see him leave He is a volunteer into the Army if he passes his final examination.

MUSIC NOTES

Billy Zabilka received a rating of Good on his Clarinet Solo. The Saxophone Quartet played their contest number at the Methodist church the Sunday before the contest

We have just received word that the boys have received a rating of 11 at the State Music Contest at Waverly.

Other results have not yet been received.

DRAMATICS

We've just received word that M R Wihga, author of the play "Misunderstood Smith" has just become a proud father of a son.

The play "The Neighbors" also to be presented here has a royalty charge of $10 However the author, Zona Gale, was very interested in the beautification of rural communities and helping of ones neighbors that she has substituted the planting of a tree for the royalty fee

We've heard them say·

Allen could take Mickey Rooney's place on the screen any day, but the only difference is that Allen is better looking than Mickey (That's a feather in your, cap Barz.)

SENIOR CLASS

Congratulations Galbreth - to all three of you "Billy" is a lucky boy. We hear Mr Galbreth gets his exercise by just walking the floor nights.

The seniors have the number of days of school left counted almost down to the second

So Allen's taste has turned to red headed blondes Ever see one?

Three seniors and Miss Ott traveled to Mount Vernon last week end for Senior Day Harold and Gertude said they really get around down there Walt didn't say much Just a note to Harold—even if you don't like the tea they serve at picnics, you are supposed to drink it and not dump it on the ground

It will be dull with Bowles, gone, don't you think so? He'd be good at peeling potatoes but with the new mechanized army they even have automatic potato peelers. Well maybe they'll let him turn the handle.

SOPHOMORE CLASS

Since the Freshmen insist people should hold nicknames, we thought we would mention a few common ones from our Sophomore class For instance—

Betty Etchen ..... Etchen
Arlene Wille ..... Wille
Elwyn Jacobs ..... Jake
Maxine Bachman ..... Max
Vivian Harberts ..... Mimi
Jesse S. ..... Jess
Donald Schaffer ..... Dolly
Bonnie Stokesbary ..... Stoky
Audrey Mau ..... Aud
Ben Nieman ..... Bud
Harvey Ausborn ..... Porky
Calvin Grosshuesch Jr. ..... Bill

These are merely a few of the most used nicknames although the others are given various nicknames whenever spoken to.

In biology we had a test over the plant Friday.

The sophomores who are taking typing this year have been making designs with their typewriters lately

In English we sophs have been busy writing precis

In algebra it seems we don't get any where at all.

FRESHMAN NEWS

Since we knew everything there was to know about finance, Mr. Bowles decided we would be able to give the correct answers if he gave us a test. Wrong again, Mr Bowles.

The manual training class claims they have been making everything from soup to nuts This is a slight exaggeration, knowing how they poke along.

Doris Spitler wishes us to state that she almost has her dress finished.

The latest rumor: Melvin Pearson claimed he should come to home economic class and teach us how to bake angel food cakes. Mavis Nuehring, when she heard she was to eat them, argued that she loved life and wanted to live awhile longer

Grade News

KINDERGARTEN, GRADES 1-2

Elaine's birthday was Wednesday She was six years old. She brought us a surprise treat.

The first and second graders watched the freight train come in Thursday morning. The engineer let some of the children climb into the cab of the engine We recognized the different kinds of cars on the train As we are studying trains we are very much interested in what Mr Ramsey told us about the tracks etc We are building a passenger train in our room.

Many pretty flowers have been brought to school

GRADES 3-4

We took Number Drill No. 16 this week. Larry, Norma, and Iris had Excellent scores. The class score was Good.

In history we are studying The Coming of the Dutch. We learned about the Dutch explorers and the life in the Dutch Colonies.

Maurice brought a crawfish for our aquarium.

We had many pretty spring flowers in our room this week.

In art we worked with finger paints and tempra paints making spring pictures and designs.

Norma, Luella, and Phyllis S. had 100 per cent in spelling.

We went on a Nature Study hike. We found many interesting signs of spring.

GRADES 5-6

We finished our unit in science called "Homes and Home Life of Bird" We have started a unit on 'How Plants Grow and Make Food"

Both grades took their sixteenth self-testing drill this week Irene and Phyllis got star ratings The grade rating was nine and the sixth grade rating ten.

The following poople had perfect spelling scores: Velma, Esther, Helen, Delores, Irene, Rose, Ruth Smith, Clarence Roger R' Mary Lou Peggy, Phyllis and Ruth Stokesbary

GRADES 7-8

The senior class treated our room to candy bars for selling the most tickets for the class play.

Junior B. and Patricia were presented with cameras.

Slices of bread are transformed into "buttercups" when pushed into a muffin cup so that the corners of the slice stick up. Toast the bread and fill with creamy scramble eggs to which minced parsley or minced chives have been added. Serve with buttered peas and prune muffins. For dessert, try pink rhubarb sauce with a cookie.

Allowing Weeds a Crime

As early as the time of Alexander Second of Scotland, a man who let weeds go to seed on his farm was considered to be the king's enemy

Folger Shakespeare Library

The Folger Shakespeare library in Washington houses the finest collection of Shakespeare material outside of England. Eighty-five thousand volumes, ranging from first folios to the most modern product of Shakespearean research, are on its shelves. Of a world supply of 200 first folios, the Folger library possesses 79. The next largest collection is in the British museum, which contains but five first folios. The oldest document on display is one written at Rouen, France, in 1435 and signed by the king's treasurer, John, Bastard of Orleans, which mentions Sir John Fastolf, who, in name though not in character, became Shakespeare's Falstaff. The library building includes a theater which seats 262.

The First Cable Message

The first message on the Atlantic cable of 1858, which soon proved a failure, was a congratulatory dispatch from Queen Victoria to President Buchanan. The first message on the successful cable completed in 1866, was the announcement of the treaty of peace between Prussia and Austria.

Many Allow Patents

Protection for an invention can be obtained in more than 100 countries, says Industrial and Engineering Chemistry. In many countries the form of protection is somewhat nebulous. Patents are seldom obtained outside of a group of about 30 countries.

Deposits of Phosphate Rock

The United States possesses the largest known deposits of phosphate rock in the world. At probable rates of consumption, the Florida and Tennessee deposits will last more than 200 years and the western deposits will last for 2,000 years or so after that.

OLDSMOBILE **CHEVROLET**

Motley Army Joins English Fighting Force

Men From Many Nations Leave Homes to War Against Germany.

By ROGER SHAW
(Released by Western Newspaper Union)

WASHINGTON. — When the British beat Napoleon—the Hitler of his time—at Waterloo, only about half of the British army was actually British. The rest of Wellington's outfit was a strange mixture of peoples who thought they were fighting for their freedom. The list was a long one. It took in Dutchmen, Belgians, Hanoverians, Prussians, and men from Brunswick, Nassau, and Saxe-Weimar. The Hanoverians did well in the battle, but the Dutch, Belgians, and men of Nassau did very badly. After the battle, large groups of the latter were found playing cards miles back of the field of honor.

The King's German Legion was the best, and best known, of these foreign outfits under British leadership. The Legion was made up of refugees from all over the Germanies—a hodgepodge then under Napoleonic domination. The Legion served on every sort of front during the long war cycle, even acting as marines in various naval operations. They fought from the North Cape to the North African coastline, and campaigned against the Americans in 1812 and after. They were "owned," payed, and equipped by the British government, and they burned with hatred of the Hitler-like Bonaparte, who had turned their fatherlands into a "new order." The Legion, which made a specially distinguished record at Waterloo, contained Austrians and Netherlanders, as well as natives of the various little Germanies.

History tends to repeat itself, and in the year 1941 the King's Legion has come to life again in various forms. The old Legion was predominantly Germanic. The new Legion, or legions, are politically anti-Germanic, but they take in a wide variety of peoples. This time they include Dutch, Belgians, Norwegians, Danes, Poles, Czechs, "free" Frenchmen, and goodness knows what else. In such cases, their countries have been overrun, and England has become the refuge—the last white hope or chance. In fighting for England, these people feel they are fighting for their own lost countries, and against the common tyrant. Today the tyrant is A. H. and not N. B., but otherwise things are much as they were a century and a third ago. In England today, there are also anti-Fascist Germans, Italians, and Austrians, who swell the alien ranks of the King's Foreign Legion. This is not an innovation, either. Anti-Fascist Frenchmen served England against Napoleonic France in the early 1800s. In short, what we are witnessing—now as then—is an international civil war.

50,000 Foreign Fighters.

Today there are something like 50,000 foreign legionaries serving the British empire. Strangely enough, this is just about the same size as the King's German Legion of antiquity. These foreign legionaries might, in a sense, be considered the composite army of the late lamented League of Nations. In many cases, their dummy governments are in London or Bristol, as well as their armed representatives. The king of Norway and the queen of Holland are among the foreign-legion rulers in the British isles, as was the black Ethiopian Lion of Judah until recently—i.e. Haile Selassie. Poland and Belgium have ambassadors to the British government, and vice versa, while Norway, Holland, and the Czechs still maintain official ministers to the Court of St. James. General De Gaulle represents the "free" Frenchman, but he has no official standing with the French Vichy government.

His country was seized by the Nazis in March, 1939, but this Czechoslovakian aviator fights on as a valuable member of the Royal Air Force.

The foreign troops in England wear British uniforms and use British equipment, except for the officers on leave in London. They wear their fancy native garb, which seems to bore the Londoners, to a marked degree.

The Dutch are really considered the most useful, and best liked, of England's exiled allies. The English and Dutch peoples are closely akin, and follow much the same pattern of behavior. The Dutch have presented the British government with close to a million tons of commercial shipping, and some small warships to boot. The Dutch East Indies, with their oil, rubber and tin, are still independent, and they have perhaps 60,000,000 inhabitants. There are very few Dutch soldiers in England—the Dutch army lasted only four days—but the merchant fleet and colonies make up the difference. Another 2,000,000 tons of Dutch shipping are now trading on their own in the faraway Pacific area.

Norwegians Popular.

Second most popular with the English people are the Norwegians. Like the "Dutchies," they, too, are chiefly nautical in their contributions. Norway has supplied England with close to 1,000 ships—something like three or four million tons of shipping. Some lesser Norwegian warcraft also are co-operating with the British navy. These are mostly destroyers, minesweepers and armed whalers with perhaps the world's best crews. The Poles, "free" French, Belgians, and Czechs are not as popular in England as the kindred Dutch and Norwegians.

The Poles are the most numerous of the alien lot, and the most boastful. They have garrisoned Scotland, and are also serving in the royal air force. They have some ships with the royal navy, and a puppet government at London. Their commander has been Gen. Wladislaus Sikorski, a good man of comparatively liberal convictions, who was on bad terms with the reckless Polish dictatorship which reigned at the beginning of the war. The Czechs, close kith and kin of the Poles, are not very many. They are largely college men and armed intellectuals—as brainy as the Poles are militaristic. Just the same, the exiled Polish and Czech governments are planning a Czech-Polish federation for the sweet bye and bye after the war. Some of the Belgian politicos are actually petitioning to be taken into the British empire, with dominion status, after the shooting is shot!

These Belgians are very angry at their King, Leo, who is still in Belgium. They think, some of them, that he sold the Allies down the river—a claim which history may have a pretty hard time to substantiate. There are some Belgians in the royal air force, and elsewhere, including a few ultra-rich playboys. The "free" Frenchies are another story. The tactful British government has never known quite what to do with them.

If England is too kind to De Gaulle, who is none too popular at home, it may drive Vichy into the arms of Berlin. De Gaulle's Dakar expedition to West Africa was a terrible fiasco. De Gaulle himself is persona grata with Churchill, but not with many other Englishmen. At the same time, he tends to serve as a useful brake on the politicians and generals of Vichy. Further, the French colonies of Syria, North Africa, and Martinique, with their important armed forces, continue to be against De Gaulle, and for old Petain.

The Poles and Norwegians are reported as the toughest and most vengeful of the King's foreign legionaries. The Polish attitude is perfectly understandable. Poland has been very badly treated. In the Norse case, the pro-English Norwegians hate the pro-German Norwegians, and carry this hatred to a degree. The other exiled groups seem somewhat surprisingly indifferent at times, when viewed through excited American spectacles. Just the same, if the invasion of England ever comes, these motley groups may be counted on to fight fiercely—and no holds barred. It's their last chance this side of paradise. "Paradise," in this case, means America.

Men have come thousands of miles to fight beside the British in their war against the Axis powers. The Arab soldiers (left) are helping to defend Egypt, while the American aviators (center) and the gunner from India (right) do their part in England to keep Hitler's "luftwaffe" in check.

Plastics of Coffee Bring New Hope To Troubled Brazil

RIO DE JANEIRO. — Brazil's greatest new industry is a demonstration of the world's most amazing scientific solution to an overproduction problem. "Coffee plastics" from which Brazil may make homes and schools, war planes and even the industrial machinery of the future, is the answer of modern science to a surplus crop problem which threatened to engulf the whole economy of Brazil and impoverish millions of her peoples!

While all Europe goes coffee-less, Brazil's great coffee industry has warehouses bulging with the 198,000,000-pound surplus left over from last year. The National Coffee department also has on hand 1,436,160,000 pounds more, purchased from despondent coffee owners in 132-pound sacks for 10 cents each! Brazil has watched a total "sacrifice quota" of 9,280,811,892 pounds of coffee go up in smoke (1930-40) in a desperate effort to stabilize her most important industry. Only a scientific miracle, such as "Cafelite" will save the bumper 1940 and the greater 1941 crops from the same disastrous end.

World Market Reduced.

With an annual production of 2½ billion pounds, and a normal overproduction of 720 million pounds, the war has reduced world markets until the United States is now Brazil's only substantial customer. Add to this surplus the 805 million pounds which Europe would normally have bought this year, and you have a coffee problem that would give any country a headache!

Conditions in Brazil's great coffee states have been desperate. Groups of coffee planters petitioned for the right to uproot whole orchards of fine coffee trees, and coffee was selling on the New York Coffee exchange at lowest prices in history.

Looking ahead gloomily to the best coffee crop in years, Brazil may be literally drugged by her own coffee.

What is Brazil going to do?

Plastics Possible Solution.

While secret preparations have gone on for months, in a "too-good-to-be-true" atmosphere, hope, doubt, and hope again has grown that the coffee plastics will really make all the magic things science says.

That the miracle of coffee plastics will save this wanton destruction of coffee money, has been the hope of every coffee planter and laborer, watching the great barn-like buildings rise on barren lands outside Sao Paulo, seeing great crates of machinery arrive from the U. S.

The new Cafelite is heat-resisting, and thus excellent for Brazil's warmer climate. It is noise-proof, and may save the nerves of Brazilians from the increasing racket of city traffic. It is proof against termites and other pests who destroy homes and furniture in warmer climates. It may be made in a whole range of lovely "bathroom" colors, or combined with other substances to imitate wood or wallpaper.

It was discovered by a clever young North American, Herbert Spencer Polin, while doing research for the American Coffee corporation, in his floating yacht laboratory and rushed to Brazil.

Plumbing fixtures made of coffee plastics would be a God-send for millions of Brazilians living in the far interior, and for cheap apartment homes too. Cabinets, electrical appliances, kitchen equipment, furniture, school and hospital equipment, perhaps whole homes and apartments of the future will be made out of surplus coffee!

World's Largest Island Placed Under U. S. Protection

WASHINGTON —When President Roosevelt announced that the United States would defend Greenland, he extended the scope of the Monroe Doctrine to the largest island in the world.

With a total area of 850,000 square miles, it is almost as large as the United States east of the Mississippi More than three-fourths of this area is covered by an immense ice field

Eskimos greatly predominate among the 18,000 persons living in Greenland. Some English is spoken, but the vast majority know only Greenlandic, a dialect of the Eskimo language. The general standard of living is still primitive, with most needs for food and clothing being satisfied by hunting and fishing.

Until the war started, the Government monopolized the foreign trade requiring almost all exports to be shipped first to Denmark.

Washington, D. C.

NAZI LAKE

Tell-tale signs accumulate that the next big Hitler drive is to make the Mediterranean an Axis lake. The most obvious, of course, is Hitler's unconcealed plan to launch submarine and bombing raids against Suez from his new base at Salonika and from the Greek islands.

Secret plans for closing the other end of the Mediterranean have been evident for some time along the Spanish border, where big guns are ready to be rushed against Gibraltar.

Most significant of these preparations, however, has not leaked out. It shows how extensive are Hitler's ambitions around the Mediterranean. For some weeks now, Nazis have been busy dismantling the airplanes of General Weygand in North Africa. Every morning the French wake up to find a magneto missing from one machine, a carburetor from another. Gradually, the essential parts of this air fleet have evaporated.

Hitler is taking no chances on letting what remains of the French air force get into British hands. There now seems to be little question that Hitler plans to take over French possessions in North Africa, together with French naval bases, as soon as the time is ripe.

Note—U. S. military observers believe the Mediterranean will be ripe first, next Russia. That is the way the Hitler time-table looks today.

* * *

IRISH ARMS

The visit to Washington of Irish Defense Minister Frank Aiken, on an arms purchasing mission, was no boon to congressmen of Irish descent who voted against lend-lease.

He has pointedly avoided them, and instead gone out of his way to hobnob with the members of congress who supported the bill—particularly House Democratic Leader John McCormack, who sponsored the measure, and Rep. Jim McGranery of Pennsylvania.

The tall, genial Irish minister has been eloquent in praise of British courage and President Roosevelt's policy of making the United States the "arsenal of democracy." He wants to draw on that arsenal to arm Ireland against the Nazi menace.

The Irish are as adamant as ever, Aiken says, against turning over their urgently desired bases to the British. But he points out that Ireland is Britain's "breadbasket," having provided one-third of its food, considerable clothing, and other necessities since the war began.

Ireland proposes to mobilize an army to battle off any Nazi attacks, if the necessary equipment can be obtained from Britain and the United States. Britain has agreed to furnish some, and Aiken hopes to get the rest here. He says he has "several hundred million dollars" to spend for anti-aircraft guns, tanks, rifles, ammunition; also for wheat and food.

Note—Ireland has an army of 250,000 volunteers, but only 25,000 are properly equipped and garrisoned. Most of the men are local "security guards," who train only once a week.

* * *

LEND-LEASE KINGPIN

Kingpin in directing the lend-lease program is Harry Hopkins, gaunt intimate of the President.

Living and working in the White House, Hopkins is Roosevelt's personal spokesman on all lend-lease matters and holds all the reins. No move is made without his knowledge and approval. In inner circles Hopkins is referred to as lend-lease "coordinator," but actually he is the boss-man for the President.

Hopkins' chief assistant is Maj. Gen. James H. Burns, one of the army's procurement aces.

The test in passing on allied requests for supplies is whether they will also be useful for our own defense. The government's policy is to provide all equipment and materials possible, but not to disrupt our own defense program.

An example of the emphasis on standardization of the armament of the U. S. and Britain was a recent request for 37-mm. shells. It was turned down because 75 mm. is the caliber of the guns now chiefly in use in our army. Production of 37 millimeter shells would have required extensive retooling, only to turn out ammunition of no value to us.

The actual placing of lend-lease orders is being handled through three offices; munitions by the navy's bureau of supplies and accounts and by the bureau of ships; and army supplies by Under Secretary of War Robert Patterson.

Walter Winchell

(WNU Service)

New York Newsreel:

Joe, the monkey matinee idol of Central Park. Every afternoon his trainer trots him out on the green where his humantics draw a Standing Room Only crowd . . . The warped walk along the Brooklyn Bridge worn by the tread of age old Hope, Dreams and bitter Tragedy . . . The set faces of the homeward bound business men that seem to have in them some of the granite of which the city is made . . . The Western Union messenger boys, holding down the most overworked job in the city. Walking Madam's dog around the block.

The mounted policemen in the W. 40's making the traffic behave. Modern knights without armor . . . The wisps of femininity that enrich the decor of the plush super clubs as they enter on the arms of middle-aged men. Between canapes they enjoy a little flirting—as they pull the silk over their escorts' eyes . . . Those yellow carts in Central Park loaded with colored balloons, candies and all kinds of goodies—a little piece of Heaven for tots.

The frosty doormen at some of the snooty night clubs, who glance at strangers with a machine gun look . . . The delivery boys for the airlines, who look like commodores in their blue uniforms . . . The human wreck drifting alone in the night. They seem to be an extension of the shadows they hug, come to life . . . The green magic, blooming in the park, and the bewitching florists' windows all around the town.

New York Heartbeat:

Sallies in Our Alley: George Kelly was telling the bunch at the 48th Street Tavern about the time Joe Frisco turned down a job at one of those joints "where a guy was killed every night!" . . . Joe shook his head and stuttered: "N-n-not f-f-for m-m-me. Too m-m-many t-t-t-tough guys hang out there" . . . The owner said: "Oh, them? They've all been killed!" . . . "Yeah," said Frisco, "b-b-but what happened to the g-g-g-guys that k-k-killed them?" . . . A feller asked Joe E. Lewis how he did at the track . . . "I bet on a horse," said Joe, "that if Paul Revere rode him—we'd all be talking with a British accent today!"

Big Town Vignette: He's a Wall Streeter and his face is redder than ever these midnights . . . His wife has pestered him for a mink coat . . . He decided he'd raise his own mink coat on the bit of property he owns in New Jersey . . . and so he started a mink farm—to save money instead of "squandering" it in "those expensive 5th Avenue stores!" . . . Well, sir, after a full season of hard work and an investment of $2,000, he got enough skins to make half a jacket, worth $400 . . . His wife is so sore she's practically chewed the last of her bottom lip, and his pals are laughing hysterically.

New York Novelette: He's well known in the advertising business . . . Handling due bills for night clubs and cafes . . . Some time ago he decided to expand. He needed $10,000 extra capital. No way to raise it. Then an idea almost floored him. He'd marry for money! . . . He went through a list of gals he knew and came across a likely prospect . . . A Bronx girl, getting on in years, whose folks had moolah . . . A whirlwind courtship followed. Took her to every joynt in town, signing tabs and playing the big-shot . . . Went in the red for $600 in seven weeks. The girl soon capitulated. A quick ceremony . . . That was two months ago, and still no dough. Every time he mentions the subject to his father-in-law, the old gent is amused . . . "If you love my daughter," he heckles, "you won't feel cheated if you don't get any money. And if you don't love her, why should I give it to you?" . . . Moral: Two's company. Three's safer.

Manhattan Murals: Tito Guizar swears this oldie happened in a swanky restaurant. The owner instructed a waiter to tell a patron to remove the napkin stuffed in his collar. "Tell him as tactfully as you can," added the boss . . . So the waiter went over and said: "Well, sir, what'll it be? Shave or haircut?" . . . Then there's the one about the guy in a midtown place who called over the waiter and said: "Which did you pour into this drink first—the scotch or the soda?" . . . "Why, the scotch, of course," said the waiter . . . "Oh," nodded the patron, "then I guess I must be coming to it."

Sounds in the Night: At Lum Fong's: "Is he tight? Say, that guy's pockets close up earlier than a bank!" . . . At the Beachcomber: "It was a case of love at second-sight. The first time he didn't know she had money" . . . At the Stork: "I dunno where I met her. I just opened up my wallet and there she was" . . . At Copacabana: "No matter how high you rise on Broadway—you can't rise above suspicion" . . . At the Castleholm: "They have a chorus of forty—but I understand a couple are younger."

FARM TOPICS

MILK VALUABLE AS CHICK FOOD

Starts Poultry on Rapid, Continuous Growth.

By WILLARD C. THOMPSON
(Head of Poultry Department, Rutgers University)

Although nature probably never intended chicks to grow and develop on a milk diet, milk is nevertheless one of the best foods on which to start chicks on careers of rapid, continuous growth.

The best form in which to use milk for chicks is sour skim milk furnished as a beverage. The process of souring breaks down the milk solids into forms which are readily digested by chicks. The presence of the lactic acid in the intestines of the chicks is also advantageous. If every chick placed under brooders this spring could be made to drink sour skim milk every day during the first 10 weeks of its life the 1941 chick crop would show a remarkable growth and a very low mortality, other things being equal.

Furnish chicks a sufficient supply of sour skim milk preferably in stone ware or glass containers, every morning. Withholding water will force them to drink it. Always empty out whatever old milk may remain in the containers and thoroughly cleanse the utensils before refilling. There is so much water in sour skim milk that chicks really do not need water as well as the milk.

Sour skim milk seems to serve as an appetizer for chicks. By encouraging greater grain and mash consumption, it speeds up the rate of development.

Sour skim milk is a splendid supplement, particularly for broiler rations. In places where skim milk is not available, the commercial condensed buttermilk products may be diluted and used as a beverage. Of course, buttermilk may be used in place of sour skim milk if it is more readily available and cheaper.

AGRICULTURE IN INDUSTRY

By Florence C. Weed

(This is one of a series of articles showing how farm products are finding an important market in industry.)

Oats

An important industrial use for oat hulls was discovered by accident in 1922. Chemists were trying to improve the digestibility of oats as a cattle feed when they discovered furfural, a compound obtained from oat hulls. At first this was a laboratory curiosity, but soon many uses were uncovered.

Large quantities of furfural are obtained as a by-product in the manufacture of rolled oats and at times, cereal companies operate mainly to produce raw oat hulls as the raw material for furfural. This compound might also be obtained from straw of wheat and other grains.

At present, furfural is sold in tank lots for a germicide, a wood preservative, an improver of tobacco flavor, a solvent for dyes and leather dressing and in the refining of lubricating oils.

It is also possible to use furfural as a plastic compound. New methods are being studied to keep it from turning dark. It has been proposed as a material for a durable waterproof road when blended with soap, salt, lime, farm wastes and soil.

Several kinds of alcohol can be produced commercially from furfural and appear to have promise as solvents, plasticizers and wetting and cleansing agents in different kinds of manufacturing. It might also be used as a fuel for Diesel engines if it were not so expensive.

More familiar uses of oat straw are as a blanket in curing concrete roads, as bindered in briquetted fuels and as poultry litter. The United States produces 25 per cent of the world's oats, valued at $350,000,000.

Agriculture News

The cost of raising a pullet and feeding her through the first production period is about $2.25.

* * *

Turkey eggs should be gathered at least twice a day, and three or four times a day is better.

Flax is splendid as a nurse crop for red clover, alfalfa, lespedeza and grass. Sweet clover grows too well in it and will give trouble at combining time.

* * *

Fat brood sows do not produce the most vigorous pigs. The fat sow may farrow weak pigs which are more likely to be killed by overlaying than are pigs in the litters of thinner, more active sows.

* * *

As a safety measure, every bull should have a ring put in his nose when he is about eight months old. A copper bull ring 2¼ inches in diameter will do while he is young, but by the time he becomes two years old, it should be replaced by a stronger gun metal ring.

Prints Teamed With Plain Wools Tell Fascinating Fashion Story

By CHERIE NICHOLAS

DESIGNERS are in a mood to play with prints this season. Never in the history of fashion have prints been put to such different and fascinating uses. Anything and everything that can be made of printed fabric is being made. Perhaps the biggest splurge prints are making at present is their teaming up with monotone wools.

This companioning of print with plain is dramatically interpreted throughout all costume design but most notably in jacket suits, redingote ensembles and in capes. While splashy huge-patterned prints play an important role in formal evening apparel and play clothes, neat, small prints are featured in smart daytime ensembles.

However, what these prints of tiny motifs and checks lack in size is made up in color. For instance, the latest fashion is to top red prints of neat design with red wool coats, jackets or capes—a fashion that is being used to a great extent in teenage frocks.

Red prints are the rage this season. Made up in dresses, they are variously teamed with black, navy, or as mentioned above, red. This trend is illustrated in the model shown to the right in the photograph. This dress featured by the Style Creators of Chicago in a recent display, is topped by a flower print red crepe with a thin black wool jacket, tailored to perfection. The pleated skirt and the hat that repeats the print of the dress are smart accents.

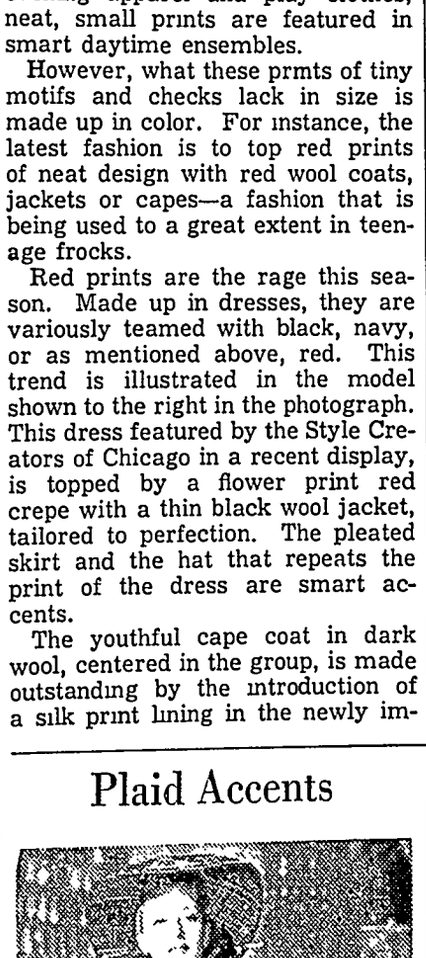
The youthful cape coat in dark wool, centered in the group, is made outstanding by the introduction of a silk print lining in the newly important fine check print, repeating the silk print check of the slim, pleated dress with which it is worn.

A youthful interpretation of the print with plain vogue is pictured to the left. This ingenue dress is of delft blue and white print crepe. The jacket, wearable over other things, is of blue rabbit's hair. Note that the sleeves are short, in keeping with the girlishness of the ensemble. There is a cunning little handkerchief of the print. This is one of those casual, intriguingly styled dress-plus-jacket outfits that is so universally likeable for general wear.

There is a new use of prints this season that is challenging the creative genius of designers. It is the idea of trimming with gay prints. You will see it carried out in pipings, bindings, appliques of print motifs, also bow trims of print bands. There is, for example, the dress with pleated skirt that is topped with a monotone jacket that is bound with an inch bordering of print, or possibly a mere binding—just enough to relate it to the dress with which it is worn. Another way of arriving at a "touch of print" for your costume is to have a hat and bag of print that will enliven monotone dresses and coats to the nth degree.

(Released by Western Newspaper Union.)

Plaid Accents



Here's how to add a note of gaiety to a navy suit that boasts an extreme mannish cut. Wear a plaid taffeta hat and carry matching accessories! Choose a wide-brimmed hat of plaid taffeta in red and soft blues. Over your shoulder, sling a matching pouch bag. Climax the plaid program with a handkerchief of matching plaid. It is the better part of wisdom to buy a simple one-color suit or coat, than depend on accessories to give it eye-dazzling chic.

Hair Styles Reveal New Flower Motifs

A new vogue that probably will spread like wildfire is a cluster of flowers worn at each side of the head, balanced symmetrically. The flowers are caught to a ribbon band or to one of the new hairbands that fit to the

Roses Take Spotlight In Many Fabric Designs

It's rosetime in fashionland. The most featured flower in fabric design, in hat trimmings and in smart corsages is the rose.

It is going to be a particularly "rosy" summer in cottons, because cottons this year are reminiscent of weaves that were favorites in the early 1900s. You will find roses blooming on waffle piques, on unbleached muslins, in mezzotint, on glazed chintz and on lawns and percales.

For party frocks, the newest materials are hand-painted sheers. A huge American Beauty rose, one painted on the bodice, one on the skirt, enhances the beauty of these sheers.

Don't overlook the cunning little sailor hats that are made to wear with the new tailored suits or cape costumes. You will be charmed with single rose trim that mounts right from the very front of the crown.

The latest evening corsage is a single long-stem rose.

Cotton Fabrics Essential To Wardrobes, Supplies

A surplus commodity without which homemakers would be lost is cotton.

There are probably more cotton fabrics suited for more varied uses than fabrics made from any other fiber or combination of fibers. Cottons make up into at least 30 different fabrics suitable for dresses for women, girls and infants.

Without cotton, sheets, pillowcases, ticking and linings of comforters, curtains, draperies, upholstery materials, bath towels, hand towels and dish towels would disappear.

Frilly Accents

Everybody's doing it! Wear the frilliest frilly-frilly neckwear ever. Regency frills, jabots, big sailor collars with frilled edges, yokes that are frilled

THE PAPERS OF PRIVATE PURKEY

Dear Ma—

Well you will laff at this ma but the army has learned me how to make a bed. If I get out of this war safe and back in plain close no matter how bad the employment situashun is I can get a job as a chambermade. Making beds is one thing I never thought I would be a expert at but it is one of the first things you get instructed at in a draft camp. I never paid no attention all my life to bed making. I just got out in the morning and from all I knew it was all done autermatically but I am now a first class bed maker and some nice girl could use me as a housekeeper.

* * *

I no this will surprise you more than anything tho mom when I tell you I am a Grade A dishwasher. They call this kitchen police detail but I do not know where the police part comes in as I never seen no cop doing dishes but they tell me in the army that they call any dirty work police work. Well anyhow I put in a hole day washing dishes and if you ever ask me to help with the pots and pans hereafter and I refews I will apolergize becuz it will be a picknick compared to what washing dishes is up here. You don't wash a plate at a time. You wash 'em in bunches and you have to be a combernashun Japaneze jugler, kitchen canary and all around mopper-upper. I have got so good at it that if I had a race with a electric dish washing machine it would take a photo to pick the winner.

* * *

The breakage is not heavy which is a big disserpointment as I would like to bust more than I do but the crockkery they use in the army is more like cement lawn furniture. You can drop a coffee cup on the floor and it will bounce rite back and hit you on the jaw. I dropped a saucer yesterday and it made a hole in the floor big enough for two men to go threw. I never new there was so many dishes in the army and believe me I never seen no physical training that hardens muscles like just lifting army china. I know a private who dislocated two ribs lifting a saucer. The sergeant says the dishes are just for eating but he can't fool me. If war comes they will be used for throwing.

* * *

My hand and arms up to the rist is all pink and puffy from being in the hot water so many hours at a stretch and when I can't sleep now I don't count sheep I just count dirty dishes. I had a terrible dream last night. I dreamed I had to do all the pans and broilers all over a second time. You know how the pans and broilers are all stuck up after a big Thanksgiving dinner at home, ma, well there is twice as much goo on 'em up here and I think the skipper puts a coat of hard varnish over it to make it all the harder.

* * *

I do not like it much as it does not seem to have much glammer and in all the stories I read about war heroes I never noticed a dish washer being mentioned. The sergeant says Napoleon started as a dish washer washing French pastery dishes witch is why they call him Napoleon but he is kidding I gess.

* * *

All the boys is talking about the rumor that this training will last longer than a year, maybe for two years but I wud not mind it so mutch pervided I could go home winters as the life the last winter was so tuff even those Finns would of been soar. I see Washington says the report is strictly balony but most of us has our fingers crost becus the lease lend bill is passed and anybody knows that nobody who borrows anything ever gives it back under a couple of years.

* * *

Anyway ma do not worry as I am still okay except for soar feet, a bad hangnail and a little touch of newmonnia but I am so busy washing dishes that it takes my mind off my suffering.

Your loving son,
Oscar.

* * *

GOTHAM GLIMPSES

Greenwich Village:
Where poets write rhymes of wagon wheels,
Harpies, hams and Cuban heels.

* * *

Times Square:
Where yokels vie with touts and shills,
Sirens, hot dogs, bars and grills.

* * *

City Hall Park:
Where typist, tramp and newshawk mellow
Bask near the shrine of Fiorello.

Household Hints

Cream cheese mixed with a little chili sauce or catsup makes a piquant filling for sandwiches. They are especially appealing with a hot beverage.

* * *

Never allow cold water to run into an aluminum pan while it is hot. If done repeatedly, this rapid contraction of metal will cause pan to warp.

* * *

If you do not have a special board for pressing sleeves, here is a convenient substitute: Roll up a large magazine, fasten it with rubber bands and tuck it into the sleeve.

* * *

Remove seeds from dates with a sharp-bladed paring knife. Keep your fingers moistened with cold water to prevent dates from sticking. Store dates in covered jar in a cupboard.

* * *

Glass spoons are better for medicines than metal ones, but a small medicine glass is best, of course. They can be purchased for a very few cents and are more accurate for measuring than teaspoons which vary in size.

Hancock County Board Proceedings

SUPPLEMENTAL MINUTES
To 1st Adjourned April Meeting

Garner Iowa, April 21, 1941

WHEREAS, Hancock County, did on the 22nd day of March 1941, sell at public auction to Robt L Goethe the North one-half (N½) of the Northeast one-fourth (NE¼) of Section sixteen (16) Township ninety-six (96) Range twenty-five (25) West of the fifth P M for the sum of twenty-seven hundred ($2700) dollars

And WHEREAS title has now been perected to the satisfaction of the said Robt L Goethe and he is ready to receive deed and pay the balance of the purchase price

And WHEREAS in an action commenced in the District Court of Hancock County Iowa on the 14th day of November 1939 by one J K Deming against the Board of Supervisors of Hancock County, Hancock County et al, being Equity Cause No 10941

And, WHEREAS in the Petition in said action the said J K Deming alleged that Hancock County was the owner of the above described real estate and held the same in trust for the use and benefit of Drainage District No 107

And, WHEREAS, the Plaintiff in said Cause was the owner and holder of all of the remaining bonds for the original construction of said Drainage District.

And, WHEREAS, a decree was entered in said cause on the 24th day of February, 1941, directing the Plaintiff to surrender his bonds for cancellation, which has been done and directing that the said lands be sold and the proceeds divided

And, WHEREAS it appears that Drainage District No 107 may have had an interest previous to the entering of said decree and may have at this time, an interest in the above described real estate.

NOW THEREFORE, be it resolved by the Board of Supervisors of Hancock County, Iowa, that Hancock County by its Board of Supervisors convey by warranty deed, the above described real property to Rob't L. Goethe and Gene Juel Goethe, husband and wife as joint tenants and not as tenants in common

BE IT FURTHER RESOLVED that the Board of Supervisors on behalf of Drainage District No. 107, Hancock County Iowa join with Hancock County in the execution of said date The Chairman of the Board of Supervisors is hereby directed to execute and deliver on behalf of Hancock County and Drainage District No 107 Hancock County Iowa the warranty deed of Hancock County and Drainage District No 107 Hancock County Iowa, conveying the above described real property to the said Robt L Goethe and Gene Juel Goethe

On motion by Schoun and second by Klipping the above resolution was offered for adoption and upon motion being put by the Chairman, the vote was as follows

Eckels—Aye
Schoun- Aye
Klipping—Aye

2ND ADJOURNED APRIL MEETING

Garner, Iowa, April 29, 1941

The Hancock County, Iowa, Board of Supervisors met in session on above date with G E. Klipping, F. J Schoun, and Penn Eckels present.

The minutes of the last meeting were read and approved as read.

WHEREAS, it appears that one, R. J Fritsch, owes personal property taxes in the following amount to Hancock County for the years 1930 to 1939 inclusive in the sum of $357 53

And, WHEREAS, it appears that the said R J Fritsch is one of the heirs at law and a divisee under the will of Frederick Fritsch, deceased, whose estate is now in the process of administration in this County, being Probate No 2367, and as such heir and divisee is the owner of one-seventh interest in and to Lots 7 and 8 in Block 13 of the Original Town of Garner, Hancock County, Iowa, subject to the debts of said Frederick Fritsch,

And, WHEREAS, it appears that Robert W Sinclair, Administrator with will annexed of the Estate of Frederick Fritsch, has been granted authority by the District Court of Hancock County, Iowa, to sell the above described real estate for the purpose of paying debts of Frederick Fritsch, deceased,

And, WHEREAS, it appears that Hancock County was not given notice of the time and place of hearing upon said application for authority to sell the above described real estate,

And WHEREAS it appears that the lien of Hancock County for the above set forth personal property taxes upon the above described real estate is and has at all times been subject to the debts and obligations of the said Frederick Fritsch, deceased,

And, WHEREAS, it appears that had Hancock County been given notice of said application for authority to sell the above described real estate, no objections by Hancock County would have been made thereto for the reasons aforementioned

NOW THEREFORE, be it resolved by the Board of Supervisors of Hancock County Iowa that in view of the foregoing matters set forth in this resolution and in order to perfect the title of the above described real estate that the lien of Hancock County Iowa, upon the above described real estate for the personal property taxes of R J Fritsch be and the same is hereby released as to lots 7 and 8 in block 13, of the Original Town of Garner, Hancock County Iowa and the Order of the District Court of Hancock County Iowa, entered in the above described Estate on the 4th day of June, 1940, authorizing the sale of said property is acquiesced in and ratified as to any interest Hancock County may have had therein.

On motion and second Soldier's Exemption is granted to Ben J Coobs.

On motion and second F A Chisel is appointed special deputy sheriff to act as dog catcher and his bond as such deputy is hereby fixed at $500 00.

Supervisor Schoun is appointed a committee to investigate and cause repairs to be made in D D No 46-3, D D No 130 lateral 111 and 70.

Supervisor Klipping is appointed a committee to investigate and cause repairs to be made in D D No. 16-3 D D 3 and 4 lateral 26 and D D No 7

In the matter of the petition of Oscar Golbuff et al for a cleanout of D D No. 3 and 4 lateral 1,

BE AND IT IS HEREBY RESOLVED, by the Board of Supervisors of Hancock County, Iowa, that said petition be referred to the County Engineer for investigation and report

This being the 29th day of April the date heretofore set for a letting on grading of certain Hancock County roads the hour for said letting having arrived the Chairman of the Board Penn Eckels proceeded to open all bids on file at the exact hour scheduled for the letting And after duly considering all bids on file did find the bid of Harry Rehm of Britt to be the lowest and best bid therefor

BE IT THEREFORE RESOLVED by the Board of Supervisors of Hancock County, Iowa, that Harry Rehm of Britt be awarded a contract for grading of 55 miles of Hancock County Iowa, roads as specified in the report of the Engineer, his being the lowest and best bid therefor All other bids are hereby rejected

BE IT FURTHER RESOLVED, that Chairman, Penn Eckels, be and he is hereby authorized to execute said contract in behalf of Hancock County, Iowa. All as by law directed

On motion and second Board adjourned to May 2, 1941, at 9 00 o'clock a.m

ATTEST
Fred C Missal, County Auditor
Penn Eckels, Chairman.

Voice of Abe Lincoln

All disputes and arguments, pro and con, as to the quality and style of voice Abraham Lincoln possessed can now be ended, according to the Chicago Tribune of March 11, 1861.

On that date, the Tribune printed the following article:

"His voice was as soft and sympathetic as a girl's. Altho not lifted above the tone of average conversation, it was distinctly audible thruout the entire hall. When after avowing his devotion to peace and conciliation, he said, 'But yet I fear we shall have to put the foot down firmly,' he spoke with deliberation and with a subdued intensity of tone, lifted his foot lightly, and pressed it with a quick but not violent gesture upon the floor. He evidently meant it. The hall rang long and loud with acclamations. It was some minutes before Mr. Lincoln was able to proceed . . I have never seen an assemblage more thoroly captivated and entranced by a speaker than were his listeners yesterday by the grim and stalwart Illinoisan."

Burglars Know When

Stay home around nine o'clock in the evening if you don't want your house entered by a burglar This is the advice of an insurance company which recently made a survey as to what part of the day the most burglaries occur

The survey disclosed that the hours between 8 and 12 midnight are the busiest for house thieves, with 9 p m the most popular hour

Burglars, no doubt, are familiar with that fact—that most people leave their homes around nine o'clock to go to a movie, or to visit friends, or play bridge—and do not return until midnight

Horatius and Bridge

Contrary to legend, Horatius never defended the bridge It was a story manufactured by the same Roman historian who put forth that other fabrication of history that Mucius Scaevola put his hand in the fire

THOSE WHO HAVE REACHED 21 to SIGN UP JULY 1

WASHINGTON, — Army and selective service officials were reported Thursday to have decided on July 1 as the date for registration of approximately 1,000,000 men who have become 21 years old since the first selective service enrollment last October

The registration will take place at the headquarters of the 6,500 local draft boards now functioning, and authorities said it would be a "fairly simple job" compared with last fall when 16,500,000 men 21 to 35, were signed up for possible military training

The date for the new registration will be formally fixed in a proclamation by President Roosevelt. Authorities indicated that the day now tentatively agreed upon was chosen to give the new group of prospective military trainees time to learn whether they are apt to be called for services this fall so they can arrange their school or employment plans accoringly.

In official quarters here it was expected that a large proportion of them would be called for training within a few months after they are registered and classified as to availability for immediate service.

A decision apparently has yet to be reached on how the order numbers of the July registrants will be incorporated in the existing list of numbers assigned after the selective service lottery last October. Whatever the method, the belief was that it would not hinder plans for drawing on the newly-registered pool of additional manpower almost immediately.

Now that the initial groups of trainees have been inducted to provide cadres of more mature men around which to build up the new army, it was learned that war department officials are considering shifting the emphasis to younger men.

BIG TIME ORCHESTRA SLATED FOR SATURDAY NIGHT

The big dance of the season, with a big time orchestra, is the attraction at the Klemme Legion Community Hall for this week Saturday night, when the manager brings to Klemme Stan Stanley and his ten-piece dance band

The management is making arrangements to handle a large crowd to hear this famous band Stan Stanley was one of the big attractions here earlier in the winter. This will probably be the last big time orchestra to play here until the fall or winter season opens. However, the regular Saturday night dances will be held weekly with good, popular priced orchestras providing the music.

Under most road and field conditions, rubber-tired machines pull easier than those with steel wheels

Young Ladies Announce Double Wedding At Bridge Party

GROUP OF YOUNG LADIES ENTERTAINED AT ANNOUNCEMENT PARTY

Two Klemme Couples Will Marry Tuesday, May 20th

The Misses Elaine Buntenbach and Carmen Kluckhohn entertained a group of young ladies at the Buntenbach home last Thursday evening at six tables of bridge.

The affair was in the nature of an announcement party, and between courses of the lunch after bridge had been played, each of the guests was given a corsage and tied to the flowers was a small capsule which announced the wedding date of the two hostesses, May 20th, at which time Miss Buntenbach will be the bride of Verle Keraus, and Miss Kluckhohn will be the bride of Lynford Back

The double wedding will take place at the Reformed Church

In bridge Miss Marie Blank won the high score, Mrs Wm Keraus, second high, and Miss Wilma Swalve, travel prize

Honored At Shower

On Monday evening the prospective brides were honored with a party and pre-nuptial shower given by the G S. Club at the home of Miss Marie Blank.

The young ladies enjoyed a picnic supper on the Blank porch, after which bridge was played.

Miss Elaine Buntenbach won the high score and Miss Bernice Tanner, second.

Miss Kluckhohn and Miss Buntenbach were each given a balloon which they were instructed to inflate until it burst. Upon bursting a slip of paper gave he dircetions for locating gifts, which proved to be a nice card table and a bridge set for each of the young ladies.

KLEMME GRADE TEACHER TO BE BRIDE MAY 25

Mr. and Mrs. Anton Michalek, of Plymouth, have announced the approaching marriage of their daughter, Claudia Mae, to Gunnar Overgaard, which will take place on Sunday, May 25th.

Miss Michalek was graduated from Iowa State Teachers College and has taught in Worth County, and at present is a grade teacher in the Klemme schools.

Mr. Overgaard is a graduate of the Cedar Falls high school and received his B. A. from Iowa State Teachers college. He was affiliated with Alpho Delta Alpha social fraternity and Bete Beta Beta, honoray biological science fraternity, and Lambda Delta Lambda, honorary physical science fraternity. He taught at Traer and is now instructor of science in the Vinton high school.

Tells How To Redeem Gov't Sealed Corn

FAMILY-TYPE FARM MAY VARY GREATLY

It needs To Be of Such Size That It Requires Only Family Labor

Everybody talks about the family-type farm, but nobody knows what one is.

That's the conclusion reached by Leland G. Allbaugh and J. Joe Reed in the May issue of the Iowa Farm Economist. Mr. Allbaugh is now on leave from Iowa State College as head of the farm plan and loan section of the Farm Security Administration Mr. Reed is state representative of the Bureau of Agricultural Economics.

Everyone agrees, says Allbaugh and Reed, that a farm isn't "family-sized" when it requires considerable hired labor or so small that it leads to intolerably low standards of living.

Cost—$5,500 to $17,000

Yet even in Iowa, they point out, people can't agree that any given number of acres make up a family-type farm or that any certain amount of capital will buy one.

When 64 county planning committees were recently asked what a family-type farm would cost in their community, the estimates they gave ranged from $5,500 to $17,000.

Some of the committees apparently made their estimates of the family-type farm so small that operators would need above average ability to make a living and pay off the loan, say the authors.

Type of Farming

Principal reason for the wide range, say the two men, is that the committees couldn't agree on the makeup of a family-type farm. "If you try to make the family-type farm small enough so that everyone who's interested in farming and has had some experience can have his own farm, the family-type farm will be a lot smaller than if your aim is the most efficient operating size, with a minimum of labor in agriculture," they declare.

"In any case the farm management expert would insist that the size of the family-type farm must vary with the size of the family, the type of farming, and the efficiency of the operator."

Typical Family

The typical farm family in Iowa includes one boy(whose labor will be of use between the ags of 10 and 20. To keep him busy the family may have to rent additional acres during those years. Or it may have to buy a larger farm in the first place, which means labor must be hired when the boy is too young to work and after he has left home. A third alternative is intensification of farming by increasing nvestment in livestock, feed or equipment.

"When one defines the family-type farm in dollars needed to purchase it," say Allbaugh and Reed, "small farms that use a lot of labor in a small area also require relatively large amounts of working capital. The increase in working captial offsets the decrease in capital required to purchase the farm."

THREE HANCOCK COUNTY MEN TO BE INDUCTED NEXT MONDAY

The local draft board at Britt reports that three Hancock County men will leave Britt a 2:28 a. m. on Monday, May 19th to be inducted into the army at Fort Des Moines.

The men are Leo Vernon Welch and Howard Archie Orvick, both of Britt, and John Cecil Gatchel, of Garner.

The board named Christopher Lauen of Meservey as a replacement man.

TOWN OFFICIALS WILL GO ON INSPECTION TOUR

Mayor W. C. Keraus notified councilmen and other town officials that they would go on a town ininspection tour next Monday, May 19th at 1:00 p. m.

The purpose of the tour is to inspect town property, as well as streets and alleys, so that town officials will have a better understandings of the committee work required of them and to take care of suggested improvement s and changes that may come up later.

INFORMATION GIVEN OUT ON SEALED CORN BY TRIPLE-A

With the rising price of corn, some farmers have been calling at the county Triple-A office to inquire the price at which their sealed corn can be redeemed, according to James M. Townsend, Chairman of the local county committee.

As a result of these inquiries Mr. Townsend wishes to put forth the following information: the price at which 1940 sealed corn can be redeemed is the sealing price of 61¢ per bushel plus 3% interest from the date of the loan to the date of redemption.

The price at which sealed corn from the 1938 or 1939 crop may be redeemed will vary according to the number of years for which it was resealed. If it was resealed for 1 year, the price will be 62¢ plus 3% interset from Aug. 1, 1940, to the date of redemption minus storage allowance earned at the rate of ½¢ per bu. per monh from Oct. 1, 1940.

If it was resealed for 2 years, the price will be 67¢ plus 3% interest from Aug. 1, 1940, to the date of redemption minus storage allowance earned at the rate of ½¢ per bu. per month from December 1, 1940.

Producers desiring to redeem sealed corn need not necessarily redeem an entire crib or bin. This year they will be permitted to redeem any portion that they desire. Also, the method of redemption is comparatively simple.

Producers desiring to redeem any sealed corn will be required to call at the county office and designate the number of bushels they wish to redeem and the seal number of the bin or crib from which the corn will be removed. The county committee will then compute the amount due for such number of bushels and will be required to collect the same from the producer in advance of the time the corn is removed from the bin. The producer will also be required to sign form Corn Loan 29, Repayment Record, which will show the redeemed. He will then be allowed to remove from the bin the number of bushels that he has redeemed.

KLEMME YOUNG MEN WILL GO TO CAMP ROLLO, MO.

Duane Johnson and Wayne Buseman, enlisted army men stationed at Fort Des Moines, have been notified that on May 25th they will be sent to Camp Rollo Missouri.

Wayne and Duane came home Saturday from Fort Des Moines and had a leave of asbence until Tuesday morning which they spent in Klemme visiting with relatives and friends.

W. S. C. S. NOTES

Circle 1

Circle one will meet Friday, May 16th with Mrs. Mary Waterman. at 2 P. M.

Circle 2

Circle two will not meet this week.

Circle 3

Circle three will not meet this week, but Tuesday May 20th at the home of Mrs. J. A. Chambers. Gather at the drug store at one thirty for transportaion.

Circle 4

Circle four will meet this week Thursday, May 15th at the home of Mrs. Ramsay.

Dinner Party

Mrs. Lena Schroeder and Miss Marian Irvine were hostessess at the Schroeder home to a six thirty 3 course dinner Thursday evning, in honor of Miss Claudia M. Michalek, who is to married May 25th to Mr. Gunnar Overgaard, at the Methodist Church in Plymouth.

The evening was spent playing backrole and high scores were won by Mr. Montgomery and Miss Potter, and low score by Mr. Onerheim.

Miss Michalek was presented with a number of gifts.

Still in Use

After being used for 81 years and still good for several more, is an "Incumbrance Book" in the Bremer county clerk of court's office.

JOHN B. MAGEE, PRESIDENT OF CORNELL COLLEGE, MOUNT VERNON, IOWA, WILL Be the Main Speaker At The Graduation Exercises At Klemme On May 20, High School Gym.

. . . JUST LIKE MOTHER USED TO MAKE!
(See Recipes Below)

WAS WONDERFUL FOOD!

emember flying home, pigtails ping, to smell supper, and s? Remember being saucer- as mother's marble cake took ue ribbon at the fair? And re- ber licking the last bit of sweet- from the frosting platter? know you must remember. How d you forget? It was wonderful !

d it's to the best cooks in the d — our mothers — that this 's column is dedicated. When pay them homage on Mother's 1941, perhaps you'll enjoy us- some of the following recipes, rites of the long ago.

those days, to be caught with- plenty of food, and good food, too, for all com- ers was to show oneself a poor housekeeper, a bad hand in the kitchen.

But times have changed. A large "crock" of but- ter, a "basket" eggs, and a "wedge" of cheese no longer a part of the regular plies on the shelf in the vegeta- cellar. Nor are recipes penciled the fly-leaf of the family ledger. the basic goodness is still the e.

o, whether it be crusty brown ghnuts, chicken pie and jelly , huge, fluffy cakes, or rich colate pie, let's take mother k, down memory lane!

ovely to look at and utterly de- tful to eat is the Sour Cream il's Food Cake, which I'm sure a favorite of grandmother's.

ur Cream Devil's Food Cake.

ups sifted cake flour
easpoon soda
teaspoon salt
cup butter or other shortening
cups sugar
gg, unbeaten
squares unsweetened chocolate, melted
easpoon vanilla
cup thick sour cream
cup sweet milk

ift flour once, measure, add soda salt, and sift together three es. Cream butter thoroughly, sugar gradually, and cream to- ther well. Add egg and beat very roughly, then chocolate and va- a, and blend. Add about one- rth of the flour and beat well; n add sour cream and beat thor- ghly. Add remaining flour, alter- ely with milk, a small amount at ime, beating after each addition il smooth. Turn into two greased ch layer pans and bake in a derate oven (350 degrees F.) 30 nutes, or until done.

pread Felicity Frosting on top sides of cake. Top with glossy

LYNN SAYS:

In an old book of household ad- ce, written in 1879, are some ords of wisdom "to help home- akers," I'm passing them on to ou "for what they're worth" in e modern, up-to-date home.

"Use a clam shell to scrape illets or saucepans; to scour ur iron pots and griddles, use ood ashes.

"Sweeping a carpet with new allen snow will make it look ry bright and fresh. Also, it a good plan to save tea leaves, d, with them not too moist, weep a dark carpet. This is ot advised for light colors.

"Woodwork may be dusted with long-feathered wing, preferably at of a turkey.

"For washing fine clothes, use pounder—not a large, old-fash- ed affair, but one about twice large as a potato masher, and ound your clothes as they soak sal-soda water. The rubbing a board will then be very sy. Use a clothes wringer if you n possibly get one.

"Never buy ground coffee. ake whole berries and heat; ind while hot.

"All housewives should be well ersed in cookery, and should ow how to make good dishes, ch as 'Jenny Lind Cake,' 'Pars- Pie,' 'Marrow Dumplings' 'Flannel Pancakes.' "

THIS WEEK'S MENU

Menu For a Mother-Daughter Banquet

(For not-too-large a group)

Strawberry and Pineapple Cup
Roast Chicken Giblet Gravy
Bread Filling Fresh Asparagus
Fruit Salad
Ice Cream Cookies
Coffee Milk

chocolate coating, made by combining 1 square unsweetened chocolate, melted, ¼ cup sugar, and ¼ cup water. Cook over low flame until smooth and thick. Cool slightly. Double the recipe for three 10-inch layers.

Felicity Frosting.

2 egg whites, unbeaten
2 cups brown sugar, firmly packed
Dash of salt
7 tablespoons water

Combine egg whites, sugar, salt and water in top of double boiler, beating with rotary egg beater until thoroughly mixed. Place over rapidly boiling water, beat constantly with rotary egg beater, and cook 7 minutes, or until frosting will stand in peaks. Remove from fire, but allow to remain over hot water, and beat 2 minutes longer. Place over cold water and continue beating 3 minutes. Makes enough frosting to cover top and sides of two 9-inch layers.

* * *

Just like mother used to make. That's what you'll say when you taste the delicious cookies, made by the directions given below. When mother baked cookies she made them rich with butter and usually full of fruit, like:

Fig Oatics.

Boil 5 minutes in water to cover:
1½ cups dried figs

Drain, clip stems and cut figs into thin strips (scissors are handy). Cream together:
1 cup butter
2 cups beet or cane sugar

Add:
3 eggs, beaten

Blend well, then add liquids:
¼ cup milk
1 teaspoon vanilla

Sift together and add:
1½ cups sifted all-purpose flour
¾ teaspoon salt
2 teaspoons baking powder

Add:
Figs
5 cups quick-cooking oats

Stir until well blended, then drop by small spoonfuls onto greased cooky sheet and flatten slightly. Bake in moderately hot oven, 400 degrees F., for 13 to 15 minutes. Press a nut meat, strips of fig or cherry into tops before baking if desired. For a glazed top, brush with hot honey after baking and place under broiler for a minute or two. Makes 5½ dozen medium-sized cookies.

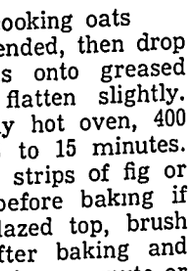
* * *

Do you recall the old cracker barrel? It was a necessity in days gone by when homemakers often made their own crackers, and even their own baking powder and bread starter. Thinking that perhaps in your spare moments you might like to try your hand at cracker making, I'm including a recipe.

Crackers Made With Yeast.

½ package granular yeast
1 pint warm water
1½ quarts flour
1 tablespoon salt
¼ cup sour milk
⅓ cup shortening
1 teaspoon soda

Set sponge of yeast, water and flour at night. In the morning add the other ingredients and flour to stiffen very stiff. Pound with rolling pin. Fold over and pound again. Continue until the dough is smooth.



Place on a lightly floured board and roll in a thin sheet. Cut in squares and punch holes on top with a fork

Place in ungreased pans and bake in a 400-degree F. oven. These are inexpensive and very good!

(Released by Western Newspaper Union.)

Going Places

by CORNELIUS VANDERBILT, JR.

TOOK the New York Express from Chicago to Canton, Ohio. Train filled with young California Coast defense gunners being transferred from Camp Ord, California, to forts along the New Jersey coast. Canton, a city of 120,000, lies in the heart of the prosperous Ohio valley. It is the headquarters for Republic Steel, Hercules Motors, Timken Bearings, and is where the U. S. navy is constructing a huge arsenal and ordnance department. The cafeteria of the immense plant will have 2,000 employees. Hercules builds Diesels among other motors and is now constructing Suicide boats for the U. S. navy. Timken employs more than 8,000; Republic Steel nearby, double that number. In fact, a serious labor shortage is now facing the town—which six months ago had thousands on its WPA rolls.

Canton is also the last resting place of President McKinley. His tomb is built like Grant's tomb in New York and sprawls atop a high hill in the city park. It looked forlorn and lonely in the bitterly cold spring day I visited it. McKinley was assassinated, according to the guide, by a "fanatic who thought McKinley, like Lincoln, had sold out to the financial powers of the new era."

* * *

Picked up the Golden Arrow for an eight-hour jiggle back to Chicago. Passing through the Windy City, dined in the Anchorage at the Windemere with jolly Frank Luther and J. G. MacDonell. One of the most attractive hotel dining rooms in the Middle West, its lighting and dark green decorations made one think of candle-light. Albert U. Bori, the catering manager, has had an interesting career Born in the Rio Grande, Do Sol in Brazil, he was educated with Dr. Ostraldo Aranhi, former Brazilian ambassador to the U. S. and the present minister of the exterior; with President Vagas; and with Jose Antonio Floras de Acumbia, the present governor of the provinces. Bori has done some interesting things himself, for he is now the president and guiding genius of the Chicago Caterers association.

* * *

On later to the apartment of the brother of the editor of the American Weekly, J. B. Meigs, for the engagement announcement of Bonita Kay, prominent young radio star, and Dr. Leo J. Koscinski, former Northwestern football star. With their friends gathered around them, they turned on one of the new home record cutters, over which came the announcement of their engagement, clear and firm. Then the guests gathered around the machine, sang in harmony, and cut more records for their memory file. It was like taking home-movies. Dr. Irving B. Spiegel, who imitated Hitler's radio voice, Mussolini's news reels and Charles Laughton's movies, was exceptional.

* * *

Then took the Dixieland Flier of the Chicago and Eastern railroad. It is certainly well named—makes only three stops in 300 miles, which it covers in five hours—that's better than 60 per, which is going some for a daily steam train, without extra fare, on the Boulevard of Steel! Passing through Kentucky, this train was obliged to burn wood as well as coal because of the low content of Kentucky coal! Talked next afternoon on "Latin America—Nazi or Neighbor?" at the Evansville, Ind., Public Forum in the Central high school auditorium before several thousand persons. Had been preceded by Vincent Sheean, Commodore Ellsberg of the U. S. navy (retired), and Congressman V. T. Smith. Evansville, a city of more than 100,000 persons, is over 80 per cent populated by persons of German descent, 95 per cent of whom are anti-Nazi.

* * *

Drove on after the lecture to Louisville, Ky. Dined en route at the Swiss Inn at Tell City, named many years ago because it was settled by several hundred Swiss families. It is today the principal city in this section of the nation for factories producing high grade wooden furniture, radio cabinets, etc.

* * *

Noticed all along the Ohio and Missouri rivers the great work the federal government is doing in flood and sewer control. The entire countryside hereabouts for hundreds of miles has been revamped by a belt of steel and concrete.

* * *

Traffic lights in Cincinnati certainly cut the speed of traffic. It's the best method I've seen in the entire United States this year. Alternate lights blink in unison, therefore it is impossible to beat them.

* * *

SEEING THINGS: Sign above a bootery in Canton, Ohio—"Sure Shu Store." Sign on a drinking glass in a Canton restaurant—"Romans they just live to eat, they'd stuff themselves from head to feet—Great Caesar's ghost, where are you now? How you would love the Purple Cow!" Sign in a Warsaw, Ky., drug store· "Be a wise duck—take care of that bill"; and in a roadside diner: "No Spiking, Please" (This because youngsters insist on crushing up aspirin tablets in bottles of Coca Colo, creating a mild intoxicant.)

Ask Me Another

A General Quiz

The Questions

1. What is a solecism?
2. Where is the measurement parsec used?
3. What is the lee side of a ship?
4. May one sound be produced so as to neutralize another sound, the result being silence?
5. Who was the Spanish conqueror of Mexico?
6. In the famous poem, named after the hero, what "boy stood on the burning deck"?
7. What country is noted for its consanguineous marriages?
8. How fast do the stalks of the yucca flower grow?
9. Are any famous piano compositions written to be played with one hand only?

The Answers

1. A grammatical error.
2. In astronomy (used for measuring space between the stars).
3. The side opposite to that from which the wind is blowing.
4. Scientists say that two sounds may be produced in such a manner that they neutralize each other and the result is silence.
5. Cortez.
6. Casabianca.
7. Egypt. Consanguineous marriages are those between half-brothers and half-sisters.
8. Yucca flower stalks in California grow from 7 to 11 inches in 24 hours.
9. There are more than 60 famous piano compositions that are played with one hand only, among them being Zichy's "Valse Adele" and Ravel's "Concerto for Left Hand." Ravel wrote this work for a friend who had lost his right arm.

THINGS for You to Make

By Jergie

WHY NOT MAKE KLEMME A DUST-FREE TOWN

We in Klemme do a lot of bragging about what a clean little town we live in, but are we over-selling the statement? I think we are.

For instance, with a few dry days that we have had the past week Klemme is not so clean as it could be Each car that comes up the street kicks up a cloud of dust that is carried by the wind and soon finds it's way into the houses.

Most people agree that something should be done with dust nuisance in Klemme. A few of the citizens in the past years have "kicked in" to purchase calcium chlordie to hold down the dust.

Last year the town counil were on the verge of buying a car load of oil and treating all the streets in town. That news was good news to 90 per cent of the town's population But something happened and there was no oil put on our streets and the dust became bad.

Perhaps the council this year may see fit to go ahead with the project and have every street in town treated to hold down dust. The cost is low and we are sure that the house-wives who have to contend with the dust problem in their homes, will back the council one hundred per cent.

Let's do something to cure the dust nuisance in Klemme.

ANOTHER BEAUTY HINT FOR KLEMME

And while we are on the subject we have another suggestion for improving the appearance of our town.

We have noted at least a half dozen old barns around town that no longer seem to serve the purpose for which they were designed: to house old Dobbin and perhaps a cow.

Those unsightly old barns could be taken down and rebuilt into nice appearing garages at small cost. It would improve not only the appearnce of your own property but the entire neighborhood. You would have an attracive and useful building, not only as a place for a car, but a handy place to put storm and screen windows, garden tools, etc.

NICK-NAMES ALONG THE MAIN DRAG

Have often wondered why people are given a nick-name and why it is easier to call a friend by his nick-name While pondering on the subject we started to list the nitknames along the "main drag" and here they are just to keep history straight

Down at the Farmers Elevator it is Sport Bridges instead of Glenn at the Ace Tavern people talk to Lee instead of Levi; none would think of calling Jim Thomas, James at the barber shop At the Lewis Radio shop we ask Stub instead of Ernest Lewis Coming down the street we stop at Coony's instead of Conrad Quandt's place At the bank we ask to see Bob instead of Asa Arnold, and we call his brother Fritz instead of Fred at the shop, and in the same place we find Slim instead of Martin Brinkman. Over at the butcher shop we could yell all day for Walter and nobody would show up, because it is Happy Jnhnson there!

At Kluckhon's store they really go for nick-names, because there all we hear is Bawly, Buck, Fat and Tiny, and translated it means Frank, Fred, Clarence and Franklyn. Next stop we find Oofie Lau instead of Irwin at the Implement Store.

At the Lewis Produce we talk to Heinie instead of Henry Lewis and across the street its Ira instead of J. I. Overholt and Hank instead of Henry Suckow. And down at the Northern Lumber Company we have a new manager who is already nick-named Skeeter instead of Keith Albertson. We also hear Stokie instead of Orville Stokesbary at the same place. And over at the depot it is Ole Ramsay instead of whatever is his right name.

That may not cover them all, but it takes in most of the territory along the drag Most of the oher business men have just shortened their regular handles to such namse as Walt, Ed, Jack, Bill, Art, Al Pete, etc. And the writer these many years is known as Jergie.

Hancock County Board Proceedings

PROCEEDINGS OF COUNTY SUPERVISORS

THIRD ADJOURNED APRIL MEETING

Garner, Iowa, May 2, 1941

The Hancock County, Iowa Board of Supervisors met in session on above date with G. E. Klipping, F. J. Schoun and Penn Eckels present.

NOTICE OF THE APPOINTMENT OF ADMINISTRATOR

STATE OF IOWA No. 2447
Hancock County, ss.

NOTICE IS HEREBY GIVEN, that the undersigned has been duly appointed and qualified as Administrator of the estate of Mette Ahrenkell, Deceased, late of Hancock County All persons indebted to said estate are requested to make immediate payment, and those having claims against the same will present them, duly authenticated, to the undersigned for allowance and file in the office of the Clerk of the District Court

ARTHUR WELLEMEYER
Administrator
John Lamont, Attorney

Dated April 30, 1941
Elmer Raw, Clerk District Court
(Publish May 7-14-21 ,1941)

Age and Memory

Here's one place where youth didn't win out. It required the age and memory of Mrs. Elizabeth Jane Sabin, 93, to locate the old Military cemetery at Fort Atkinson near Decorah. She returned to Decorah from Minneapolis, where she resides, and located the cemetery forgotten when the soldiers abandoned the fort in 1848.

ring
otoring ....

Get the most out of your Spring Motoring nd Trips by having your car properly serviced day. This is the ideal time of the year for a ip . so let us help you make it more enjoyble.

AR SERVICING AND UBRICATING

Don't neglect any longer to have that old inter oil and grease removed, and your crank se filled with the right grade of PENNFIELD PARALAND Motor Oil; your differential and ansmission cleaned out and refilled with fresh rease; and your battery, tires and radiator also hecked and serviced

IRE & TUBE SALES
EPAIR SERVICE

Perhaps you should have a new set of our ires. We have them in U. S. Royals, Firestone nd Goodyear, for Cars, Trucks and Tractors. ee us today and remember that tire prices are dvancing because of war conditions, so play it afe and buy today!

Leave Your Orders Here For Car Washing and Waxing. We arrange to have this done for you.

DRAMATICS

The sudden change from Andy to a business executive is not for Allen He has a tendency to run on the stage instead of walk

"The Neighbors" and "Misunderstood Smith" will be presented May 16.

MUSIC NOTES

Tuesday night the band will perform at the annual School Exhibit. Our State champs Irene, Edward, Junior, Edna, and Pat, will show us how its done once more before they enter the National Music Contest-Festival at St Paul Minnesota

The marching band will change from a four to a six file band, and it will boast 51 members.

FRESHMAN NEWS

FRESHMEN'S PESSIMIST WEEK

We freshmen are becoming skin and bones due to working so hard. The teachers just giggle and give us twice as much work as they give the sophomores.

The economics I class theroy is now a law It is necessary to spend a whole class period to sew in a seam, and then spend two more to take it out. What a life!

However, the freshmen did find some time for fun this week. The rain even managed to fall, but in spite of the many difficulties (we even ran out of matches). The freshman enjoyed a weiner roast Wednesday night.

The latest rumor: Barbara Johnson seems very anxious to get her neck wrung.

SOPHOMORES CLASS NEWS

One good thing the draft did was to make a certain sophomore girl (B. W.) very fond of her teacher.

Mrs. Gerardi is our new typing and biology teacher since Mr. Bowles left. I am sure we all agree she is a very fine teacher.

In English we are taking English dictation, and we also wrote business letters

In history we had a test over the chapter we were reading.

Grade News

KINDERGARTEN, GRADES 1-2

Jimmy Albertson is a new pupil in the first grade. He moved here from Swea City.

We are sorry that some of the boys and girls in our room have been sick and could not come to school.

We made cards for our mothers Our pansies which we planted for them were too small to take home We shall give them later.

GRADES 3-4

We have been studying about Rubber as a part of our Third Grade Clothing Unit.

Maurice and Marjory had birthdays this week. We helped them celebrate, and wish them many more happy birthdays. They treated us to candy.

The fourth grade finished the study of Switzerland.

The following had 100% in spelling: Iris, Marjory, Edward K., Larry, Dorance, Merlin Richard and Luella.

GRADES 5-6

We had a free reading period on Thursday Each person gave a summary of the story he read.

People who earned perfect spelling scores were Ewdard Irene, Esther, Helen, Delores, Velma, Dean, Roger R. Elizabeth, Phyills, Peggy, Ruth and Mary Lou.

In art we are drawing pictures of animals.

Delores got a star rating in the fifth grader's eighteenth arithemtic self-testing drill. Their class rating was nine and one-half.

We have many nice flowers in our room We have lilacs, tulips, bleeding hearts and narcissus.

GRADES 7-8

Edward, Ruth, and Ronald received a hundred in spelling this week.

Our room has been bright this week with spring flowers. Jeanne has brought many wild varities of flowers, Ruth brought tulips, Marvis brought tuilps, and Robert has brought some too. We have been studying wild flowers in sciene.

The seventh grade got a score of 6 in Self-Testing Drill o. 17 and the eighth grade got 9 on No.18.

Remembered

Although they had been gone from Oskaloosa for more than 40 years, Mr. and Mrs. Charles A. Keet remembered their old home town. They recently donated a set of $12,000 chimes to the Central Methodist church of that town.

Escacped Injury

A piece of scrap iron from junk he was breaking, narrowly escaped causing fatal injury when it struck Dale Mowers, Northwood, in the neck. It missed the jugular vein by only about one-eighth of an inch.

Accident

A driverless car was started down a Colfax street by a recent strong wind, stopped when it smashed into a plate glass window in the Junis Cafe. The glass and a drink sign broken loose from the building were blown into the street, hitting a car being driven by Delbert Cross.

Overcome

Wm. Dolezal, Tama, was overcome by gas from a defective refrigerator he was fixing. He had been unconscious about 45 minutes before being found.

Brother and Sister

Linton No. 2 school in Allamakee county has an enrollment of 10 pupils, five sets of brothers and sisters. In all but one instance, the brother is the older of the two.

Pastry is tender if the dough is handled little and rolled lightly. The toughness caused by overhandling is most often caused by using too much water. Add the water a few drops at a time, tossing the mixture with a fork until the flour barely holds together.

Three don'ts for roasting tender cuts of meat are: Don't cover; don't baste; don't add water. But do roast the meat a 300 degrees. Meat placed fat-side up in the pan bastes itself.

Present in body but absent in mind, her murder alibi. Did a strange, nightmarish mental blackout cause one girl to visit another in her boudoir, tell her how pretty she was and take a lesson in make-up—and then shoot her, as charged by the State, before she came out of her living dream? Read this exciting story in The American Weekly, the magazine distributed with next week's Sunday Chicago Herald-American.

Gift From Hitler

Mrs. Ernest Walker of near Glenwood has a Norwegian nephew living in Seattle. Wash., whose high school track coach calls him "a gift from Hitler" since the youth came to this country to escape the Nazi. He runs the 100-yard dash in 10.1 seconds and is only 16.

Wolf, Wolf

A timber wolf and three cubs about six-weeks old captured the attention of Oskaloosa hunting fans recently They were displayed in the rear seat of the car belonging to Earl Wymore, who killed them with the aid of companions and three wolfhounds.

Lost?

Seventy years ago a Mr Hector S. Peck purchased a life insurance policy, naming as his beneficiary his wife. Their address was given as Jackson, Jones county, Iowa. The insurance company is now looking for Mr. Peck, his wife, or descendants, since Mr. Peck would now be more than 100 years old.

Visits Home

Forty-one years agoCarl Hough said goodbye to his parents at Conway. He returned to visit the parental home for the first time since 1900 recently. He is a resident of San Diego, California.

Night School

Jean Wessels, of near Algona, has been getting her lessons at night while recovering from a broken leg. Her teacher, Sadye Patterson, goes over the lessons of the day with her pupil.

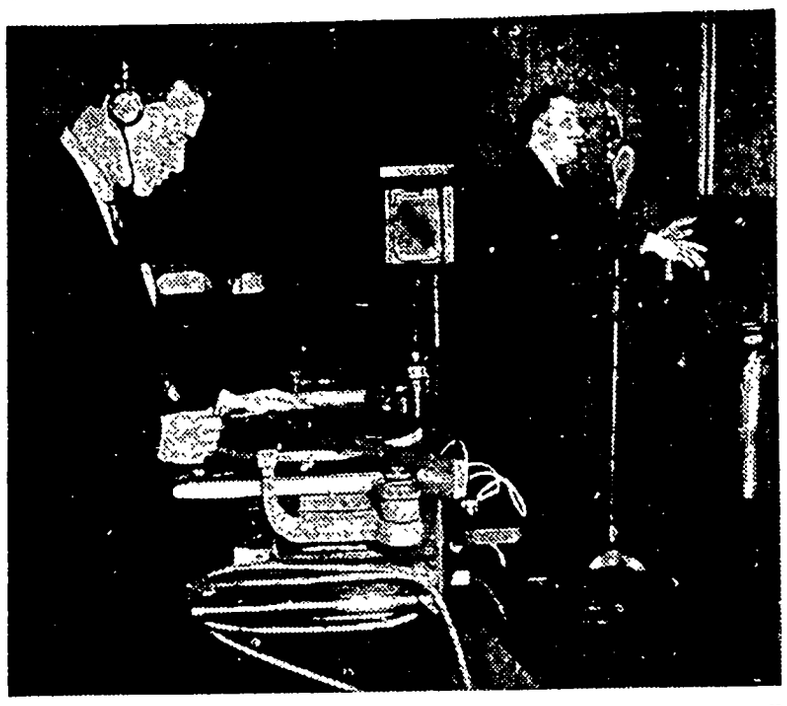
Milestones of History Recorded in Sound By Records in New York's 'Radio City'

By HOPE CHAMBERLIN
(Released by Western Newspaper Union.)

NEW YORK. — In a small, dark room in a corner of a tall building in New York's "Radio City," Adolf Hitler shouts bitterly against the British empire; Prime Minister Winston Churchill retorts vigorously that his country will not yield an inch; Pope Pius XII prays for peace; Franklin D. Roosevelt takes the oath of the office for a third term as President of the United States; the Dionne quintuplets sing "Oh, Johnny, Oh."

The setting is the record library of the National Broadcasting company. Stored away in that little room, in tall stacks of tin containers, are more than 50,000 transcriptions of virtually every phase of history, awaiting only the push of a button and the scratch of a needle to bring them to life for tomorrow's historians and students.

The value of the library cannot be measured in dollars—its treasures rival those of a dozen Captain Kidds. And, in years to come, students, historians, scholars, educators and journalists will be able to use the library, just as contemporary writers use libraries and museums and newspaper morgues.



Playing back a broadcast a few minutes after it has gone off the air is an easy matter. One side of the record will contain an hour-long show. Because of the aluminum shortage, only pickups from abroad and broadcasts of a controversial nature are recorded on acetate; others are recorded on little rolls of film.

Voices, Emotions Important.

Take, for example, a journalist in the year 1987 who is sweating over a series of columns on "The Second World War." Newspaper files, magazines, books, scholarly dissertations will provide him with the basic facts. But what about the actual voices of Hitler, Mussolini, Roosevelt, Churchill, eye-witnesses, and what about the emotions and intonations which printed words don't convey?

In tiny grooves he will find the complete story—told from dugout and underground studios amid the crash of bursting bombs, the scream of air raid sirens, the ominous silence of the Forest of Compiegne.

Historians of the future will be able to hear the whole story, from that most dramatic day in broadcasting, Sunday, September 3, 1939, when a tired, soft-spoken gentleman announced "with regret" to a grieving world that the government of Great Britain was at war with the German nation. And the subsequent replies of Dictators Hitler and Mussolini. They will hear Chamberlain resigning from office and Winston Churchill, the new prime minister, resolving to fight on, despite the entailing "blood and sweat and toil and tears."

Non-Military History.

And, since the last decade of our civilization has not been a story of war alone, historians will be able to review other milestones in our lives. Momentous events in nearly all phases of life can be resurrected through these disks. Here are a few other chunks of history recorded on acetate:

Religion—The coronation of Pope Pius XI; the Pontifical Mass for his successor, Pius XII.

Science—The voices and thoughts of Marconi, wireless inventor, in his broadcasts of 1935 and 1936. The report of an expedition directly from the Amazonian jungles. The Picard expedition of 1933 into the stratosphere.

Aeronautics—The round-the-world flight of Howard Hughes as reported by ground observers and by Hughes himself, from his plane.

Catastrophes — The salvaging of the ill-fated submarine, Squalus, from the bottom of the ocean off Portsmouth, N. H.; the Ohio river floods.

Sports — Football and baseball games, golf tournaments, the Olympic games.

Politics — Conventions, inaugurations, debates.

Superior to Printed Word.

Jampacked with acetate disks, the tall piles of tin containers in NBC's record library are in some ways more valuable than the other basic source of historical matter—the printed word. For since the recording of a historical situation presents the actual scene literally and without interpretation, the listener is made an ear-witness to the goings-on and placed in a position to pass objectively on "what happened."

Because special event broadcasting is taken pretty much for granted, it may be hard to conceive the reference value to coming generations of this collection of recordings. The worth might be more fully realized by looking further into the past.

Think how they would be cherished if there were records of Lincoln's Gettysburg Address and the Lincoln-Douglas debates; the surrender of the British army to Washington at Yorktown; Napoleon's talks to his soldiers; and Robert Fulton's first steamboat trip up the Hudson river.

The acetate recordings mentioned have an aluminum base. With the nation's defense production in full swing, non-defense consumption of aluminum is being curtailed. Therefore, only pickups from abroad and broadcasts of a controversial nature are now recorded on acetate. All other recordings of broadcasts are recorded on little rolls of film which can be played back in a "recordograph." A day-long schedule of broadcasts occupies but a short film roll.

Record Overseas Broadcasts.

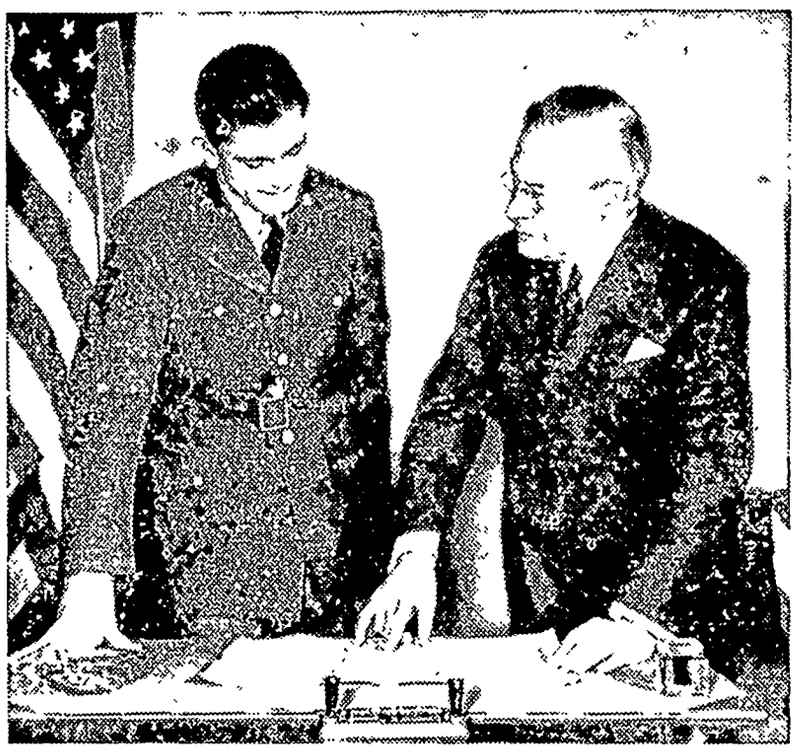
Overseas broadcasts are recorded on "memovox"—large, flexible celluloid platters One side records an hour-long show.

As the years roll on, students, historians, scholars, educators and journalists will find delving into bygone days much easier. Radio's record library does away with the arduous task of searching for official papers, manuscripts, letters, diaries, broadsides, pamphlets, newspapers, magazines and volumes of transactions.

Instead of dead documents, tomorrow's historians can refer to living records!

"Cutting" a record from the air. This one is an acetate disc with aluminum platter base. It is essential that an even volume be maintained throughout the recording.

Prepare Campaign to Provide Recreation for Soldiers, Sailors



Proposed plans for clubhouses to be operated for men in the armed services are inspected by First Class Private Stanley P. Kulik, of Wilkes Barre, Pa. (left) and W. Spencer Robertson, chairman of the United Service Organization executive board. The U. S. O. is launching a drive for $10,765,000 to maintain 339 recreational centers throughout the country.

WASHINGTON.—Soldiers at army camps will have adequate facilities for wholesome entertainment, if a new money-raising campaign succeeds.

Six agencies have banded together into the United Service Organizations for National Defense, Inc., to support a nation-wide drive for $10,765,000. The money will be used to provide clubhouses and off-post recreation for soldiers and sailors, according to Walter Hoving, president.

Agencies co-operating in this drive are the National Travelers Aid association, Salvation Army, National Catholic Community Service, the Jewish Welfare board, the Y. M. C. A. and the Y. W. C. A.

It is planned to provide club facilities in 339 localities near camps, naval stations and defense centers throughout the country. Buildings will be provided by the federal government, while the U. S. O. will supply funds for their operation.

Hoving explains that the problem is to provide friendly and wholesome contacts between persons in civilian and military life.

The need for recreational facilities arises from the enormous enlargement of our armed forces, Hoving said. "More than 1,400,000 young Americans are now in uniform.

"When soldiers go into town by the thousands evenings and weekends," Hoving continued, "there is often no place for them to go, nothing to do, no morale-building recreation. Boys stand aimlessly on the sidewalk, wondering what to do; and those who seek to exploit the boys, sometimes viciously, are eager to supply the answer."

The United Service Organization is seeking to provide other alternatives to trainees and youths of defense industries. "We plan to bring them a measure of the hospitality, the spiritual influence and the comfort which the people at home want them to have," Hoving continued.

Costs of the first year's operations will be met by the $10,000,000 fund. Donations will not necessarily be spent in the same areas from which the money is obtained, but will be distributed according to the urgency of need in various parts of the country.

Vaccine Protects Horses Against Sleeping Sickness

WASHINGTON — An improved method of immunizing horses against encephalomyelitis, commonly known as sleeping sickness of horses, by intradermic vaccination is reported by Dr John R. Mohler, chief of the department of agriculture, bureau of animal industry.

Injection of the vaccine into the skin has yet to reveal unfavorable results.

Acting in Plays Proves Valuable Help for Blind

NEW YORK.—Training in stage technique for sightless students has proved so valuable an aid in developing poise, and greater confidence in movement and speech, that the American Foudation for the Blind has instituted such training on a nation-wide scale.

Dramatic coaches specially trained have been sent to inaugurate this work in schools for the blind throughout the West and South.

The Washington Merry-Go-Round

By Drew Pearson & Robert Allen

Washington, D. C.

NAZIS SHY OF MAGNESIUM

Examination by U. S. experts of the captured Messerschmitt sent here by the British has uncovered one highly significant fact: The Nazis are now using only 1 to 200 pounds of magnesium in the construction of these famous fighter planes.

This low Nazi magnesium content is compared to the 400-500 pounds used in similar U. S. planes made of this featherweight metal, one-third lighter than aluminum. Our big bombers use as much as 1,000 pounds of magnesium. The more magnesium used, the lighter the over-all weight of the planes.

This is considered evidence that German magnesium production is not keeping pace with Luftwaffe requirements. If it were, the Nazis would certainly be using more magnesium in their planes, because of its extreme lightness and strength. Heavier metals increase the dead weight, reducing the ship's lifting power, speed and cruising range, all vital factors in aerial combat.

If, as the experts believe, German magnesium production is falling behind war needs, it is highly important. Under the Nazis, Germany took the world lead in the output of this strategic metal.

For years the United States lagged behind because of cartel agreements between magnesium and aluminum manufacturers, which kept down production. In 1939, U. S. magnesium production barely totaled 7,000,000 pounds. By 1940, as a result of frantic defense efforts, this was stepped up to 12,500,000 pounds, still far short of army, navy and aid-Britain requirements.

Large scale output of certain types of aircraft is being held up until several new magnesium plants get into operation. OPM plans call for an output of 75,000,000 pounds in 1942. If no hitches develop, the 50,000,000-pound mark may be reached by the end of this year.

* * *

TEXTILE PROFITS

When OPM Purchasing Chief Donald Nelson remarked at his press conference that textile prices were under scrutiny, his words went unnoticed in the press. But to textile insiders they sent cold shivers up the spine.

What Nelson did not reveal, but which they knew, was that his associate, Leon Henderson, defense price regulator, had quietly completed a survey showing that the mill margins (profits) are the highest in history. Henderson's figures show a jump in mill margins from 10.68 in June, 1940, to 16 in February, 1941, and still going up.

If the price paid growers for cotton had kept pace with that of textiles, it would be selling today at around 20 cents a pound instead of 10.71—its present figure. Informally, Henderson has warned textile leaders to watch their step, indicating willingness to allow them to put on the brakes themselves.

* * *

TB PROTECTION

At cost of less than a penny apiece, the navy is taking pictures of the lungs of all new recruits, to weed out the unfit before they become government charges for life.

Rear Admiral Ross T. McIntire, surgeon general of the navy, estimates that the pennies will save taxpayers many millions. Veterans' hospitals are full of TB cases from the last war—many of whom probably had the disease before they entered the service.

The new device takes a photograph on a 35-mm. film of a fluoroscope, replacing the larger and far more expensive X-ray picture. So revolutionary is the change that manufacturers of X-ray equipment opposed it for fear of losing business.

The navy did the pioneering in "mass chest surveys," but gives credit as the original pioneer to a Brazilian named D'Abreu.

* * *

NO GLITTER

No phase of modern defensive warfare, in which attacking planes must be checked, is considered more vital than the art of camouflage. The British long ago learned that one effective protection against daytime bombing of an army in the field was to make sure no equipment reflects the sun. The U. S. army is following this same sound rule.

All glitter has been ordered removed from military equipment. Even bayonets are being dipped in a special blue finish to prevent shine. The dull olive surface of staff cars, troop transport trucks and other vehicles was designed to this end. It blends with the landscape and is a safeguard against air attacks.

* * *

MERRY-GO-ROUND

Three years ago Hans Karl-Heinz Sennhenn, young German immigrant, declared his intention to become a U. S. citizen and received his first naturalization papers. Under the Selective Service act that makes him a "declarant alien" and subject to draft. But now a clerk at the German embassy, Sennhenn is fighting being drafted on the ground that he is not a U. S. citizen and does not want to be one.

Mrs. Roosevelt's morning mail consists of 900 to 1,000 letters.

Walter Winchell

(WNU Service)

New Yorkers Are Talking About:

The former Minister to Austria, who teaches Foreign Relations at Georgetown Univ. He is still on the Nazzy payroll at $200 a week "pension" . . . Vincent Cullen, N. Y. insurance exec and former business associate of FDR, who may head the Stock Exchange . . . Alex King's new mag. It'll have a page (for obnoxious people) called The Bore of the Month Club. Nothing personal, I hope.

Gertrude Lawrence's "laryngitis" which is really heartache and nerves over news from abroad. Bert Lytell of the cast had to shake her before an eve'g performance to stop her from crying so hard . . . Grand Duchess Marie's withdrawal from the Paderewski Fund Party Committee, after he heard she was on it and hit the ceiling . . . The frosty glances these nights between Noel Coward and John Buckmaster Sets. Each believes the other should be in the British army instead of staging benefits over here.

The truth about Tommy Corcoran's magnesium fee. He received no coin, merely an offer of stock . . . Quentin Reynolds returning to England with 6,500 sulfanilamide tablets which are marked "Made in Germany" . . . The Communist leaders who last week voted to start an anti-Semitic campaign in an effort to get the public's mind off Communists.

Charlie Chaplin's newest and most torrid romance: The way he dunks hamburger sandwiches into coffee . . . Senator Wagner's recovery, which is everybody's idea of swell news . . . The new music mag, "Baton"—which is so superstitious it has no page 13 . . . The Britishers placed in the swank spots by the British Gov't at swell pay to watch and listen . . . Pod'n the proofreading: Wm. C. Bullitt's smarticle in Life is called "What Next?"

Jimmy Cromwell and Luise Rainer being glug-glug . . . Gen. Hugh Johnson being miffed at his publishers, Bobbs-Merrill, who are also publishing Ralph Ingersoll's "America Is Worth Fighting For" in 10 days. It contradicts almost everything Johnson says in his book . . . Dorothy Thompson's yip that she has nothing to do with collaborating on a new play. Why doesn't Dorothy get the drama eds who said it to deny it? . . . The description of a White House press conference, where the reporters are pretty blunt, "It's like having an entire audience heckle the m. c." . . . The rumor that Senator Burton Wheeler will win the Pulitzer Prize for Fiction.

Last Time I Saw London:

(By Reagan McCrury, chief editorial writer of The New York Mirror. He was the first American to cross the Atlantic ocean to Britain in a bomber.)

London Memories that Won't Erase: The young Scotch boy, member of the Pioneer Corps that cleans up smashed cities right after an air raid . . . tears were sluicing through the bomb-dust caked on his face . . . he carried a child's glove . . . "There was a little 'and in it . . . a kiddie's 'and but I can't find the kiddie" . . . and the veteran sergeant who kicked the boy in the pants because he was shattering morale . . . and how the Scotch boy said: "Thanks."

The big picture of Roosevelt, torn from a magazine, flapping on the stump of a wall in the slums back of Mile End Road.

London's No. 1 Glamour Girl, whose first fiance was killed in a crash, whose second fiance is in a Nazi prison camp, whose only thought now is how to avoid being conscripted in Ernie Bevin's drive for women munitions workers.

Lord Perry Brownlow describing the little Caspar Milquetoast of a man who came to remove a 3,000-pound unexploded bomb from his air cannon factory after a night raid: "A strong wind would have whisked him away . . . he hugged the bomb, fondly, and listened . . . then he asked for a cup of coffee, then he went for a half hour's walk . . . to think . . . then he came back and took the fuse out of the bomb, carried it off in his pocket . . . and we breathed again . . ." Lord Brownlow prophesied: "After this war, there will be no House of Lords . . . nothing without function will survive."

This Raced My Pulse: Watching a flight of Grumann American-made Martlets from the Fleet Air Arm, swooshing down through fog onto the field at an RAF station while Hurricane pilots watched goggle-eyed . . . then watching the Martlets tangle with the Hurricanes in challenge aerobatics . . . The Martlets won at intermediate altitudes. The 14 combat pilots from the American Air Force landed in Britain as observers last week will soon prove the value of the American made P-40 Tomahawks at ANY altitude.

HEAVYWEIGHT FIGHT BROADCAST

". . . This is the sixth round of the heavyweight champeenship fight between Joe Louis and Pudge Goops . . . Louis sends another left to the jaw by Louis . . . Now Louis lands a right to the head by Louis . . . Of Goops . . . By Louis . . . It's a terrific battle, folks . . . Both boys are in the center of Louis . . . of the ring . . . by Goops . . . of Louis . . . It's a right by Louis to the jaw by Louis of Goops . . . There's the bell! . . . Goops has been down six times so far . . . The crowd is wild . . . Nobody expected Goops would put up such a game showing!

* * *

"Seventh round, folks . . . Louis is shuffling around . . . He is staring at Goops . . . This is a stare by Louis . . . Of Goops . . . Goops is not to be outdone and he sends a stare by Goops to Louis by Goops . . . Louis delivers a right uppercut to the jaw by Louis . . . A left by Louis . . . A right by Louis . . . Louis sends two lefts and a right to the jaw by Louis. Goops is down . . . He is saved by the bell . . . This showing of Goops has upset all calculations . . . The crowd is cheering . . . This is a sensational battle!

* * *

"Now comes the eighth round . . . Goops makes a rush for his corner by Goops. He rushes out straight at Louis by Goops . . . of Louis . . . Now Louis floors him with a terrific left to the nose by Louis . . . and two uppercuts by Louis to the jaw by Louis . . . Goops is down . . . He is up . . . He falls into a clinch of Louis by Goops . . . Louis just landed four straight smashes to the head by Louis . . . Louis scores a terrific right to ear by Louis . . . And a left jab by Louis to the face of Goops by Louis . . . Louis gets in two stomach punches by Louis . . . Goops goes down . . . Goops has been down eleven times . . . He hasn't landed a solid punch so far by Goops. But he is still in there . . . All the expert predictions have been upset . . . Goops has surprised everybody . . . There goes the bell as Louis sends a hard right smash to the jaw by Louis.

* * *

"Ninth round, folks . . . This is one of the greatest heavyweight championship fights in history . . . Goops is down again from a left and right and left and right and right delivered by Louis to the jaw by Louis . . . He is up . . . He is in very bad shape . . . He has no defense and doesn't seem to be able to land a solid punch . . . He is certainly outclassed, but this is the ninth round, folks, and he has upset all the dope by still being in there . . . Goops is putting up a wunnderful demonstration of courage by Goops . . . He is down again as Louis sends a left and a left and a left by Louis to the jaw . . . Boy, what a fight!

* * *

"Now we are starting round ten in the greatest fight for the world heavyweight champeenship in years . . . Joe Louis sends a left to the head by Louis . . . Goops is down . . . He's up . . . I never saw such spirit . . . Such courage by Goops . . . Such fighting nerve and spirit . . . Bam! . . . Goops is OUT!"

It must seem funny to London not to have any American notables around this week.

Assortment of Frills, Jabots to Highlight Summer Fashions

By CHERIE NICHOLAS

FRILLS, frills, frills! The call for frills and jabots and cascades of sheer loveliness as costume adornment resounds throughout all fashiondom this season.

Therefore, if you like to do dainty handwork, meet opportunity at your door. Make your own frills, for, as every woman knows, nothing can add the exquisite touch as well as a bit of fine needlework, whether it be in hand-rolled hems, deft hemstitching or wee hand-run tucks.

It is almost unbelievable what a wondrous assortment of frills can be made from a yard or so of crisp, snowy organdy, exquisitely sheer handkerchief linen or other dainty fabrics.

Take a look at the collection of frilly items here illustrated. By devoting spare moments to the fascinating pastime of handrolling hems, handrunning wee tucks and so on, you can very easily fashion a wardrobe of fashionable frills. Being meticulously handmade, they will launder perfectly.

The spotlight of fashion is on sheer lingerie yokes, either in collar form or sewed into the dress as an actual yoke top. It does not take long to hand-tuck a yoke. Like the one pictured in the circle in the upper left corner. You can edge it with a ruffle of self organdy or lace. You really should have at least one big yoke collar in your collection.

A dramatic collar and cuff set, such as the girl seated is wearing, is almost indispensable when it comes to accenting a navy or black dress. Note the new low-cut "plunging" neckline of the collar. The collar is lined with self organdy. Cut duplicates, seam the wide frill in between, then turn and press and you will have no fraying edges. You can either hemstitch the frill or finish with a tiny rolled hem. Make the frill very full so that it will fall in sprightly ripples, as pictured. The same working directions apply to the cuffs. You can launder these collar and cuffs as often as you wish, and they will come out like new.

Simple indeed but very effective is the organdy frill worn demurely about a round snug-fitting neckline, as sketched. Emphasize the frilly effect with ruffling on the sleeves, as illustrated in the picture.

Bolero jackets take on a new look this season when they are collared with a frilled ruff, made of gleaming white organdy that goes rippling down each side of the front opening as the sketch here portrays. Try it! With scraps of the organdy left over, make yourself a scalloped collar with a wide frilled ruffle as suggested in the sketch.

Perhaps the most intriguing news of all is the frilled lingerie cascade that travels from the neckline to the hemline of the now-so-fashionable slim princess frock. The sketch in the group pictures the idea. To get best results, cut the ruffling on circular lines, and, if you finish the edge with a hand-rolled hem you will be delighted with the sheer loveliness of this cascade that falls from a sailor collar of the organdy on down to the very hemline of the dress.

Make a white organdy cascade to baste in the front of your simple basic gown. Duplicate this frill in pastel blue or pink or orchid organdy to wear "on occasion" with your afternoon dress.

(Released by Western Newspaper Union.)

Glen-Plaid Suit

It's a suit season and no mistake. Plaids, checks and stripes are big news, they're tailored so meticulously they have the look of perfection. Here is a model that is characteristic of the present trend, which exploits quality-kind woolens styled in the new longer-jacket. Forstman does these Glen-Plaids in soft neutral tones, notably gray or beige with white. The skirt has grace and action because of its pleats. A suggestion of the military theme is achieved in the curved tucks at the shoulder line and in the saucy two-toned beret-type chapeau.

Wear Clothes Which Enhance Your Beauty

So you don't like slit skirts. Well, then, don't wear them.

You think purple is a horrible color? All right then, don't wear it.

You can't wear sailors? Then don't try. There are lots of women who adore slit skirts, look marvelous in purple and are mad about sailor hats. Leave these women to their choice and you take yours. There are enough good styles to go around, and no one woman need take it upon herself to illustrate all the current fashion trends.

It's up to each woman to select from current — and past — styles those which she likes and which look well on her—and if she wants to delve into the future that's all right, too, provided she conforms with current laws about what constitute clothes.

Nowadays fashions are really flexible. Many long-held taboos have been broken, and women are in the mood to shatter more traditions. We wear open-toed shoes in the winter and wool all the year round. If we like suits we don't confine their use to spring and fall—we wear them all winter under our fur coats. We wear chiffon in January, as well as velvet and lame; we wear sequins and lame in the afternoon instead of reserving them for evening.

Fashion changes with the times. To dress well is not a matter of aping, but of creating.

Multicolor Turbans

The new turbans are printed flower crepes, taffetas or even striped surahs. This hat style may be worn either casually or formally. A printed turban goes with many different costumes and many different colors.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D., Dean of The Moody Bible Institute of Chicago.
(Released by Western Newspaper Union.)

S. S. Lesson for May 18

BROADENING CHRISTIAN HORIZONS: SAUL'S CONVERSION

LESSON TEXT—Acts 9:1-16.
GOLDEN TEXT—I was not disobedient unto the heavenly vision.—Acts 26:19.

The conversion of Saul is recognized as one of the outstanding events in Bible history. When two brilliant English lawyers, Lord Lyttleton and Sir Gilbert West, set out to disprove the truth of Christianity, they selected the resurrection of Christ and the story of Paul's conversion as the focal points of their proof. Working independently, they then came together to compare notes, and found that they had both become Christians as they had become convinced of the truth of the Scriptures.

The two events may well stand together as mighty evidence for Christianity, for only on the ground of regeneration can the change in Saul be accounted for, and only on the assurance that he met the risen Christ on the Damascus road can we account for his conversion. This is a great lesson, let us make the very most of it.

I. Saul, a Bold Persecutor (vv. 1, 2).

As our lesson opens we find the brilliant and zealous young Jew, Saul, "yet breathing out threatenings and slaughter against the disciples of the Lord." The persecutions in Jerusalem had practically wiped out the church in that city, but had scattered the disciples abroad, and thus the witness had been spread. The death of the godly Stephen, to which Saul had given his approval, had only increased his determination to destroy those who were "of the way" of Jesus. Looking for new fields to conquer, he carried with him to Damascus letters from the high priest at Jerusalem, giving him authority to imprison the followers of Christ. But on the way he met Christ Himself, and was stricken to the earth.

II. Saul, a Convicted Sinner (vv. 3-9).

Stricken down by a brilliant heavenly light, he finds himself talking to the Lord Jesus. He hears from His holy lips the solemn indictment of those who persecute God's people—"Why persecutest thou me?" He who lays unkind hands upon, or brings untrue accusation against, God's children had best beware, for so closely is our Lord identified with His people that when they suffer, it is He who bears the hurt.

In a single sentence the Lord disposes of the persecuting zeal and the sinful skepticism of this proud young Pharisee, and Saul enters into Damascus not as the haughty persecutor, but as a man trembling and astonished. He spends three days shut in with his own soul and God, not seeing, not caring to eat, but entering into communion with God. By God's grace the old life is pulled up by the roots as it is displaced by the new life in Christ Jesus.

III. Ananias, an Obedient Disciple (vv. 10-12).

Ananias was the "I am here, Lord" type of Christian to whom the Lord could confidently commit His important business. All we know of him is what is contained in this chapter, but it is a very beautiful and enviable record. God is able to work directly on any human soul and accomplish His end (as He did with Saul on the Damascus road), but His usual manner of working is through faithful human agencies.

One wonders how much would be accomplished for God if every Christian were as willing and ready as was Ananias to do the Lord's bidding in seeking out and helping a struggling soul.

The greatest of all Christian leaders, the apostle Paul, was led out into his life of loyalty and service to Christ by a humble layman. Repeatedly God's Word by precept and example stresses the vital importance of personal work on the part of laymen and women. The leaders of Christian work during the coming generation are now in the Sunday school classes of our churches, perhaps in a little wayside chapel in the country, in the village church, in the mission or settlement house, or in the great city church.

IV. Saul, a Chosen Witness (vv. 15, 16).

The fears of Ananias that Saul might still be a worker of evil (v. 13) were soon overcome by God's assurance that in the praying Saul He had prepared for Himself "a chosen vessel" (v. 15) to bear the gospel to the Gentiles and to kings, as well as to Israel.

The great witness of Saul was to be accompanied by great suffering. How often the two go together, and both may be (as they were in Paul's life) for God's glory. Saul knew nothing of that subtle hypocrisy known as being "a secret believer," for at once he made open confession of his faith in baptism, and "straightway he preached Christ in the synagogues that he is the Son of God" (v. 20).

Household Hints

If kerosene is added to the water with which linoleum is washed it will loosen dirt and make washing much easier.

* * *

Two tablespoons chile sauce or catsup poured over top meat loaf when half-baked gives a good flavor and rather crusty covering.

* * *

To give shingles the appearance of being stained, use a paint with low gloss, or a flat paint.

* * *

Shrinkage in woolens is usually due to over-washing. In ordinary circumstances, three minutes is long enough for them.

* * *

Many kitchens have a bare, unused wall space that could be usefully and attractively transformed into recessed shelves.

* * *

To keep the inside of a gas range in good condition, remove rust that may have accumulated with coarse sandpaper, then rub over entire surface with olive oil.

* * *

If sugar is added to water when making flavored ice cubes, the cubes will not freeze clear or solidly.

J. Fuller Pep

By JERRY LINK

Cousin Carrie has things figured out. "Fuller," says she, pa ... me my second helpin' of KEL... GG'S PEP, "the reason you're a go-getter is because you're a come-backer."

Milestones of History Recorded in Sound By Records in New York's 'Radio City'

By HOPE CHAMBERLIN
(Released by Western Newspaper Union.)

NEW YORK. — In a small, dark room in a corner of a tall building in New York's "Radio City," Adolf Hitler shouts bitterly against the British empire; Prime Minister Winston Churchill retorts vigorously that his country will not yield an inch; Pope Pius XII prays for peace; Franklin D. Roosevelt takes the oath of the office for a third term as President of the United States; the Dionne quintuplets sing "Oh, Johnny, Oh."

The setting is the record library of the National Broadcasting company. Stored away in that little room, in tall stacks of tin containers, are more than 50,000 transcriptions of virtually every phase of history, awaiting only the push of a button and the scratch of a needle to bring them to life for tomorrow's historians and students.

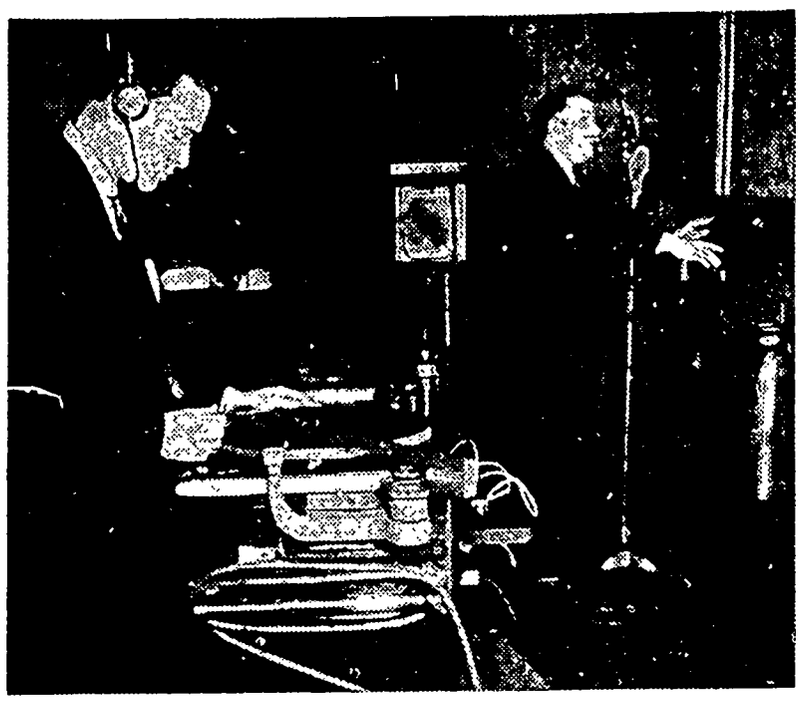
The value of the library cannot be measured in dollars—its treasures rival those of a dozen Captain Kidds. And, in years to come, students, historians, scholars, educators and journalists will be able to use the library, just as contemporary writers use libraries and museums and newspaper morgues.

Voices, Emotions Important.

Take, for example, a journalist in the year 1987 who is sweating over a series of columns on "The Second World War." Newspaper files, magazines, books, scholarly dissertations will provide him with the basic facts. But what about the actual voices of Hitler, Mussolini, Roosevelt, Churchill, eye-witnesses, and what about the emotions and intonations which printed words don't convey?

In tiny grooves he will find the complete story—told from dugout and underground studios amid the crash of bursting bombs, the scream of air raid sirens, the ominous silence of the Forest of Compiegne.

Historians of the future will be able to hear the whole story, from that most dramatic day in broadcasting, Sunday, September 3, 1939, when a tired, soft-spoken gentleman announced "with regret" to a grieving world that the government of Great Britain was at war with the German nation. And the subsequent replies of Dictators Hitler and Mussolini. They will hear Chamberlain resigning from office and Winston Churchill, the new prime minister, resolving to fight on, despite the entailing "blood and sweat and toil and tears."



Playing back a broadcast a few minutes after it has gone off the air is an easy matter. One side of the record will contain an hour-long show. Because of the aluminum shortage, only pickups from abroad and broadcasts of a controversial nature are recorded on acetate; others are recorded on little rolls of film.

Non-Military History.

And, since the last decade of our civilization has not been a story of war alone, historians will be able to review other milestones in our lives. Momentous events in nearly all phases of life can be resurrected through these disks. Here are a few other chunks of history recorded on acetate:

Religion—The coronation of Pope Pius XI; the Pontifical Mass for his successor, Pius XII.

Science—The voices and thoughts of Marconi, wireless inventor, in his broadcasts of 1935 and 1936. The report of an expedition directly from the Amazonian jungles. The Picard expedition of 1933 into the stratosphere.

Aeronautics—The round-the-world flight of Howard Hughes as reported by ground observers and by Hughes himself, from his plane.

Catastrophes — The salvaging of the ill-fated submarine, Squalus, from the bottom of the ocean off Portsmouth, N. H.; the Ohio river floods.

Sports — Football and baseball games, golf tournaments, the Olympic games.

Politics — Conventions, inaugurations, debates.

Superior to Printed Word.

Jampacked with acetate disks, the tall piles of tin containers in NBC's record library are in some ways more valuable than the other basic source of historical matter—the printed word. For since the recording of a historical situation presents the actual scene literally and without interpretation, the listener is made an ear-witness to the goings-on and placed in a position to pass objectively on "what happened."

Because special event broadcasting is taken pretty much for granted, it may be hard to conceive the reference value to coming generations of this collection of recordings. The worth might be more fully realized by looking further into the past.

Think how they would be cherished if there were records of Lincoln's Gettysburg Address and the Lincoln-Douglas debates; the surrender of the British army to Washington at Yorktown; Napoleon's talks to his soldiers; and Robert Fulton's first steamboat trip up the Hudson river.

The acetate recordings mentioned have an aluminum base. With the nation's defense production in full swing, non-defense consumption of aluminum is being curtailed. Therefore, only pickups from abroad and broadcasts of a controversial nature are now recorded on acetate. All other recordings of broadcasts are recorded on little rolls of film which can be played back in a "recordograph." A day-long schedule of broadcasts occupies but a short film roll.

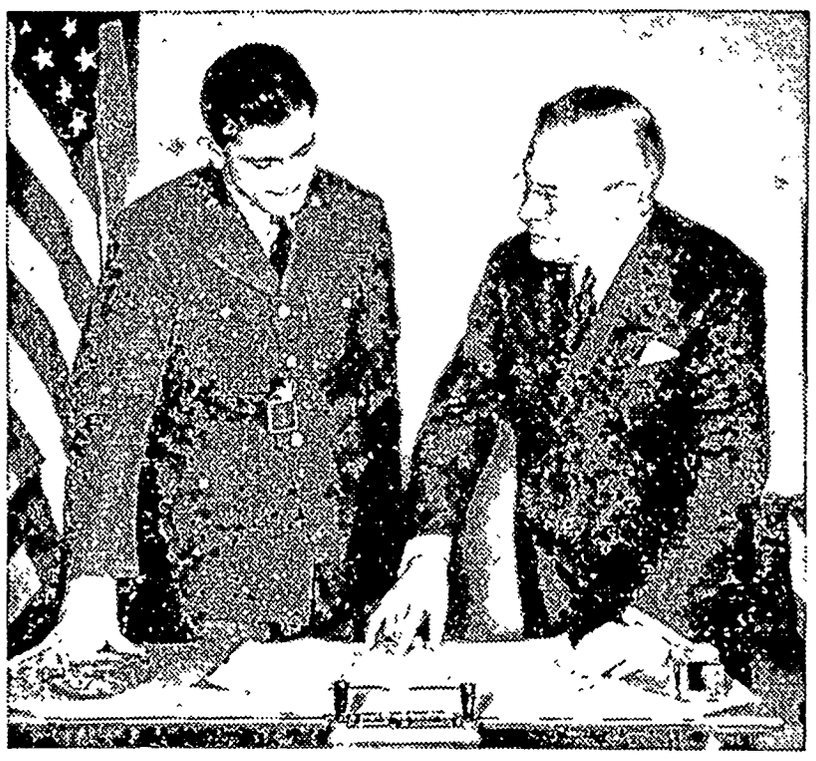
Record Overseas Broadcasts.

Overseas broadcasts are recorded on "memovox"—large, flexible celluloid platters. One side records an hour-long show.

As the years roll on, students, historians, scholars, educators and journalists will find delving into bygone days much easier. Radio's record library does away with the arduous task of searching for official papers, manuscripts, letters, diaries, broadsides, pamphlets, newspapers, magazines and volumes of transactions.

Instead of dead documents, tomorrow's historians can refer to living records!

Prepare Campaign to Provide Recreation for Soldiers, Sailors



Proposed plans for clubhouses to be operated for men in the armed services are inspected by First Class Private Stanley P. Kulik, of Wilkes Barre, Pa. (left) and W. Spencer Robertson, chairman of the United Service Organization executive board. The U. S. O. is launching a drive for $10,765,000 to maintain 339 recreational centers throughout the country.

WASHINGTON —Soldiers at army camps will have adequate facilities for wholesome entertainment, if a new money-raising campaign succeeds.

Six agencies have banded together into the United Service Organizations for National Defense, Inc., to support a nation-wide drive for $10,765,000. The money will be used to provide clubhouses and off-post recreation for soldiers and sailors, according to Walter Hoving, president.

Agencies co-operating in this drive are the National Travelers Aid association, Salvation Army, National Catholic Community Service, the Jewish Welfare board, the Y. M. C. A. and the Y. W. C. A.

It is planned to provide club facilities in 339 localities near camps, naval stations and defense centers throughout the country. Buildings will be provided by the federal government, while the U. S. O. will supply funds for their operation.

Hoving explains that the problem is to provide friendly and wholesome contacts between persons in civilian and military life.

The need for recreational facilities arises from the enormous enlargement of our armed forces, Hoving said. "More than 1,400,000 young Americans are now in uniform.

"When soldiers go into town by the thousands evenings and weekends," Hoving continued, "there is often no place for them to go, nothing to do, no morale-building recreation. Boys stand aimlessly on the sidewalk, wondering what to do; and those who seek to exploit the boys, sometimes viciously, are eager to supply the answer."

The United Service Organization is seeking to provide other alternatives to trainees and youths of defense industries. "We plan to bring them a measure of the hospitality, the spiritual influence and the comfort which the people at home want them to have," Hoving continued.

Costs of the first year's operations will be met by the $10 000.000 fund. Donations will not necessarily be spent in the same areas from which the money is obtained, but will be distributed according to the urgency of need in various parts of the country.

Vaccine Protects Horses Against Sleeping Sickness

WASHINGTON — An improved method of immunizing horses against encephalomyelitis, commonly known as sleeping sickness of horses, by intradermic vaccination is reported by Dr John R. Mohler, chief of the department of agriculture, bureau of animal industry.

Injection of the vaccine into the skin has yet to reveal unfavorable results.

"Cutting" a record from the air. This one is an acetate disc with aluminum platter base. It is essential that an even volume be maintained throughout the recording.

Acting in Plays Proves Valuable Help for Blind

NEW YORK.—Training in stage technique for sightless students has proved so valuable an aid in developing poise, and greater confidence in movement and speech, that the American Foudation for the Blind has instituted such training on a nation-wide scale.

Dramatic coaches specially trained have been sent to inaugurate this work in schools for the blind throughout the West and South.

The Washington Merry-Go-Round

By Drew Pearson & Robert Allen

Washington, D. C.

NAZIS SHY OF MAGNESIUM

Examination by U. S. experts of the captured Messerschmitt sent here by the British has uncovered one highly significant fact: The Nazis are now using only 1 to 200 pounds of magnesium in the construction of these famous fighter planes.

This low Nazi magnesium content is compared to the 400-500 pounds used in similar U. S. planes made of this featherweight metal, one-third lighter than aluminum. Our big bombers use as much as 1,000 pounds of magnesium. The more magnesium used, the lighter the over-all weight of the planes.

This is considered evidence that German magnesium production is not keeping pace with Luftwaffe requirements. If it were, the Nazis would certainly be using more magnesium in their planes, because of its extreme lightness and strength. Heavier metals increase the dead weight, reducing the ship's lifting power, speed and cruising range, all vital factors in aerial combat.

If, as the experts believe, German magnesium production is falling behind war needs, it is highly important. Under the Nazis, Germany took the world lead in the output of this strategic metal.

For years the United States lagged behind because of cartel agreements between magnesium and aluminum manufacturers, which kept down production. In 1939, U. S. magnesium production barely totaled 7,000,000 pounds. By 1940, as a result of frantic defense efforts, this was stepped up to 12,500,000 pounds, still far short of army, navy and aid-Britain requirements.

Large scale output of certain types of aircraft is being held up until several new magnesium plants get into operation. OPM plans call for an output of 75,000,000 pounds in 1942. If no hitches develop, the 50,000,000-pound mark may be reached by the end of this year.

* * *

TEXTILE PROFITS

When OPM Purchasing Chief Donald Nelson remarked at his press conference that textile prices were under scrutiny, his words went unnoticed in the press. But to textile insiders they sent cold shivers up the spine.

What Nelson did not reveal, but which they knew, was that his associate, Leon Henderson, defense price regulator, had quietly completed a survey showing that the mill margins (profits) are the highest in history. Henderson's figures show a jump in mill margins from 10.68 in June, 1940, to 16 in February, 1941, and still going up.

If the price paid growers for cotton had kept pace with that of textiles, it would be selling today at around 20 cents a pound instead of 10.71—its present figure. Informally, Henderson has warned textile leaders to watch their step, indicating willingness to allow them to put on the brakes themselves.

* * *

TB PROTECTION

At cost of less than a penny apiece, the navy is taking pictures of the lungs of all new recruits, to weed out the unfit before they become government charges for life.

Rear Admiral Ross T. McIntire, surgeon general of the navy, estimates that the pennies will save taxpayers many millions. Veterans' hospitals are full of TB cases from the last war—many of whom probably had the disease before they entered the service.

The new device takes a photograph on a 35-mm. film of a fluoroscope, replacing the larger and far more expensive X-ray picture. So revolutionary is the change that manufacturers of X-ray equipment opposed it for fear of losing business.

The navy did the pioneering in "mass chest surveys," but gives credit as the original pioneer to a Brazilian named D'Abreu.

* * *

NO GLITTER

No phase of modern defensive warfare, in which attacking planes must be checked, is considered more vital than the art of camouflage. The British long ago learned that one effective protection against daytime bombing of an army in the field was to make sure no equipment reflects the sun. The U. S. army is following this same sound rule.

All glitter has been ordered removed from military equipment. Even bayonets are being dipped in a special blue finish to prevent shine. The dull olive surface of staff cars, troop transport trucks and other vehicles was designed to this end. It blends with the landscape and is a safeguard against air attacks.

* * *

MERRY-GO-ROUND

Three years ago Hans Karl-Heinz Sennhenn, young German immigrant, declared his intention to become a U. S. citizen and received his first naturalization papers. Under the Selective Service act that makes him a "declarant alien" and subject to draft. But now a clerk at the German embassy, Sennhenn is fighting being drafted on the ground that he is not a U. S. citizen and does not want to be one.

Mrs. Roosevelt's morning mail consists of 900 to 1,000 letters.

Walter Winchell

(WNU Service)

New Yorkers Are Talking About:

The former Minister to Austria, who teaches Foreign Relations at Georgetown Univ. He is still on the Nazzy payroll at $200 a week "pension" . . . Vincent Cullen, N. Y. insurance exec and former business associate of FDR, who may head the Stock Exchange . . . Alex King's new mag. It'll have a page (for obnoxious people) called The Bore of the Month Club. Nothing personal, I hope.

Gertrude Lawrence's "laryngitis" which is really heartache and nerves over news from abroad. Bert Lytell of the cast had to shake her before an eve'g performance to stop her from crying so hard . . . Grand Duchess Marie's withdrawal from the Paderewski Fund Party Committee, after he heard she was on it and hit the ceiling . . . The frosty glances these nights between Noel Coward and John Buckmaster Sets. Each believes the other should be in the British army instead of staging benefits over here.

The truth about Tommy Corcoran's magnesium fee. He received no coin, merely an offer of stock . . . Quentin Reynolds returning to England with 6,500 sulfanilamide tablets which are marked "Made in Germany" . . . The Communist leaders who last week voted to start an anti-Semitic campaign in an effort to get the public's mind off Communists.

Charlie Chaplin's newest and most torrid romance: The way he dunks hamburger sandwiches into coffee . . . Senator Wagner's recovery, which is everybody's idea of swell news . . . The new music mag, "Baton"—which is so superstitious it has no page 13 . . . The Britishers placed in the swank spots by the British Gov't at swell pay to watch and listen . . . Pod'n the proofreading: Wm. C. Bullitt's smarticle in Life is called "What Next?"

Jimmy Cromwell and Luise Rainer being glug-glug . . . Gen. Hugh Johnson being miffed at his publishers, Bobbs-Merrill, who are also publishing Ralph Ingersoll's "America Is Worth Fighting For" in 10 days. It contradicts almost everything Johnson says in his book . . . Dorothy Thompson's yip that she has nothing to do with collaborating on a new play. Why doesn't Dorothy get the drama eds who said it to deny it? . . . The description of a White House press conference, where the reporters are pretty blunt, "It's like having an entire audience heckle the m. c." . . . The rumor that Senator Burton Wheeler will win the Pulitzer Prize for Fiction.

Last Time I Saw London:

(By Reagan McCrury, chief editorial writer of The New York Mirror. He was the first American to cross the Atlantic ocean to Britain in a bomber.)

London Memories that Won't Erase: The young Scotch boy, member of the Pioneer Corps that cleans up smashed cities right after an air raid . . . tears were sluicing through the bomb-dust caked on his face . . . he carried a child's glove . . . "There was a little 'and in it . . . a kiddie's 'and but I can't find the kiddie" . . . and the veteran sergeant who kicked the boy in the pants because he was shattering morale . . . and how the Scotch boy said: "Thanks."

The big picture of Roosevelt, torn from a magazine, flapping on the stump of a wall in the slums back of Mile End Road.

London's No. 1 Glamour Girl, whose first fiance was killed in a crash, whose second fiance is in a Nazi prison camp, whose only thought now is how to avoid being conscripted in Ernie Bevin's drive for women munitions workers.

Lord Perry Brownlow describing the little Caspar Milquetoast of a man who came to remove a 3,000-pound unexploded bomb from his air cannon factory after a night raid: "A strong wind would have whisked him away . . . he hugged the bomb, fondly, and listened . . . then he asked for a cup of coffee, then he went for a half hour's walk . . . to think . . . then he came back and took the fuse out of the bomb, carried it off in his pocket . . . and we breathed again . . ." Lord Brownlow prophesied: "After this war, there will be no House of Lords . . . nothing without function will survive."

This Raced My Pulse: Watching a flight of Grumann American-made Martlets from the Fleet Air Arm, swooshing down through fog onto the field at an RAF station while Hurricane pilots watched goggle-eyed . . . then watching the Martlets tangle with the Hurricanes in challenge aerobatics . . . The Martlets won at intermediate altitudes. The 14 combat pilots from the American Air Force landed in Britain as observers last week will soon prove the value of the American made P-40 Tomahawks at ANY altitude.

HEAVYWEIGHT FIGHT BROADCAST

". . . This is the sixth round of the heavyweight champeenship fight between Joe Louis and Pudge Goops . . . Louis sends another left to the jaw by Louis . . . Now Louis lands a right to the head by Louis . . . Of Goops . . . By Louis . . . It's a terrific battle, folks . . . Both boys are in the center of Louis . . . of the ring . . . by Goops . . . of Louis . . . It's a right by Louis to the jaw by Louis of Goops . . . There's the bell! . . . Goops has been down six times so far . . . The crowd is wild . . . Nobody expected Goops would put up such a game showing!

* * *

"Seventh round, folks . . . Louis is shuffling around . . . He is staring at Goops . . . This is a stare by Louis . . . Of Goops . . . Goops is not to be outdone and he sends a stare by Goops to Louis by Goops . . . Louis delivers a right uppercut to the jaw by Louis . . . A left by Louis . . . A right by Louis . . . Louis sends two lefts and a right to the jaw by Louis. Goops is down . . . He is saved by the bell . . . This showing of Goops has upset all calculations . . . The crowd is cheering . . . This is a sensational battle!

* * *

"Now comes the eighth round . . . Goops makes a rush for his corner by Goops. He rushes out straight at Louis by Goops . . . of Louis . . . Now Louis floors him with a terrific left to the nose by Louis . . . and two uppercuts by Louis to the jaw by Louis . . . Goops is down . . . He is up . . . He falls into a clinch of Louis by Goops . . . Louis just landed four straight smashes to the head by Louis . . . Louis scores a terrific right to ear by Louis . . . And a left jab by Louis to the face of Goops by Louis . . . Louis gets in two stomach punches by Louis . . . Goops goes down . . . Goops has been down eleven times . . . He hasn't landed a solid punch so far by Goops. But he is still in there . . . All the expert predictions have been upset . . . Goops has surprised everybody . . . There goes the bell as Louis sends a hard right smash to the jaw by Louis.

* * *

"Ninth round, folks . . . This is one of the greatest heavyweight championship fights in history . . . Goops is down again from a left and right and left and right and right delivered by Louis to the jaw by Louis . . . He is up . . . He is in very bad shape . . . He has no defense and doesn't seem to be able to land a solid punch . . . He is certainly outclassed, but this is the ninth round, folks, and he has upset all the dope by still being in there . . . Goops is putting up a wunnderful demonstration of courage by Goops . . . He is down again as Louis sends a left and a left and a left by Louis to the jaw . . . Boy, what a fight!

* * *

"Now we are starting round ten in the greatest fight for the world heavyweight champeenship in years . . . Joe Louis sends a left to the head by Louis . . . Goops is down . . . He's up . . . I never saw such spirit . . . Such courage by Goops . . . Such fighting nerve and spirit . . . Bam! . . . Goops is OUT!"

MOVIE VERDICTS

"That Night in Rio."—an insult to South America done in technicolor.

* * *

But if "Rebecca" was the year's best picture, as voted, then we'll take Mickey Mouse every time. And we thought Ginger Rogers as Kitty Foyle in the movie of that name was just another movie performer who hadn't read the book.

* * *

There are a lot of people in this country who will stand for most anything that may come through the war emergency as long as it doesn't interfere with bingo.

* * *

A recent newsreel showed a bunch of rookies leaping from planes in a parachute training test. Each carried two chutes in case the first one didn't work. In this picture one lad pulled both chutes.

"Would you do that?" the girl ahead asked her boy friend.

"Would I!" he frankly exclaimed. "Say, I'd pull both cords and yell for somebody to throw me a third."

* * *

It must seem funny to London not to have any American notables around this week.

Assortment of Frills, Jabots to Highlight Summer Fashions

By CHERIE NICHOLAS

FRILLS, frills, frills! The call for frills and jabots and cascades of sheer loveliness as costume adornment resounds throughout all fashiondom this season.

Therefore, if you like to do dainty handwork, meet opportunity at your door. Make your own frills, for, as every woman knows, nothing can add the exquisite touch as well as a bit of fine needlework, whether it be in hand-rolled hems, deft hemstitching or wee hand-run tucks.

It is almost unbelievable what a wondrous assortment of frills can be made from a yard or so of crisp, snowy organdy, exquisitely sheer handkerchief linen or other dainty fabrics.

Take a look at the collection of frilly items here illustrated. By devoting spare moments to the fascinating pastime of handrolling hems, handrunning wee tucks and so on, you can very easily fashion a wardrobe of fashionable frills. Being meticulously handmade, they will launder perfectly.

The spotlight of fashion is on sheer lingerie yokes, either in collar form or sewed into the dress as an actual yoke top. It does not take long to hand-tuck a yoke. Like the one pictured in the circle in the upper left corner. You can edge it with a ruffle of self organdy or lace. You really should have at least one big yoke collar in your collection.

A dramatic collar and cuff set, such as the girl seated is wearing, is almost indispensable when it comes to accenting a navy or black dress. Note the new low-cut "plunging" neckline of the collar. The collar is lined with self organdy. Cut duplicates, seam the wide frill in between, then turn and press and you will have no fraying edges. You can either hemstitch the frill or finish with a tiny rolled hem. Make the frill very full so that it will fall in sprightly ripples, as pictured. The same working directions apply to the cuffs. You can launder these collar and cuffs as often as you wish, and they will come out like new.

Simple indeed but very effective is the organdy frill worn demurely about a round snug-fitting neckline, as sketched. Emphasize the frilly effect with ruffling on the sleeves, as illustrated in the picture.

Bolero jackets take on a new look this season when they are collared with a frilled ruff, made of gleaming white organdy that goes rippling down each side of the front opening as the sketch here portrays. Try it! With scraps of the organdy left over, make yourself a scalloped collar with a wide frilled ruffle as suggested in the sketch.

Perhaps the most intriguing news of all is the frilled lingerie cascade that travels from the neckline to the hemline of the now-so-fashionable slim princess frock. The sketch in the group pictures the idea. To get best results, cut the ruffling on circular lines, and, if you finish the edge with a hand-rolled hem you will be delighted with the sheer loveliness of this cascade that falls from a sailor collar of the organdy on down to the very hemline of the dress.

Make a white organdy cascade to baste in the front of your simple basic gown. Duplicate this frill in pastel blue or pink or orchid organdy to wear "on occasion" with your afternoon dress.

(Released by Western Newspaper Union.)

Glen-Plaid Suit

It's a suit season and no mistake. Plaids, checks and stripes are big news, they're tailored so meticulously they have the look of perfection. Here is a model that is characteristic of the present trend, which exploits quality-kind woolens styled in the new longer-jacket. Forstman does these Glen-Plaids in soft neutral tones, notably gray or beige with white. The skirt has grace and action because of its pleats. A suggestion of the military theme is achieved in the curved tucks at the shoulder line and in the saucy two-toned beret-type chapeau.

Wear Clothes Which Enhance Your Beauty

So you don't like slit skirts. Well, then, don't wear them.

You think purple is a horrible color? All right then, don't wear it.

You can't wear sailors? Then don't try. There are lots of women who adore slit skirts, look marvelous in purple and are mad about sailor hats. Leave these women to their choice and you take yours. There are enough good styles to go around, and no one woman need take it upon herself to illustrate all the current fashion trends.

It's up to each woman to select from current — and past — styles those which she likes and which look well on her—and if she wants to delve into the future that's all right, too, provided she conforms with current laws about what constitute clothes.

Nowadays fashions are really flexible. Many long-held taboos have been broken, and women are in the mood to shatter more traditions. We wear open-toed shoes in the winter and wool all the year round. If we like suits we don't confine their use to spring and fall—we wear them all winter under our fur coats. We wear chiffon in January, as well as velvet and lame; we wear sequins and lame in the afternoon instead of reserving them for evening.

Fashion changes with the times. To dress well is not a matter of aping, but of creating.

Multicolor Turbans

The new turbans are printed flower crepes, taffetas or even striped surahs. This hat style may be worn either casually or formally. A printed turban goes with many different costumes and many different colors.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D., Dean of The Moody Bible Institute of Chicago.
(Released by Western Newspaper Union.)

S. S. Lesson for May 18

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

BROADENING CHRISTIAN HORIZONS: SAUL'S CONVERSION

LESSON TEXT—Acts 9:1-16.
GOLDEN TEXT—I was not disobedient unto the heavenly vision.—Acts 26:19.

The conversion of Saul is recognized as one of the outstanding events in Bible history. When two brilliant English lawyers, Lord Lyttleton and Sir Gilbert West, set out to disprove the truth of Christianity, they selected the resurrection of Christ and the story of Paul's conversion as the focal points of their proof. Working independently, they then came together to compare notes, and found that they had both become Christians as they had become convinced of the truth of the Scriptures.

The two events may well stand together as mighty evidence for Christianity, for only on the ground of regeneration can the change in Saul be accounted for, and only on the assurance that he met the risen Christ on the Damascus road can we account for his conversion. This is a great lesson, let us make the very most of it.

I. Saul, a Bold Persecutor (vv. 1, 2).

As our lesson opens we find the brilliant and zealous young Jew, Saul, "yet breathing out threatenings and slaughter against the disciples of the Lord." The persecutions in Jerusalem had practically wiped out the church in that city, but had scattered the disciples abroad, and thus the witness had been spread. The death of the godly Stephen, to which Saul had given his approval, had only increased his determination to destroy those who were "of the way" of Jesus. Looking for new fields to conquer, he carried with him to Damascus letters from the high priest at Jerusalem, giving him authority to imprison the followers of Christ. But on the way he met Christ Himself, and was stricken to the earth.

II. Saul, a Convicted Sinner (vv. 3-9).

Stricken down by a brilliant heavenly light, he finds himself talking to the Lord Jesus. He hears from His holy lips the solemn indictment of those who persecute God's people—"Why persecutest thou me?" He who lays unkind hands upon, or brings untrue accusation against, God's children had best beware, for so closely is our Lord identified with His people that when they suffer, it is He who bears the hurt.

In a single sentence the Lord disposes of the persecuting zeal and the sinful skepticism of this proud young Pharisee, and Saul enters into Damascus not as the haughty persecutor, but as a man trembling and astonished. He spends three days shut in with his own soul and God, not seeing, not caring to eat, but entering into communion with God. By God's grace the old life is pulled up by the roots as it is displaced by the new life in Christ Jesus.

III. Ananias, an Obedient Disciple (vv. 10-12).

Ananias was the "I am here, Lord" type of Christian to whom the Lord could confidently commit His important business. All we know of him is what is contained in this chapter, but it is a very beautiful and enviable record. God is able to work directly on any human soul and accomplish His end (as He did with Saul on the Damascus road), but His usual manner of working is through faithful human agencies.

One wonders how much would be accomplished for God if every Christian were as willing and ready as was Ananias to do the Lord's bidding in seeking out and helping a struggling soul.

The greatest of all Christian leaders, the apostle Paul, was led out into his life of loyalty and service to Christ by a humble layman. Repeatedly God's Word by precept and example stresses the vital importance of personal work on the part of laymen and women. The leaders of Christian work during the coming generation are now in the Sunday school classes of our churches, perhaps in a little wayside chapel in the country, in the village church, in the mission or settlement house, or in the great city church.

IV. Saul, a Chosen Witness (vv. 15, 16).

The fears of Ananias that Saul might still be a worker of evil (v. 13) were soon overcome by God's assurance that in the praying Saul He had prepared for Himself "a chosen vessel" (v. 15) to bear the gospel to the Gentiles and to kings, as well as to Israel.

The great witness of Saul was to be accompanied by great suffering. How often the two go together, and both may be (as they were in Paul's life) for God's glory. Saul knew nothing of that subtle hypocrisy known as being "a secret believer," for at once he made open confession of his faith in baptism, and "straightway he preached Christ in the synagogues that he is the Son of God" (v. 20).

Household Hints

If kerosene is added to the water with which linoleum is washed it will loosen dirt and make washing much easier.

* * *

Two tablespoons chile sauce or catsup poured over top meat loaf when half-baked gives a good flavor and rather crusty covering.

* * *

To give shingles the appearance of being stained, use a paint with low gloss, or a flat paint.

* * *

Shrinkage in woolens is usually due to over-washing. In ordinary circumstances, three minutes is long enough for them.

* * *

Many kitchens have a bare, unused wall space that could be usefully and attractively transformed into recessed shelves.

* * *

To keep the inside of a gas range in good condition, remove rust that may have accumulated with coarse sandpaper, then rub over entire surface with olive oil.

* * *

If sugar is added to water when making flavored ice cubes, the cubes will not freeze clear or solidly.

J. Fuller Pep

By JERRY LINK

Cousin Carrie has things figured out. "Fuller," says she, pa[illegible] me my second helpin' of KEL[illegible]GG'S PEP, "the reason you're a go-getter is because you're a come-backer."

And I got to admit, KELLOGG'S PEP has got me goin' and comin'—goin' and gettin' things done and comin' back for more PEP each mornin'. That's what comes of gettin' all your vitamins. KELLOGG'S PEP hasn't got 'em all, of course, but it's extra-long in the two that are extra-short in lots o' people's meals—vitamins B_1 and D.

PLANS COMPLETED FOR 4-H GIRLS' RALLY DAY

Annual Event Will Be Held June 6 For Girls And Leaders

Plans for the annual 4-H Girls Rally Day were formulated for Hancock County club girls and leaders when they met with Miss Winifred Martin, from the 4-H Girls' Club Department of Iowa State College. The rally will open the club girls' summer activities on June 6th.

Among the features planned for the annual get-to-gether are a song festival, a symposium by club presidents, election of county officers and better groomed contest.

A "Good Citizens - Good Neighbors" presentation in the afternoon will depict 4-H activities that tie in with the natonal Good Neighbor policy and with the National Defense Program.

Rally Day ceremonials will include recognition of leaders, installation of newly-elected officers and initiation of an honorary member Supt. J. R. Baggs was selected by te committee to address the group on the subject, "4-H Girls Pledge Their Best Help."

Rally Day is held each year to strengthen the club organization, to provide a happy climax to the year's music study, to give 4-H girls an opportunity to participate in public programs, to interest prospective members and leaders and to acquaint those not in active work with the 4-H program.

JACOBS HARDWARE WILL HAVE PAINT SHOW

The newest in both interior and exterior painting and decorating will be featured at Jacobs' Hardware Store this week Saturday, May 24th. The demonstration will be held afternoon and evening

Purchase Home In Des Moines

Mr. and Mrs W H Galberth drove to Des Moines Thursday and while in the city they purchased a house in the northwest part of Des Moines on 42nd street, in what is known as "Beaverdale." The Galbreth family will move to Des Moines about June 1ts, where Mr. Galbreth has a position as assistant editor with a school publication.

RUTH BAILEY IS BRIDE OF CHEMICAL ENGINEER

Ceremony Performed By Former Klemme Minister

Miss Ruth Bailey, of Klemme and Mr Ernest M. Willcutt, of Storm Lake, Iowa, were married Saturday, May 17th, at Paullina, Iowa, at 2 00 o'clock at the Methodist parsonage, by the Rev. J. M. Howdeshell, former Klemme pastor.

They were surrounded by beautiful flowers and their attendants were Mr. and Mrs. Charles Bell, of Cherokee, Iowa. Mr. Bell is a cousin of the groom. The single ring ceremony was used, and the whole affair was very lovely. At the close of the ceremony Mrs Howdeshell served the company to a delightful two-course luncheon.

The Bride, is the only daughter of Mr. and Mrs. Herb Bailey who reside on their farm southeast of Klemme. She is a graduate of the Klemme high school and attended Morningside College and is a graduate of Iowa University. She taught high school music for several years and the past few years has had a splendid position with the Y. M. C. A. on the Iowa State College campus at Ames.

Mr. Willcutt, of Storm Lake, attended college at Ames and is a graduate chemical engineer. Mr. Willcutt is now engaged as a chemical engineer at Keokuk, Iowa.

RIVERSIDE SCHOOL HAD ANNUAL PICNIC

The Riverside School, south of Klemme, of which Miss Evelyn Arnold is the teacher, held its annual closing day exercises and picnic, Friday.

A large crowd was present and enjoyed the fine program presented by Miss Arnold's pupils.

The picnic dinner was a big event for the boys and girls, especially.

HELLO, FOLKS!

Mr. and Mrs. Everett Barz are the proud parents of a fine baby daughter born to them at the Mercy Hospital at Mason City on May 15th.

Mr. and Mrs. Kenneth Bell are the parents of a baby boy born to them on Thursday, May 15th. The new arrival has been named, Larry William. They have one other little boy in their family. Mrs. Herman Paul is caring for mother and baby.

Mr. and Mrs. Raymond A. Kuhlers are the parents of a baby girl born to them on Tuesday, May 6th.

WEDDING BREAKFAST HELD AT KERAUS HOME

Mr. and Mrs. W. C. Keraus gave a five o'clock breakfast at their home May 20th in honor of Misses Carmen Kluckhohn and Elaine Buntenbach, and Lynford Back and Verle Keraus, who were married Tuesday.

Klemme Legion Auxiliary To Sponsor Poppy Sale

DOUBLE WEDDING HELD AT REFORMED CHURCH

Two Klemme Couples Took Vows Early Tuesday Evening

The Klemme Reformed Church was the scene of a double wedding ceremony, Tuesday, May 22nd at 5 00 o'clock P M, when Miss Elaine Buntenbach became the bride of Verle Keraus, and Miss Carmen Kluckhohn was united in marriage with Lynford Back. Rev. Calvin Grosshuesch, who officiated, used the double ring ceremony

The two couples were attended at the altar by the Misses Lorraine Buntenbach and Marilyn Back, as the bridesmaids, and Harold Wicks and Franklin Kluckhohn as best men.

Only the immediate family and close friends of the couples witnessed the double wedding.

Mrs. Verle Keraus wore a light blue dress with navy blue accessories with a corsage of blue For-get-me-nots and Talisman roses.

Mrs. Lynford Back wore a biege dress with beige accessories and a corsage of For-get-me-nots and Talisman roses.

The two grooms and the best men all wore green suits with white Carnation boutonniers.

Following the ceremony a three course dinner was served at the E C. Buntenbach home with Mrs. August Baack and Miss Esther Jahnke serving. A three-tier cake baked and decorated by Mrs. John Day was used as the centerpiece on the bridal table. The color scheme was carried through-out in blue and white.

Those attending the dinner, besides the wedding party, were Mr. and Mrs. Herman Back and Billy; Mr. and Mrs. W. C. Keraus; Mr. Frank Kluckhohn and son, Kenneth, Rev. and Mrs. Grosshuesch, and Mr. and Mrs. E. C. Buntenbach.

Mr. and Mrs. Lynford Back left immediately after dinner for a trip through southeastern Iowa. After June 1st they will be at home in Klemme.

Mr. and Mrs. Keraus went on a week's trip in Minnesota and after June 1st will be at the Keraus cottage at Clear Lake, and after July 1st will be at home at Garner.

Mrs. Keraus is the eldest daughter of Mr. and Mrs. E. C. Buntenbach, while Mr. Keraus is the son of Mr. and Mrs. W. C. Keraus.

Mrs. Back is the only daughter of Frank Kluckhohn, and Mr. Back is a son of Mr. and Mrs. Herman Back.

All are graduates of the Klemme high school. Mr. Keraus and Mr. Back graduated in 1934; Mrs. Back in 1937 and Mrs. Keraus in 1938.

Mr. Back is the proprietor of the Standard Oil Station in Klemme.

Mr. Keraus has been employed by the Northern Lumber Co. for several years as bookkeeper at the Swea City yard. He will be connected with the sales barn and live stock business conducted by Mr. E. C. Buntenbach at Garner.

BRIDE-ELECT HONORED AT PARTY AND SHOWER

A miscellaneous shower was held at the home of Mrs. Sumner Trumbull last Thursday evening, honoring Miss Elaine Buntenbach, who on Tuesday became the bride of Verle Keraus of Swea City. Hostesses were Mesdames Lloyd Lau, Sumner Trumbull and Clarence Lemke.

The guests were entertained at Court Whist and high score was won by Miss Marie Blank, second high by Mrs. W. C. Keraus, and the low score was held by Miss Laura Hollatz.

A two course lunch was served and each guest received a favor in the form of a blue shoe with attached streamers.

Miss Buntenbach received a variety of beautiful and useful gifts.

Buy a Poppy May 24th!

SATURDAY, MAY 24 IS ANNUAL "POPPY DAY" IN KLEMME

"The badge of patriotic memories!" This is the term being used by the American Legion Auxiliary this year to describe the memorial poppies which America will wear on Poppy Day, May 24th. The Auxiliary women hope that everyone in the Klemme community will be wearing a poppy on that day.

"The poppies are worn in memory of the American dead of the first World War," said Mrs. Ernest

Lewis the Auxiliary's Poppy Chairman. "They are the flowers which grew on the battle fields of France where these young men gave their lives in service for America. The crepe paper replicas which we distribute each year on Poppy Day are made by the comrades of these men, the disabled veterans in the government hospitals and the Auxiliary work rooms."

Be ready to buy your poppy on Saturday, May 24th and help along a worthy cause.

MEMORIAL DAY SERVICES BEING PLANNED

Plans are nearly completed for Memorial Day services which will be held in the Klemme Park as in former years. The complete program will be in The Times next week.

DAN KADUCE FAMILY GIVEN SURPRISE PARTY

A surprise party was held Sunday in honor of Mr. and Mrs. Dan Kaduce and family, who are moving to Pipestone, Minn., where Mr. Kaduce is foreman on the Rock Island railroad. The following people were present:

Mr. and Mrs. John Kaduce and son, Leonard of Klemme; Herman, Fred and Andrew Kaduce of Meservey; Mr. and Mrs. Joe Kaduce and daughters of Meservey.

John Wieman and sons of Thornton; Mr. and Mrs. George Kaduce and son of Alexander; Mr. and Mrs. Alfred Anderson and family of Hampton; Henry Smit of Chapin.

Mr. and Mrs. Walter Lance and sons of Mason City; Willie Ruiter, Mr. and Mrs. Henry Ruiter and son and Mr. and Mrs. John Ruiter and son, of Meservey.

Fred Ruiter and family of Thornton; Mr. and Mrs. Bernard Ruiter and son of Mesevey; Mr. and Mrs. Robert Hinman and son of Belmond; Howard Lance of Mason City.

Mrs. Elwyn Walter and daughter of Belmond; Mr. and Mrs. Bill Pommehr and daughter and son of Alden;, and Irving Radabough, all of Alden.

KLEMME YOUNG MEN ARE AT FT. LEONARD WOOD

Two Klemme young men, Milton Paul and George Netland have been transferred from Jefferson Barracks, Mo. to Ft. Leonard Wood, Mo. Both are in the Engineering Replacement Center.

Milton's address is Co. C., 26th Battalion, Ft. Leonard Wood, Mo.

George Netland's mail can be addressed to him at Engr. Repl. Center, Ft. Leonard Wood, Mo.

NEW OFFICERS AT REFORM-CHURCH SUNDAY

Alvin Goll was elected Assistant Superintendent, and Mrs. Alfred Merkel was elected as a member of the S. S. Board at an election held at the Klemme Reformed Church last Sunday morning.

Sketch of the Life of Henry Yahnke

enry Paul Yahnke was born January 28, , on a farm near Iowa Falls, Iowa. He was tenth of a family of twelve children born is parents, G. C. and Minnie Awald Yahn- natives of Germany.

t the age of six years, the family moved to arm south-east of Klemme. Here Henry nded the rural schools of Avery Township learned the business of farming, and w to manhood.

t the age of 22 years, December 24th, 1901, ry Yahnke and Gertrude Lewis were mar- at the home of the bride's parents in mme Iowa. They commenced housekeep- on the Ted Dutheridge farm in Avery nship, near Klemme, and continued to live his farm for twelve years. Here their three dren were born: Erwin, Wava and Lillian. was on this farm that death first entered r home, taking Lillian at the age of 14 ths.

ter the family lived in Klemme where ry Yahnke conducted a dray line for four .

1919 Mr. and Mrs. Yahnke and their family moved to Minnesota where they farmed in the vicinity of Vernon Center for 21 years.

Mr. Yahnke was neat and painstaking with all of his farm work and was a pleasant man to work with His home seemed to radiate hospitality. Young people, especially, would gather there because they knew they were liked and welcome.

About ten days ago Mr. Yahnke became seriously ill. He was taken to St. Mary's hospital in Rochester, where the end came Wednesday, May 14th, 1941, at 7.30 P. M. The cause of his death was hemorrage in the brain. He reached the age of 61 years, 3 months and 16 days.

He leaves, besides his wife, two children: Erwin Yahnke, Good Thunder, Minnesota, and Wava, Mrs. Floyd Lundmark, Brainerd, Minnesota; three grand daughters; and three sisters: Mrs. Josephine Palmby, Vernon Center, Minn., Mrs. Ella Rhodes, Easton, Minn. and Mrs. Mary Ell, Mankato, Minn; four brothers. Albert H., Garden City, Minn, Ernest, Vernon Center, Minn., Edd, Buffalo Center, Iowa, and Charles of Garden City, Minnestoa, and many more distant relatives and friends.

Americas Hold World's Future, Industrialist Says

Wenner-Gren Urges U. S. To Assert Leadership In Realm of Ideas.

(Released by Western Newspaper Union.)

NEW YORK.—"The future of the world lies in the future of the Americas, and all the means to provide freedom and progressive democracy for the rest of civilization are available right here in the Western hemisphere," according to a notable message delivered personally to Americans by Axel L. Wenner-Gren, outstanding Swedish industrialist-philanthropist, in a recent interview. Regarded as one of the rich men of the world and connected with the United States by former business ties, long-standing sentiment and marriage, the Swedish industrial leader advised Americans, "both North and South," to take stock of themselves and to recognize that "today is the Western hemisphere's hour of destiny."

Wenner-Gren, whose previous relations with the press have been featured by consistent Swedish reticence, started on his rise to riches following a study of U. S. commercial methods 33 years ago. Thereafter he carved out a remarkable though little known career. Even in Sweden he elicited little public attention till his name was published as the nation's largest individual taxpayer. He rose to this industrial pinnacle via development of a vacuum cleaner—inspiration for which was an American model seen by chance in a Vienna shop window—and a flame-fed refrigerator, perfected from the research of two young Swedish scientists. The third great source of his wealth is the Swedish Pulp company, occupying forest areas as large as the state of Connecticut.

Rescued Athenia Victims.

A year ago Wenner-Gren made news when his yacht, the Southern Cross, rescued 376 stricken passengers at the scene of the torpedoed Athenia tragedy; also, recently, when Prof. A. J. Meyer announced that he had "donated $150,000 for research designed to foster airplane engine supremacy for the United States."

In his significant message to the Americas, the tall, handsome Swede, erect and Nordic for all his 59 years, struck an earnest note. "I know America and Americans. I built my own successful enterprises largely on American techniques, learned by working in your factories and through association with business enterprises in the United States. I am married to an American girl, the former Marguerite Liggett of Kansas City—incidentally the only marriage of either of us. And I admire Americans and number hundreds of your citizens as my friends. But," he pointed out, "no matter what the course of the war, European countries are undoubtedly due for years of economic and cultural depression, their emergence from this depression dependent largely upon the way of life in the Americas.

"The center of civilization in our Machine age," Wenner-Gren continued, "started to move toward the Western hemisphere the day the first mass-production shop was set up in New England or Detroit—perhaps before. Today, the United States is at its peak. Tomorrow, Canada and the Latin-American countries will have great, vital, dynamic civilizations and their strength will necessarily be the strength and inspiration of whatever civilization survives in the Old world.

New Incentives Needed.

"Americans," he warned, "can no longer afford to live smugly in the stuffiness of a rich national prosperity or the vacuum of isolation. Preparedness for national defense is, of course, vital and your peoples have decided upon what form that preparedness should take, but along with all of these vast undertakings America should and can assert its leadership in the realm of ideas.

"Americans must realize that it is not enough merely to try to preserve what is now held. They must establish new incentives. For instance, in their own hemisphere, they cannot let the share-croppers in North America and the forgotten peon populations of South America remain at miserable starvation levels, if only because these are fuel for subversive fires. The peoples of the New world must reach out towards new heights in health, housing, employment, interchange of ideas, practical techniques and cooperation. They must rouse all their energies and ingenuity to do this job—to bring our great machine civilization to the point where it can provide the good things of life for everybody, not only in the Americas, but also abroad. All of the resources in men, money and materials essential to this are at hand in the Americas. If they are utilized, then no matter how the victories of violence mount up, a new constructive world will inevitably replace those destructive forces."

Explains International Views.

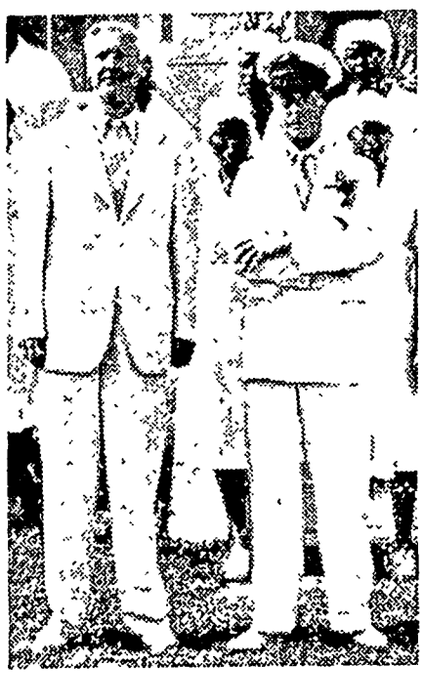
With regard to his international status, the retired millionaire frankly said, "It has been vaguely rumored that I am in some way or other sympathetic with the ideologies which are now dominating most of the continent of Europe. I grant you that I shall always prefer peace to war so long as there is a reasonable basis for hoping for peace, but never at a sacrifice of the principles of freedom and progressive democracy.

"Anyone who has read my book, 'Call to Reason,' knows where I stand on these issues. Miss Inez Robb, who interviewed me a few months ago in Miami, wrote in reference to my views on democracy in this volume, 'It is doubly amazing its author could ever have been labeled an enemy of everything he pleads for.' I think Miss Robb is an impartial critic, and I feel impelled to ask whether it would not be better sportsmanship if rumor-spreaders would also take the trouble to read what I have written and check up on my actual record before they indulge in silly innuendoes. I maintain now, as I have always maintained, that totalitarian concepts represent a retreat not only from humanitarian ideals but from reason. They are definitely not progressive because they use the tools and organization of the enlightened machine age in an effort to enforce principles worthy of the Stone age."

The retired Swedish industrialist, who is vividly American in his optimistic outlook, his blend of practical idealism and his generous attitude toward scientific and humanitarian causes, announced at the conclusion of his interview. "I wish to acknowledge the deep debt I feel towards America by more than the donations I have recently made for scientific research in various universities and by sponsoring the scientific expedition which recently discovered the 'lost' Inca cities in South America I am therefore setting up the Viking fund in the United States for further grants in line with the ideas I have expressed here, because in these confused and shifting times, if I am sure of anything it is this—that the future of the world lies in the future of the Americas."

Honored for Rescuing Athenia Victims

The Canadian government has presented a bronze plaque to Mr. Axel Wenner-Gren (left) in recognition of the rescue by his ship, the Southern Cross, of 376 survivors of the torpedoed Athenia. Mr. Wenner-Gren is shown with his wife (right) and Mr. J. B. Taylor of British Columbia (center) as he examines the plaque. The Southern Cross is pictured in the inset.



The duke of Windsor joins Mr. Wenner-Gren at the dedication of a new lobster cannery in the Bahamas which was established to provide employment for the natives.

Experts Predict Aircraft Engines Of 8,000 H. P.

DAYTON, OHIO.—An 8,000-horsepower engine for an airplane—Fantastic? Not at all!

It may be several years away, but army air corps research experts at Wright field are already looking forward to the day when airplane power plants, delivering four times the power of the big 2,000-horsepower engines now being tested for the nation's newest warplanes, will be ready to go on the test stands.

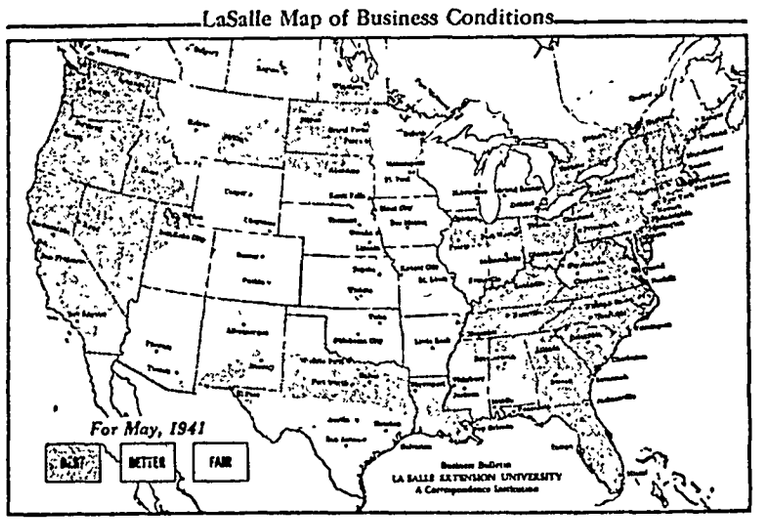
New power plant test equipment now being assembled at Wright field has been designed with this goal in mind, and when the big engines are ready, as engineers are confident they eventually will be, the equipment here will be heavy enough and strong enough to perform the necessary tests.

Aviation is a young industry, less than 40 years old, yet in the 37 years since the Wright brothers' first flight at Kittyhawk, N. C., aircraft engines have grown from the small, four - cylinder, water - cooled, 12-horsepower motor which turned twin propellers on the first Wright plane, to the big 18-cylinder 2,000-horsepower motors of today. And now the Wright field power plant laboratory is working in close co-operation with engine manufacturers to develop a practical 8,000 horsepower engine—and they earnestly believe it can be done.

Present-day engine developments are along two lines, the radial air-cooled type and the liquid-cooled type. Huge frontal areas of the air-cooled engines interfered seriously with clean aerodynamic design, whereas the liquid-cooled engines had far less frontal area to buck the air streams Air-cooled engine manufacturers redesigned their engines to meet the challenge, until the newest air-cooled radial engines provide a diameter not far out of line with the diameters of liquid-cooled engines of comparable horsepower.

Improved Conditions Become Widespread

LaSalle Map of Business Conditions



Improving conditions in the U. S. during the month of May are indicated by the above map. Farm income is slowly but steadily rising. Volume of trade is at a peak 15 per cent higher than last year as larger pay rolls boost buying power.

By L. G. ELLIOTT
President, LaSalle Extension University

The influence of rising pay rolls in industry continues to be reflected in increased purchasing power of consumers. Production of factories is 20 per cent higher than a year ago, and retail sales are up about 15 per cent. The trend in nearly all lines is upward.

The beginning of the new growing season finds farm conditions favorable. Good crops are anticipated, and prices are expected to average higher than last year. Total farm income is now running several per cent above a year ago, and is expected to show still further gains.

The expanded program of the department of agriculture encourages larger production of some farm products and supports prices, thus providing a further stimulus to improving conditions. Farmers raising hogs, poultry, and those producing dairy products will be most favorably affected by the new program, but all farmers will feel beneficial effects

LUKE AND ELMER ON SACRIFICE

Luke—I suppose you've heard the President's warnings on the sacrifices every American man and woman will have to meet now that the all-out aid program is in full swing.

Elmer—Yes, and no truer word was ever spoken. But I doubt that more than one American in a thousand appreciates it.

Luke—I hope it don't come to a point where I have to stay home week-ends.

Elmer — There you go! You're a typical case. You are one of the great army of Americans who don't mind sacrificing as long as it don't make 'em lay up the big car, shorten up the pleasure trips or cut down on the night club parties.

Luke—Ain't a guy got a right to his own idea of what a sacrifice means?

Elmer—Not up to the point where he thinks it's strictly a baseball term.

Luke—You don't expect people to go around demanding a chance to sacrifice, do you?

* * *

Elmer—Not yet, but I think it will be strictly a routine impulse before the year is over. Mr. Roosevelt gave a plain warning in strong language, but he people still need to be stirred up to a full appreciation of what it all really means. This country has been in an atmosphere of marathon waltzing, express speedways, de luxe settings, special upholstery and bottle feeding for so many years that too many people still think it's a sacrifice to get up the first time the alarm goes off instead of waiting for the repeat.

Luke—I guess maybe you're right. I know some fellers who would think they was making the sacrifice of a lifetime if they had to work twenty minutes overtime in even a soft job like judging a Miss America contest.

Elmer—And I could point out a lot of 'em who could applaud every word the President said on sacrifice and then set up a yelp if on their way downtown in an imperial limousine they got held up three minutes by a defense parade

* * *

Luke—I read where some guy made a squawk the other day because a new defense aviation base was so close to his golf course that it made him nervous while putting.

Elmer—You can find plenty of people who think a major sacrifice is involved if the government gives priority to the shipment of bombers as against pool tables and electric music boxes.

Washington, D. C.

MEDITERRANEAN KEY

Key to the fateful battle of the Mediterranean which is about to burst in full fury is not the Suez canal, but Britain's great naval base at Alexandria, 125 miles west of the canal entrance.

The loss of Alexandria would deprive the British of their key "bridgehead" in northern Africa and ensure Axis domination of the eastern Mediterranean.

Actually, the Suez canal itself has been of little value to the British for months. It went out of use as the so-called "life-line of the empire" when the Axis air attack that severely damaged the air carrier Illustrious proved it was suicidal to attempt to convoy shipping through the long and narrow waterway.

Since then the Mediterranean has been a "no man's land" for all the belligerents. While 2,000 miles in length, its narrow width at certain places has made it extremely hazardous for both sides, and the British have been routing their shipping around the Cape of Good Hope for some time.

Loss of the Mediterranean would, of course, be a serious blow to the British; but it would by no means end the war or mean victory for the Axis. With her fleet intact, Britain would still be able to carry the fight to Hitler and Mussolini.

* * *

MACHINE TOOLS

Chief reason behind the big curtailment in auto production was the release of urgently needed machine tools for defense. The machine tool bottleneck could be broken overnight if all the machine tools owned by the motor industry were turned to the making of planes, tanks and other armament.

Defense experts estimate that there are around 1,500,000 machine tools in the U. S., of which more than half are in plants making motor vehicles or parts for them, and in the allied metal fabricating industry. The list includes grinders, milling machines, lathes, boring machines, presses, gear cutters, drillers, and shapers, all vital in the production of defense equipment.

New output of machine tools is now speeding at the rate of 14,000 a month. This is a spectacular achievement and a great tribute to the industry. But it is only a drop in the bucket compared to the 750,000 machine tools already possessed by the auto and metal fabricating industries, which army men say would increase defense production to full flow immediately if pooled and devoted entirely to this purpose.

HIDDEN COLLEAGUE

A stocky, gray-haired man, flanked by a group of sightseers, approached a Capitol policeman and asked directions to the office of Sen. Hiram Johnson of California.

Tucked away in an obscure corner of the north side of the Capitol where tourists never tread, Johnson's office is one of the hardest to find in the great structure.

"I'll do my best to explain how to get there," said the policeman. "Are you a tourist?"

"No," grinned the inquirer, "I'm the other senator from California, Senator Downey."

* * *

FERRY SCHOOL

Everybody is wondering how the swarms of fighting planes which U. S. factories will produce for the British in the next 12 months will be delivered overseas. The answer, for the big ships, is that they will be flown across—and in such great numbers that the British are setting up a special pilot training school for that purpose, in the United States.

The school will give an intensive refresher and training course to volunteer pilots to qualify them for "ferrying" the big bombers across the Atlantic.

The volunteers may be British, Canadian, or American. However, it is expected that the largest numbers will be Americans. The British can use 250 of them.

* * *

GOOD NEIGHBOR PILOTS

Another "Good Neighbor" gesture will soon be made to our immediate neighbor to the south, Mexico. The state department will offer pilot-training courses to a number of Mexican youths in the United States.

Initiator of the idea was Vice President Henry Wallace. When he visited Mexico last year, one of the problems discussed was the shortage of aviators in the Mexican army. Wallace was told that Mexico wanted to undertake a pilot-training program similar to that in the United States, but lacked planes and instructors.

FARM TOPICS

SOW TESTING IMPROVES HERD

Permits Systematic Culling Of Low Producers.

By H. G. ZAVORAL

(Extension Animal Husbandman, University Farm, St. Paul)

Swine raisers are realizing that the perfect individual animal is only one of the foundation stones of a good hog business. Getting more pigs per sow and getting quick, cheap gains from these pigs is equally important. That is why sow testing is becoming as much a part of the successful swine business as butterfat testing has been in dairying.

Sow testing is not difficult. It can be carried out by the hog raiser himself if he will take the trouble. The procedure is this:

1. Mark all the sows before farrowing so that they can be identified in records.

2. Within a week after farrowing, mark the pigs with ear notches, so that each litter can be distinguished. At the same time a record should be set up for each litter, giving sire, dam, and number of pigs of each sex.

3. Each litter of pigs should be weighed separately at weaning time (56 days is the customary age for making this comparison). The weight of litters at 56 days is in itself a very accurate basis for judging the production of sows, although the hog man can carry his records further by getting separate weights on litters at market time.

Having compiled production records on all his sows for the season, the hog raiser is then in a position (1) to cull out the old sows that did not produce well, and (2) to select gilts from the best litters to keep over.

For the breeder of purebred stock, the records assume extra importance in determining the value of boars. Already in many communities, boars from tested herds are commanding premium prices.

Carefully Prepared Wool Receives Better Prices

Care in the preparation of wool for market is one of the best ways American sheepmen can increase their profits whether they run range bands or raise farm flocks in the opinion of C. R. Townsend of the University of Nevada agricultural extension service.

"Since wool is bought and sold on a clean basis, the shrink and manner in which the fleeces are sheared and packed remains an important factor in determining the value per grease pound the producer will receive," Townsend states.

Sheep, of course, should be shorn only when fleeces are dry he says, and should be protected from moisture at all times while awaiting shipment.

"A board floor, kept clean, is the best surface upon which to shear," Townsend added. "A dirty floor or littered ground will result in the wool's picking up foreign substances, thus decreasing its value. Straw, hay, and chaff are particularly objectionable.

"Wool should be cut close, and the fleece removed unbroken.

"Sheep should be tagged before the shearing operation, and tags should be sacked separately.

"Tie each individual fleece with good paper twine, rolled with flesh side out; this will result in a much better and more attractive appearance of the fleece.

"All burry, seedy, black, gray, dead, and cotted wool should be sacked separately from clean white wool. Yearling or lamb wool should also be sacked separately, since it is much lighter shrinking than that of the main band, is generally sold separately as original bag wools, and commands higher prices."

Farm Notes

In a frozen food locker, if temperatures rise above zero, odors may transfer from one food to another.

* * *

Nearly one-half of the 21,000,000 American youths between 16 and 24 live on farms or in villages.

* * *

All eggs produced by any one hen tend to be of a similar size, shape, color, though they may vary somewhat.

* * *

A recent study shows that 10 cows producing 300 pounds of fat annually make as much profit as 18 200-pound producers.

* * *

When cows eat bitter weeds the milk has an objectionable odor and taste.

* * *

Norway is reported to be feeding woodpulp to cattle for fodder with herring and fish meal added to give the essentials of albumen, vitamins, and minerals.

* * *

When a cow or a calf lies down stubbornly and will not lead, try holding its nostrils tightly. This usually will bring the animal to its feet in short order.

Linen Assumes Important Role As Fabric for Summer Wardrobes

By CHERIE NICHOLAS

IN ASSEMBLING the new summer wardrobe, don't overlook the importance of linen for all-occasion wear. There really is no material that more faithfully holds its own than handsome Irish linen. With women of discriminating taste, fine linen is a tradition, and now, because of scientific processing, the new linens are rendered practically non-wrinkable.

Aside from the practical view, which ranks linen high because of its complete washability, crease-resistancy and adaptability to any type of wearing apparel, style experts are suggesting linen because of the beautiful colors in which it may now be purchased.

A trend this season is the combining of linen with another fabric. You'll see many linen dresses with wool coats, lined and collared to match the dress. Linen also may be combined with silk or rayon prints very effectively. Often a monotone linen coat is lined with the print of a matching frock In these instances, the linen used is one of the heavier, sturdier weaves, either plain or with self-plaid woven into the fabric.

A fashion highlight this season is the newly styled longer jackets of solid colored linen, worn over bright gingham checks or printed cottons. The attractive ensemble centered in the photograph illustrates the idea. The jacket, of deep green linen, is cut as expertly and fits as suavely as any painstakingly tailored wool. It tops a black, white and green checked dress which follows carefully the lines of a classic shirtwaist frock.

The use of linen in two-toned combinations is a this-season theme that stresses the popular contrast-color vogue. Two shades of Irish linen, a rich tan and a deep green, combine to dramatize the South American influence shown in the simulated bolero of this good-looking dress. This is a fashion designed by Schiaparelli for gay young folk

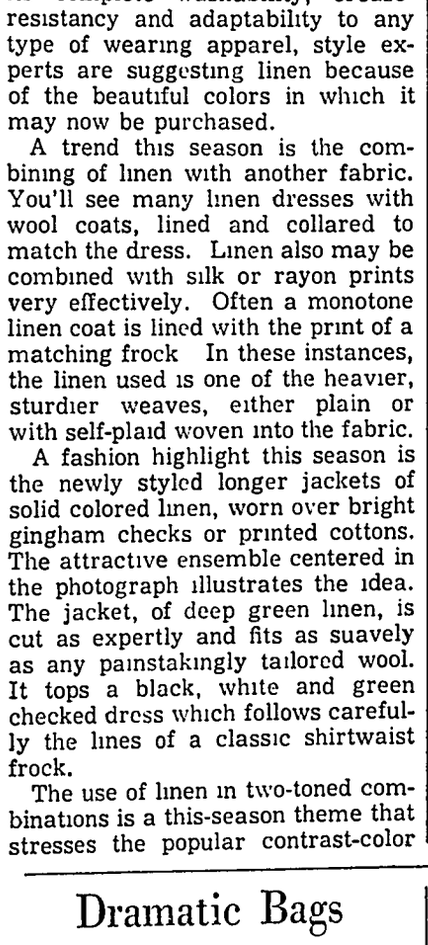
It's "three cheers for the red-white-and-blue" when the classic shirtwaist dress shown to the left in the group marches along in the fashion parade. The dress is of blue wrinkle-resistant Irish linen. The double blue-and-white collar and cuffs are edged with red rickrack, and the chic crocheted belt also combines the three colors.

A fashion that women will welcome is the redingote that is styled of linen in handsome dark monotones. This is worn over print frocks very effectively and over line dresses of a contrasting shade. A practical as well as smart item in any wardrobe is the linen suit that is fashioned with the longer jacket. In navy or dark green or toast brown it invites many uses, for the jacket may be worn over casual frocks when not worn with its matching skirt.

The young set glories this season in the new line middy blouse fashions. As summer advances, dance floors will boast linen dinner dresses. On beaches, dressmaker bathing suits in linen will take to the water and many play suits and beach dresses of Irish linen will be worn by vacationers.

(Released by Western Newspaper Union.)

Dramatic Bags



Dramatic bags, with swank shoes of shiny perforated leather to match, are smart as can be. In the underarm bag designed by Jenny which the young modern pictured is carrying, shiny black patent leather is cleverly used to form wings of ruffled and perforated patent. This bag is roomy but compact and is styled with all the "last word" improvements. You will find it the perfect complement for your new tailleur and particularly chic carried with the now-so-voguish black faille jacket suits. By the way, the topknot that surmounts the pretty head of the young lady here posing is a very new-fashion chapeau.

Newest wrist watches are square, made of pink gold, set with diamonds and rubies and fastened with a maroon wrist cord.

White-Ground Prints New In Summer Fashion Picture

It is the white-ground prints that have the coveted "new" look. The black-on-white combination is especially smart. Wear with these black-and-whites one of the very voguish large Milan hats, carry a patent bag matched with pumps, splash a dash of red or yellow in gloves and your boutonniere—the sum total will be "style."

Blue on white is also new and the prints that pattern red or yellow on white are exceedingly chic.

Handknit Apparel Enjoys Increase in Popularity

There is a large demand for handknit apparel. Even the machine knits have been brought to such a point of perfection that they have the handknit look. Dresses are so expertly fashioned that they do not miss any of the styling details that give distinction to fabric treatments.

Sweaters and cardigans abound in unique trimmings, such as wool yarn fringe, dangling tassels, embroideries and knitted skirts are now made with pleats or gores.

Low-Cut Necklines Call For Bra to Match Dress

Necklines are on their way down and down, almost to the waistline. With this type of dress, comes a bra to match. You can fasten the open point high or low, as you wish. The latest blouses have open-throat collared necklines that may be adjusted at will.

Brims Large, Small

It's a far cry from the tiny little flower topknots milliners are pleased to call hats to the wide, wider, widest brims that are forecasted for wear with summer frocks. A properly equipped wardrobe of headgear should include both. The cunning flower hats have captured women's fancy to the extent that they will continue in the picture for a long time to come, but from now on they must share honors with the stunning big pompadour brims. Mexican gaucho felts and the face-framing "covered wagon" types

Star Dust
STAGE SCREEN RADIO

By VIRGINIA VALE

(Released by Western Newspaper Union.)

TWO April weddings in the Hollywood movie colony are still topics for conversation, one because it was so conventional, for Hollywood, the other because it was so unusual for that colony and just the accepted thing anywhere else.

The Yuma marriage of Constance Bennett and Gilbert Roland was Hollywoodian. It was Miss Bennett's fourth marriage, they drove to Yuma by themselves and the clergyman had to supply witnesses. The other, Deanna Durbin's marriage to Vaughn Paul, was a big church wedding, very beautiful, and motion picture stars who were friends of the bride and groom were invited but not featured as part of the performance. An achievement, in Hollywood!

—*—

Rudy Vallee is ready to chuck his career and undertake a new one at the drop of a megaphone. Now appearing in Columbia's musical picture, "Time Out for Rhythm," with Ann Miller, Rosemary Lane and Allen Jenkins, he's ready to drop acting and singing if he can get a chance to direct pictures. He's even bought a home in Beverly Hills to be near the center of the movie business.

Rudy Vallee

—*—

During the next few months there will be a virtual parade of film players to the Latin-American countries. Spencer Tracy and Eleanor Powell are slated for good-will visits; Douglas Fairbanks Jr. will be a sort of good-will ambassador, and Marsha Hunt plans on spending six weeks in South America after she's finished "Blossoms in the Dust."

—*—

"Citizen Kane," Orson Welles' first RKO Radio production, aroused plenty of controversy long before it was released, and will be one of those pictures that people will argue about years after they've seen it. It may not be the best picture ever made, but certainly it is one of the best—but there are those who maintain that it should never have been made at all. Welles himself scores superbly as writer, actor and producer; the rest of the cast is so good that you forget that they're acting.

Orson Welles

—*—

The first day she appeared on the "Manpower" set Marlene Dietrich announced that she'd take whatever punishment the script asked George Raft to hand her. That included his slapping her twice across the face, knocking her down a flight of stairs, then leaping after her and hitting her across the mouth with the back of his hand.

But George hit her harder than he intended, Marlene tumbled down the stairs (as per script), but wound up by severely spraining her ankle (which the script did not call for!).

—*—

Two more well known stage and screen players—Martha Sleeper and William Harrigan—have joined the cast of "We Are Always Young," Mutual chain's star-studded serial. That cast probably includes more "name" actors than any other serial on the air; among them are Jessie Royce Landis, Linda Watkins, Margalo Gilmore, Joe Laurie Jr., Horace Braham, Pert Kelton, George Coulouris, and William Janney, who's starred.

—*—

Andy Hardy's own, a squadron of RAF fighters, will soon take to the air. Mickey Rooney, the Hardy series "Andy," received a letter the other day from a young RAF flier who wrote "We're all young fellows in this squadron and we all think you're an o. k. sort of lad, so we've nicknamed our squadron (soon to see action) for you."

—*—

Stirling Hayward lost Madeleine Carroll in "Virginia," but he's slated to win her in "Dildo Cay." As originally planned, it was Dorothy Lamour whom he was to win, but she will be unable to finish her current assignment in "Aloma of the South Seas" in time to appear in the picture.

—*—

ODDS AND ENDS—Mutual's news analyst, Wythe Williams, is sponsored on more stations than any fellow analyst—has 100 stations . . . Robert Donat has leave from the British army to make "Pitt the Younger" in an English studio . . . Warner Bros. have bought a story called "Coffin for Dmitrios," and Columbia is making one called "Obituary"—and trying to think up a new title for it . . . As soon as Abbott and Costello finish "In the Navy" they'll begin "Ride 'em Cowboy" . . . Shirley Temple will have a brand new hair-do when she returns to the screen, and her hair, growing darker as she's grown older, is brown instead of golden.

LEAVES from Uncle Sam's Notebook

(WNU Service) by HARRIET MAY WILSON

Perennials

No one would question the value of the annuals for low borders along garden walks, for plantings in formal beds, or for the production of cut flowers; the very fact that they are annual, and that, therefore, a new choice in colors, in the size of plants, and in fragrance and bloom can be made each year, is one of their charms: Nevertheless, many garden-lovers simply do not have time to devote to the yearly choosing of seeds, the yearly planting and care demanded by the annuals, and for such the perennials are especially suited.

The herbaceous perennials (so-called because their stalks are not woody as are the stalks of shrubs, but are soft and fleshy, and die down every year with the recurrence of the frosts) are suited to many locations. They are used among shrub plantings to give color and brightness; they are happily placed along walls and fences which provide a background suited to their dignity and charm; some of them do well in shade, others in full sun, and still others are especially adapted to rock gardens or as borders about lily pools and fish ponds.

SOIL AND CULTURE

From perennials, as from nearly all garden plants, the results in growth and bloom will vary directly with the richness of the soil and the care taken in its preparation. The garden or border where they are to be planted should be spaded to a depth of at least two feet and should be enriched with a liberal supply of well-rotted barnyard manure. It is well to add, also, a quantity of ground bone, tankage, or cottonseed meal. Perennials make a heavy growth of stalk, foliage and bloom each year and must be supplied with the wherewithal for such growth. If the spot where planting is to take place is definitely poor in drainage, it will be necessary to drain by artificial means, but as a rule it is sufficient to place at the bottom of the prepared soil a layer of stones or broken pots to prevent water standing around the roots.

SPRING VERSUS FALL

Whether to transplant in spring or in fall depends upon local conditions. If winters are mild and where the soil is light enough so that it will not heave badly under frost, fall planting is advisable; if, on the contrary, winters are severe and the soil is subject to considerable heaving by reason of frost, no transplanting should be done until settled weather in spring. In cold climates, a mulch is needed for protection from excessive cold and in such localities it is advisable to leave the dead tops and stalks where they lie, to hold mulches and snow, deferring the cleaning up of the planting until spring. This sort of treatment may leave your garden looking a bit frowsy during the winter, but it will result in better growth and bloom the succeeding year.

WHERE TO PLANT

Since perennials, to show their greatest beauty, need some sort of background, the usual plan is to plant them against low stone walls or fences, in the narrow space between a walk and the wall of the house, flanking the walls of outbuildings, or against a vine-covered trellis used to screen some unsightly view. What could be lovelier than a row of flaming hollyhocks bulwarked by a gray wall of stone or cement? Or a vine-covered pergola banked with phlox, with day lillies, or with the handsome Rudbeckis—the "black-eyed Susan"? Or a narrow border between the service walk and the north side of the house, where wild perennials—ferns, anemones, wild blue phlox, crow-foot violets and columbine grow with all the air of having chosen the spot themselves? Or what could so gladden the heart of the owner as to go out, in the very earliest spring, to find the bulbs, planted among the shrubbery or along the garden fence, already sending up their bright green shoots? The writer has seen, in northern latitudes, gay narcissi and hyacinths blooming unabashed in the snow of a late spring storm. Then too, the perennials, spreading as they do, and growing more vigorous year by year, give a charming air of permanence, an atmosphere of home, sweet home, to any place to which they have been welcomed. After perennials have become well established, new plants may be had by frequent root division and replanting, and operation which must be performed in the spring.

For further information concerning herbaceous perennials, send 10c to Superintendent of Documents, Washington, D. C., asking for Farmers' Bulletin No. 1381.

* * *

COVER CROPS FOR TRUCK GARDENER

For truck crops it is advisable to select a type of cover crop which will produce a rapid, luxuriant growth early in fall. It will thus serve as a winter mulch and can be turned under in February or March.

* * *

HANDLING BABY TROUT

Did you know that a baby trout must not be touched with dry hands? To do so is to rub the slime from his speckled sides and this will result in the death of the tiny fish.

Ink Spots And Spatters

By Jergie

OBSERVATIONS OF A SUNDAY AFTERNOON GARDEN SITTER

With a good dinner tucked under my editorial belt, and after wiping dishes for the lady who I call "The Straw Boss", being nothing else to do I wandered out into the back yard, or the garden.

Found a comfortable spot in the lawn chair that seemed to fit the stream-lined editorial chassis, so proceeded to meditate as that required the least effort.

Strong wind blowing. Estimated first forty miles per hour, then put it at twenty Compromised and called it thirty. Then wondreed where the wind came from, how it was made and where it was going. I gave up Then watched the result of the wind. Clouds of dust coming down the street. Pondered on how there could be so much dust and still have fresh supply coming along at short intervals.

Watching the dust go from one place to another, gave me a clear picture of how the wind traveled, scooting in between buildings and out again. Streamlining made visible

Next the tall poplar trees back of the church caught my eye. Reminded me of a fly fisherman at the lake, whipping a light rod back and forth to cast the fly toward a likely spot that might hide a bass. The elms and maples went in for a more steady sway and did not have the hula-hula sway of the stately poplars.

High overhead purple martins were putting on an exhibition of side-slips, dives and gliding that would delight an aviator. Thought struck me that I have never seen a martin on the ground I think they live entirely on insects and their sky maneuvers are put on in their quest for food

Happened to look over toward the street just as a healthy gust of wind and two pretty girls met. I have seen a like display of lingerie in Thada's window. Maybe the same, who knows!

Noted that the plum trees were already setting fruit. Hope the bugs lay off and maybe later can pick some delicious fruit.

A pair of wrens were busy inspecting some low bushes and underneath a flowering plant. Wrens get my vote as being the busiest birds in the garden.

Pair of cat-birds building nest in our honey-suckle bush. Picking up paper and working it into the nest, using their bill and feet, like a dog going in circles before lying down. Went in the house and got some bits of string, a few tufts of cotton and some bits of rags, material to help along the catbird program of house-building. Wrens saw it first and will have cotton-lined nest.

Thought struck me: Birds use material at hand to buill homes—we humans use the F. H. A. or x-y-z, or brick.

More wind again. Reminded me of the song, "High On A Hill On A Windy Day" Don't know the words and can't sing anyway, but had everything but the hill.

Trees and bushes growing wild in our back yard. The way I like it. Sort of a little jungle. Good place for a nudist camp.

Stray cat prowling around near bushes where wrens are looking for bugs Too bad rifle is in the house Well directed rock scares cat down the alley. Don't like cats prowling after song-birds. Ought to be an open season on them.

Sparrows and martins arguing on top of the martin house. Mostly occupied by sparrows. They are persistant rascals Ought to try setting a couple of Ed Thompson's mouse traps, bait with grain and catch some sparrows. Not bad idea and will try it sometime.

Two little boys in old model A driving through alley. Perhaps afraid to appear on the main drag as both too young to procure a driver's license. Boy puts on the brake and stops before emerging from alley to street. Has more sense than many grown-ups who have a license to drive.

Neighbor's barn needs a lot of fixing and loose door banging in the wind won't help matters any.

Lots of flowers in bloom, but don't know the names of flowers. Dandelions are the only ones am sure about

Neighbor next door taken down old chicken fence, cleaned up the back yard. Nice job and it looks more like a little park now.

Bird bath needs water, but the "Straw Boss" can look after it.

Neighbors come over to watch the missus clean out the bird bath and fill with clean water. That ends the observation of the Sunday afternoon back yard sitter.

FARMER IN THE DELL GOES TO CHURCH

Maybe I am wrong, but a hymn in the song books at the Methodist Church is a near duplication of the popular old time song, "The Farmer In The Dell"

Not being able to even carry a tune "in a basket" this scribe may be hearing things, but was able to hum along "Farmer In The Dell" until the last few lines that were a bit different.

Try it for yourself. The hymn was sung at one of the Sunday services, and it wasn't the morning service (in case you want to look for yourself.)

MORE BUILDING FOR KLEMME

My private sleuth has unearthed some good news: that there will be some building activity before long on Main street.

The information is not ripe for publication. However, both are to be business improvements, one a building, the other an extensive remodeling job.

WHAT? NO SENIOR CLASS IN KLEMME HIGH SCHOOL?

For perhaps the first time in the history of the local schools, school will run for several days without a senior class.

The senior class graduated Tuesday night, but school does not close until Friday!

KLEMME REFORMED CHURCH
Calvin Grosshuesch, Pastor

Sunday:
10:00 A. M. German Service.
11:00 A. M. Sunday School.
Monday to Friday:
8:00 A. M. - 12:00, Bible School.
Tuesday:
8:00 P. M. Young Peoples' Bible Class.

REFORMED AID

The Ladies Aid Society of the Reformed Church will meet at the church parlors, with Mrs. Henry Barz and Mrs Henry Jahnke as the hostesses, May 28th.

IOWA SELECTEES WILL REACH TOTAL OF 8,015 IN JUNE

The number of Iowans inducted into army service under the selective service act will reach 8,015 by June 1, Col. Ralph A. Lancaster, assistant Iowa selective service director said Thursday. He said the figure included only men actually drafted, not the state's mobilized national guard or regular army or navy enlistments. Appoximately 37,000 Iowans are in the armel services taken as a whole

Maybe it's a "ghost" germ that causes colds. Science at last sees down to the borderline of life itself and studies a strange world where lives the viruses or poisons that cause influenza and other puzzling but deadly afflictions Read about these important scientific discoveries in the American Weekly, the magazine distributed with next Sunday's Chicago Herald American.

Glass-Eyed Colt

Corwith, Ia., has a novelty in a colt possessed with what the veterinarians call "glass eyes." The animal, owned by R. Masterson, is white, and it was foaled by a spotted mare.

Model Funeral

L. E. Wilson, Eagle Grove mortician, is the inventor of a casket spray that has just been placed on the marke. The device holds a spray of flower blanket firmly on the casket.

Paid In Full

"Conscience money" in the form of two dollars was received by Mm. E. Durno of Postville for the unauthorized use of a strip of matting taken by pilferers from a cottage in Durno Springs Park 20 years ago, and given to the writer of the writer of the conscience money note.

Where Deer And Antelope Roam

Rarely seen in Iowa are the wild deer, yet William Kleinschmidt and Clarence Wilken of near Clarksville recount seeing two in the road east of Clarksville The animals are believed to be part of a herd that roam the wooded areas around Cedar Falls.

Lost Cemetery Found

Restoration of old Fort Atkinson in northeastern Iowa received material assistance from 93 year old Mrs Elizabeth Jane Sabin of Minneapolis whose recollections of her life near the old fort enabled her to locate the site of the long-forgotten cemetery of the one-time army post. The graveyard located by her lies about one quarter mile west of the post.

Five Dollar Shingles

The re-roofing of the Church of Christ at Woodbine has been financed by the novel method of selling the shingles to the congregation at $5.00 a shingle.

Iowa Firsts

Herman Bailey, foreman of the statehouse garage in Des Moines, is Iowa's No. 1 man in several respects. He holds state chauffeur's license No. 1 and official license No. 1 for his panel truck.

Morning, Judge!

Believe it or not, George Young Bear, a Mesquakie Indian, near Tama, is a federal judge He received federal appointment to preside over the first Sac and Fox Indian Court on the reservation, with Horace Poweshiek and Frank Wanatee as associate judges. The proceedings of the first session were conducted in the Mesquakie language.

Unwanted Bath!

First lake rescue of the season is reported from West Okoboji where Frank Starr, lakes custodian, took Sam Weaver and two other youths from the lake after their outboard motor boat had capsized near Pike's Point Other than being chilled and wet the boys were none the worse for their experience.

Dump Mining

War has boosted the price of scrap iron to such an extent that here in Iowa the boom has made possible the cleaning up many an unsightly dump heap. Discarded automobile bodies are being salvaged from the dumps and transported by truck and railroad to the scrap iron markets.

Dutch Shoe Shotage

Tulip time festivals in the Dutch settled communities in Iowa experienced a shortage of the wooden shoe supply. S O S. calls were sent out for the wooden foot-wear. A specialist in Swea City who regularly makes the shoes, ill and unable to work, enlisted the aid of Sam Rystad, Swea City storekeeper, who was able to supply some of the shoes from stock on hand.

No Place Like Home

Thirty-nine years is a long time for one farmer to rent the same farm continuously and without interruption, but George Yedlik of Lone Tree is a renter with that record Yedlik and T. J Sullivan, the farm owner, have enjoyed 39 years of business relations that prove that landlord and tenant can "get along fine."

Conservation Idea

Fifth Island in Medium Lake at Emmetsburg was the scene recently of a large-scale tree planting project when 35 sportsmen and students from Emmetsburg high school and junior college, under direction of the Emmetsburg Conservation League, reforested the island with 500 Scotch pine trees.

Now Ellen, Bob, and Bill will you please behave yourself in Sociology class.

In Sociology class we finished the text book this week and now we are worrying about our semester test which is coming on next week

Boy! Did you see what the Juniors had on exhibit? It really shows that this class works

The last description of the Juniors of 1941·

Lucille Hartbeck sitting on tacks
Billy Zabilka, studying literature.
Phyllis Swanson, always wearing a blue dirndel skirt
Betty Lass, always writing letters.
Arlene Buseman, going out with Senior boys.
Melvin Coobs, sitting on park benches on Saturday nights
Lorraine Buntenbach, never coming to school on Thursday afternoon
Bob Schulz, farming the economical way.
Maxine Mau, likes to give current events.
Charles Bock, never can find the right seat in the last class of the day.
Arelene Schmidt, the only Junior to kep out of mischief
Garland Brinkman, "hain't got any use for the women."
Ellen Kilgore, always confined to quarters
Bruce Arnold, taking care of study Hall.
Luella Thieman, always going bicycling
Aaron Wille, taking about agriculture.

Here's the motto of the bookkeeping class· "A quitter never wins and a winner never quits"

FRESHMAN NEWS

Everyone is singing the praises only one more week of school How they thought about those cute tests that roll around every year, I don't knew.

And the freshmen study their business training so hard that they rate a test every week And not just little quizes either

The freshmen and seniors showed this year's hand work to their mothers at a tea party Friday afternoon

The latest rumor Mavis Nuehring seems so tickled about the tests next week. Could it be that she likes science so well?

SOPHOMORE NEWS

To those freshman who think they have more work to do than the sopomores better look up the word in the dictionary. They must think the work is spelled p-l-a-y

Sophomores are reading "As You Like It" Some, we hear, do not

Now that school is about over the sophomores want to express wishes for a happy vacation for everyone

This will be the last issue of the SHAMROCK TIMES for this year We hope you have enjoyed reading about the things that have been going on during our school days of this year Well, so long, everybody!

Two new characters in the sophomore class are Touchstone and Audrey I wonder if the story "As You Like It," has anything to do with these two characters.

We never knew It takes La Vohn S to bring out the good in Melvin Coobs.

Grade News

KINDERGARTEN, GRADES 1-2

We have completed our train Wednesday we took it outdoors and had our pictures taken in it.

We wrote stories about trains, kinds of trains, workers on trains, train whistles, and signals. We have read many train stories.

So far this year Sharon Bridges and Richad Tiggeman have not been absent nor tardy.

The second grade boys and girls have read twelve books in Class this year and the first grade boys and girls have read eleven books during the year. We have read many books by ourselves Delores, Jo Ann and Jacqualea have read the most to us during story hour. Harley is the next highest.

GRADES 3 - 4

We took part in the all-school exhibit May 13th. We were pleased to have so many people visit our room.

We surprised Miss Michalek with a handkerchief shower Tuesday. She received sixteen pretty handkerchiefs.

The third grade are reading from the Science Stories, Book III. We learned about land and water animals

Fourth grade class began to study about "China" in Geography

We are all busy reviewing for Semester tests next week.

Our class is planning a Nature Study hike and weiner roast for Tuesday afternoon. We hope the weather man gives us a fine day

The following had 100 per cent in spelling Iris, Isabelle, Norma, Merlin and Luella

GRADES 5 - 6

We had many pretty flowers for our exhibit Tuesday night.

Thursday our room went on a nature study hike. We read a science story about ants outdoors under a tree

The sixth grade had their nineteenth self-testing drill. They got a class rating of nine. Roger Ridd got a star rating.

We had some visitors Thursday Mrs Jacobs and Lois Ann were here in the afternoon, also Mr. Anderson from Waldorf College.

Semester tests will be given this week, so last week we were busy reviewing.

Perfect spelling grades were earned by Edward, Irene, Darwin, Rose, Williad, Ruth Smith, Shirley, Delores, Helen, Esther, Robert, Velma Carol, Peggy, Roger Ridder, Phyllis, Dean, Ruth Stokesbary, Elizabeth, Clarenle tnd Mary Lou.

GRADES 7 - 8

Our science class went on a field trip Wednesday and Thursday. We identified more than twenty trees. On our way back Thursday we stopped at Wesley's place to see his puppies.

Both grades took Self-Testing Drill No. 19 in Arithmetic. The seventh grade had an average of 9 This is a good score and it is the highest average score they have got this year. The eighth grdae score was 8. Edward Barz had a perfect score.

We are finishing our work for this year and reviewing for semester tests. Wednesday we took our exhibit down

Patricia, Junior B. and Edward went to St. Paul Saturday to play in the saxophone quartet at the National Music Contest

Robert Tiggerman and Patricia Kudje are the only ones who have been neither absent nor tardy thus far this year.

Mavis, Harlan, Ruth, Robert, Jeanne, Ronald, La Vonne and Junior B. got perfect scores in spelling.

The eighth grade English class had a make-believe farewell party for La Vonne She plans to move to Galt as soon as school is out. Ewald was the Toastmaster. Patricia presented the imaginary gift and La Vonne accepted it. Everyone in the class spoke.

REFORMED SUMMER BIBLE SCHOOL BEGINS MONDAY

Rev Calvin Grosshuesch has announced that the annual summer Bible School of the Reformed Church will begin at 8 00 a. m. on Monday, May 26th

The teachers selected are Miss Mabel Schuldt, Mrs Lynford Back, Miss Doris Barz, Miss Helen Albers,, Miss Gertrude Grosshuech, Miss Stella Thiemann, Miss Lorraine Buntenbach and Rev. Grosshuesch.

The school will continue for five weeks.

SINGLE LINE TO BE USED ON IOWA PAVED ROADS

Iowa is losing one of its distinguishing characteristics, the double black stripe down the center of its highways.

W. O. Price, state highway commission safetly and traffic engineer, said a single line is being substituted for the double one because Iowa is the only state with a double line The new system will place the state in conformity with general practice.

TWO WILL REPORT FOR DRAFT THURSDAY, MAY 29

The Hancock County draft board has selected two men to report at Britt at 2.28 a. m. on Thursday, May 29 to be sent to Fort Des Moines.

The men are Duane. Allen Yeakel, and Charles B. Roskamp, both of Kanawha.

Gordon Harvey Vettling, Britt, is the alternate.

(See Recipes Below)

COMMENCEMENT TIME

You can't believe it, can you? Susie is graduating from high school!

In between putting the final stitches on her organdy dress and entertaining visiting friends and relatives, are you going to try to find time to give her a party?

Please do. To her, it's a very important time, and she'll undoubtedly remember the gang's "last real get-together" for the rest of her life.

Why not a buffet supper? What with wars raging elsewhere, you might play up the patriotic theme in decorations, refreshments and entertainment.

Use a white tablecloth, dotted with red and blue stars, and matching napkins — they're inexpensive and colorful. To top this off, use a trio of star-shaped red, white and blue candles for a centerpiece.

It won't be necessary for you to do much, except, of course, prepare the food. Games and chatter will fill up the evening. But remember that you have as guests youngsters with appetites. They like second helpings.

Serve an appetizer, one hot dish, plenty of salad and hot rolls, more cake or ice cream than you think you will possibly need, and flatter their sense of sophistication by offering second cups of coffee.

A fortune telling cake is always fun when the crowd is young and merry. You can write fortunes on slips of paper, roll them and wrap them in bits of waxed paper, and put them in the cake after it is baked. Another idea is to put in a little trinket for each guest—an engagement ring and a wedding ring, to forecast the first engagement and the first marriage; a key for happiness; a bean for industry; a toy soldier and so forth. You can buy these favors at the ten-cent store.

***Good Fortune Cake.**

2 cups sifted cake flour
2 teaspoons double-acting baking powder
½ teaspoon salt
⅔ cup butter or other shortening
1 cup sugar
3 egg yolks, well beaten
⅓ cup milk
1 teaspoon vanilla
3 egg whites, stiffly beaten

Sift flour once, measure, add baking powder and salt, and sift together three times. Cream butter thoroughly, add sugar gradually, and cream together until light and fluffy. Add egg yolks, then flour, alternately with milk, a small amount at a time. Beat after each addition until smooth. Add vanilla and fold in egg whites. Bake in two greased 9-inch layer pans in moderate oven (375 degrees) 25 to 30 minutes. Double the recipe to make three 10-inch layers. Spread chocolate or maple frosting between layers and on top and sides of cake.

LYNN SAYS:

Games may or may not be the type of entertainment your crowd will enjoy Just in case—here are a few suggestions:

As soon as guests arrive, they receive a card with the name of a food printed on it. Each player must then find someone with the card with the name that combines with the name on his own card. Suggested names are liver and bacon; apple pie and cheese; sauerkraut and wieners; brown bread and baked beans; ham and eggs; bread and butter; doughnuts and coffee; steak and onions; hot dogs and mustard. This game may be used in choosing supper partners.

* * *

Sardine—Some guest is chosen to be "It," and is given five minutes to hide in a spot large enough to hold several people. At the end of five minutes everyone else goes in search of "It." When one guest finds "It" he hides in the same spot and before long the hiding place is packed The first person unable to squeeze in is "It."

THIS WEEK'S MENU

Graduation Party
All-American Appetizers
*Americana Salad
Clover Leaf Rolls
*Veal on Skewers
*Good Fortune Cake Ice Cream
*Spiced Coffee
*Recipes given.

***Spiced Coffee.**

6 cups decaffeinated coffee
½ cup whipping cream, whipped
⅛ teaspoon cinnamon
⅛ teaspoon nutmeg

Top each cup of coffee with a spoonful of whipped cream into which the spices have been folded. Sugar may be served with the coffee, if desired. You can use your favorite method of making the coffee, with regular grind for percolated or boiled coffee and drip grind for drip or glass maker. Allow a heaping tablespoon for each cup. And if you "perk" it, give it a few minutes extra brewing to bring out its full flavor.

* * *

Now that I've made suggestions for dessert, I'll go back to the real beginning of your party.

While placing the supper foods on the table, Susie can pass a tray of appetizers, which are, after all, just a reminder of the good things yet to come. A tiny American flag placed in the center of the tray will add to the party theme.

Potato Chips au Gratin.

Spread crisp potato chips with pimiento cheese. Serve plain or with a thick slice of pickle in the center of each. Chips may also be sprinkled with grated American or Parmesan cheese. Before serving, put under broiler to melt cheese and heat chips.

Stuffed Celery.

Scrape deep stalks of celery. Cut into 3-inch lengths. Place in ice water to which lemon juice has been added. The celery may be placed in a covered jar in a refrigerator until crisp. Several types of filling may be used to add variety.

Bacon Snacks.

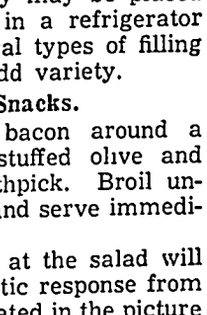
Wrap ½ slice bacon around a sweet pickle or stuffed olive and fasten with a toothpick. Broil until bacon is crisp and serve immediately.

One first glance at the salad will bring an enthusiastic response from the crowd. Illustrated in the picture at the top of the column, it is called

***Americana Salad.**

1 envelope unflavored gelatin
½ cup cold water
2 cups tomatoes
3 whole cloves
1 small bay leaf
1 small onion, chopped
½ teaspoon thyme
1 teaspoon salt
1 teaspoon sugar
¼ teaspoon pepper or paprika
3 tablespoons vinegar

Stir gelatin and cold water together. Let stand at least 3 to 5 minutes. Meanwhile simmer tomatoes with seasonings in a covered container for 10 to 15 minutes Strain and add vinegar Dissolve the softened gelatin in this mixture, and pour into one large mold, and chill until firm. When it has set and is ready to serve, it is divided into two squares with layers which are joined together with a filling of cream cheese. A cream cheese star decorates the top. This recipe makes 6 portions.



Now for something truly different in the way of a hot dish—

***Veal on Skewers.**

Cut boneless veal in pieces 1½ inches square by about ¾ inch thick. Stick on 8-inch metal skewers, alternating meat with slightly smaller peeled potato halves or cubes, chunks of carrot, and whole small white onions. Lay skewers in roasting pan, add 1 cup hot water, and salt Cover and bake in hot oven (450 degrees F.) for 1 hour, reduce heat to 350 degrees F., add more water if needed. Bake about 30 minutes longer, or until tender. Garnish with broiled bacon.

BROADENING CHRISTIAN HORIZONS: PETER'S VISION

LESSON TEXT—Acts 11 5-18.
GOLDEN TEXT—Then Peter opened his mouth, and said, Of a truth I perceive that God is no respecter of persons.—Acts 10:34.

"The best argument for Christianity is a Christian" (Henry Drummond). Peter presented just such an argument when, early in the history of Christianity, there arose a difference of opinion regarding his ministry to a Gentile and his family. The stumbling stone of offense became a stepping stone to higher things, leading to the place of broader horizons. Peter, instead of appealing to his apostolic authority or asserting his position, simply related what God had done. He presented the best proof that God had actually been at work; namely, a redeemed soul.

We may learn from this lesson that the way to broadened horizons and greater usefulness for the church is by

I. A Vision of God's Plan (vv. 5-10).

All men are equally precious in God's sight. God taught Peter very effectively that, whether Gentile or Jew, the Lord is "not willing that any should perish, but that all should come to repentance" (II Pet. 3·9).

When God speaks we do well to give heed to His message, even though it cuts across our ideas and prejudices, as it often does. It is not our plan that is important; it is God's plan and purpose. As we walk in that way we shall have

II. An Experience of God's Power (vv. 11-15).

The Holy Spirit had fallen on the Gentiles and they actually had been saved. Is it not singular that in the early church they could hardly believe that a Gentile could be saved? Now we are astonished if a Jew is saved! Why will we in our unbelief limit the Holy One of Israel?

The all-powerful gospel of the grace of God is still saving men and women, Jews and Gentiles, from their sins. Have you seen it happen? It is a great inspiration to faith and service. God is ready so to encourage us—He is the same today as He was when He sent Peter to Cornelius. Are we willing to run His errands, proclaim His message? To do so we need

III. An Appreciation of God's Word (v. 16).

The best way to learn the meaning of God's Word is to use it, live it, obey it. "If any man will do his will, he shall know of the doctrine, whether it be of God" (John 7:17). Peter had learned anew that God's Word meant just what it said. We who are God's servants should believe His Word and act on it in faith.

Observe that Cornelius had gathered a group in his household to hear the Word of God (Acts 10 27, 33). Could we not do the same? "Cannot each calculate with exactness some time and place where the gospel is to be preached, and is it not possible to bring thither one's relatives and friends? Secondly, when present in a place of worship, cannot each be prepared to say, 'We are all here present'—all, family and friends, mind as well as body; 'in the sight of God'—not to be seen by others, not conscious so much of others as of the presence of God; 'to hear all things'—not to be amused or to sleep; 'that have been commanded thee of the Lord'—not to listen to human conjecture or the exploiting of doubts, but to receive a positive message which is delivered in a reverent spirit and with the prophetic formula· 'Thus saith the Lord.' What would happen were all Christian churches filled with such audiences?" (Charles R. Erdman).

This brings us to what is most important of all in broadening our spiritual horizons.

IV. An Understanding of God's Love (vv. 17, 18).

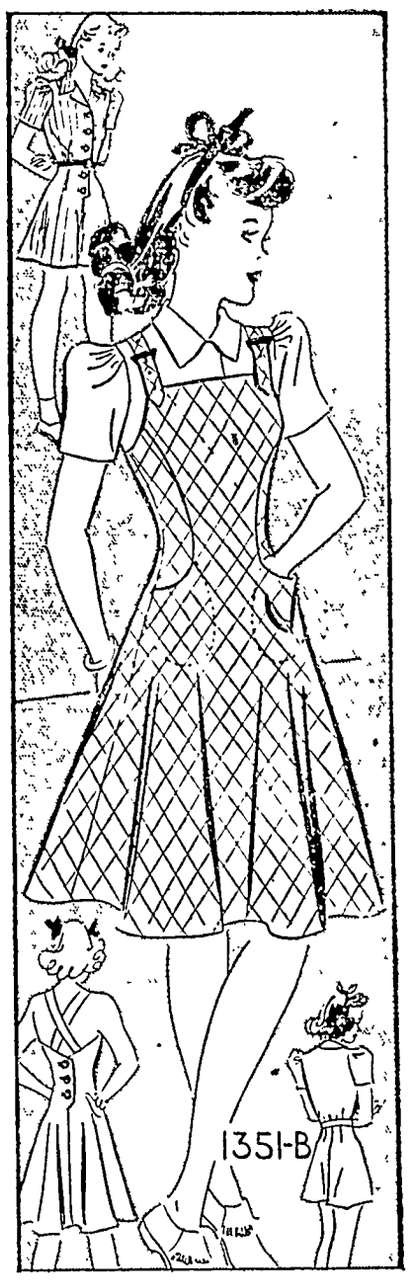
God's love is for all people. Since He has not raised any barriers of race, creed, color, class, or social position, it is not for His followers, and assuredly not for His servants, to set up hindering restrictions which He does not countenance. If God intended to save Gentiles, Peter wanted to be an instrument in His hand, not a hindrance in His way. One of the needs of our day is that those doing God's work should not withstand Him and His love. He who is the same yesterday, today, and forever, is ready to work as powerfully today as He did in the days of Peter and Paul, or of Finney and Moody. Let us give Him liberty to work in and through us, not as we may wish, but as He desires. Who are we that we should withstand God?

Goal of Life

Oh, yet we trust that, somehow,
Good will be the final goal of ill,
That nothing walks with aimless feet,
That not one life shall be destroyed,
Or cast as rubbish to the void,
When God has made the pile complete.—Tennyson.

PATTERNS

SEWING CIRCLE



ONE pattern, but two distinct fashions—that's what you'll receive when you send for design No. 1351-B. And what attractive new sports fashions they are, too! One is a well-tailored play suit, with becomingly flared shorts, dart-fitted, easy waistline and convertible neckline finished with a notched collar, like a shirtwaist. The other is a princess pinafore with sunback and buckled shoulder straps. When little Miss 8-to-16 dons the jumper over her playsuits, with the collar fastened demurely close to the throat, she's dressed for runabout.

Both halves of this very generous pattern are easy for the inexperienced mothers to make, and by repeating it in different materials you can equip your sports-loving daughter with a whole season of fun clothes. Choose sturdy, sunfast cottons like seersucker, gingham, gabardine or denim.

* * *

Pattern No 1351-B is designed for sizes 8, 10, 12, 14, and 16 years Size 10 requires, for play suit, 2⅓ yards of 35-inch material without nap, for jumper, 2⅞ yards. Send order to·

Benefits to Our Readers

THE PUBLIC nature of advertising benefits everyone it touches. It benefits the public by describing exactly the products that are offered. It benefits employees, because the advertiser must be more fair and just than the employer who has no obligation to the public. These benefits of advertising are quite apart from the obvious benefits which advertising confers—the lower prices, the higher quality, the better service that go with advertised goods and firms.

Bromegrass is particularly good for pastures. Under favorable conditions it remains green all summer and furnishes succulent grazing throughout the pasture season.

Local Happenings

Klemme and Vicinity

Joe Johnson has had his house repainted the past week. The house is now white with a blue trim.

Mrs. Hummel and son, Dwight, have had their house re-painted. The new coat of paint is white.

Henry Suckow began work May 15th as bookkepper at the Jacobs Hardware Store.

Miss Vella Paul and friend of Des Moines visited at the Herman Paul home Sunday afternoon.

Mr. and Mrs. W. V. Wildman, of Nevada, spent Sunday visiting at the R. R. Reece home.

Mr. and Mrs. Wayne Pavey and daughter spent Sunday visiting at Plymouth with relatives.

Levi Ridder and family were entertained to dinner Sunday at the home of Mrs. Fred Ridder.

Mrs. Fred Ridder and Mr. and Mrs. Wayne Pavey were at Mason City on business, Monday.

Mr. and Mrs. John Chambers were dinner guests Sunday at the home of Mr. and Mrs. Lester Buseman.

Wes Lenz returned home last week from the Mercy hospital and is recuperating from a major operation.

Mr. and Mrs. Lloyd Paris, of Armstrong, came Saturday and visited until Sunday afternoon at the A. L. Kingery home.

Mr. and Mrs. A. L. Kingery expect to leave for California as soon as school is out here They intend to spend the summer in the west

Mr. and Mrs. C. A. Larsen and children, Eunice and Junior, visited Sunday at the Glen Bryan home at Dows.

Robert Risser, of, Des Moines visited over night, Thursday with his father-in-law and mother-in-law, Mr. and Mrs. Pete Wilson

Mr. and Mrs. C. A. Larsen, Mrs. R W. Elden and Mrs. Ben Katter drove to Vernon Center, Minn., Saturday morning to attend the funeral of Henry Yahnke.

Mr. and Mrs. Henry Lewis served supper to around a hundred people Friday evening, who were here to attend the last rites of Mr. Henry Yahnke.

Glenn Stokesbary, who has been working in the Times plant for the past five weeks, left Monday for Forest City where he has a job at the Summit office.

Mr. and Mrs. P. M. Wilson drove to Vinton, Sunday. That city was their home before they came to Klemme several years ago. They still own a house in Vinton.

Billy Zabilka began work at the Klemme Food Market, Saturday. As soon as school is out Bill will be a regular fixture at the store where he will assist with the work during the summer vacation

Loren Johnson, linotype operator on the Forest City Summit visited with Glenn Stokesbary Friday evening. Both young men are graduates of the School for Deaf at Council Bluffs.

A number of relatives in this vicinity of Henry Yahnke, drove to Vernon Center, Minn, Saturday to attend his funeral. Interment was in the Klemme cemetry and a short service was held at the grave.

Mr. and Mrs. Harold Brown and son, Bobby, and Emily Lou Johnson, of Oskaloosa, came Friday evening and visited until Sunday afternoon at the home of Mrs. Henry Medaus.

The Times is glad to report that Leo Brinkman is now well on the road to recovery from his recent operations. Leo is able to be up and around each day and is feeling fine. We will welcome him back on the Times staff.

Wayne Buseman, of Fort Des Moines, spent Sunday visiting in Klemme with his parents, Mr. and Mrs. Geo. Buseman. Wayne says he expects to be transferred to an army camp near Rollo, Mo., the latter part of this week.

Roy McMillin, county treasurer, was a business caller in Klemme Friday morning. Roy was looking after food stamps for the county and called on local food stores. Roy expects to make the rounds of the county once a month to take care of the food stamps.

Alfred Lau returner to the Great Lakes naval training station this week after spending his furlough friends and relatives in Garner and Klemme. Mr. Lau will be stationed at Great Lakes for four months and will be employed in the radio department of the navy.

Mr. and Mrs. Ben Mullin; Mr. and Mrs. Awalt Yahnke and Leonard, drove to Eldora Sunday to the state park where they met Armour Mullin and family from Cedar Rapids, Orrie Mullin of Hardy, Ivan Mullin and family of Hardy, V Mullin and family of Wesley, and all enjoyed a picnic together.

Klemme friends will be interested to learn that Mr. and Mrs. Tod Berlin have moved from Washington, D. C to New York City, as Mr Berlin has been promoted to a higher office in the government Internal Revenue department. Before her marriage Mrs. Berlin was Miss Eunice Baund, and is a neice of Mrs. George Lawhorn.

SHOWER OF GIFTS FOR MRS. LLOYD LAU

A number of ladies were entertained at a shower at the Buntenbach home Friday afternoon given in honor of Mrs. Lloyd Lau. Mrs. Sumner Trumbull, Mrs. John Etchen and Mrs. E. C. Buntenbach were the hostesses.

The ladies were entertained with a variety of games and stunts and a nice lunch was served.

Mrs. Lau received many useful gifts.

FORMER KLEMME GIRL WEDS CLEAR LAKE YOUNG MAN

Sunday afternoon at 3 00 o'clock an informal wedding took place at the Zion Lutheran Church in Clear Lake, when the Rev R K Mostrom united Miss Alma Nelsen and Mr Lloyd Jasperson in marriage

The bride wore a rose dress and carried an arm bouquet of white carnations. She was attended by her cousin, Miss Ardella Nelson of Klemme, who wore a nymph-wood green dress and carried a bouquet of pink carnations

The groom wore a dark green suit and was attended by his brother, Erwin Jasperson, who also wore a dark green suit Both the groom and best man wore white carnation boutonniers

Before the ceremony, Harold Jasperson, a brother of the groom sang, "Believe Me If All Those Endearing Young Charms," and after the ceremony he sang, "Abide In Grace" He was accompanied by his sister, Miss Alfa Jasperson, who also played Lohengrinn's "Wedding March"

Following the ceremony a two-course buffet luncheon was served at the home of the bride's parents for the immediate families A beautifully decorated wedding cake served as the center-piece, and was cut by the bride

Mrs. Jasperson is the only child of Mr. and Mrs Andrew Nelson of Clear Lake, and received her education at a rural school near Clear Lake, and later graduated from the Clear Lake high school in 1940

The groom is the eldest son of Mr and Mrs Chris Jasperson, of Clear Lake, and attended the Latimer school Since then he has been occupied in farming

After a short trip to Atlantic Iowa, the young couple will be at home on the Andrew Nelson farm near Clear Lake, where they will continue to farm

The Andrew Nelson family formerly lived on a farm near Klemme.

ATTEMPTER ROBBERY AT FARMERS ELEVATOR

Thieves entered the office of the Klemme Cooperative Grain Company here some time Friday night and attempted to rob the safe The robbers broke the handle off of the safe door in an attempt to work the combination, but failed Nothing else was disturbed

Robberies were reported at Ventura where two places were entered the same night and a small amount of cash taken

An expert from Fort Dodge was brought here to open the safe and make repairs

Hawkeye Press Held Monthly Meeting In Klemme

NORTH IOWA PUBLISHERS ENTERTAINED IN KLEMME

Next Meeting Will Be Held At The State Park, Clear Lake

North Iowa weekly publishers and their wives held their monthly meeting in Klemme last Thursday evening when Mr. and Mrs R A Jorgenson entertained the Hawkeye Press Club A wall-eye pike dinner was served by the W S C S to thirty-three in the dining room of the Methodist Church.

Musical numbers were given during the three-course dinner with accordion selections by Ernie Gerardi, clarinet solos by Billy Zabilka, accompanied by Mrs Gerardi, and marimbaphone solos bby Miss Irene Becker state contest winner

HAWKEYE PRESS MEETING (Continued On Last Page)

KLEMME BUSINESS PLACES REMODEL OR IMPROVE

A remodeling and fixing up blitzkrieg has struck several Klemme business places

An extensive remodeling program is under way at the Wellemeyer Building Three projects have been planned and started An apartment will be built in the northwest corner on the second floor, funeral parlors and laboratoy will also be in new quarters on the second floor, and a large used furniture department will be located in the basement. To complete all of these projects will require the greater part of the summer, according to Mr. Wellemeyer

More New Fixtures

At the Quandt Cafe, Mr. Quandt has just installed another group of four modern booths which will increase the seating capacity by sixteen. Mr. Qaundt now has seating room for thirty-six people in the booths and a dozen more at the counter, making forty-eight seats without using chairs.

Enlarging Cafe Room

At the Speer Cafe, the main room will be nearly doubled in size by the removal of a partition Living quarters were formerly located in the rear of the cafe, but these are being abandoned to make more room in the cafe.

The Times office and the printing plant were recently re-decorated and a few minor changes made in the shop.

HELLO, FOLKS!

Mr and Mrs. Reuben Lemke are the proud parents of a baby girl born to them on last wednesday evening, May 21st. They now have a nice family of three children: one boy and two girls.

Two-Day Celebration Is Free For Everyone!

FEBRUARY MARRIAGE KEPT SECRET UNTIL THIS WEEK

Miss Frances Tanner Was Bride Of Waterloo Young Man, Febr. 1

The marriage of Miss Frances L Tanner, of Klemme, and James L Braniff, of Waterloo, was kept a secret until announcements were mailed out this week

Mrs. Braniff who is the second youngest daughter of Mrs Rosa M. Tanner, who resides at her farm southwest of Klemme, is a graduate of the Mason City high school She attended the Klemme high school the first three years. During the past year she attended a beauty college at Waterloo.

Mr. Braniff is a shoe saleman at Waterloo and will leave this week for Chicago where he has a like position. Mrs Braniff is visiting at home this week until her husband gets located.

Mr. Braniff visited in the community last week from Wednesday until Saturday.

The marriage took place at Cedar Rapids, Iowa, on Saturday, February 1st, 1941

ATTENDANCE RECORDS AND AWARDS ANNOUNCED

With the closing of the school year, it was revealed that a number of students in both the grades and high school had perfect attendance records for the past year, while a few others had perfect attendance for longer periods of time

Awarded Certificate

A record of which to be proud, very few students ever equal was that established by Ruth Stille. Ruth was awarded a certificate for a perfect attendance record of being on time nd present each day of school for twelve years.

Others who hold records for being neither absent nor tardy were:

Kindergarten, Sharon Bridges.
Grade 2, Richard Tiggerman.
Grade 4, Phyllis Kirkwood.
Grade 5, Helen Suckow, Esther Tiggerman (2 years)
Grade 6, Elizabeth Goll.
Grade 7, Robert Tiggerman
Grade 8, Patricia Kudje (2 yrs.)
Grade 9, La Vohn Schlawin.
Grade 10, Eugene Haberkamp, Jesse Schwichtenberg (2 years,) Arlene Wille (2 years.)
Grade 11, Melvin Coobs (2 yrs.,) Bruce Arnold (2 years,) Billy Zabilka (5 years.)
Grade 12, John Schwichtenberg (4 years,) Jacqueline Kudje, Ruth Stille (12 years)

SCHOLARSHIPS AWARDED TO SEVERAL IN SENIOR CLASS

Several colleges awarded scholships to graduates of the Klemme high school this year, and which were presented by Supt. Galbreth at the commencement exercises

Waldorf College $75 00 applicable on tuition of first two years Keith Stille, (highest boy,) and Jacqueline Kudje, (highest girl)

Britt Junior College: 40 per cent of tuition for two years, 50 per cent if B average: Allen Bard and Marjorie Lemke.

Luther College: 1-2 tuition of freshman year ($75.00,) highest boy and girl: Keith Stille and Jacqueline Kudje.

Upper Iowa: Scholarship, Leadership, Character, Activities, $125, with $50 available during freshman year, one person: Irene Becker.

Iowa School of Beauty Cultore. $40 toward $175.00 course in Cosmetology, one girl, Shirley Johnson.

Medals were awarded to Jacqueline Kudje, Valedictorian, and Marjorie Lemke, Salutatorian.

MAMMOTH CIRCUS AND NIGHT SHOW COMING TO KLEMME

Jay Gould's Circus One Of Largest Shows On The Road

Jay Gould's Million Dollar Circus, coming to Klemme for two days and nights, Monday and Tuesday, June 2and 3, offers what is unquestionably the mightiest, the most sensational and most entrancing circus performance ever presented to the American public.

In this age of super-sensations, nothing is too difficult or too dangerous for Gould's performers to attempt.

The Gould company is composed of one hundred and fifty people, and fifty trucks and buses are required to transport the show.

Feature Attractions

Everything is free to the public and among the free attractions are world famous acts, including Terrell Jacobs' fighting lions and tigers. This superb act was formerly featured with Ringling Bros.

A gorgeous, coloful panorama of dazzling beauty, prancing ponies, canines, ridiculous clowns, daring aerial artists, dainty dancers, adroit jugglers and a hundred other stars fom all corners of the world, and it's all free through the courtesy of the business men of Klemme who are staging this show in appreciation of your patronage and good will

Two Perfomances Daily

There will be two shows daily, 2 00 p m. and 8 00 p. m.

A spectacular revue will be the night feature both evenings The revue is a tuneful and colorful feature, "Latin-American" Revue is presented in a fast moving, eye-thrilling panorama of beauty and color on a specially constructed stage featuring a complete deluxe theatre lighting system.

Three Solid Blocks Of High Class Shows

The Gould shows, rides and entainment attractions cover three solid blocks Every foot of it is a clean show and there is no gambling, graft or immoral shows of any kind. Good clean fun for the kiddies as well as the grown-ups.

Free Street Parade 2nd Day

On Tuesday, June 3rd at 1:00 p. m. Jay Gould's Outdoor Circus is presenting a special added feature, a regular old time circus parade, complete with a clown band, tableau wagons, banners, animals and calliope The mammoth parade in all its glittering pagentry, will be presented free of charge and one time only, at 1:00 p. m. on Tuesday, June 3rd. Be present for this big special feature.

Any local organizations, clubs, farmers' groups or clubs, or anyone interested, may take part in the big parade

Big Dance Every Night

Those who like to dance can visit the popular Hollywood Night Club for an evening of real fun. Music by the Kings of Music, sensational sweet and swing band. A special night club gala floor show both nights. Advance sale of tickets are now being sold by the dozens and may be procured from any Klemme business man. The price is only forty cents per couple if purchased in advance.

Plenty Of Seats For Show

This year Mr. Gould has added another feature in the way of providing one thousand comfortable seats that are placed directly in front of the mammoth open air stage, where one may watch the two-hour free show in real comfort.

Plan to come to Klemme for the two big days and nights, Monday and Tuesday, June 2 and 3. This will be your only opportunity to see this great show again in this part of the state this year.

Infantrymen Continue to Hold Vital Place In America's Modern Streamlined Army

By RALPH D. G. NEWMAN
(Released by Western Newspaper Union.)

NEW YORK. — Despite the current military vogue for Panzer columns, dive-bombers, and fifth-columnists, the heart and backbone of every modern army is still that man of many battles —the infantryman.

The fifth-column can demoralize, the dive-bomber can terrorize, the Panzer column can knock out, but only the infantry can hold on to dear mother earth.

Now it's a new kind of infantry—streamlined, modernized, motorized, flexible, and specialized; and what I saw in my recent 6,000-mile tour of U. S. army posts indicates that the stress on infantry cannot be minimized without injuring an army's force.

The old familiar pattern of infantry is simple: a closed column of troops shouldering rifles and marching behind the commander, with a few horse-drawn guns and supply wagons bringing up the rear. But today a mere list of units and specialists in a typical U S. infantry division would fill a newspaper column. A catalog of division equipment would fill another column. And that does not take into consideration that in actual combat the infantry co-ordinates with the air force, the armored force, and other specialized units.

Perfect co-ordination is the "secret" of our modernized army's tremendous striking power. Despite the rapid development of aviation and tanks, the infantryman is still the "backbone" of the army. Motorized, and armed with the Garand rifle, he is far more potent than ever before.

Three Combat Teams.

After studies and field tests, U. S. infantry officers ordained the new-type "triangular" division, divided into three combat teams. Each team consists of an infantry regiment supported by its own artillery, engineer, medical, ordnance, and communications units. The combat teams function independently or in concert.

At Fort Sam Houston, Texas, I witnessed alongside high officers of the army, a review of the famous Second division whose field work since 1937 provided the war department with data on which to base the pattern of a triangular division. Tanned and toughened by outdoor life, the division's 13,500 men and 560 officers marched and rode before Gen. John J. Pershing and Gen. H. J. Brees, commander of the Third army, with 1,300 trucks, 267 trailers, 175 motorcycles, 16 scout cars, besides 36 105-mm howitzers, 12 155-mm howitzers, eight anti-tank guns, and numerous mortars. The full division carried 7,199 .45-caliber pistols, 6,942 .30-caliber rifles, 375 Browning automatics, 35 submachine guns, 292 light and heavy machine guns, etc.

This fighting Second, which won more decorations than any other American division in World War I, is now the model for other triangular divisions.

2,600 Motor Vehicles.

But the U. S. infantry has already gone beyond the triangular division described above. At Fort Benning, Ga., Gen. Lloyd R. Fredendall commands the streamlined, motorized triangular Fourth division, which sets a new high for infantry fire-power and mobility. The Fourth "rolls on rubber," and in field maneuvers it covers 200 to 300 miles per day in 2,600 motor vehicles of all kinds, giving this fighting force the greatest speed, mobility, and fire-power of any infantry division in existence; and by virtue of this fact it is like the new First armored division, the model around which other divisions are being patterned.

Field tests show that a motorized infantry division arrives at a front-line position much fresher than troops who have marched for miles, and they can, therefore, hold tenaciously to gains made by the rapid-advancing armored forces.

In order to get a bird's-eye view of how a motorized division "rolls on rubber," I flew over a bit of terrain near Fort Benning in an army three-place observation plane piloted by Lieut. J. D. Motyl, of the Ninety-seventh observation squadron.

Sitting on a parachute, in the rear gunner's seat, and facing the plane rudder, with my back to the pilot, we flew over patches of Georgia's red earth and green forest to a point about 30 miles from Benning where Pilot Motyl called my attention to what seemed an endless column of trucks, motorcycles, reconnaissance cars, command cars, armored cars, and guns—all motorized, all rolling on rubber. This particular combat team of the Fourth division stretched for 50 miles along a sinuous highway; hence, in closed single column, a full division of motorized infantry would occupy about 150 miles of roadway. The average daily gasoline consumption for such a force on a 200-mile march is about 50,000 gallons.

The infantry also receives support from all types of aircraft, and if necessary, from the chemical warfare service.

Use Parachute Troops.

The newest addition to the U. S. infantry is a rapidly expanding parachute force of highly-trained and resourceful "blitzers" who can unlimber a machine gun or mortar in a trice and who can harrass an enemy behind the lines.

At Fort Sam Houston I watched the army's interesting experiments with air transports for rapid transit of guns and fully-equipped troops. In less than 10 minutes, a dozen men loaded a 37-mm anti-tank gun, weighing more than 900 pounds, and necessary ammunition.

In a matter of weeks, sufficient "blitz-buggies," compact but high-powered "bantam" cars, will be available for all infantry divisions. On four cylinders, these 2,000-pound four-man vehicles travel as fast as a mile per minute, if you can hold on. They climb steep slopes, leap ravines, and if they get mired, the soldiers can lift one end clear.

The standard weapons of a U. S infantry division give it the best potential fire-power in the world today. The Springfield rifle, which in past battles gave a good account of itself, is rapidly yielding to the superior Garand rifle whose fire-power surpasses that of any similar weapon in Europe today. Trained soldiers fire up to 35 rounds per minute as against 15 rounds with the Springfield.

Another U. S. infantry weapon, the Browning automatic rifle, fires up to 150 rounds per minute.

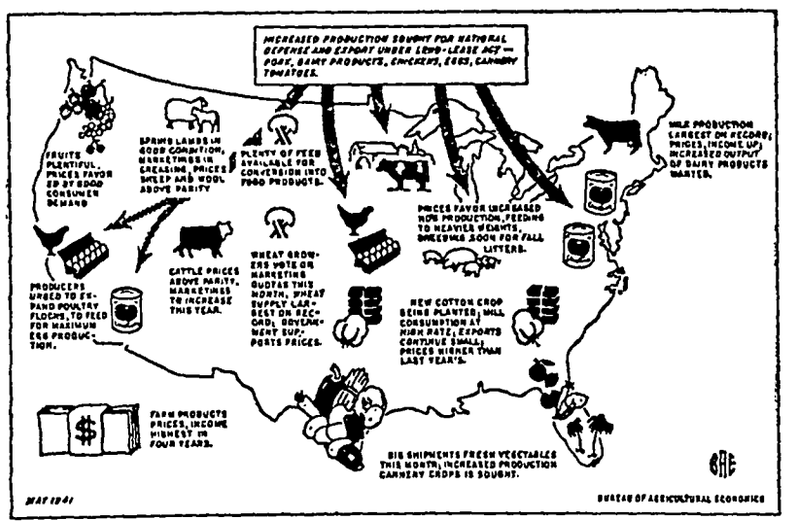
The 37-mm anti-tank gun fires a high explosive 1.5-pound shell at the rate of 25 rounds per minute.

The 81-mm mortar hurls an 11-pound shell up to 7,500 feet at a rate of 18 rounds per minute.

The Browning 30-caliber machine gun delivers up to 430 rounds per minute.

All in all, there are, besides the rifle and pistol, 11 different medium and small fire weapons in the U. S. infantryman's arsenal, and individually, or together, they give unsurpassed fire-power.

Farm Income Continues Rise



INCREASED PRODUCTION SOUGHT FOR NATIONAL DEFENSE AND EXPORT UNDER LEND-LEASE ACT — PORK, DAIRY PRODUCTS, CHICKENS, EGGS, CANNERY TOMATOES.
FRUITS PLENTIFUL, PRICES FAVORED BY GOOD CONSUMER DEMAND
SPRING LAMBS IN GOOD CONDITION, MARKETINGS INCREASING, PRICES SHELP AND WOOL ABOVE PARITY
PLENTY OF FEED AVAILABLE FOR CONVERSION INTO FOOD PRODUCTS.
MILK PRODUCTION LARGEST ON RECORD; PRICES, INCOME UP; INCREASED OUTPUT OF DAIRY PRODUCTS WANTED.
PRICES FAVOR INCREASED HOG PRODUCTION, FEEDING TO HEAVIER WEIGHTS, SHOWINGS SOON FOR FALL LITTERS.
PRODUCERS URGED TO EXPAND POULTRY FLOCKS, TO FEED FOR MAXIMUM EGG PRODUCTION.
CATTLE PRICES ABOVE PARITY. MARKETINGS TO INCREASE THIS YEAR.
WHEAT GROWERS VOTE ON MARKETING QUOTAS THIS MONTH. WHEAT SUPPLY LARGEST ON RECORD. GOVERNMENT SUPPORTS PRICES.
NEW COTTON CROP BEING PLANTED; MILL CONSUMPTION AT HIGH RATE; EXPORTS CONTINUE SMALL; PRICES HIGHER THAN LAST YEAR'S.
FARM PRODUCTS PRICES, INCOME HIGHEST IN FOUR YEARS.
BIG SHIPMENTS FRESH VEGETABLES THIS MONTH; INCREASED PRODUCTION CANNERY CROPS IS SOUGHT.
MAY 1941
BUREAU OF AGRICULTURAL ECONOMICS

The agricultural situation for the month of May is graphically revealed by the above map prepared by the bureau of agricultural economics, U. S. department of agriculture.

U. S. Scientists Develop Automatic Weather Stations

WASHINGTON.—Modern developments in the field of radio transmission have made it possible to devise an automatic weather station capable of unattended operation for periods up to one month—and possibly three months in the future—at isolated locations, such as mountains and islands, according to the U. S. department of commerce.

The aerological division of the bureau of aeronautics, navy department, pioneered in this field. To meet the requirements of the navy aerologists, the national bureau of standards, department of commerce, developed an ingenious but simple transmitting apparatus for use in such stations.

An automatic weather station may be equipped to make and transmit measurements of barometric pressure, ambient temperature and relative humidity, wind velocity and direction, rainfall, and probably other factors.

Ancient Disease Still Threatens Men, Livestock

CHICAGO. — The same disease which killed the cave man, and which prompted Moses to lay down the first known laws on meat inspection, is still a serious threat to both animals and man, and a cause of severe losses to livestock producers on American farms today.

This disease—anthrax—is one of the oldest germ-borne plagues in existence. The cave man contracted it from the skins of animals which he wore for clothing. It devastated livestock herds in the Holy Land more than 2,000 years ago. For centuries it has taken its toll of livestock, ranging from reindeer in Siberia to sheep and cattle in South Africa.

Live Many Years.

The germs of anthrax are very large compared to other bacteria. In the blood of animals and man they exist in the "vegetative" form —rod-shaped single germs with square ends. Outside the body or after death, the germs form long chains with a central spore. In this form, hardy anthrax bacteria live for years in contaminated soil.

Livestock generally contract the disease from infected soil, from sewage of tanneries, or from the bites of flies that have bitten anthrax-sick animals.

Man ordinarily becomes infected through skinning animals dead of the disease or from handling hides. Human anthrax usually shows up as a malignant carbuncle or huge black boil. The germs may migrate through the blood and lymph streams and produce systemic blood poisoning or "septicemia." Luckily, most cases can be saved if diagnosed early.

In America there are a number of severe anthrax "infection" areas, where farmers and veterinarians are making a valiant fight to overcome the disease and to protect livestock and man from its ravages. According to a survey by the American Foundation for Animal Health, these areas extend from the Mississippi delta country to the Dakotas, and from California to the Southeastern Atlantic states. Nor is the disease confined to these sections alone Like all serious plagues, it sometimes appears unexpectedly in areas far removed from its source.

Ask Me Another
A General Quiz

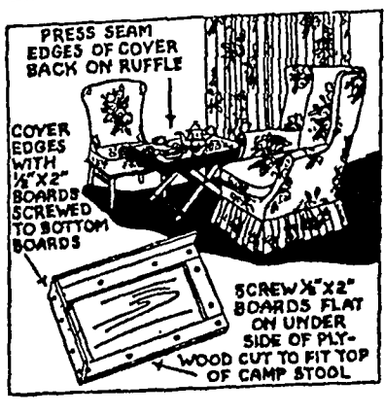
1. Are alligators the slow, creeping creatures they appear to be?
2. Are all national flags alike on both sides?
3. What lake, 12,500 feet above sea level, is the highest large body of navigable water in the world?
4. Are marriages in England restricted as to the time performed?
5. What is a tympanist?
6. What is the principal language of Brazil?

The Answers

1. No. They are real sprinters when they care to run. Their legs stretch out to 18 inches in length when in top speed
2. The national flags of Paraguay, Lithuania and Yemen, Arabia, are not alike on both sides.
3. Lake Titicaca (in Bolivia).
4. Marriages in England are legal only when performed between 8 a m. and 6 p. m. on week days.
5. A drummer
6. Portuguese. Italian and German are widely spoken in the southern states.

NEW IDEAS for Home-makers

By RUTH WYETH SPEARS



PRESS SEAM EDGES OF COVER BACK ON RUFFLE
COVER EDGES WITH ½"X2" BOARDS SCREWED TO BOTTOM BOARDS
SCREW ½"X2" BOARDS FLAT ON UNDER SIDE OF PLY-WOOD CUT TO FIT TOP OF CAMP STOOL

SO MANY clever slip cover tricks are being used now that it is possible to transform an entire house with a few yards of gay chintz. Old chairs of all types step right out and become the life of the party in smart new frocks. Even tables and lamp shades are slip-covered but the best trick is to make something out of next to nothing by slip-covering it. A smart coffee table from a camp stool for instance.

The lower sketch shows how to make a substantial removable top for the stool. The 2-inch boards which are screwed to all fo sides of the top fit down over t stool. Flowered chintz is used the top of the cover and a pla 3-inch glazed chintz frill is add repeating one of the tones in t flower pattern The seam allo ance around the cover may tacked to the removable top of t table and the whole thing m then be folded away in a sm space when not in use

* * *

NOTE. You will find directions for modeling and slip-covering many type chairs, as well as an out-moded couch Book 5 of the series of home-making be lets offered with these articles The Book 7 contains a number of ways to slip covers In it boxes become ottom and an old wicker chair is padded tufted. Each book contains more thirty useful home-making projects complete directions for making order to:

The Washington Merry-Go-Round

By DREW PEARSON & ROBERT ALLEN

Washington, D. C.

SHIP PREMIUMS TO JAPAN

It is hard to believe, but the government of the United States actually paying war risk insurance to Japanese for helping to insure U.S.S. America, pride of the U. S. merchant marine.

This is just part of the revelations of re-insurance which are breaking this week at the justice department. These probes also show that when a vessel is injured, Axis insurance companies get all the data regarding its cargo, time of departure, destination, and the interior plan of the ship.

Thus, despite all the censorship of Secretary of the Navy Knox, Germany has had an easy means of knowing all about every ship that leaves the United States.

This is accomplished when American insurance companies, because the heavy risk involved in insuring a cargo in wartime, reinsure with various foreign companies. In other words, they sell part of the policy abroad, thus distribute the risk. That is how Japan makes a big profit on insuring American ships, even vessels owned by the U. S. A.

Last year congress passed a law providing war risk insurance for American shipping, but the maritime commission, for reasons best known itself, has declined to take advantage of the law. Commission members state quite frankly that they wanted to throw the business to private insurance concerns—as long as private insurance was available.

* * *

$ATE FREEZING AXIS FUNDS

One of the most vigorous inner cabinet debates in a long time concerned the question of freezing Japan-Italian funds on deposit in the United States. In a heated discussion, Secretary of State Hull and Secretary of Commerce Jesse Jones were the only cabinet members who spoke out for letting the two Axis powers continue to spend money as they wished in this country.

Many people may not realize it, whereas the government has frozen the funds of all the conquered countries – France, Norway, Denmark, Belgium, Holland, Greece, etc. It continues to permit the conquered nations to use their money in the U. S. A. in any manner they please.

For instance, Germany gets more than a million dollars monthly from the lease of patents to American companies. This is paid in American dollars and can be spent for anti-American propaganda or anything else, or shipped back to Germany. Italian diplomatic attaches, for instance, were found carrying $2,000 in U. S. currency in a case from New Orleans to Mexico for propaganda purposes. Another $2,000,000 of U. S. currency was shipped to Buenos Aires by the German embassy.

Meanwhile, France, for example, Schiaparelli sells perfume, etc., to the United States, but sells to Germany, which in turn ships the perfume through Vladivostok to the United States. Reason is that French funds are frozen, so the French can get no money from the U. S. A. But German funds are not frozen, so French trade to the United States now increases Nazi funds and helps build up trade credits for the future.

* * *

STREAMLINED FOODS

Because of the acute shipping shortage, food items for shipment abroad are being selected for high protein and calorie content, also for minimum bulk and weight.

In general, preference will be given concentrated and dried foods, rather than bulky canned goods or fruits, which contain a considerable amount of water. Tomatoes are an exception because the juice they are packed in is high in vitamins.

One item urgently desired by the army is dehydrated vegetable soup, 12 tons of which will make 72 bowls.

Action is under consideration to export some of this concentrated soup in the big bombers being ferried across the Atlantic, which can easily carry a 12-ton load.

The $400,000,000 that has been allocated for the food-aid program will be used to buy 15,000,000 cases of canned tomatoes, 20,000,000 cases of evaporated milk, 50,000,000 pounds of dried beans, 250,000,000 pounds of cheese, 100 million pounds of Wilshire bacon and ham, millions of powdered eggs, and thousands of tons of dehydrated vegetable soup, dried raisins and prunes.

Gigantic in itself, the program is only about 3 per cent of the U. S. food bill, which in 1940 totaled $13,000,000,000.

* * *

MERRY-GO-ROUND

Nelson Rockefeller committee on cultural relations with South America wasn't at all keen about sending Douglas Fairbanks good-will pilgrimage. They resented Franklin Roosevelt Jr., close friend of Fairbanks, putting this one over with Rockefeller while they weren't looking.

Mayor LaGuardia declined with thanks FDR's request that he head the new Civil Defense Commission, indicating to the Boss that he wanted a cabinet job or nothing.

Star Dust

STAGE—SCREEN—RADIO

By VIRGINIA VALE

(Released by Western Newspaper Union.)

ROBERT TAYLOR has very rarely visited his wife, Barbara Stanwyck, on a motion picture set, but he broke the rule when she was working in "The Great Man's Lady" (originally titled "Pioneer Woman") and watched her working with Brian Donlevy.

A few days before, Donlevy had been shooting Taylor for the final scenes in "Billy the Kid." Now that "Billy the Kid" is finished a quandary has arisen. In the Metro script Billy was left-handed, so Taylor practiced for several months drawing his gun from the holster with his left hand. Then came word from William S. Hart and Col. Archer Adams, both familiar with the desperado's character, that he used his right hand. Looks as if the argument never would be settled.

—*—

Anne Shirley, who appeared in her first picture when she was three, has a word of advice for mothers who want their children to become movie actors. She's been working with a series of youngsters in "West Point Widow"—five of them, in all, because the babies behaved so badly that substitutes had to be used. Miss Shirley thinks it's a great mistake to have a child learn to do imitations and tap dancing and all that sort of thing; an attractive, intelligent child with acting ability needs to do just one thing, says she—obey the director.

Anne Shirley

—*—

Walter Abel had visitors on his set a while ago who rattled him completely. He was doing a scene with Paulette Goddard for Paramount's "Hold Back the Dawn," in a Mexican border town set. The Abel sons, aged 11 and 9, respectively, had been studying about Mexico in school, and wanted to see the set; it interested them more than this first sight of their father at work. Abel finally had to ask Director Mitchell Leisen to shoot the scene again, on a closed set this time; his sons made him nervous!

Walter Abel

—*—

Joel McCrea took a short trip when he finished his work in the Stanwyck picture; went to New Mexico to see some men about some cows. He has enlarged his Ventura county ranch from 1,000 to 1,500 acres, and all that extra grazing space has to have customers.

—*—

Constance Moore, feminine lead in "I Wanted Wings," now is determined to earn wings of her own. All that flying in the picture made her yearn to do it too—and she ought to be able to manage it easily, for her husband, Johnny Maschio, is a licensed pilot. Her close friends, Margaret Sullavan and Olivia de Haviland, are urging her on; they both fly, and love it. Constance threatens to take to the air any day now.

—*—

Columbia has finally signed all the players who will be seen in the new series of pictures based on the "Tillie the Toiler" comic strip. Kay Harris, one of Hollywood's Cinderella girls, gets the lead; others in the cast are Daphne Pollard, William Tracy, George Watts, Jack Arnold and Benny Bartlett.

—*—

The release by RKO of Walt Disney's "The Reluctant Dragon" marks Disney's entrance into a brand new field; the picture combines both "live-action" photography and animated pictures. The locale is the Disney studio, and Robert Benchley is the star.

—*—

Maureen O'Sullivan paused in New York with her baby son, on the way from a visit with her husband—he's stationed in Bermuda—back to Hollywood. Metro will co-star her in a new Tarzan picture with Johnny Weismuller — the first Tarzan in nearly three years.

—*—

The Court of Missing Heirs has located 71 heirs in 69 weeks of broadcasting—and the value of the estates returned to the rightful heirs amounts to $413,375.

—*—

ODDS AND ENDS—Ray Collins, who's played 900 roles in the theater and on the radio, makes his film debut in "Citizen Kane" . . . Harold Lloyd plans to be his own star in the next picture that he produces . . . The war department is building 36 movie houses in the nation's draft camps . . . Warners have signed Eric Severeid, ace war correspondent and radio reporter, to do background commentating in "Underground," a film about a secret revolutionary movement in Germany . . . Priscilla Lane has the lead in "Hot Nocturne," a story of swing bandsters . . . Shirley Temple's out of the Wallace Beery picture, "Lazybones"; Virginia Weidler's in.

BREAD TRICKS APLENTY!
(See Recipes Below)

'BREAD 'N' BUTTER'

Those new loaves of white bread featured on grocery store counters and in bakeries everywhere these days look just like the loaves of white bread you have been buying for years. But they're different—they've been "vitamineralized."

"How?" you ask Through the use of enriched flour—a wheat flour which contains added vitamins and minerals.

It was the Bureau of Home Economics of the United States department of agriculture which suggested, when flour standards here were under discussion, that fortified flour should contain a specified amount of vitamin B1 and of iron, and that nicotinic acid, riboflavin and calcium should be added.

Because American dietaries lack chiefly B-vitamins and iron, the accent was placed here. The law is that each pound of Enriched Flour must contain at least 1.66 milligrams of thiamin (B1); 6.15 milligrams of nicotinic acid (pellagra-preventing vitamin); and 6.15 milligrams of iron.

So, now in addition to being the most versatile and economical energy-yielding food, bread also provides, in economical form, additional nutrients essential to health.

And, since bread is the one food that probably appears more often than any other on the family menu, I'm going to give you a variety of new and interesting uses for this "health food."

A good sharp knife, a loaf of good baker's bread and your imagination will do wonders in developing, in your own kitchen, delicious creations that make your menus full of new life and interest.

Bread Buttercups.

Remove the crusts from a loaf of uncut bread. Cut lengthwise slices from the loaf. Trim the slices so that they are about 1½ inches wide and the ends pointed. Brush with an egg and milk mixture and arrange in baking cups. It is best to brush the tips with a little melted butter so that they will brown more readily. Bake the bread buttercups in a moderate oven until they are delicately browned.

Pinwheel Sandwiches.

Trim the crusts from a whole loaf of uncut bread; cut in lengthwise slices. Spread the slices with any desired spread of a creamy consistency. Roll the bread firmly the narrow way. Small stuffed olives, nut meats or hard cooked eggs make an attractive center for the roll. The rolls should be tightly wrapped in waxed paper and chilled in the refrigerator before slicing.

Croustades.

Trim crusts from two or three slices of bread, making even-size squares. Remove the centers from all but one slice. Dip in melted butter, and put together to form square cases for creamed food.

Bread Patty Cases.

Cut three rounds of sliced bread. Cut holes in two of them and place on the first slice Brush with a mixture of egg and milk (1 egg slightly beaten plus ⅓ cup of milk) and bake in a moderate oven until brown.

Checkerboard Sandwiches.

Remove the crusts and spread the slices with soft butter, and any sandwich spread of paste consistency. Then, alternating the slices, make two stacks of three slices each—one with a whole wheat slice between two white slices and the other with a white slice between two whole wheat slices. Next, cut the two stacks into half-inch slices. Spread with soft butter and another flavor spread, and alternate them again, making stacks of three-layer slices each. Press the stacks together, wrap each in wax paper and place in icebox to harden the butter. When ready to serve, cut crosswise into thin slices to give the checkerboard effect.

Ribbon Sandwiches.

Remove the crusts from four slices of bread, two white and two whole wheat. Put them together with different fillings, wrap in waxed paper and chill. Cut down through the four layers in thin slices to form a ribbon sandwich.

Try these tricks very soon, won't you?

You'll receive no end of compliments on your ability to prepare these tasty and attractive "bread delights." They are all pictured at the top of the column.

* * *

If you're weary of serving the usual type of sandwiches when you entertain, here are "fillers" that will bring such phrases as "May I have your recipe?" from fascinated guests.

Egg Filling.

4 hard cooked eggs
⅓ cup chopped cooked bacon or
⅓ cup stuffed olives
Few drops Worcestershire sauce
Cream or salad dressing

Chop eggs, add bacon and Worcestershire sauce. Add enough cream or dressing to give a spreading consistency.

Ripe Olive Filling.

Use one cup ripe olives, minced; one cup finely diced celery; ½ cup minced nut meats, and salad dressing to taste. Combine olives, celery and nutmeats and moisten with dressing, then spread on bread.

Sandwich Loaf.

Trim crusts from a sandwich loaf of bread and cut in four lengthwise slices. Spread each slice with softened butter. For the three different fillings necessary, use any good combinations of flavor and color, such as minced ham and pickle, a yellow cheese mixed with finely-chopped green pepper, chives, parsley or watercress, and chopped tomatoes and cucumbers, or a tuna or salmon mixture. Each of these fillings should be mixed with mayonnaise or softened butter so that it spreads easily. The loaf may be made several hours ahead of time if wrapped in waxed paper and kept in a cool place. Prior to serving, it is iced on top, sides and ends with cream cheese softened to spreading consistency with water, milk or mayonnaise. Garnish with slices of stuffed olive, sprigs of parsley or endive. For serving, cut in thick slices. This loaf will serve 10 to 12 persons.

(Released by Western Newspaper Union.)

It's Picnic Time

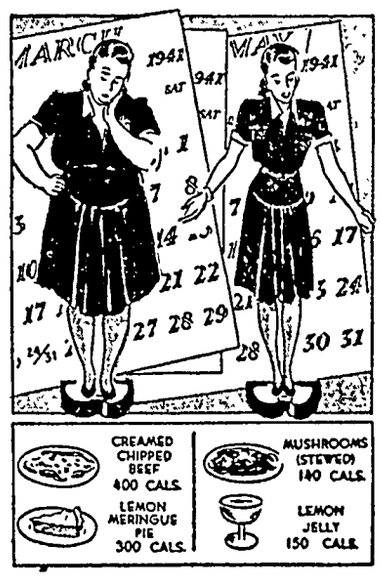
Has winter made you forget the wonderful, carefree afternoons spent along sparkling streams or in sunny meadows, munching hot dogs, dipping into baked beans and ice cream? It's time to plan Sunday excursions and be lazy by eating off paper plates, with paper forks. And next week Lynn Chambers will delve into picnic atmosphere. Watch for her recipes of good things to eat out-of-doors!

LYNN SAYS:

Do your menus meet nutritive requirements, and appetite appeal, too? Careful, now. Here are 10 points on which to check your meals for appetite appeal:

1. Avoid repeating the same food in one meal.
2. Avoid serving more than one strongly flavored or highly seasoned food in a meal.
3. Avoid using too much of one type of food in a meal—such as spaghetti as a main dish and rice pudding for dessert.
4. Use as much texture contrast as possible—have some soft, some solid, and some crisp food in each meal.
5. Get flavor balance in your menus by serving some sweet, some bland, and some acid foods each meal.
6. Serve some hot and some cold foods each meal.
7. Serve foods whose colors look well together and avoid serving colorless foods in one meal.
8. Try to get contrast in size and shape in the foods served.
9. Serve leftovers in a new form.
10. Avoid serving the same food combinations too often. Serve some other tart fruit with your pork, instead of the stand-by applesauce.

New Way to a Youthful Figure



A TRUE slimming story! And a really happy ending, too, when a stout woman diets the calory way.

By limiting food calories to around 1,200 a day, she not only loses—as much as 24 pounds in three months—but feels radiantly younger. And the lovely part is that while reducing you eat as much as ever!

* * *

Have a graceful, girlish new figure—soon! Our 32-page booklet gives 42 tasty low-calory menus, a newly enlarged calory chart. Also tells how to gain. For a copy, send your order to:

KLEMME TEACHER HONORED AT SHOWER BY MRS. GIBBS

Mrs Harry Gibbs entertained the mothers of the third and fourth grade pupils of the Klemme schools at her farm home southeast of Klemme last Wednesday evening, at a miscellaneous shower in honor of their teacher Miss Claudia Michalek

Games and stunts furnished the entertainment for the evening and gifts were presented to Miss Michalek by Isabelle Gibbs who was attired in white crepe paper and carried a white crepe paper umbrella decorated with garden flowers

The bride-elect received a variety of beautiful and useful gifts

The hostess served a two-course lunch and a pink and white color scheme was carried out

COOP. GRAIN COMPANY HELD ANNUAL MEETING

The annual meeting of the Klemme Cooperative Grain Co. was held at the Community Hall Friday evening with about fifty members present

Carl Wille was re-elected director, and Emil Lau was named to succeed Geo Schoenwetter

L Z Taylor auditor was the speaker for the evening and also presented the annual report

The Board re-elected Wm Greiman president, Henry Banz vice-president, and Lester Stille, secretary-treasurer

C C Kilgore is the manager of the local organization

DRAFT BIARD CALLS THREE MEN FIR JUNE 3 QUOTA

The Hancock County draft board have selected three men to report at Britt at 10 30 a m on June 3, to b sent to Fort Des Moines

The men named for this quota are Donald O. Turgasen, Klemme, a volunteer, Paul B Zurbriggen of Kanawha, and Eldon J Waldschmit of Wesley.

Christapher Lauen, of Meservey was named the replacement

One man will be called for June 16 but has not yet been selected

All members of the Hancock County Local Board attended the Selective Service meeting which was held at the Algona Country Club, Sunday Gen Grahl, State Director of Selective Service, and members of his staff were present and answered questions and discussed classification and other problems of the Selective Service Boards.

Moved To Minnesota

Dan Kaduce and family moved to Pipestone, Minn., Sunday. Mr Kaduce has a position as foreman on the Rock Island railroad there The family lived in Klemme for a few years, coming here from Goodell

4-H BAKE SALE

The 4-H Girls Club of Avery Township will hold a Bake Sale at the lot adjacent to the Wellemeyer Building on Saturday evening beginning at 8 00 o'clock. There will be a variety of delicious foods on sale.

Leak

The steel flag pole at the Sheldon city park settled into the ground to such an extent that it caused caulking in a ten inch water main pipe to loosen and spring a leak

Flowers

A lei of fresh carnations was the Mother's day gift of Mrs. F E Frisbee, Sheldon, from her daughter, Margaretta, instructor in the University of Honolulu. It required only three days for the flowers to arrive from Honolulu

Pickpockets!

Pickpockets made good use of their time when several persons were "relieved" of their money at a class play at Monona recently One person lost $70, another $30, with several other small losses reported

Unexpected Treat

The K C Starbuck family of Grinnell enjoyed a chicken dinner one day last week, but do not know whom to thank The chicken wandered into the work shop at the Grinnell high school where Mr. Starbuck is an instructor. After searching several days without finding the owner, they decided to have a feast

Fast Work

Carol McCain, 13 year old 7th grade pupil of a rural school near Grinnell, decided to make quick work of the eighth grade, and with the aid of his mother studied for examinations for both grades this year When the results were disclosed, he found that he had passed in both grades.

Mystery Solved

Mrs. Aaron Stuessy of LuVerne reported to the Algona police that her car had been stolen from in front of a store It was found a couple of hours later In the meantime, Mr. Stuessy had told a filling station operator to get it and have it greased and oiled.

Prize Winner

Happy, wouldn't begin to express the feelings of Mr and Mrs Sam Sloss and Mr. and Mrs Chas Palm, Guthrie Center, when they learned that their grand daughter had been judged the second healthiest and most beautiful baby in California The winner was the 8-months old Karen Ginger Sloss

Picnic

A rather unusual picnic is scheduled for Saturday, June 14th, when Iowa winter tourists who spent last winter in the Rio Grande Valley of Texas meet at Ledges Park, near Boone, for a day's renewal of acquaintance and a program of patriotic sentiment for Old Iowa and the U S A.

THE PAPERS OF PRIVATE PURKEY

Dear Mom:

What I can't understand about the army is that know matter what I say is the matter with me the doctor gives me the same pill. At first I thought it was just a mistake but now I no different becuz yesterday when I complained of an ulserated tooth I got the same pill I been getting for headaches, cramps, soar throte and a sty. I wish you would send me some pills of any kind. It don't matter what they are so long as they are different from the one I get here and I am inclosing one so you won't duplercate it.

* * *

I don't think the draft army takes sickness serious and in a way I can't blaim it becuz men have been showing up for sick call by the hundreds on account of there are so many beautiful nurses in the camp hospital and it is the only way to get near them. All these guys get is another pill so I gess to get into a army hospital you have to have at lease a broken leg but I think they would first try a pill on me for that two.

* * *

We have had some nice warm days witch is a grate relief becuz ever since I was drafted I feel like I have been in the Klondike and I never knew it wuz so cold outdoors in winter befoar. But the ground is thawing out and so is the drill sergeant and everybody is happier than at any time since our numbers came out in that glass bowl. We see robins most every day now and we have let the fire go out in the stoves which we get in the modern draft camp and some of us are even taking our uniforms and shoes off when we go to bed.

* * *

I hoap the war is over before next winter as I am strickly a warm weather fighter I am afraide. If there is ever a expedishunery foarce this war covers so mutch territory that it has all climates and I hope my division gets sent to Africa and not to no place where there is snow and ice. The more I think of the past winter here in camp the more I appresheiate what G. Washington went thru at Valley Foarge. We didn't cross no river in no open boat with a horse in the middle to interfear with the rowing but that was about the only difference I gess but do not think I am squawking mom.

* * *

We have lots of visiters now and I wish you would come up next Sunday. Nellie Armstead wuz up last Sunday and Kitty O'Neil wuz up Saturday and I had a close call as they both mite have come on the same day. The caferterria for visitors is wonderful just like those nickle-in-the-slot places and while the food may not be no better than in the army it is fancier looking and the cooks take more panes with it. Eating don't interest me so mutch no more mom on account of I have been doing kitchen work so mutch I can't think of eats without thinking of washing dishes or pealing potatus. I got to peal potatus agin tomorrow witch I don't understand becuz their must be plenty of other soldiers who are as good at it as me but I keep getting picked on and the mess sergeant says it is part of my vocashunal training.

* * *

It is funny the garage ain't found no customer for my jallopy as it is in good shape and had only been driven 200,000 miles and I told the man that I would knock $4 off my asking price of $45 on account of three tires don't hold air long and the right handed doar is off. I wish you wud call him up and ask him to get $30 for it as I need money and there is anuther delay in the army pay.

Your loving son,
Oscar.

P. S.—I wrote Olive Johnson but didn't get no answer so I wish you wud see if she has moved away or what. Do not worry about me as I am all right except for two crushed toes where a Army saucer fell on my foot.

* * *

White uniforms have been abandoned for sailors in the U. S. navy when working on ship, and khaki substituted. The yachting influence has just about disappeared everywhere.

* * *

NEVER BELIEVE 'EM WHEN THEY SAY:

Supply Sergeant.—Just your size, buddy.

Buck Private.—I've got a date with a swell dame tonight.

Old-Timer.—I'll never enlist again if I get out of this.

Top Sergeant.—The quicker you finish this detail the sooner you'll be able to rest.

Mess Sergeant.—You're getting what the menu calls for.

—A. B. Watac
Camp Shelby.

IMPROVED UNIFORM INTERNATIONAL

SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Dean of The Moody Bible Institute of Chicago.
(Released by Western Newspaper Union.)

Lesson for June 1

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

BROADENING CHRISTIAN HORIZONS: THE ANTIOCH MOVEMENT

LESSON TEXT—Acts 11:19-30.

GOLDEN TEXT—For I am not ashamed of the gospel of Christ: for it is the power of God unto salvation to everyone that believeth; to the Jew first, and also to the Greek.—Romans 1 16.

Scattered abroad! As the flying sparks and embers from a fire which is wildly beaten will light many new fires, just so persecution of the early Christians sent them abroad and established new centers for the preaching of the gospel. Verse 19 of our lesson connects with Acts 8:4. The ministry of Philip in Samaria was paralleled by that of others in Phenice, Cyprus, and now in Antioch. That great city was not far from Jerusalem, but it was far from God A mighty city, rich in trade, it was also deep in all kinds of sin; but there it pleased God to establish a great center of Christian testimony. God loves to do new things (see, for example, II Cor. 5:17; Isa. 43:19; Ps. 33:3; Rev. 21:5).

I. A New Church (vv. 19-21).

What a splendid church it was! Here in the midst of the most evil surroundings the sweet flower of Christian faith grew, as it so often does.

It was a church built upon a faithful testimony by God's chosen witnesses "preaching the Lord Jesus" (v. 20). Their names are not noted, but their message is, and its blessed results. It was a gathering place for all people—Jews and Gentiles. The disciples from Jerusalem preached at first only to the Jews, but God sent others (v. 20), who preached His grace to the Gentiles.

Note also that the Antioch church was a living witness. "The hand of the Lord was with them"—little wonder then that "a great number believed and were turned to the Lord." Your church—and mine—might learn much by studying the church at Antioch.

II. A New Fellowship (vv. 22-26).

The genius of Christianity is fellowship. Those who have a religious belief which makes them exclusive—not willing to fellowship with other Christians—do not truly represent their Lord.

When the church at Jerusalem heard the good news, they sent Barnabas to help the new converts and establish fellowship. He was the ideal man to send, for " 'he was a good man.' It is far more important that a man be good than that he be brilliant if he is to edify young converts. He was 'full of the Holy Ghost.' He was also 'full of faith,' and no man that is not, need undertake the work of instructing and developing young converts, especially converts from heathenism so dark as that in Antioch. He was free from the love of gold (4:36, 37). He was free from personal ambition and jealousy in his work (vv. 25, 26). He was very sharp-eyed to see the sincerity and promise of a young convert (9:27). 'When he was come, and had seen the grace of God, (he) was glad' " (John W. Bradbury).

Into this new fellowship of life and service the gracious and generous Barnabas brought a new evangelist—Saul, God's prepared man for this hour.

But we have another new thing in our lesson, one of great importance.

III. A New Name (vv. 26-30).

Christian, the beautiful name of those who follow Christ was first used at Antioch. It may have held a measure of contempt (see Acts 26 28; I Pet. 4.16), but it was a remarkably suitable name for those who had come out of paganism now to live, in their old surroundings, a new life, a separated life, the Christ life.

This name "combines Jewish thought with Greek and Latin language, and thus, like the inscription on the cross, bears witness to the universality of Christianity as a religion for the whole world. The idea of 'Christ' (Messiah) is Jewish; the substantive 'Christ' (Christos) is Greek, and the adjectival termination 'ian' (-ianus) is Latin . . . This new name was intended to introduce and mark the difference between Jews and Gentiles on the one hand, and those who, whether Jews or Gentiles, were followers of Jesus Christ . . . The term 'Christian' evidently points to the Person of Christ, and to those who are associated with Him as His followers. It implies and involves union and close association with Christ" (W. H Griffith Thomas).

Those believers at Antioch not only bore the name, they practiced the life of Christ. Next Sunday we shall study their activity for Christ, for in that city began the great missionary movement which goes on to our day. In our lesson today we have another practical expression of their faith. They gave of their means, "every man according to his abilities," to meet the need of their new-found Jewish brethren in Judea.

PATTERNS
SEWING CIRCLE

THIS slip is designed especially for large women. It's made with underarm and waistline darts to ensure comfortable bust fit and a slim silhouette. You'll like it infinitely better than slips not made to your measure. Pattern provides for strap style as well as built-up shoulders. Included in this design are slim-hipped panties.

* * *

Pattern No. 8936 is designed in even sizes 36 to 52. Size 38, built-up shoulders, 4⅜ yards 39-inch material. For this attractive pattern, send your order to:

Right of the Accused

The right of an accused person to be confronted by his accusers is based upon the law of imperial Rome. This protection of St. Paul threads its way through the English law and is not original with our Constitution. Festus, the Roman procurator of Judea, answered Paul's accusers (Acts XXV, 16) at Jerusalem: "It is not the manner of the Romans to deliver any man to die before that he which is accused have the accusers face to face, and have licence to answer for himself concerning the crime laid against him."

Masonry Via Wire

Even the laying of a cornerstone has been done over electric wires, says Colliers. Not long ago in London, 10,000 Masons in an exhibition hall watched a dignitary go through such a ceremony, every movement of laying the substitute stone actuating, through electrical synchronization, the laying of the real stone on the site of a hospital several miles away.

INDIGESTION
may affect the Heart
Gas trapped in the stomach or gullet may act like a hair-trigger on the heart. At the first sign of distress smart men and women depend on Bell-ans Tablets to set gas free. No laxative but made of the fastest-acting medicines known for acid indigestion. If the FIRST DOSE doesn't prove Bell-ans better, return bottle to us and receive DOUBLE Money Back. 25c.

Habits Multiply

Ill habits gather by unseen degrees, as brooks make rivers, rivers run to seas.—Ovid.

"MIDDLE-AGE" WOMEN [38-52 yrs. old]
HEED THIS ADVICE!!

Thousands of women are helped to go smiling thru distress peculiar to women—caused by this period in life—with Lydia E. Pinkham's Vegetable Compound—famous for over 60 years. Pinkham's Compound—made *especially for women*—has helped *thousands* to believe such weak, nervous feelings due to this functional disturbance. Try it!

HAWKEYE PRESS MEETING
(Continued From Front Page)

A novelty that caused a lot of comment were the colorful mousetraps used as place cards furnished through the courtesy of the Run-Way Trap Co, of Klemme. The traps were complete with a toy rubber mouse and a pamplet of directions After dinner Ed. Thompson, manager of the local company, was on the program and told about the local manufacturing business.

Leon Barnes, publisher of the Northwood Anchor described his trip through Florida and Cuba and the National Editorial Convention.

After the dinner program the ladies were entertained at the Jorgenson home by Mrs Jorgenson The publishers met at the Times shop where T J Farnan, publisher of the Clear Lake Mirror and president of the Club, presided over the business meeting Mr Farnan emphasized in speaking to the group that it was the hope of the Club that all North Iowa newspaper publishers attend the meetings of the Hawkeye Press Club whether or not they have received a formal invitation Shop problems were discussed and notes compared on various matters.

Attending the meeting were Mr. and Mrs H D Africa of the Rockwell Tribune. Mr and Mrs. Lester Benz of the Sheffield Press; W R Prewitt of the Forest City Summit, Mr. and Mrs Rush Culver of the Manly Signal, Mr and Mrs Earl E. Houdek of the Rockford Register, Mr and Mrs Reuben Moos, of the Nora Springs Advertiser.

Mr and Mrs. J C. Davenport of the Clear Lake Reporter; Mr. and Mrs. T. J Farnan of the Clear Lake Mirror; Mr and Mrs. Warren Nelson, of the Thornton Enterprise, Mr and Mrs Leon Barnes of the Northwood Anchor; Mr. and Mrs Allan Patton and Mr. and Mrs Kenneth Waughtal of the Kayenaye Engraving Co, of Mason City, Mr Al Green, representative of the Western Newspaper Union of Des Moines, Mr and Mrs Ed Thompson, Mr. and Mrs. Ernest Gerardi, Miss Irene Becker and Billy Zabilka of Klemme

The next meeting will be held at the shelter house at the State Park at Clear Lake on Thursday evening, June 19th at 6 30 o'clock Mr Farnan extends an invitation for all publishers and their wives to attend this meeting.

Mr. and Mrs. Harmen Trampel took Miss Margaret Veenstra to Des Moines Saturday where she will attend a beauty culture college They then visited with relatives at Kamrar and Jewell over Sunday

A shower was held at the Verner Nelson home Thursday afternoon in ronor of Mrs Lloyd Jasperson, formerly Alma Nelson, of Clear Lake The afternoon was spent in playing games after which the bride opened her gifts. Lunch was served

War Echoes

A bundle of old war letters written by Samuel McClintock of Independence, to his son, John McClintock, during the Civil War, have been discovered at Independence. After 80 years the letters are perfctly legible and relate many war experiences of the Union soldier.

Poor Electrical Wiring Rated as Fire Hazard

The use of cheap and poorly made, exposed extension wiring in the home is to be avoided at all times, because it is considered one of the greatest fire hazards of today.

With several safe types of surface extension wiring now on the market which are both inexpensive and easy to install, there is no longer any excuse for the use of cheap light cord for extension wiring in rooms where there are insufficient outlets. The safest thing to do is to consult an expert electrician.

Before installing any exposed extension wiring, the electric outlet from which the extension wiring is to extend should be carefully inspected in order to make sure that all connections are tight and that the outlet and the house-wiring circuit to which it is connected are of sufficient capacity to carry the extra load of the extension wiring.

If all is in good order, then a selection of the type of extension wiring can be made. Several types are available in which wires are completely encased in a flat rubber or composition strip of good insulating quality which may be rigidly attached to the wall.

These strip-wiring systems all have special fittings for outlets: splices, crosses, and other connections. In order to be sure of their safety, it is advisable to purchase only materials having the inspection label of the Underwriters Laboratories and in no case to provide more than two outlets from any one extension from a built-in outlet.

Local Happenings

Klemme and Vicinity

Charles Bock began work Monday assisting at the Times Office.

Mrs. Henry Smid, of Hampton, and Miss Geraldine Smid were Mason City visitors last Thursday.

Mrs. P. M. Wilson was visiting with relatives at Clarion Friday morning.

His flight training will probably be received at Pensacola, Florida

LIGHTNING

Lyall Bryant, Mt. Vernon, saw lightning strike one of the horses on his farm one day last week. Five purebred dairy heifers under a tree 60 feet away were not injured The horse was killed.

MAULED

Frank Clayton, Jr., Harvard farmer, was injured when he rushed to save Mrs Clayton from injury after she had been knocked down by a cow angered by a barking dog. Clayton was trampled and gored before he could get away.

KLEMME CELEBRATION NOW A MATTER OF HISTORY

Jay Gould and his big two-day attraction has come and gone, and the Klemme Celebration is now a matter of history.

The celebration got off to a very poor start with heavy rains Monday and not a wheel was turned.

The weather man was more favorable Tuesday and a fair crowd came out in the afternoon, while the evening crowd was large. The weather, however, was a bit too cool for the crowds to become active.

Mr Gould has a good show and it is clean and wholesome throughout and his entire following are gentlemen and ladies in every respect.

They came here from Lake Park and Klemme was their third town to be played this season. They went from here to Lime Springs for two days This was Gould's third appearance in Klemme.

MARRIAGE AT METHODIST PARSONAGE HERE

Mr Leon Kropp and Miss Viola Kropp, Liberty township couple, were married at the Methodist Parsonage in Klemme last week on Monday with Rev. Zabilka the officiating cleryman, using the single ring ceremony

OFFICIAL COUNTY PAPER

THE KLEMME TIMES

OFFICIAL TOWN PAPER

VOLUME 45. KLEMME, IOWA, WEDNESDAY EVENING, JUNE 4, 1941 NUMBER 52.

Couuty Agent Petersen Resigns Position

T. C. PETERSEN GOES WITH STATE FARM BUREAU

Burlin Hamer Named To Succeed Petersen As County Agent

T C. Petersen, employed as the County Agent since 1936, has resigned to accept the position as District Field Director of the Iowa Farm Bureau beginning July 1st.

His territory will include 18 counties in North Central Iowa, which includes Hancock. Mr. Petersen will still make his home in Garner

During the 4½ years he has been employed as County Agent the Farm Bureau membership has increased from around 300 to over 500 members. All townships except one are now organized and several more townships now are holding a township meeting.

Some of the jrojects that have been developed or received special emphasis during the past few years are the county weed control program and also county soil improvement program. Several groups have been organized including the Rural Young Peoples, County Beef Cattle Feeders, and the Young Married Couples.

Last year for the first time Hancock County held a county wide farm reports festival.

Burlin Hamer has been elected by the Hancock Couny Farm Bureau Board of Directors to succeed Mr Petersen.

Mr Hamer is well qualified for the position as County Agent. Prior to his college training he lived on a farm near Waterloo and was active in 4-H Club work. Following his graduation from Iowa State College he was employed as Club Agent in Humboldt and Calhoun counties. The past year Fr. Hamer has been working with the State Agricultural Trade Relations in Des Moines.

Mr. and Mrs. Hamer plan moving to Garner the latter part of June

FLOOD DELAYS WORK IN TIMES PRINTING PLANT

This week The Times comes to you late because of the delay in work caused by the heavy rains, which flooded the floor in the printing plant, and held up work on the paper for two days. The Times plant is also operating short of help.

Under the circumstances it was necessary this week to leave out some of the news matter and advertising which arrived too late for this issue

METHODIST CHOIR HELD PARTY FOR GALBRETHS

The members of the Methodist Choir held a farewell party at the church last Thursday evening in honor of Mr and Mrs. W. H. Galbreth.

Games and stunts were enjoyed and a two-course lunch was served.

Mr and Mrs Galbreth received beautiful gifts from both the choir and the Goodfellowship class.

Mr. Galbreth said he wanted to take the opportunity of telling everyone "good bye.'"

Worship Service 11:20 A. M.
E. L. Supper and fellowship as above.

WOLVES

Bill Welch, Scotch Grove, received a bounty of $25 for the pelts of 11 wolves at the office of the Jones county auditor.

Modern Bandit Is 'Sissy To 'Wild West' Sheriffs

To a pair of chip-jawed sheriffs of the day of the "hoss-hair-trigger" today's gangsters and bad men wouldn't rate a second glance.

"Bad Bills? Humph, they're Sweet Williams," say these two men in whose day the usual history of a gun duel between the law and the outlaw was the man who was fastest with the gun

Both former Sheriff George Tindall and his successor Fred Thorp of Conconnully, Wash., rate as such historians.

Tindall, a native of Oregon, began his career as an officer in 1887 when he was a deputy sheriff and United States marshal. In 1902, he became sheriff and that year was the beginning of the end of horse thieves and cattle rustlers in the Conconnully territory.

Thorp, his successor, known all over the Northwest as the sheriff that always brought in his man, dead or alive.

When Tindall assumed office, the average population of his region was one person to each square mile—a situation that made cattle rustling a profitable affair.

A conviction on a charge of cattle thievery was hard to obtain, some old pioneers even alleging that many juries had members that were mixed up in the rustlings.

But 10 months after election, Tindall had changed the situation somewhat. Teaming up with a fighting prosecutor, Tindall brought about conviction and prison terms for 22 men in that time—a record never equaled.

Probably the high point of the sheriff's career was the war between the cattlemen and sheepmen. It began when Tindall aided in the arrest of one "Wild Bill" Hughes, a reported murderer.

A deputy sheriff was shot the next night, supposedly by a friend of Hughes—and the war was on.

A verdict of suicide was returned by a coroner's jury since no one could be found to testify. The westerners suddenly were cursed with bad memories.

And events similar to the night riders of the tobacco states began. Bands of men rode the hills at night, armed with guns, knives and clubs Grazing sheep were slaughtered and sheepmen would receive matches in the mail.

The next night after the match had been delivered, hay and feed would go up in flames. It was the end of sheep raising in the region until comparatively recent times.

'Pill' Used for Testing Metal's Temperature

Metallurgists now can take a metal's temperature by giving it a pill.

The new pill method was developed recently by Harry Blumberg, of Jersey City, to extend the range of existing temperature-finding methods to lower temperatures.

The problem which the pills solve is that of indicating the temperature of metals which are to be shaped or welded at less than 900 degrees Fahrenheit. Metal heated to 400 degrees, for example, is too cool to show a distinctive color by which higher temperatures can be determined.

Blumberg devised pills made of various compounds which melt at definite temperatures. After much experimentation, he developed a complete set of chemical pellets having sharply defined melting points from 200 to 900 degrees.

Now, when a plant operation is specified for a temperature of 400 degrees, the metal can be heated and a 400-degree pill, colored for identification, dropped on its surface.

San Quentin 'Rejuvenations'

Unknown to the outside world, except in limited medical circles, San Quentin prison in California for the past 22 years has been the world's greatest clinic for rejuvenation experiments, a final report by Dr. Leo L. Stanley, chief prison surgeon, reveals. All of the operations of Voronoff of Paris, Steiner of Vienna, and of other great surgeons and specialists in rejuvenation and the fighting of senility have been duplicated thousands of times as well as entirely new methods worked out by Dr. Stanley himself. In the 22 years, during which Dr. Stanley introduced and applied this system of treatment in the penitentiary, 10,000 such operations have been performed.

THE HITCH-HIKERS

Annual Rally Will Be Held Friday

4-H CLUB GIRLS WILL HOLD ANNUAL RALLY FRIDAY

V. A. Cook, President Of Farm Bureau And Supt. Baggs Are On Speaking Program

Putting away their schoolbooks, 4-H club girls of Hancock County will start their summers program of educational activity June 6 when their annual 4-H Rally Day will be held in the Garner High School Gymnasium

Democracy and national defense will contribute to the theme of this year's get-together, according to Ruth A Willis, home demonstration agent. "A Good Citizens and Good Neighbors" presentation in the afternoon will demonstrate the part each 4-H club and individual member must take in the National Defense program A Pan-American fiesta will be included in the presentation in tune with the national Good Neighbor policy

Among the speakers of the day will be Supt of Schools, Mr Baggs, and Farm Bureau president V A. Cook. The presidents of the 12 girls' clubs in the county will also report briefly on the activities of their group in the morning symposium.

Other events in this year's rally include election and installation of county officers, initiation of an honorary member, a song festival and a grooming contest.

The day's program, which is scheduled to open at 10 00 a m will last until 4 00 p. m (with time out at noon for a buffet luncheon) County 4-H girls, their leaders, parents and friends, besides special invited guests, are expected to swell last year's Rally Day attendance of two hundred.

HEAVY RAINS CAUSE NEAR FLOOD MEMORIAL DAY

This section of Iowa was visited by heavy rains Memorial Day afternoon that caused much damage to farm crops and property

All lowlands in the vicinity of Klemme were flooded and the Iowa River went out of its banks

Most damage was done to corn crops as many places in the fields were flooded and a lot of re-planting will be necessary.

Many basements had from a few inches to three feet of water in them in Klemme.

Work at the Times office was delayed as four inches of water covered the print shop floor.

At this writing, Monday afternoon, Klemme is again visited by a steady heavy rain, and more water is coming into the Times Shop.

DRIVERS' LICENSES GO ON SALE MONDAY, JUNE 9

May Be Obtained At The Hancock County Court House

Over a million Iowans will begin to renew their drivers' license on Monday, June 9th.

The licenses have been changed somewhat in form from the 1939-41 blanks for the sake of convenience in reissuance in 1943.

The applications for the new licenses may be obtained from the office of the county sheriff

HANCOCK COUNTY REPUBCAN WOMEN WILL MEET

The Hancock County Republican Women's Clubs will hold their Biennial Convention at the Congregational Church on Monday, June 9th at 2.30 p. m. Mrs. Robert D. Blue, of Eagle Grove, will give an address. All interested are welcome to attend.

Band Coucert Season Opens Saturday Night For Ten Weeks

GALBRETHS HONORED AT PICNIC SUPPER

Mr. and Mrs W. H. Galbreth were honored at a picnic supper at the Forest City Country Club Friday evening, as a farewell party

Bridge was played after supper and high scores were won by Mrs. P M Wilson and C. G. Waterman

Mr. and Mrs. Galbreth were presented with several pieces of silverware, and their baby son also was remembered with a silver set

Ancient Teaching Device Was Helpful to Students

The ancient hornbook in form is not a book, though one in name. Strictly speaking it is simply a prayer, the alphabet and numbers to be learned.

It was made of a thin piece of board, shaped roughly like a butter-paddle, usually four or five inches long and two inches or so wide, with a sheet of paper or vellum on one side. Printed on the paper at the top was the alphabet in large and small letters. Then followed the Lord's Prayer. This is always found on the early examples. Over the whole printed page was a thin sheet of transparent yellowish horn to keep the paper clean. Both the paper and the horn were fastened to the board by a narrow strip of metal. The handle served for holding during study and also for attaching to the child's girdle.

Hornbooks were used to teach children their first lessons and gradually the name came to signify a child's primer. Another name sometimes given them was battledore, due to the shape and to the fact that hornbooks were often used for playing shuttlecock.

Hornbooks came into use in the middle of the Sixteenth century and were common until the end of the Eighteenth. They were made by the thousands of wood, ivory, stone, leather, brass, copper, and other metals, and were so common they were not thought worth saving.

Chrysanthemum Held Sacred

In China the chrysanthemum is revered as a sacred thing, and pilgrimages are made yearly to the River Kai where natives drink of the petal-strewn waters in the hope of gaining long life. The type of chrysanthemum which grows there is a tiny plant or bush, with blossoms little larger than a "bachelor button." It is called chrysanthemum indicum and is a far cry from the giant ostrich feather types we grow in the United States. Whereas we wear our flowers and decorate our homes with them, the ancients worshiped them. In Japan a yearly festival is held in their honor, at which time a festive drink is made from the petals. The imperial emblem of Japan represents a 16-petaled chrysanthemum.

Midget Kitchen

Home builders are cautioned not to condense the kitchen so as to make it too small for use. A kitchen can be efficient even though it may not be as small as a Pullman car kitchen. Despite the fervor for "step-saving," a happy medium should be maintained between the Pullman kitchen and the old-fashioned kitchen. The kitchen does double duty. It serves as a cooking center, and at the same time it is a storage place for dishes, utensils, cleaning materials, and other household gadgets and equipment. Sufficient space for storage is of vital importance in the planning of a kitchen for a small modern home.

Extinct Dodo Bird

The dodo was a clumsy, defenseless bird, about the size of a swan, found living on Mauritius when the island was discovered in the Sixteenth century. It had a stout, hooked beak, short, stocky legs and was covered with downy feathers. Its wings were small and incapable of flight. This helpless bird was soon exterminated and no specimens are preserved.

Case Dismissed

A Paris, Mo., judge discovered there had been a divorce case on the docket nine years. When he questioned the attorney for the plaintiff about it and the attorney admitted he didn't know what had become of his client or the defendant, the judge decided it was time the case was dismissed.

JOINT BAND CONCERT WILL BE PLAYED SATURDAY EVE TO OPEN SEASON HERE

Garner Band Will "Sit In" With Klemme Band In Season's First Outdoor Concert

Bernard Onerheim, director of the Klemme Band, has announced that the first of ten outdoor band concerts for the season will begin with a joint band concert in Klemme this week, Saturday night.

Mr H K Smith, director of the Garner band, will bring his organization to Klemme Friday evening when both bands will hold a joint rehearsal.

First Concert Of Season

The band concert Saturday evening will be the first of ten weekly concerts, according to Mr. Onerheim The concerts will be given from a portable band stand on Main Street during the summer months.

The Klemme Band took part in the Jay Gould Circus parade Tuesday afternoon and played a fine concert from the Gould stage to a large crowd.

Klemme has a very fine band this season and will give a variety of pleasing programs during the summer concert season.

The Klemme Band will play a return concert at Garner on next Wednesday evening.

Concert Program Here

"Military Escort," ..... March
Bennett
"Grandiose" ..... Overture
E. De Lamater

U. S. Engineers To Help China Build Factories

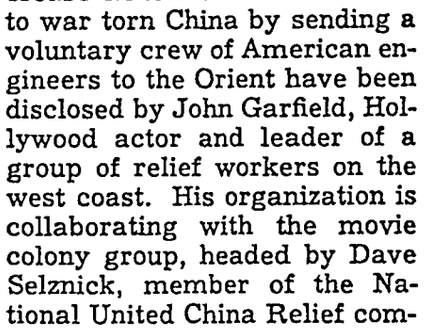
Small 'Pocket Industries' Nullify Bombings By Japanese.

(Released by Western Newspaper Union.)

NEW YORK.—Plans to increase American technical aid to war torn China by sending a voluntary crew of American engineers to the Orient have been disclosed by John Garfield, Hollywood actor and leader of a group of relief workers on the west coast. His organization is collaborating with the movie colony group, headed by Dave Selznick, member of the National United China Relief committee.

"If we are the arsenal of democracy," stated Garfield, "then China should have our support in full." The actor went on to describe present-day conditions and summarized their plans to defeat the purpose of Japanese air raids by spreading and isolating manufacturing units into mountainous and sparsely settled territories. The engineers, who are scheduled for early departure, plan to introduce and increase more modern technique in industrial production, allied with small units of space and equipment. A major objective will be the operation of motor repair stations along the important Burma road, over which most of the supplies for war reaches China.

The United China Relief campaign is now engaged in the task of raising



JOHN GARFIELD
"China will be victorious."

$5,000,000 for war relief and to maintain the 3,000 midget industries already established and to provide for thousands more.

Many Factories Moved.

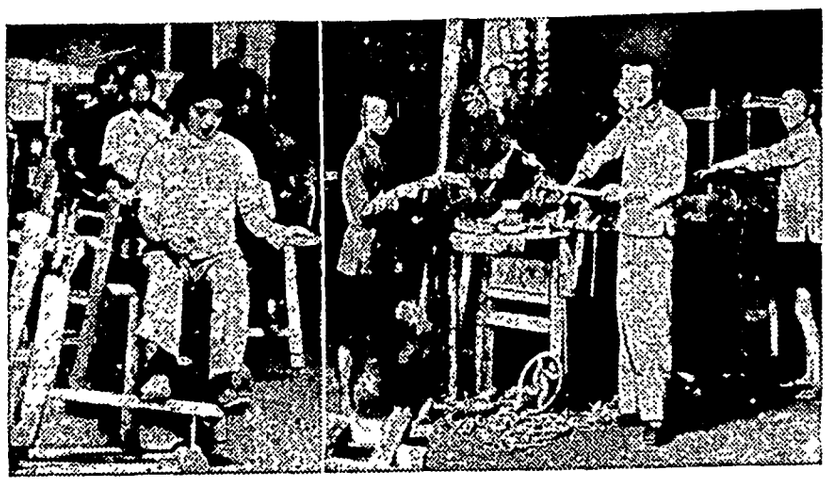
An engineering feat of moving more than 400 complete factories containing 3,000 tons of machinery, wholly with human labor, was consummated in early spring, when thousands of coolies fled the war devastated coastal region, carrying the factories and equipment, piecemeal upon their backs, into the interior sections of their country. It was pointed out that the program served the double purpose of producing needed defense and civilian material and absorbing refugees in rebuilding for the new China.

Mr. Garfield stressed the fact that because of the widely separated points of manufacture and distribution that enemy fliers found it extremely difficult to locate the small centers and impractical to bomb them because of the relative amount of damage as compared to the cost of the bombs, the differential being more than 25 times, even when the objective was a direct hit on the first attempt. "A $250 bomb is too much, even for the Japanese, to inflict $10 worth of damage to the enemy," said Mr. Garfield. Money contributed to the fund, is allotted by H. H. Kung, minister of finance in Chungking at the rate of $7.00 per man for any group of workers willing to start a plant. The money is expended on a loan basis and in accordance with regulations of the old established central revolving fund plan. Mr. Garfield stated that previous loans have all been repaid.

Principle and machines never before seen or understood by the Chinese have become a vital factor in the war of supplies.

"We are teaching them to harness old water wheels to operate small dynamos, the technique of building tiny crucible steel and hearth furnaces, and many other methods of manufacturing and operating small, but efficient plants," said Mr. Garfield. He voiced the opinion that with American financial and technical help, China can finally emerge victorious to take her place with other democracies.

Chinese Workers Supply Army



While China's armies are struggling to fight off invading Japanese forces, civilians are working in "vest pocket industries" in the interior. Chinese women (left) are making blankets for their nation, while workmen (right) are busy replacing the vital production of occupied regions along the coast.

Brazil Builds 'Defense Railways' To Link Ports With Inland Cities

RIO DE JANEIRO, BRAZIL.—Is South America defenseless against an invasion threat? Military experts of the U. S. are co-operating with all Latin countries in a speedy survey of just what defenses this great continent could muster against belligerent attack. Nearly the whole of South America is east of New York, bringing it well within the danger zone of the European conflict.

Defense surveys indicate that the combined armies of South America would be under 2,000,000 men, to defend the 125,000,000 scattered citizens of this whole continent. Together, these nations have about 1,200 planes and a joint navy of about 175 ships to defend a coastline on two oceans that is thousands of miles long.

Brazil is said to be by far the best equipped in defenses, but Brazil is mammoth in size (47 per cent of South America), and most vulnerable to attack. If England's fleet were destroyed and Gibraltar taken, the U. S. fleet would be stretched along the entire Atlantic and Pacific seacoasts of two continents, in defense of the Western hemisphere. A strong block of well-defended American nations would be needed.

Chief problem for the defense of South America is its tremendous size and the great distances over which supplies and troops must be moved. It is admitted that whole sections of this continent might crumble defenseless before any strong concentration of enemy forces. There is a very real possibility of "splitting up" South America's nations, which are in general isolated from each other by lack of roads and railroads, as well as danger of isolating whole areas within the larger countries, by enemy forces working from within.

Improve Transportation.

Brazil's president, Getulio Vargas, who has already accomplished much in his program for modernizing and industrializing Brazil, has now turned his attention to the problem of transportation, and the necessity for spanning Brazil with railways and roads for defense. More than 520 airports have been built for Brazil's air defense, travel and communication.

To meet this emergency, President Vargas last year nationalized railroads in Brazil, bringing 15 different systems under Union control. He just recently created the national department of railways, which will launch an extensive rail-expansion program with U. S. financial aid. More than 3,000 kilometers of tracks have already been laid, modern bridges span mountains and rivers, and many tunnels open ways through mountains. A nation-wide highway building program now under way, is planned to link Brazil with all nations touching her borders.

Many of these new developments will link Brazil by land, air and water with her neighbor nations, greatly strengthening Pan-American defense. The Brazil-Bolivia railway now being built will bring in much-needed Bolivian oil supplies, while giving to Bolivia an outlet to Atlantic seaports. Crossing the heart of South America, a transcontinental railway from Santos, Brazil, to Arica, Chile, will open vast productive areas for exploitation.

Principal problem in connecting South American railways is presented by the rocky coastal ranges which follow each seacoast, cutting off port cities from rich interior resources This brought about building of isolated short railways to port cities only; and now today, Latin countries face the huge expense of building many inter-connecting lines to connect port cities, as well as to connect isolated inland cities to each other.

Purchase New Equipment.

Impressive purchases of new railway equipment from the U. S. include 26 locomotives and nearly 500 cars now being delivered.

Highways and good roads are part of Brazil's defense program. The $3,000,000 highway bringing Brazil in touch with Paraguay, and the network of roads from 7 to 10,000 miles long in Rio Grande of the South, will link Brazil to Argentina, and Uruguay. Auto excursions now may only travel in good weather, but increasing auto tourist travel and the 6,000-mile auto races from B. A. to Peru and back again, last year, has encouraged building of better roads.

U. S. defense units are rushing completion of roads in Panama around the Canal region, and Latin nations along the West coast are building roads too although jungles, swamps and mountains bar the way. Some day the great Pan-American highway will complete its 16,847-mile route, a new "All-American Lifeline." It will cost $150,000,000 to build, but it will open a vital route for military supplies, and one that will attract thousands of tourists in time of peace.

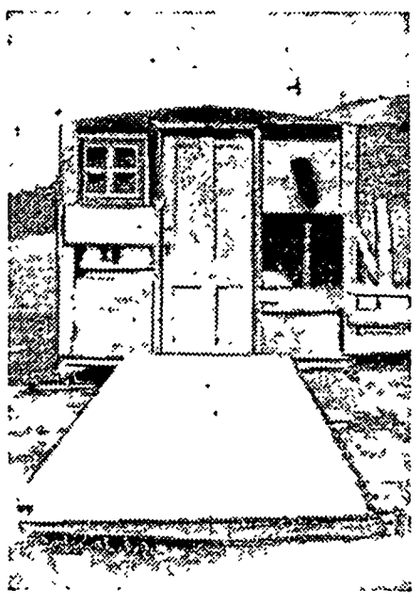
In air-travel, most significant new development is the extension of Pan-Air lines into interior cities of Brazil, in competition with the German Condor line's seven air-routes across Brazil. More than 520 airports (more than the U. S. has) are a vital factor in Brazil's defense. Two big Condor planes are stranded in Rio, since Brazil declined to permit German trans-oceanic lines "at this inopportune time." But LATI, Italian lines continue to make their regular weekly trips to Rome, and recently expanded their lines into Argentina.

Wagon Post Office Yields to Progress

FARGO, N. D.—The smallest and perhaps most unique post office in the United States, located 40 miles north of Bowman in the southwest corner of North Dakota, gives way to progress.

If there are smaller buildings being used exclusively for the distribution of mail, they at least would not appear as diminutive in their setting as does a sheep wagon at Ranger where six families are served by Uncle Sam. The sheep wagon, with its wheels removed, nestles in the valley of the Little Missouri river in the most picturesque section of the badlands of North Dakota.

The sheepwagon has been sold and the post office at Ranger will be discontinued this summer. Established in 1912, the Ranger post office has been a curiosity for many years. Natives tell the story that before the sheep wagon was removed from its wagon wheels, a post office inspector sat in the stuffy little shack when much to his amazement the



post office began to shake violently. Thoughts of a temblor ran through his mind as he made for the door to see what was going on.

The temblor was no more than a pig scratching its back against one of the wheels.

"Thus," as the Bowman County Pioneer says, "With the discontinuance of the Ranger post office, another chapter of the pioneering spirit of the West is brought to a close. The machine age that affords such fast travel makes it possible for patrons to adopt a more modern post office as their address—Bowman, 40 miles away."

U. S. Army Officers Say 'Goodbye' to 'Hello'

WASHINGTON.—War regulations have deprived civilians and soldiers alike of many things. This time it's words. The army is streamlining its telephone service. No more will our khaki clad defenders drawl a "Hello" with the speed of winter sorghum flowing from a jug, or breathe a frosty New England greeting into the mouthpiece. The luxury of this old established American custom has been abolished for the duration of the present emergency, in accordance with instructions recently received from the war department.

According to a bulletin on the subject valuable minutes are lost in the common exchange of greetings.

Officers making a call will not instruct a clerk to get his party on the line, meanwhile disappearing for ten minutes. Instead he will personally make the call and stay on the line until his party has been connected.

Walter Winchell

(WNU Service)

Items I Never Knew . . .
'Til Now
(But which you knew all along))

Rob't Sherwood's fine play, "There Shall Be No Night," won the Pulitzer Prize, which should have happened a year ago. This is regarded as highly encouraging to the theater in general—having the Pulitzers only one year behind the parade.

Billy Gilbert has named his estate "Gezunt Heights."

Ned Russell, of the United Press, was given a 3-week vacation in Dublin, and came back with a story which shows the extreme eagerness and the extreme ends to which the Irish Free State is going to preserve its neutrality. The Irish navy (consisting of two torpedo motorboats) was ordered out on maneuvers, and their instructions read: "You will proceed from the harbor to sea, where you will meet and engage either the Hood or the Scharnhorst . . ."

James Gleason plans his sixteenth newspaper managing editor on the screen in the soon-due "Affectionately Yours." (That's either a record or a rut!)

At Fort Williams, there is a Private William Williams, who comes from Williams Street, Williamson, W. Va. (Or, to put it briefly, where there's a Williams, there'r a Williams.)

A discussion was in progress about democracy, and one of the group seemed to think his ancestry entitled him to a dogmatic view on everything. "I think," he smirked, "that the argument on America should end with my views. After all—my ancestors came over on the Mayflower" . . . "You're lucky," was soprano Genevieve Rowe's comment, "after all, the immigration laws are a bit stricter now."

The America First outfit claims in its ads that it hasn't wealthy backers . . . A few months ago that group was asked for a list of its backers, but refused to give it. Finally they gave a partial list—which included many wealthy men and women . . . Why have they such short memories?

According to Wilfred J. Funk, the average pet dog has a vocabulary of 60 words. (That's the number of words it understands.)

In the new book, "Men and Politics," the author says: "Germany has no unemployment. But neither has a prison."

According to the Open Book, whether a black cat following is bad luck depends on whether you're a man or a mouse.

You can tell the difference between a Nazi and a British plane by their sounds. Nazi bombers sound like this: "Voom, voom, voom. Vooma-doom-voom" . . . British planes sound like: "Yowzer-yowzeryowzeryowzer" . . . Or so returning correspondents are telling the Stork Clubbers, at any rate.

When it was rumored Marshal Goering might receive an Austrian Knighthood, Punch suggested his new title be: "Sir Cumference."

Memos of a . . .
Girl Friday:

Dear W. W.: After two months of trailing Jan Valtin, Steve Birmingham (the Dies Committee sleith) caught up with him in the parking lot opposite The Algonk and served him with a summons . Jimmy Walker evened things with certain Hollywood people (formerly of Broadway) at the Jack Benny affair. Jimmy called to the spotlight man and said: "Please turn off the light so I can see the people who couldn't see me the last four years."

The Nat'l Defense Organization is sponsoring R. H. Markham's exciting reply to Anne Lindbergh's book. He calls his: "The Wave of the Past!" Be sure and read!

Just got a button reading: "I'm a Copperhead." It is the emblem of a West coast outfit whose meetings are attended regularly by most Bund members out there. The head of it is the chairman at the Save America First meetings in L. A. . . . Quentin Reynolds sent a cable to friends saying: "The Saturday blitz and the arrival of Hess took Londoners' minds off the war!"—*Your Girl Friday.*

Private Papers . . .
Of a Cub Reporter:

Jimmy Dorsey kept the gagging going when he relayed the one about the same dictators who were arguing over the division of spoils . . . Hitler, of course, was conceding nothing to his very junior Axis partner in crime . . Finally, Benito could stand the humiliation no longer, and he blurted: "Listen, Hitler. Where would you be today if it weren't for my help?" . . . Hitler retorted: "In London!"

Washington, D. C.

BOMBER OUTPUT

Though not announced by the White House, two impelling factors were behind the President's sensational letter to Secretary Stimson asking for an immediate increase in the monthly output of bombers.

One was the obvious need of providing Britain with more and bigger planes to carry the offensive to Germany. Second, known only to inside authorities, was Intelligence information that the Nazis are increasing the bomber force of their Luftwaffe. The reports are that the German air force now consists of the following:

Six main air fleets, each comprising 1,000 bombers, 625 fighters and 75 reconnaisance planes, a total of 10,200. Also there is an independent air unit of 2,750 planes, a naval air service of 1,000, an operational training unit of 650, and a transport organization of 3,500 planes. In addition to these first-line ships, is a reserve of 12,000 others, plus 5,000 trainers and transports.

Grand total: About 35,000 planes.

German airplane production capacity is estimated at 3,000 planes a month, including about 500 bombers. However, except for bombers, Germany is not now using her full production capacity as she doesn't need that many new planes a month.

Nazi March production is estimated at 2,200 ships of all types, but only 1,600 in April. In May, however, Intelligence reports are that Nazi plane production is being stepped up to replace Balkan and North African losses.

Reports are vague about what the Nazis are doing with the nine government and eleven private aircraft plants in France, most of them located in the occupied zone; also regarding the eight Dutch factories, including the Fokker works, and the seventeen Belgian plants.

These plants have large potential producing capacity, but best information is that the Nazis are stripping them of their machine tools and other equipment. How much this will boost the Nazis' 3,000 planes a month is only a guess.

U. S. Goal.

Weakest link in German plane production is aluminum. From captured planes, the British estimate that the Nazis use about 500 pounds of this vital metal per ship. The American average is 5,000 pounds.

The undisclosed bomber goal of 1941 to which Roosevelt referred in his letter to Stimson, is 600 a month.

The four new assembly plants in Omaha, Tulsa, Kansas City and Fort Worth should produce about 300 bombers a month. To double their output it will be necessary to build and equip at least as many new plants, plus taking over an increased ratio of automobile and other plant facilities to turn out the necessary parts.

The letter which OPM Director General Knudsen sent auto makers that they will have to hold down their 1942 car production to 78.5 per cent of this year's output, is considered only a beginning. Insiders predict that there will be another big cut soon.

* * *

LATIN ADMIRALS

The state department scored a ten-strike when it finally persuaded the navy to invite the chiefs of Latin American navies to visit the United States. The junket definitely carried weight. For the United States navy, without any ifs, ands or buts, is the most powerful in the world, and the thing that counts in South America today is the belief that this country can really ward off Nazi invasion.

Behind the scenes, the man who helped most to dress the stage for Latin American admirals was Johnny Thomason, better known for his prolific pen portraits of the marines (Red Pants, Fix Bayonets, Jeb Stuart, Salt Winds and Gobi Dust).

Thomason, now a colonel in the marines, had served in Latin America, knew the importance of the admirals' visit. Other U. S. brass hats didn't. Admiral Harold Stark, chief of naval operations, fumed and fretted, only wanted to show the Good Neighbors a few East coast stations. At this point Johnny Thomason remarked: "This visit is giving you a pain in the neck. How about letting me take it over?"

Thomason insisted that the trip was important enough to do it right, demanded more entertainment money from the White House and got it. At first he worked on the idea of meeting the admirals with U. S. cruisers at Barranquilla, Colombia, taking them out to the mid-Atlantic to view the U. S. naval patrol at work. This was given up as too long, and a coast-to-coast inspection of U. S. naval stations was substituted.

* * *

MERRY-GO-ROUND

The G.O.P.-controlled Kansas legislature hit Rep. Jack Houston, long Kansas Democrat, with everything but the waterbucket in gerrymandering his district, but he takes it philosophically. "When a salesman makes good on the job," he says with a grin, "his territory is increased."

IMAGINARY DIALOGUES: GARGANTUA AND TOTO

("All efforts to get Gargantua, the circus gorilla, and Toto, the Cuban gorilla imported to be his mate, to be friends have failed." — News item.)

Gargantua (after one look)—Am I seeing things?

Toto—That's just what I was asking myself.

Gargantua — I don't know what you are, but do me a favor and scram.

Toto—Listen, Funny Face, I'm not here of my own accord. This visit isn't my idea.

Gargantua—Well, it certainly isn't mine. Gee, but you're a homely dame.

Toto—That goes double for you. If I was as ugly as you I'd do something about it.

Gargantua (sadly)—There's only one thing you can do about it, and that's join a circus.

Toto—That's what I'm here for now!

Gargantua—So that's it! They're trying to co-star me! Well, they can't do that to me.

Toto—Calm yourself. It's not my idea.

Gargantua—Nobody could get you here if you didn't want to come.

Toto—A dozen men brought me here.

Gargantua—You could have licked 'em all!

Toto—You must have read Arthur Brisbane.

* * *

Gargantua—Aw, go away, please. It was tough enough around here when there was only one of us.

Toto—Didn't you ever think of getting married?

Gargantua—No, that's my press agent's idea.

* * *

Toto—Two can live as cheaply as one, Gargie.

Gargantua—Yes, but what do I care what I cost this circus. It's got plenty of dough.

* * *

Toto—What you need is a nice wife.

Gargantua—Where would I find one?

Toto—How about me?

Gargantua (with a look of horror) —I'm not monkey enough to marry a girl with a mug like yours.

Toto—You're no jungle Clark Gable yourself.

Gargantua—Maybe not, but I've got prestige. I'm probably the most famous gorilla in the world.

Toto—You're just another big gorilla to me.

Gargantua—Where did you come from, anyhow?

Toto—Cuba.

Gargantua—Now I know who caused all that unrest there!

Toto—Lissen, you can't insult me like that. I wouldn't take you for a husband. If I was your wife I'd give you poison.

Gargantua—And if I was your husband I'd take it.

Both (in a fury) — You BIG GORILLA!

BANKING BY TIMETABLE

A bank has been opened in a railroad depot at New Rochelle, N. Y., and it is at least a novel idea. The country has always wanted to see a demonstration of how money could be withdrawn or deposited at a gallop by a man with his arms full of garden tools and his coat half off.

Elmer Twitchell wants to know if the depot banks runs on eastern standard or daylight saving time.

And there is sure to be the confused commuter who isn't certain whether he was to deposit $8 just before the 7:55 a. m. or deposit $7 just before the $8 pulled in.

* * *

The U. S. treasury announces that despite metal priorities, it will continue to issue nickels. This country has got to have a coin that will do the work the penny used to do, or nearly so.

* * *

Congressmen grow gabby at cocktail parties and spill important information, it is alleged. And probably it's true. Congressmen are talky enough when they're cold sober, let alone when they're on the fourth old-fashioned.

Historical Highlights

by Elmo Scott Watson

(Released by Western Newspaper Union.)

A Famous Coon Story

ONE of the classics of early American humor is the story of Davy Crockett's "interview" with a coon. According to the usual version, this famous Tennessee frontiersman was out hunting one day when he spied a raccoon high up in a tree. Instantly he leveled his deadly rifle at the animal, whereupon the coon cried out: "Is that you, Crockett? Then don't shoot—I'll come down!"

Although this is readily recognized as a "tall tale" and a bit of frontier folklore, it has been repeated innumerable times as a tribute to Crockett's unerring marksmanship. But, like so many other yarns associated with his name, it is also a "borrowed story" and another man was the hero of it when it was first told.

Visit the historical museum in Bennington, Vt., and there you will see a long rifle which, according to the card beside it, is the ".50 caliber gun used by Lieut. Col. Martin Scott, native of Bennington and sharpshooter. It was made at Harper's Ferry in 1814 and first used in 1818 by the Fifth Rifle Regiment of the

DAVY CROCKETT

regular army. This gun was often used by Colonel Scott while at Fort Howard at Green Bay, Wis., where he and Captain Merrill were commandants, beginning in 1834." This is the rifle used by the man who was the original hero of the famous coon story.

Scott's reputation as a mighty hunter was established while he was still a boy. At the age of 12 he killed a notorious bear that had been preying upon the live-stock of the farmers around Bennington and young Scott was brought into town in triumph astride the carcass of the bear. During his hunting expeditions, he roamed westward into New York and it was near Lake Bonaparte in the foothills of the Adirondacks that a coon in a tree, seeing him approaching, said: "Is that you, Martin Scott? Then don't shoot—I'll come down!"

At least such a yarn was printed in a Utica, N. Y., newspaper in 1837, and when the New York Sun and other papers reprinted it, it was given wide circulation. Davy Crockett had been killed during the Texan war for independence the previous year and, as one of the "heroes of the Alamo," his fame became even greater than it had been while he was an Indian fighter, bear hunter and congressman from Tennessee. So it is easy to see how some of his admirers, knowing the widely reprinted story of Martin Scott's "interview" with the coon, appropriated it for their hero and attributed the incident to Crockett.

Commissioned a captain in the Fifth Rifle Regiment of the United States army, Scott's fame as a marksman spread rapidly. Once he demonstrated his sharpshooting ability by tacking an ace of clubs on a tree and firing three shots at it with his muzzle-loading rifle (no doubt, the one in the Bennington museum) in a minute and 20 seconds.

Col. R. B. Marcy, commander of the regiment, examined the target and announced one hit and two misses. Thereupon Scott called for an ax, chopped into the tree and showed three bullets in the single hole!

Scott's career ended in 1847 when he was killed, while leading his company in the Battle of Molino del Rey in Mexico in 1847.

* * *

Before marching away to the war in Mexico, Scott visited his boyhood home in Bennington. He had left it as a poor and obscure lad. He came back rich and famous. According to a contemporary account, he returned in a fine new gig, drawn by a superb white horse. Following him as an outrider was a Negro slave, Jack, dressed in livery and mounted on a thoroughbred, and 20 or 30 full-blooded dogs of various breeds. Scott is said to have paid $5 a pound for Jack and later freed him.

Star Dust

STAGE SCREEN RADIO

By VIRGINIA VALE

(Released by Western Newspaper Union.)

MARCH OF TIME cameramen went on a long and perilous voyage to film some of the material used in "Crisis in the Atlantic"—they went from Canada to England aboard a tanker in convoy. The film also includes the first pictures to arrive here from Greenland since that strategic island has become so important.

"Crisis in the Atlantic" vividly portrays the many aspects of the struggle to keep the sea lanes open so that war materials and food can be sent to Britain, and depicts as well the joint U. S.-Canadian defense efforts involving bases from the Arctic to the South Atlantic. It's a film scoop; don't miss it!

—:—

Brian Donlevy has been spending a lot of time learning to do something that will be quite useless in private life. In "The Great Man's Lady," a Paramount production, he plays the part of a professional gambler, a master hand at cheating. And what makes it all the more painful is the fact that Donlevy has an abhorrence of all card games, even the game of Authors.

Brian Donlevy

—:—

Bette Davis is at it again, playing one of the most unpleasant women ever seen on the screen. It's for "The Little Foxes," RKO's screen version of the tremendously successful play. It was RKO, you may recall, that set Miss Davis squarely on her feet, dramatically, by casting her as the heroine of "Of Human Bondage"—a role few actresses would have had the courage to take. She took it, and made movie history.

—*—

Anna Neagle does an entire dance number while submerged in a glass tank filled with water in her new picture, "Sunny." Back in England she won medals for swimming and diving, so she got into a scanty sequin costume and combined her talents as a swimmer and a dancer. The story's laid in New Orleans during the Mardi Gras, and Ray Bolger and John Carroll head the supporting cast. The under-water dance is a stunt new to pictures—new, as well, to Miss Neagle, we might add.

Anna Neagle

—*—

At the age of 97 Bob Hope's grandfather is helping to extinguish incendiary fires in the English village where he lives. "My health at present is much better than my disposition," he wrote his grandson. "I don't mind staying up at night to see your pictures, but I hate to have to miss my sleep just to put out some fires."

Meanwhile Bob is slated to do another of those hilarious comedies with Paulette Goddard; it's called "The Murder Farm," and sounds as if it might even top "The Cat and the Canary" and "The Ghost Breakers," their previous collaborations.

—*—

Agnes Moorehead, who plays the mother in Orson Welles' remarkable "Citizen Kane," first encountered Welles when he was five and she was not much older. He strolled into a hotel lobby with his father, describing a concert which he had just heard, and doing it so dramatically that she never forgot him. She makes her film debut in "Citizen Kane," and gives a beautiful, sincere performance. In fact, the whole cast does that—you forget that the people on the screen are acting, because they seem so real.

—*—

Barbara Stanwyck and Robert Taylor didn't tell even their best friends that they were going off on that West Indies cruise; waited until just before the boat sailed to send telegrams announcing their plans. It's their first vacation together in 18 months, and their second trip together since they were married three years ago. They sailed as Mr. and Mrs. A. S. Brugh, hoping to avoid advance plans for ovations at their various ports of call.

—*—

ODDS AND ENDS—Warner Brothers drafted college students to man the guns in "Dive Bomber" and "The Flight Patrol"—the army draft left a shortage in the ranks of extras . . . "Robin Hood" is going to be a Republic serial, with Roy Rogers in the title role . . . Robert Cummings will be Deanna Durbin's leading man in "Almost an Angel" . . . Edgar Bergen and Charlie McCarthy are beginning their fifth year with that coffee program—and when they started Bergen wasn't at all sure that he could turn out a script a week . . . "The Pause That Refreshes on the Air" has been renewed for another 26 weeks—one of the few network shows to run all summer

Variety of Laces Introduced Into Summer Fashion Picture

By CHERIE NICHOLAS

LACE, a favorite material down through the centuries, is this season soaring to new heights in the fashion domain. Lace nowadays is being used in more ways than was thought possible in yesteryears. It is entering into every phase of fashion.

This could not be so were it not for the amazing variety of laces now being manufactured—laces so versatile that they can be used as dependably and satisfactorily as any fabric.

It challenges the imagination to realize that the usefulness and adaptability of lace has been made to cover such vast scope. Today this fabric is being fashioned into every kind of apparel—bathing suits, redingotes, hats, gloves, and most significant of all, stunning tailored jacket suits. Lace used for suits looks as if it might be a choicely patterned open weave mesh, but it isn't. It's sturdy. Next time you go on a shopping tour, look at these new meticulously tailored suits. You will see them in white or colors, and in navy and black.

There seems to be no end to the enchanting fashions that are being made of lace. Citing a few of the newest lace entries, there is the long evening coat of pastel Alencon lace over a matching sheer dress, also the practical-to-wear daytime redingote of fabriclike cotton lace, and lace capelets and stoles that are newer than jackets to wear with sheer summery dresses.

To look your radiant best at daytime summer occasions wear a simple frock of lace in a delectable color. The two frocks shown in the foreground of today's photograph illustrate this idea. The fact that the skirt of each model is pleated means that lace and pleats are continuing to play a charming duet in the new summer style picture.

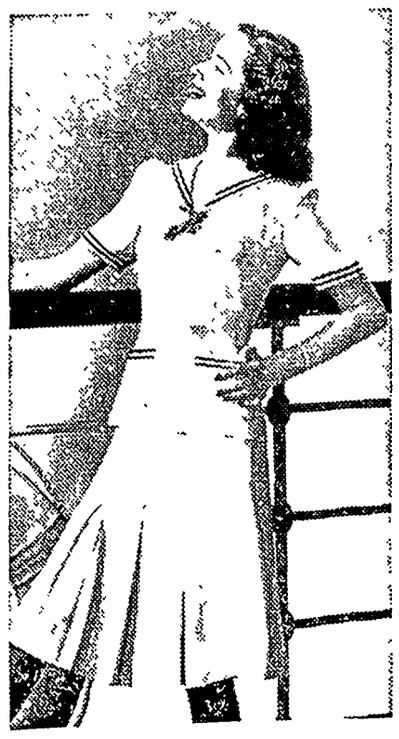
The model to the left is a slimming dress in a sheer lace. The bodice has a low V-neck in a flattering line. Shirring at the waistline gives it easy fullness. The skirt whittles the figure into slimness with its stitched pleats. Imagine this lovely model in any color you like, for it is available in all the newest shades.

To the right in the picture a lace dress for the fashionwise woman is shown. It is a type that may be worn to bridge parties, afternoons at the club and so on. It is a classic for the woman who would dress becomingly and tastefully. The skirt is knife pleated. The bodice is detailed with a grosgrain cord bow tie at the neckline. The dress is made of a delicate looking lace, softly feminine and very practical.

Centered in the picture is a jacket dress in lace. The dress with a jacket can be worn on formal or less gala occasions. It is always a welcome fashion, especially if it is lace. This model, in a dainty flower-patterned lace, has a mite of a jacket entirely scalloped with a tiny collar and puffed sleeves. The cunning jacket is wearable with other gowns. It would be especially effective worn with a black net evening gown or with a flower print that repeats the jacket color.

(Released by Western Newspaper Union.)

Middy-Type Dress



For you who sew it is easy to keep in style by using good fabrics and simple patterns. Just now middy type two-piece dresses are very much in the fashion picture. It is dresses of this sort that require dependable materials. One of the perfect "finds" this season in the white goods collections is serg-a-hed. It launders beautifully, is amazingly inexpensive and is wearable. It is just such simple frocks as this that young girls want most this season.

Vegetable Jewelry

Out California way vegetable jewelry is quite the rage. CBS Star Helen Wood strikes a new style note with a necklace of corn kernels. Almost the only item that hasn't as yet made its appearance on milady's neck is a string of potatoes. These necklaces are made of various gaily colored seeds and pods, with alternate brass beads and coral chips. Best of all, they're both light on the neck and pocketbook.

Paris Fashions Turn Masculine in Style

New suits in today's Paris fashion parade are finished with masculine precision, but a saving feminine touch is introduced by organdy blouses with frilled fronts and field flower bouquets for mannish lapels.

Closely fitted redingotes in patterned wools and silks, fine-striped wools and pencil-striped dark fabrics are among the collections. One house features tailored silk suits in checked surah and double-breasted models with horizontal stripes.

Loose backs in plain and printed crepes have full skirts shirred to hip yokes. Some are trimmed with linen, while others have linen boleros, with paillettes.

White pique trims frocks and coats, and sailor hats.

For young girls there are checked silk dresses to be worn with linen redingotes and bolero suits of checked wools embroidered with white soutache.

Silhouettes reflect the masculine line above the hips. Shoulders are natural and waists slim, and slim hips are emphasized.

Crisp Lace-Trimmed Blouses Worn With Cotton Dresses

From all indications the cotton evening skirt worn with a lingerie blouse is going to be a leading summer fashion. The one liked best is the full peasant type, made of a bizarre flower print topped with a wispy lace-trimmed snowy white blouse. Very attractive skirts are being made of gay plaid ginghams, also of colorful sheer, crinkled cottons. Skirts of cotton lace, with dark jersey fitted bodices, or long-torso middies of jersey seem to please the young smart set. The 'teen age also has a yen for skirts made of flowered glazed chintz.

Lower Heels

Good news! It is interesting to know that shoes are being built for comfort as well as smartness. The latest models are made of indescribably soft leather, and the heels are much lower.

Going Places

By CORNELIUS VANDERBILT, JR.

Tennessee Valley

DROVE to the Norris dam, the eastern end of the vast TVA system. Though not nearly as spectacular as Boulder or Bonneville, it forms the basis of one of the biggest developments of its kind in the world. The annual rainfall in the Tennessee valley averages 52 inches. This means about 6,000 tons of water fall upon every acre of land each year! The first six inches of topsoil upon an acre of land weighs approximately 1,000 tons. If this topsoil is without vegetation, the effect of 6,000 tons of water upon 1,000 tons of top soil is displacement. This means abandoned farms, disintegrated homesteads, stark poverty for a potential land of plenty. It means clogged streams, flooded cities and countryside, death and destruction. It is the opposite of the dust bowl, but the effect in the end is the same. It was in recognition of this that congress, under pressure by the President, created the TVA. Today it serves 330,000 customers in seven states, saving them over $8,000,000 a year, and brings in an annual income of about $15,000,000 to TVA.

Of the 26,000,000 acres comprising the Tennessee valley watershed, about 18,000,000 are in farms, the rest is wooded, privately and publicly owned. Some 27,000 individual farmers cultivate 4,000,000 of these acres. In addition, more than 50,000 tons of concentrated phosphatic fertilizer have been produced for distribution here. The Wilson dam and Muscle Shoals operate nitrate plants which have been taken over as part of our national defense act to produce new forms of plant food with which to fertilize the soil. Nearly 250,000,000 trees have been planted in a program designed to overcome serious soil erosion, as well as to provide a new source of forest income.

Today, however, TVA is about three-quarters built. Four river dams have been completed; four more are in the process of construction. About 6,600 miles of rural power lines, 84 per cent of which go to areas not previously served, have been built. Included are 1,500 miles of high voltage lines. Valley people now use 58 per cent more current than in 1932, compared to a 22 per cent increase for the nation.

The valley authorities manage about 1,000 single houses, 22 dormitories, dozens of schools, fire stations, water systems, sewage disposal systems, miles of roads, streets, walks. Half a dozen towns are being rebuilt and replanned. Last year over 2,000,000 persons visited the area. On the Norris reservoir alone there are more than 1,800 motor boats, sail boats, pleasure craft. It is odd to see 50 and 75-foot cruisers on parking lots in nearby towns for sale—500 miles from the sea, away up high in the Cumberland mountains.

* * *

Stopped at the Hermitage before driving through Nashville. I never miss a pilgrimage whenever I am in the locality. This was the home of Andrew Jackson, seventh President of the United States. He was of Scotch-Irish lineage. Was born on March 15, 1767, near the line between North and South Carolina. In 1828 he was first elected President, and in 1832 re-elected. His administrations were the first to be classed as "democratic"; they were marked by the force and power of his personality. Indirectly he established the sub-treasury system by which the government became custodian of its own money. But the financial men of his day fought him unmercifully. Jackson was the first President to marry a divorcee. Church people and the bigoted lashed him fiercely for this. These attacks caused deep distress to his wife, who died while they were at their zenith. Jackson never forgot her and mourned her to his death. In the museum at the Hermitage is his silver study thermometer, which is still working—the only thing "living" since his day!

* * *

HEARING THINGS: New York buzzes with refugees of all sorts and hues. For many of them one cannot help but feel sorry; for others one has not strong enough language. Few Chicago racketeers at their height were ever responsible for such wholesale crimes. One poor gent arrived in New York recently by plane with only the clothes on his back and $8,000,000 worth of securities on his person. His wife, poor thing, traveled with $5,000,000 worth of jewels in her handbag. But she "guaranteed" U. S. customs officials she would not sell a gem in this country.

* * *

SEEING THINGS: Back in New York in a hurry. Notice milady is wearing "python and purple" this season. Her hats seem to be made mostly of bicycle clips to which flowers, vegetables, fruit, etc., have been affixed. She carries a cape about her shoulders instead of a coat, and sometimes also carries a cane! Down at the Transatlantic Clipper port on Long Island to see Baron Wrede, the Finnish nobleman off. He has been in this country for nine months, but returned home to see his mother and family.

'Cosmic Phoenix' Stops Sun From Being Consumed

A few years ago, a new problem in connection with the sun—the fiery body 92 000 000 miles away from the earth—began to trouble many scientists Astro-physicists figured that in radiating life-preserving heat and light, the sun burns up about 4,000,000 tons of its mass a second.

At that rate, it was at first argued, the sun should burn itself out within several thousand years. But there was strong evidence to indicate that it had been radiating for at least 5 000,000,000 years As a result, it was concluded that somehow the sun kept burning without being consumed, being a sort of "Cosmic Phoenix" that perpetually reconstructed itself from its own ashes

The problem, therefore, was to find out how this was done. Diligently, Prof H A Bethe of Cornell university, Ithaca, N. Y., sought the answer He announced at the annual meeting of the American Physical society in Washington that he had found it

Professor Bethe's story was that the sun utilized its huge store of atomic energy to produce heat and light, and that carbon and hydrogen played the leading roles. As he saw it, the sun went through a six phase cycle, during which its carbon, though seemingly consumed without pause by hydrogen flames, really emerged at the end of the cycle undiminished in quantity.

Laboratory experiments covering each phase of the cycle, Professor Bethe declared, proved that the sun could eat its carbon and have it too What creates the sun's energy, he asserted, is the burning of its vast amount of hydrogen gas. The carbon merely acts as the releasing agent for the hydrogen Thus, in the cycle, which Dr Bethe estimated continues for 6,550,000 years and then repeats itself, part of the sun's hydrogen mass is depleted but none of its carbon mass is He said the sun is equipped to radiate for another 12,000,000 years

Leprosy Misconception Demolished by Author

Public opinion concerning leprosy is about where it was in the Middle ages, the department of public health has said, when it struck the coldest kind of terror to the hearts of men

In an article by Emory Ross many of the current misconceptions anent leprosy are demolished. The article states that the disease is not highly contagious Contrary to general thought, early cases of leprosy are not sent away, but are allowed to remain at home, to hold jobs, to mingle with the public, since the disease in its early stages can be permanently cured Only the advanced cases are sent to the only hospital for leprosy in the United States, at Carville, La

The specific mode of infection is not yet known The lepra bacili is believed to breed in poverty-stricken and unsenitary places After exposure the disease does not manifest itself for the following six years.

Proper nutrition, fresh air and exercise are the important elements in the treatment of lepra patients. Psychology also plays an important part, as in many cases progress in arrested cases results from restoring the patient's feeling of importance as a human being.

Nutrition in Foodstuffs Is Subject of Research

With the second unit of the new federal nutritions laboratory at Cornell university in Ithaca, N. Y., now under construction, one of the most comprehensive research projects destined to step up the nutritional values of foodstuffs and improve human well-being will be started this year.

An appropriation has been made available for three laboratories and greenhouses on the campus. In these experimental buildings the department of agriculture will center investigations extending throughout the nation.

Prof. L. A. Maynard, head of the department of animal nutrition at Cornell and long recognized as one of the outstanding authorities in the research fields, has been appointed director of the laboratory. He will work in conjunction with Dr. E. C. Auchter, chief of the federal bureau of plant industry.

The research program will attempt to inject a new note into the production of foodstuffs for animals and man. One of the early steps will be a survey of mineral resources in the soils of the United States—not the minerals that are used as precious metals of industrial materials—but the vital elements that human beings must get from foods, which in turn obtain them from the soil.

One of the objectives of the program is to determine the exact amount of the mineral necessary for the improvement of the plant life, and consequently the animal.

Ancient Indian Mummies Found in Arizona Cave

Three perfectly preserved mummies, complete with the feathered robes and trappings in which they were interred during the Thirteenth century, have been discovered in northern Arizona by University of Arizona scientists.

Headed by Dr. Emil Haury, of the university staff, a party made the discovery in virtually unexplored regions in the northeastern section of the state while searching for evidence and remnants of the great Pueblo culture of 700 years ago.

The mummies were found in a holy shrine called the Painted Cave, apparently a place of worship for the Pueblo tribesmen.

The bodies—one of a woman and two of children—were wrapped in robes of turkey feathers and ornately colored blankets.

Despite the fact that the mummies were almost seven centuries old, Dr. Haury said that some of the feathered robes "were almost perfectly preserved." One, he said, still was soft and silky to touch.

The walls of the cave were covered with designs and drawings representing Indian conceptions of their gods and real-life scenes. Dr. Haury said the Pueblos painted the pictures with their fingers, using a paint made of desert plants and roots.

The mummies were surrounded by bowls of corn, other food and jars which apparently once contained water, interred to help them on their long journey to the "happy hunting ground."

Livingstone Memorial

A marble slab on the tomb of David Livingstone, the explorer, bears the following inscription:

"Brought by faithful hands over land and sea, here rests David Livingstone, Missionary, Traveler, Philanthropist. Born March 19, at Blantyre, Lanarkshire. Died May 4, 1873, at Chitambo's Village, Ilala. For thirty years his life was spent in an unwearied effort to evangelize the native races, to explore the undiscovered secrets and abolish the desolating slave trade of central Africa, where with his last words he wrote: 'All I can say in my solitude is, May Heaven's rich blessing come down on every one—American, English or Turk—who will help to heal this open sore of the world.'"

History of Wrought Iron

Wrought-iron hardware continues to find a place in the modern home. First used in the East in Colonial homes, the earlier designs were wrought by English craftsmen. As a result, hinges, door handles, and other metal which went into the home reflected the English tradition. In Florida and the Southwest the Spanish influence was noticeable, and wrought-iron designs had different characteristics. Either of these Colonial designs may be used in modern homes where they harmonize with English or Spanish precedent. The two types should not be confused by the home owner. When properly related, wrought-iron hardware adds interesting detail to the home.

College Clothes Auction

If a Radcliffe college of Cambridge, Mass., student has to watch her pennies, she can outfit herself at a cost of 63 cents. Miss Rose Yarmudian, director of the school's lost and found department, reports that at a recent auction students bought a hat for 10 cents, a dress for a quarter, a pair of stockings for eight cents, shoes for 15 cents and gloves for five cents. For another dollar the lost and found department supplied them with an evening wrap and bag, a regular pocketbook, a sports outfit, a raincoat and overshoes. Three times a year an auction is held of all things lost on the campus and not claimed.

Soil Particles Graded By Novel 'Wind' Gadget

When dust storms of 1934 and 1936 darkened the sky from the Southwest to the Atlantic ocean the grit that settled at Cincinnati was finer than the particles dropped at Kansas City, and dust deposits at Washington, New York and Boston were progressively finer. A modification of what happens in a "duster" is the basis of a new device for grading soil particles developed in the soil conservation service laboratory at the California Institute of Technology.

When the laboratory staff needed soil particles sorted accurately according to size it developed a simple machine that creates a gentle "duster." The machine drops assorted sizes of sand or silt particles in suitable drawers, the coarser bits nearest the feeding hopper and the finer particles at a distance. For the most accurate sorting the staff members run the dried sand or silt through twice, first in a rough sifting by a slow breeze and second a resorting of fairly uniform material in a brisker but still mild draft.

The sorting machine is a bell-mouthed wind tunnel about 15 feet long with a grating as a floor to let the sorted material drop into the collecting drawers below. A small electric fan draws air through the tunnel at not more than 2½ feet a second, less than two miles an hour.

Dry sand and silt is fed in a thin sheet from a hopper on top of the tunnel. Larger particles drop almost vertically. The finer the sand or silt particles the farther they are carried by the breeze. Particles of equal size drop at equal distances from the feeding apparatus. Walls of the tunnel are made as smooth as possible to prevent eddies, but there is some difference in the air action near the walls, so the drawers have partitions at each end and this material is rejected. What drops in the central compartment is graded more accurately than is possible with fine sieves. The machine will handle from 60 to 100 pounds an hour.

13th Century Mummies Found in Arizona Cave

Three perfectly preserved mummies, complete with the feathered robes and trappings in which they were interred during the Thirteenth century, have been discovered in northern Arizona by University of Arizona scientists.

Headed by Dr. Emil Haury of the university staff, a party made the discovery in virtually unexplored regions of the northeastern section of the state while searching for evidence and remnants of the great Pueblo culture of 700 years ago.

The mummies were found in a holy shrine called the Painted Cave, apparently a place of worship for the Pueblo tribesmen.

The bodies—one of a woman and two of children—were wrapped in robes of turkey feathers and ornately colored blankets.

Despite the fact that the mummies were almost seven centuries old, Dr. Haury said some of the feathered robes "were almost perfectly preserved." One, he said, still was soft and silky to touch.

The walls of the cave were covered with designs and drawings representing Indian conceptions of their gods and real-life scenes of contemporary life. Dr. Haury said the Pueblos painted the pictures with their fingers, using a paint made of desert plants and roots.

The mummies were surrounded by bowls of corn, other food and jars which apparently once contained water, interred to help them on their long journey to the "happy hunting ground."

Oysters' Protection

In 1375, King Edward III of England forbade the collecting or removing from their beds of young oysters in any month of the year except May. His edict also prohibited the collecting of full-grown oysters from May to September. Both of these regulations represent the earliest known law ordering such protection, and were presumably due to biological experiences which indicated even in those early days the necessity for conservation of natural resources, says Dr. Fritz Haas of the Chicago Field museum. Furthermore, the measures taken were in accordance with the dictates of modern science, and thus the proper ones to achieve the purposes sought.

When Roll Was Called

Two years ago citizens of Granger, Wash., organized "the finest volunteer fire department in central Washington" and named Darwin Davis as assistant chief. But now they're considering all sorts of dire action against Davis because he spoiled the chance the department had awaited for two years. For 24 months members of the department drilled faithfully, waiting for the day they could show their prowess in a real fire. It finally came and when the fire alarm rang the members turned out in force—all except Davis. Not waiting for their assistant chief, the volunteer firemen dashed to the scene.

Sprinting Pig

Perhaps looking forward to the day when a fleet foot might save him from the slaughter house, a baby pig at Wilton, N. H., tries his luck at outdistancing automobiles. The pig races a car going in one direction, but reverses its track when it meets one traveling the other way.

Injured

Beverly Flint, 8, of near Hartley, suffered a broken neck when she was thrown from a frightened horse She died a few minutes later.

Habit

For the past four successive years, a child of the W F. Dorrow family has been valedictorian of the Ventura high school. The winners have been Edgar, Norbert, Hilda and Elda.

MISTAKE

Gasoline spilled on the floor of the Audubon Implement Co. store at Audubon was mistaken for water by Carl Frederickson Intending to cool a hot welding iron, he put it in the "water" on the floor. Naturally, it did not cool, but by prompt use of fire extinguishers prevented much damage.

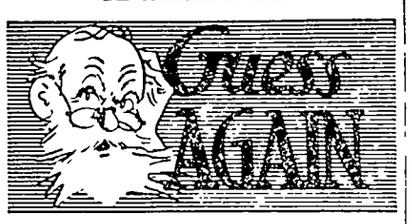
GREETED

Robert Thompson and his mother of Anamosa were enthusiastically greeted by the Methodist Church congregation on Mother's Day It was the first time the two had been to church together since Bobby had been stricken with infantile paralysis Sept 7, 1940.

PLANTS CORN

Peter Troy of DeWitt does not let his 80 years keep him from the corn field when it comes time to plant corn Although he has retired, Mr Troy still takes an active interest in the farm work, especially when the spring work begins

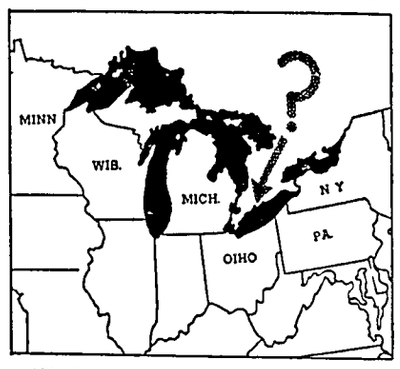
To coat stuffed dates or dried fruit evenly with sugar, put the powdered or granulated sugar in a paper bag drop the fruit in and shake



● *Do you have what the psychologists are prone to call an "encyclopedic mind"? Try this quiz and find out. Simply read the question, indicate your choice of answer in the space provided, then check for correctness, tally score for your rating.*

(1) In 1926 this girl swam the English Channel: (a) Eleanor Holm, (b) Gertrude Ederle, (c) Helen Wills Moody, (d) Virginia Coleman. ☐

(2) People have reason to fear the "gestapo" because it is: (a) prisor slang for the lethal gas death chamber, (b) insect carrier of the deadly sleeping sickness germ, (c) German secret police, (d) scientific name for infantile paralysis. ☐



(3) Maybe not the greatest, but one of the Great Lakes indicated by the question mark and arrow is Lake: (a) Erie, (b) Huron, (c) Placid, (d) Ontario, (e) "Of the Woods." ☐

(4) If someone pegged an igneous rock at you besides knowing enough to duck you would know that it was: (a) sandstone, (b) rock candy, (c) all in fun, (d) formed from molten lava, (e) glacial deposit. ☐

(5) Samuel Insull who died in 1938 will long be remembered because he: (a) discovered insulin, (b) wrote "Insult and Injury," (c) made and lost a fortune in "rock wool insulation," (d) made and lost a fortune in public utilities. ☐

(6) "It is altogether fitting and proper that we should do this," is quoted from: (a) The Rains Came, (b) Gettysburg Address, (c) Declaration of Independence, (d) Preamble to U. S. Constitution. ☐

(7) An actuary is: (a) a tired actor, (b) ante-room in a Roman Catholic church, (c) insurance statistical authority, (d) an arm of the sea at a river's mouth. ☐

"GUESS AGAIN" ANSWERS — Tally Score Here

1. (b) is worth 15 pts. . . . ____
2. Another 15 for (c) . . . . ____
3. Right the first time (a) 10 pts. ____
4. 20 pts for (d) . . . . . ____
5. (d) again for 15 pts. . . . ____
6. Plus 15 for (b) . . . . . ____
7. Final 10 for (c) . . . . . ____

YOUR RATING: 90-100, excellent, 80-85, very good; 70-75, average! 60 and below—you're sane but you lack that "encyclopedic mind." TOTAL . ____

COLLAPSED

When Clyde Durham, an Albia trucker, drove onto a bridge over the Red River west of St. Ansgar, with a truck load of corn, the bridge collopsed. The bridge was one built in the 1890's to replace one destroyed by a tornado. The town of Carpenter was darkened, as the power lines were attached to the bridge.

Anniversary

Buena Vista College incorporated in Storm Lake on July 9, 1891, is this year celebrating its fiftieth anniversary at that place. The college was started six years earlier in Fort Dodge.

Log House

Bill Carmichael, of West Union, was born in a log house 80 years ago and to this day still lives in one.

Philadelphia Lawyer Needed for Radio License

If you ever get the idea that you would like to get a license from the government to operate a radio station—don't do it—unless you are prepared to answer hundreds of questions, intimate ones and other kinds and be prepared to place on exhibit scores of confidential papers ranging from your birth certificate to when your Aunt Mamie had her last operation. The Federal Communications commission requires the applicants to fill out a 41-page questionnaire.

If you or your wife has ever received a parking tag, you must so state; you must answer the question as to whether you or any person identified with the proposed radio station has ever been sued or any proceedings brought against you.

Was your dog ever picked up by a cop for letting him run loose? Are you divorced and if so, attach a copy of the divorce decree together with a complete record of the status of all your alimony payments Other questions include "from what source did the fund for this investment come? what kind of programs are to be broadcast and how many sustaining programs will you have?"

According to one writer, the questionnaire appears to have been confected by a genius with a high sense of responsibility but who was not overlooking any bets.

Substitute for Old Chores

"Various factors in modern life have made it more and more difficult for growing children to take an important part in family activities," says Prof Ernest Osborne of Columbia Teachers college.

"Chores in a city apartment or even in a suburban home are almost non-existent It is only natural that children are given little chance to share in the remaining responsibilities of the home or in the planning of home activities.

"It is necessary for parents to make conscious efforts from the earliest years of the child's life to include him in the planning of family activities and to allow him to assume certain responsibilities for which he is adequate Only as he gets the feeling or the satisfaction that comes from helping to plan a vacation or some other project, will he develop the basic pattern of cooperation essential to good citizenship."

Sulfamido Cuts Death

Dr Wallace E Herrell and Dr. Alex E Brown of Rochester, Minn., report that the use of sulfanilamide, sulfapyridine and sulfathiazol has cut the death rate of septicemia, or blood poisoning, in half since the drugs were first introduced. Their report was based on 155 cases observed from 1937 to 1939, which were compared with the same number of cases from 1934 to 1936, before the sulfamido drugs were available Their analysis showed that only 32 per cent of the septicemia victims from 1934 to 1936 recovered, as opposed to a 60 per cent recovery in the 103 patients from the 1937 to 1939 group who received treatment The other 52 patients in the later group, they said, contracted the infection before the drugs were in widespread use, and the recovery rate in their case was 36 per cent.

Checks Found

Two government checks, totaling $676 were found in a peculiar place last week by Otto Roepke, Eagle Grove. The checks, made out to Harry M. Noel of Peterson, found in a railroad stock car journal, had been damaged but slightly They evidently had been stolen stolen from the mails.

'Bluegrass State' Title

Minnesota has laid claim to the title of the "Bluegrass State"—in defiance of Kentucky and all her colonels. Minnesota has the support of A. L. Brandon, of St. Charles, Ill., president of the Golf Course Superintendents' association. After visiting several Minnespolis golf courses Brandon said: "Fairway grass is bluegrass, and there is more of it in Minnesota than Kentucky. What is more, Minnesota's bluegrass is a better and sturdier specimen."

Melon-Tasting Device

When it comes to sample-tasting muskmelons, the tongue takes a back seat to a mechanical "taster" devised by two University of Minnesota horticulturists. The process is simple. A drop of melon juice is placed on a small plate and light passing through it reflects to show the exact sugar content or sweetness of the melon. The "refractometer" is twice as rapid as the old method of personal tasting, the horticulturists said.

Insects Foil Enemies

There are insects which mimic some actual object, twigs, leaves, sticks or moss, and in each case the object which the insect has imitated is just what its natural enemies are not interested in, so that it is not likely to attract their eye. For example, the leaf insect, so long as it remains still among the foliage, is safe, because the birds, squirrels and lizards which prey upon it do not eat leaves.

John Adams Fashionable Man

Like all persons of rank in those days, John Adams wore an embroidered coat, silk stockings, silver buckles on his shoes, and might be called a very fashionable man for that time. He is described with "his round, ruddy face, framed by a powdered wig, wearing a black velvet suit, knee breeches, yellow gloves, silk stockings." He was almost fanatic on the subject of titles

Impatient With Our Lives

Most of us are inclined to get impatient over the chapters of our life that do not please us. We want to hurry on to the next, forgetting that to live the "now" greatly is the only way to fit ourselves for what may be coming.

Birth Rate of Indians Shows Upward Trend

The Indian is no longer the "vanishing American," for his birth rate is increasing faster than the white man's, western Indian service officials disclosed in Salt Lake City recently.

The Indian birth rate in Utah alone is three times the national average for all races and in other parts of the United States is even higher, C. C. Wright, superintendent of the Uintah and Ouray agency at Fort Duchesne, Utah, said.

The birth rate among the Utes and Piutes under jurisdiction of the Indian service is 55 4 per 1,000 population, while the national average for all peoples is 16 7 per 1,000.

Another cause for the Indian's revival as a race was attributed to modern science. While the white man's death rate remains about the same from year to year, improved methods of sanitation, care of maternity cases, control of children's diseases, and improved economic conditions are slashing the Indian's death frequency.

Addressing a meeting of Indian service officials, Joseph C. McCaskill, assistant United States commissioner of Indian affairs, said that no group in the United States had a higher rate of natural increase than the full-blooded Indian. The Navajos of southern Utah and northern Arizona are increasing faster than any other race in the nation.

The Indian population of the United States reached its lowest ebb between 1900 and 1910, McCaskill declared. Since then the population curve has taken a sudden upward swing.

Figures show that the rate of intermarriage has greatly decreased within the last few years and McCaskill predicted the 1940 census would reveal an almost complete end of intermarriage and a building up of the full population.

'It's a Long, Long Trail'—Through National Forests

If a motorist set out this year to travel all of the highways and truck trails in the 160 national forests, it would take more than four months of steady driving, 12 hours a day, at an average of a little better than 40 miles an hour.

Then if he stopped driving and set off to walk the trails which are used by fire fighters, sheepherders, cattlemen, recreationists, and others of the millions of visitors to the national forests each year, it would take a little more than 15 years traveling 20 miles a day, says the forest service, United States department of agriculture.

Even then the visitor would not have seen all of the 273,000 square miles of Uncle Sam's forest lands, although he would have passed some of the 70,000 miles of trout streams and many of the thousands of lakes and would have visited all of the 3,600 developed camping and picnic grounds.

Reptile Roommates

Harvey Camin, 17, of Cleveland, Ohio, has been keeping snakes in his rooms since he was four years old and now sleeps with a number of the reptiles, their cages less than a foot from his head "My snakes don't hurt me," he said, permitting a Georgia cornsnake to coil itself about his neck. "If one should happen to bite me I just pour a little iodine on the wound" Harvey watches his pets in their homemade orange-crate cages and keeps a book on the reptiles' feeding, intelligence, mating, growth, drinking and peculiarities.

Harvey also has a horned lizard from the Mojave desert, a leopard lizard, three turtles, one crocodile and a number of frogs

Parents were an obstacle to Harvey's collection for years, but they've become used to the idea now.

Hiking at Age 75

To Niles Smith of Massillon, Ohio, who is 75 years old, a 20-mile hike each day is "good exercise." A liking for window-shopping is the reason for Smith's daily jaunts. He lives almost exactly half-way between the downtown sections of Massillon and Canton, on the Lincoln highway. Since he has difficulty in deciding which city to visit, he often compromises and looks at the shops in both. Streetcars, Smith explains, are not for him. "If you have any regard for your health," he says, "you'll walk." The secret of healthful walking, according to Smith, is to swing your arms. "Exercise every muscle in your body," he advises, "and you'll drive out all the poisons in your body and probably live happily ever after."

Modernized Farm Bathrooms

In thousands of farm houses throughout the country the many benefits and advantages of running water under pressure are being made available through the swift advance of rural electrification. The bathroom in the farm home can now be just as up-to-date and attractive as the bathroom in the city home. With the installation of an electric water system, not only may the bathroom be modernized but washrooms and lavatories for the hired hands may also be easily improved. When the bathroom is located on the second floor it is wise to provide the first floor washroom with a lavatory and a shower compartment.

Tobacco Auctioneers May Chant 'Swan Song'

The colorful sing-song chant of the tobacco auctioneer soon may be a thing of the past in the tobacco-growing Southland The chant may soon become a "swan song."

For more than a hundred years the high-pitched unintelligible chatter of the auctioneer has been closely associated with the auction of tobacco. The high speed developed by these auctioneers has enabled them to cut down to 10 seconds the average selling time required for a pile of tobacco.

But recent changes in auctioneering methods proposed by agricultural leaders would put tobacco selling on a streamline basis by inauguration of "block selling."

Despite the fact that it has grown from a comparatively insignificant crop to one with a farm value of $300,000,000 annually in the United States, leaf tobacco has been sold by the present auction system since early in the Eighteenth century. Virtually all of the domestic crop is sold that way now.

W. P Hedrick, chief marketing specialist of the North Carolina department of agriculture, has revealed that in addition to experiments in block selling that have been undertaken recently, other innovations that may change the auction system include federal inspection service and daily government crop reports.

The experiments in block selling grew out of the inauguration of tobacco inspection services in 1929.

Under this scheme, and with funds provided by the government, tobacco-grading experts were allotted to various markets throughout the South. These experts examined each pile of tobacco carefully before the sale, tagging each pile according to its grade, of which there are approximately 70 different classifications under the government grading system. Then the grower, armed with a government report giving the average price which each grade brought during the corresponding week of the previous season, could know exactly what price his tobacco should bring.

Thus the federal inspection service, coupled with daily market price reports, gave growers a check on tobacco prices.

Faster American Ships Is Engineering Forecast

The next few years should see heightened activity in American shipbuilding, according to the Engineering Foundation.

The foundation, in a report issued in New York by its welding research committee, said that American ships will be "noted for their relatively high speed and general efficiency" because of an approximate 16 per cent saving in ship weight through welding and improved machinery.

"The saving in weight has reached about 1,000 tons in 6,000 tons, which represents about 16 per cent," the report said. "Approximately 800 tons of this weight decrease may be attributed to the use of welding and 200 tons to the improved machinery weights. The amount due to welding represents about 13 per cent saving in hull weight There is available, then, an increase of more than 6 per cent in earning power, over 5 per cent of which is a result of welding."

The foundation said that tests had showed that the completely welded hull brought about appreciable fuel savings because of the elimination of laps and consequent reduction of resistance. Savings through welding and use of improved machinery, it said, in some instances amount to 25 per cent

Woman Adirondack Guide

Slender little Anne Rice of Saranac Lake, N. Y., balances a rifle as neatly as a teacup. She is as much at home in a wild Adirondack forest as in a ballroom, has a guide's license to prove it, and she's indignant about careless hunters who accidentally shoot their companions. The disarming mite of a woodswoman and sculptress—she's barely shoulder-high to the average man—said there's no such thing as a hunter mistaking companions or others for game if he's a sportsman. He'd first make certain he was shooting legal game. "Any shooting accident where a person is mistaken for a game animal is done by a potential game law violator," she reiterated. "Such a person would shoot blindly at a movement of leaves, or a noise, apparently not caring what caused it. He wouldn't wait to see his target—some reason for shooting. The principle of shoot first and investigate later often ends in tragedy."

Wild Hungarian Wolves

Enormous packs of wolves, sometimes numbering as many as 1,000, have descended from the mountains to the plains of the Hungarian-Carpathian region and have become a great danger to the population, according to a report from Budapest. The wolves, half starved, have been attacking herds of deer, and outside Raho the remains of 160 deer were found after a wolf raid. Other herds have fled from the wilderness into the villages exhausted, and inhabitants have put them in stables where they are being fed. The villagers have organized bands to fight the wolves, it is said. One peasant was found torn to bits in a field recently.

'Death Ray' Is Used For Killing Bacteria

Scientists are experimenting with a "death ray" so effective that it may come into wide use.

"Unlike most publicized "death rays," the newest one will spend its lethal force on germs, not mankind. Already a scientific fact, the ray may be responsible for a new "germless" air in air-conditioned auditoriums and public meeting places.

At the convention of the American Society of Heating and Ventilating Engineers, held in Cleveland, Dr. Harvey C. Rentschler, research director for a large electrical company demonstrated his microbe death for the first time.

He explained the ray as a virtual "blitzkrieg" to microbes, a deadly explosive weapon that blasts its germ victims to pieces in one-thousandth of the time required to blink an eye.

In proof of his claims for the "death ray" Dr. Rentschler staged a laboratory "blitzkrieg" in the assembly hall. A highly magnified view of microscopic life in a drop of water was projected on a screen and the engineer-observers saw swarms of bacterial life cramming the projection.

Suddenly there was a sharp, staccato report, like a pistol shot. All life ceased. The bacteria had been literally blasted to pieces by the ultra-violet "shot," as it tore its way across a spark gap.

In the industrial use of the ray for air conditioning, Dr. Rentschler said, a wave length of ultra-violet most fatal to bacteria will be produced by the discharge of electricity through inert gas and mercury vapor between electrodes at opposite ends of a slender tube.

Modest Florida Plumber Likes Big Game Hunting

Modest and mild-mannered J. L. Graham, 60-year-old proprietor of a modest plumbing business in Clearwater, Fla., is a man of simple tastes—simple, that is, except for his favorite recreation.

When Graham goes on a vacation, he gathers up his collection of high-powered rifles and journeys into the depths of the African jungles to hunt big game.

Graham, a spare-framed, white-haired man whose erect carriage and clear eyes bespeak physical fitness unusual for his age, recently returned from a four-month expedition to Northern Rhodesia, locale of the Stanley and Livingstone saga.

He bagged a rhinoceros, two lions, a tiger, a hippopotamus and about 35 smaller animals. The unassuming plumber explains that besides his four African expeditions, he has stalked large game in Louisiana, Texas and New Mexico.

One explanation of Graham's ability to indulge in the sport of tycoons and maharajahs is that the cost of his last expedition, for instance, was $1,100 compared with the $5,000 to $50,000 often spent by big game hunters.

"In the first place, I traveled on a freighter instead of a luxury liner," he pointed out. "I didn't play shuffleboard and deck tennis, but it was a fine trip just the same.

"Then when I started out on the actual hunting trip, I didn't hire a whole village of carriers as do some hunters. I hired only four native boys."

Graham has two explanations of how he affords it: 1. He invests his money wisely. 2. He has remained a bachelor.

Explorer's Idea of Antarctic

Vilhjalmur Stefansson, noted Arctic explorer, believes that the United States is wise to acquire territorial rights in the Antarctic. The vast "down under" continent, he says, may prove to be a valuable source of petroleum, radium and food and in the near future it may become valuable for long-range weather forecasting. "If the land in the Antarctic proves to have the worthlessness which now is ascribed to it, then it will be unique in the history of the world," the explorer said. "Nearly all newly discovered lands have been considered worthless" He said the value of the Antarctic could not be ascertained because no one could look into the future. "Who would have known a hundred years ago that Canada some day would become an important source of radium?" Stefansson asked. "Benjamin Franklin was a wise man, and he was smart enough to make a good-sized fortune. But he knew about petroleum in western Pennsylvania and, despite his wisdom, he could not conceive its commercial value."

Youthful Music Writer

George Garratt, 21, of Mount Lebanon, a suburb of Pittsburgh, has composed 20 unusual selections. He is studying piano, composition and conducting technique. Already played in public concerts in Texas, Detroit, and Chicago, two of Garratt's compositions are being considered for publication by the Composers Press in New York. "Many people ask me if I'm worried when my compositions are played in public without first being published," Garratt said recently. "I'm not, because there is only a slight chance of classical pieces being stolen; there is a much greater chance with popular pieces." The youthful composer's works include "Symphonic Variations," a piano concerto, a suite for two pianos and several short selections.

Paul Bunyan Enthusiast Tells of 'Double Winter'

An old-timer, who likes to spin yarns of the great Paul Bunyan, sat in the back room of a store in Bemidji, Minn.

A severe cold wave, driving down from the Arctic, had dropped the temperature to 30 degrees below zero.

"Bathin' weather," the old-timer sneered.

He cocked his feet on the stove rail and inquired:

"Ever hear about Paul Bunyan and the Year-of-the-Two-Winters?"

And then, over the crackle of the fire, he told of a winter so cold that the snow turned blue.

The tale is only one of many that compose the legend of the mythical Paul Bunyan.

According to old timers:

Bunyan built Lake Huron as a corral for milk whales when he learned whales were mammals.

He started the Mississippi river by emptying a pan of dishwater.

He built a fire under a lake in which he had dumped a carload of peas and a herd of oxen, and made pea soup for his logging crew. (He brought a paddle-wheel steamer from New Orleans to cruise around the lake and stir the soup.)

He brought the Swedes to Minnesota after selling the state to the king of Sweden.

And went through the longest, coldest winter ever heard of.

It was so cold the snow turned blue, and it grew progressively colder until next fall, when winter set in again.

Loggers in Paul Bunyan's day grew beards to protect their faces, and the beards grew to tremendous lengths.

"Some of the boys had the ends of 'em knitted into socks," the old-timer said.

A low-lying cloud bank was swiftly converted into a mountain of solid ice. That was the first of the glaciers.

The mercury in Bunyan's thermometer dropped so low it was three years climbing back to zero. Snow fell so heavily that Paul had to dig down to find the forests, and loggers were lowered on ropes to fell the trees.

"It was so cold," the old-timer said, "the wind froze up in sheets."

Bunyan then had it sawed and stored in chunks for summer.

U. S. Has 'Brain Jitters,' Says Mental Specialist

One out of every ten persons in the United States either has been, is or will be at least slightly unbalanced mentally, in the opinion of Dr. F. H. Zimmerman, veteran superintendent of the Colorado State Hospital for Insane.

The fast pace of modern life and mental strain during a decade of economic depression has given the nation "brain jitters," Dr. Zimmerman declared.

Dr. Zimmerman blamed "the efficiency of modern medicine" for part of the upswing in insanity.

"Life expectancy has been increased in this country from 40 years to a new world high of 60 years," he said. "Insanity is more frequent as humanity grows older."

Latest national statistics, Dr. Zimmerman said, show that the pace of life in the nation's capital apparently is hardest on the mind. The national average of persons confined in state mental hospitals, he said, is 288 for 100,000. Washington, D. C., tops the nation with 849 for 100,000 and West Virginia, near-by, is lowest with 168.

Intelligence or Looks?

Being intelligent is fine for the co-ed who wants to get good grades, but it won't help her get her man, according to tests in popularity conducted by psychology students at Arizona State college. Instead, the tests revealed, she should develop herself in the art of entertainment if she expects to gain a man's affections. The tests, conducted in a class of more than 50 students, showed that ability to entertain was the most sought-for trait not only in women but in men as well. Dr. John J. Harton, head of the psychology department, said the most amazing part of the survey was not that ability in entertainment was found to be the most desirable quality but that intelligence was ranked as the least important trait in the list of eight. As far as men were concerned, a woman's physical appearance was an all-important factor.

Another Arizona 'Ghost' City

Clemenceau, Arizona's last hope for rebirth as an important center of the nation's copper industry recently vanished and the community appears destined to join the ranks of Arizona's "ghost" cities. The decision that seemingly spelled ultimate abandonment of this mining community was told in a few brief words—that the $5,000,000 copper smelter would be dismantled. Clemenceau sprang into existence when the price of copper shot upward in 1917. Around the smelter chimney, a moderately thriving community grew up.

When times were good, the population included more than 1,000 workers.

Two years ago the plant was ordered shut down and since that time, many of the workers have refused to leave, existing the best they could and awaiting the signal that would start the furnaces again.

Here are more let's-have-a-picnic suggestions:

Cole Slaw.
(To Make "On Location")

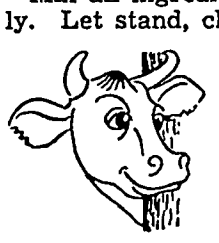
3 cups finely shredded cabbage
½ cup mayonnaise
3 tablespoons french dressing
2 tablespoons thick cream

Mix the mayonnaise, french dressing and cream together and mix into the cabbage just before serving. Add more salt if necessary.

Old-Fashioned Potato Salad.

4 cups diced, boiled potatoes
3 hard-cooked eggs, chopped
¼ cup finely minced sweet pickle
2 to 4 tablespoons minced onion
¼ cup pimiento, chopped
Salt, pepper and celery salt
1 cup cooked salad dressing
2 tablespoons mayonnaise

Mix all ingredients together lightly. Let stand, chilling, for at least 1 hour. If desired, the onion and potato may be marinated over night in french dressing before being mixed with other ingredients.



Variations: Meats, such as diced tongue, ham or frankfurters may be added to the standard recipe, and seasonings of chives and green pepper may be included.

Marshmallow-Graham Cracker Dessert Sandwich.

For each person, allow ½ milk chocolate candy bar, 2 graham crackers and 2 marshmallows. Toast marshmallows, then place them on the chocolate candy that is on one graham cracker. Put the second graham cracker on top and it is ready to eat. The marshmallows should be hot and soft.

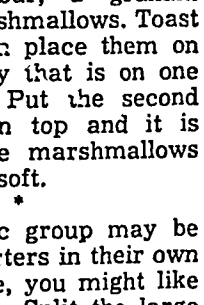
* * *

While your picnic group may be addicted to frankfurters in their own sweet, natural style, you might like to try a new trick. Split the large frankfurters down their middles, spread with rich, brown prepared mustard, fill with chopped sweet pickle and turn them over to the "cooking department" to broil. They'll prove ever so popular!

Here's a good one to cook in a kettle: put in one potato for each person, and cover with water. When potatoes are almost tender, add frankfurters (enough for everybody) and heat thoroughly. With buttered buns, ketchup, and perhaps some fresh fruit for dessert, you have a simple and extremely tasty picnic meal.

* * *

If it's ice cream you're planning for dessert, I'd suggest you use an ice cream freezer (little son can do the grinding before "starting" time), or pack refrigerator - made ice cream in dry ice. Here's a recipe for a favorite that should please everyone.



Chocolate Ice Cream.

1 square unsweetened chocolate
⅔ cup sweetened condensed milk
⅔ cup water
½ teaspoon powdered mace
½ cup whipping cream

Melt chocolate in top of double boiler. Add sweetened condensed milk and stir over boiling water for five minutes until mixture thickens. Add water and mix well. Chill thoroughly. Add mace. Whip cream to custard-like consistency and fold into chilled mixture. Pour into freezing pan. Place in freezing unit of refrigerator. After mixture is about half frozen, remove from refrigerator. Scrape mixture from sides and bottom of pan. Beat until smooth, but not until melted. Smooth out and replace in freezing unit until frozen for serving. Serves 6.

BEGINNING OF WORLD MISSIONS

LESSON TEXT—Acts 12 25-13 12.
GOLDEN TEXT—And he said unto them, Go ye into all the world, and preach the gospel to every creature.—Mark 16 15.

Nineteen hundred years of "front line action" for Christ began that day in Antioch when the first missionaries of the cross were sent forth. There is no more thrilling story in all history than that of missions. The glorious thing is that it goes on year after year, and will do so as long as the Lord of the harvest continues to send forth workers. The writer of these notes is glad to be associated with a training center which in its half century of operation has prepared for service about 2,300 men and women who have been sent to the foreign field by their churches and missions, and of whom approximately 1,600 are still active on the field in spite of "peril, toil and pain."

Our lesson teaches us how "to fight the good fight of faith" (I Tim. 6:12). First we must have

I. The Base of Operations (vv. 1-3).

Every army must have a home base; just so, the army of the Lord looks to the home church, the local gathering of God's people. An army would fail if those at the base of its action were asleep, or so interested in the pleasures of this world, or so indifferent to their responsibility, that they would not work hard in support of the active army. So the cause of Christian missions cannot go ahead if it has to depend on a home church which is spiritually asleep, indolent, indifferent, and worldly minded.

The church at Antioch prayed and fasted. It ministered the Word of God. It was responsive to the guidance of the Holy Spirit and ready to sacrifice by giving its leaders to the missionary cause. Is your church that kind of a church? If not, why not?

Observe also that it is from such a church that God calls His workers. Sunday school teacher, you may have in your class next Sunday one of the missionary leaders of the next generation. See to it that the message from God reaches that heart.

II. Good Soldiers of the Cross (vv. 2-4).

The army does not call for the weak or physically handicapped to serve. Just so, God's service calls for the strongest men and women of the church, not the misfits or failures. A girl was once heard to remark: "If I can't get married, I will be a missionary." Fortunately for God's work, she did get married. Some men who cannot succeed in business think that means they should be missionaries.

God wants our best (Deut. 15:2) and He wants the best a church can give, which means the best spiritually, but in other ways as well. Note also in verses 3 and 4 that the messengers of the Lord must be constantly led of the Holy Spirit.

III. The Heat of Battle (vv. 5-10).

Warfare is not a Sunday school picnic. It means conflict with the forces of the enemy. So the missionary of the cross must be prepared to meet Satanic opposition. Saul and Barnabas met this "son of the devil" (by the way, reader, we trust you do not belong to that family) who opposed the work of grace which had begun in the heart of the governor (vv. 8-10).

However, there are those who do seek to hear the Word of God (v. 7) as did Sergius Paulus. The business of the missionary is to preach to them, but not only to them. The city of Paphos was really a miniature of the world of that day. It was a Greek city of high culture and low morals. It was ruled by the Roman governor, a man of noble character and a "man of understanding" (v. 7). But right with him was Elymas the sorcerer, a wicked and ungodly Jew, a disgrace to his own people and a hindrance to the work of God. The messenger of God rejoices in the opportunity to minister the Word, whether to Roman, Jew, or Greek, of high or low estate, wicked or good, interested or antagonistic. They all need God's Word.

IV. Victory for Christ (vv. 11, 12).

The army goes into battle with the purpose of winning a victory, or it is defeated before it starts. The Lord's army is on a victorious march, certain of success, because He that is in us is "greater than he that is in the world" (I John 4:4).

In dealing with the sorcerer, Paul brought down the drastic judgment of God. Note that this was not done because Elymas opposed Paul, or because he had some different belief, but because he in his wickedness opposed God. Those who fight against God are in a losing battle, the victory is always on His side.

There was another kind of victory here, and the soldiers of the cross are (or should be) far more interested in that type of victory; namely, the surrender of a sinner at the foot of the cross. God won a victory in the heart of Sergius Paulus.

Household Hints

Rinsing hair brushes in a solution of alum water will stiffen up the bristles.

* * *

Oven-burned dishes can be cleaned by soaking them in a solution of borax and water.

* * *

To prevent the sides of ice bags and hot water bottles from sticking together in storage, sprinkle a little talcum powder inside them after they are thoroughly dried.

* * *

Granulated honey can be restored to its natural form by placing it in hot water.

Ask Me Another
A General Quiz

The Questions

1. How many states border on the Great Lakes?
2. Who or what in United States history was nicknamed "Old Ironsides"?
3. The independence of the United States was formally recognized first by what country?
4. Why is Wall street in New York so called?
5. Where is Sanscrit used as a sacred and learned language?
6. The present Chinese name for China, "Chung Hua Min Kuo," means what?
7. How far can a homing pigeon fly in a day?

The Answers

1. Eight: Pennsylvania, New York, Ohio, Michigan, Indiana, Illinois, Wisconsin, Minnesota.
2. The United States warship, Constitution.
3. France was the first country to recognize our independence.
4. A stockade or wall extended along it.
5. Sanscrit is used as a sacred language in India.
6. "Chung Hua Min Kuo" means Central Flowery Republican Country.
7. The homing pigeon has been credited with flying as much as 600 miles in one day.

Love of Country

I would have you day by day fix your eyes upon the greatness of your country, until you become filled with the love of her; and when you are impressed by the spectacle of her glory, reflect that it has been acquired by men who knew their duty and had the courage to do it.—Pericles.

A shower was held at the Verner Nelson home Thursday afternoon in ronor of Mrs. Lloyd Jasperson, formerly Alma Nelson, of Clear Lake The afternoon was spent in playing games after which the bride opened her gifts. Lunch was served

War Echoes

A bundle of old war letters written by Samuel McClintock of Independence, to his son, John McClintock, during the Civil War, have been discovered at Independence. After 80 years the letters are perfetly legible and relate many war experiences of the Union soldier.

Poor Electrical Wiring Rated as Fire Hazard

The use of cheap and poorly made, exposed extension wiring in the home is to be avoided at all times, because it is considered one of the greatest fire hazards of today.

With several safe types of surface extension wiring now on the market which are both inexpensive and easy to install, there is no longer any excuse for the use of cheap light cord for extension wiring in rooms where there are insufficient outlets. The safest thing to do is to consult an expert electrician.

Before installing any exposed extension wiring, the electric outlet from which the extension wiring is to extend should be carefully inspected in order to make sure that all connections are tight and that the outlet and the house-wiring circuit to which it is connected are of sufficient capacity to carry the extra load of the extension wiring.

If all is in good order, then a selection of the type of extension wiring can be made. Several types are available in which wires are completely encased in a flat rubber or composition strip of good insulating quality which may be rigidly attached to the wall.

These strip-wiring systems all have special fittings for outlets: splices, crosses, and other connections. In order to be sure of their safety, it is advisable to purchase only materials having the inspection label of the Underwriters Laboratories and in no case to provide more than two outlets from any one extension from a built-in outlet.

SEE US FOR THAT

Longer Lasting

RED BRAND FENCE

The RED BRAND fence you put up now will stay tight, look right — for years. Fifty years of fence making experience assures it. Buy *time-tested* RED BRAND, put it up right, forget it — that's the way you end the work and worry of yearly fence repair.

Mrs. Dick Ebeling, of Marion, South Dakota, who has been visiting with Klemme relatives and friends the past week, left Friday evening for a visit with relatives at McGregor.

Mrs. Mary Mutch and daughters, Miss Ada Mutch of Grundy Center and Mrs. Lyda Filkins, of Iowa City, came Tuesday for a visit at the Dr Dulmes home and to attend the celebration.

Dr. and Mrs. Bradhsaw, of near Britt were visiting in Klemme Tuesday and taking in the celebration. Dr. Bradshaw was a former dentist in Klemme. Dr. and Mrs. Bradshaw live on their farm near Britt but lease their land.

Mr. and Mrs. R. Jorgenson and son, Ray Jr., were dinner guests Sunday at the Dr. Dulmes home Sunday afternoon and evening they were guests at the Joe Liebendorfer home at Hampton.

Mr. and Mrs. A. L. Kingery visited with Klemme friends Monday They had been at Armstrong visiting and were on their way to visit with relatives at Greene before leaving for California to spend the summer.

Mr. and Mrs. Robert Wildman returned to their home at Eldora Sunday after spending a week in Klemme visiting at the home of Mr. and Mrs. R. R. Reece. Mr. and Mrs. W. V. Wildman, of Nevada, also spent Sunday at the Reece home.

Read the Want Ads.

Mr. and Mrs. T. Needham, of Mason City; Mr. and Mrs. H. Glave of Britt; Mrs. Fred Wesendorf, of Buffalo Center; and Mr. and Mrs. Henry Buseman, were all visitors at the W. F. Pavey home Memorial Day afternoon.

Mr. and Mrs. Clarence Elder and two daughters of Osceola, visited over Memorial Day at the Ralph Elder home southeast of Klemme. Mrs. Elder and the children had spent all of the past week here but Mr Elder drove up Friday.

Leo Brinkman has so far recovered from his operations that the past few days he has been able to get out for short walks Leo visited the Times Office Tuesday for the first time since he entered the hospital over eight weeks ago. Leo even sat down at the Linotype machine and ran through a few lines of type We are glad Leo is making a good recovery now.

Clear Lake was the scene of a picnic Sunday enjoyed by a group of relatives from Klemme Those who attended were Mrs. A. G Koerner and son, Kermit; Roger Ridder; Mr and Mrs. Gerald Koerner and son; Mr. and Mrs. Glenn Bridges and family; Mr Will Jordan, uncle of Mrs. Gerald Koerner and her nephew Maurice Rule, both of Dow City, Iowa.

Guests at the home of Mr. and Mrs. Emil Patet on Memorial Day were Rev and Mrs. Fred Griewe of Aredale; Mr and Mrs. C. S Griewe and son of Sidney; Mr and Mrs. W C A. Gast, and Mr. and Mrs. Kenneth Schuldt and daughter, Darlene, of Garner; and Mr and Mrs Victor Waldek of Hayfield. Mr C S Griewe is principal of the high school at Sidney.

Robert Hanson and small son of Kanawha were in Klemme on business Saturday forenoon The Hanson family, who formerly lived on a farm east of Klemme, now live on a farm they purchased one mile north and one mile west of Kanawha. Mrs Hanson has been ill for the past two months and a patient at a hospital, but she is improving and will soon be able to go to her home.

Should you marry HIM? Love may be blind as a bat, but Judith T Chase, well-known quiz expert, has worked out a bit of Braille trat takes the guesswork out of husband picking, and if you're on the verge of the fatal step you'd better let her guide you Don't miss this novel, clever questionaire in The American Weekly, the magazine distributed with next week's Sunday Chicago Herald-American.

Mr and Mrs W H. Galbreth and baby son, Billy, moved their household goods to Des Moines, Saturday, where they have purchased a home in the northwest part of Des Moines at 2707 42nd street where they are now located Mr Galbreth has a position as assistant editor on the Midland Schools publication Miss Agnes Galbreth of Mason City is spending this week in Des Moines assisting Mrs Galbreth get settled.

Ray Jorgenson Jr came home Saturday from Simpson College at Indianola Tuesday he left again for Des Moines from which place he was sent by the Dept of Navy for Kansas City to take a final examination as a Flying Cadet in the Naval Service When he left home he was not certain whether he would be called immediately into the Service, or whether he would be returned home to await further orders. His flight training will probably be received at Pensacola, Florida.

LIGHTNING

Lyall Bryant, Mt. Vernon, saw lightning strike one of the horses on his farm one day last week. Five purebred dairy heifers under a tree 60 feet away were not injured The horse was killed.

MAULED

Frank Clayton, Jr, Harvard farmer, was injured when he rushed to save Mrs. Clayton from injury after she had been knocked down by a cow angered by a barking dog. Clayton was trampled and gored before he could get away.

KLEMME CELEBRATION NOW A MATTER OF HISTORY

Jay Gould and his big two-day attraction has come and gone, and the Klemme Celebration is now a matter of history.

The celebration got off to a very poor start with heavy rains Monday and not a wheel was turned.

The weather man was more favorable Tuesday and a fair crowd came out in the afternoon, while the evening crowd was large. The weather, however, was a bit too cool for the crowds to become active.

Mr. Gould has a good show and it is clean and wholesome throughout and his entire following are gentlemen and ladies in every respect.

They came here from Lake Park and Klemme was their third town to be played this season. They went from here to Lime Springs for two days. This was Gould's third appearance in Klemme.

MARRIAGE AT METHODIST PARSONAGE HERE

Mr. Leon Kropp and Miss Viola Kropp, Liberty township couple, were married at the Methodist Parsonage in Klemme last week on Monday with Rev. Zabilka the officiating cleryman, using the single ring ceremony.

BELMOND LADY DIED AFTER CAR ACCIDENT

Mrs. Neuhring, aged Belmond lady, and mother of Fred Neuhring and others around Klemme and Belmond, died Sunday.

Mrs. Neuhring was injured in an automobile accident near Klemme last Thursay evening.

MORE VOLUNTEERS NEEDED FOR KLEMME RED CROSS

More volunteers are needed by the Klemme Red Cross, according to Mrs. Sumner Trumbell who is in charge of the work

Another bolt of material has just been received for making 16 year-old size girls' dresses The goods will be cut and those who will help are requested to call and get dresses to sew.

Mrs. Trumbell reports that the local workers have turned in 12 finished garments, 8 child's dresses and 11 men's pajamas

There is a lot of work ahead and more women are needed to help.

LARGE NUMBER OF BOUNTIES PAID IN MONTH OF MAY

Reports from the County Auditor's Office indicates that the month of May has been one of the heaviest bounty months on record in Hancock County.

During the month of May County Auditor Missal paid the sum of $123 80 for gopher bounties, a fox bounty of 5.00 and crow bounties of $20 90.

It was a good month for hunters who specialize in exterminating pests.

DRAFT BOARD SELECTS TEN MEN FOR HANCOCK COUNTY

The following men have been selected for induction into the army and will report at the Britt office at 10:30 a. m on June 20th

Christopher Lauen, Meservey, Gordon H Vettling, Britt; Raymond G. Barz, Klemme; Clarence A. Steiff, Forest City; Laurence J. Isert, Ventura.

Edward H. Lehmann, Garner, Melvin Van Dusseldorp, Britt, F Bunken, Woden and Merle H Brown, Kanawha.

Lester H. Thompson, of Britt, was named as the replacement man.

William Darnell Hemingson of Woden will report at Britt June 16th for induction

UP IN SMOKE

Six hundred baby chicks on the Harry Lind farm near Hampton will never see the marketing place. They were destroyed by fire one night last week.

North Iowa Boy Scout Troops To Benefit In New Program

SCOUTING BOOSTED BY GIFT FROM OKLAHOMA MAN

Scouting in Klemme, and Hancock County part of the Winnebago Area Boy Scout Council is receiving the biggest boost in its history, according to H R. Ramsay, chairman of the local Troop Committee, as the result of a gift to the council of $5,000 by the Frank Phillips Foundation Inc of Bartlesville Oklahoma

Two full time field executives, John McEachern and E E Hoisington, have been engaged to assist Executive Earle K Behrend in a program whose primary objective is carrying the citizenship training of Scouting to every community, large and small rural and urban in this north Iowa territory

Present plans call for increasing the number of Boy Scouts and Cubs in the Winnebago Council from 1,268 at present to approximately 4,598 five years hence

"Reflecting the national mood of the United States, the Winnebago council is seeking to strengthen and invigorate democracy through the medium of youth," according to Ralph Lloyd Jones of Mason City, president of the council

"Only ingraining the ideals of democracy in our youth can we preserve our way of life for the future," he said America needs and America will have a youth movement, it's up to friends of Scouting in Hancock county and other areas in the Winnebago council to help in the national movement for an activated youth program, one which will be an effective counter to the government inspired youth programs of totalitarianism"

The Frank Phillips foundation, organized in 1937 from the personal fortunes of the oil magnate and his wife, is designed to promote character-building organizations in the mid-rontinent area of the United States.

Some $600,000 has been granted in the last two and a half years, most of it to the Boy Scouts, because Mr Phillips feels there is nothing so important today as volunteer work among America's boys and girls The foundation is a non-profit organization.

The donor lived for many years near Creston, Iowa, and much of his foundation's work has been in this state as well as in Oklahoma, Texas, Kansas, Nebraska, New Mexico and Missouri

W. P Butler, Mason City, chairman of the Winnebago council planning committee, has estimated that the Phillips plan will enable Scouting to come to more than four times as many North Iowa boys as are now enjoying the program.

After the first year of work, which is to ge financed by the gift from the foundation, Scout councils are obligated to pay the expenses of the expansion themselves.

MODEL WIFE

Joan Blondell and Dick Powell appear as husband and wife working together in a dress shop The employer forbids her feminine help to wed so the martial existence of the two young employees is kept a secret.

Charles Ruggles and Ruth Donnelly share the secret. The youthful couple are shown leading a normal life until the Shop owner's son falls in love with Joan The husband is fired and a threating divorce, but the two are brought together by the owner of the shop

BIRTHDAY PARTY AND DINNER

The Gerald Koerner home at the northwest edge of Klemme was the scene of a family gathering Sunday in honor of Gerald's birthday anniversary

Those present for the birthday dinner included Mr and Mrs. A. G Koerner and son, Kermit; Mr and Mrs Glenn Bridges and children, and Mr and Mrs Orville Stokesbary and daughter as well as Gerald and wife and their son, Terry.

HELLO, FOLKS!

Mr and Mrs Kenneth Gast, who live on a farm near Garner, are the proud parents of a fine baby boy who came to live with them the latter part of May They have named their son Roger Kenneth, and his birthday was February 21, 1941 Congratulations!

SHELL BACK-FIRED INJURING YOUTH'S LEFT EYE

Elmer Langlitz, who is employed at the Paul Veldhouse farm near Goodell, was injured in a hunting accident Friday afternoon.

Langlitz was shooting a .32 calibre rifle when a shell exploded due to improper lock-up of the gun. Powder blew back into his face and eyes and fragments of the shell cut his forehead. His left eye was hit with a quantity of powder and he received treatment at a hospital and then went to his home west of Klemme where he is recovering from his narrow escape.

Klemme Band To Take Part In North Iowa Band Festival

THE "ABSENT-MINDED" PROFESSOR WRITES

2707-42nd Street
Des Moines, Iowa

Dear Jergie:

Just to prove that the absent-mindedness of professors does not disappear when they leave school work, I am enclosing a card which I wrote a week ago and then carried in my raincoat for another week The card was to tell you that I would have to postpone contributing to the column for a week Now that that week has passed, I'm not sure that my contribution will be any better, but we are a little more settled than we were at that time

We have learned a lot about Des Moines in one week of residence here We are getting along in directions a little and are learning to look intelligent when certain streets and buildings are mentioned I drive home each noon for dinner but it takes about an hour and ten minutes at noon to get the driving and the eating done

We were surprised at the organized welcoming we received here The Chamber of Commerce sends out "Welcome Wagon" hostesses whose duty it is to call on the new people to offer them the services of the city Three different women called at our house to give us guides to the city and certificates of free trade at several business places Some of the free gifts offered included two grease jobs, one car wash, one shampoo and wave, one picture of Bill, a pound of frankfurters, a pound of sausage, etc, etc

Several Klemme people inquired about how to get to our place Here is a set of directions When you come into the city from Ames, the first traffic light is at Euclid Avenue Turn right on Euclid and you will be on highways 6 and 64. Follow these highway markings to Beaver Avenue, which is some distance west of the Veterans' Hospital Turn right on Sheridan and go two blocks to 42nd Turn right on 42nd and our house is the second place on the right. Sheridan Avenue is the first turn to the right as you pass down the row of stores that you will find south of the tracks on Beaver Avenue.

Anyone downtown in Des Moines can call us, and we will give directions for getting out here from the business section.

We were sorry that we did not have time to bid good-bye to more of the Klemme people and thank them for their many kindnesses to us there I am afraid that our words were woefully inadequate in the attempts we did make at expressing our appreciation. I am sure we will never forget all of the good people of Klemme and the five enjoyable years we spent there. We hope to get back often, and we want the Klemme folks to look us up down here

My office is on the fourth floor of the Shops Building at the corner of Eighth and Walnut Streets. It is diagonally across the street from the southwest corner of Younker's. At the end of the month, I can look over across the street and sing that old song, "That's Where My Money Goes."

It's a strange thing, Jergie; I have learned the location of four or five golf courses here, but I couldn't tell within five miles the nearest place to catch bullheads or even buy night crawlers. I'll admit that the weather has been better for fishing so far, but I have neither fished nor golfed to date.

Well, I'll have to save some writing for next time. Hazel wishes to send her greeting to all of her friends, and Bill encloses salutations to all of his playmates and admirers. Incidentally he has a beautiful red tip on his nose, a result of a newly developed technique of burrowing in the bed clothes, but otherwise he is very well. When I took him to talk about his crimson-colored smeller, he swore up and down that it was caused by nothing more than friction. He seemed sincere, so I took his word for it.

Sincerely yours,
"Hank" Galbreth

Editor's note: Jhst to remind "Hank" that he has not entirely changed from an "absent-minded professor" to an Editor, we just mention that the return address on the front of the envelope read:- "W. Henry Galbreth, Klemme, Ia." He probably forgot that he now resides in Des Moines!

FIFTY THREE BANDS WILL TAKE PART IN PARADE

Miss Dorothy Baack Will Compete In Miss North Iowa Contest

The Klemme band of 51 pieces in charge of Bernard Onerheim director, will attend the Sixth North Iowa Band Festival at Mason City Tuesday, June 17, 1941. Fifty three bands and two drum corps from fifty one North Iowa and two Minnesota communities are already entered with a total of over 2,000 members

Miss Dorothy Baack will be Miss Klemme candidate for Miss North Iowa, Queen of the Festival, will ride in the morning parade, be a guest of honor at noon luncheon, theatre party and other events

Events of the Festival, all of which are free to the public, include:

9 00 a m. Concerts, Central Park
10·00 a.m Marching bands, Federal Avenue
11·00 a.m. Parade of bands, floats, queen candidates
12.00 noon Marching bands, Federal Avenue
1.30 to 5.00 p m. Concerts, Central Park
2 00 p m Special appearance of queen candidates in Central park.
7 00 p m. Grand Finale at Roosevelt Field. Marching bands, massed band numbers, specialties, crowning of the Queen.

EIGHTH ANNUAL PRIEBE REUNION HELD HERE SUNDAY AT COMMUNITY HALL

The eighth annual re-union and gathering of the Priebe families and relatives was held Sunday at the Legion Community Hall where a big dinner was served at noon. Everyone had brought well-filled baskets of food for the occasion.

The family gathering was also the 44th wedding anniversary of Mr. and Mrs. Julius Priebe. Mrs. Paul Goll had baked and decorated a three tier cake in their honor.

After the dinner Rev. Grosshuesch addressed the assembly, and in his talk congratulated Mr. and Mrs. Priebe.

There were about ninety persons present at the dinner.

The afternoon was spent in visiting and a number of men and boys enjoyed a game of soft ball.

Everyone present enjoyed a good dinner and a fine time

MAN ARRESTED ON DRUNK DRIVING CHARGE NEAR KLEMME

Jesse M Terry, 72 year old Goodell man, was bound over to the Hancock County grand jury last week, Tuesday, on a charge of operating a motor vehicle while intoxicated

Terry was brought before Justice of the Peace J. C. Ford at Garner following his arrest on Monday by a highway patrolman a mile north of Klemme.

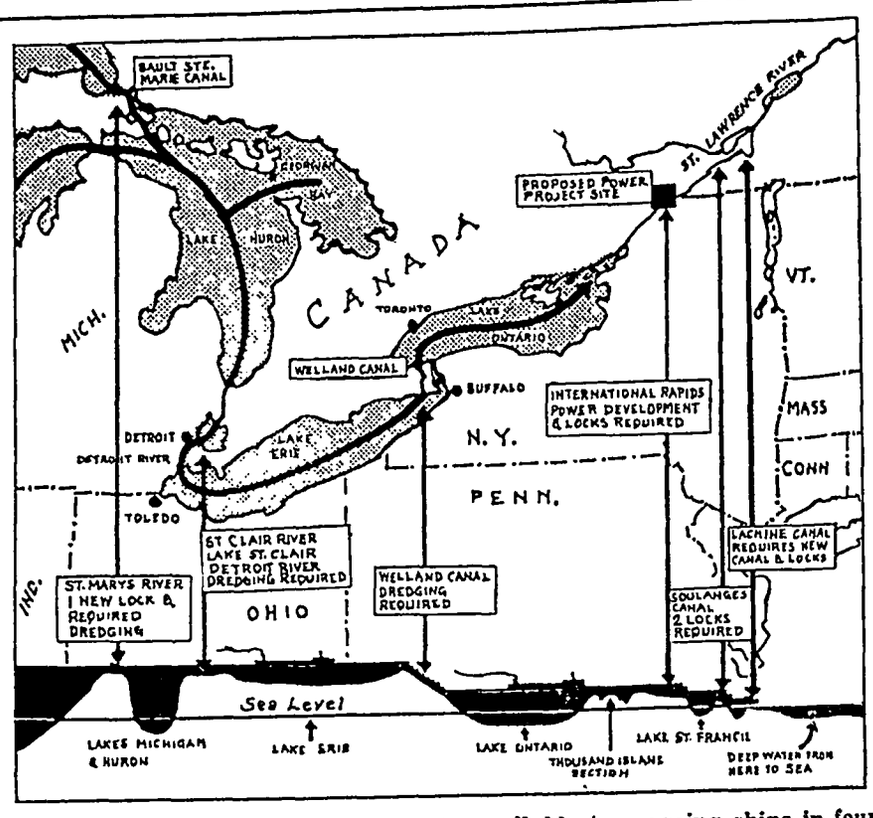
He was taken to Forest City to be lodged in the Winnebago county jail until he will be brought before the district court, probably this week.

St. Lawrence Seaway Plan Would Open Great Lakes Ports to Ocean Shipping

NEW YORK.—More than 70 per cent of the world's merchant shipping will be able to enter Great Lakes ports if the St. Lawrence seaway project is approved by congress. Only 67 miles of canals are needed to open a 2,350-mile waterway into the heart of North America.

Vessels with a draft of less than 14 feet are now able to enter the lakes, but their small size has greatly limited their cargo carrying capacity. Proponents of the project assert that it would prove a valuable aid in national defense.

The St. Lawrence seaway was approved on March 21 by a joint board of engineers and diplomats representing Canada and the United States. Congress is expected to accept or reject their agreement in the near future.



Great Lakes ports would be made available to seagoing ships in four or five years if the St. Lawrence seaway is approved by congress. The map above graphically illustrates the work required to complete the project.

Test Borings Made.

Since November, 1940, United States army engineers have been working in the International Rapids section of the river, making surveys and test borings and drawing up plans. Construction work can begin soon after congress and the Canadian parliament approve the agreement.

The job to be done immediately will cost $266,170,000. It consists of damming the St. Lawrence at the foot of the International Rapids, where the river drops nearly 90 feet in 48 miles. A control dam would be built some 40 miles up the river to regulate the level of Lake Ontario and provide an even flow of water into the deep pool created by the main dam near Massena, N. Y.

A canal with a minimum depth of 27 feet, equipped with locks, would be built on the American side. Powerhouses would be built under the main dam, and would produce approximately 2,200,000 horsepower, making the St. Lawrence hydro-electric development the largest in North America with the exception of Grand Coulee in the state of Washington.

Completion of this project, which will take about four years, will remove the last important obstacle to deep water traffic from Great Lakes ports to the Atlantic. With a few other minor channel improvements and canal enlargements a seaway extending 2,350 miles into the heart of the continent, from the Atlantic to Duluth, Minn., and which will accommodate any vessels of 25-foot draft or less, will be completed.

Save Freight Charges.

A recent survey by the department of commerce indicates that approximately 70 per cent of the world's freight vessels would be able to use the seaway, and that it will save $80,000,000 a year in freight charges to shippers of the Middle West.

The International Rapids section of the St. Lawrence is the largest undeveloped source of waterpower remaining in North America. It has the further advantage of being located near the heart of the United States' biggest manufacturing centers, where factories already are importing power from Canada, and where residential consumers' rates are among the highest in the nation.

The project itself is not a new one. Ever since 1895 Canada and the United States have worked together at the job of making the Great Lakes, their connecting channels, and their outlet, the St. Lawrence, economic assets to the continent. Canada completed the biggest link in 1932 with the opening of the Welland canal, enabling freight vessels to by-pass Niagara Falls, which was the chief navigation obstacle up to that time.

Small Canadian canals on the St. Lawrence now carry freight direct from the Great Lakes to the sea, but their minimum depth of 14 feet limits traffic to small vessels Nevertheless these shallow canals have been operated at capacity for several years, carrying some 9,000,000 tons of freight last year. The new seaway will be limited in capacity only by its canal and locks system, but it is estimated that it will carry at least 25,000,000 tons of cargoes annually.

Roosevelt Supports Project.

President Roosevelt has urged the immediate construction of the St. Lawrence development as a necessity for continental defense. Shipyards in the protected waters of the Great Lakes could produce a large percentage of the warships needed for the two-ocean navy, and cargo-carriers of every type. Lakes shipyards have the further advantage of being nearer to the source of steel and other materials, it is pointed out.

The national need for more electric power already has brought about an increase of production at Boulder dam, Bonneville, TVA, Grand Coulee, and other big hydro-electric plants. The President recently pointed out that St. Lawrence power is badly needed particularly to produce more aluminum.

Even though the St. Lawrence development would not be completed for four years, it is pointed out in Washington, it still would be in operation before many of the other defense projects are finished.

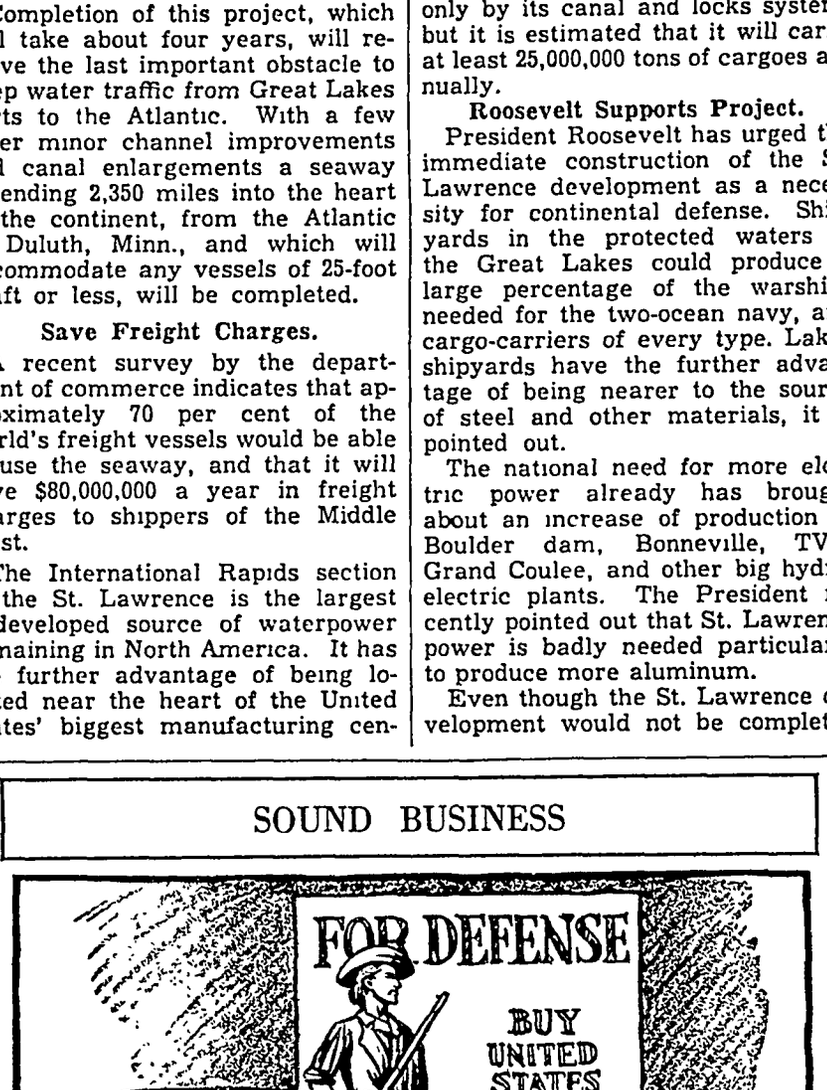
Another defense factor recently advanced is that the seaway will provide a protected supply line for the new defenses which the United States is building on Newfoundland, which guards the mouth of the St. Lawrence. Newfoundland is an island approximately as large as the state of Pennsylvania. The St. Lawrence disgorges the waters of the St. Lawrence into the Atlantic through two channels, one on either side of Newfoundland.

Newfoundland is accessible only by water or air. For several centuries military tacticians of every nation have regarded the St. Lawrence valley as the logical "invasion route" into North America. Strong bases at Newfoundland, supplied from the interior by a protected water route, military men say, will block any possible invasion of North America's "vulnerable waist line."

In peacetime, proponents of the project point out, the seaway will give mid-western agriculture and industry the benefit of water-haul freight rates to any port in the world.

(Released by Western Newspaper Union.)

SOUND BUSINESS



Army Survey Reveals Appropriate Gifts for Soldiers

CHICAGO.—To answer many requests for suggestions of appropriate gifts to send soldiers in the expanding army of the United States, the Headquarters Sixth Corps area in Chicago has conducted a survey among chaplains, morale officers and enlisted men.

From a soldier's point of view, it was agreed that any gifts for his personal comfort and enjoyment were acceptable. It was suggested, however, that gifts be small and easily portable. Heavy and bulky gifts are not desirable because the soldier might find it inconvenient or even impossible to take them with him if he is transferred to a different camp. "Desirable" gifts cover a large range of articles from subscriptions to home newspapers and personal apparel.

All gifts should be well-marked and properly addressed, giving the rank of the receiver, as well as the camp, company and post office.

'Voting Is Patriotic,' NCTC Leader Says

Ballots Help Nation More Than Knitting Needles, Women Advised.

CHICAGO.—The American woman's right to vote, gained two years after the close of World War I, now for the first time provides her with an opportunity to be more than a "back-seat driver" during a period of national peril, Mrs. Melville Mucklestone, president of the National Consumers Tax commission, declares.

In a message to the 2,500 units of her organization in 43 states, the former national president of the American Legion Auxiliary, said that "if we women seize our opportunity, we shall find the ballot a far more effective tool to use in patriotic service than the knitting needle ever was."

"A crying need in the U. S. is thoroughgoing improvement of state and local governments," Mrs. Mucklestone said. "By cutting costs and lowering local taxes, such improvements would make it far easier for the taxpayer to bear the national defense burden."

Declaring that "this is an important job which the men, in the main, have left undone," she urged "organized women" to adopt a 10-point program for civic betterment and then to "put the program through." This is possible, she said, because since the adoption of the Nineteenth Amendment on August 26, 1920, women have had the franchise.

The 10 points proposed are as follows:

For municipalities and counties—(1) adoption of a budget plan, (2) preparation of an understandable annual report, (3) reduction of debt, (4) adoption of centralized purchasing, (5) adoption of the merit system, (6) preparation and adoption of a long-term plan; for counties—(7) centralization of authority, (8) consolidation of small counties; for states—(9) elimination of state trade tax barriers, (10) reorganization of state administrative machinery.

"Adoption of any of these 10 points would result in greater governmental efficiency, and therefore in lower tax levies. Yet not one would curtail any essential governmental service," Mrs. Mucklestone added.

"Moreover, not one of the suggestions is experimental—all have been tried, tested and found successful.

"In August American women will celebrate the twenty-first anniversary of the passage of the Nineteenth Amendment. By pressing such a program as this in local governments, they will demonstrate that they have 'come of age' politically."

The Washington MERRY-GO-ROUND

DREW PEARSON & ROBERT ALLEN

Washington, D. C.

RAILROAD TEST

For National Defense chiefs, June holds a special significance. It will indicate whether government operation of railroads may be necessary.

In June the nation's railroads will meet their first crucial test of whether they are adequately equipped to handle the enormous increase in freight resulting from the defense program.

When the wheat harvest starts in the Texas Panhandle and continues north, the carriers will be on the spot to prove their determined contention that there is no shortage of freight cars, and that they can cope with the great demands of the defense program without the government taking them over as in the World war.

Railroad moguls are fully aware that they face a decisive showdown, and they are making tremendous efforts to meet it.

Twenty-five thousand cars have been mobilized to handle the Texas crop and a strict rule has been laid down that they must be kept rolling. Cars will not be allowed to be used for storage purposes. If a shipment can't be unloaded without delay, cars will not be released.

Cars will be peremptorally recalled if shippers don't load. Circuitous routing is being eliminated. And the railroads themselves are now distributing the materials and equipment they will need months hence, so that the maximum number of cars will be available in the peak season next autumn. This alone is expected to release 20,000 freight cars.

* * *

Mechanized Cavalry.

It took a war in Europe to do it, but the U. S. army is now doing a whirlwind job of replacing cavalry with tanks and armored cars. Even Secretary of War Stimson's aide, Col. Eugene Regnier, has gone in for mechanization.

Commenting whimsically on this the other day, Secretary Stimson said: "After riding horses all his life, Gene is now commanding the first reconnaissance battalion of the First Cavalry division. He rides in a bantam scout car and has armored cars and tanks under his command. I tell him this is strange for a man who has sworn that horses are the only thing in life. But he says it takes the brains of a good cavalryman to handle a mechanized unit."

Note—Colonel Regnier deserted his swivel-chair job in Washington for El Paso, Texas, where Gen. Innes P Swift commands one of the most active army posts in the country.

* * *

Conscientious Objectors.

Announcements that 1,100 conscientious objectors will report to non-military training camps in the next few weeks are a lot of hooey. Real fact is that only 201 draft registrants have even been classed as genuine religious objectors.

Out of the 6,000,000 questionnaires received from draft eligibles, less than 2,500 sought exemption on the ground of religious scruples. Of this number, 201 have been OK'd so far They will train in eight camps as follows

Fifty at Camp Patapsco, Elkridge, Md., 14 at Grottoes, Va; 12 at Lagro, Ind; 32 at San Dimes, Calif.; 10 at Richmond, Ind.; 40 at Marietta, Ohio; 32 at Colorado Springs, Colo.; 10 at Cooperstown, N. Y.

While operated by the government, the camps are financed by private funds, supplied chiefly by the Quakers, Mennonites, and United Brethren. In some instances the men pay their own costs, at the rate of $35 a month.

* * *

Australian Opinion on War

Prime Minister Menzies of Australia held some very important conversations with high Washington officials during his recent visit. In these talks he expressed every confidence that Britain would win the war, but he was hard-boiled and realistic regarding the time necessary for a victory.

Coming from Australia, which has a detached and unbiased view of the situation, his opinion is important.

"During 1941," he said, "all of Britain's effort must be concentrated on defense.

"During 1942 we can really begin to concentrate our efforts on building up a real war machine.

"And in 1943—with America's help—we can take the offensive, and we will win the war."

* * *

MERRY-GO-ROUND

The appointment of ex-Senator Sherman Minton of Indiana to the U. S. court of appeals makes the third judicial reward for a member of the famous senate lobby investigating committee, whose sensational exposes of utility lobbying led to the holding company law. Hugo Black of Alabama, chairman, is a Supreme court justice, and Lewis Schwellenbach is a federal district judge in Washington.

Ask Me Another

A General Quiz

1. What is the southernmost capital city in the world?
2. In what year did the first ocean steamer go through the Panama canal?
3. What denomination constitutes the largest Protestant group in the world?
4. How does the coffee consumption in the United States compare to that of the remainder of the world?
5. In what story does Jean Valjean appear?
6. Which of the following did not sign the Declaration of Independence: Thomas Stone, George Washington, or Roger Sherman?
7. How does Greece compare in size with Florida?
8. For what was William Claxton famous?
9. What is the highest altitude ever reached by a balloon?
10. What canyon has the deepest cut in the world?

The Answers

1. Wellington, New Zealand.
2. In the year 1914.
3. The Lutherans (61,000,000).
4. The coffee consumption of the United States far exceeds the combined consumption of all other countries.
5. "Les Miserables" (by Victor Hugo).
6. George Washington.
7. Greece is smaller, with 50,257 square miles; Florida has 58,666 square miles.
8. First English printer.
9. The highest altitude ever reached by a balloon was 72,395 feet in the United States in 1935.
10. Hell's canyon, the 189-mile chasm made by the Snake river and lying between the states of Oregon, Idaho and Washington, is the deepest cut of its kind in the world. At one point its wall is 7,900 feet higher than the tallest wall of the Grand canyon of the Colorado.

Lack of Zeal

THE CALL FOR MORE EGGS

(Washington.—C. R. Wickard, secretary of agriculture, has announced a nation-wide drive to produce more eggs as part of the aid to England and defense plan. He sets the goal at 300,000,000 extra dozen eggs for the next 15 months.—News Item.)

The call for more eggs.

Come on, hen!
Say when!

* * *

Don't be a cluck!
Don't pass the buck!

* * *

Hey!
Lay!
Today!

* * *

Across the country goes the call—
The barnyards hear it, one and all;
The message sweeps from east to west.
"No longer, hen, your second best!"

* * *

A buzzer buzzes and it's done . . .
A paper's signed in Washington . . .
Stenographers rush here and there—
There's action in the very air;
Officials leap to telephones—
The orders ring in solemn tones—
The message flows from silver pens:
A Proclamation to The Hens.
In headlines big the news is played:
"ALL POULTRY CALLED FOR ALL-OUT AID."

* * *

The wires 'cross the nation sing,
An ultimatum's on the wing
By horseback and by auto, too,
By radio and by canoe,
By every telegraphic loop
To every hennery and coop,
"Come, hen, your country calls to you—
One egg is not enough! Give two!"

* * *

The message whistles through the trees
To startle birds and busy bees;
It leaps across from farm to farm
And spreads a "Hen" Revere alarm,
"Awake! Get up! The goin's tough!
Get up there, hen, and do your stuff!"

* * *

The chicken houses rock and sway
To this one order, "Lay, hen, lay!"
The roosts vibrate to one word—
"Scram!"
As they're abandoned on the lam;
The nests they seem to snap and creak
As orders reach an all-time peak!

* * *

The hens outside now scamper in,
Their faces drawn a little thin;
"We've laid one egg" say three or four;
The others answer "War is war!"
Mayhap one sulks; she hears a "Boo!"
And yell of "You appeaser you!"

* * *

Then looms some organizing hen
(From Layers' Union Number 10);
"Arise!"—her cry is loud and clear,
"Demand the right to bargain here!
Production speed is very nice,
But are we hens or are we mice?"

* * *

Then Washington by hens is stormed
And hencoop picket lines are formed;
Hark! Overhead the transports dive,
The mediation boards arrive!

* * *

But lest this tale be far too long
The hens are saved; they ain't done wrong;
They sign to do the best they can
But scrap the big production plan.

* * *

Then to their nests they quickly scram
And give three cheers for Uncle Sam,
Three lusty cheers (and shake a leg)—
Three cheers, ah yes, but just one egg!

* * *

ADOLF'S PREROGATIVE

The Nazis emphasize that their terrible raids on London are in reprisal to teach London a lesson for bombing Berlin. Hitler, you understand, alone has the right to bomb big cities.

* * *

SPRING LURE

Now I hie me from war talk
To my garden in Norwalk;
Where the purple of crocus enchants;
I'm obsessed with a longing
For my choicest belonging—
Them mud-covered dungaree pants!

* * *

'MY WIFE'S CHAPEAU'

I'd like to laugh at her new hat.
Instead, I tell her I adore it.
Because I just remembered that
I am the sucker paying for it!

Hand-Crocheted Hat, Bag Sets, To Be Popular This Summer

By CHERIE NICHOLAS

NOW that dame fashion has given a high rating to hand-crocheted garments, it behooves every style-minded woman to stop, look and listen to what is being said and done in regard to this very smart trend. Via a simple crochet hook, a spool or so of crochet cotton, or perhaps a skein or so of washable cotton yarn, lovely-to-look-at styles may be made.

You could search everywhere and it would be difficult to find anything more fetching in hat and bag sets than the masterpieces in crochet artistry such as here pictured. Even if you have never crocheted before, with a little application and a willingness to "live and learn," you can crochet for yourself a whole collection of accessory items every bit as pretty and wearable as those here shown A fascinating pastime you will find it, too, for the work is easy and the cost of crochet cottons low

Doesn't the very sight of the cunning fashions illustrated make your fingers fairly tingle to crochet and crochet until you have acquired a number of accessories to wear with your summer outfits?

Have you ever tried crocheting with heavy cotton rug yarn, boilfast and washable. The work just speeds along. In no time you can finish a new hat and bag. The attractive high-crowned turban-and-bag twosome shown to the left in the picture is crocheted of heavy white cotton rug yarn It also comes in colors You will be surprised and delighted at how quickly this set can be made. There's nothing intricate or tedious about it!

For the star-trimmed crochet pillbox and matching round bag to the right, use mercerized cotton thread. The star detail is somewhat military in effect, as so many fashions are this summer. Mercerized cotton thread was used also for the beret in the inset below. Note the colorful crochet emblem which adorns the front of the crown.

Describing other attractive crochet themes, a prim little Gibson sailor is worth noting. It is crocheted of mercerized cotton in a firm, even, single stitch and is so manipulated it keeps in perfect shape. A cluster of crochet berries in self color is its only trim. Be assured this sailor is very good looking.

As clever a headpiece as any modern school girl would want is the "pigtail calot." It is really very similar to the popular schoolgirl "beanie" and is worn on the back of the head in exactly the same manner. The novel and amusing part is a long braid of yarn that starts from the crown center of the calot and dangles to the waist in back, just like a Chinaman's pigtail To add more interest, the braided yarn is tied with a hair ribbon in school-girl fashion.

If it is a lace-trimmed hat you want, it may be crocheted in a lacy open-work stitch and when finished, starched very stiff.

(Released by Western Newspaper Union.)

New Sports Fabric

This very good-looking frock is made of a new and unusual sports fabric, which, because of its outstanding attractiveness plus its dependable wearability, may be regarded as a real "find" for women who seek reliable materials. It is a rough crepe, one of a number of new creative fabrics done in Celanese rayon and silk. Woven with a special twist in the yarn, a pleasing unevenness is produced—best described as a splash effect. This charming frock will be well liked both because of the ripple-surfaced crepe that fashions it and because of the promise it carries of satisfactory wearableness. Note how smartly it is styled, with the new accented hipline.

Open-Throat Necklines

Low-cut necklines are increasing in popularity. In blouses it is the open-throat turn-back collar type that leads. Dresses have very low V-shape lines. Whether necklines are square, round or heartshape, they are low cut this summer.

New Cottons Make Fashion Headlines

Cottons are not news, but the cotton materials manufactured today are not only news, but front page news!

One of the highspots on the summer program of cottons is the suit of crinkly seersucker. At the races fashion-wise women are wearing these suits. The perfected tailoring of these suits gives them a thoroughbred air that is recognized at a glance.

Chambray is also gaining in popularity. Emphasis on striped chambray leads to such intriguing styling as the dress of monotone chambray that is detailed with stripes. Matching hat and bag complete the costume.

A word about the new colorful denims and gabardines. The latest message is bright yellow denim for play clothes. And flowered chintz is seen in both formal and informal dresses.

In the evening cottons go forth in party frocks of gingham and flowered prints, and in peasant skirts with blouse or middy tops. This season's cotton sheers never were prettier.

Cotton Fabric-Type Lace Enters Fashion Picture

Lace is "all set" for a tremendous vogue this summer. Special emphasis is on a new allover—patterned cotton lace that is so fabriclike that it is practical for dresses, redingotes and all types of summertime ensembles, including the suit tailored of starched cotton lace, either in white or colors.

Week-End Matchmates

Practically a complete wardrobe within itself is the five-piece matchmate cottons now selling throughout stores the country over. Very practical and very attractive are these ensembles made up of five pieces—pajamas or slacks, shorts, bra-top, butcher-boy smock and knee-deep coat.

Star Dust
STAGE SCREEN RADIO

By VIRGINIA VALE

(Released by Western Newspaper Union.)

YOU'LL see a much slimmer Edward Arnold than usual in "Nothing But the Truth"—slimmer by 35 pounds, as a matter of fact. The reducing wasn't intentional; Arnold barked his shin in a plane, developed blood poisoning, and off went the 35 pounds. As all the action of the picture takes place during 24 hours, he had to be careful not to gain even a few ounces while it was being made. He's to have the top role in "The Devil and Daniel Webster" next—as a result of an accident suffered by Thomas Mitchell.

—:—

Bing Crosby and Bob Hope were to take the "Road to Moscow" in their next "Road" picture, but current events made it seem advisable to change the title, so instead they'll take the "Road to Morocco."

—:—

Ellen Drew's good work in "The Parson of Panamint" caused her studio to buy "The Silver Queen" as a future starring vehicle for her. She'll play a New York girl of wealth in the 1880s—the girl's father

ELLEN DREW

loses his fortune in gambling, and the girl becomes a spectacular professional gambler in the mining camps of the old West. Her latest film to be released is "Reaching for the Sun," in which she is costarred with Joel McCrea and Eddie Bracken.

—*—

Bill Boyd breaks the long term screen characterization record with his present Hopalong Cassidy portrayal in "Secret of the Wastelands"—it's his thirty-seventh appearance in the part, and he's been at it for seven years.

—*—

Ginny Simms, whom you've heard on the air as the singer with Kay Kyser's band, has signed a long-term contract with RKO. She'll go right on appearing with the "College of Musical Knowledge," pausing to make pictures when she's summoned.

—*—

Jean Arthur is practically certain to play the lead in "Miss Susie Slagle's," Paramount's version of the very popular book of two years ago. She should be excellent as the charming little Southern woman with a flock of medical students as paying guests in her home.

—*—

The man who gave Bette Davis her first job in a theater is in the movies himself; he's Harold Winston, dialogue director on Frank Capra's pictures. He was directing at the Cape Playhouse at Cape Cod, Mass., and she was just out of dramatic school when she asked for a job. He didn't have one for her, but she said she'd usher for the chance to work in a theater. After several weeks the star of the company, Marguerite Churchill, had to leave for Hollywood, suddenly, and Bette took her place.

—*—

"Look Who's Talking" is before the cameras—with a listener audience of nearly 100,000,000 radio fans waiting for it to reach the screen. It stars Edgar Bergen and Charlie McCarthy, Fibber McGee and Molly. Lucille Ball, who's very good in Harold Lloyd's "A Girl, A Guy and A Gob," has a major role; Lee Bonnell plays opposite her.

—*—

Metro has a new singer on its list—Anne Rooney, who is sixteen, five feet tall, and has been gathering experience as an entertainer since she was two. At five she was guest star with Al Pearce and his Radio Gang; three years later she did a year in vaudeville with her sister and parents. She's also done a stint in little theater productions.

—*—

ODDS AND ENDS—Dennis Morgan has the lead in Warner Bros.' "Carnival in Rio" . . . Stan Laurel and Oliver Hardy have signed with 20th Century-Fox for nine pictures; the first will be "Forward March" . . . Al Pearce's announcer, Wen Niles, will play himself in Republic's picture, "Puddin' Head" . . . The Rudy Vallee-John Barrymore program will remain on the air all summer . . . NBC's Ted Steele, singer, bandmaster and master of ceremonies, was an NBC page boy only two years ago . . . Alice Faye and Don Ameche are to do "Honeymoon in Havana" for 20th Century-Fox . . . Alexis Smith plays opposite Errol Flynn in "Dive Bomber."

All these features and *many more* — see this outstanding Electric Range value today!

Hotpoint ELECTRIC RANGES

Central States Electric Company

DESTROYED

The giant elm on the Arthur C Kress farm near Quasqueton which had been selected by the Federated Garden Clubs of Iowa as the "champion elm" was destroyed during a wind storm last week. The tree had reached 5½ feet in trunk diameter and had a limb spead of almost 75 feet.

MIXUP

When John Malone of Waukon went to get his car from the place where he left it, he could not find it, but one similar was parked nearby. Peter Onsager, Austin O'Neill, and Frank Ronan, all of Waukon, discovered after driving some distance that they were not in the car they should have been The cars were of the same model and the locks were the same, so that when Onsager took the car that looked like his, he thought nothing of it. The mixup was soon straightened out.

KEEPSAKE

M H Hill, father of T. J. Hill of Lamoni, purchased a hay stacker and rake in 1890. The eight-foot pine tooth rake has been in continuous service since that time It has worn down more than a foot and has been fitted to at least four different rakes.

SIDESWIPED

Ora Hunter, Pacific Junction, was injured when a truck sideswiped his car. Hunter's arm resting on the window frame was severely cut, the fender on the left side of his car smashed and glass in the left window broken

FIRE

with matcheswi etaoin shrdlu cmf Like most small children, the son of Mr and Mrs. Delbert Clark of Grundy Center, likes to play with matches Last week, his matchplaying came near causing considerable damage. The Clark garage was virtually destroyed.

NO MUSIC

For the past eight summers the town of Holland, population 175, has had regular weekly band concerts. This year, due to a shortage of available musicians, they have discontinued the concerts.

WATCH LOST

George Weiland, of near Britt, long ago gave up for lost the watch given him on his 21st birthday. It recently was found in the field where he lost it thirteen years ago. The watch still bright and shiny with no rust on it, and only minor repairs were required to return it to working order

FELL

Ernest Buhr, Dayton, fell from the roof of a barn he was reshingling receiving several broken ribs and bruises.

MONEY TAKEN

For some time Mr and Mrs. John Ronveg at Bode had been saving dimes to pay their citizenship admission fees. One night last week thieves stole the banks containing the money.

PICTURES

Although it has been 55 years since the late Herbjorn Gaustad, who became a noted Norwegian artist attended Luther College, he is still remembered there. Pictures he sketched on the walls of his room at the Washington Prairie parsonage still remain. They are drawn in charcoal sprayed with a fixative to preserve them.

TWINS

Two sets of twins in the Sumner high school graduating class this year received diplomas.

STEAM

Harold Trausch, Clarion, received burns on his chest, left arm, and face when he removed the radiator cap from the car. Steam burst forth, burning him.

PREMATURE FIREWORKS

Residents of Decorah were treated to a show of "fireworks" one night last week An electric wire had been shorted following a storm causing giant balls of fire larger than a bushel basket to appear The "fireworks" continued until the wire was cut by Joe Mista, an employe of the power company.

CAR HORN

To Ray Crowley, Anamosa, the sounds from his musical car horn were music to his ears but to officer William Donnelly, who arrested Crowley, and Mayor Pulver, they were "loud signalling" at night Crowley was fined $2 for the "music"

BEE STORY

A swarm of bees apparently took Billy Mullins, the two-year-old son of Mr and Mrs. John O. Mullins, Corwith, for a bee hive When the bees had been taken off more than 100 bee stingers were pulled out of Billy's head The boy did not receive any permanent injury from the experience

"HORSES WILL PROVIDE CHEAP POWER," CAINE

Although Iowa's horse population has decreased from 1 600,000 head in 1915 to 729.000, the horse still occupies a prominent place in the farm power picture of the state, declares A B Caine of the Iowa State College Animal Husbandry Department

Caine points out that horses are cheaper this spring than for several years, but this simply means cheaper farm power

"Horse power costs" he declared "are not likely to increase very much due to our present national emergency because horses are maintained on farm feed, and war taxes are not likely to be assessed against a product a farmer utilize on his farm

He recommends that farmers raise enough colts for their own power replacement needs The production of two or three colts a year on farms that keep several mare would make it possible for a farmer to sell some of the older horses before they depreciate too much and keep only young horses on the farm

The horse in greates' demand today is one that weighs from 1 450 to 1,800 pounds and stands from 15 hands 2 inches to 16 hands 2 inches high. Caine said He should have style, attractive appearance, be active, durable and a good feeder Buyers discriminate against off-type horses and those that are rough, coarse or too big

COLD WEATHER FOLLOWED HEAVY RAINS IN IOWA

Iowa has been experiencing unusual weather the past few weeks. During the early part of May it was dry and crops lacked moisture and seed was slow in starting

Later in the month, around Memorial Day Iowa was visited by very heavy rains and many fields were flooded and crops damaged by water

The past few days Iowa has experienced unusually cold weather for this time of the year. Sunday the temperature at 8.00 a. m. was 49 degrees in Klemme!

NOSE

Little David Dreesman, Titonka, had a lot of fun playing with a car fan in the strong wind until he got it too close to his face. The fan cut his nose nearly off.

GRADUATES

Major and Mrs Matt Laux, of Wesley, proudly watched the graduation exercises of St. Joseph's school. Among the graduates were four of their grandsons. A granddaughter was a graduate of Wesley high school also this year.

Indian Belle of 1850's Had 'Modern' Wardrobe

Modern modistes who pride themselves on the "exclusive" nature of their 1940 creations for the business girl would be more than a little chagrined if they examined the wardrobe of the Sioux Indian belle in the frontier days of the Southwest.

Inspection of some of the beautifully ornate Sioux Sunday dresses in the University of Arizona museum in Tucson shows that underneath the beadwork finery and the numerous decorations, the Indian garment very closely resembles the "swagger" type business suit worn by the modern office girl.

The shoulders are padded, with a draped, fitted back, and the skirt is the 1850 equivalent of the present day "swing" types. Even the skirt length of the Indian belle's dress approximates the knee-length models considered so chic today.

The Indian maiden's idea of decorations for her buckskin dress, however, differed radically from the present day accessories. But experts who have seen both the Indian model and the modern fashions insist the Sioux garb is just as beautiful and expensively tailored.

The shoulders and blouse of the Indian dress are solidly covered with red, white and blue designs on wrought silver and turquoise bracelets and a heavy silver belt, joined with buckskin thongs, complete the ornaments on the dress.

The Indian maid herself was well decorated. The straight part in her jet-black hair was painted with bright vermilion dye. Around her neck were furs, otter scarfs, necklaces of bear claws and various ornaments. To complete the ensemble, long waist length strings of shells hung from her pierced ears.

Old Ocean-Sailing Craft Used in Training Sailors

Sailors down Florida way who want to learn the seas as the old salts did still have the opportunity.

On an old sailing craft, a sailor learns the signs of the sun and the stars and how to set his ship for foul weather, things that are almost forgotten in these days of modern seamanship.

With that in mind, the government maintains a picturesque old three-master in the harbor at St. Petersburg for the officers and apprentice seamen selected from the nation's CCC camps for maritime training.

The ship is the old 158-foot Joseph Conrad, built in Copenhagen, Denmark, in 1882. It served many years as a Danish training ship but it now belongs to the U. S. Maritime commission, which bought it as a training ship. At first it was stationed at Hoffman's island, New York, but was brought to St. Petersburg when the new training station was established there.

Prize Hunting Story

Officials of the annual Pisgah National Forest deer hunt, in North Carolina, while swapping stories of the last year's event, gave top prize to this one:

An amateur nimrod, on his first day in the hunt, tramped the woods from dawn to sunset and returned to camp empty handed and discouraged. He decided to insure success for the next day and hired a veteran guide. The two set out early. They had gone only a short while when the guide tapped the amateur hunter on the shoulder and whispered: "Quiet now; here come three deer." The hunter clenched his hands on his gun and looked in the direction of the guide's pointing finger. Then he exclaimed "Gosh! Are those things deer? I passed up a lot of them yesterday."

Migrating Birds Use Sun

What guides birds on their annual migrations has long been a topic for discussion and disagreement among scientists. One of the latest theories, which is advanced by Dr. Stanley C. Ball of Yale university, is that birds navigate by the sun. At least, Dr. Ball says, at the start of their journey and in early morning and late afternoon their route is outlined by the light of the rising or setting sun on treetops and is by no means the straight-line flight popularly imagined. Dr Ball studied the departure of song birds from the Gaspe peninsula in Quebec. He found they tend to follow the tree lines, especially along ridges. A relatively narrow strip of water or a patch of cleared country will turn them aside many miles out of their way.

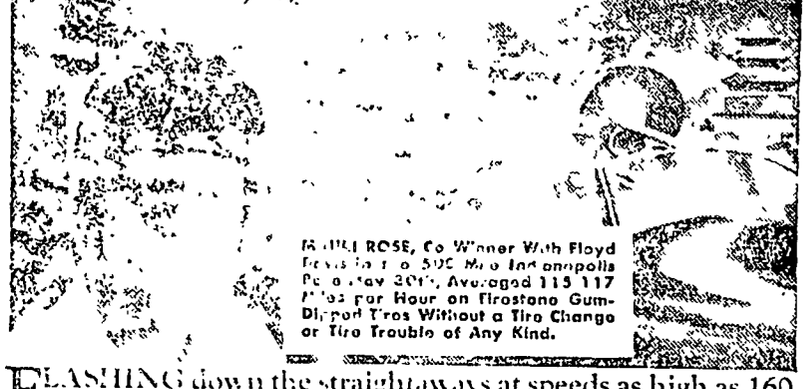
Taking Out Those 'Rings'

Rings caused by using cleaning fluid on spots may be removed by the following methods:

Place the ringed material right side up over a cotton pad and rub the edge of the ring lightly with the fingernail or the edge of a spoon or coin. Or rub the fabric between the hands. Materials with a crepe weave often respond to this treatment. If, however, neither of these methods is effective, the fabric may be steamed. Boil a small quantity of water in a tightly closed teakettle. Cover the spout with a piece of cheesecloth to prevent water drops from escaping and spotting the fabric. Hold the ringed spot over the escaping steam just long enough to become moist, not wet. Then shake the material dry and press.

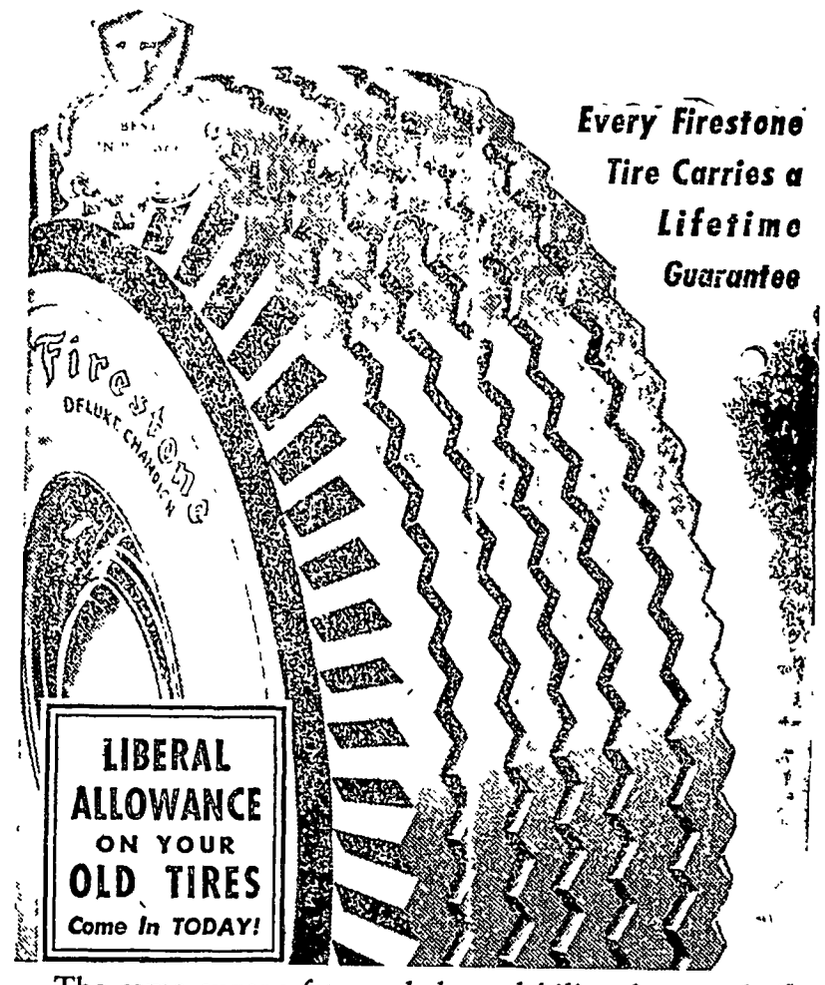
FIRESTONE TIRES WIN AGAIN

IN 500-MILE INDIANAPOLIS RACE



MAURI ROSE, Co Winner With Floyd Davis in the 500 Mile Indianapolis Race on May 30th, Averaged 115.117 Miles per Hour on Firestone Gum-Dipped Tires Without a Tire Change or Tire Trouble of Any Kind.

FLASHING down the straightaways at speeds as high as 160 miles an hour, Mauri Rose streaked to victory in the 1941 Indianapolis Sweepstakes without a tire change. 500 miles of grinding, pounding, torturing speed — and not one tire failed! Here's proof of safety — proof of blowout protection — proof of endurance — proof of tire superiority backed not merely by claims, but by PERFORMANCE! For 22 consecutive years all the winning drivers in this great classic of speed and endurance have driven to victory on Firestone Tires. Why? Because race drivers know that their very lives depend upon the safety of their tires. They have made it their business to know how tires are built. And they know from experience that the patented and exclusive construction features found only in Firestone Tires provide the extra strength and durability necessary to safety and victory!



The same super-safety and dependability that are built into Firestone Tires for the speedway are also built into the new *Safti-Sured* Firestone DeLuxe Champion Tires for the highway. Both are *Safti-Sured* against blowouts by the patented Safety-Lock Gum-Dipped cord body. Both are *Safti-Sured* for longer wear by the exclusive new Vitamic rubber compound. Profit by the experience of famous race drivers. Equip your car today with a set of these new Firestone DeLuxe Champion Tires — the world's *first* and *only* tires that are *Safti-Sured.*

HOUSEHOLD HINTS

There is nothing so handy in the kitchen as a shelf above the sink for soaps, etc.

* * *

Glassware takes on the highest polish if dried directly from the clean suds without being rinsed.

* * *

Hard-boiled eggs can be cut neater if the knife is first moistened in water.

* * *

Covering uncooked meats placed in the refrigerator favors bacterial growth.

* * *

Offensive odors coming from sinks and drains can be eliminated by pouring in a strong solution of borax and hot water.

* * *

Common kerosene will cut the grease from the kitchen sink and remove that ring from the bath tub.

* * *

When laundering clothes, do not use too much soap because water becomes so slippery that it "slides past" instead of penetrating the fabrics.

* * *

If laundering water is too hot it sets the soil. If too cool, it will not loosen the soil If you can put your arm down into the water but cannot leave it there because of the heat, it is of the right temperature.

Chained Tongues

Amyclae in ancient Greece had been harassed so often by false reports of an invasion by the Spartans that a stringent law was passed forbidding anyone to mention the enemy again Shortly afterward, the Spartans did arrive, and, as no one dared to give the alarm, Amyclae was captured and went down in history as "the city that perished through silence."

Nervous Restless Girls! Cranky? Restless? Can't sleep? Tire easily? Because of distress of monthly functional disturbances? Then try Lydia E. Pinkham's Vegetable Compound.

Pinkham's Compound is famous for relieving pain of irregular periods and cranky nervousness due to such disturbances. One of the most effective medicines you can buy today for this purpose — made *especially for women*. WORTH TRYING!

Getting Ready

Prepare yourself for the work as athletes used to do for their exercises; oil your mind and your manners, to give them the necessary suppleness and flexibility strength alone will not do.—Chesterfield.

That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acids and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try *Doan's Pills*. Doan's help the kidneys to pass off harmful excess waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. *Ask your neighbor!*

DOAN'S PILLS

Noble to Forgive

'Tis more noble to forgive, more manly to despise, than revenge an injury. — Benjamin Franklin.

FILLED WITH SPICE 'N' EVERYTHING NICE . . .
(See Recipes Below)

REFRESHMENTS PLUS!

Summer nears. You think of lots things—new, crisp, cool clothes . . vacation trips . . . gardening . . and yes, even parties, espe-ally gay ones that all for a mini-um of "home work."

I think I understand. You love have people in your home. In ite of the warmness of June days, u want those of your friends who main in town to drop by often for nversation, relaxation and refresh-ents. But, of course, you want hat you serve to be easy to make, licious, entirely different from any-ing that you've ever served before, d economical. In the last two of ese points, I've found homemakers ld a unanimous opinion.

So today I'm going to give you hat I think are ace-high ideas on sy entertaining. I'm sure you'll d the recipes worth trying.

* * *

Dessert bridge parties will do onders to round up the "Mrs." crowd who feel free, after feeding hubby and the children, to don dress-up frocks and skip out for dessert and an afternoon of fun. If your friends don't play bridge, bstitute another hobby, but the rving of dessert upon the arrival guests can nevertheless be car-ed out.

Serving dessert when guests ar-ve gives the hostess lots of lee-ay She doesn't have to keep in ind that her friends will be going me to dinner soon, as she does ith later-on refreshments. And, e can provide a really filling des-rt.

Pictured at the top of the column a dessert which I'm sure will an-er your desires. It's

Tropical Gingerbread.

2 eggs
¾ cup brown sugar
¾ cup pure molasses
¾ cup melted shortening
2½ cups flour
2 teaspoons baking powder
1 cup boiling water
2 teaspoons ginger
1½ teaspoons cinnamon
½ teaspoon cloves
½ teaspoon nutmeg
½ teaspoon baking soda
½ teaspoon salt

Add beaten eggs to the sugar, mo-sses, and melted shortening; then d the dry ingredients which have en mixed and sifted, and lastly the t water Bake in small individual ns, or in a greased pan, in a mod-ate oven (350 degrees F.) for 30 40 minutes. Top with whipped eam and sprinkle with shredded conut.

With this dessert, you'll want to rve a beverage . . . coffee, tea perhaps an iced drink of fresh it mixture.

* * *

Vanilla mousse is the basis for number of appetizing desserts, d is a good party refreshment in elf. Among the many variations e peanut brittle and chocolate dge mousses.

To make the vanilla mousse, fold e cup of confectioners' sugar and o teaspoons of vanilla into one art of heavy cream that has been hipped. Fold in four egg whites hich are stiffly beaten.

Spread the mousse into two large frigerator ice trays and place in e freezing compartment of your re-gerator, or, freeze in your ice

LYNN SAYS:

In thinking of party foods, I emembered these few sugges-ons my mother passed on to me. Maybe you'll find them helpful.

To remove pecan meats whole, over the shells with boiling wa-r and let them stand until cold efore cracking them.

Chocolate cakes usually call for nsweetened chocolate. This lends with the cake mixture uch better if it is cut in small ieces and melted, rather than rated.

Rhubarb juice is a good substi-ute for iced tea as a basis for ed fruit drinks..

THIS WEEK'S MENU

Dessert-Bridge Refreshments
Devil's-Food Pudding with
Ice Cream Sauce or

*Recipe given.

cream freezer. Allow three hours for the freezing. This recipe will yield two quarts of mousse

For a crunchy surprise frozen dessert for your guests, serve peanut brittle mousse. To make it, crush ½ pound of peanut brittle with a rolling pin and fold into the vanilla mousse before it becomes solid (about 1½ hours).

* * *

If it's an extra-special party you're planning, I've included a special dessert-bridge menu in today's column. You'll spend more hours in the kitchen preparing these particular foods, but they're so-o-o-o good that your guests' ohs and ahs will amply reward you for your efforts.

Cream Sponge Cake.

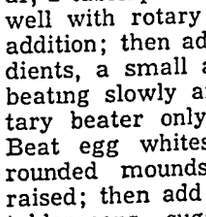
1 cup sifted cake flour
1 teaspoon baking powder
¼ teaspoon salt
½ cup cold water
1 teaspoon grated lemon rind
2 egg yolks, unbeaten
¾ cup granulated sugar
2 egg whites, unbeaten
1 teaspoon lemon juice
2 tablespoons granulated sugar

Sift flour, baking powder, and salt together three times. Add water and lemon rind to egg yolks, and beat with rotary egg beater until light colored and at least tripled in volume. Add ¾ cup of granulated sugar, 2 tablespoons at a time, beating well with rotary beater after each addition; then add sifted dry ingredients, a small amount at a time, beating slowly and gently with rotary beater only enough to blend. Beat egg whites until they form rounded mounds when beater is raised; then add lemon juice and 2 tablespoons sugar, and continue beating until stiff enough to hold up in moist peaks. Fold into flour mixture. Pour into two ungreased 8-inch layer cake pans, stirring lightly while pouring. Bake in moderate oven of 350 degrees F. for 30 minutes. Remove from oven, and invert on rack until cakes are cold. Fill with Orange Chiffon Cake Filling according to directions below.

***Orange Chiffon Cake.**

2 8-inch Cream Sponge Cake Layers
1 envelope plain, unflavored gelatin
¼ cup cold water
4 eggs separated
¾ cup granulated sugar
½ cup orange juice
2 tablespoons lemon juice
½ teaspoon salt
1 tablespoon grated orange rind

Make and bake the Cream Sponge Cake Layers, following the recipe.



Meanwhile, soak gelatin in cold water 5 minutes. Place beaten egg yolks, 6 tablespoons sugar, orange and lemon juices, and salt in double boiler. Cook while stirring until like custard. Add gelatin, and stir until dissolved. Remove from heat, stir in orange rind, and chill. When mixture begins to thicken, fold in meringue made by beating egg whites until frothy, but not dry, and folding in 6 tablespoons sugar gradually, while continuing to beat until stiff. Prepare cake layers for the filling by placing one layer on a cake plate; make collar of double waxed paper about 3 inches high to fit tightly around edge of cake; secure with pins or paper clips. Pour orange filling over the top of this layer; top with second cake layer; then place in refrigerator to chill until set. Before serving, remove waxed-paper collar from cake. To add finishing touch to top of cake, place lace-paper doily over top layer, sift confectioners' sugar over it, and remove doily carefully to preserve design.

Private Papers Of a Cub Reporter:

Here's a story about the time Goering was summoned to Hitler's private chambers to explain the loss of 20 Messerschmitts in a single night's raid . . . Hitler was nervously biting the tips of his paws and moaning over the sour news . . . This disconcerted Hermann . . . "Why are you so worried over 20 planes?" he said. "After all, we still have many more than they" . . . Hitler flew into a tantrum . . . "You fool!" he screamed. "Can't you see disaster ahead? At this rate we'll soon outnumber them only five to one!"

Gene Fowler addressed the school of journalism at the Univ. of Missouri . . . Knowing Fowler's colorful reputation and good nature, the authorities there asked him to lay off "muscle" journalism and other harsh aspects of newsgathering in his talk . . . Fowler agreed, delivered a sugary lecture on the moral code of reporters and the ethics of journalism, all couched (and sound asleep) in copybook maxims . . . Later, he gathered the students and led them outside onto the lawn . . . "Lissen," he said softly, "every word I said in there was strictly off the pitchfork! The most important thing in journalism is the expense account. And remember this—drinking and gambling expenses are just as legitimate as cab fares and phone calls—to a guy tracking down a story!"

Genevieve Rowe, the canary, offered this repartee between Adolf and Goebbels. Hitler sent for Joe and said: "Did you see what that awful foreign correspondent wrote about me in his piece yesterday? He said I was a murderer, a thief, a butcher—well, you must have read it. I won't stand for it!"

"What'll I do?" asked Goebbels, "have him purged or expelled?"

"No," said the mustache, "I'm gonna make him prove it!"

Memo to Pulitzer Prize Losers: In 1933 "Tobacco Road," now in its eighth year, could not have won the Pulitzer ribbon for being the best play because it was a dramatization of an Erskine Caldwell novel . . . In 1934, the Pulitzer play prize went to "The Old Maid"—a dramatization of a novel.

Clarke Robinson has been squiring a couple of British sailors about town. Took them to the Polo Grounds, the Stadium, Radio City Music Hall, Jamaica racetrack and several night clubs, winding up on the sixty-fifth floor at the Rainbow room . . . Later they went onto the balcony and looked over New York city by night from the sixty-fifth story—a magnificent sight . . . Robinson asked them what impressed and awed them most.

"I dunno," said one of them. "I think I should say what awed me most was the way you serve tea in those wee bags."

The Japs literally kicked Wilfrid Fleisher, Herald Trib correspondent, out of Tokyo several months ago . . . Yet, in his mail the other day came a formal invitation from the director of the Japanese Institute in New York—to sip tea at Rockefeller Center "in honor of the returned residents of Japan." (Note to that Institute: The little man who wasn't there was Wilfrid.)

Roland Brown's reminder to all Hollywood celebs (who get big heads) in the current heat wave in Hollywood: "In weather like this, don't forget—the cooling system gets the biggest billing!"

New York Newsreel:

The inspiring "I Am an American Day" ceremonies in Central park—oceans of humanity making public their love affair with America. And the thousands of new citizens opening their hearts to the wonderful country that opened its gates to them . . . Carloads of families leaving the city every week-end, eager for a whiff of peace and beauty and gathering energy for next week's struggle for existence . . . The chalking on the sidewalk at 45th Street and 5th: "What have the people got against this world?" . . . People exiting from clubs and fraternal groups in midtown, standing on the sidewalk gabbing and saying good-by to each other by easy stages . . . The sapboxers in Union square who wear their ignorance on their tongues and can't take heckling, although they demand freedom of speech for themselves.

Jobless on Sixth Ave. watching the days tick by, as each empty-handed minute adds rust to their lives — punishment without crime . . . Frayed intellectuals in the Vth Ave. library trying to escape barbed wire reality by plunging into the shelter of a book . . . Waitresses holding their smiles like torches, trying to please you and trying to hide the fact that their jobs do not please them . . . Celebs taking public acclaim while trying to avoid private whispers ready to pounce on them and spoil it all.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Dean of The Moody Bible Institute of Chicago.
(Released by Western Newspaper Union.)

Lesson for June 15

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

PROGRESS IN WORLD MISSIONS

LESSON TEXT—Acts 13:44-52; Galatians 3:26-29.

GOLDEN TEXT—For ye are all the children of God by faith in Christ Jesus.—Galatians 3:26.

"All people" are included in God's plan of redemption. When the angel of the Lord announced the birth of Christ to the shepherds he said, "Fear not: for behold I bring you good tidings of great joy, which shall be to **all people**" (Luke 2:10). The invitation is: "Let him that is athirst come. And **whosoever** will, let him take the water of life freely" (Rev. 22:17). The disciples naturally and properly first preached the gospel to the Jews, but the time came when God was ready to send them to the Gentiles, that they too might hear the message of redemption. That historic turning point is found in our lesson. As Paul and his fellow workers proceeded from Paphos on the isle of Cyprus to the mainland with their message of Christ's redemption, they met both

I. Popularity and Persecution (Acts 13:44, 45).

In the synagogue of Antioch of Pisidia they were invited to preach, and Paul was blessed in the presentation of a powerful gospel message. Read it in Acts 13:16-41. It met with such a response that the people "besought that these words might be preached to them the next Sabbath" (v. 42). So great was the popularity of Paul's message that the whole city came the next Sabbath "to hear the Word of God." What a wonderful sight that must have been and how the disciples must have rejoiced as they preached the Word.

But wait—there's a worm in that red apple of popularity, and its name is jealousy (v. 45). It caused the Jews to blaspheme as they contradicted Paul's preaching Jealousy always makes a fool out of the one who yields to it. Yet this green-eyed monster is permitted to go right on destroying, hindering, hurting. In the church and the home, as well as in the social order, we let jealousy come in and wreck friendship, break down reputations, yes, even block the work of God. May someone learn the lesson of our text and turn away from that evil way—right now!

II. Rejection and Acceptance (Acts 13:46-52).

All through the record of Scripture and the history of man to this day we find some rejecting the grace of God—others accepting. Those who reject only prove themselves "unworthy of eternal life" (v. 46) and are themselves rejected of God.

The disciples now turn from the Jews to minister to the Gentiles, even as had been prophesied (Isa. 42:6; 49:6; Luke 2:31, 32). They accepted the word of truth and "were glad, and glorified the word of God." Rejection brought eternal death, but acceptance brought eternal life and joy.

They could not keep the good news to themselves, but had to spread it abroad. A lighted candle begins at once to shine. A redeemed soul longs to bring others to Christ. Persecution continued; in fact, was intensified to the point of physical ejection of the disciples. Were they downhearted? No! for the joy of the Lord filled their Holy Spirit-filled lives. Being filled with the Spirit means being filled with joy, even in the midst of persecution.

It really works! Have you given God a chance to prove it in your life?

III. Neither Jew nor Greek (Gal. 3:26, 27).

This selection from the letter which Paul wrote some ten years later to the people of the area in which he had now preached reveals the same truth, that faith in Christ is primary—and essential—in Christian experience.

In this early life we recognize distinctions based on nationality, sex, social position, and many other grounds. While these are overemphasized by most people, they are legitimate and necessary distinctions. But in Christ—ah! there the differences disappear. We are all one in Him (v. 28). This is a lesson which we have not learned even yet, but our slowness of heart and mind does not alter God's truth.

The church is talking much these days about ecumenicity, which in plain words means the unity of the people of the various branches of the church all over the world. All too often, however, the proposed basis of unity rests on a surrender or a partial surrender of what Paul declares to be the essential (the **sine qua non** if you wish), which is faith in the Lord Jesus Christ. No other unity but that which centers in Him, and a personal relationship to Him, is sufficient either for this life or for the life to come.

Wonders of God

God moves in a mysterious way
His wonders to perform;
He plants His footstep in the sea
And rides upon the storm.
—William Cowper.

PATTERNS SEWING CIRCLE

FRANKLY, the purpose of this frock is to make you look sweet and pretty! A high point of charm is the open-sleeved effect, accented by flattering frills. The portrait neckline is wickedly becoming. This fashion makes up very charmingly in silk print, taffeta and afternoon cottons. Easy to do.

Birds in the War

Despite violent disturbance and severe damage to their nesting places, the pigeons of St. Paul's cathedral and Trafalgar square in London seem more numerous than ever, while the gulls of the Thames embankment, the starlings that twitter under the eaves of city churches, and the Cockney sparrows have not deserted their haunts. Any evacuation that occurred in the fall was due to habit and not to fear. Even the migratory birds returned in the spring to their previous homes, bombs or no bombs.

Was It but a Suggestion From Exhausted Clerk?

Frock after frock had been displayed to the lady with the supercilious air, until the salesperson in the exclusive dress shop was on the point of nervous exhaustion.

The customer would inspect each dress and then make biting remarks about most of them. At last she looked around the devastated place with an overbearing glance and complained:

"All your frocks are so skimpy. I believe I would look better in something flowing."

The tired clerk was quick to seize the opening.

"Madam might try the river," she said coldly.

Died At His Home Southeast Of Klemme Late Monday Afternoon After Long Illness

L. W Sherwood, age 69 years, died at his farm home southeast of Klemme late Monday afternoon after a two months illness of heart disease Mr Sherwood had not been in good health for the past few years

He is survived by his widow, two daughters, Mrs LaFavre, and Lavonne, both at home, a sister, Mrs George John on and a brother, George, both of Iowa Falls

Funeral services were held this Wednesday afternoon, at the United Brethren church at Goodell at 2 00 o'clock, with the Rev F C Scott of Toledo, assisted by the Rev H R Knight of Goodell, officiating The Masonic Lodge of Belmond had charge of the services

Burial was in the Amsterdam Cemetery east of Goodell

SURPRISE BIRTHDAY PARTY FOR BILLY ZABILKA

Billy Zabilka had a birthday last Thursday June 12th and in honor of the event his mother carried out a surprise birthday party which was attended by a large number of Billy's friends.

Miss Gladys Zabilka had charge of games and stunts after which Mrs Zabilka served a nice two-course lunch

Billy received a number of nice gifts from his friends and all indications are that everyone had a fine time and Billy was completely surprised.

COUNTY AUXILIARY WILL MEET AT CORWITH

A county wide meeting of the Legion Auxiliary will be held at Corwith on Tuesday, June 24th for the election of county officers.

NEW X-RAY EQUIPMENT INSTALLED IN DR. MISSMAN'S OFFICE

Dr. W. F. Missman had new X-Ray equipment installed in his office Tuesday.

The new equipment is the very latest design manufactured by the Northern X-Ray company. The new X-Ray is very compact but has a full range and will make a picture up to 14 x 17 inches. It is shock-proof despite the fact that it operates on 75,000 volts. It also has full fluorscope attachment. The X-Ray head is sealed in oil and the tube is entirely encased.

Dr Missman is also contemplating making further improvements in his office and will install a dark room laboratory in connection with his X-Ray equipment.

HUBBARD CHOIR WILL SING HERE SUNDAY EVENING

The mixed choir of the Evangelical and Reformeed Church of Hubbard will present a program of sacred music at the Klemme Reformed Church Sunday evening beginning at 7 30 o'clock. Rev. E. Bizer is the pastor.

After the program the visiting choir will be entertained by the mixed choir of the local church The Klemme choir gave a concert last fall at Hubbard.

CO—OP OIL MEN WILL HAVE DINNER HERE

Officers and employees of the Hancock County Co—Operative Oil Association and their wives will have a six-thirty o'clock dinner, followed by recreation at the Klemme Legion Community Hall on Thursday evening of this week.

GALBRETH WILL BE ON AMES BROADCAST JUNE 28

W. Henry Galbreth, assistance editor of the Midland Schools of Des Moines, and former Klemme school superintendent, will be on the air over the Iowa State College station WOI on Saturday morning. June 28 from 9.00 to 9:30 o'clock.

EASTER STAR CHAPTER WILL MEET THIS WEEK

The Eastern Star Chapter will hold their regular meeting on Friday evening, June 20th at the Chapter room in Garner. Klemme members of the Chapter are urged to attend.

Iowa River Claims Life Of Nine Year Old Liberty Farm Boy

SECOND REGISTRATION' JULY 1, 1941

Tre Hancock County Local Boarl has received official notice of the second registration, which by a Proclamation of the President of the United States will be taken on July 1, 1941, between the hours of 7 00 a m. and 9 00 p. m. On that date every male citizen of the United States and every male alien residing in the United States, who on or before July 1, 1941, and subsequent to October 16, 1940, attained the twenty-first anniversary of the date of his birth, and had not previously registered, will present himself for and submit to registration.

There will be two registration places: The office of the Hancock County Local Board at Britt, Iowa, and at the Court House at Garner, Iowa.

THREE MEN CALLED BY DRAFT BOARD

The following named men have been selected for induction by the Hancock Board to report at Britt at 10 30 a m. June 26th for induction into the Army at Fort Des Moines:

Lester H Thompson, Britt; Max H Pollock, Garner, and Samuel L. Anderson, Woden.

Replacements are Orville Kropp of Garner and Lyle Schoenwetter of Goodell.

The Board has received a call for 11 men to be inducted July 8, but they have not yet been selected.

CHRISTIANCE BARBER SHOP REDECORATED

Don Christiance has had his barber shop completely redecorated the past week George Lawhorn put on new wall paper and repainted all the wood work and waiting chairs.

Don said he wanted to keep in step with all the re-modeling and redecorating that has been going on along Main street this spring.

KLEMME GIRL ON HONOR ROLL AT HAMILTON'S

Miss Marcele Back, daughter of Mr. and Mrs. Nels Back, south of Klemme, was listed on the honor roll at Hamilton's School of Commerce at Mason City for the past quarter. To be on the straight honor roll a student must have an average of B with no grade below a C.

MITCHELL BOCK HEADS DAIRY ASSOCIATION

At the annual meeting of the Hancock County Dairy Herd Improvement Association held at the county agent's office, Mitchell Bock, Klemme, was elected President and V. A Cook, also of Klemme, was named Vice President.

Loran Abele, Garner, was elected secretary-treasurer; and Claude Huling and John Ostercamp, both of Britt were named directors.

The new officers assume their duties July 1st.

Ralph Ruggelberg of Lost Nation is the tester for the coming year.

MOTHER OF KLEMME LADY DIED TUESDAY EVENING

Mrs. J. W. Pickerell, mother of Mrs. Wm. Zabilka, died Tuesday night at her home at Oskaloosa.

Rev. and Mrs. Zabilka left this Wednesday afternoon to attend the funeral.

They may not return to Klemme for Sunday services.

Johnny Klinge Drowned While Fishing Sunday

SLIPPED OFF RIVER BANK IN RECOVERING FISH POLE

John Frederick Klinge, nine and a half year old son of Mr. and Mrs. Otto Klinge, Liberty township farmers living northwest of Klemme, was drowned at about one o'clock Sunday afternoon in the Iowa River near the Hrubes bridge

John and his brother Benjaman, 11, had been fishing from the bridge when a fish pole dropped into the water of the high river. The boys followed the pole along the river as it floated downstream and when it came near the bank on John's side of the river he slipped off the bank as he reached for it. He was unable to swim in the deep swift water and couldn't be reached by his brother on the opposite side of the stream.

A rescue crew from Clear Lake was called and drivers from Britt assisted in locating the body which was found at about 4.30 o'clock 200 feet downstream from where the boy fell in.

In the rescue crew were Deputy Sheriff Ed Kudje and Will McKibben of Clear Lake; and Ike Wieland and Elmer Anderson of Britt. The body was taken to the Wellemeyer Funeral home in Klemme.

Funeral Services Tuesday

Funeral services for John Frederick Klinge were held Tuesday afternoon at 2:00 o'clock at the Peace Reformed Church in Ell township in charge of the Wellemeyer Funeral Service of Klemme, with Rev. William Hueneman delivering the funeral sermon. Interment was in the cemetery near the church.

The obituary appears elsewhere on this page.

KLEMME COUPLE MARRIED AT PLANKINGTON, S. D.

Miss Ethel Netland and Mr. Fred Sobeck were married Saturday, June 14th at Plankington, S. Dak., and were attended by Mr. and Mrs. Jay Colvin, of White Lake, South Dakota. Mrs. Colvin is a sister of the groom.

The couple spent the weed end visiting at White Lake and returned to Klemme Monday evening.

Mr. Sobeck has been employed on the Emil Beier farm in Liberty township for the past two years where he will continue his work. Mrs. Sobeck is at the home of her parents Mr. and Mrs. Ben Netland in Klemme.

REFORMED LADIES AID WILL MEET JUNE 25

The Ladies Aid Society of the Klemme Reformed Church will meet on Wednesday, June 25th at 2 00 o'clock. Mrs. Louisa Rosendahl and Mrs. Elizabeth Stromer are the hostesses.

"ZIEGFIELD GIRL" TO BE SHOWN AT AVERY

Screen entertainment of a lavish and fulsome nature of the Ziegfield "Glorified Girl" era of a decade ago.

Starting with the promise to be a Ziegfield show-girl was simply to see more of life in a shorter time than in other occupations.

Judy Garland, Hedy Lamarr and Lana Turner, with James Stewart, constitute the starring quarter. The three girls, each in a different walk in life start out to become a Ziegfield Glorified Girl and meet with many experiences.

Don't fail to see this picture at the Avery.

Obituary Of John Frederick Klinge

Nine and a half years ago a baby boy came to gladden the home of Otto and Hattie Klinge in Liberty Township. The lad was named John Frederick and his birthday was January 6, 1932.

His childhood days were spent in the healthy atmosphere of a farm home. He completed the third grade in the rural school nearby, and he also attended the Vacation Bible School at the Peace Reformed Church.

And now a tragedy has occured which brought his life to a close. On the afternoon of June 15th John Frederick and his brother went to fish on the swollen banks of the Iowa River In trying to recover a fishing pole which had fallen into the stream, John slipped off from the river bank into the deep water and could not swim well enough to again reach the shore.

He leaves of his immediate family his parents, Mr. and Mrs. Otto Klinge, two sisters, Mable and Dorothy; one brother, Benjaman; all at home Also his grandparents, Mr. and Mrs. Fred Klinge, Sr, besides many more distant relatives and friends.

'Non-Coms' Are Real Backbone Of U. S. Army

Corporals, Sergeants Need Leadership Ability, Character.

(Special to Western Newspaper Union)

WASHINGTON. — The backbone of the army is the noncom.

In Uncle Sam's new army of 1,400,000 men, approximately 346,712 soldiers will be noncommissioned officers. Selective service men will wear a substantial number of these chevrons of leadership.

"Parents of soldiers who wear chevrons should be proud." says George C. Marshall, four-star general, and chief of staff of our army.

It is a fighting army Uncle Sam is developing and these noncommissioned officers have taken the first step upward in the chain of command which starts with the two stripe corporal, and in the military service, ends with the four stars worn by General Marshall.

In addition to the 346,712 soldiers holding warrants as noncommissioned officers, 429,253 are rated as first class privates, with consequent increases in pay and responsibility. Another medium available for the recognition of aptitude and devotion to duty in our army are "Specialist" ratings. A total of 398,397 soldiers are rated as "specialists," with increases in pay ranging from $3 00 to $30 00 per month.

"While every man with the colors will benefit from his service, those men who are promoted will develop traits of character which will be of tremendous value to them on their return to civil life," General Marshall said.

Character, Ability Important.

"All noncommissioned officers are appointed by regimental or similar commanders, on the basis of recommendations made by the soldier's immediate superior. These men are specially selected, and seniority carries little weight. Character and demonstrated ability are essential attributes," General Marshall continued. "Grave responsibilities are placed on the shoulders of these soldiers, as indicated in the opening sentence of their warrants:"

"Reposing special trust and confidence in the fidelity and abilities of—" reads the opening sentence which continues, **"I do strictly charge and require all Noncommissioned Officers and Soldiers under his command to be obedient to his orders."** The document continues.

Throughout the world's military history, commanders have ever relied upon the resourcefulness, fortitude, and strength of character of the noncommissioned officer. In Philip of Macedonia's early Greek army, it was the Lochagos; while in Caesar's Roman army, it was the Decurian who carried those forces through to victory. Napoleon recognized the importance of the enlisted man and noncommissioned officer, stating that "every soldier carries a marshal's baton in his knapsack."

General Marshall observed that in many respects the strength of character of noncommissioned officers must be as great or greater than that of commissioned officers. The non-com lives with his men 24 hours a day and participates in every phase of their lives. Despite this familiarity, which the old adage declares "breeds contempt," the noncom must demonstrate that he is a better man—not physically, but mentally. The officer in maintaining discipline is armored with a certain degree of aloofness. This simplifies his task of maintaining discipline. But the corporal living with his squad of some eight or twelve men is on his own.

Enhance Self-Respect.

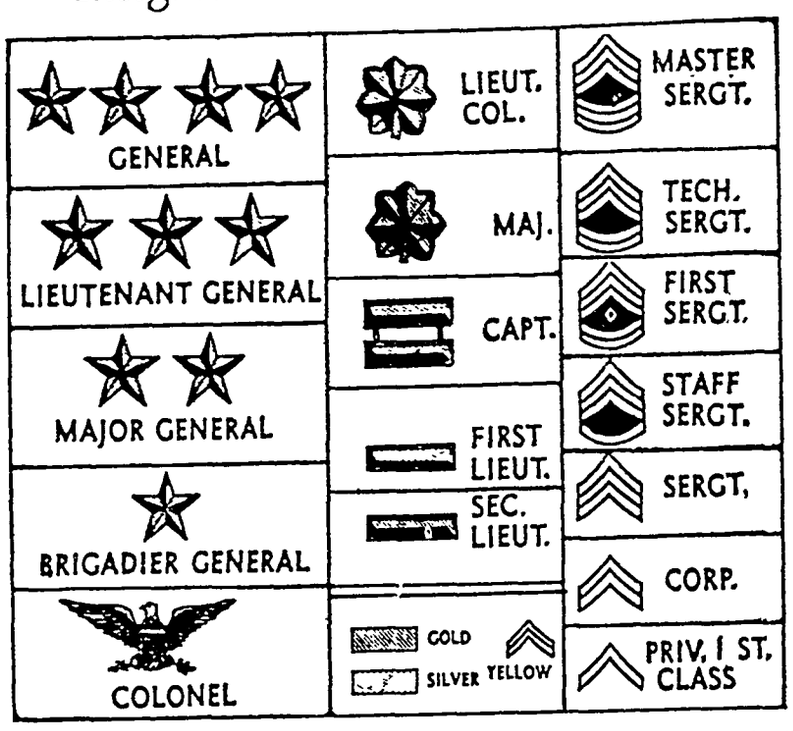
"Many of our citizens feel that the noncommissioned officer's task is simplified because of the support he always receives from officers. However, the new army we are developing is not an army where fear of punishment is the right arm of discipline," General Marshall said "It is an army where every effort is made to enhance the soldier's self-respect. Consequently, the noncom must ever be alert to curb any possible tendency to violate the Code of the American Soldier. Instead of waiting to report violations of orders, with possible disciplinary action, the corporal, by example and straight talk, prevents these derelictions which so vitally affect a military organization."

Should our armies have to take the field in defense of American liberties, the responsibilities of corporals and sergeants would be tremendous. In order to develop their military qualifications for command, these non-coms attend schools, and one of the basic points emphasized is that the leaders who permit one of their men to be killed needlessly is a murderer. With such high standards, it is apparent that the character development which accompanies appointment as noncommissioned officer is a factor which will pay dividends in both civil and military life.

The road leading to a commission and further advancement in the army is also open to enlisted men, and on July 1, 1941, 10 Officers' Candidate schools will open in various parts of the country. A total of 2,300 warrant officers and enlisted men, all with at least six months' service, will attend these schools. Men successfully completing the course will be commissioned as second lieutenants. It is probable that the majority of these students will be noncommissioned officers, for they have already demonstrated their worthiness for promotion.

In the army, as in civil life, increased responsibility is rewarded by increased pay. All of the men now entering the service start with base pay of $21 00 per month. At the end of four months' service, their pay is increased to $30.00 per month, unless inefficiency or other unfitness indicates that the soldier is unworthy of receiving extra compensation. The next promotion is to first class private, carrying an advance of $6.00 per month. From first class privates the corporals are selected and they receive $54.00 per month. Pay of other noncommissioned grades are: Sergeant—$60.00 per month; staff sergeant—$72.00 per month; first or technical sergeant—$84.00; and master sergeant —$126 00.

Insignia Indicates Officer's Rank



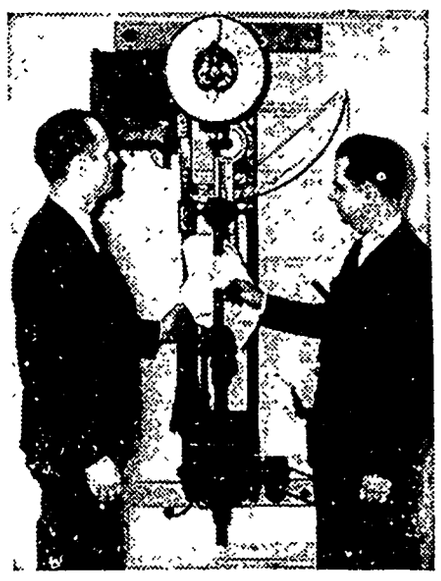
Ranks of soldiers and their officers are revealed by the insignia they wear. The insignia most commonly seen are shown above. First class privates and non-commissioned officers wear their insignia on the left arm, while commissioned officers wear theirs on the shoulder.

Modern Science Improves Value Of Cloth Fabrics

CHICAGO.—Women in small cities and rural communities have reclaimed homemaking leadership by their wholehearted acceptance of consumer education. It is these women who today really understand and apply the principles of scientific homemaking.

Not so long ago, when modern homemaking first reared its scientific head, it was perfectly true that the city gal's glib talk about thread count and vitamin content—backed by a Home Economics degree—had the farmer's wife definitely at a disadvantage.

Then came rural electrification, and modern homemaking paraphernalia was no longer the city woman's special privilege. Expansion of the 4-H club, the Grange, and county agent activities brought new knowledge of how to safeguard the health, wealth and happiness of these vast areas.



Scientists test cloth for tensile strength. The machine measures the amount of "pull" required to tear the cloth.

Today, the co-ordinated power of these educational groups and homemakers is felt in every branch of industry—for, by their refusal or acceptance of new ideas in homemaking, industries rise or fall.

For example, professional laundering has been a leader in practical consumer education, with far-reaching results in consumer protection, and in forcing manufacturers to produce products to match consumers' new standards.

Laundrymen became tired of "taking the blame" for washing failures and called on science to protect them with their customers. Through their national association, the American Institute of Laundering, they set up research laboratories in Joliet, Ill.

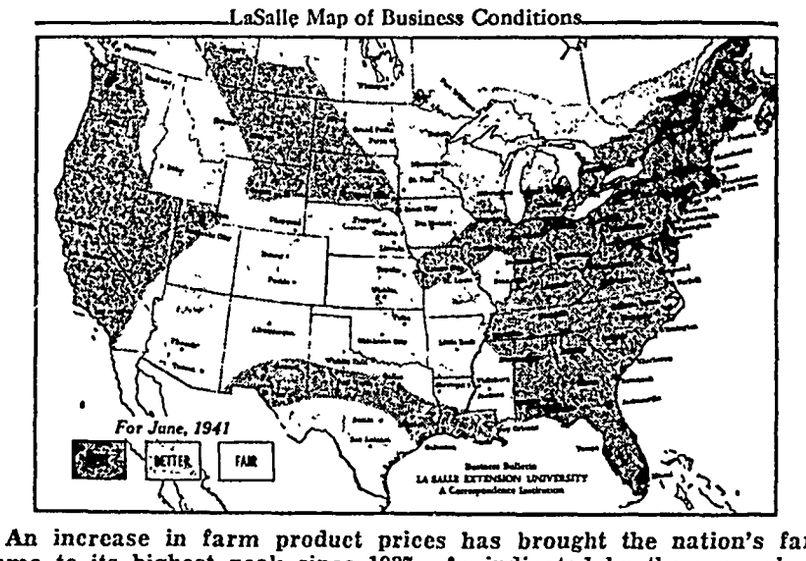
Results have been interesting. For instance, a few years ago, the farmer's daughter and her city sister judged a bed sheet only on price and appearance. If it fell to pieces after a few washings at home they were downhearted but didn't know what to do about it; if it came back from the laundry somewhat in shreds, they blamed the laundry.

So, bed sheets were put through the research laboratories. These scientific studies revealed that the inherent weaknesses of the sheets themselves were to blame for the damage—not the washing process.

With consumers and the professional laundries demanding sheets which meet minimum standards, the manufacturers got busy and produced them.

Methods of dyeing also are subjected to the laundries' test tubes. Color fastness is an important subject to the housewife. It is estimated that about $50,000,000 is wasted annually because fading colors destroy the eye appeal of garments otherwise wearable. By the way, the scientists point out that few, if any, home treatments for "setting" fugitive colors are effective. If such remedies possessed merit, textile dyers and printers would adopt them. Some of these "home treatments" merely fail to be effective, while few even harm the fabrics.

Nation's Farm Income Rises



An increase in farm product prices has brought the nation's farm income to its highest peak since 1937. As indicated by the map above, favorable business conditions prevail in most sections of the country.

By L. G. ELLIOTT
President, LaSalle Extension University

CHICAGO.—Farmers are receiving more money than they did last year, and are buying more goods, the result of increased income from higher prices for dairy products, grains and cotton. Advances in these commodities have more than offset the recent moderate declines in livestock prices, which are now at the top for several years. The general average for all farm prices is 12 per cent higher than a year ago, and is the highest since 1937. Government payments to farmers, which have been somewhat smaller, are expected to rise during the next few months.

Greatly increased purchasing power of consumers in cities, and the improvement in general economic conditions, have been partially responsible for these higher prices for farm products. Another contributing factor is government purchasing of large quantities of farm products under the "Food for Defense" program.

The Washington MERRY-GO-ROUND

DREW PEARSON & ROBERT ALLEN

Washington, D. C.

NEW TYPE CONVOYS

Behind all the guessing and speculation over convoys aroused by the President's fireside chat is this one basic fact. The old-fashioned form of convoy already is outmoded, and, as Roosevelt indicated at a recent press conference, it will not be used. But the new-fashioned form of convoy already is in use and will be intensified.

This is convoy by airplane patrol, using airplane carriers and nearby islands for bases. The destruction of the Bismarck showed how effective this airplane convoy could be.

Airplanes flying above the water can sight the submarine below the water miles away, whereas a surface vessel cannot sight a submarine more than a mile or so away. Therefore you can expect to see a network of United States airplanes criss-crossing back and forth across the north Atlantic, assisted in part by surface warships, but extending all the way to Ireland.

The Pacific Fleet.

With this settled, the most important strategic problem being discussed in backstage navy circles is that of bringing the mighty Pacific fleet from that ocean into the Atlantic to prevent Nazi seizure of the mid-Atlantic islands and to be ready for other major eventualities.

Every detail in connection with such a shift has been discussed. And while there have been some hot behind-the-scenes arguments, the one thing upon which the admirals all agree is that the fleet must be kept together. To split it into small units and send some of them to the Atlantic, in their opinion, would be disastrous. Battleships must have their accompanying cruisers, destroyers, etc., and they cannot be divided.

Naturally, the idea of the fleet withdrawing from the Pacific is enough to raise the hair on the heads of most people on the West coast. However, the navy has worked out a plan whereby it is confident that the West coast would be in no real danger.

The plan is extremely important, because it illustrates the new type of warfare made possible by the long distance bomber. Also it gives the key to Roosevelt's convoy plans. Finally it illustrates what the Nazis could do to the United States if the plan were reversed in the Atlantic.

Key to the plan is Hawaii and the Aleutian islands. The admirals are reasonably confident that long distance patrol planes ranging out from Hawaii in the mid-Pacific and from the Aleutians in the north Pacific would be sufficient to spot any Japanese ship approaching American waters. And air torpedoes of the type which crippled the Bismarck could do the rest. In fact, the entire Bismarck incident has been a striking demonstration that long-distance bombers plus island bases have revolutionized warfare in both oceans.

Azores and Canaries.

Now if you transpose the map of the Pacific onto the map of the Atlantic, you will also get an idea of why Roosevelt bore down so heavily on the importance of the Azores, the Canary and Cape Verde islands in his fireside chat. For the Azores are the Hawaii of the mid-Atlantic, while the Canaries and Cape Verdes might be compared to the Aleutians —in reverse position.

Whoever holds these stepping-stones across the Atlantic can sweep that ocean with naval patrol planes and bombers, just as the U. S. fleet can sweep the Pacific from Hawaii and the Aleutians.

If we hold these Atlantic islands, then we hold the gateway to the Atlantic. If Hitler holds them, he controls the first step toward Brazil —and the rest of the way is easy. These were some of the things Roosevelt studied on the large-scale maps of the navy department before he made his broadcast.

Another vital point he studied was not mentioned in his broadcast; because no one is talking publicly about the fact that the British may have to withdraw from Gibraltar, even from the Mediterranean altogether. But in case of such a withdrawal, a glance at the map will show that these three sets of islands —the Azores, Canaries and Cape Verdes—could help to replace Gibraltar.

They sit astride the entrance to the Mediterranean, and long-range bombing planes based on those islands could make it hot for any expeditionary force heading out of the Mediterranean for the Americas.

All of these are reasons why you can expect vital action regarding the Atlantic islands.

Historical Highlights

by Elmo Scott Watson

(Released by Western Newspaper Union.)

Saved by a Chalk Mark

AMERICANS remember Thomas Paine as the man who, with his pamphlets, did as much as many a general with his sword to win the American Revolution. They remember that his "Common Sense," published January 10, 1776, was an unanswerable argument for the independence of the rebellious English colonies.

But they remember most of all the immortal words with which he began "The Crisis, No. 1":

"These are the times that try men's souls. The summer soldier and the sunshine patriot will, in this crisis, shrink from the service of his country; but he that stands it now, deserves the love and thanks of man and women. Tyranny, like hell, is not easily conquered; yet we have this consolation with us, that the harder the conflict, the more glorious the triumph."

What they do not remember, perhaps, is that Paine's service to the cause of human liberty did not end

THOMAS PAINE

with the successful conclusion of the American Revolution. Although the fight for freedom had been won on this continent when Cornwallis surrendered at Yorktown, it was still being waged in other parts of the world. So Paine went back to his native land, England.

One hundred and fifty years ago this year, he published the "Rights of Man" in reply to Burke's "Reflections on the French Revolution." For this he was outlawed by the court of the king's bench, so he went to France where the Revolution had overthrown the Bourbons and where he was hailed as a hero.

In fact, he was elected to the National convention but his republicanism was not strong enough to please the Jacobins. So when he opposed the execution of King Louis XVI and urged instead that the monarch be exiled to America, the Jacobins expelled him from the convention.

When Robespierre came into power Paine was thrown into prison where he was kept for a year in constant fear of death. Listed among those who were to mount the steps of the guillotine, he escaped by that fate by a strange freak of chance.

One morning the keeper of the prison went along the corridor placing chalk marks on the doors of those who were to be executed that day. It so happened that the door to Paine's cell was open and pushed back flat against the wall of the corridor. In the darkness of the gloomy old prison the keeper failed to notice this and put his chalk mark on the inside of Paine's door.

Thus when the door was finally closed the guards passed it by when they came to lead the other prisoners to their doom.

Paine was finally released through the efforts of James Monroe, United States minister to France, and resumed his seat in the convention. He lived to see the revolutionary cause betrayed by Napoleon Bonaparte, who had once visited him and flattered him by saying "A statue of gold ought to be erected to you in every city of the universe."

Paine returned to the United States in 1802 and settled down on a farm in New York state which had been given him in recognition of his services to the Revolution. Later he moved to New York and died there in 1809.

He was first buried on his farm at New Rochelle but a few years later William Cobbett, the English radical, removed his bones to England with the hope of increasing enthusiasm for the republican ideas of which Paine had been the principal exponent.

Cobbett placed the coffin in the attic of his home at Normandy Farm in Surrey. After his death in 1835, the coffin disappeared and no one knows what became of it.

* * *

Meanwhile the Thomas Paine National Historical association had been formed in America and Moncure D. Conway, its first president, began a search for Paine's remains. In 1900 he obtained in London a small portion of Paine's brain. William M. Van Der Weyde, the next president, next took up the search and secured several locks of Paine's hair. But what became of the remainder of what was once Thomas Paine is still a mystery, although it is believed that he was secretly buried in England in the seventies.

YOUR SUNDAY DINNER
(See Recipes Below)

ESPECIALLY FOR DAD

Sunday, June the fifteenth, is the day you want to especially prepare DAD's favorite foods—for it's Father's day—and don't forget it. The favorite of all men is a good tasty meat pie—so the suggestion for the main course is a delicious individual meat pie. Dad doesn't like to bother much with side dishes of salad, so place his salad right on the plate with the rest of the meal. He likes a cole slaw stuffed tomato. Buttered carrots and peas are the vegetables. Because he is so fond of blueberries, it's blueberry muffins to go with the meal, and blueberry ice cream cake for dessert.

This week's menu is properly balanced for nutritional value. It supplies.

The appetizer: Carbohydrates, minerals, Vitamins A, B, C, and G.

The Meat: Proteins, phosphorus, Vitamins B, B-1; fats, carbohydrates in crust.

The Vegetables: Minerals, Carbohydrates, Vitamins A, B, C, and G.

Muffins and butter: Vitamins A, B, C, and G, minerals, carbohydrates.

Salad: Minerals, Vitamins A, B, C, and G, carbohydrates and fats.

Dessert: Carbohydrates, minerals, fats, Vitamins A, B, C, D, and G.

To Serve 6 You Need:

1 can apricot nectar
1 can pineapple juice
2 lbs. lamb shoulder
2 bunches carrots
1 No. 2 can peas
6 tomatoes
1 small head cabbage
2 pints blueberries
1 pint ice cream

(Balance of materials among staples)

***Individual Lamb Pies.**

2 lbs. shoulder of lamb
2 small onions
3 tablespoons flour
1¼ teaspoons salt
2½ cups milk
Butter Pastry

Trim the lamb, cut in small cubes and brown in a hot frying pan. Add the chopped onion and cook until light brown, stirring constantly. Add the flour and salt and mix well. Stir in the milk gradually. Cover and cook over low heat for about 45 minutes or until the lamb is tender. Roll out pastry and place in individual pie tins or cut in six five-inch rounds and place in large cupcake pans. Fill with the lamb mixture and brush the rims of the pastry with milk. Top each pie with another round of pastry. Crimp the edges and cut slits in the top for the steam to escape through. Brush each pie with milk or cream. Bake in a 425-degree F. oven for 25 to 30 minutes or until the crust is evenly browned. Lift gently from the pan and serve.

LYNN SAYS:

Dad's day might be the one day when Dad would really like to try his hand in the kitchen. How about some feathery light biscuits to go with dinner? They're an easy trick if you just put out the ingredients for Dad, along with one of those big bowls and a spoon. Now sift 2 cups of flour, 2 teaspoons of baking powder, and ½ teaspoon of salt. Cut in 4 tablespoons of shortening, and then add about ¾ of a cup of milk gradually. Stir until a soft dough is formed, not too long, though, or the biscuits will be tough. Turn the dough on a slightly floured board, pat to a ½-inch thickness, and cut with a floured biscuit cutter. Pop them into a hot oven (450 degrees) on an ungreased baking sheet for 10-15 minutes. Dad will probably like the large biscuits, so better give him the large cutter. The recipe will make about 12 biscuits of that size, or 16 of the smaller ones. Can't you just see him beaming over a plate of hot, flaky biscuits he made all by himself?

THIS WEEK'S MENU

Chilled Mixed Fruit Juices
*Individual Lamb Pies
Buttered Carrots and Peas
*Blueberry Muffins Butter
Tomato and Cole Slaw Salad
French Dressing
*Blueberry Ice Cream Cake
*Recipes given.

Butter Pastry.

1¾ cups flour
½ teaspoon salt
½ teaspoon baking powder
⅔ cup butter
3 to 5 tablespoons milk

Mix and sift the flour, salt and baking powder. Cut in the butter with two knives or rub in with the fingertips. Add milk slowly, tossing the mixture together lightly and use only enough milk to hold the ingredients together.

***Blueberry Muffins.**

2 cups sifted flour
4 teaspoons baking powder
2 tablespoons sugar
½ teaspoon salt
2 eggs, beaten
1½ cups milk
3 tablespoons melted butter
1 cup blueberries.

Sift dry ingredients together. Combine eggs, milk and shortening and add to dry ingredients, stirring only until moistened. Fold in blueberries. Pour into greased muffin pans and bake in moderately hot oven (425 degrees F.) for 25 minutes. Makes 18 muffins.

***Blueberry Ice Cream Cake.**

¼ cup butter
¼ cup sugar
1 egg
1 cup flour
⅛ teaspoon salt
1½ teaspoons baking powder
¼ cup milk
¼ teaspoon vanilla
1½ cups blueberries
Vanilla ice cream

Cream the butter, add the sugar gradually and cream thoroughly. Add the egg and beat well. Mix and sift the flour, salt and baking powder and add to the first mixture alternately with the milk. Add the vanilla and pour into a buttered cake pan about 8 inches square. Sprinkle blueberries over the batter and bake in 375 degree F. oven for 30 minutes. Cut in squares and serve warm with ice cream and warm blueberry sauce.

Blueberry Sauce.

⅓ cup sugar
1½ tablespoons flour
¼ teaspoon salt
¾ cup water
1 cup blueberries
1 tablespoon lemon juice
2 teaspoons butter

Mix the sugar, flour and salt in a saucepan, and add water and blueberries. Cook over low heat, stirring constantly until thickened. Stir in lemon juice and butter.

SERVING HINTS:

Place individual pies right on the serving plate. The tomato cole slaw salads may be arranged on lettuce leaves on a platter and each person can serve himself from this platter. Peas and carrots always offer a good color combination. Arrange them in a bowl tossed together or separately arranged with carrots in the center and peas surrounding the carrots.

The dessert had better be served in a rather deep dessert dish. Place a square of cake in each dish, then top with a ball of ice cream. Over all pour the rich looking blueberry sauce. Prepare this dessert just before it is to be served. The whole family will love it.

USE OF LEFTOVERS:

Here's what to do with that bowl of leftover vegetables. Say you have peas, carrots and mashed potatoes. This a fine combination for Vegetable Puffs. Mix 1 cup leftover mashed potatoes with 2 eggs, 3 tablespoons milk, 1 teaspoon baking powder, 1½ cups peas, carrots, mashed, ½ cup flour and 1 tablespoon chopped parsley. Mix thoroughly together and drop by teaspoons into hot deep fat —350 degrees F. Cook until brown. Drain on absorbent paper. Makes 8 to 10 puffs.

(Released by Western Newspaper Union.)

PATTERNS
SEWING CIRCLE

IF YOU'RE expecting a baby, make all your summer outfits with this one easy pattern, including adjustable dress, and collarless jacket fulled onto a shallow yoke. It will be so cool in soft cottons or afternoon silks, even on the hottest days, and will keep you looking trim and smart throughout the entire period of expectancy. The cost will be low.

* * *

Pattern No. 8933 is designed in even sizes 14 to 42. Size 16, 6½ yards 39-inch material. For this attractive pattern, send your order to:

Full Culture

No man receives the full culture of a man in whom the sensibility to the beautiful is not cherished; and there is no condition of life from which it should be excluded. Of all luxuries this is the cheapest, and the most at hand, and most important to those conditions where coarse labor tends to give grossness to the mind.—Channing.

Uncommunicative Bird Was Only Paving Way

Brown and Dun each boasted a talking parrot and rivalry ran high between them. At last a match was arranged for at $5 a side.

When the great day came the Brown parrot spoke not a word, so the other bird was an easy winner. Back home, Brown greatly chagrined, said:

"You're a fine pal, letting me down like that! I'm utterly disgusted with you."

"Shurrup!" replied the parrot, closing one eye knowingly. "Take him on for a return match for twenty bucks and I'll talk his blooming head off!"

REGULAR JUNE MEETING

Garner, Iowa, June 9, 1941

The Hancock County, Iowa, Board of Supervisors met in session on above date with G E. Klipping, F J Schoun and Penn Eckels present

The minutes of the last meeting were read and approved as read.

Supervisor Klipping is appointed as a committee to investigate and cause repairs to be made in D. D No. 38, D D Nos 3 and 4, lateral 7, D D. No. 7, section 5; and D D. No. 13, lateral 5

Supervisor Schoun is appointed a committee to investigate and cause repairs to be made in D D No. 73-139

In the matter of drainage petition of Harry Horecka et al, petitioning for a cleanout of East Main of D D Nos 1 and 2 to original grade, from its junction with lateral 5 to lateral 4 and the main ditch of lateral 4.

BE and it is HEREBY RESOLVED by the Board of Supervisors of Hancock County, Iowa, acting for and in behalf of drainage district Nos 1 and 2 and lateral 4 that the petitions of Harry Horecka et al be and the same are hereby referred to Engineer C F Merten for an investigation and report

This being the date heretofore set for a letting on the cleanout of lateral No. 1 of D D Nos 3 and 4 and laterals 28 and A in Drainage District No. 7, the hour of said letting having arrived, and the proof of publication of said letting being on file and the Board being fully advised, said letting was held as scheduled

The Chairman of the Board proceeded to open all bids on file, and after duly considering all bids on file, on motion by Klipping and second by Schoun, the Board voted to reject all bids and submit to another letting at some future date. The Chairman placed the motion and the vote thereon is G E Klipping, F J Schoun and Penn Eckels present and voted aye

This being the second Monday in June, 1941 the Board of Supervisors of Hancock County Iowa did organize and proceed to act as a county board of review as commanded in section No 7137 and did proceed to equalize assessments between the various townships and townships as directed by law

On motion and second County Board of Equalization adjourned to meet at 9 o'clock, a m on June 11th to continue as a County Board of Equalization as directed by law

Attest
FRED C MISSAL, County Auditor. PENN ECKELS Chairman

SUPPLEMENTAL MINUTES, JUNE 9, 1941

In the matter of a cleanout of the main ditch and lateral No 4 of D D No 6, petitioned for by E. W Haes et al

WHEREAS C F Merten, Engineer, has filed his report stating that he has investigated and made surveys of the condition of D D No. 6 and lateral No 4 of D D No. 6 Hancock County, Iowa, and finds the ditch filled with silt so that tile outlets are submerged and in his opinion the proposed cleanout as prayed in the petition of E W Haes et al is necessary and will be of greater benefit than the cost of such cleanout and recommends that the main ditch of D D No. 6 and lateral No. 4 be cleaned to grade

BE IT THEREFORE RESOLVED by the Board of Supervisors of Hancock County, Iowa for and in behalf of D D No 6 that [illegible] the Engineer be approved, and [illegible] that the cost of such [illegible] will be in excess of 10% of the [illegible] of construction of D D No [illegible] and that it will be [illegible] and notice of hearing as [illegible] law the Board does hereby [illegible] at the Court House in [illegible] Iowa at one and [illegible] for hearing proposed cleanout of D D No [illegible] and No 4 petitioned for by E W Haes et al and the report of [illegible] is approved as a tentative [illegible] and may be amended before the date for hearing thereon

The county auditor be and he is hereby directed to cause notice of hearing to be published in the Garner Leader and Signal a newspaper published in Garner Iowa advising all owners, occupants, henholders and encumbrancers of record in the district of the pendency and prayer of the petition the favorable report thereon by the Engineer and that said report may be amended before final action, the approval thereof by the Board as a tentative plan, the date and hour of the hearing thereon, and that all claims for damages and objections must be filed with the county auditor in writing at or before the hour set for the hearing

The foregoing resolution was offered and read by Supervisor F J Schoun who moved its adoption was seconded by Supervisor G E Klipping whereupon the Chairman placed the motion of its adoption and upon roll call all members are present and the vote thereon is G E Klipping F J Schoun and Penn Eckels, Aye Nays - None

CARRIED

On motion and second the county auditor be and he is hereby directed to advertise the letting for approximately 50 ton of coal to be used in the Courts House

WHEREAS the Congress of the United States has appropriated [illegible] to assist in the construction of [illegible] highways and

WHEREAS [illegible] Federal appropriation [illegible] such work in the [illegible]

WHEREAS [illegible] Hancock County [illegible] county any funds that might be [illegible] said [illegible]

WHEREAS the Federal rules and regulations require that only the most heavily traveled portions of the secondary road system shall be included in said Federal secondary system and

WHEREAS due consideration has been given to the information as to volume of traffic [illegible] Statewide Highway Planning Survey

NOW THEREFORE BE IT RESOLVED that the Board of Supervisors of Hancock County Iowa on this 9th day of June 1941 recommends that the following projects be constructed by the State Highway Commission and the United States Public Roads Administration for improvement under said Federal appropriation

Grade Bridge and Surface the following projects

Project No 1 County Trunk Road 'E' commencing at the southeast corner of section 25-94-23, thence west to Goodell

Project No 2 County Trunk Road 'A' commencing at the southwest corner of section 15-97-25 thence east to the southeast corner of section 14-97-24

Project No. 3 County Trunk Road X commencing at the southwest corner of section 27-96-26 thence north to the northwest corner of section 15-97-26

AND BE IT FURTHER RESOLVED that the State Highway Commission be requested to proceed with such work in order that the improvements recommended can be placed under construction at the earliest possible date

The foregoing resolution was offered and read by Supervisor Klipping who moved its adoption, was seconded by Supervisor Schoun whereupon the Chairman placed the motion of its adoption and upon roll call, all members are present and the vote thereon is G E Klipping F J Schoun and Penn Eckels, Aye Nays - None

CARRIED

Board adjourned until June 23 at 9 o'clock A M

1ST ADJOURNED JUNE MEETING

Garner, Iowa June 11, 1941

The Hancock County Iowa, Board of Supervisors met in session on above date with G E. Klipping, F J Schoun and Penn Eckels present

The minutes of the last meeting were read and approved as read

This being the 11th day of June 1941, the date the County Board of Review adjourned to from their meeting on June 9th, the Board of Supervisors of Hancock County, Iowa, having previously organized did continue to act as a County Board of Review as commanded in section 7137 Code of Iowa, 1939 and did review the valuations of real estate and personal property for the year 1941 for the various taxing subdivisions of Hancock County, Iowa, as reported by the various assessors, and do hereby propose to make the following changes in taxable valuation in the several subdivisions to better equalize values between thevarious taxing districts of Hancock County, Iowa:

Crystal Township, farm land, decreased 2.6%.

Orthel Township, farm land, decreased 2 5%.

Britt Townshihp, farm land, decreased 2.5%.

Boone Township, buildings, increased 40%.

Garner Township, farm land, decreased 7%

Woden Corporation, farm land, decreased 7%.

Crystal Lake Corporation, cows, increased 18%

Be it further resolved that this County Board of Review does hereby fix the 23rd day of June at the hour of 10 o'clock a m at the Board Room in Garner, Iowa, as a time and place for hearing to show cause why said proposed changes in valuation as set out above shall not be made.

The County Auditor be and he is hereby directed to cause notice of said proposed changes to be made to be sent by registered mail to the clerks of the taxing subdivisions affected, setting forth the time and place of hearing thereon

The foregoing resolution was offered and read by Supervisor Klipping, who moved its adoption, was seconded by Supervisor Schoun, whereupon the Chairman, Penn Eckels, placed the motion of its adoption and upon roll call the vote thereon is G E. Klipping, F J Schoun and Penn Eckels, Aye. Nays—none.

On motion and second the Hancock County Board of Review adjourned to meet at 10 o'clock a. m. on the 23rd day of June, 1941.

Attest
FRED C MISSAL, County Auditor. PENN ECKELS, Chairman

On motion and second the application for Walter Ray Agnew for a Class B beer permit is approved

On motion and second the application and bond of O I Logan of Hayfield for a Cigarette Permit is approved

Supervisor Klipping is appointed a committee to investigate and [illegible] be made in D D. No. 84, [illegible] 113.

On motion and second [illegible] to Jun 23rd at 9 o'clock a. [illegible]

NOTICE OF COAL LETTING

Bids will be received in the office of the County Auditor until 1 30 P M on July 2 1941, for approximately 80 tons of coal for the Hancock County Home, to be delivered on track at Duncan, Iowa

By virtue of statutory authority preference will be given to products or materials grown or produced in the State of Iowa

The Board reserves the right to waive technicalities and reject any or all bids

Published by order of the Board of Supervisors

FRED C MISSAL,
County Auditor

FORMER KLEMME GIRL WED AT PIPESTONE, MINN.

The marriage of Arlene Kaduce of Pipestone, Minn., and Leland Pommrehn of Alden, Iowa, took place at the Evangelical parsonage in Pipestone on Wednesday evening June 4th at 7 30 o clock

Mr and Mrs Dan Kaduce, parents of the bride, witnessed the ceremony

Mrs Pommrehn is the oldest daughter of Mr and Mrs Dan Kaduce who recently moved to Pipestone from Klemme The groom is the son of Mr and Mrs William Pommrehn of Alden

The couple will live on the Pommrehn farm near Alden

Weeds listed as 'primary noxious' in the Iowa Agricultural seed law quack grass, Canada thistle, perennial sow thistle, perennial pepper grass, European morning glory, horse nettle, leafy spurge, Russian knapweed, and Buckhorn

To make crisp containers for creamed food, trim the crusts from slices of fresh bread brush lightly with melted butter and press each slice into a muffin cup Toast in a moderate oven 10 minutes or until lightly browned

LAMP LIGHT

Ancient street lamps stored for 28 years in the Beacon jail are again coming into their own Folks from far and wide are buying them for illumination at modern homes. The old lights are encased in glass in square frames sloping in at top and bottom and in their original state they were mounted on poles. The containers are high up One surface of the lamp is hinged, providing a door through which a kerosene lamp is placed. Lighted, the lamps furnished the street illumination of a by-gone day

WHAT, NO PROPELLOR

Although Oakland now has a new airport, a pilot of a plane from Omaha did not get a chance to use it last week The propellor broke off the plane, causing the plane to make a forced landing on the Boo Robinson farm near there. The missing propellor was found a few days later near the place of the forced landing.

ACCIDENTS

Life seems filled with broken bones for Mrs. M. J Rohde residing near Waverly. Recently, while caring for ducklings on her farm she fell, fracturing her collarbone. The bone fractures of her lifetime have had a tendency to move upward—first a broken leg, then an arm and now a collarbone.

OIL BOOM

At LuVerne, Roy Stone and Paul Knopf, after finishing the work of filling an underground storage tank in Stones garage with 1,800 gallons of gasoline, had just closed the door of the garage when the whole consignment exploded with a loud boom They are considering themselves fortunate in having been outside and not inside when the thing happened.

FISH ATTACKS MAN

While working with a seining crew, Dick Fike of Spirit Lake was provided with a good reason for a lay-off from work. A large fish was thrown from the net striking him on the left foot. In the impact a fin lodged in his foot causing painful injury

FIRE

Smoke pouring from the Arie De Heus home in Pella brought out the fire department on the run prepared to battle one of those stubborn fires Instead, the firemen coped with a pair of flaming overalls Slight damage was done to the house but the pants were a complete ruin, what with smoke, fire, water and all

FAN MAIL

Hy Brahm, Grinnell, was quite perturbed to find his automobile missing from the place where he parked it one day last week. His anxiety was somewhat relieved several days later when the keys of the missing car were returned in the mail from Cedar Rapids. Worry vanished completely still later when Cedar Rapids police located and returned the car to its owner.

TRAVEL

Trips to the big city of Chicago hold no terrors for 14-year-old Eugene Fuhr of Boyden, but they cause quite a commotion for his family and his relatives in the Illinois metropolis. On his last trip, Eugene expected to be met on arrival by his uncle, Arnold Fuhr, but mised the connection. Attempting to call his uncle, Eugene was erroneously informed that no one of that name was at the address given Meanwhile, the uncle failing to locate Nephew Eugene, called the boy's parents Eugene then preceded to hitch-hike home, arriving there shortly after his father had started for Chicago The boy's adventures in Chicago are not going to prevent him from embarking on another expedition in two weeks.

COMPOSER

A book containing thirteen original religious songs composel by the Rev D. C. Perry, Maquoketa has just been published.

ACCIDENT

Bill Kendall of Lenox and Ronald Schenck of Clarinda were cruising a lake in a motor boat near Lenox recently when the speedcraft caught fire and they were forced to jump into the lake to save themselves Even then it was a near thing as Schenck was severely burned.

ESCAPED

Three girls were virtually "shaking in their boots" last week when a two-foot block of cement railing fell from a building in Waverly several seconds after they had passed beneath. The railing, finished in marble, apparently had become loosened by wind and rain. The girls are the Misses Viola Oltrogge, Marlys Loomis of Waverly and Phyllis Ducker of Bremer.

RETIRED

Mrs. Celia Louderback has retired after 25 years of service as a rural mail carrier on the Belknap route in Davis county. She enjoys the distinction of being the only woman to have served as mail carrier in the county.

Idaho Is Using Beaver In Building Small Dams

When it comes to building dams, man may rank himself first, but the beaver deserves a considerable share of the laurels too. The beaver doesn't pretend to build dams like Boulder and Grand Coulee across big rivers—but set him down on a small mountain stream at the headwaters of a river and he'll build a series of small dams just as sturdy and effective in their place as the big ones. At least this is what the U. S. forest service says from its long observations of beaver.

Just as an example of the confidence the forest service has in the beaver as a water conservationist, the foresters transplanted more than 500 beaver in Idaho last year from the lowlands, where their talents were not appreciated, to the high headwater streams on the Targhee, Challis, Boise, and several other of the southern Idaho national forests. The moving was done with the cooperation of the Idaho state game director and state conservation officers.

The transplanting program in Idaho is to be followed by close observations of beaver populations so that as the numbers increase and the streams become fully stocked, the surplus animals can be removed by regular trapping.

PROGRESS

The old wall telephones in the farm homes around Parkersburg are giving place to dial-operated 'phones in the march of rural progress.

HAY DAY

When Bernard Straight of Logan climbed down from a load of hay he started a long train of disasters. He fell on the horses. The team became frightened. Straight fell between the animals, but managed to roll clear of the wheels. The horses ran away and the load capsized, damaging the rack. Straihgt, himself, received a number of injuries.

Fly Time Here Again

INSECT PESTS of all kinds are here again to bother you for the next few months. Now is the time to guard against this annual nuisance

SCREEN WINDOWS AND SCREEN DOORS

The best PROTECTION against FLIES, MOSQUITOES and other insects is a WELL-SCREENED house. If you need NEW SCREEN on your present windows and doors, bring them in and we will put them in new condition for you. We also will make in our own shop any size SCREEN WINDOWS you may need.

For a SCREEN DOOR we recommend a COMBINATION DOOR . . . a Screen Door for summer, a glassed-in door in the winter . . . changed from one to the other in a few minutes! Just tell us your needs and we will fit and install a door for you.

GERM-A-RID REALLY KILLS ALL INSECT PESTS!

Get a supply of our HOUSEHOLD GERM-A-RID Spray . . KILLS Flies, Mosquitoes and other Insects INSTANTLY. It is not oily or sticky and has a pleasant odor. Ideal for the home

For your Dairy Barns we have a good FLY SPRAY at a small cost. Also complete line of Spray Guns, all sizes.

WHY NOT REMODEL YOUR KITCHEN THIS SUMMER? We can build any type of Kitchen Cabinet you may want.

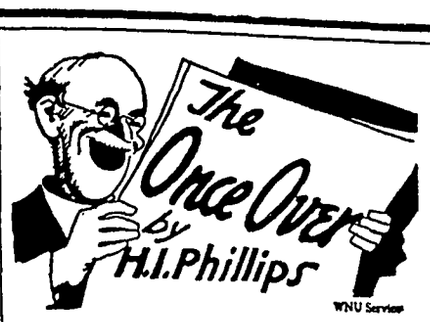
They were awed by the size of the t and the enormous orchestra. n, when the musicians played the strains, one beefed: "How do you e that? They swiped our music?"



MEN'S STYLES

While there will be no change of basic patents involved in men's clothing styles for 1941, and it will still be impossible to get in and out of this year's clothes the same as in 1940, this department's look-see into the situation has convinced it that there will be new touches to pants, coats and vests. If you expect to remain in civilian clothes, bend an ear:

* * *

Colors will switch sharply from the loud tendencies of previous springs. This is due largely to the fact that, with the draft on, no male wants to be more conspicuous than necessary. Even males beyond the selective service age will prefer the duller hues on the ground there is no sense being an oriole during a bird hunt.

* * *

Coats (jackets) and trousers (pants) will be roomier. There is so much going on and so much to be seen in these critical days that the ability to turn completely around inside a suit of clothes is paramount Pockets will be inadequate as usual, but they will be cut much larger, tailors having awakened to the fact a man has to carry so many things around on him these days that a well designed suit of clothes must combine some features of a satchel, filing cabinet and old-fashioned desk.

* * *

There was a time when pockets were expected to contain little except loose change, seat stubs, matches and an old letter or two, but with the changes in the social system, the war, et cetera, there must be ample pocket room for federal summonses, government notices, correspondence with various Washington commissions, lawyers'

briefs, instructions on how to read tax forms and analyses of new laws, ordinances and regulations. In fact, the so-called "business suit" to be adequate today must have a loading capacity up to two tons, and there should be deep inside pockets for carrying records of conferences attended to date and conferences impending.

* * *

In addition, a business suit should have room for at least a bottle of spirits of ammonia, a digest of latest congressional action, divers bulletins from the labor front and the usual vitamin tablets. (This is exclusive of room for old mutuel tickets, data on mud horses, 11 or 12 keys which fit nothing whatever, chewing gum, odd crumbs and those letters you were supposed to mail a week ago Tuesday.)

* * *

Designers of clothes for the well-distressed man have, however, been alert to the situation, and some of the best ones have put zippers on the entire lining of a business suit so it can be opened, filled and closed again, like de luxe golf bags.

* * *

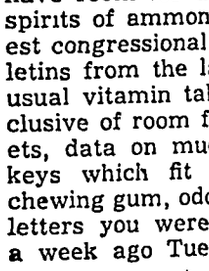
PANTS will be longer than ever, there being no demand at all for short pants in a season when the desire to seem under 21 is practically nil.

* * *

BUTTONS: Smart tailors will feature bright buttons on men's clothes, possibly adding a few bells, reflecting the conviction that anything that will give a man a cheerier appearance should be provided.

* * *

HATS, SHOES, ETC.—There will be little change in men's hats, but it is a year when a mug is going to feel particularly silly going round with a gay band and a feather. Men's shoes will continue to look like shoes and will permit males to keep their toes to themselves. Should they follow the ladies open-deck shoe styles it would be but a step from that, they feel, to wearing hats with their heads out and clothes with their bodies out.



* * *

SUSPENDERS, jumpers, overalls —It looks like a good year for 'em.

* * *

THE SEASON'S CALL

Now that the ice has left the lakes
And leaves sprout on the limbs,
It's time to shake the girl who skates
And grab the girl who swims.
—Gridley Adams.

* * *

RURAL APPEAL

Ad men with gusto invite you to fight
With various weapons the crafty termite;
'Tis now the homeowner hears this song and dance:
"The chances are, kid, you have ants in your manse!"
—John L. Stoutenburgh.

* * *

Judging from the news that has been coming in throughout this war from all areas, one of the big problems when peace comes will be the transportation of captured generals.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Dean of The Moody Bible Institute of Chicago.
(Released by Western Newspaper Union.)

Lesson for June 22

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education, used by permission.

FIRST JERUSALEM CONFERENCE ON WORLD MISSIONS

LESSON TEXT—Acts 15.6-21.
GOLDEN TEXT—But we believe that through the grace of the Lord Jesus Christ we shall be saved, even as they.—Acts 15:11.

The conference on missions in Jerusalem was not the result of an appeal to a ruling church organization for a decision, but rather a gathering of the believers from Antioch with those in Jerusalem to confer regarding a serious difference of opinion. The earliest converts to Christianity were Jews, who had come by the way of Judaism into their new faith in Christ. But now, through the preaching of Paul and Barnabas, certain Gentiles had believed in Christ. Their new-found joy was soon beclouded by a theological problem. Certain teachers from Judea (Acts 15.1) declared that the Gentiles were not saved unless they came into the Christian faith the way of the fullfillment of the Jewish law Paul and Barnabas at once realized that this was

I. The Vital Question—Is Salvation by Grace or Works? (vv. 7-11; see also vv. 1-5).

Paul and his fellow workers had rightly apprehended God's plan of salvation apart from works of the law. Paul realized that the entire future of the gospel ministry was in a sense dependent on the solution of this problem. Christianity is the only religious faith in the world that presents justification by grace as the way of redemption; all others follow (more or less) the path of salvation by works.

The question now was: Shall works of the law be mingled with grace—can Jesus Christ alone save men, or is salvation through Jesus Christ plus something else?

How was such a serious question to be settled? Should argument and strife be permitted to go on until the stronger party prevailed? Better judgment indicated the desirability of a friendly discussion and a joint decision with the believers at Jerusalem. This was

II. The Christian Solution—Council Rather Than Controversy (vv. 6, 7, 12-18).

There may be times when it becomes the duty of the Christian worker to take an uncompromising stand for the truth of God and refuse to be moved, come what may. But certainly there should be no such spirit in dealing with differing interpretations of Scripture on the part of sincere and earnest Christian brethren. How much would be gained in the Church today if, instead of magnifying differences and permitting personal desires and ambitions to intervene, men were willing to sit down in the spirit of Christ around the tables of Christian council and brotherhood, presided over and directed by the Holy Spirit (see Acts 15:28).

Observe the full measure of liberty in discussion, the attentive listening to the messages of the brethren. Note also that there were no secret sessions of a "steering committee" and no "steamroller" tactics.

The whole question was honestly and carefully considered by the council at Jerusalem, with the result that there was a vindication of the preachers of God's grace.

James finally spoke, giving the conclusion to which the Holy Spirit had led the conference (see v. 28). Here for all the future we have

III. The God-Given Answer—Salvation Is by Grace (vv. 19-21; see also vv. 22-35).

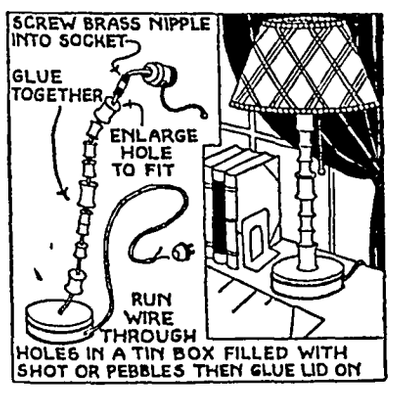
In his epistle to the Ephesians (Eph. 2:8, 9), Paul succinctly states this truth: "By grace are ye saved through faith; and that not of yourselves: it is the gift of God: not of works, lest any man should boast." The teaching of Scripture is very plain on this point, and we do well to receive it in all its beauty and grace.

Let us observe, however, that the decision in Jerusalem, while it laid no further burden on these Gentile believers (v. 28), did quite properly require of them that, as those who had been saved by grace, they must "walk in newness of life" (Rom. 6:4) which they had in Christ. Paul had the same thought in mind when he supplemented Ephesians 2:8 and 9 with verse 10, declaring that God has ordained that we should walk 'in good works."

There are two opposite tendencies (both of which are wrong) in this matter, which consistently hurt the Christian church. The one which we have already stressed tries to mix works with grace, making salvation either entirely or partially by works. Sad to say, some who have sought to avoid this error have gone to the opposite extreme and have done violence to God's plan of salvation by making grace an excuse for sin, using their freedom from law as a justification of lawlessness. We are God's "workmanship, created in Christ Jesus unto good works" (Eph. 2:10).

NEW IDEAS for Home-makers

By RUTH WYETH SPEARS



SCREW BRASS NIPPLE INTO SOCKET
GLUE TOGETHER
ENLARGE HOLE TO FIT
RUN WIRE THROUGH
HOLES IN A TIN BOX FILLED WITH SHOT OR PEBBLES THEN GLUE LID ON

RUBBER-COVERED wire such as is used around garages serves to make this smart lamp; which also requires a tin candy box for the base; three large and six small spools for the standard; a plug and chain socket and a brass nipple that screws into the bottom of the socket. The spools and box may be painted before they are put together according to the directions in the sketch. You will find complete directions for making this fabric-covered bristol board lamp shade on page 12 of your copy of Book 1.

And now, here is news for all of you who have enjoyed making things for your homes described in the first six of the series of little books that have been offered with these articles. Book 7 is ready. On every one of its 32 pages is a substantial money-saving idea, and not a useless dust catcher among them. That is true of all of the books of the series. They have been planned as a service to you and every day letters testify that they are solving your home-making problems.

Book 7 will also help you to make more and more attractive homes and have more and more of the things you really want. Send orders for booklets to:

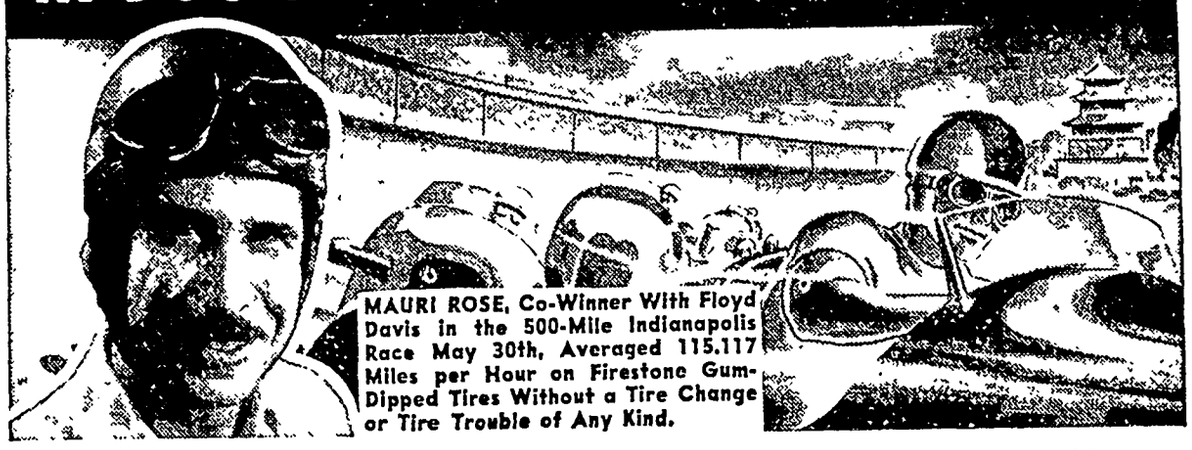
Hand-painted knees are the latest feminine fad in Hollywood. Which rather suggests that in the future the lessons taught at mother's knee are going to be illustrated.

A man charged with throwing his wife down the stairs two days after their wedding, pleaded with the judge not to send him to prison on the ground that it would break up their honeymoon.

Mussolini doesn't seem to be doing so well as a Modern Seizer as he thought he could.

FIRESTONE TIRES WIN AGAIN IN 500-MILE INDIANAPOLIS RACE



MAURI ROSE, Co-Winner With Floyd Davis in the 500-Mile Indianapolis Race May 30th, Averaged 115.117 Miles per Hour on Firestone Gum-Dipped Tires Without a Tire Change or Tire Trouble of Any Kind.

FLASHING down the straightaways at speeds as high as 160 miles an hour, Mauri Rose streaked to victory in the 1941 Indianapolis Sweepstakes without a tire change. 500 miles of grinding, pounding, torturing speed — and not one tire failed! Here's proof of safety — proof of blowout protection — proof of endurance — proof of tire superiority backed not merely by claims, but by PERFORMANCE! For 22 consecutive years all the winning drivers in this great classic of speed and endurance have driven to victory on Firestone Tires. Why? Because race drivers know that their very lives depend upon the safety of their tires. They have made it their business to know how tires are built. And they know that the patented construction features found only in Firestone Tires provide the extra strength and durability necessary to safety and victory!

The same super-safety and dependability that are built into Firestone Tires for the speedway are also built into the new *Safti-Sured* Firestone DeLuxe Champion Tires for the highway. Both are *Safti-Sured* against blowouts by the patented Safety-Lock Gum-Dipped cord body. Both are *Safti-Sured* for longer wear by the exclusive new Vitamic rubber compound. Profit by the experience of famous race drivers. Equip your car today with a set of these new Firestone DeLuxe Champion Tires — the world's *first* and *only* tires that are *Safti-Sured*.

"Pete's" draft number is up and he expects to report for service next week

Mr. and Mrs R A Jorgenson and son Ray Jr., drove to Kansas City Thursday afternoon and visited over the week end at the Hugh Chapman home Mr and Mrs Jorgenson drove back Sunday evening but Ray Jr remained longer and came back on the Rocket The editor and wife visited for a short time in Des Moines with W Henry Galbreth and family who were comfortably settled in their new home.

MAY PAY TO FATTEN 800 TO 1,000 POUND CATTLE

High quality, unfinished yearlings, may be most profitable if they are weighing around 800 to 1,000 pounds fed out and finished for the August or September market, says Rex Beresford, extension animal husbandman at Iowa State College. Some feeders, made nervous by recent market declines, are letting go of good unfinished stock.

The supply of fat baby beeves probably will taper off during the mid-summer months, and there's a good chance that prices will advance, he says At any rate, the yearlingsshould make good enough gain to at least pay the cost of the extra feed and their better finish will raise their grade

Where farmers have coarse, low grade steers finished, it may be wise to market them soon to avoid competition with grass-fed stock from the southwest Grassfed animals are already coming onto the market, and supplies will increase during the next few weeks.

Chalma	Waltz
Bennett	
The Thunderer	March
Sousa	

USE TAX ON VEHICLES

The State Tax Commission collected $217,341 during May in use taxes in new motor vehicles and trailers. This is $73 163 more than was collected in May of 1940. One would expect these taxes to run heavier in border counties where it is easier to go to other states to purchase vehicles. However, the returns by counties show that the use taxes collected run very uniform all over the state in both border and interior counties

ANNUAL ELL FAMILY REUNION HELD HERE SUNDAY

A half hundred descendants of Sebastian Elll and their families met in the Klemme park Sunday noon for their annual picnic dinner and get-to-gether.

The committee in charge of the entertainment had evidently worked over-time because they had a most humorous program prepared that kept the crowd in an uproar and the visiting relatives will long remember the occasion.

HAWEKEYE PRESS CLUB MET AT CLEAR LAKE

Enjoyed Supper At State Park And Sunset Boat Ride Around Lake

Publishers and their wives from Iowa held their June meeting of the Hawkeye Press Club at the shelter house in the Clear Lake State Park Thursday evening and dinner was served to about thirty Mr and Mrs. J C Davenport and Mrs. and Mrs T J Farnan, Clear Lake publishers, were hosts.

After the dinner a boat trip around the lake on the Princess was enjoyed.

The ladies in the group were entertained at the Davenport home, while the men held their get-together at the Mirror and Reporter offices.

Will Hold Joint Meeting

A meeting in July has been planned as a joint meeting of the Kossuth County publishers and the Hawkeye Press Club to be held at the Clear Lake Country Club on Friday evening, July 18th

Mr and Mrs R. A Jorgenson of The Klemme Times attended the meeting held last Thursday evening at Clear Lake which was attended by publishers from Hampton, Sheffield, Thornton, Rockford, Rockwell, Nashua, Nora Springs, Garner, Manly and Northwood

COUNTY AUXILIARY ELECTS OFFICERS FOR THE YEAR

A meeting of the County Legion Auxiliary was held Tuesday afternoon at Corwith at which time officers were elected for the coming year

Mrs. Oscar Johnson of Kanawha was elected president; Mrs. P. W. Johnson of Klemme, vice-president and Mrs. Baxter of Britt was named secretary and treasurer.

Lunch was served after the business meeting by the Corwith ladies.

A large number of ladies from Klemme attended.

KLEMME MAN IS NAMED TO POSITION IN WASHINGTON

A dispatch from Washington, D C announces that John Lamont, Klemme attorney, has been appointed to a government position in the Senate Post Office.

Mr. Lamont left Tuesday for the capital city to take up his new work

Mrs. Lamont and baby son will remain in Klemme, possibly for the summer before going to Washington.

Only Few Days Remain To Renew Licences

SECOND REGISTRATION' JULY 1, 1941

Tre Hancock County Local Boarl has received official notice of the second registration, which by a Proclamation of the President of the United States will be taken on July 1, 1941, between the hours of 7 00 a m and 9 00 p m On that date every male citizen of the United States and every male alien residing in the United States, who on or before July 1, 1941, and subsequent to October 16, 1940, attained the twenty-first anniversary of the date of his birth, and had not previously registered, will present himself for and submit to registration.

There will be two registration places: The office of the Hancock County Local Board at Britt, Iowa, and at the Court House at Garner, Iowa

SOYBEAN OIL FOR DEFENSE PURPOSES

To avoid undue depletion of vegetable oil for stocks and to insure ample supplies for defense as well as normal requirements, the Department of Agriculture has annouced chauges in provisions of the Agricultural Conservation Program to encourage increased production of soybeans for oil

The Hancock County Committee has arrived at what they thought was a fair and just procedure in regard to the acres of soybeans which may be harvested in excess of their total soil depleting allotment on each farm within the county, which is as follows: If your soil depleting allotment on a farm was 80 acres total and you desire to harvest soybeans as grain you may do so up to 15% of your total allotment which would be in this case 12 acres additional beans for harvest without a penalty.

However, a11 farmers should bear in mind that this is a soil Conservation Program and should not plow up his clovers and alfalfa and put the same to soybeans for grain.

If you have any questions in regards to the soybeans for harvest you should consult your local or county committee.

MOTHER OF PAUL MUELLER DIED IN MINNESOTA

Paul Mueller received the sad news Wednesday that his mother, Mrs. Peter Mueller had died of a heart attack at her home in Winthrop, Minnesota The Mueller family left immediately for Winthrop

Funeral services for Mrs. Mueller were held Sunday afternoon at the rural Lutheran church formerly served by Rev. Mueller and interment was in the cemetery at Titonka.

Mrs. Mueller was the wife of Rev. Peter Mueller, and besides her husband is survived by four sons. Paulus of Klemme; Waldmar and Arthur of Turton, South Dakota; Berthold of Winthrop; and one daughter, Magdalene, a trained nurse, at home.

KLEMME YOUNG LADY ATTENDS SORORITY CONVENTION

Miss Novella Bredbenner left Friday morning from Garner by train for Sylvan Lake in the Black Hills of South Dakota where she is attending the National Kappa Phi Convention. The Kappa Phi is an organization of young ladies who attended a Methodist College. Two years ago Miss Bredbenner attended the national convention at Northfield, Massachusetts.

HELLO, FOLKS!

Mr. and Mrs. William Neuberger are the parents of a nine and one-half pound baby girl born to them Saturday, June 21st. Mrs. Herman Paul is caring for mother and baby.

JULY 5 IS DEADLINE SET FOR DRIVERS LICENSE RENEWAL

Karl W. Fischer, Commissioner of Public Safety, today issued a final warning to all Iowans who have not made application for their 1941-43 drivers license renewals.

Commissioner Fischer stated that Iowans who have not submitted renewal applications on or before July 5th, are in violation of the law if they drive a motor vehicle after that date and that persons permitting their drivers licenses to lapse without submitting a renewal application will be required to take the complete drivers license examination

He further stated that the renewal sub-stations where the drivers license renewal clerks are now stationed will definitely be closed after July 5th.

BEN GREIMAN ROLLS UP HIGH SCORE IN BOWLING

Greiman's Score Highest Rolled On Legion Alleys

Saturday evening Ben F. Greiman rolled up a score on the local Legion Alleys that will hold the boys for some time to come, when he totaled 258 pins on a line of play. In rolling up this line Ben got nine strikes and two spares to hang up the highest score ever rolled on the local alleys

Other high scores for the past week were rolled by Franklyn Kluckhohn who had a high of 225 and Ernest Henschen who rolled up a count of 219, all good scores on anybody's alley.

GOOD TIME TO BATTLE CHICKEN LICE, MITES

Now is the time to eradicate lice and red mites from poultry houses, suggests A. J. G. Maw, Iowa State College poultry specialist.

Both pests are easy to get rid of if proper treatment is given. Lice may be killed by dusting the birds with soduim fluoride or painting the roosts with a small amount of nicotine sulfate The fumes from the nicotine sulfate penetrate the feathers when the birds are on the roosts at night

If the infestation of lice is very heavy the treatment should be repeated about 2 weeks later

Red mites require a different treatment and attack the birds in a different manner. The red mite, commonly known as a roost mite, hides in cracks and crevices in nests, roosts and roost supports during the day and attacks the fowls at night, sucking blood from the body.

Applying a mixture of 1 pint of creosote and 4 gallons of kerosene to all cracks and crevices about the roosts and nests is the recommended control. Spraying with oil is also recommended.

"LADY FROM CHEYENNE" AT THE AVERY THEATRE

A story of a native school teacher in Wyoming fighting to obtain Woman Suffrage in order to end the rule of a ruthless town "Boss."

Loretta Young in the title role essays the part of the school teacher whose faith in justice and determination to overthrow the criminal carry her thru a series of adventures which the audience will find highly amusing.

She is supported by a capable cast such as Robert Preston, Edward Arnold and Frank Craven.

FOUR SELECTEES REJECTED FOR MILITARY SERVICE

Four young men in the last quoto of selectees for military service were rejected because of physical defects upon examination at Fort Des Moines. Among the rejected list was Raymond Barz, son of Mr. and Mrs. Henry Barz.

Social Agencies Plan Recreation For U. S. Soldier

Club Houses to Entertain And Help Utilize Their Idle Time.

(Released by Western Newspaper Union.)

WASHINGTON.—Six of the country's leading social and welfare agencies will utilize their combined resources to combat undesirable influences arising in army camps over the country.

President Roosevelt has urged all Americans to support the movement which is known as U.S.O., United Service Organization for National Defense. A fund of $10,765,000 must be raised to carry out its program and the campaign is already under way.

Agencies participating in the work are the Young Men's Christian association, National Catholic Community service, Salvation Army, Young Women's Christian association, Jewish Welfare agency, and the National Travelers Aid association. Their aggregate experience in this kind of service is 317 years. The YMCA has been active in army and navy social and welfare work since 1861. Others since 1917.

The program is being carried out from closely co-ordinated plans, approved by the government, which will prevent the overlapping of social club houses, supplies, entertainment, etc., common in the past when co-operation was lacking among the various agencies undertaking this work. Few new positions will be created as the agencies will draw heavily on their own carefully

Thomas E. Dewey

trained personnel to insure the best in service. It was decided to weld the agencies into one huge unit, by the President, cabinet members, state governors and other officials because of requests from thousands of parents and because it was believed too big a project to be handled by any one agency.

Woman Defense Workers.

More than 350 clubhouses will be completed and staffed just outside army and navy bases. Military influence wanes when soldiers are beyond military boundaries and one object of the program is to give the soldier and sailor respite from military discipline. And the opportunity to enjoy social activities in preparation for the stern duties that may lie ahead. Another feature of the U S.O. will be the home hospitality, locally, where friendly family reception will be fostered. It will also cope with the living and welfare problems of women in defense industry

Business and government leaders are backing the program with enthusiasm and help. James A. Farley, former postmaster general, said: "It's our chance to show we are solidly behind our first line of defense We can't afford to fail."

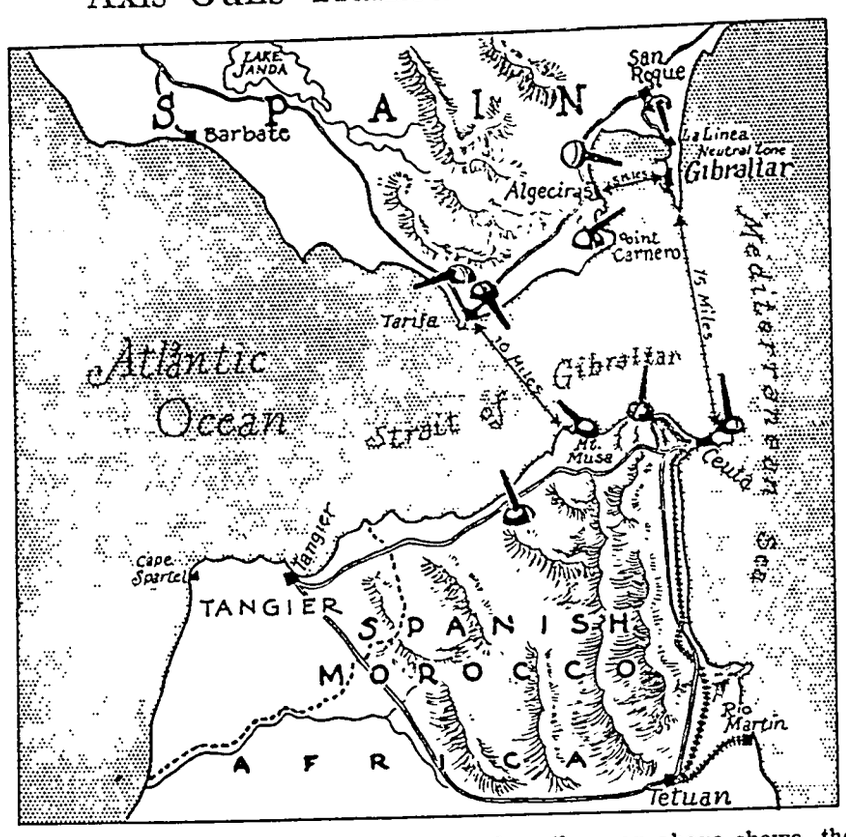
Walter Hoving, business executive and head of the Salvation Army Association of New York City, is president of U.S.O. District Attorney Thomas E. Dewey of New York county is U.S.O.'s national campaign chairman. Co-chairmen of the national Woman's Executive committee are Mrs. F. Louis Slade and Mrs. Eliot Cross. Mrs. Slade is a national director of the girl scouts. Mrs. Cross headed the women's bureau of the YMCA in Paris during the World war.

Health of Workers.

Dr. Ira S. Wile, noted psychiatrist, told U. S. authorities that "homesickness," the scourge of the new soldier, will be greatly minimized by the program. He stressed the importance of maintaining the "sound and healthy minds in healthy bodies," for men and women in our defense forces

The U S O. will be non-sectarian and devoted exclusively to providing places of clean entertainment and fun for men and women of all faiths and beliefs, say officials of the program.

Axis Guns Trained on 'The Rock'



Spanish soil now bears Nazi guns, and as the map above shows, the territory of Spain and Spanish Morocco form the jaws of a vise that can trap the British Mediterranean fleet or force them to flee towards the Suez, where a threatened drive by the Germans may bottle them up. The big Nazi planted guns awaited only the word of Hitler to loose a storm of steel into the rock fortress of Gibraltar. Concealed miles back and protected by the hard rock of the Ronda range, other powerful Axis artillery would join the coastal guns in any action. Gibraltar's guns are not heavy enough to silence the long-range hill batteries, even if they could be located. Without a land base from which their observation and bomber planes could operate, the chances of the English fleet remaining in the Mediterranean sea hourly grows less.

Stamp Program Takes Up Slack In Loss of Foreign Food Markets

CHICAGO.—As the food stamp plan moves into the third year, farmers, housewives, public officials, welfare administrators and chamber of commerce organizations carefully moisten and affix their own stamp of approval to the project.

This new method of administering a subsidy, so that the distribution system would serve broad social purposes and in general maintain the essential profit-and-loss principle, was the brainchild of Milo Perkins, former manufacturer and now head of the Surplus Marketing administration in Washington.

With reservations, the blue and orange economic gadget has worked to the satisfaction of those most concerned, as evidenced by the recent arrival of the political stork, who calmly deposited a little brother in the form of the cotton stamp plan and broadly hinted that the next arrival would be in the field of low-cost housing.

Lose Foreign Markets.

When foreign markets for surplus products, principally food, faded away in 1930, and the country was faced with one of its most vexing problems, "economy of abundance," the nation's leaders cast about for a solution. People actually faced starvation while living in the midst of plenty. Jobs and savings were gone and while foodstuffs rotted in the fields for want of market, crops were plowed under, acreage restricted and marginal land retired from cultivation, in a desperate attempt to set the wheels of industry rolling again. Scientific agriculture added to the country's woes by increasing the quantity of farm products with less labor, thereby further building up the unemployment roster.

Foreign trade agreements failed to save the country's $800,000,000 volume to them, because the purchasing nations were more interested then in making themselves self-sufficient and were eliminating all possible imports.

Search for Solution.

Vice President Wallace, then secretary of agriculture, sums up the situation as it appeared then to authorities in the capitol:

"First, we had to find a market for farm surpluses, and we knew that a surplus at one price might be a sell-out at another. Second, we didn't like the spectacle of people hungry from too little food while we were worrying over too much. Senator Vandenberg proposed to solve the first problem by sending our surpluses abroad and selling them at a lower price there, but some of us thought that if we were going in for a two-price system we'd better do it at home and let our own needy have the benefit."

Studies by nutritional experts revealed some startling facts. Working people were paying only between 10 and 12 cents per meal average while those millions on relief could only allot half of that amount for their food. The result of this was to continue to pile up foodstuffs in bins all over the country.

Despite its shrinkage the major hope was still that of the domestic market because our own people would continue to buy food regardless of the disappearance of the foreign markets due to the war. After other methods had been found unsatisfactory or inadequate, such as soup kitchens for the needy and to utilize surplus wheat, lunches for school children, direct distribution of hams and other meat to households and other schemes, the food stamp plan was created.

It was first tried out in Rochester, N. Y., and is now well known and popular in the country's largest metropolis, New York city. Approximately 350 areas are now benefiting by the plan while about 1,500 more have applied to Washington.

Direct savings of $200,000 is shown by the statement of Commissioner William Hodson of the New York city department of welfare and the food stamp plan this year will cost only $77,000 as compared with the $277,000 cost direct distribution of government-purchased supplies previously.

Said Mr. Hobson, "People like the plan for many reasons. One is that they can purchase what they want, when they need it, like the rest of us do. Another because they know they can arrange a more healthy diet, and the savings will stretch the city's budget for relief cases and that is no small item."

Milo Perkins, originator of the idea, added his views on the subject by saying:

Predict Wide Benefits.

"The conservatives like it," he said, gulping down some of Brazil's surplus coffee from a paper cup, "because it goes through the regular channels of trade and spreads its benefits all along the line. They feel safer about it that way than if the government had set up its own machinery of handling. In the second place, they like it because it creates purchasing power for things they feel it a disgrace for any American to have to do without, like nourishing food. And in the third place—and you hear more about this now than when the plan started—they regard it as a hedge against trouble in the future. You'll find them talking already about what's going to happen when this war activity ends.

Improve Distribution.

"The liberals like it because they regard it as a new kind of money, and they have an obscure feeling that these blue-and-orange tickets give the needy an access to the kind of wealth they most need to have. Also, they are pleased because the plan makes it possible to distribute certain types of things that can't effectively be given away. They think our present system of distribution needs remodeling, and they'd far rather have government money spent for the better distribution of food than for buying and hoarding it while people go hungry.

"As for the middle-of-the-road man, he likes it because it makes sense to him. He's found some of the government's programs pretty hard to tie in with his own experience, but tell him 'Let's fix it so the hungry eat the surplus and he's all for it.'"

In the race between food production and consumption, with the honors too strongly with production today, there is a theoretical solution to the problem, according to the Washington experts. They suggest that a way be found to raise to $100 per month the income of all families receiving less than that today They point out that the national expenditure for food alone would increase by approximately $2,000,000,000, which would greatly assist the farmer, and in turn, the city man, as about one-half of this amount would revert to the farmer.

Draft Boards Report Amusing Stories

Draftees wishing to evade acceptance and in many cases, though unfitted, desiring to serve, sometimes color their stories in accordance with their desire. Here are some of the little dramas being enacted daily over the country.

One man up before his board was very small of stature. Addressing the man at the table who was sitting, the potential "cannon fodder" stood and pounded the table with great vigor

"I won't go, you will have to exempt me. I'll fight before I'll go." The one at the table lost his ordinarily well-kept patience. He arose and rolled up his sleeves. The c.f. looked at his six-foot frame of muscle, which he had not noticed before, it being wrapped around the table legs, and quickly a smile creased his face.

The Washington MERRY-GO-ROUND

By DREW PEARSON & ROBERT ALLEN

Washington, D. C.

GASLESS SUNDAYS

It begins to look as if gasless Sundays might not be so necessary after all—if certain bare-knuckle reforms in the oil industry are put through by new National Oil Administrator Ickes. For instance, the tanker system.

When an oil tanker comes from the Gulf of Mexico up the East coast, it may stop at Charleston to discharge part of its oil, then at Norfolk, then at Baltimore. It discharges a certain amount at each port where its company distributes or refines oil.

Simultaneously, a tanker belonging to another company will stop off at exactly the same ports. Thus the tankers of three or even four different companies may be feeding the same cities at the same time.

If, on the other hand, one company served one section of the country, or if one tanker delivered oil to all the companies in each port instead of only to its own, distribution would be measurably speeded.

Also, there are four different types of high octane gasoline being refined in the United States. All these varieties are not particularly necessary, one type being sufficient during the emergency. Concentration on only one type of high octane gas also would considerably increase gasoline output and distribution.

There is plenty of oil in the U. S. A.; it is only a matter of refining and distribution.

Note — The anti-trust laws have prevented the oil companies from cutting competition of this kind, but the government oil administrator should be able to do what the oil companies can't.

But LaGuardia, who made his own terms when he took his defense post, is still in charge of national morale.

* * *

SECRECY OF CONVOYS

Most people don't realize it, but the contents of almost every ship leaving the United States for England is known to Nazi Germany. However, learning just when the shipment will reach England and the route it will take, is another matter.

Getting information regarding the departure of supply ships to England is relatively simple. All Nazi agents have to do is go down to the waterfront to watch the loading of British ships. The type of goods being loaded cannot be readily concealed.

Or if an American vessel is loading for the Red Sea, the papers signed by the crew must disclose the port of destination. This is required by law, so that a seaman may know where he is going, and because extra insurance and sometimes extra wages are paid if the ship enters certain areas.

Once a British ship is loaded, however, the utmost secrecy is imposed on its route and time of departure. Usually the ship hugs the shore as far north as the Canadian port of Halifax. There it may wait for days or even two or three weeks for a convoy to be made up.

When it finally leaves for the hazardous voyage across the Atlantic, orders are given to the ship's master by hand. Nothing is trusted to radio. A small boat puts out from the commander of the convoy, carrying sealed orders to the master of each vessel.

No other orders are given, and no radio messages are exchanged during the trip except in case of attack, because radio messages might be picked up by Nazi patrol planes.

Note—American ships, on the other hand, follow a regular, well-advertised course and constantly send out radio messages informing the world of their position.

* * *

MERRY-GO-ROUND

Supporting the plan of Chief of Staff Marshall to lower the age of army commanders, war department officials quote the late Justice Oliver Wendell Holmes, who fought in the Civil war. To Lady Pollock, during the Spanish-American war, he wrote: "A general of 45 and a private of 30 are old men."

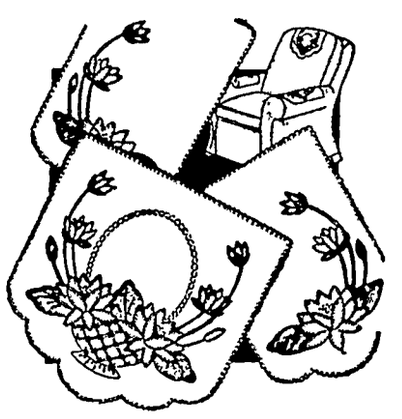
The commerce department has set up a separate British empire unit, headed by W. Walton Butterworth, former state department official in London. His job is to establish closer commercial ties with British dominions and colonies.

After Gen. Allen Gullion, the army's efficient judge advocate general, appeared in the comic strip "Hap Hopper," he received a letter from an old boyhood chum saying "I have been wondering where you were for 40 years, and now at last I've located you through the funny papers."

Twenty-six years ago Assistant Secretary of the Navy Franklin Roosevelt toted a friend's baby son around the old Poughkeepsie, N. Y., Savings bank, much to the amusement of Judge John E. Mack, who later nominated FDR for President. The other day, on the anniversary of the incident, the baby—Charles Durant Maines of Flint, Mich.—was inducted into the army.

Rural Electrification Administrator Harry Slattery is proud of having strung up wires in Alaska and the Virgin Islands. Also, he is making a survey in Puerto Rico.

THINGS for You TO MAKE



ENRICH a protective chair set with this graceful waterlily motif. The leaves and stems are to be appliqued in green; pastel blooms and a basket of brown are embroidered. You'll be proud to display this easy-to-make set to your friends.

Get it deliciously from fresh orange juice!

You cannot "store up" vitamin C in your body. That's why you need a *fresh and full* supply each day to help you look and feel and do your best!

It's hard to get enough unless you have an abundance of citrus fruits. But it's *easy* with orange juice—an excellent, *natural* source! Eight ounces supplies all the vitamin C you normally need each day—*plus* valuable amounts of vitamins A, B1 and G; calcium and other minerals.

Enjoy a BIG glass every morning. Make it with trademarked Sunkist Oranges, the finest from 14,000 cooperating California-Arizona growers.

Summer Play-Clothes Program Conveys Exciting Fabric News

By CHERIE NICHOLAS

PLAY clothes! Let's talk about play clothes for the theme is a most fascinating one. More triumphantly, more spectacularly than ever before in the annals of fashion lore are the designers answering the challenge for play clothes that will add to the picture of golfing, tennis, hiking, swimming, motoring, and all the other sports that go to make perfect days of outdoor playtime.

A significant thing about modern play clothes is that they have a way of making one keenly fabric-minded. That saying about necessity being the "mother of invention" applies perfectly to modern play clothes' fabric production. Scientific processing is achieving materials that are as near 100 per cent perfect as is humanly possible in the matter of washability and wearability which are guaranteed to be practically non-fading, non-shrinking, non-wrinkling and all the other qualities demanded for apparel that must withstand the ravages of strenuous wear.

It is interesting to note the rise to high style distinction that is taking place among fabrics once considered of low degree. There's denim, for instance, once synonymous with commonplace workaday overalls, now playing a star role as media for the smartest tailored suits that a socialite in the smart set might don this summer in town or for country club wear. By the way, when you go shopping in the sports departments take a look at the swank slacks and shorts made of yellow denim. Top these with a vivid calico-patterned print blouse or a jacket quilted of bright figured glazed chintz and you will rank high in any fashion parade.

Carrying her tools in the pockets of a blue denim culotte outfit the pretty young miss pictured to the left in the illustration of smart play clothes is tending her flowers in most picturesque attire. Note the cotton braid trim that adds a dash of color to the huge pockets and the wide shoulder straps A bolero to protect her shoulders and a quilted apron to protect her knees are also included in this cunning outfit.

The pinafore pair shown in the background will cheer the heart of every mother and daughter. These pinafore types should be an inspiration to home sewers in that they are so easy to make The professional looking nicety of the edge seaming is achieved in a jiffy with a little edge stitcher found in every modern sewing machine kit. The full gathered finish given to the back-buttoned skirt is only a matter of minutes with the gathering foot attachment. The same material is used for both—a striped denim The two outfits cost but a trifling sum to make, they promise much joy in the wearing and besides mother-and-daughter costumes are fashion's pet theme this year

Up to the last season or so the great problem with fabricists has been to produce white materials that will come out of a brisk tubbing or cleaning process as white as when new Welcome comes the message of white rayon pique sharkskin which is proving ideal for tennis frocks and for white suits and afternoon dresses It is this snow-white pique sharkskin that is used to make the tennis frock shown in the foreground of the group pictured. Here is a fabric that is sure to stay in top form, having been tested and approved for wearing and cleaning satisfaction. It adds an exciting note of interest because this dress was designed by Alice Marble, national tennis champion, making it authentic news as to what's what in smart action fashions.

(Released by Western Newspaper Union.)

Chintz Housecoat

Enthusiasm for cottons in the fabric realm has crescendoed to a new high this season. The importance of cottons in the fabric realm is simply breath-taking not only because of the transcendent loveliness of cotton weaves but there is no call of the mode be it ever so humble or an event ever so festive and formal but what there is a cotton fabric that will tune into the picture perfectly. Moss roses never looked prettier in real life than they do on the cotton chintz housecoat pictured. The graduated border idea of the print makes it possible to achieve interesting effects at the shoulders and waist and in the skirt.

Non-Crushing Fabric Made From Cotton

In these vacation days of outdoor activities and week-end trips more and more the desirability of clothes made of non-crushing and non-wrinkling wash materials is recognized.

A cotton that has come valiantly to the rescue is the new boucle weave and designers are certainly making wide use of it in dresses and in suits. You just tub it, shake it out and let it dry and presto! It is all ready to wear looking as fresh and as well groomed as new.

Dressmaker Bathing Suits Recall Fashions of 1890s

The fashion trend in bathing suits is to dressmaker effects done in most any material one might choose. Taffeta is especially good style; so is flowered or striped jersey. The knitted suit is a particular favorite So definite is the dressmaker styling that one is reminded of fashions that held forth in the gay nineties. The difference between "has been" and modern styles is found in shorter ruffled bloomers, shorter (much shorter) skirts and open midriff effects.

In elastized types the princess silhouette is a favorite and even newer is the one piece ballerina elastized satin types. The Hawaiian influence is seen in large floral effects.

Knitted Cape

As everyone knows, fashion's spotlight is on capes and the vogue will continue during the fall and winter. The latest reaction to this trend is the enthusiasm expressed for capes in the knitted realm. Why not begin to knit now so as to be among the first to come out in a knitted cape this fall. You can buy capesuits now that look as if hand-knit if you prefer.

Star Dust STAGE SCREEN RADIO

By VIRGINIA VALE

(Released by Western Newspaper Union.)

THE first motion picture scene to be directed by long distance phone 3,000 miles from the spot where it was shot is credited to Elliott Nugent. He stood on a Paramount sound stage in Hollywood and gave instructions to cameraman Dewey Wrigley, whose equipment was set up on Biscayne boulevard, Miami Beach, Fla.

Wrigley had shot some atmospheric film for "Nothing But the Truth," but it wasn't exactly what Nugent wanted. He'd never been in Miami Beach, but he picked the right site from some still pictures and then gave instructions over the telephone

Marjorie Reynolds has established a record of some kind; she's played the heroine opposite more western stars than has any other young Hollywood actress. Buck Jones, Tex Ritter, Bob Baker, George O'Brien, Gene Autry — she's been the pretty girl in ridin' and shootin' films with all of them. Her latest assignment is one more of the same—"Cyclone on Horseback," for RKO Radio, in which she will appear opposite Tim Holt. Born in the cow town of Buhl, Idaho, she's right at home in those roles.

Marjorie Reynolds

The new Joan Crawford picture, "A Woman's Face," has been hanging up new marks at the box office during its New York showing. Melvyn Douglas and Conrad Veidt are leading supporting players in the highly dramatic film.

Edmond O'Brien and his bride, Nancy Kelly, are spending their honeymoon by working in the same picture at RKO. The film is "Parachute Battalion." Following his work in the Harold Lloyd comedy, "A Girl, A Guy and a Gob," O'Brien signed two long-term contracts—one with RKO and the other with Nancy. Then he went to work in "Parachute Battalion." She was under contract to Twentieth Century-Fox, but studio executives were sympathetic, and she was lent to RKO, to be co-starred with her husband, Preston Foster and Harry Carey.

Nancy Kelly

Joan Fontaine certainly picked herself a nice vacation when she finished "Before the Fact" with Cary Grant. She was satisfied with nothing less than a three-week jaunt to Honolulu, Tahiti and Pago-Pago as an escape from Hollywood.

Spencer Tracy won his Academy awards in roles that hadn't a suggestion of "boy meets girl." But in "Dr. Jekyll and Mr. Hyde" he meets two girls, Lana Turner and Ingrid Berman, just by way of evening up the score.

"Sky Over Britain" brings to the air a new series of dramatic programs under the auspices of the British War Relief society, presented over the Mutual network every Thursday evening. Each radio play will dramatize the true story of civilian bravery in Great Britain.

The officers and crew of a British destroyer will comprise the first movie audience outside the Americas to see Anna Neagle's "Sunny," if present plans go through. Miss Neagle's older brother, Alan Robertson, is commander of a destroyer, and has not seen her or any of her pictures for more than two years. So a print of "Sunny" will be flown to England, then forwarded to him. She doesn't know where he is, but sending him the film is her reply to his recent request for a new photograph of her.

The Rudy Vallee program won't move to New York this summer after all. Moving would have meant leaving John Barrymore behind, and listeners like the Vallee-Barrymore combination so well that it's inadvisable to break it up.

ODDS AND ENDS—In "The Big Store" the Marx Brothers are private detectives who run wild in a department store . . . The only sound track in America of a London air raid has arrived at Warners' for scenes of London's bombing in "The Flight Patrol" . . . Orson Welles wants the screen rights to "Louisiana Hayride," the story of Huey Long's life . . . Marjorie Main will once again play a landlady—this one in "Honky Tonk's" Midwestern mining town . . . Irving Berlin will write fifteen new songs for "Holiday Inn," in which Bing Crosby and Fred Astaire will be starred . . . Priscilla Lane is now a street in Burbank, Calif.—named in honor of the movie star.

Historical Highlights

by Elmo Scott Watson

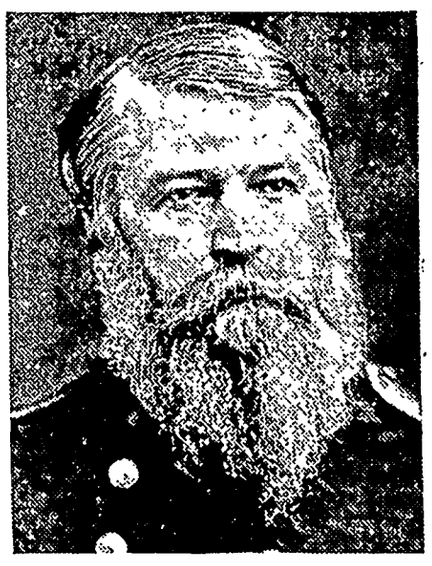
(Released by Western Newspaper Union.)

Our Only Admiral General

FIFTY years ago there died in Washington, D. C., a man who is unique in the history of America's armed forces. He was Samuel Powhatan Carter and he was the only officer who ever became both brigadier-general in the United States army and rear-admiral in the United States navy!

Born in Elizabethtown, Tenn., August 6, 1819, Carter was educated at Princeton university and left that institution to accept a commission as midshipman in the navy in 1840. At the outbreak of the War with Mexico in 1846 he was assigned to the U. S. S. Ohio and took part in the capture of Vera Cruz.

After the war he was ordered to the United States Naval academy at Annapolis where he served as assistant instructor of infantry tactics until 1853. Promoted to lieutenant two

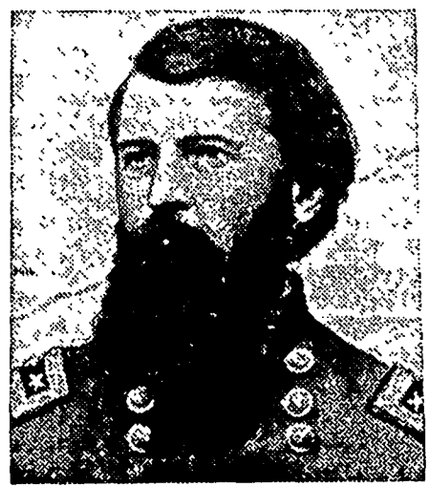


REAR-ADMIRAL S. P. CARTER

years later, he saw active service against the Chinese pirates who were preying on commerce along the Asiatic coast. He was on a tour of duty in Brazilian waters at the outbreak of the Civil war and, believing that the navy would see little active service, he asked to join the land forces.

On July 11, 1861, Lieutenant Carter of the navy was transferred to the war department and sent on a special mission to East Tennessee to raise troops for the Union army. Appointed colonel of the Second Tennessee Volunteers, he continued his recruiting work until he had organized a full brigade and was made acting brigadier-general in September, 1861. Early the next year he was given the full commission of brigadier-general of volunteers.

"Old Horse Marine" Carter, as they called him, served brilliantly throughout the war, participating in numerous battles in Kentucky, Ten-



BRIG-GEN. S. P. CARTER

nessee and North Carolina. One of his outstanding achievements was in 1862 when he led a cavalry raid through Eastern Tennessee. Because of his success, this "sailor on horseback" was recommended for promotion to major-general.

That promotion did not come however, until March 13, 1865, when he was given the brevet of major-general. Meanwhile he had been promoted to the rank of commander in the navy, but, although holding commissions in both the army and the navy, he drew the salary of only one of these offices.

Honorably mustered out of the volunteer service in 1866, Carter was ready for another go at naval service. He asked for active duty, was given command of the gunboat Monocacy and sent to the Asiatic station where he remained for three years. Then he was promoted to captain. After another tour of duty on the European station, he was finally retired on August 6, 1881. The climax of his naval career came the next year when he was promoted to rear-admiral. Carter's last years were spent in the nation's capital where he died May 26, 1891.

* * *

In 1863 the "sailor on horseback," proved he could hold his own with some of the South's best cavalry commanders, including the doughty Gen. John H. Morgan. For his troopers whipped the gray-clad horsemen of "Morgan the Raider" at West's on August 28 and followed it up by defeating Pegram's forces and winning another victory over Morgan. He took part in the battle of Knoxville and in 1865 led the left wing of Schofield's army at the Battle of Kingston, N. C., where Bragg was defeated.

PATTERNS SEWING CIRCLE

IN ONE pattern, sunsuit, frock and bonnet are all included. Even if she's only two, she can put on the front-button frock all by herself; the plain neckline and ruffly wing sleeves will be cool and comfy, all summer long. This trio is sweet in percale, gingham, linen, seersucker.

Buying Reflects Jobs

"Every time an unemployed man gets a job every farmer in America can yell hallelujah! That's the answer to many of his surplus problems," said Miss Perkins in a recent comment on the food stamp plan in a recent address before the National Farm institute. "As it is administered this plan, based upon the stamp plan," she said, "is a necessary stop-gap measure to help this difficult period while we are trying to find ways to put capital to work so that idle men get jobs. There are three things I hope will stick in your mind when certain public assistance is to live on about five cents a meal. If he is lucky enough to live in a town where the stamp plan is in force he lives on 7½ cents a meal. Where it's possible for him to get relief and get a good deal of the foods he spends 12 cents [illegible]."

Pay Roll in Forests

Many farmers and cities have had [illegible] satisfactory experience with [illegible] community forests. Others are starting forests, often to protect the watershed. A well-managed community forest serves as a demonstration of good forestry practice to owners of farm woodland or of waste land that might better be growing trees. "A community serving a thousand farms," says the United States department of agriculture pamphlet on community forests, "would benefit to the extent of $50,000 annually, if each farmer's average income from woodlands were increased $50 a year through better forest management. This would have essentially the same effect on business as though an industry were started that would provide a pay roll of $50,000 a year."

RAILWAY LABOR UNION DEMANDS WOULD COST 900 Million Dollars A YEAR

THE labor unions have made their demands upon the railways of the United States—and through the railways upon the PUBLIC. These demands are vastly larger in proportion than any they have ever made. The economical and efficient operation of the railways is vital to the nation's defense effort. Therefore, the Western Railways present to the public the following facts:

The labor unions representing engineers, firemen, conductors, brakemen and switchmen are demanding a 30 per cent increase in wages, amounting to 190 million dollars a year—although their present rates of pay are the highest in history.

Other unions representing a greater number of railway employees are demanding wage increases ranging as high as 95 per cent—averaging 47 per cent—and amounting to 580 million dollars a year—although their present rates of pay also are the highest in history.

Thus the wage increases being demanded by the labor unions amount to 770 million dollars a year, an average increase in excess of 41 per cent.

In addition, certain of these labor unions have demanded advances in their pay not included in the above figures, and more rules for the creation of unnecessary jobs.

The situation, then, is this: The total cost of complying with all the demands made would be approximately 900 million dollars a year!

The average weekly earnings of railway employees are now 15 per cent higher than in the peak year 1929, while the cost of living is 12 per cent less.

The demands of the railway labor unions are being made when the entire nation has just been asked to make a supreme effort for National Defense.

The railways cannot meet these demands without a great increase in the cost of transportation. They exceed by more than 700 million dollars the income that the railways had left after paying their annual expenses, taxes and charges in 1940.

The railways have a vitally important job before them. They need all their resources to continue adequately to serve you and contribute effectively toward the National Defense Program.

SO YOU'RE TO BE MARRIED!

The date is all set, invitations mailed, your dress, white and simply beautiful, is hanging in the closet . . well, then the rest is easy. But, in case you're perplexed about the after-ceremony refreshments, whether they be in the form of a breakfast, garden reception or dinner, please read next week's column. Lynn will tell you how to entertain your wedding guests correctly, yet inexpensively . . . Watch for "After The 'I Do's' " . .

Dissolve gelatin in boiling water, add beet juice, vinegar, salt and seasonings. Chill until slightly thickened. Fold in vegetables and mold.

***Peach Upside Down Cake.**

- 1¼ cups sifted cake flour
- 1¼ teaspoons double-acting baking powder
- ¼ teaspoon salt
- ¾ cup granulated sugar
- 4 tablespoons softened butter or other shortening
- 1 egg well beaten
- ½ cup milk
- 1 teaspoon vanilla

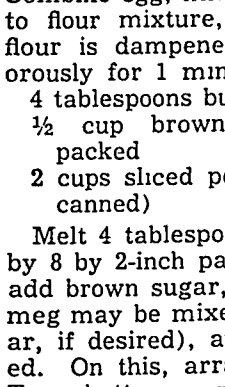
Sift flour once, measure, add baking powder, salt and sugar, and sift together three times. Add butter. Combine egg, milk and vanilla. Add to flour mixture, stirring until all flour is dampened; then beat vigorously for 1 minute.

- 4 tablespoons butter
- ½ cup brown sugar, firmly packed
- 2 cups sliced peaches (fresh or canned)

Melt 4 tablespoons butter in an 8 by 8 by 2-inch pan over low flame; add brown sugar, (¼ teaspoon nutmeg may be mixed with brown sugar, if desired), and stir until melted. On this, arrange peach slices. Turn batter over contents of pan. Bake in moderate oven (350 degrees F.) 50 minutes, or until done. Loosen cake from sides of pan with spatula. Serve upside down with peaches on top. Garnish with whipped cream, if desired.

Canned pineapple rings, cooked apricots or prunes, or sliced tart apples may be substituted for peaches in this recipe.

Going back to entertaining the bride-to-be, had you ever considered a Recipe Shower? A new idea comes to mind . . why not serve a luncheon at which every dish, from the appetizer to the coffee, is prepared according to some favorite and tested recipe of one of the guests. Have each recipe written on the back of a place card, collect these, put them into a file box (gift of the hostess) and present them to the bride-to-be.

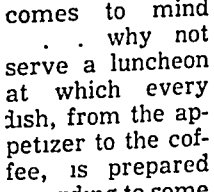


* * *

A shower that calls for an almost negligible outlay of money on the part of those who buy the gifts, but which will help the young bride to do some real housekeeping, is a "dime" shower.

The five-and-dime stores are bristling with simple little things the bride will use every day without being aware of them. If you'll contribute two ten-cent items, you'll be doing her a real service.

Matches, gummed labels, paste and waterproof cement (to repair the china she's bound to break sometime or another), playing cards and score pads, plenty of tissue cleansers, electric light bulbs, little wire flower - holders, assorted pads of paper for shopping lists or addresses — they're all so inexpensive when purchased separately, but how they do mount up in cost if the bride has to go out and buy the whole batch at one time!



(Released by Western Newspaper Union.)

Portrait of a Man Pecking at a Portable

The N. J. government's dispossessing of the German-American Bund (from the state) sent the blood racing through my veins . . . What a victory for all of us who have been taking their insolence all these years! . . . Why the N. Y. press doesn't campaign for similar action I wish I knew . . . I'd enjoy printing his cap and car numbers—if I didn't think his employers would scold him for being human . . . Anyway, he stopped his Broadway trolley the other afternoon to unload some passengers and saw a blind man on the other corner . . . He left his trolley—and escorted the blind one by the wing to the other side of the congested street . . . Then he dang-danged his bell and went on.

For the life of me I cannot figure out why "Amapola" is so popular. It has the corniest tune of them all . . . And when "Intermezzo" is played a la Beguine I feel like yelling: "Stop!!!" . . . Why do they always try to improve on masterpieces, anyhow? . . . The Commodity Research Bureau's 1941 Year Book shows that the President's Emergency Proclamation means increasingly strict rationing of vital war materials. We're getting invisible ration cards now . . . My idea of a delicacy is the peppery red cabbage at Moore's.

When I read that the authorities say "no sabotage," as in that huge Jersey fire, I wonder—do the enforcement agents know that in Yorkville they brag: "That was our answer to the closing of Camp Nordland" . . If the fire is due to negligence, the insurance companies do not have to pay off. But if it is sabotage, they have to pay immediately . . Mr. G.-Man Hoover told me that the stories about the fire were inaccurate at first. That instead of the damage being 25 millions, it was only two That there wasn't a thing there of a defense nature—or for Britain—and that no sabotage had been detected . . In short, colyumists are not alone when it comes to getting wrong steers—even newspaper editors fall hard for them now and then—like we ordinary people . . . I know, I know. I'm not a journalist . . . I'm merely a jeernalist. Tch, tch, tch.

The story of the week most unlikely to be confirmed: Japanese propagandists in the U. S. have just released the following flash: That "the Chinese invaded California in 500 A. D." . Something to worry about, huh? . . . It must be wonderful to be an out-of-towner and visit the Big Street for the first time and see those lights . . . It seems wonderful to me, who has lived among them so long—and I get a belt, too, out of watching watchers watch them.

I see news here and there and hear it, too, that Washington, D. C., is getting so crowded with people that it has become the nation's boom town. And that Broadway showmen and others are seriously thinking of opening night clubs there to cash in quickly . . . But they would be the suckers if they did . . Apparently they do not know that Washington is still an early town, and that on Saturday night the bars must close by midnight . . . It is not a place where they stay up late—since nearly all of them must be up early with the other worms . . . The numerous parties given by the elite and officials there—almost nightly—consume all the best customers, anyway—and that's on-the-cuff.

Notes of an Innocent Bystander

Broadway Alien: The orchids go to the editorialist on the N. Y. Times for this: "The Dionne quintuplets are seven years old. In many respects it is a woman's most delightful age At seven she sits on a man's knee without hesitation, affected or genuine, and without putting the knee to sleep. Unlike the older women of the household, she enjoys listening to him. In fact, she encourages him to talk, and she believes any story he tells her. Her curiosity over what became of his loss is unquestionably sincere. While unduly interested, perhaps, in the state of his exchequer and never too proud to accept pecuniary aid, she is no gold-digger whose gratitude is measured by the amount of the contribution. For as little as two copper cents she will bear-hug his spectacles all out of shape, and he feels sure she means it."

Manhattan Murals: The subway singers who have switched from torch tunes to patriotic themes . . The sign in the druggist's. "Do you have tattle-tale gray matter?" . The Greenwich Village gin-mill which conspicuously features a sign advertising the poor quality of its coffee The 8th Avenue barber shop's sign "Satisfied Haircuts or Your Hair refunded!" . . . The 42nd Street hawker selling "glamour ties" —plain cravats with noisy stripes.

IMPROVED UNIFORM INTERNATIONAL

SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Dean of The Moody Bible Institute of Chicago.
(Released by Western Newspaper Union.)

Lesson for June 29

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

LESSONS FROM THE EARLY CHURCH

LESSON TEXT—I Corinthians 3 1-15.
GOLDEN TEXT—For other foundation can no man lay than that is laid, which is Jesus Christ.—I Corinthians 3:11.

Corinth in the time of Paul was a great city, as renowned for its commerce and culture as it was notorious for its vice and licentiousness. Here on his second missionary journey, Paul, with Silas and Timothy, spent 18 months winning many to Christ, in spite of the hostility of the Jews and the opposition of wicked men.

The church established in Corinth became the victim of a factional spirit which divided the loyalty of the people, hindering spiritual growth, destroying discipline, and resulting in low standards of life.

Paul found it necessary to write to the church regarding its difficulties, and we may well learn salutary lessons from his epistle.

I. A Lesson in Spirituality (vv. 1-4).

The further a man drifts from his place of spiritual power and usefulness, the more apt he is to try to keep up a "front," to take up any possible means of justification. The Corinthian church was divided into four groups, each one priding itself on being right. There was "a Pauline party, overzealous for the founder of the church; an Apollonian party, bewitched by the oratory of Apollos; a Petrine party, which, claiming Peter as authority, was bent on mixing Jewish ideas with Christianity; and a Christ party, which, in antagonizing other elements, became itself a faction" (Moore). (See I Cor. 1:11-13) All this activity was covering up the fact that they were having.

1. Milk Instead of Meat (vv. 1, 2). In other words they were spiritual babes when they should have been grown-ups. Milk is a marvelous food, but there is need of stronger food for virile men and women.

How true it is that many ministers must spoon-feed or bottle-feed a lot of spiritual babes who should long since have grown up to the place where they can feed themselves and help others.

2. Strife Instead of Stability (vv. 3, 4). God does not want Christians to be like other men. When will we learn that lesson? One of the sure ways to stifle spiritual growth in a church or in an individual life is to engage in strife. Let us heed Paul's admonition and put away our bickerings, that we may become strong in the Lord.

II. A Lesson on Service (vv. 5-15).

Here is helpful instruction to the minister regarding his calling. Brethren, let us judge ourselves in the light of it lest we hinder God's work by having the wrong attitude or encourage our people to think carelessly on this important subject.

1. The Minister (vv. 5-9). There is no higher or holier calling than that to the ministry. We should not forget that, and will not, but will rather glorify the calling, when we realize that "minister" (v. 5) means "servant," "attendant," or "waiter." So Paul and Apollos, men of highest office and highest gifts, were God's waiters, to bring forth the bread of life, His servants, to plant and cultivate His field; and His builders, laboring on His building. Ministers are only instruments in God's hands, but they should be clean, well-prepared, and submissive instruments in His hands.

2 The Manner (v. 10). The servant of God must take heed how he builds. If, like Paul, he has the privilege of laying the foundation, he must be careful that it is the true foundation and is properly laid. He who builds must also be careful that every stone he lays is fitly placed and well-chosen.

3 The Materials (vv. 11, 12) How important it is that the materials of a building be right. If that be true of a physical building, it is a thousand times more important in God's building.

First of all there is only one foundation which the true minister can lay—Jesus Christ. It is the only foundation upon which anyone can build a lasting life structure for time and for eternity.

But there are other materials in the building which need to be chosen with care. It will not do for the minister to substitute the wood, hay, and stubble of his wisdom or the philosophy of men for the gold, silver, and precious stones of God's Word. Terrifying shame and loss is all that can result from such folly, for remember there is a day of judgment coming.

4. The Manifestation (vv. 13-15) Flaming fire will one day reveal how we have built. The "wood-hay-and stubble" preacher or teacher of God's Word may himself be saved, but, oh, the tragedy of coming into God's presence after years of service like a man who has escaped from a burning building empty-handed; saved from the fire himself, but ashamed that he has so built as to suffer loss.

Mr. and Mrs. Fred Roblin, of Kanawha, visited Sunday afternoon at the Frank Bilbrey home. The two families went to Clear Lake where they enjoyed a picnic supper together

Mr. and Mrs. W F Pavey, Mrs Martha Bredbenner and Mrs Lena Sshroder and Mrs. Mary Waterman visited at the Paul Grange home at Mason City, Sunday afternoon.

Mrs Harvey Barz and baby daughter returned home from the Mercy hospital at Mason City last Friday afternoon Mr and Mrs Barz have named their new daughter Myrna Diane

Lester Neuberger, who is a student in the government Vocational school at Shakopee, Minnesota, visited over the week end in Klemme and community Lester says he likes his school work very much

Rev. Ortmeyer and family of Estherville, and Donald Bacon and family of Thompson were visiting at the Arthur Wellemeyer home and with other relatives Sunday afternoon.

Mr. and Mrs Carl Suckow, and Mrs. Herman Bridges, drove in from Jennings, Louisiana Saturday afternoon and will visit with relatives and friends here until after July 4th. Mrs Herman Bridges spent the winter with her daughter, Mrs. Paul Stille and family at De Ridder, Louisiana, and will probably remain in this community during the summer.

Mrs A. H. Dulmes and son Dick accompanied by Mrs. Mary Mutch and daughter, Ada of Grundy Center, and Mrs. Russ Gray of Rockford, Illinois, were Mason City visitors Thursday afternoon.

Mrs. Joe Costello and son, Edward and wife of Blue Island, Illinois, came last week for a visit at the E J. Sshneider home Mrs. Costello is a sister of Mrs. Sshneider. They were enroute to Fort Collins, Colorado to visit old friends.

The Hubbard choir, under the direction of Rev E Bizen, gave a splendid sacred concert at the Klemme Reformed Church Sunday evening. Almost one hundred people enjoyed a social hour in the church basement after the evening service

Eugene Schaefer came home from the Emmetsburg hospital Saturday where he had been a patient for the past three weeks receiving treatments for burns. Eugene will still be unable to work for several more weeks

Ben Ridder who is a patient at the Veterans Hospital at Des Moines, is improving, although slowly. Last Sunday the following drove to Des Moines to see him Mrs Ben Ridder and children, Mrs August Ridder, Mrs Frank Ward and Loren Gatt

Tommy, little son of Mr. and Mrs John Waddingham was brought home by his parents, Sunday, from the Hampton hospital where he recently underwent an appendix operation Reports are that Tommy is doing alright and is "raring to go places"

The Central Iowa Telephone office and living rooms for Mr and Mrs R R Reece, has just undergone a complete redecorating job The central office is very neat and comfortable looking and is one more Klemme business place that has been improved this spring and summer

Mr and Mrs A E. Dutheridge and Mr and Mrs Ernest Helps spent the week-end visiting with relatives at Morris, Illinois While there they attended the wedding of James Kleinmaier and Anna Mae Erlandson at Chicago, on Saturday James is a brother of Mrs Helps and Mrs Dutheridge

Fortune smiles at last on the world's unluckiest man He's a citizen of Portugal and, after 300 accidents, is to be starred in a play based on his almost unbelievable series of mishaps Read this unusual personality story in The American Weekly the magazine distributed with next week's Sunday Chicago Herald-American

Roy Smeck has so far recovered from his accident of nearly a year ago, in which his hip was fractured and he received other injuries when he fell in the elevator at Hayfield that he is able to drive his car down town and is able to get around by using crutches Roy has had a long siege but is on the road to recovery now.

Glenn Stokesbary, who has been working at the Summit office in Forest City the past month, spent the week end in Klemme visiting with his parents, Mr and Mrs Clint Stokesbary Sunday his parents and brother Marvin took him to Waterloo from which point he left for Anamosa to work on the paper there

Lyndon "Pete" Kilgore, of Moline, Illinois, who spent most of the past week in Klemme visiting with his parents, Mr and Mrs. C C Kilgore and family, left Friday evening for Moline. "Pete" will be inducted into the army for a year of military training beginning June 26th He has been working in a printing plant in Moline for the past two years.

A large group of young people participated in a charivari in honor of Mr and Mrs. Verle Keraus, at the Ed Buntenbach home Friday evening The variety of "music" produced the desired effects and all were given treats up town Since their marriage, Mr and Mrs. Keraus have been living at a cottage at Clear Lake, while their house in Garner was being remodeled and redecorated.

Schwartz Funeral Held Tuesday

MRS. ELIZABETH SCHWARTZ

Eighty four years ago a baby girl came to gladden the home of the Joe Velau family in Meckle...berg, Germany, they named the little girl Elizabeth and her birthday was May 2, 1857

Her father was a caretaker in one of the government forest ... Germany

Elizabeth completed her commo... school education in Germany and became a member of the Lutheran Church by confirmation In 1876 her mother died in Germny

In 1877, when she was 22 years old, the family moved to America and her father made his home at his daughter Minnie (Mrs Charles W. Stiehl), and ten years later both the father and the daughter Minnie passed away and were buried in the Liberty Township Cemetery.

On arriving in America, Elizabeth found employment in the H F. Wellemeyer household at Garner, Iowa; she remained there four years.

In the fall of 1881, Elizabeth Velau, 26, and Andrew Schwartz, 28, decided to travel life's road together as husband and wife, they purchased 80 acres of prairie land and built up the original improvements on the farm now occupied by the Hugh Hmmel family in Liberty Township, and for 21 years this was their home

While they lived on this farm 9 children were born to them.

A disaster struck this household in March, 1898 when four of their children died of diptheria in one week, they were Martha, 11, Alfreda, 7; Glo, 10, and Bennie, 4, they were buried in the Liberty Township Cemetery.

In 1902, the Andrew Schwartz and the August Martin families moved to Jefferson, Oklahoma, here land was cheap and the crop of wheat would sometimes yield 30 to 40 bushels per acre on new land Fourteen years later, March 2, 1916, Andrew Schwartz, the husband passed away at the age of 63 years, and was brought back to Klemme and buried in the Liberty Cemetery

And now, on June 28th, 1941 the wife Elizabeth Velau Schwartz has passed away and was buried Tuesday, July 1st beside her husband and children in the Liberty Township Cemetery Andrew and Elizabeth Schwartz were good members of the Methodist Church

They were among the earliest settlers of this community and had been farming eight years before the town of Klemme was platted

She leaves to mourn her passing. one daughter, Lillian, wife of Rev. R. Zeidler, three son, Arthur, Wesley, and Herbert Schwartz all of Oklahoma One brother, Charles Velau of Klemme Two sisters, Mrs Lena Muchow, Hartford, So Dakota, Mrs Rieka Failo of Toledo, Ohio And many other more distant relatives and friends

Funeral services were held Tuesday afternoon from the Klemme Methodist Church with the Reverend William Zabilka officiating and the Wellemeyer Funeral Service in charge She was placed to rest in the Liberty Township Cemetery beside her husband who passed away in 1916.

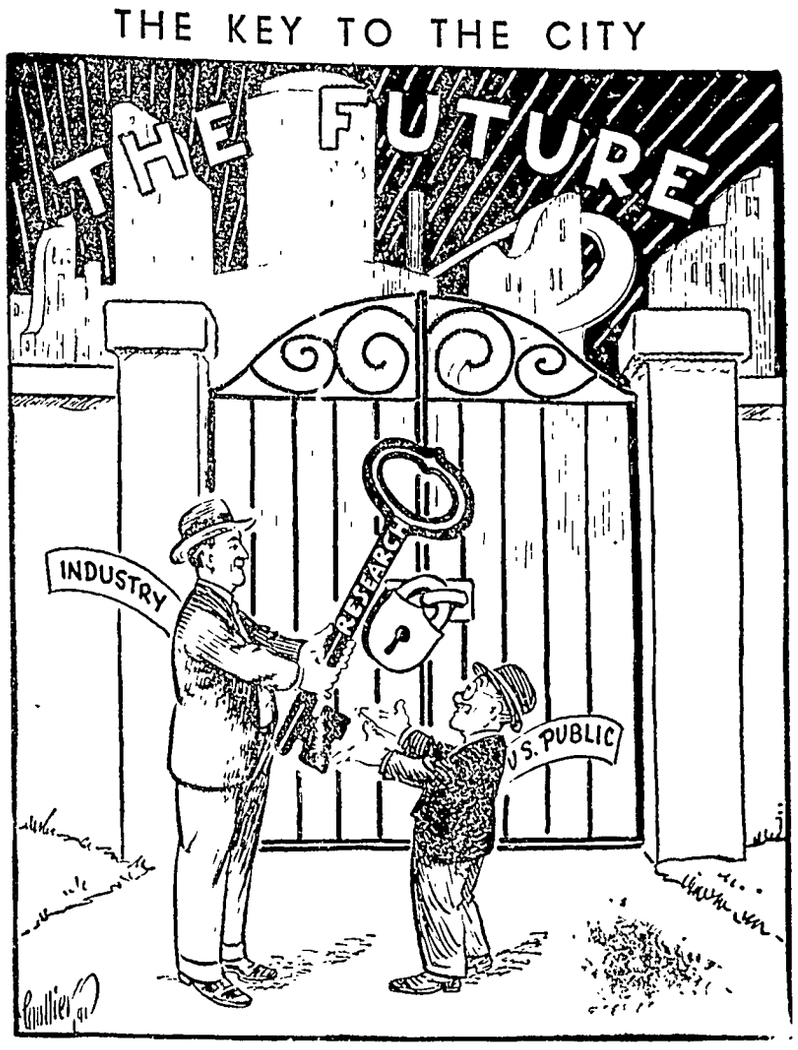
RE-UNION HELD AT RENWICK PARK LAST SUNDAY

The Jenssen and Wille reunion was held at the park at Renwick on Sunday, June 29th with seventy-eight people prtsent.

Eleven towns were represented and the ones who came the farthest were from West Concord, Minnesota.

All brought well filled baskets for a picnic dinner. In the afternoon a short program was given and then all enjoyed visiting and playing games.

THE KEY TO THE CITY



Peace Reformed Church Scene Of Weddiug

MISS LOIS LENZ IS BRIDE OF OF ELMER J HUENEMAN

Peace Reformed Church south of Garner, was the scene of a quiet wedding at high noon Saturday June 21, when Miss Lois D Lenz, daughter of Mr and Mrs W G Lenz, became the bride of Elmer J Huenemann son of the Rev and Mrs Wm Huenemann The single ring ceremony was performed in presence of the immediate families by the Rev Mr Huenemann father of the groom

The Bridal March from Lohengrin' was played by William Huenemann, brother of the groom, and Edward Huenemann, also a brother of the groom, ang two selections 'I Sought the Lord and Good Is the Lord and Full of Kind Compassion

The bride was attired in a dress of powder blue and wore a shoulder corsage The groom wore a dark suit with a rose boutonniere The church was decorated with bouquets of delphiniums, daises and peonies

Blue and white decorations were used at a buffet luncheon which was served at the home of the groom's parents to 40 immediate relatives A three-tiered wedding cake served as a centerpiece

The bride is a graduate of the Garner high school and has attended the Iowa State Teachers College For the past few years she has been teaching in the rural schools of Hancock County

The groom is a graduate of the Menno S D high school and since then has been engaged in farming

After a short wedding trip to points of interest in Iowa, Wisconsin and Minnesoa, the young couple will be at home on a farm south of Garner

DICK DULMES CELEBRATED FIFTH BIRTHDAY

Dick, son of Dr and Mrs A. H. Dulmes, was five years old on Friday, June 27th, and in honor of the event his mother planned and carried out a birthday party for him and invited a number of little girls and boys to spend the afternoon playing games and having a fine time Dick received a variety of nice gifts from his friends.

Mrs Dulmes served a nice lunch to the youngsters at five o'clock. A decorated birthday cake attracted a lot of attention at the top was formed to represent a merry-go-round, with animal crackers and colored sticks of candy.

Klemme Man In Army Air Corps

KLEMME FLIER ENLISTS IN U. S. ARMY AIR CORPS

Ray Jorgenson, Jr Friday completed final examinations at Kansas City, Mo for the U. S. Army Air Corps and enlisted in that branch of the service to take a Flying Cadet course in aviation to become a pilot in the army.

Ray, who is the son of Mr. and Mrs R A Jorgenson, last year completed a government training course in aviation and is qualified as a Private Pilot During the past year he specialized in mathematics and science course at Simpson College in order to be better fitted for army aviation

He is now subject to call at any time between the present date and September first, when he will be stationed at an army flying school to complete training of seven or eight months and will then be graduated and commissioned as a Second Lieutenant and will then go into the regular army air corps

Present from Minnesota were from St. Paul, Minneapolis, Albert Lea, Austin, Tracy, Janesville, Northfield, Randolph, Grand Rapids, Cannon Falls, Spring Valley, Rosemont, Garvin and Farmington, and Chicago, Ill.

ENID V. HARVEY MARRIED AT MASON CITY CHURCH

Couple Will Live In Elmhurst, Ill. Following Wedding Trip

The following item from the Mason City Globe-Gazette tells of the wedding of Miss Enid Harvey, a former Klemme girl and a granddaughter of Mrs. Fred Ridder:

On the wedding anniversary of her parents and grandparents, Miss Enid V. Harvey, daughter of Mr and Mrs S A. Harvey, 410 Vermont avenue southeast, became the bride of Willard Juergens, son of Mr and Mrs. Martin Juergens of Elmhurst, Ill., Sunday at 12 30 o'clock in the First Methodist Church with the Rev William Galbreth officiating.

Palms, candelabra and baskets of white asters decorated the church. Mrs. Bertha Patchen played "Intermezzo" during the ceremony and used "The Bridal Chorus" from "Lohengrin" for the processional and the Mendelssohn march for the recessional. Miss Mildred Foreman sang "I Love You Truly" and "Because" preceeding the service.

* * *

In the bridal party were Miss Wilma Reinertson of Mason City, maid of honor; Miss Helen Swehla of Mason City and Miss Etta Llewellyn of Chicago, bridesmaids; Ray Juergens, brother of the bridegroom, the bestman, and Ed Luebcke and Don Waddell of Chicago, ushers.

The maid of honor wore a blue mousseline de sole gown and carried tea roses and pink gladioli. Miss Swehla wore pink mousseline de sole and carried pink roses, carnations and blue delphinium, and Miss Llewellyn wore yellow and carried tea roses, purple asters and yellow carnations.

* * *

Mr Harvey gave his daughter in marriage and she was attired in white mousseline de sole made into a basque waist having a sweetheart neckiline. The skirt extended into a short train. Her fingertip veil was elaborated with a white seed pearl tiara and she carried white roses, carnations and gladioli in a cascade arrangement. She wore a string of pearls, a gift from the bridegroom.

The bride's mother's gown was of blue lace and her corsage was of tearoses and the bridegroom's mother wore a flowered sheer with a corsage of pink carnations and asters.

* * *

Following the ceremony, luncheon was served to 35 guests in the English room of the Green Mill. Tables were decorated with daisies and asters and a three tiered wedding cake topped by a miniature bride and bridegroom centered the bride's table.

The couple left after the reception for a short trip north after which they will be at home in Chicago. Mrs. Juergens wore a green print redingote for travel with brown and white accessories. Her corsage was of yellow roses.

* * *

She is a graduate of the Mason City high school and has been employed in the general office of Swift and Company in Chicago. Mr. Juergens is employed by Wilson-Jones in Chicago.

Guests were Mrs. C. Juergens, Mrs. W. F. Beatty and daughter, Joyce, Mr. and Mrs. W. Ahlfeldt, Mr. and Mrs. L. Johannsen and Mrs. Ed Luebcke, all of Chicago; Miss Estelle Harvey and Mrs. Fred Harvey of Bloomfield, N. J., aunts of the bride; Mrs. Frances Ridder, Mr. and Mrs. L. A. Ridder and son, Roger, Miss Minnie Lau and Ben Lau of Klemme, Miss Mynnie Bruner, Mr. and Mrs. Dick Hughes and Mrs. Reine Reinertson of Mson City.

Child Genius Popular Only With Parents

Talented Children Escape Discipline, Develop Individualism.

By ROGER SHAW
(Released by Western Newspaper Union.)

CHICAGO.—Gifted children are a pain in the neck. They are the pride and joy of their parents. And the special pride of the psychologists. They are also the special pet-hate of the psychologists. They are this and they are that, and nobody ever seems to know quite how to handle them, or get along with them.

They used to crush gifted children under the Old Testament and the strict Victorian hearth-and-fireside technique. They made them do the goose-step. There was a German movie called "Maedchen in Uniform" that told the tale. English schools, too, are mostly run that way—the so-called traditional method.

There was a revolt against that method. It was nicknamed the "express-yourself" method. Under the express-yourselfists, anything went. Anything was all right. If the gifted child wanted to stand on its head, instead of doing its arithmetic, it was all for the best. It was developing its little personality in its own sweet little way. If the child wanted to stay up all night and read the Encyclopedia Britannica, so much the better. Loss of sleep might make it peevish, but in the long run the child would be the gainer. It had cashed in on its moment of excited curiosity, and a good thing, too.

Unconcerned Children.

By and large, gifted children are not pleasant children. That goes without saying. They themselves know this, generally speaking, but don't care. They are a bit unbridled. They rationalize all around the parental discipline, and tie it up in knots. They tend to be arrogant, and even condescending. Generally speaking, they know they are gifted children, and that's a headache from the word "go." They love long words. They are blase. They know how to make their elders uncomfortable, and how the elders hate them for it! There's a perfectly good psychological reason for this. Child-appeal is very much like dog-appeal. What makes it appealing is trustful, dumb devotion which makes the adult feel flattered and superior. The adult naturally loves this, so he loves children and dogs as well. But wolves and gifted children do not share this engaging trait with dogs and normal children. Hence, wolves and gifted children are not so popular. Never look a gift-child in the mouth. He's liable to bite you. Beware!

When Thomas Babington Macaulay was a very wee gifted child, they asked him how his finger felt. He had hurt the rosy little digit, somehow. The gifted little Macaulay replied: "Thank you, madam. The pain has somewhat abated." Macaulay's contemporary, John Stuart Mill, could read two foreign languages with considerable fluency when he was four. In the modern era, Braintruster Berle and Bob Hutchins have quite lived up to the Nineteenth-century English standard. So have London Punch and the New York New Yorker. A high percentage of their humor is based on the precocious chatterings of gifted children, and the gift-child spoofery of humiliated adults.

Discipline Returning.

There has, however, been a considerable reaction against letting the little supermen and supergals express themselves with all the initial post-war freedom. Discipline is again asserting itself, in its most draconian forms. There is now a school of thought which one might call the neo-Victorian. It believes that children should be seen and not heard, and that—like Mussolini's trains, and troops—they should be made to run on time. One "reactionary" spokesman for this group of counter-reformers is Dr. Henry Link, the eminent psychologist. Dr. Link is convincing, and he is highly articulate. He thinks that group games and individual self-abnegation are far more valuable character-forming factors than the rugged childish individualism that flourished in America in the twenties and the thirties.

Dr. Link—and he is typical of his school of thought—dislikes introverts. He believes that pampered gift-kids should not be encouraged to do what they want when they want it. He prefers the age-old virtues, and the allegedly eternal verities. He thinks that the gift-bairn should be compelled to play extravert tennis, willing or no, even when the gift-bairn would much prefer to go on the licentious spree of studying prehistoric natural history, or submarine conchology. He believes that the little gifties should be shoved into bridge, systematically and without stint, even though the Wunderkinder think bridge is pretty lowbrow and intellectually sterile. Spare the rod, spoil the child, according to the neo-Victorians. Their opponents, of course, label them "intellectual fascists." The intellectual fascists, so-called, come back by mud-slinging the express-yourselfists as "cultural bolsheviks." Get your gift-child and take your choice.

Physical Growth Also.

Gift-children, the bright little things, are not undersized, pale, and anemic. They are generally bigger and more active than the average, and hearty, too — sometimes too hearty, say the observers. They sometimes do seem to be smaller than the others. That's merely an optical delusion. The answer is simple. They have been pushed ahead into classes of older children, who are bigger merely because they are older. In their own age-class, which they have out-stripped, the gifted children are big and bouncing. In other words, gift-children may be ascetic, but they don't look it. They may be greasy grinds and little book worms, but grinding and worming have built them up, somehow, physically as well as mentally.

There is another startling discovery about the gift-bairns. It is this: Their genius is not closely linked with dark insanity. Most of us have always thought otherwise. We have been led to believe, and even to swear to it, that genius and nuttiness are close pals—almost Siamese twins, to be exact. If genius oversteps, or over-reaches itself, it's just too bad for the genius. All this, apparently, science now tends to disprove. Insane asylums are not actually filled with what used to be gifted children. As a matter of fact, say the statisticians, gift-kids are more stable in their emotional reactions than the plodding little hewers of wood and drawers of water. This latest datum, frankly, does not make sense to your correspondent, but there it is, in black and white.

Quizzers Quiz Quints' Dr. Dafoe

When Dr. Allen Roy Dafoe brought the Dionne quintuplets into the world, he had to think fast if the five famous children were to survive. Now another set of five famous children, the Quiz Kids, again make him think fast. This time it is the good doctor who is in danger—of losing his reputation, as a scholar, as they fire a barrage of questions at him. He is holding Richard Williams (L.) and Gerard Darrow. In the rear are (L. to R.) Cynthia Cline, Van Tyke Tiers, and John Bishop.

Local Division Offices Handle U. S. Purchasing

WASHINGTON.—How can a business man sell to the government?

Approximately 2,500 government purchasing agencies purchase some 300,000 different articles. Indeed, the government buys some quantities of almost everything produced in this country.

The magnitude of the government purchasing set-up, especially in this grave emergency when first emphasis is necessarily placed upon defense equipment for the expanding army and navy and for Great Britain, tends to confuse many manufacturers who desire to co-operate 100 per cent.

Actually, government purchases are made on a very simple formula. The specifications are not complicated. In fact, the biggest buyer in the world—Uncle Sam—has the simplest system of purchasing supplies, equipment and services. The system functions something like a large mail order house, except that where the latter sells to thousands, the government buys from thousands.

The initial venture of selling to the government will, of course, present some new problems. None of these problems, however, are necessarily complicated. In order to help manufacturers solve them, Jesse Jones, secretary of commerce, early in his administration set up a service and information office, staffed with men who have had years of service in government and have recently completed months of intensive study of the purchase systems of each governmental office.

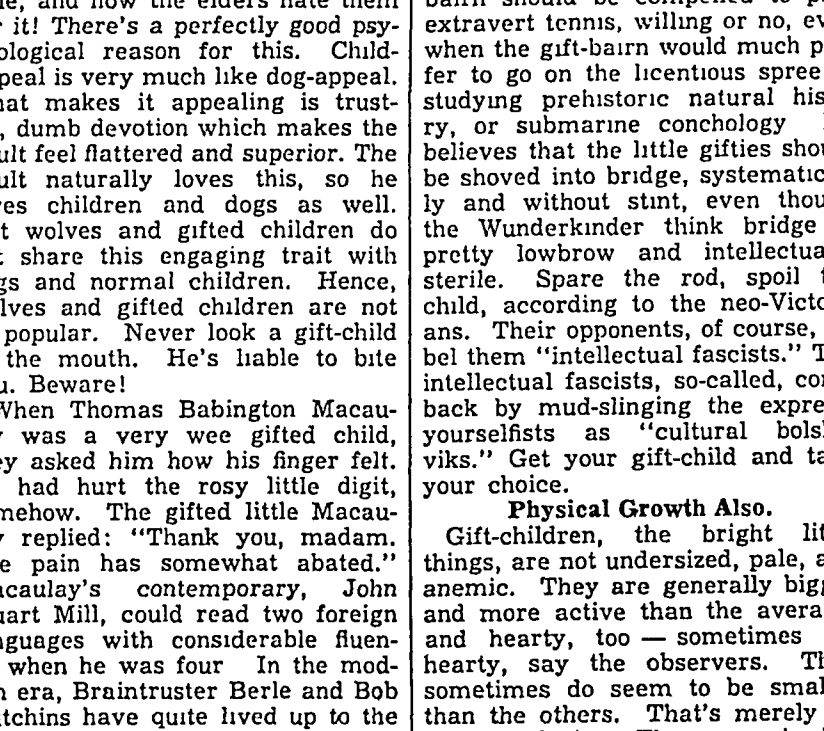
Write for Information.

Consequently, the service and information office is equipped to inform manufacturers whom they should contact and exactly how to do so. A manufacturer who desires to co-operate with the government in the present emergency, and lacks specific information as to how to proceed, is invited to apply to this unit, room 1060, department of commerce, Washington, D. C. The effectiveness of the assistance rendered by the office is demonstrated by the large number of telegrams and letters of appreciation which it has received.

Many manufacturers apparently have felt that if they desire to transact business with the government they must either come to Washington in person or employ somebody familiar with government purchasing methods.

The service and information office strongly urges manufacturers not to come to Washington, at least until they have carried on preliminary negotiations by mail with the purchasing agency that handles their particular products. They are advised not to employ outsiders on a commission or other basis.

'Cross-Currents' in Farm Picture



FOOD-FOR-DEFENSE PROGRAM INCREASING FARM PRODUCTION; TOTAL VOLUME TO EXCEED 1940 OUTPUT
MILK AND DAIRY OUTPUT AT NEW HIGHS, STIMULATED BY GOOD CONSUMER DEMAND AND GOVERNMENT BUYING.
FATS AND OILS IN GOOD DEMAND, PRICES HIGHER
GOVERNMENT AIDS FOR INCREASED PRODUCTION OF WHITE BEANS
HOG PRODUCTION STIMULATED THIS SUMMER BY FAVORABLE PRICE RATIOS.
WINTER WHEAT AREA MAKING READY FOR BIG HARVEST; PRICES UPPED BY HIGHER GOVERNMENT LOAN RATES.
LARGER MARKETINGS CATTLE AND CALVES WILL YIELD BIGGER INCOME THIS YEAR
POULTRY, EGG PRICES AND PRODUCTION INCREASED.
EARLY LAMB SEASON THE BEST IN YEARS; WOOL PRICES UP
GOOD CROPS OF FRUITS—PEACHES, APPLES, DRIED FRUITS—EXPECTED THIS YEAR
FARM INCOME AND COSTS RISING, WILL TOP 1940 FIGURES
FOOD PRICES LOW COMPARED WITH RISE IN CONSUMER INCOMES
HARVESTING OF THOSE CROPS MOVING NORTH; GOOD VOLUME EXPECTED FOR SUMMER MARKETS
BUREAU OF AGRICULTURAL ECONOMICS

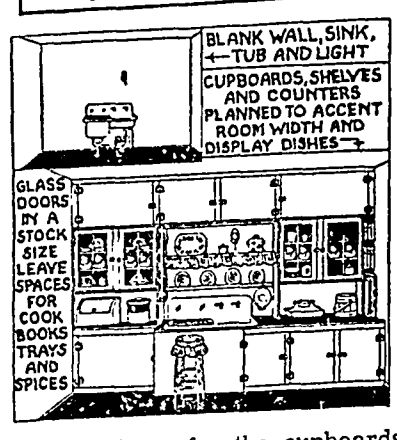
Cross currents are running now in the agricultural situation, the U. S. department of agriculture reports. Higher prices, income and costs are in prospect this year, coupled with anxiety over drouth. Early crops and livestock were in good condition, but the long dry spell has seriously damaged pastures and fields.

WASHINGTON.—Anxiety is felt over the possible effects of continued dry weather on the food-for-defense program, but drouth would need to be serious in view of the reservoir of feed in the ever-normal granary. Winter wheat will soon be in harvest. The crop is practically made, a crop estimated at 653,000,000 bushels, the largest in 25 of the last 30 years. Total supply of wheat during the coming year should be of near-record proportions.

Higher government commodity loans have aided farm markets. Prices of agricultural staples rose to new marks in more than a year. The food-for-defense program has raised the prices of livestock, poultry, and dairy products. Prospects for farm income in 1941 are above earlier estimates. Total agricultural production may be larger this year than last, notwithstanding the smaller 1941 pig crop—unless drouth prevent. Reports of a serious farm labor shortage have been received by the department of agriculture.

NEW IDEAS for Home-makers

By RUTH WYETH SPEARS



BLANK WALL, SINK, ← TUB AND LIGHT
CUPBOARDS, SHELVES AND COUNTERS PLANNED TO ACCENT ROOM WIDTH AND DISPLAY DISHES →
GLASS DOORS IN A STOCK SIZE LEAVE SPACES FOR COOK BOOKS TRAYS AND SPICES

SOLID doors for the cupboards at the sides of this sink would have placed the accent on vertical lines and made the room seem narrower. But most important of all, this combination of glass doors and plywood doors gives an opportunity to display dishes and other things that lend color, and at the same time makes a place to hide away less decorative utensils.

The lower cupboards and sink enclosure were built first. The vertical supports for the glass cupboards are 1 by 12-inch boards. These rest on the lower cupboards and are placed far enough apart to accommodate the glass doors. The 1 by 12-inch board across the room makes the top of the glass cupboards and the bottom of the upper cupboards. The ruffle trimmed shelf between the glass cupboards is 6 inches wide and the plate rail below it is made of two moulding strips.

Chic Prints Feature Flowers In Colorful Wide-Spaced Motifs

By CHERIE NICHOLAS

THIS season the new look for prints is carried in big florals that dramatically splash and dash vivid color in wide-spaced motifs. Nor is the technique and the eye-dazzling color confined to evening prints. While it is true that gorgeous prints of the type described have gone "tops" for party and for other formal evening wear, it is also true that big flowers patterned in few and far-between motifs are the newsiest news of all in regard to materials for smart afternoon frocks.

What's more the craze for huge, wide-spaced flower prints is also reflected in sportswear fashions. Even if the material itself is not printed the latest gesture of fashion is to make pajama ensembles that have long semi-fitted jackets (some with a tunic flare) of quality-kind white crepe, splotching them here and there with applique of huge florals cut out of madly colorful silk print. As yet these flower-applique outfits are shown only in exclusive collections but the fashion is one that will gain in momentum with a rush. You can get stunning prints with huge Hawaiian designs that yield cutout motifs for applique that are both beautiful and unique.

For the most part the new big-flower prints run to hand-blocked types of exclusive and individual type. Flower-printed sharkskin is the "last word" in chic. It is especially good style in white with a background of enormous clumps of flowers spaced widely apart and fairly vibrating with hectic color. Lovely little afternoon dresses made of this new sharkskin print are being shown in the shops.

Necessarily these strikingly be-flowered prints have to be made up very simple, whether for day or evening, but it is with a sophisticated simplicity that is purposefully planned in order to give accent to the beauty of the fabric. The dresses to the right and left in the picture illustrate this idea. The stately figure standing to the right is gowned in an evening creation styled of a splashy tulip print on a white background. The maximum of dramatic effect is reached in the clever use of applique cutouts from this splashy tulip print placed at the upper left side of the bodice. Again tulip applique repeats at the shirred waistline. Note the chic long sleeves that are tightly fitted below the elbow.

The afternoon dress to the left is a hand-block print in red, green and gray against a white ground. In her hand this lady of fashion holds a chalk white felt off-face hat.

Bright days ahead are promised by the perfectly charming flowered print dress centered in the picture. This multi-colored floral print is a pure silk crepe which makes it outstanding because best dressed women are insisting upon genuine quality-kind silk. Another important message in this gown is the trimming formed of quilted flowers (cut from the print itself) that edges the sleeves and neckline and goes meandering down the front of the simulated jacket top of this one-piece dress that looks like a two-piece. It also delineates the jacket edge around the hipline. This is one of the gay flower types that is very good style for day frocks and seen in the original it is strikingly colorful. As to the hat worn with this winsome frock it is one of the very wide brims such as fashion decrees for summer.

Chinese prints with legendary design and in authentic colors present a fascinating new trend of thought. Some designers are even going so far as to create dresses in the straight, slim Chinese lines thus emphasizing the native source of inspiration.

(Released by Western Newspaper Union.)

Button-On Yoke

One of the most successful and flattering fashions of the present season is the basic dress made to look important and lovely with crisp snowy neckwear and other refreshing lingerie touches. There is no greater favorite on the list of neckwear types than the youthful looking yoke collar. These yoke collars "do something" for you. They come in exquisite lace-trimmed and embroidered sheers, also in pique if a tailored type is your choice. A wide lace-trimmed flounce edges the enchanting yoke-collar pictured. It is made of eyelet embroidered permanent finish organdy with matching lace insertion following the squared line of the yoke. The fact that this dainty yoke buttons on adds practicality to chic and charm.

Irish Crochet Lace Trims Dresses, Handbags, Gloves

The pendulum of fashion swings around to Irish crochet lace this summer. Just arrived are a collection of summertime dresses made of cotton boucle trimmed with that old-time favorite lace—Irish crochet. Then too pique collar sets and yokes are being edged with Irish crochet and pique party frocks trimmed in this lace are the "last word."

You can find also little jackets, handbags and gloves to ensemble with Irish crochet-trimmed frocks. Milliners are trimming some of their choicest hats with this same lace.

White Jewelry Accents Summer Prints, Pastels

White hats call for white jewelry. The two are playing a duet this summer. The new white plastic jewelry, especially the lacy type, is very flattering, giving a fresh accent to dark dresses. Take a look at the new glass bead jewelry, too, next time you visit the jewelry section. You'll love it, for it so colorfully accents summer prints and pastels.

Gay Peasant Blouses

The peasant theme persists in the minds of schoolgirls and debutantes. Of course their fashion hobby at present is the full peasant skirt topped with a gaudy foreign looking blouse. However, if you are older and still feel the urge for a blouse of native Hawaiian, South American or Mexican, it will delight your heart to visit the blouse sections and see the grand array of peasant-inspired blouses to be had.

The Washington MERRY-GO-ROUND

DREW PEARSON & ROBERT ALLEN

Washington, D. C.

GOOD NEIGHBOR CO-OPERATION

The United States is getting much better co-operation from some of our South American neighbors than has leaked out to the public.

When Portugal protested to the United States against Roosevelt's fireside chat hinting the seizure of the Azores, the Brazilian government immediately got in touch with the U. S. state department. The Portuguese had sent the Brazilians a copy of their protest, and Brazil asked us what reply we were going to make.

Ambassador Caffrey in Rio de Janeiro immediately showed Foreign Minister Aranha a summary of our proposed reply, and Aranha volunteered to send Portugal exactly the same answer—telling them it was vital to the safety of the Western hemisphere that the Azores be in friendly hands, and that Brazil could not afford to see the islands taken by the Axis

This message was sent: which means that Brazil will co-operate with the United States if and when the time comes to occupy the Azores.

Argentina also has been more co-operative than ever despite the die-hard efforts of our Rocky Mountain congressmen to prevent the importation of Argentine canned beef. Argentine sentiment is overwhelmingly anti-Hitler and pro-Roosevelt. The Argentines are much stronger for Roosevelt than for the United States, and have their fingers crossed as to what may happen after Roosevelt leaves office.

Dakar and Robin Moor.

For approximately one month, however, all White House advisers have agreed that the Azores were far less important than Dakar and the coast of West Africa. That is what makes the sinking of the Robin Moor by a Nazi submarine so doubly significant.

Despite the menace of Dakar, presidential advisers have been worried as to what we should do about it. To take Dakar from the French and to hold it against all comers would require more men than the 50,000 in the U. S. marine corps. It would require an expeditionary force from the regular army.

And while such troops are available, the bottoms to transport them are something else again. Once before, the British urged us not to get mixed up in the South Atlantic because it would divert our navy from the all-important North Atlantic.

The sinking of the Robin Moor, however, has played directly into the hands of those who have been urging the President to adopt the strongest policy in the South Atlantic and, if necessary, land troops on the bulge of Africa.

* * *

CATHEDRAL OF AGRICULTURE

Paul H. Appleby, diminutive, didactic undersecretary of agriculture, made a flying trip to Nebraska the other day which had some interesting inside background.

Purpose of the trip was to set up what some agricultural hands call a "Cathedral of Agriculture" in Lincoln, Neb. What Appleby was working on was a plan to pool all of the different federal agricultural agencies under one roof and under one director at Lincoln.

These were to include the AAA, Rural Electrification administration, soil conservation, farm security, extension service, farm debt adjustment, and so on. The plan was to make the state of Nebraska a guinea pig to test the idea. All of these different farm representatives would then report to one director in Lincoln rather than to Washington.

However, the proposed Nebraska director was Cal Ward, regional supervisor of farm security. And although working for a Democratic administration, he is branded as a staunch Republican. His selection therefore caused opposition from various federal farm representatives in Nebraska who didn't want to join any "Cathedral of Agriculture" under Cal Ward.

Chief objector was Fred Wallace, chairman of the Nebraska AAA, and it was to bring him into line that Appleby flew out to Nebraska.

Appleby had first ordered Wallace to Washington. But Wallace refused. Even after Appleby flew out to see him, he could not make Wallace budge. "I'm interested in an agricultural program, not a lot of bureaucracy," Wallace said.

Appleby stayed an extra day, finally flew back to Washington. His "Cathedral of Agriculture" for Nebraska definitely side-tracked.

Note — Secretary of Agriculture Wickard has been looking around to find a new berth for his undersecretary—outside of the agriculture department.

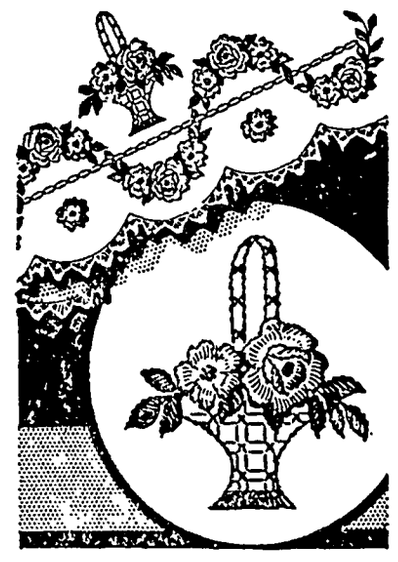
Army Movies.

Movies are the top amusement of the boys in camp and the army gives them all they want—at bargain prices.

For this purpose the war department has organized the Army Motion Picture service, which in a few months has become one of the largest theater chains in the country, with about 300 theaters in operation. There is at least one movie theater in every army camp, with shows seven nights a week, plus Saturday and Sunday matinees.

Things to do



Pattern 6893

Then Came the Rush— And Both Were Deadheads!

It was the night of the grand concert, and approaching the hour at which it had been advertised to start.

Blobb and Blabbs had hired a spacious hall and expected big profits.

"Are the ticket-takers all ready?' asked Blobb.

"Yes, sir.'

"All ushers at the doors?'

"Right, sir.'

"Then throw open the portals! The hour has come!'

The huge iron doors opened.

Two small boys entered.

"Please, mister," said a tiny voice, "can we both come in on this free pass?'

Ink Spots And Spatters

By Jergie

BY THE ROCKET'S RED GLARE

Independence Day is a serious affair this year. Not in a long time have we Americans been brought to so keen a realization of the unique quality of the life that his country is privileged to enjoy. So Fourth of July celebrations' and the traditional "shooting off firecrackers" are likely to yield first place to measured consideration of the real meaning of American independence.

It's a fine time to notice in this connection that the actual material needs of our defense program are making it necessary for all of us to fall in step with this new approach. For the United States is "keeping its powder dry"—not shooting it off indiscriminately to advertise a national holiday.

In New York City, for example, reporters discovered that all but a tiny portion of the pyrotechnical output of companies in the field is now being devoted to the nation's defense program. Fireworks companies are making signal lights, smoke bombs, hand grenades, trench mortar shells, and various other flare and explosive devices for our armed forces. Further than that, we are reminded that most of the rest of the world is on fire when we learn that imports of firecrackers from China, main foreign source, have been virtually cut off.

"All time and raw materials for fireworks were working 24 hours a day for the Army and Navy," says one big company. Like many other companies and industries who have turned away from peacetime product to go "all out" in the national emergency, the fireworks folks are putting the welfare of the whole country first.

And that's the best possible insurance that there will be a real Fourth of July to celebrate when the present emergency has passed.

KLEMME BREAKS INTO THE CITY NEWS

Cedric Adams in his column in the Minneapolis Journal of June 10th has this to say:

"Oh, for the life of the barber down in Klemme, Iowa. A sign in his window reads 'Open on Wednesday and Saturday evenings and on rainy days.'"

Mr. Adams was not a very good observerer or he would have noticed that the barber shop was in the next building. What he referred to was evidently Matt Smith's poultry station. Anyway, Jim the barber will reap the benefits of this free advertising and the writer may be able to pry a free haircut out of the deal.

LET'S SHOW THE WORLD WE ARE AMERICANS

We should all be thankful that we are Americans and that we live in a free, peaceful country. When the opportunity presents itself we should be quick to show our thankfulness and patriotism.

But there are some who need a bit of education along patriotic lines when the bands plays the national anthem they should arise and uncover their heads. Some failed this in Klemme last Saturday night when the band played "The Star Spangled Banner."

Our informer told us that from the place he stood he counted nine men who sat on the benches and failed to stand up, while twenty-seven other men did stand up but didn't remove their hats.

We hope these thirty-six unthoughtful ones will be the first next week to show their patriotism.

WET OR DRY MOON

There must have been a wet moon over northeastern Iowa some time prior to May, 1941, says Charles D. Reed, Director of the Weather Division of the Iowa Department of Agriculture, for Decorah beat all records for heaviest May rainfall, with a total of 12.21 inches, which is 0.58 inches more than the previous record high for May rainfall of 11.63 inches in 1902. Also, Waukon, with 12.05 inches, beat its 1888 May record of 7.11 inches.

But there must have been a very dry moon over some places in west central Iowa, where Audubon and Sac City, each with 0.55 inches rainfall, established new records for their dry Mays. This illustrates why moon sign advocates have so much disagreement among themselves as to what is a wet moon and what is a dry moon. False reasoning might lead one to conclude that a different moon shone over west central Iowa than shone over northeastern Iowa, commented Charles D. Reed, Senior Meteorologist, United States Weather Bureau.

DAISIES FOR GERMANY

Through the columns of their daily newspapers German subjects this month were advised to eat daisies. This wild flower furnishes more vitamins, minerals and salts than do most vegetables.

WOOD FEED

Germany, Sweden, Norway and Finland, cut off from ordinarily imported feed supplies, are converting wood into livestock feed on an extensive scale. From England is reported the use of straw, acid treated to remove indigestible matter.

Shipped.

The body of William Albert Morgan, cremated in Sacramento, California, was received at Albia for burial. The body was sent by express, valued at $50, at a cost of 88 cents.

BOARD PROCEEDINGS

SECOND ADJOURNED JUNE MEETING
Garner, Iowa, June 23, 1941

The Hancock county, Iowa, board of supervisors met in session on above date with G. E. Klipping, F. J. Schoun and Penn Eckels present.

The minutes of the last meeting were read and approved as read.

On motion and second application for a school fund loan for Wm. Schuver is approved.

Supervisor Klipping is appointed a committee to investigate and cause repairs to be made in D. D. Nos. 3 and 4; D. D. No. 118, D. D. No. 7, and D. D. Nos. 3 and 4, lateral No. 36.

Supervisor Schoun is appointed a committee to investigate and cause repairs to be made in D. D. No. 70 Main.

On motion and second the petition of Elmer Bredlow et al, petitioning for a cleanout of lateral No. 28 of D. D. Nos. 3 and 4, be and the same is hereby referred to C. F. Merten, Engineer, for a survey and report on the necessity and feasibility of the cleanout petitioned for.

On motion and second the semi-annual report of Roy L. McMillin, county Treasurer, is approved.

On motion and second the appointments of George Morgan to act as deputy sheriff as weed commissioner and F. A. Chisel to act as deputy sheriff as dog catcher, are approved.

On motion and second Class B beer permits are hereby granted to Walter Roy Agnew of Hayfield and Katolicky Delnik lodge of Duncan and their bonds and applications are hereby approved.

On motion and second a Class C beer permit is granted to Frank Falada and his bond and application are hereby approved.

On motion and second a cigarette permit is hereby granted to the Falada General Store at Duncan and his application and bond are hereby approved.

This being the 23rd day of June the date heretofore set for a final hearing on the changes in valuation as tentatively fixed by the County Board of Review at their session on June 11, 1941, the Board of Supervisors did reconvene as a County Board of Review and at the appointed hour did hold a hearing in conformance with a resolution passed on June 11 1941. There being no objections either oral or written the Board does hereby fix the valuation on real and personal property as adjusted by this Board at their session on June 11 1941.

On motion and second County Board of Review adjourns.

RESOLUTION

WHEREAS, Lot 4 Block 5 of the Original Town of Corwith Hancock county Iowa, was sold at Rummage Tax Sale to Hancock county, Iowa, for delinquent taxes for the years 1933 to 1935 both inclusive and Tax Certificate No. 1827 issued to Hancock county therefore, and

WHEREAS, Hancock county through the Board of Supervisors conveyed said premises to William Baughman by Quit Claim Deed of record in Book 26, page 57 of the Deed Records of Hancock county Iowa and

WHEREAS, William Baughman has entered into contract to sell said real estate to P. E. Walley and

WHEREAS a question has arisen as to the sufficiency of the notice of expiration of redemption on said certificate and

WHEREAS it is the desire of Hancock county to perfect the title to said real estate

NOW THEREFORE IT IS RESOLVED THAT the County Auditor be and he is hereby directed to assign the certificate to P. E. Walley

BE IT FURTHER RESOLVED that Hancock county shall pay the expense incurred in serving a new notice of expiration for the said P. E. Walley and

BE IT FURTHER RESOLVED that Hancock county shall pay the cost of issuance of new Tax Deed upon the expiration of such period of redemption

The foregoing Resolution was offered by Supervisor Schoun who moved its adoption

The motion to adopt was seconded by Supervisor Klipping and upon roll call, all members being present, the vote was as follows: Penn Eckels, F. J. Schoun and George Klipping Aye.

WHEREUPON the Chairman declared the Resolution duly adopted.

On motion and second Board adjourns to 9 o'clock a. m. July 2, 1941.

Attest:

FRED C. MISSAL, County Auditor
PENN ECKELS, Chairman

Gift.

The horse-watering trough in use many years ago in Waukon was presented by the city council to the Waukon Cemetery association The trough will no longer be used for watering horses but will now be used as a combination bird bath and flower urn.

Concert.

A "King concert", was played by the Primghar Municipal Band last week With the exception of two popular pieces, the selection were those composed by Karl L King King, internationally famed composer and conductor, lives at Fort Dodge

Valedictory.

According to the Taft Tribune student newspaper of the Taft High Sshcol in Chicago, "the small town Iowa girl who showed up her big city sisters," was Harriet Myers Harriet received her first 3 years of high school training at Grinnell

Of Value.

An atlas recently published by the Guthrie Center papers proved of real help to a Guthrie county farmer recently After looking over the atlas he found that his farm was still listed in the name of the former owner After checking up the matter he discovered that he had failed to properly title his deed an oversight speedily corrected

A Raise.

Jack See, superintendent of the Grinnell city dump got a raise in wages last week Since the state of the European war very little scrap metal has found its way to the Grinnell dump Sale of scrap iron helped out on his salary, so the council took matters into their hands and raised his pay

Surprised.

Mel Falkenhainer and Vic Parsons helped the Fritz Pierce and Pat Jensen families to pack their car preparatory to spending a few days in Wisconsin Imagine the surprise of the families on arriving at their destination to find the families of the two who helped them get away The Falkenhainer and Parsons families left Algona the home of all parties two hours after the others

Chickens Finders.

The chickens may not have known it but it was happy day for Mrs Fedde Anderson of Lake Mill when they found a ruby set which she lost 12 years ago Feeding the chickens has been both a pastime and keeps record on for Mrs Anderson that was at this time that she lost and found the set

Return Engagement.

Fred Hill Osceola was returned to his home after having a cast removed from his right leg, broken in an auto accident three months previously when the left leg was fractured in another auto crash

Fish Food

The best of fishing tackle and duck equipment—including a folding chair on which to rest while waiting for the crafty fish to come to his hook—didn't save C P Todd of Bancroft from getting a ducking the other night His hook was baited and in the water his folding chair unfolded and Todd was all set for a quiet evening of fishing until—the chair collapsed dumping him backwards into Spirit Lake.

Summoned.

Floyd Newville, Algona constable, and Walt Steward, Burt constable were at the wrong end of the receiving line when the sheriff at Cresco served warrants for their arrest The charge of larceny was dismissed however when everything was explained Newville and Steward had served papers for repossession of a car on someone in Cresco and returned the car to Algona However someone at Cresco got things balled-up and the warrants were issued Meanwhile, the fellow who had bought the car paid the claim and the car went back to Cresco

On U. S. Highway No. 69

Former Alabama Capital Is Now a 'Ghost Town'

Speeding tourists crossing a high steel bridge over the Alabama river on the highway that cuts through that state, slow down to admire the brilliant cascade of green foliage which in season covers the massive eastern bluff. Then they speed on, little realizing that on this bluff was once situated Claiborne, a picturesque and flourishing city, the unofficial capital of Alabama in its prime.

There Chief William Weatherford, whose Creek Indians slaughtered the whites at Fort Mims in America's greatest massacre in 1813, leaped for his life with Gen. Andrew Jackson close on his heels, according to a writer in the Birmingham News-Age-Herald. There the cotton crop of a vast area in southwest Alabama was tumbled down the bluff to wait boats which took the bales to Mobile. There Pioneer Sam Dale often visited and General LaFayette was feted.

But passing years, the yellow fever and the coming of the railroads spelled Claiborne's doom. Today Claiborne is a forest, a few small farms and buildings, historic graveyards. But even as a ghost it is still an incorporated Alabama municipality. The tourist zooms by without seeing the beautiful Dellett mansion, sole remainder of many fine houses built when Claiborne was bustling. Fires and decay have gotten the rest.

Apples for Menu

An "apple a day may keep the doctor away"—but "an apple a day is also the healthy way." At least, that's what nutritionists at the University of Nebraska college of agriculture say in pointing out some of the uses of the fruit. Not only are apples good to look at, good to eat but they are "good for you." As a breakfast fruit, apples may be served raw, baked, or as apple sauce. For dinner, apple sauce with roast pork and apple stuffing with roast goose cuts the richness of the meat and poultry and is nutritionally correct. A truly delicious meat dish may be prepared by browning a thick slice of ham on both sides and covering with a thick layer of sliced apples. Cover the apples with a layer of bread dressing and bake in a moderate oven for about one hour. Hot apple pie with grated cheese on the crust may be varied by using a graham cracker crust with apple sauce filling topped with whipped cream.

Shingled Home Exterior

For those who like a white house with a shingled exterior finish, there is on the market an edge-grain shingle that comes ready-stained with a white primer coat and is free from all defects. To bring out the fine texture of the shingle, a second coat that is midway between a stain and a paint should be applied. This also will avoid the thick "painty" look often observed on many finished homes. If you are building the popular Cape Cod design, a gray weathered look is attractive. Old houses along the seashore weather to an attractive shade of silver gray. Modern weathering stains accomplish in six months what nature takes years to do, allowing the home builder today to choose his preference. Shingles for either the roof or siding of any home come treated with preservative stains in solid and pastel colors permitting great liberality in the owner's selection.

Weight Loss in Hibernation

When an animal awakens from a long hibernation, it may have lost 30 or 40 per cent of its weight, for it has used its stored-up fat during the long winter sleep, and is weak and inactive. After it begins to eat, it quickly regains both strength and weight.

Apple Blossoms.

Lawrence Hoover, Belle Plaine, believes he is really giving his neighbors a treat when he shows them branches of one of the Harvest appel trees containing both apples and blossoms It is unusual for both to be growing on the same branch, although apple trees often bloom during warm weather in the fall

Suspended.

Carl Smith, Hamburg, knows what it is to be suspended in midair and not be able to do much about it. Smith did not notice that a road fill had been washed out and ran into the hole with his car, suspending himself over a 16 foot ditch by the bumpers. Carl was bruised The car was damaged so that he could not get out, but the horn still worked He was rescued by neighbors

Funeral Services Thursday For Goodell Man

Rites for Albert Millard, 64 will be held at the U B Church at Goodell on Thursday afternoon at 2 00 o'clock in charge of the Wellemeyer Funeral Service of Klemme. The sermon will be delivered by Rev. Harold R. Knight, pastor

Mr Millard, who died July 1st, moved to Goodell with his family this spring

Burial will be at Shelby, Iowa. The casket bearers are M Graber, Albert Wilkins, L. W. Wesenberg, Owen Conwell, V A. Cook and Kenneth Johnson, all of Goodell. Following is the obituary of Mr. Millard·

OBITUARY

Albert Shepardson Millard was born Oct. 6 1876 on a farm near Livingston, Wis., the 3rd of a family of five children born to his parents Myron Millard and Terena Iverson.

When Albert was 8 years old he moved to a farm near Mason City with his parents and completed his common school education and grew to manhood there.

At the age of 22, on Oct. 2, 1898, Albert Millard and Maud Norman were married and began housekeeping on a farm near Mason City. Four years later they moved to Crookston, Minn, where they farmed many years.

To this union 11 children were born: Chester, Hanlontown; Florence, died in 1928; Percy at Gowrie; Harold, Garner; Kenneth and Cecil, Mason City; Lois (Mrs. Harold Long) of Mason City; Keith, Aberdeen, S. D.; Rachael (Mrs. Schwiesow) Aberdeen; Raymond who is at home, and Russel, died in 1935.

After Albert and Maud Millard had traveled life's highway together for 31 years, the home circle was broken by her death on Oct. 22, 1929 at Shelby, Iowa, where the family had been living for several years

On May 17, 1931, Albert Millard, a widower, married Augusta Vanatta Shephard, a widow with five children Opal Bisterfelt, Cedar Falls, Mildred Williams, Waterloo, Mabel Collins, Shenandoah Elden and Glen Shephard at Goodell, Iowa This large combined family farmed for 7 years at Westport, South Dakota There two children were born Ruby now 9 years old, and Dean now 6 years old.

About 4 years ago the Millard family moved back to Iowa and farmed near Mason City and this spring the family moved to Goodell because of Mr Millard's failing health.

Here, early on the morning of July 1st, the story of Albert Millard's life was brought to a close by heart failure He reached the age of 64 years, 8 months and 24 days. He was a member of the Methodist Church since his childhood and believed in schools and churches and loved his home and family and was well thought of in the communities where he lived.

He leaves besides his wife and children two sisters, Mrs. George Long, Mason City, Iowa; Mrs. John Henselman, Minneapolis, Minn; one brother Arthur Millard, West Port, South Dakota; 16 grand children; 7 step grand children, and other more distant relatives and friends.

DAISY FLY KILLER

Outlook Is Virtue

One's outlook is a part of his tue.—Amos Bronson Alcott.

Watch Your Kidneys.
Help Them Cleanse the Blood of Harmful Body Waste
Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.
Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength.
Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.
There should be no doubt that prompt treatment is wiser than neglect. Use *Doan's Pills*. *Doan's* have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. *Ask your neighbor!*

THE NEW BUNKER HILLS

("We must be realistic about that word 'attack.' It can begin anywhere in the western hemisphere. If you wait to shoot until you see the whites of their eyes as at Bunker Hill you will never know what hit you."—President Roosevelt.)

Bunker Hill may be in Iceland—
  Boston may be far at sea,
Concord Bridge may be a structure
  Beyond visibility;
Distance in this war is shrinking
  And it quite disturbs our sleep
To regard the North Church belfry
  As upon the briny deep.

II

Paul Revere once watched for lanterns
  From a famous Charlestown shore—
But he now needs long-range glasses
  That will take in Labrador;
He must watch a lot of steeples
  On some Arctic stretch of land
And must look for signals flashing
  From some Indian coral strand.

III

Now "the muffled oars" must cover
  Lots of distance, wild and rough,
And the epic Charlestown rowboat
  Must do ocean-going stuff,
Paul was once a local rider—
  And we owe a lot to him,
But he now must get around more—
  And must teach his horse to swim!

IV

Now he stands beside his saddle
  And he wonders what to do
As he keeps an eye on Dakar
  Trinidad and Suez, too,
As he watches for new doings
  With that classic "eagle search,"
He may catch a warning glimmer
  From a Madagascar church.

V

Mystic once was in New England,
  But who thinks it there today?
Medford cocks now crow in Iceland
  Or perhaps in Baffin Bay;
It was one o'clock, they tell us,
  When Paul got to Lexington . . .
But the journey was a land trip—
  And was not an ocean run.

VI

It was two o'clock at Concord—
  Then a Massachusetts place—
Not a village in the Azores
  Or a borough near Cape Race;
Then the flocks that Paul heard bleating
  Were all flocks quite close at hand
Never flocks in far-off Narvik
  Or some spot off Newfoundland.

VII

Middlesex was then non-shifting,
  Not transferable each week;
It was not in midatlantic
  And 'twas not in Martinique!
Distance isn't what it once was—
  Now our shores, so we hear,
Can be somewhere close to China,
  Crete, Suez or Finisterc.

L'ENVOI

So to wait to "see the whites of"
  Hostile eyes brands you a dope—
Unless you are tensely squinting
  Through a big Lick telescope;
So we give Revere the curtain
  As a far out-dated lad
And we shoot his horse quite blithely—
  But it leaves us pretty sad!

* * *

The trouble is that too many Americans think of an unlimited emergency as meaning tire trouble during a week-end auto trip, a slight traffic congestion on the way to the bathing beach or a shortage of auto parking space for the hired hands.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Dean of The Moody Bible Institute of Chicago.
(Released by Western Newspaper Union.)

Lesson for July 6

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

THE GOSPEL IS TAKEN INTO EUROPE

LESSON TEXT—Acts 16 6-15
GOLDEN TEXT—Come over into Macedonia and help us.—Acts 16.9

America is coming to the fore in the thinking of a confused world as the final hope of democracy and religious freedom. Europe, or at least most of Europe, represents in our thinking dictatorship, a totalitarian disregard for the personal rights of man, including his freedom to worship God according to the dictates of his own conscience.

It is therefore very appropriate that on this "Fourth of July" Sunday, when patriotism has been much in our thoughts, that we remind ourselves in the study of our Sunday school lesson that the roots of American life, both cultural and religious, reach back into the European soil on which our forefathers dwelt. Much of that which we as Christians count precious has come to us because Paul, the missionary, was responsive to the leading of the Holy Spirit and carried the gospel into the heathendom of Europe, from whence, in due time, it came to our own land.

It was a crucial point in the history of Christianity; yes, and of the world, when the gospel came to Europe.

I. By Providential Hindrance (vv. 6-8)

Not only are "the steps of a good man ordered by the Lord" (Ps. 37:-23), but his stops as well. That is not an easy lesson to learn. Let us remember that we may be as much in the will of the Lord when all our efforts are thwarted as when they prosper.

Paul had set out on a second journey to carry out a follow-up campaign in the cities where he had already preached. This was a good plan and had God's blessing (see v. 5). But soon we find that word "forbidden" (v. 6) and then "suffered not" (v. 7). The Holy Spirit began to close doors to the gospel preacher. Now what? Shall he go on in determined self-will? Or shall he become discouraged and embittered in his soul? No, let him wait, for God is guiding him by providential hindrance, which is soon to be followed

II. By Divine Guidance (vv. 9, 10).

The Spirit spoke to Paul in a vision, revealing the divine purpose that the gospel should go over into Macedonia. The Spirit leads in our day, possibly not by visions, but by impelling inward prompting complemented and checked by the teaching of Scripture and by providential circumstances, and thus a man may know what is the will of God for him.

A word of caution is needed at this point. Some earnest Christian people go astray by projecting their own desires and purposes into the place where they seem to be the will of God, and thus do themselves and others, and Christianity itself, much harm. The three things should agree—(1) the inner prompting of the Spirit, (2) the teaching of God's Word, and (3) God's hand in our outward circumstances.

If these three do not agree, the Christian does well to wait, prayerfully, expectantly, for the Lord's further guidance.

III. Through a Faithful Witness (vv. 11-14a).

The gospel came to Europe because Paul and his fellow workers were faithful to their calling. When God led, they went to Macedonia (vv. 11, 12), where they sought out those who were in the place of prayer (v. 13). Paul spoke to them about Christ (v. 14). There he met the man of Macedonia who turned out to be a woman. For some reason the men were absent from the place of prayer on that all-important Sabbath morning. They were undoubtedly the ancient counterpart of our present day men who are "brothers-in-law" to the church, these foolish men who seem to assume that a bit of "religion" second hand through the wife or children will suffice.

IV. Through a Receptive Heart (vv. 14b-15).

God sent an obedient messenger to the place where He had a prepared heart. Lydia was a woman of distinction, business ability, and high moral character. But she knew, and Paul knew, that even good people need to be saved. We do well to keep that fact before us.

Paul spoke the truth of God, who opened Lydia's heart. Observe that she not only received the Word of God into her own heart, but at once gave herself to the task of passing it on. The first thing she could do was to give aid and comfort to the messenger of the truth, and she did that at once. Be assured that from that day on she did all she could to prosper the gospel on its way through Europe and to the ends of the earth. Have we done likewise?

PATTERNS
SEWING CIRCLE

THE popular shirtwaist style in a tried and true pattern, designed especially for the larger figure. The eight-piece skirt contributes a slimming, graceful line. The shirtwaist top has ample fullness, let in with darts at the shoulder yoke and waistline. The notched collar, cuffed sleeves and double pockets are the tailored details which give Pattern No. 1381-B the smartness typical of the favorite shirtwaist styling.

* * *

Barbara Bell Pattern No. 1381-B is in sizes 34, 36, 38, 40, 42 ,44, 46 and 48. Size 36 requires 4⅞ yards 35-inch material. A detailed sew chart gives full directions for cutting and making. Send your order to.

Ask Me Another
A General Quiz

1. How many times has the National league pennant gone to the New York Giants?
2. In old romances, the lady called Griselda is proverbial for her what?
3. Where was the ancient country called Mauritania?
4. What are the capital sins?
5. Brian Boru was the king and hero of what people?
6. What is the highest temperature ever recorded by the weather bureau in the United States?
7. What was the cost of sending mail across the continent by pony express?

The Answers

1. Fifteen times.
2. Griselda was proverbial for her patience.
3. Northern Africa (modern Morocco and part of Algeria).
4. According to St. Thomas Aquinas, the seven capital sins are vainglory, avarice, gluttony, lust, sloth, envy and anger.
5. Brian Boru was king and hero of the Irish (1002-14).
6. A temperature of 134 degrees at Greenland ranch, Death Valley, Calif., on July 10, 1913.
7. The pony express, inaugurated in the spring of 1860, first charged $5.00 for each letter of one-half ounce or less. This price was in addition to the regular United States postage.

Newfoundland Self-Ruled

Newfoundland is a self-governing dominion in the British empire, and is not a part of the dominion of Canada by geographical or political bonds. Provision was made for the admission of Newfoundland into the federation of the dominion of Canada in 1867, but it has never taken advantage of the privilege.

It was discovered by John Cabot in 1497, and is, by virtue of this discovery, the oldest British owned colony. It received the appointment of its first governor general in 1728, while Canada was still a French possession.

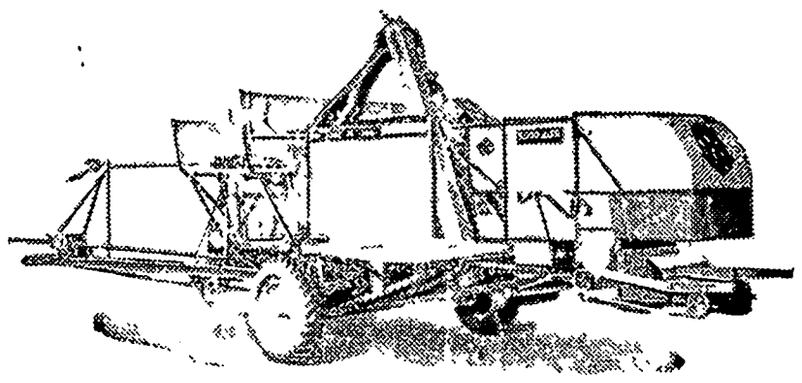
MASTER of ALL CROPS



McCormick-Deering No 61 Harvester-Thresher equipped with bagging and straw spreading attachments.

McCORMICK-DEERING 6-foot No. 61 Combine

Think what it means to have a combine that will handle all threshable crops, from grains and large beans to tiny grass seeds The 6-ft McCormick-Deering No. 61 Harvester-Thresher is that kind of a combine.

An important feature of the No. 61 is the ease and simplicity with which changes in cylinder speeds, sieve equipment, and other necessary modifications can be made to handle all these crops. All necessary change over parts have been kept to a minimum and are standardized wherever possible. . . . Come in and see us about what equipment, if any, you will need for harvesting special crops with the No. 61.

Some of the Crops You Can Thresh with the No. 61

Alfalfa	Lettuce
Barley	Millet
Beans (navy, lima, kidney, pinto, etc.)	Mustard
Buckwheat	Oats
Carrots	Parsnip
Clovers (all kinds)	Peas
Crotolaria	Radish

SEVENTY-NINE YOUTHS IN HANCOCK REGISTERED FOR DRAFT

There were 79 boys in Hancock County who had reached their 21st birthday since Oct. 16, 1940 and up to July 1, 1941, who registered for the draft at two places in the county last week Tuesday. Of this number 33 registered at the Court House in Garner, while 46 registered at the Hancock County Draft Board office in Britt

No time has yet been set when the numbers of the new draft list will be drawn and classified.

On October 16, 1940 1835 in this county registered for selective service, and with the 79 who registered last week, brings the total in the county to 1914 men subject to selective service and classification.

Taxpayers Urged To Voice Their Views At Budget Hearings

Every Taxpayer Is Directly Interested In At Least Three Hearings Scheduled During Thirty-five Days

Every county, city, town and school district in Iowa is required to hold a hearing between July 1 and August 15 on their budgets for the next fiscal year.

Every citizen owes it to himself as well as to his elected officials to take an interest in these estimates of expenditures to be made because it is these budgets that will fix your tax rates for 1942 It is reasonable to assume that those who are going to receive this money are already actively and legitimately interested in maintaining and where possible increasing the available funds If these who are going to PAY the bill make no objection nor show any interest, public officials have the right to assume that the taxpayers are favorable to the proposed expenditures.

You should either plan to attend your school, city and county budget hearings or check in advance with the proper officials of each unit and find out what, if any, increases are being planned.

Iowa is one of only two states of the union where the taxpayer can, if he so desires, have an equal voice with the governing bodies of each taxing district in deciding for what and how much expenditures shall be authorized

If you cannot agree upon the reasonableness of the figures you have the right to appeal the budget without any cost to yourself provided at least three taxpayers object to its approval at the time of the hearing It is not necessary that this objection be in writing but you should see to it that the clerk of the meeting enters upon the record the names of those taxpayers who are opposed to adoption

You then have until the first Tuesday in September to file with your county auditor written notice of protest setting out to what items and for what reasons objections are made This need not be in formal terms but should give reasonable details.

After due notice a hearing will be held in your county and the State Board of Appeal has the final right to approve, reduce or eliminate items in dispute but not to increase them

Local taxes should NOT BE INCREASED except under very unusual conditions at this time when all our resources are certain to be heavily taxed for defense purposes.. This is your individual responsibility and should not be left to your officials.

TROMBONES WILL BE FEATURED IN CONCERT HERE SATURDAY NIGHT

A variety of good music will be played by the Klemme Band at the Saturday night concert.

The trombone section will be featured in a novelty number, "Trombone Toboggan," by Weber Betty Etchen and Phyllis Klotzbach, regular band members, will be assisted by Elsie Ward, who is home from the University of Iowa, in playing the novelty selection

Mr Dillon, director of music in the Goodell Schools, acted as guest director of the band last Saturday night.

Following is the program as outlined by Bernard Onerheim, band director·

LEVEL OF CLEAR LAKE UP TO RECORD HEIGHT

Measurements taken recently at Clear Lake shows that the level now stands at 5.64 inches above the top of the weir at the outlet. In other words, the stream of water flowing from the lake is approximately 6 inches in depth and makes a fair sized creek flowing through the outlet, the first time in many years.

Heavy rains in June raised the level of the lake considerable. Between June 27 and 30 the lake rose 1.2 inches. Since June 2 the increase has been 4.8 inches.

The lake level is now 2 feet, 6.6 inches higher than it was on July 25, 1940.

SHINY

Billy Calvert, Norton's Corners, doesn't know whether it is worth the trouble to shine his car or not. Last week after he had cleaned and polished it, a turkey gobbler so enraged at his own image reflected in the side that the car was soon scratched and dented.

New Ruling Defers Men Who Are 28 Years Old

NAVY BOOKLETS

Young men interested in obtaining information about one of the most colorful phases of Service, the United States Navy, may receive a booklet, "Everything You Want to Know About the U. S. Navy," by writing or calling The Navy Editor, Klemme Times. This booklet answers all major questions which may arise in the mind of the prospect. The booklet is free.

TIMES SELCTED TO CARRY NAVY ADVERTISING

Secretary of the Navy Frank Knox has announced that an advertising firm has been selected to assist the recruiting service in a test advertising campaign in a number of weekly newspapers in the states of Iowa, Indiana and Missouri. This will be the first commercial advertising campaign ever carried on by the United States Navy.

The Klemme Times was selected as one of the Iowa weeklies to carry the Navy advertising.

KLEMME GIRL DESCRIBES TRIP THRU BLACK HILLS

Miss Novella Bredbenner returned last Tuesday night from a trip through the Black Hills. For a week Novella was at Sylvan Lake with 180 other Kappa Phi girls attending the national Kappa Phi convention there. Methodist college girls and alumnae from almost all parts of the United States were represented at this 25th anniversary convention.

During one day of the convention the girls toured the Black Hills in open top buses They visited Mt. Rushmore where the faces of four presidents are carved, and while they were there, Lincoln Borghum, the late sculptor's son, told them about the work on Mt. Rushmore. They also visited the State Game Lodge, which was the 1927 summer "White House" of President Coolidge. They drove up Mt. Coolidge, Iron Mountain, and through the Needles Drive.

After the convention closed Novella and Doris Bernd of Manson, Iowa, went on to Deadwood, S. D., and visited that historic town where Calamity Jane, Poker Alice, Deadwood Dick, Bill Hickok and other early western characters lived.

They then went to Spearfish to see the Black Hills Passion Play which was beautifully presented in the out-door amphitheatre to an audience of over four thousand.

They also stopped at Lead and went through the Homestake gold mine, the largest gold mine in the United States, and at Rapid City to see the collection of rocks and fossils of the Bad Lands that are in the museum of the School of Mines.

FORMER KLEMME TEACHER MARRIED JULY THIRD

Announcements have been received in Klemme of the marriage of Miss Ruby Greiner and Everett C. Nail. The ceremony took place at the Church of Christ at Webster City, July 3rd at 8·00 P. M.

The bride, a former Klemme home economics teacher, has been a County Demonstration Worker with headquarters at Cherokee the past two years.

The couple will reside in Forest City.

CARD OF THANKS

We wish to thank all who assisted us in our recent bereavement, and thanking those who contributed flowers and gave us words of sympathy and encouragement.

Mr. and Mrs. Eddie Medaus and Children
Mrs. Emma Medaus and Helen
Mrs. Fred Sathoff
Mrs. John Heginger.

INCREASES LIKELIHOOD FOR EARLY CALL OF NEW REGISTRANTS

WASHINGTON Selective service narrowed its limits Wednesday with the blanket deferment of all men 28 years of age or older not now in training.

The effect of the order was to make only those from 21 thru 27 liable to a year's duty with the army in the future, and it increased the likelihood of an early call for many of the 750,000 young men who registered last week Tuesday.

The blanket deferment order was issued late Tuesday as local boards throughout the country were conducting the enrollment of the men who have reached 21 since the first registration last October. This second enrollment went off smoothly and apparently without major incident

Brigadier General Lewis B. Hershey, deputy selective service director, who issued the instructions, said he acted at the request of congressional leaders in anticipation of final congressional approval of legislation which would have the same effect.

The order affects approximately 8,000,000 men between the ages of 28 and 36, or almost half of the 16,500,000 who signed up last October when all men between 21 and 36 were required to register.

Although the original rolls were cut almost in two, authorities said that there would be no comparable reduction in the number of potential trainees.

Some, indeed, thought that the 750,000 new registrants probably would provide about the same number of militarily qualified men as could be found among the millions newly deferred. Furthermore, it was said, the youth of the new registrants made them better reserve material for the future after their year's training.

Hershey's formal order went to state selective service directors. who were instructed to advise all local boards immediately.

FINAL SEALED CORN CHECK COMPLTETED BY TRIPLE A

Hancock County AAA officials have just completed a final check on sealed shelled corn and have sent warning letters to all owners of sealed corn warning them of moisture danger and outlining the procedure to follow in caring for the corn. Considerable 1940 corn has not been stored and most of the stored corn which is causing AAA officials some worry is of the 1939 and prior years.

PURCHASE FARMS THE PAST WEEK

Ben Ridder and Walter Ridden, brothers, who have been farming the Erick Josten place in Liberty township, have both purchased a farm and will move in the spring

Ben has purchased the farm on which Walter Bredlow lives, while Walter purchased a farm north of Forest City.

Mrs. Cutshall and family, who live near Des Moines, but who had farmed east of Klemme for several years, will move to the Erick Josten farm where the Ridder brothers now reside.

WILSON'S REMODELING THEIR HOME

Mr. and Mrs. P. M. Wilson have purchased the drug store building and have already began to remodel.

The apartment at the rear of the store will be changed completely and modernized. Their living quarters will all be on the ground floor and the upstairs rooms will be used for storage.

Later Mr. Wilson will do some remodeling in the store.

Nation's Farmers Study New Plans to Improve Economic and Social Welfare

By FRANK GEORGE
(Released by Western Newspaper Union.)

THE place is Caswell County, North Carolina. Or Ross County, Ohio. Or Adair County, Iowa. Or any one of fifteen hundred other counties where land use planning is under way. Coming up from the people on the land in more than seven thousand communities are recommendations for improving physical, economic, and social conditions—beginning at the grass roots and working up through county, state and national research and action agencies.

Land use planning this new development is called, and it means just that, as farmers all over the nation are actively engaged in planning the use of land in relation to their economic and social well being. Co-operating in this work are the agricultural colleges and the various research and action agencies of the federal department of agriculture.

A few years ago the idea that farmers themselves should take such an active part in the development of agricultural programs was philosophy. Today farmers the country over are critically studying problems such as soil erosion, rural zoning, tax delinquency, farm tenancy and the like. Local agricultural programs dealing with these and related subjects are being made a part of county and state programs, and ultimately will be woven into the fabric of national agricultural conservation and adjustment.

Look in upon a typical community meeting of farmers and multiply this scene by the more than 7,000 communities where land use planning is under way. Spread out on the tables are maps, charts and reports showing how the land is being used, the way in which it has been abused, and the things needed to rehabilitate it and the people who live upon it. Areas of badly eroded land are marked off, woodlands in good condition and bad are plotted, the existence or lack of schools, hospitals, and community centers is designated.

County Committees.

Recommendations for corrective action are drawn for the consideration of county planning committees which include besides farmers the representatives of public agencies of all kinds. Recommendations are discussed, some of them laid aside for later consideration, some of them amplified and scheduled for immediate action. County programs are drawn up to include the needs of the various local communities for consideration and action by state planning committees. State programs later are submitted for federal action at Washington.

Caswell county—once the richest in North Carolina, now one of the poorest—is an example of land use planning to improve a difficult agricultural situation. Caswell is a typical "one-crop" part of the South faced with lost export markets, its soils seriously depleted. Sheep used to graze on the lawns of the plantation homes, blooded horses were in the paddocks, meat cattle and milk cows in the pastures, pigs enough to supply all the hog meat and fat needed in the county, game in the woods, fish in the streams.

Above—A committee visits the scene of a local farm problem. At right — Farmers and committee meet in the town hall to discuss further plans and action. With first-hand information, they chart the solution of many vexing problems.

Today, approximately two-thirds of the farm operators in Caswell county are tenants, most of them sharecroppers, trying to eke out a living on badly eroded land.

Caswell's "one crop" has been tobacco. After 76 years with this crop as virtually the only source of cash income, the farmers found themselves with a system of farming unable to withstand the shocks caused by depleted soil resources and fluctuating markets. The land use planning committees took hold, and now a better system of farming has been developed. The program calls for increased use of cover crops, the use of better farming equipment, greater use of lime and phosphate, the development of more home gardens, the use of more dairy cattle, land drainage, and erosion control.

Farm Loans.

Half a dozen or more public agencies are co-operating to put Caswell once more on the economic map. Through agricultural adjustment programs the farmers are being paid to conserve the land, to become more self-sufficient as to food supplies. Loans are made by the Farm Security administration through its tenant-purchase program to enable a limited number of responsible tenants to acquire farms of their own, and to equip these farms with modern implements. Modern housing and improved sanitation are being provided.

A few years from now, Caswell county will be very different—physically, economically, socially—from what it was in the dark days of the early 1930s. Already, striking changes have been wrought. The people on the land as well as the land itself are being rehabilitated. The people have rekindled hope in their hearts, they are playing an important part contributing to the welfare of the state and the nation.

There are many other examples of improvement the country over. Ward county, North Dakota, is one of co-operation in developing a long-range program to improve difficult and adverse conditions. Located in the central portion of the northern spring wheat area, Ward county has suffered from drouth and from too great a reliance upon wheat as a single cash crop. This situation of a type of farming not entirely fitted to local conditions, together with high costs for public service in relation to a limited tax base, inequitable distribution of the tax burden, heavy tax delinquency, and a high proportion of tenancy were among the major problems which planning committees recognized.

Feed Reserves.

The planning committees in Ward county concluded it was desirable to shift to a more diversified type of farming through expanding the livestock enterprises, building up feed reserves, and a "live at home" type of farming. The farmers are building up livestock herds through natural increase rather than by purchases of additional animals. A program of building up feed reserves against possible drouths in the future is being followed. A tenant-purchase program is under way. The school system is being modernized. Local taxing authorities are trying to adjust tax systems according to the productive capacity of the land.

As a first step in dealing with the tax delinquency problem, the land use planning committee recommended to the county commissioners a plan of impounding rents on tax-delinquent lands. Approximately 500 legal actions were instituted in pursuance of this program, and the county is now collecting rentals on many additional items of real estate. Longer term leases better adapted to conditions in the different land use areas of the county are being made. Problems created by competition between small operators and the larger ones for available farm land are being attacked. Tax-forfeited lands are to be developed as open public recreation areas.

Posthumous Award

The late John Rivenburg, 17-year-old Boy Scout of Creston, Iowa, has been posthumously awarded the first prize of $200 in a nationally conducted Girl Scout Song contest which recently closed. Young Rivenburg, a Scout of Eagle rank, died last December after an operation. He was the son of Dr. and Mrs. L. D. Rivenburg of Creston. His song, entitled "Scouts Are We," is a marching tune. Judges in the contest were Olin Downes, music critic of the New York Times; Sigmund Spaeth, radio's "tune detective," and Hugh Ross, director of the Schola Cantorum of New York. Mrs. Arthur O. Choate, honorary vice president of the Girl Scouts, sponsored the contest.

Madame Mayor

DOVER, N. C.—Down comes the curtain on woman rule in Dover! Today four ladies leave the stage of public life after a successful two-year run. The men are resuming command without opposition, just as the helm was turned over to the ladies at the last town election.

A little tired, they point with pride to: A new $16,000 gymnasium, a lunch room for the school, a much needed drainage project begun, employment for women in a WPA mattress project, main streets improved through aid obtained from the state highway commission, and a treasurer's report "all accounts paid."

Mrs. Anna Dixon Wilson of Dover, N. C., who retires as head of the town, beams with pride at her achievements of the past two years. The town now has many new streets, a new gymnasium, a new factory and a balanced budget.

Playing the leading role—that of mayor and judge—has been Anna Dixon Wilson, a buoyant grandmother. The neighborhood vouches for her good old Southern cooking, her flower culture, her business acumen, and her success as an insurance agent. With wisdom and great dispatch, she can hold court, then rush home to supervise its remodeling, and then back again to the business of running her town of 400.

"It's been a grand experience," she beamed. "We've had our ups and downs, but I've enjoyed it, and I do think we've accomplished something, although we don't take all the credit."

Essential to the success of Dover's feminine government (they detest "petticoat rule," even in jest) was Mrs. Sarah Griffin, the persistent tax collector.

"And a good one!" chimed in Mayor Anna Wilson.

"I'm just a family woman, but when they made me tax collector, I decided then and there we'd get those taxes collected," said Mrs. Griffin, speaking for herself. And she did, for the books she is turning over show all current and inherited bills have been paid and there's even a little in the treasury.

Suggests Plans to Avert Shortage of Manganese

NEW YORK.—To avert a shortage of our No. 1 strategic material—manganese—a three-point program to encourage domestic and hemisphere production has been laid down in an article in the current issue of the magazine Chemical Industries.

The United States has relied chiefly on distant sources overseas, Langbourne M. Williams Jr., the author, points out. As president of the Cuban - American Manganese corporation, which has succeeded in developing a nearby source, he has spent many years studying the problem. His article is one of the magazine's series by authorities on our strategic materials situation.

"Shipments from Russia, which for years has been our leading source of ferro-grade manganese ore, have been brought to an end by conditions prevailing in Europe," he stated.

Washington, D. C.

NEW LEND-LEASE SUM

The new lend-lease appropriation that has been tentatively agreed on by inner advisers is $5,000,000,000.

With the $7,000,000,000 voted by congress several months ago, this would make a total of $12,000,000,000 for aid to the democracies. Yet this stupendous sum is still considerably short of what was originally proposed, also of what probably will be ultimately required.

It's a White House secret, but the first lend-lease program submitted added up to $19,000,000,000. This was slashed to $9,000,000,000 by the army and navy and then still further cut to $7,000,000,000 by the budget bureau. The last figure was approved by the President and sent to congress.

One reason for the new appropriation is that many of the original price estimates have been found to be far too low, particularly in the case of planes, ships and guns. Rising costs, due to changes in construction, more expensive new models, and increased production charges, made it impossible to contract for these items at the original estimates; and more money is needed to fulfill the program.

Another reason for the lend-lease boost is heavy outlays for repairs on battle-damaged British warships, of which a number are now in U. S. yards. This type of aid is running into big money.

Most important, however, is the urgent need for expansion of the whole aid-democracies program. Britain, China and the other Axis foes require increased assistance to meet the greatly enlarged resources of the Nazis brought by their conquest of Europe.

Today they must stand off not only the industrial power of Germany, but also that of France, Belgium, Holland, Rumania, Hungary, and other Nazi victims. So if Britain is to continue fighting she must secure much more help from the United States. Without such aid she will quickly be overwhelmed.

Red Tape-itis.

While most of the $7,000,000,000 lend-lease money has been allocated, some $500,000,000 earmarked for new armaments plants is still lying around idle. And close to $4,000,000,000 of other defense appropriations for new plants also is twiddling its thumbs while army supply brasshats and OPM chiefs, enmeshed in coils of red tape, are stalling around.

It takes from 8 to 15 months to erect these plants, so this delay in getting construction started means a serious crimp in the defense program.

Chiefly to blame are army supply brasshats, who are inadequate to handle the colossal task thrust on them, but so jealous of their bureaucratic powers that they won't let anyone else tackle it. OPM heads are champing at the precious time being wasted, but lack authority to override the army and haven't the gumption to raise a row.

* * *

WILL DAVIS

The country doesn't like strikes any more than it likes war, but the war has brought out many men of stature, and the strikes have brought out William H. Davis, new chairman of the National Defense Mediation board.

Actually Davis is no "war baby," but a veteran who has been working at labor mediation for many years. Still it was settlement of the Allis-Chalmers strike that first won him national attention.

By profession Davis is a patent lawyer, with offices in New York city. On the very next day after the Allis-Chalmers triumph, he appeared before the U. S. Supreme court, his hair no more unruly than usual, to argue a patent case. He makes his living from big-money firms, but he has a strong liberal viewpoint toward labor.

When a committee of congress asked him what he thought of a bill to outlaw strikes, he said, "When you pass compulsory legislation, you make the working man a slave, and there is no use producing defense materials for a nation of slaves."

There are a lot of odd pieces in Davis' life. He was born in Bangor, Maine, schooled in Washington, D. C., is a member of New York's swanky Downtown Athletic club, a labor sympathizer, founder of the Grand Central Art galleries, father-in-law of Argentine diplomat Alonzo Irigoyen, and careless with his clothes.

One phrase-maker says Davis has "the face of a kindly bulldog." Another "the face of a tired trombone player." Not many faces would answer to that. Davis is easy to spot in a crowd.

* * *

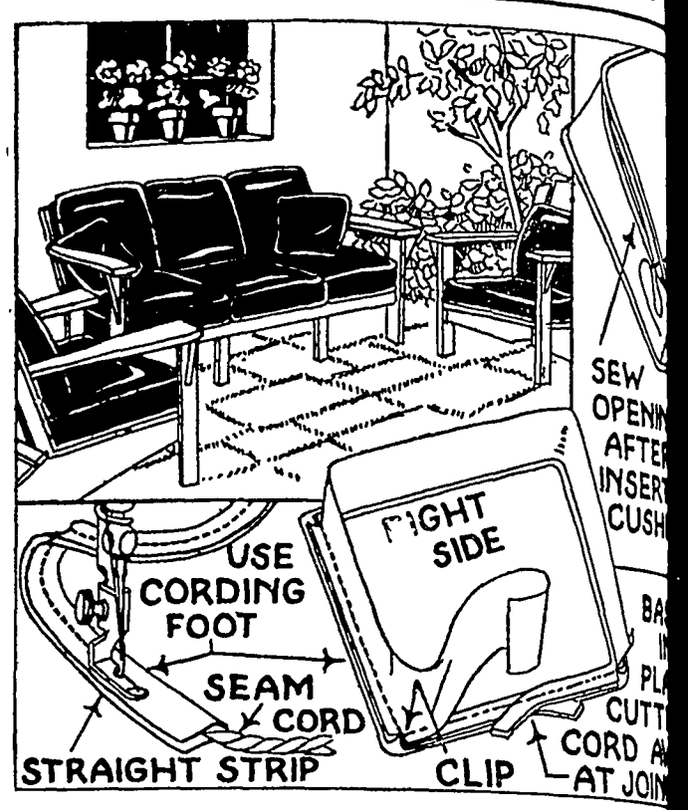
MERRY-GO-ROUND

¶ Employees of the British Purchasing mission leaving the elevator at their offices are confronted with this sign: "The existence of the British Empire depends on YOUR effort. Chins up—There Will Always Be an England."

¶ Since checking booths were installed at Capitol entrances, police daily turn up some fresh oddity. One day a sea captain's wife, accompanied by six wide-eyed youngsters, left a large bundle of sailors' hardtack biscuit.

NEW IDEAS for Home-makers

By RUTH WYETH SPEARS



HAVE you considered covering your out-of-door cushions with water-resistant artificial leather? It may be cut and sewn the same as any heavy fabric. The colors are all so fresh and gay that you will be inspired to try striking combinations. Use a coarse machine needle; a No. 5 hand needle; No. 20 or 24 sewing thread and regulate the machine to about 12 stitches to the inch.

The cushions shown here are green with seam cords covered in red. The sketch shows how they are made. The cotton seam cord should be about ¼-inch in diameter. It is covered with a straight strip 1¼ inches wide stitched with the machine cording foot to allow the sewing to come up close to the cord. The raw edges of the cord covering are basted around the top and bottom of the cover on the right side, as shown, and are then stitched in with the seam.

If you like variety in your ions, there is an idea for ones made of burlap stockings on page 23 of Book 5.

Dear Mom

Well, here it is another weekend and I'm not a General yet. But give me time.

The nearest village is 5 miles away. All you find there is a general store, a garage and a canning factory—nowhere to go for any good clean fun, unless you drop in at a smoke-filled juke joint on the way.

Well, Mom, there's a big favor you can do me. The U. S. O. is trying to raise $10,765,000 to run clubs for us, outside of camp. Places with lounge rooms, dance floors, games, writing rooms. Places you can get a bite to eat without paying a king's ransom.

I know you don't have an idle million lying around, but you could get the family interested some of the neighbors, and if that happened all over country, the U. S. could raise $10,765,000 overnight.

I'd appreciate it a lot, Mom, and so would every other mother's son in the U. S. Army and Navy

Love,
B

They're doing their bit for you. you do your bit for them? Send contribution to your local U Committee or to U. S. O. Nati Headquarters, Empire State B ing, New York, N. Y.

Fashion With Family Likeness Much Smarter This Summer

By CHERIE NICHOLAS

WHAT started out a season or so ago and appeared destined to become a mere passing fad has developed into a highly important established fashion this summer It is now recognized by leading fashion authorities throughout the country. The movement to which we refer is that of creating clothes alike for mother and daughter, also "sister" fashions, and brother and sister outfits, even Mr. and Mrs costumes are included in the scheme of things.

A dress-alike foursome was shown in a recent style revue where an attractive young mother and her two pretty little daughters wore square-necked dresses of delft blue linen printed in navy and white, each with an apron in turkey red, the three outfits made exactly alike. In this mother-and-child fashion group along comes tiny Junior clad in red overalls with a sailor shirt in the same print as the frocks

It is especially in the playclothes realm that costumes apparently emanating from the same family tree play up imagination to the nth degree of cunning design. What with the wealth of smart cottons and myriads of other intriguing washable weaves at command it is small wonder that designers are finding endless inspiration in devising family group fashions

It is just such delightsome ventures in creative costume design as the "like - mother - like - daughter" dress pictured in the foreground of our illustration that are causing a series of ohs and ahs. To visualize the full charm of this lovable twosome one must think in terms of poinsettia red crinkled crepe outlined with rickrack, for the frocks are fashioned of just that. With such adorable styles as these easily available this summer in smart specialty shops, shopping for play clothes becomes a pleasurable pastime

A bit dressier with more of a garden party effect are the cunning sister outfits illustrated In this instance little and big sister team in slub broadcloth (a most likable cotton fabric) of which both bonnets and dresses are made. The older little girl's frock is pale pink with printed dimity blouse. Little sister's is pale blue with blue printed blouse. Notice how cleverly the sleeveless dress waist of the dress is made detachable, via tab extensions that button on over the underblouse. This is a practical idea that mothers may want to copy when making little daughter's dresses, seeing that it is such a help in laundering to have skirt, blouse and overblouse separate.

For this fashion of mother-and-daughter together with sister playsuits that is so steadily growing in popularity, we would suggest using such smart and likable cottons as tiny or big plaids in seersucker, yarn-dyed striped pique in multicolors, chambrays in stripes or plain, denims, glazed chintz, waffle weave piques, dimities and plisse sheers in tropical flower prints, also quilted calico makes up effectively in little matching jackets to wear over summery frocks

One of the most talked-of fashions of the present season is twin slack suits with bright blazer-stripe jackets. Mother and wee daughter in these twosomes attract pleasant attention wherever they go. Be sure to add sister bathing suits to little daughters' wardrobe of vacation clothes, made of crinkled printed cottons or wool jersey. As to Mr. and Mrs they are choosing sportwear tweeds in matching checks for motoring and outing excursions.

(Released by Western Newspaper Union.)

Pigtail Calot

Provocative of a smile is this amusing and at the same time eminently practical hand crochet pigtail calot. It is crocheted of heavy cotton rug yarn that is boilfast and beautifully washable. You can get it in lovely pastels or bright South American colors Costs but a few cents for the material, and can be turned out all finished and ready to wear in a short time. Not much more than an hour to make it if you are a speedy worker. When your girl friends see yours they will all be clamoring for one like it. Get busy! This fad for the hand-crochet pigtail calot is spreading throughout the teen-age group

Gay Colored Stockings Feature Summer Wear

Enter bright colored stockings, worn with gay prints, into the summer fashion picture. The latest move is to match the color of your stockings to the leading flower in your print. The vogue has just started but its future looks promising, in that it is being tried out in summer resorts with highly satisfactory results.

Latest prints have white grounds with yellow florals or with red or cerise or some one color and the idea is to match flower, gloves and hose. Startling innovation? Yes, but it is being done in smart fashion circles.

Silhouette Transformed By New Deep Armholes

Look for a new silhouette, it has arrived. The new deep armhole effects also sleeves cut-in-one with the yoke or bodice itself is bringing about a transformation in the silhouette. The likable part of this new technique achieves a classic simplicity of line that every woman seeks. More and more fashion is reminding us of the importance of this new trend. Watch for interesting style developments scheduled for the coming months.

Border Prints

Border prints are very smart and designers are handling them in intriguing manner. The borders are used for yokes, for midriff girdle insets and the print frocks with row upon row of the border arranged in tiers are very new. Pleated skirts play with the border effectively, too. Jacket edges finished off with border print look new and attractive.

Star Dust

STAGE-SCREEN-RADIO

By VIRGINIA VALE

(Released by Western Newspaper Union.)

THE motion picture industry turned out recently to do honor to Harry Carey in celebration of his completing a year of making motion pictures—"The Shepherd of the Hills," his latest, is his 305th. He's long been one of the most beloved men in Hollywood, because he's one of the most human. Not many people at the celebration knew of one of the nicest things he ever did. The Indians who work on his ranch (he homesteaded it himself) had never seen the sea; when he learned that, some years ago, he and his wife piled them all into trucks and drove miles to show it to them!

—*—

Red Skelton was so eager to play one of the three sailors in Metro's "Panama Hattie" that he campaigned; went around with his pockets full of cigars, and whenever he met one of the executives involved he'd hand out a cigar and say "Vote for me for 'Panama Hattie.'" Then they previewed "Lady Be Good," in which Skelton's a sensation. "Panama Hattie's" producer, Arthur Freed, sent Skelton a box of cigars and a note saying, "Red, you're elected. After 'Lady Be Good' you're the one who deserves the cigars."

Red Skelton

—*—

The producer of the air's "Stepmother" serial auditioned dozens of aspirants for the role of a two-year old. Then he happened to catch Alice Sherrie Goodkin's baby imitations on the Uncle Ezra program—and she got the part.

—*—

Ray Milland and Brian Aherne are starring with Claudette Colbert in "Skylark." Milland was a boy soprano when a child in Wales—but in 12 years of acting in pictures he's never sung a note. Aherne never would sing as a child, or even a youth—and he's always having to sing before the camera. In "Skylark" he has to sing the sea chantey, "Blow the Man Down," for five minutes—and it's during a storm at sea. Well, that's Hollywood for you!

Brian Aherne

—*—

Here's RKO Radio's list of 14 new players whom they believe you'll want to keep seeing on the screen; they'll appear in 1941-42 productions: Signe Hasso, Dorothy Commingore, Ruth Warrick, Anne Hunter, Michel Morgan, Frances Neal, Ginny Simms, Joan Carroll, James Craig, Edmond O'Brien, Joseph Cotton, Dennis O'Keefe, Paul Hammond, Philip Reed. Keep track of them, if you're interested in seeing how stellar material is developed; some may hit the heights, others won't. You'll be the real judges!

—*—

Some of these players might be called stars now, of course; James Craig, who clicked as the young doctor in "Kitty Foyle," is to become a star in "Unexpected Uncle"; Edmond O'Brien had one of the four stellar roles in "Parachute Battalion." But it's the public, not the studio, that has the final word in these things; fortunes have been lost in attempts to cram "stars" down the public's throat, when the public stayed away from the resulting pictures in droves. Let's hope RKO's choice is a good one!

—*—

After you girls see Paramount's "The Parson of Panamint" you may all be wearing your hair "a la El-Drew"; that's the name the actresses in the picture gave the hairdo which Ellen Drew adapted from the one the studio found was authentic for the year 1892, in which the picture is laid. Ellen agreed to the necessary pompadour, but added a small curl right in the center of her forehead, and the style was made official for the film. Charlie Ruggles stars in the picture.

—*—

Connie Boswell, of the Bing Crosby program, has invented a new game. It's called polo tennis. Connie, who is unable to walk, worked out the idea of having the players ride large tricycles, and everybody who's played is enthusiastic about it.

—*—

ODDS AND ENDS—Bess Johnson, of radio's "The Story of Bess Johnson," has abandoned the wheel chair she's used since she broke her ankle some weeks ago . . . Rosalind Russell's relieved that the title of her new co-starring picture with Clark Gable has been changed to "They Met in Bombay"—formerly it was "Unholy Partners" . . . Soldiers from the nearby army base turned out in force for the "sneak" pre-view of Ronald Colman's latest, "My Life With Caroline," at Riverside, Calif. . . . J. Carrol Naish tacked that "J" onto his name because fans had a way of thinking he was a woman—thanks to all that make-up and costumes that he usually has to wear.

JUST GUESSING

Meanest Yet!

"I have found the meanest man at last."

"Why, what did he do?"

"He's deaf—and he never told his barber!"

Time is money, they say. But burglars prefer cash.

On Both Sides

"That girl is a regular phonograph."

"She's more—she's a two-faced record."

Cutting Remark

She was having a good old wifely nag, and hubby was losing his patience, although so far he hadn't answered a word. Perhaps that was why his wife suddenly burst out with:

"Nothing I ever say to you bears fruit!"

"It might if you pruned it a bit!" he retorted.

Quick Shift

On his way to work, he stopped and turned against the wind to light his pipe.

He walked on, and soon, somewhat to his surprise, found he was home again.

"My!" he exclaimed, knocking out his pipe, "this day went fast."

J. Fuller Pep

By JERRY LINK

My wife says: "Fuller, if you don't quit eatin' Kellogg's Pep we're agoin' to hitch an anchor to you to keep you from flyin' over the neighbors' fences."

Which is a dern exaggeration because you have to get *all* your vitamins to feel as good as I do. And Pep has only the two that are least plentiful in ordinary meals—vitamins B_1 and D.*

PEP's a goshamighty fine cereal, though, that lots of people eat just for its taste Why not try it?

Kellogg's PEP

**Per serving: 1/2 the daily need of D; 4/5 to 1/5 the minimum daily need of B_1.*

Appreciation

A TALE OF TWO LITTLE CITIES

Another small town newspaper, the Bode Bugle suspended publication a couple of weeks ago, the second to fold up in the past month the Burt Monitor giving up the battle the first of May Rumor has it the Bode business men are raising several hundred dollars into purchase of equipment for another newspaper and will hire a man to run it As soon as the Burt businessmen lost their paper they became excited and held several meeting called in publishers from neighboring towns and are now having a paper published in a nearby town which they have to support with cold cash or go without

In both cases it's the old story of shutting the barn door after the horse is gone How much better how much cheaper it would have been for the Burt and Bode businessmen to give their newspapers the support they deserved and kept them than forcing the publishers to close their doors

Now the merchants in those two towns realizing the newspaper is the heart of their community, are desperate in their efforts to get new papers started in their towns

There's a moral in this little tale We wonder how many of the Rockwell businessmen will get it? Register Dispatch

DICTIONARY FOR FISHERMEN

FISHING A disease for which there is no cure In extreme cases the fever can be reduced by placing the patient on the hot sun for several hours

GUIDE A conservationist, the chief job of which is to protect the fish by telling fishermen where the fish are not precious by their absence

LURES: Imitation of frogs, bugs, birds or bees guaranteed to fool any fisherman and pry a dollar or two from his pants pocket.

ROD. A high-brow name for a fish pole costing over five bucks Rods are sold by weight. The lighter the rod, the heavier the tax.

REEL A combination sausage mill and coffee grinder invented by the devil and patented. Fully guaranteed to snarl your line at a crucial moment thus inducing the most profuse and lurid language, common to all fishermen. The more expensive reels can make a bird nest of the line.

FISH LINE. Sometimes referred to as the talk engaged in by fishermen in describing the big one that got away Otherwise just an expensive piece of string guaranteed to break and tangle at the proper time, so the fishman can blame the line for losing that big one

WHOPPER A term used to describe small fish that got away. with each telling, the fish gets bigger

CREEL A fragile wicker basket in which the fly fisherman hides worms and carries his lunch

WADERS and BOOTS: Form fitting rubber or fabric devices to cover the legs They are most often used for transporting water from the lake to a place where you want to sit down and take them off Waders hold more water than boots and are useful in putting out a camp fire.

FLIES: Feather imitations of nothing ever seen, which are used mainly to decorate a fisherman's hat and get caught in your neck when whipping a rod.

BOAT: A leaky, stinking old tub equipped with a tobacco can for bailing out water. Daily rent is always more than the original purchase price. Boats can be used as protection against rain by dragging them up on the shore and crawling under them.

STRING OF FISH: Is what you don't bring home after a day of swatting mosquitoes and bugs.

Iowa produces more than half of the popcorn raised in the United States and is the world's center for this crop.

Mr. and Mrs. Lawrence Schaefer and son, of Milwaukee, Wisconsin, came Friday to visit over the week end with Klemme relatives and friends and to see Mr. and Mrs. Carl Suckow of Jennings, La Mrs. Schaefer is a sister of Carl's They also attended the Schaefer and Suckow family re-union and picnic held in the Klemme park July 4th The Schaefer's had the misfortune to have their car badly damaged on the way to Klemme, when the car skidded on and went into over several tu occupant were a few minor bru was damaged. to drive to Kl ther mishap

Great American Broadcast

With Alice Faye, Jack Oakie and John Payne

FREE! TRAINING that is worth $1500.00

READ HOW YOU TOO CAN BECOME AN EXPERT IN AVIATION, RADIO OR ENGINEERING AND DRAW GOOD PAY WHILE YOU LEARN!

LOOK WHAT THE U. S. NAVY OFFERS YOU

FREE TRAINING worth $1500. Nearly 50 trades and vocations to choose from.

GOOD PAY with regular increases. You can earn up to $157 a month. You are entitled to a generous vacation period, with full pay, each year.

GOOD FOOD and plenty of it.

FREE CLOTHING. A complete outfit of clothing when you first enlist. (Over $100 worth.)

FREE MEDICAL CARE, including regular dental attention.

FINEST SPORTS and entertainment any man could ask for.

TRAVEL, ADVENTURE, THRILLS— You can't beat the Navy for them!

BECOME AN OFFICER. You can work for an appointment to the Naval Academy or the Annapolis of the Air at Pensacola.

FUTURE SUCCESS. It's easy for Navy-trained men to get good-paying jobs in civil life.

LIBERAL RETIREMENT-PAY

IF YOU WANT to get ahead fast, to serve your country to build yourself a good-paying future... here's the opportunity you've been waiting for.

The U. S. Navy may train you to become an *expert* in any one of nearly 50 skilled fields. Each month, over 5000 new men will be sent to a Navy Service School where you can learn to be a Diesel engine operator, machinist, aviation mechanic, aerial photographer, radio operator, or whatever specialized work you're best fitted for. This first year's training which you get is worth at least $1500.

The Navy foots the entire bill. You earn while you learn. In fact, it is possible for an enlisted man to earn up to $157 per month—with keep.

You'll have plenty of opportunity for advancement in position and pay—*and you'll have fun while you learn!* You'll come out of the Navy fully prepared to take on a good job in private industry. And if you want to stay in the Service, you can go right to the top... and retire at the end of 20 years or 30 years with a liberal monthly income.

You can choose now between the regulars or the reserves. Both offer equal opportunities for advancement.

Now's the time to take a look at your future. Volunteer for the Navy *today!* The kind of men you want to know are signing up in ever greater numbers.

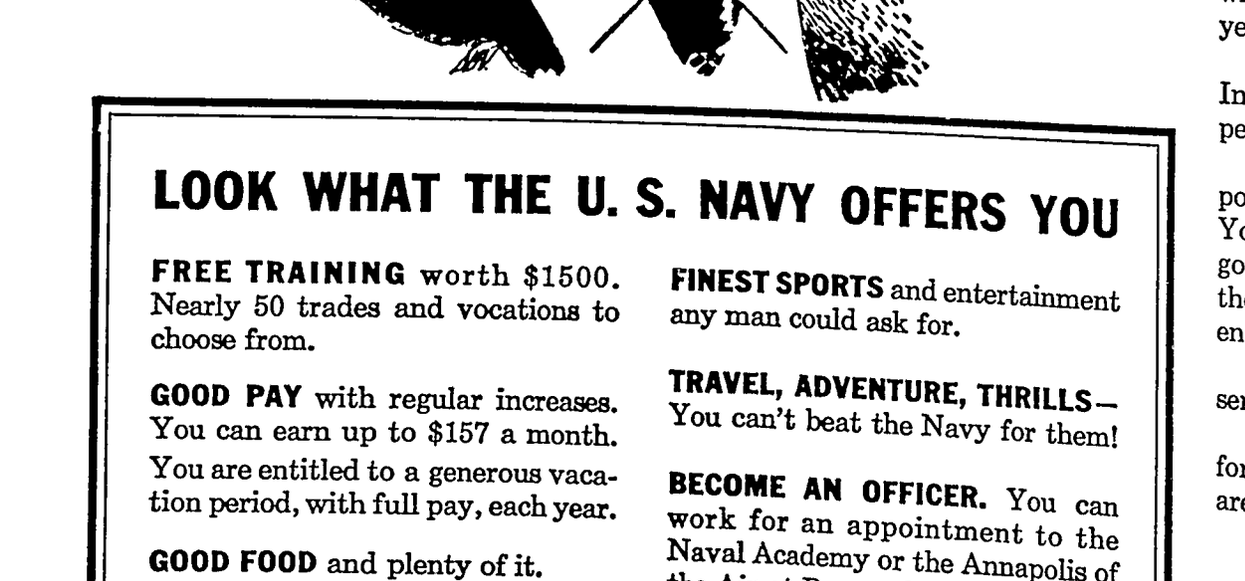
ACT NOW! HERE'S HOW!

(*No Obligation*)

TODAY... get the free illustrated booklet called "Life in the Navy." It gives you the glowing facts. All you need do is to ask the Navy Editor of this newspaper for a copy.

TELEPHONE HIM, or fill in coupon below and give it to him at this newspaper's office. Or mail the coupon to him, either in an envelope or pasted on a penny postal card.

WEAR THIS BADGE OF HONOR! If after reading the free booklet you decide to apply for a place in the Navy, you will receive this smart lapel-emblem. It is a badge of honor you will be proud to wear.



Tear out and take or send this coupon to the Navy Editor of this newspaper

Without any obligation on my part whatsoever, please send me free booklet "Life in the Navy" giving full details about the opportunities for men in the Navy.

IOWANS LET UP ON BEER THE PAST YEAR

Iowa consumption of beer declined 1,466,000 gallons in the year ending June 30, compared with the preceding fiscal year, state beer tax collection figures indicated

Even so, residents of the state quaffed 26,115,000 gallons of the beverage in the 12 months, the repor showed, or not far from a gallon a months per capita.

The state levies a tax of four cents a gallon on beer, the proceeds going to finance emergency relief activities

After spending nearly two weeks visiting with relatives and friends in this community, Mr and Mrs Carl Suckow left early Monday morning for their home at Jennings, Louisiana They were accompanied to their home by Carl's mother, Grandma Henry Suckow, and his sister, Mrs Herman Paul, who expect to spend a month or more visiting in Louisiana Carl and his son, Warren, are in wholesale oil and grease business and have enjoyed a good business.

INDIAN VILLAGE

Several hundred people attended the opening of the long buried Chan Ya Ta Indian village near Alta last week. The excavated area representing the home of Inlian folk some 600 years ago was opened and examined by F. L. Van Voorhis Nearly everyone present received a souvenir such as a piece of pottery or bone implement as a memento of the occasion.

Iowa is second only to Minnesota in the production of creamery butter The 1939 production amounted to 233,510,000 pounds or 13 per cent of the United States total

WHAT! NO NEW AUTO MODELS?

There is talk of discontinuing any changes in automobile models during this year, but the decision should not be made except as a last resort. Few things will break down the morale of the people more than a sudden suspension of their ancient right to trek down to the annual auto show and see how many gadgets have been shifted.

* * *

There is a limit to sacrifice. And it may be reached when you ask Americans to go through a whole year in which even the windows in automobiles open the same way they did before.

* * *

You can get Gus Q. Citizen to give up many things in a crisis without a squawk. He will give up meat, cut down on fuel, and if necessary climb into a uniform to defend his country, but when you ask him to take calmly the news that Detroit will turn out sedans with the humps and bulges unchanged, you're taking a chance on insurrection.

* * *

Elmer Twitchell is among those horrified by the prospect and he has written the following appeal to the President:

"Dear Franklin:

"If you want the morale of America kept intact, do something at once to stop this idea of no changes in auto models during the emergency. Year after year, through floods, fires, dust storms, quakes, strikes, erosions and depressions, no matter what happened to the country, automobile models came out every season full of changes. The more trouble, the more changes. And the people of America are not going to feel that everything is all right if cars come out next fall with the starting button right where it is today, and with the gear shift not lowered, raised, hidden or camouflaged in any way.

* * *

"I think I could stand news of an American reverse in battle better than I could endure the sudden realization that the ash trays in our limousines were to be left as in the 1941 models, and that nobody had decided on a new type of bumper.

* * *

"Franklin, if we are to come through this great crisis okay, don't prevent those auto makers from monkeying with the gadgets, color schemes and front ends. It's little things like that that undermine confidence, kill causes and lose wars.

* * *

"Of course I want the auto industry to concentrate on defense, but it must make a few changes in the limousine and roadster models if we are to remain a happy people. See that the least they do is to keep shifting the doorknobs.

"Yours for unity and a harder search for the starting button every season,

—"Elmer Twitchell."

* * *

And we think Elmer is right. If the President doesn't do something, congress should.

* * *

FOOT NOTE

Some of our lady knitters—
Their spirit can't be beat—
Seem to think the British soldier
Runs to large and lumpy feet.

Length and strength are featured
Rather than the fit;
Heaven help the British army
In some of those socks they knit!
—J. H. Niles.

* * *

We understand that the new movie "Hudson's Bay" had a tough time getting through under that title. A lot of Hollywood people wanted to call it "Bay Meets Girl."

* * *

The height of something or other: an advertisement by a racing tipster claiming "Positively no guesswork."

* * *

LAFAYETTE, WE ARE HERE!
(Modern version.)

From Rome they started out to fight
Old Egypt's troops who wear the fez,
And British soldiers in their might
Who man the forts that guard Suez.

A quarter million strong they fare
To Libya colony's gleaming strands,
And thence to swarm by land and air
'Cross Egypt's leagues of desert sands.

Suez at last! No victory's throne!
No flash of arms! No bugles, clear!
Seventy thousand captives drone,
"Mussolini, we are here!"
—W. F. Dix.

* * *

PREPAREDNESS

Hi—
I saw a fellow walking up and down a gangplank naked, blindfolded and wearing a roller skate on one foot and a greased pad on the other. When I asked, "What's the idea?" he replied, "I'm just getting myself into condition for the next depression."
—Zoops.

"Germans Predict England Will Fold."—headline. Nonsense. It's been off the fold standard for months.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Dean of The Moody Bible Institute of Chicago.
(Released by Western Newspaper Union.)

Lesson for July 13

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education, used by permission.

CHRISTIANITY EXPANDS IN ASIA

LESSON TEXT—Acts 19 8-10, 23-32.
GOLDEN TEXT—So mightily grew the word of God and prevailed.—Acts 19 20.

War is the order of the day, and much as we may regret it the life of every one of us is affected by its feverish touch. Certainly no Christian has any pleasure in the violent hatreds of wicked men, and can only pray that somehow a righteous peace may come to this troubled world.

There is a warfare, however, which we do seek to foster and promote. We encourage it, and as Christians make a holy resolve to battle to the end. That is the warfare against Satan and his hosts. As long as he rules in the hearts of men, and sin and wickedness are here, we say, "Fight on, my soul."

Christian life and service are presented in Scripture as a fight. We do well to learn the methods and the weapons of this great spiritual conflict; not stressing a belligerent note of strife against one another, and particularly not between the divisions of God's army in the earth, but standing shoulder to shoulder in the battle against the Evil One.

I. Attack for God (vv 8-10).

The vigorous prosecution of a strong attack on the enemy's position is good military strategy, and good spiritual warfare. The command of God is "Forward!" and His forces are not to hinder their effectiveness by weak indecision or fear. Paul sets us an example in his

1 Bold Preaching (vv. 8, 9a).

Paul had met some disciples (19:1-8) who knew only the baptism of John and did not have the Holy Spirit. Dr. Erdman rightly says that "there are many more like these twelve 'disciples' in the pews of Christian churches. They are sincere men, they hate their sins, they believe in the teachings of Jesus, they admire the Sermon on the Mount, they yearn for the highest and best things, but they lack spiritual power. Why? Because they are 'disciples of John,' they have not fixed their hearts and their hopes upon a divine, risen, glorified Christ; they do not know 'the grace of God.' When, however, they learn the full gospel and yield themselves to Christ, they are not merely baptized with water, but also the Holy Spirit."

2. Careful Teaching (vv. 9b, 10).

Three months of such preaching brought many converts, but there were also "hardened and disobedient" men whose opposition caused Paul to withdraw the disciples (learners) to the privacy of a lecture room for thorough instruction in Christian doctrine, a sort of Bible Institute of Ephesus. The church has largely failed in its teaching ministry and has thus weakened its effectiveness against the enemy To be strong workers for the Lord, Christians must know the doctrines of the Bible.

II. Counter Attack by Satan (vv. 23-32).

The enemy of our souls is often content to let us go on in comparative peace as long as we do not bother him unduly, but once we put up the banner of a holy life and service in God's army, he begins a terrific counter attack. Paul had felt it already in the hardening of listeners' hearts (v. 8), but now it began in dead earnest.

1. By Selfish Opposition (vv. 23-27).

One way to bring a violent reaction against spiritual truth is to let it interfere with business. Demetrius and his fellow silversmiths professed to be concerned about the threatened destruction of the heathen worship of Diana (and what a fine testimony that was to the effectiveness of Paul's preaching!), but in reality they were worried about the loss of their ungodly business in charms (vv. 25-27).

Many of the enemies of the gospel in our time are fighting against God's Word because they are in a business which is condemned by it. They know that every time a new convert is won to Christ they lose a customer and it troubles them. Reader, if you are in that kind of business, get out of it quick before God's judgment falls upon you

2. Senseless Tumult (vv. 28-32).

Knowing that their opposition was without true foundation, they inspired and agitated a wild demonstration Is it not astonishing how many thoughtless and foolish people there are in the world who will senselessly follow the lead of someone who opposes God?

Shouting a slogan which had no real meaning, they lent their voices to the tumultuous agitation against God Finally, one sensible man, fearing the punishment of city officials, quieted them. The Ephesians were just like many in our day who fear man more than God. But, may we ask, if you fear the judgment of men, how think you to escape the judgment of God? After all, it is God and His Word you oppose, unconverted friend. Do you think He will hold you guiltless?

PATTERNS
SEWING CIRCLE

WEARING the simplest frocks you can find these hot days? Here is a style you can easily make for yourself, and you can wear it in cool comfort on the most sizzling days. It is a simple one-piece dress, cut to a low point in front, sleeveless and backless except for shoulder straps. Of course you wear the bolero with it on the street. Pattern No. 1359-B is a tried and true design for the ideal warm weather dress. It has everything; youthful lines, back opening which makes it easy to get into, no fussy details which take time to iron.

Make this dress in any of the washable sports fabrics; cottons, linens, rayon. Percale, dimity, chambray, broadcloth are particularly recommended. Bolero can match the frock. The frock in a print and the bolero in a solid color is also a smart effect.

* * *

Barbara Bell Pattern No 1359-B is in sizes 12, 14, 16, 18 and 20 Corresponding bust measurements are 30, 32, 34, 36 and 38 Size 14 (32) dress requires $2^7/_8$ yards 36-inch fabric, bolero jacket $1^1/_3$ yards Ric-rac outline takes 4 yards Pattern is complete with sew chart Send order to

Ask Me Another
A General Quiz

The Questions

1. What baseball player had the highest lifetime major league batting average?
2. Of all metals, which is the most malleable?
3. What century often is referred to as the Age of the Enlightenment?
4. Which continent is the largest?
5. What is a guerdon?
6. How do carillons differ from chimes?
7. What occupation did Francis Scott Key, writer of the "Star Spangled Banner," follow?
8. How long did the strike of the bakers of Colmar last?

The Answers

1. Ty Cobb (Cobb, .367; Speaker, .345; Ruth, .341).
2. Gold.
3. Eighteenth century.
4. Asia.
5. A reward.
6. Carillons differ from chimes in that their bells are stationary, not swung, are tuned chromatically instead of diatonically, and contain at least 25 bells in order to have two complete octaves in semitones.
7. Lawyer.
8. That of the bakers of Colmar, Germany, begun in 1495, is believed to be one of the longest. Disgruntled over the loss of their regular place in the Corpus Christi procession, they did not go back to work for 10 years.

DOES YOUR JOB OFFER THESE 10 OPPORTUNITIES?

You can get them ALL in the U. S. NAVY!

		YOUR JOB	NAVY
1	**TRAINING WORTH $1500.** The U. S. Navy offers you technical training in nearly 50 trades and vocations, worth at least $1500. You can become an expert in radio, aviation, electricity, Diesel engines and many other well-paid trades at absolutely no cost. The Navy gives you good pay (and keep) while you learn.		✓
2	**STEADY PAY GUARANTEED.** No layoffs . . . no seasonal slumps . . . no pay cuts when you're in the Navy. The Navy guarantees you a generous pay envelope twice every month in the year.		✓
3	**REGULAR PAY INCREASES.** You can be sure of steady pay increases up to $157 a month . . . with plenty of opportunity for additional allowances and promotions as you go along. Your income can increase seven times during your first enlistment.		✓
4	**ALL LIVING EXPENSES PAID.** In your present job you must use your income to pay for food, rent, education, travel, entertainment, and savings for the future. ALL THESE THINGS ARE FREE TO NAVY MEN. Your pay is your own to use in any way you please.		✓
5	**FREE MEDICAL AND DENTAL CARE.** Unexpected sicknesses, expensive doctors' and dentists' bills can take a big slice of your civilian income. But not in the Navy! This is one worry you can avoid, one emergency you never have to save for. Navy men get the best of medical and dental care absolutely free.		✓
6	**RETIREMENT INCOMES.** In the Navy you'll never have to worry about your future. If you stay in the Navy, you'll never have to skimp and save for your old age. When you become eligible for retirement (sometimes as early as age 37), the Navy guarantees you a monthly income for life.		✓
7	**CHANCE TO REACH THE TOP.** By enlisting now you may have the opportunity to attend the U. S. Naval Academy at Annapolis . . . or the opportunity to become a Commissioned Officer in the Naval Reserve . . . or the opportunity to become a Naval Aviator.		✓
8	**FUN AND RECREATION.** Where else can you lead the healthy life that the Navy offers you? Ashore or afloat, you get year-round boxing, swimming, baseball, football, and other sports. You associate with the finest group of men in the world. And you enjoy entertainment of all kinds *plus the latest movies.*		✓
9	**TRAVEL AND ADVENTURE.** Navy maneuvers take U. S. ships all over the world—Alaska, Hawaii, the Philippines, North and South America. You get regular shore leaves in exciting foreign ports.		✓
10	**CHANCE TO SERVE YOUR COUNTRY.** No other calling gives a red-blooded young American so great a chance to serve his country. No other career offers him so great an opportunity to build a successful future.		✓

Earn good Navy pay while you train for any one of these 45 jobs:

- AVIATION MACHINIST
- PRINTER
- PHOTOGRAPHER
- BANDMASTER
- PAINTER
- STENOGRAPHER
- ELECTRICIAN
- PATTERNMAKER

BOARD OF SUPERVISORS HIRE ENGINEER FOR FARM-TO-MARKET ROADS

At the regular meeting of the board of supervisors held last Wednesday, C P Lechner of Ames was retained by the board to act as engineer on the farm to market road program which is to be carried out in this county during the next two years.

Mr. Lechner is under contract to take complete charge of the engineering work, to furnish plans and specifications necessary to the accomplishment of the work and is to make such negotiations as are necessary for the purchase of the right-of-way, the compensation for his services to be paid out of the farm to market funds.

At this meeting the board let the contract for furnishing 80 tons of coal for the county to the Woodford-Wheeler Lbr. Co of Garner to be delivered on track at Duncan.—Garner Leader.

"CAPTURED"

L. D Statzell, Knoxville, believed for a time last week that he would have to attend a baseball game in St. Louis wearing a pair of handcuffs. He found the handcuff in Marion County Sheriff Applegate's car in which he was riding, and as a joke put them on after the sheriff had assured him that a key was available. However, later it turned out that the sheriff did not have a key. Visits to the highway patrol headquarters and police office at Hannibal brought no better results. The sheriff's office at St. Louis also proved not to have a key that would fit Finally a locksmith was able to release him, and the party attended the ball game just a half-hour late. That is as close as Statzell cares to be handcuffed to anyone or anything.

HIS BOUNCING BABY BOY

OVER SIX THOUSAND REGISTERED FOR DRIVERS LICENSE

Approximately 6,200 persons in Hancock County registered at the Court House in Garner, from June 9 to July 5th for driver's licenses

An untold number perhaps sent their applications direct to Des Moines, but there are probably a couple of thousand drivers who did not apply They will be required to take a test in order to get a new license.

DIVORCE AND SEPARATE MAINTENANCE GRANTED

A divorce and a separate maintenance petition were granted in district court at Garner Thursday when Judge T A Beardmore, of Charles City, granted a divorce to Hazel Tyson from L W Tyson on the charge of cruel and inhuman treatment

Pearline Attig was granted a separation from Melvin Attig because Attig had been convicted of forgery soon after their marriage in August, 1939, and is serving time at Anamosa Mrs Attig was granted $15 a month alimony

GARNER MAN FINED $300 ON LIQUOR VIOLATION

Russell Rasmussen of Garner, was fined $300 and costs in district court at Garner, Thursday morning by Judge T. A. Beardmore, for violation of the state liquor law

Rasmussen was charged with selling, exchanging, bartering and dispensing intoxicating liquors at his service station west of Garner.

SUNDAY SCHOOL CLASS HELD PARTY

The Young People's Class of the Methodist Sunday School held a party at Evelyn Arnold's home on Thursday evening.

Games were played indoors after which the group enjoyed a treasure hunt. The Arnold grove furnished a nice setting for the weiner and marshmallow roast and the party ended with Mrs. Arnold serving cake and home-made ice cream.

Susie, Emma and Forest Cutshall of Maxwell, Iowa, former members of the class, were guests.

C. R. Arnold

Martin Paulson

Howard C Barger of Hampton, president, and C M. Palmer of Forest City, vice president of the Mason City Production Credit association, have been invited to attend a national celebration at Newton, Iowa, Wednesday evening, July 23, marking the loaning of the two billionth dollar to an American farmer by a Production Credit association

An Iowa farmer will officially receive the two billionth dollar as the headline event of the celebration.

He is Martin Paulson of Jasper county, whose "defense loan" from the Newton Production Credit association put the nation's short term farm credit cooperatives over the two billion dollar mark. A member of the Newton association since 1935, he is borrowing $300, principally to buy bred sows in order to step up pork production, an important phase of the national defense program.

The attention focussed on this affair makes a national event out of an Iowa farmer's purchase of three bred sows, Howard S. Hamilton, secretary-treasurer of the Mason City Production Credit association, pointed out.

He said farm credit leaders from both coasts and the south will take part in the program C. R. Arnold of Washington, D. C., production credit commissioner of the Farm Credit administration, will be the main speaker on the program.

Production Credit directors from Oregon, Connecticut and Mississippi will attend the celebration, as well as directors representing all of Iowa's 17 Production Credit associations and those in Missouri, Minnesota, Nebraska, Kansas, South Dakota, Wisconsin, Illinois and Kentucky.

FUNERAL SERVICES HELD AT GARNER FOR MRS. ROCKOW

Funeral services for Mrs William Rockow, who died last week Tuesday evening at the home of her daughter, Mrs Wallace Kreitlow, north of Garner, were held at 1 00 p m. at the St Paul's Lutheran church in Garner, and at 3 30 p. m. at Dows where interment was made. The service was in charge of Rev. H R Wrede.

Mrs Rockow, who was born in Germany, lived with her family on a farm east of Klemme a few years ago.

She leaves her husband, sons Harold of Garner; Fred of Galt, a daughter, Mrs. Mildred Kreitlow of Garner, her father, Fred Lenz of Dows, four brothers, Ernest of Mora, Minn., Fred and August of Dows and Paul of Galt, two sisters Anna, Mrs John Johnson of Popejoy and Bertha, Mrs John Kreitlow of Galt She leaves one grandchild

NAME CHAIRMAN FOR COUNTY DEFENSE BOARD

James M. Townsend, Chairman of the Hancock County Triple ¼ A committee, this week was named by Secretary of Agriculture Claude R. Wickard as chairman of the Hancock County Defense Board.

Established this week by order of Secretary Wickard, United State Department of Agriculture defense boards will operate in every state and county of the United States. Major part of the defense job before the board involves adjustment of farm production to help farmers make adjustments in production through the Agricultural Adjustment Administration.

Agencies of the USDA whose representatives serve on state and county defense boards include the AAA, Bureau of Agricultural Economics, Farm Security Administration, Soil Conservation Service, Farm Credit Administration, Surplus Marketing Administration, Agricultural Marketing Service, Forest Service, Rural Electrification Administration and the Federal—State Cooperation Extension Service.

Other members of the board in Hancock County will be the principal employee of each of these agencies maintaining local offices in this county.

In Hancock County these members will include Byron F. Cory under the Farm Security Administration; V. L. Hein, project superintendent for the REA; and Co. Agent Burlin B Hamer and the Home Demonstration Agent under the Federal—State Cooperative Extension Service.

County Defense Boards will be responsible through their chairman to the state boards and the state boards through their chairman to the Secretary of Agriculture.

Chairman of the Iowa Defense Board is Albert J Loveland, newly appointed chairman of the Iowa AAA Committee.

METHODIST CIRCLES PLAN MEETING DATES

Circle No 1 will meet in the park Friday at 2·00 p. m.

Circle No. 2 will meet Thursday with Mrs. Edwin Josten.

Circle No. 3 will meet Thursday afternoon with Mrs. R. A. Jorgenson.

Circle No. 4 will meet Thursday with Mrs. Art Wellemeyer.

SEE IOWA THIS YEAR

Plan to spend a day or two in one of Iowa's State-owned recreational areas this summer. You'll find them conveniently spaced over the state. There's a recreation spot within an hour's drive from your home. Take advantage of it.

JAMES TOWNSEND ASKS ALL FARMERS TO CO-OPERATE

Storage Room Becoming A Real Problem In Mid-West States

Co-operation of every farmer in Hancock County is being sought by James M Townsend, AAA Chairman, to help relieve a threatening serious grain storage problem.

Prospects of good crops are found, not only in Hancock county, but throughout the Middle West, Townsend said this week Since carry-over supplies of both corn and wheat are now taxing available storage room, he declared it is going to be up to the farmer to provide bin and crib room for his 1941 crops.

Harvest of the large wheat crop this year in the United States is expected to boost the supply of that crop to about 1,250,000,000 bushels. About 400,000,000 bushels were carried over from last year's crop.

Similar conditions exist with corn, Townsend explained The Commodity Credit Corporation owns approximately 210,000,000 bushels, while producers hold in farm storage under government loans 200,000,000 bushels of 1938 - 1939 - 1940 corn.

In Hancock County, alone, corn under seal now totals 2,090,220 bushels; since January 1, 1941, 53,061 bushels have been redeemed by farmers to be used as feed on the farm, but this is not enough to relieve the storage problem for Hancock County, according to your local county committee.

If farmers are wondering how to finance and expansion of their own storage facilities, Mr. Townsend announced that the AAA is allowing them to assign payments under the agricultural conservation program to finance purchase, construction or repair of bins and also cribs.

Can Finance New Cribs

Assignment of AAA payments, it was explained, will make it possible for farmers to arrange with their local dealers or bankers for additional farm storage to be paid through the 1941 AAA payments.

Farmers contemplating erecting steel bins, the committee cautioned, may find them hard to get since defense priorities have cut available steel supplies

Sealed corn in Hancock County, Mr. Townsend explained, may be bought back at any time the producer desires to do so. The 1938 and 1939 corn that was resealed for just one year may be bought back for the loan price of 62c plus interest at 3% less 4½c per bushel storage allowance credit, or 59.4c per bushel.

The 1940 corn may be bought back at 61c plus 3% interest. Anyone desiring to buy back their own corn should call at the county office and make arrangements before moving the corn

MRS. W. F. GREIMAN SR. HONORED ON BIRTHDAY

Mrs. W. F. Greiman, Sr was honored on her 80th birthday anniversary Sunday when relatives gathered at her home for a big family dinner at noon Not only did they bring baskets of food, but also brought gifts for Mrs. Greiman. Open house was held from 2 00 to 4 00 p. m for her friends and 85 people called to congratulate her. Elizabeth and Bertha Harnack of Remsen, Iowa, came the greatest distance.

DAILY BIBLE SCHOOL BEGAN MONDAY AT GOODELL

A week of daily Bible vacation school started Monday at the United Brethren church at Goodell.

The Rev. and Mrs. Harold R. Knight assisted by the Sunday school teachers are in charge.

500,000 Citizens to Be 'Eyes and Ears' Of Army Air Corps Defense Program

Men and Women Volunteer As Plane Spotters for Air Defense.

By DONREID LAWNFELL
(Released by Western Newspaper Union.)

WASHINGTON, D. C. — Enrollment of 500,000 U. S. civilians as volunteer observers for the army air corps is proceeding under the direction of Lieut. Gen. Delos C. Emmons, commander of the general headquarters air force, whose headquarters is at Bolling Field, D. C.

Thus a million eyes and ears join in another forehanded step in the accelerated national defense program. The war department asserts it has no desire to alarm the general public, but points out that the active co-operation of the citizenry at large is needed for the success of national defense measures.

Organization of this volunteer corps will constitute a nationwide civilian force who will act as spotters for the four air forces of the army air corps. They will be affiliated with the interceptor commands of each air force.

Modern Paul Reveres.

These modern Paul Reveres who are being welded into a compact unit of defense "minutemen and minutewomen," may not adopt the slogan, "One if by land, two if by sea." But their words in the mouthpiece of a crank driven model telephone from an Iowa farmhouse, or a terse message from a shiny new dial instrument in New Jersey, will send fighter commands, anti-aircraft artillery and balloon squadrons into action.

From the rooftops of their homes, in the towers of churches and skyscrapers, on prairies, farms, fields and beaches, Mr. and Mrs. Average American Citizen will watch for that speck and listen for that telltale hum that may reveal the presence of an air enemy.

Patriotic organizations like the American Legion, and their women's auxiliaries, forest fire wardens, weather observers, CCC and the coast guard, would of course, cooperate in flashing an alarm to headquarters.

Public utilities, telegraph, telephone, railway and light and power systems will take an enormous part in the warning system, for the alarm flashed would be sent over their communications

The importance of air-warnings cannot be over-estimated, says the war department. To know where the attacking force is poised, where it strikes and where it may be expected to strike, is essential for defense of the country. Here is where the volunteer watchers play a vital role. Organized in their home communities, in grid fashion, they will man listening and watching posts in established time shifts. At the first sign of danger, they will call "Army Flash" into their telephones. In time of attack they would maintain their positions and continue their reports of the enemy's movements, concentration, numbers, etc.

Plan Is Workable.

This method of aircraft warning has already been tested and proved feasible. An experiment was held in the New York-New England region, under the supervision of Maj. Gen. James E Chaney, commander of the First air force. A corps of civilian observers was organized by the American Legion, to work with the army. The American Telephone & Telegraph company and its affiliated companies handled the communications over their network

Results were excellent and the experience and knowledge gained from the tests, laid the groundwork for the present program Also taken into consideration were methods used abroad, as reported by American army officers stationed there.

All-Around Air Defense.

Modern air defense is divided basically into active and passive phases. Included in the active phase is the "defensive" attack, carried out by fighter planes. It embraces also the network of civilians giving the warnings of enemy aircraft. Anti-aircraft artillery, pouring barrages of exploding steel into the skies, and balloon barrages that compel enemy aircraft to fly too high for effectiveness, partly complete the picture of active defense.

To obtain information of the movements of hostile air threats, to attack these threats in the air, to provide simultaneous protection of all sensitive home areas, will be the objectives of these agencies of active defense. Co-operating in a combined effort, they will make possible a positive, aggressive and coordinated counter-blow to sweep enemy fighters and bombers from the skies.

Close liaison will be maintained with the agencies engaged in passive defense. To them, also, warnings of approaching enemy aircraft are vital. They will warn the civilian population and industry, warn home guards, police, fire departments, anti-gas and medical workers to stay on the alert at their stations. They will enforce blackouts of lighting and radio broadcasting which might guide enemy aircraft to their targets. This is a phase of civilian air raid defense, however, for which separate, detailed plans will be made.

The Four Air Forces.

The First air force is commanded by Maj. Gen. James E. Chaney. It covers the northeast and includes the following states: Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, Pennsylvania, New Jersey, Delaware, Maryland, District of Columbia, Virginia, that portion of North Carolina north and east of the line extending from South Boston in Virginia and Cape Lookout in North Carolina, West Virginia, Ohio, Michigan, Indiana, Kentucky, Illinois, Missouri, Iowa, Wisconsin and Minnesota.

The Second air force is commanded by Maj. Gen John F. Curry. Embracing the Northwest, it comprises the following states: Washington, Oregon, Montana, Idaho, Utah, Wyoming, Colorado, North Dakota, South Dakota, Nebraska and Kansas.

The Third air force, under command of Maj Gen. Barton K Yount, embraces the southeast region. The states in this area are North Carolina (except that portion attached to the First air force), South Carolina, Georgia, Florida, Tennessee, Alabama, Mississippi, Louisiana and Arkansas.

The Fourth air force takes in the Southwest. It is commanded by Maj. Gen. Jacob E. Fickel. Included in the area of this force are the following states: California, Nevada, Arizona, New Mexico, Texas and Oklahoma.

Bomber and Interceptor Commands.

Each air force is divided into two components, a bomber command, which is controlled by the air force commander, and an interceptor command, which includes fighter planes or pursuit aviation, anti-aircraft artillery and balloon barrages, supervises and controls the entire observer and warning system, and delivers the counter-blow.

Each interceptor command is under the direct control of a brigadier general who is subordinate to the air force commander The heads of the interceptor commands are as follows. Brig. Gen John C. McDonnell, interceptor command, First air force, Mitchel field, Long Island, N. Y.; Brig. Gen. Carlyle H Wash, interceptor command, Second air force, Fort George Wright, Washington; Brig. Gen Walter H Frank, interceptor command, Third air force, Tampa, Fla ; Brig. Gen. Millard F. Harmon, interceptor command, Fourth air force, Riverside, California.

Tests Will Continue.

The present air districts—Northeast air district, Northwest air district, Southeast air district, and Southwest air district—are to be designated hereafter as air forces, as follows:

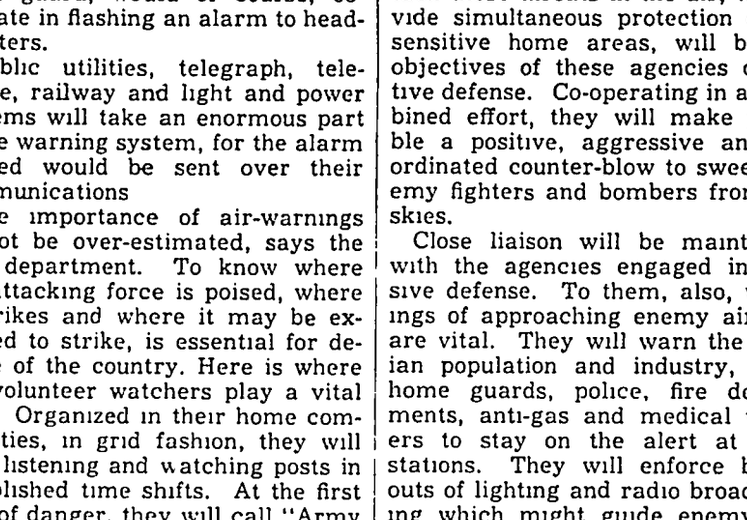
First air force, (formerly Northeast air district); Second air force, (formerly Northwest air district); Third air force, (formerly Southeast air district); Fourth air force, (formerly Southwest air district).

The air defense command was originally formed to provide experience and the basis for future developments in defense against air attacks, which are now being applied in this new organization The air defense command co-ordinated control of anti-aircraft units, pursuit planes, and aircraft warning service of signal communications, all elements for the protection of an area against hostile air attacks Now that these functions are to be taken over by the interceptor commands, the air defense command will remain as a laboratory group at Mitchel field, New York, consisting of Major General Chaney, four staff officers and 34 enlisted men. They will continue "test sector" experiments and develop principles, tactics and doctrine to be used by the army air corps.

In event of war the above scene in war-torn London would undoubtedly be re-enacted in all large American cities. The picture shows air-force officers and auxiliary air force women plotters watching enemy movements over Britain. Housed many feet below the surface, they receive a continuous record of information, supplied by scattered detecting posts, similar to the ones being created here. Thus they are enabled to chart defense and attack plans, from a subterranean nerve center, protected from air raids by thick steel and concrete overhead.

National Crop Outlook Bright

LaSalle Map of Business Conditions



Farmers are expecting increased harvests and naturally, increased income for food prices are expected to continue. Farm production costs have gone up and they are meeting this situation by working longer hours and using more machinery. The number of tractors on farms is steadily mounting. Farm income increase has, so far, kept pace with that of his city cousin.

By L. G. ELLIOTT
President, LaSalle Extension University

CHICAGO.—As a result of favorable growing conditions during the first part of the season, farmers in most parts of the country expect to harvest even larger crops this year than last year. Higher prices for farm products make the outlook bright, and the upward trend in agriculture is equalled in industry.

Increased consumer demand for dairy products, added to government purchases for relief purposes and for shipment abroad, has boosted income of dairy farmers approximately 20 per cent on the average. While the increase has been greater in some regions than in others, the improvement is widespread.

Farmers who produce livestock for meat are another group which has been enjoying increased income. Hog prices have risen steadily until they are near the highest for the past three years. The government program of purchasing heavy hogs has stimulated the raising of heavier stock.

Washington, D. C.

MORE ON 'HESS—MESS'

Following the outbreak of the Nazi-Russian war, European capitals buzzed with reports of a German offer to Britain to make peace, then turn their united forces against Soviet Russia. These reports were not empty rumors; they were absolutely true.

Behind them is a story of the most audacious and astounding Nazi intrigue of the war to date. Its opening scene was the sensational Hess "flight" to Britain, its closing paragraph the "surprise" Nazi declaration of war on their ally, Red Russia.

The inner details of this drama-reeling plot are not yet unraveled and all of them won't leak out until the history books are written. But authorities have pieced it together and it is now possible to get the main outlines.

Hatred of Communists.

Following the victorious Balkan campaign which made Germany master of Europe, powerful military-Nazi elements, always hating the Communists, began urging peace with Britain in exchange for a British-German coalition against Russia. After a bitter struggle inside the Nazi party, Hitler sided with the anti-Red group and the wheels were set in motion to line up the British.

It was realized that they would have to be approached in such a manner that they could not doubt the authenticity of the Nazi plan. So Hess was chosen for this mission. Not only was he the one man in Germany closest to Hitler, but he was also known for his hatred of Communism. And before the war he had had contacts with the British nobility.

So Hess, not flying alone, but accompanied by several guiding planes, and not taking off from central Germany as reported, but from Norway, made his dramatic descent on the estate of the Scotch duke of Hamilton.

Hess' Message.

The message brought by Hess in substance was as follows:

(1) Britain and Germany would enter a coalition as the chief partners in a new Axis; (2) Italy would be placated with some minor possessions of France, which would be stripped of its empire; (3) Germany would retain a free hand on the whole of the continent, with Britain helping to establish that free hand by joining Germany in conquering Russia.

The British government's answer was to incarcerate Hess and immediately notify Washington and Moscow of the plan.

The subsequent chain of events is history. Darlan and Laval were among the first to get wind of the scheme, and rushed to Hitler offering complete "collaboration." This drew withering denunciations from President Roosevelt and Secretary of State Hull.

Britain, which for months had been trying to make up its mind to attack in Syria, launched an offensive with Free French forces to seize this strategically vital region. Then on June 15, British intelligence got wind of quiet German withdrawals of air and other forces from French bases This was why the British took the initiative in their continuous day and night bombing raids wreaking havoc on key German centers.

Russia Fearful.

Fearful of attack and anxious to appease in all directions, Moscow abandoned its stiff-necked coolness to Japan and hurriedly signed a pact in order to ensure at least temporary tranquillity on its eastern border. Simultaneously Stalin abandoned his traditional behind-the-scenes role and actively assumed the reins as premier of Russia. Russia began massing 160 divisions on its western borders.

It was at this time that Ambassador John Winant returned to the U. S. A. at the request of Prime Minister Churchill in order to give President Roosevelt a complete fill-in and to deliver categoric assurances from Churchill that Britain will never make peace with Hitler.

Note—The British government was so sure Hitler would attack Russia that Churchill was able to prepare and deliver his history radio address only 18 hours after Hitler invaded Russia.

* * *

CAPITAL CHAFF

Sentiment is increasing in several states for a "Federal Union of Nations" The North Carolina legislature has memorialized congress to undertake an international federal union now, and Representative Woodring of Pennsylvania is proposing the same to the Pennsylvania legislature.

One of the strongest foes of war in President Roosevelt's inner circle of defense advisers is Bernard Baruch, head of the 1917 War Industries board. Baruch believes the U. S. is not prepared to wage large-scale military action.

Telling newsmen about his inspection of a new powder plant in Tennessee, OPM Director General Knudsen remarked, "They are turning out the stuff in great shape," and nonchalantly pulled out of his pocket a stick of dynamite. Most of the reporters, pop-eyed, nervously doused their cigarettes.

Memos of a Girl Friday:

Dear Mr. W.: Billy Rose offered the editors of the Commy Daily Worker a job in his Diamond Horseshoe revue. Billy considers their flipflops, backflips and somersaults the most comical in the world . . . Tip the newspapers to see the next edition of The Hour—amazing revelations on activities of Ukrainians in the U. S. readying sabotage, etc., campaigns. A new Nazi trick because Germans and Italians are no longer in good standing over here and Ukrainians wouldn't be "suspected.'

The German Military Attache in Washington is supposed to have told Washington reporters July 27 is the timetable date for the Nazi war machine to take over the Ukraine.

Pearson and Allen are furious with ex-Cong. J. J. O'Connor of N.Y. They claim to have a certified copy of a letter from O'Connor (part of the Kansas court record) in which the ex-congressman recently wrote U. S. Judge Richard Hopkins of Kansas. Alleging that two out of three U. S. appeals court judges in N.Y. were with him in the Congressman Sweeney libel action against the colyumists. Pleading sure victory in N. Y., O'Connor asked Judge Hopkins to postpone any decision in Kansas, but Hopkins promptly dismissed all of Sweeney's suits against 10 Kansas newspapers. Hurray for him.

On Labor Day, 1939 (after the Commies and Nazzies got married) you reported this: Charlie of Place Elegante says vodka (Russian) and Rhine wine (German) is poisonous when mixed! . . . In other words we scooped Mr. Hitler by two years.
—*Your Girl Friday.*

Underground Ticker Tape:

The most illustrative underground story circulated in Germany is about the time Goering visited the director of an important munitions plant and asked him if there were still any Social Democrats, Catholic Centrists or members of the other outlawed parties among his workers . . . "Well," said the director, "about 40 per cent of the workers in my factory are Social Democrats, about 30 per cent Catholic Centrists, and about 30 per cent are still members of the other outlawed parties" . . . "Forty per cent, 30 per cent, and 30 per cent?" bellowed Goering. "That makes 100 per cent! Aren't any of your workers Nazis?" . . . "Oh, of course," was the reply, "they are all Nazis!"

During the early days of the Nazi occupation of Paris, whenever German officers entered a cafe, the French patrons would promptly get up and walk out. This so infuriated the conquerors that they issued an edict forbidding Frenchmen to leave a cafe for at least 15 minutes after the entrance of a German officer . . After that, whenever a German officer entered a cafe, the Frenchmen present would reach into their pockets and pull out small alarm clocks, which they set and placed on the table. At the end of 15 minutes, the alarms would go off all over the place, and the Frenchmen would rush for the doors!

In Holland, on Prince Bernhard's birthday, all loyal Dutch citizens wore a white carnation, the prince's favorite flower, as a symbol of defiance to the Nazis. Angered by this display of "insolence" on the part of the conquered people, the Nazis went around tearing the carnations from the coats of passersby . . . A short while later, Dutch sailors made their appearance on the streets and in cafes with carnations prominently displayed on their chests. The Nazis soon desisted from tearing them off . . . The carnations worn by the sailors contained ingeniously concealed razor blades.

In Holland, one of the big problems in the underground warfare against the conquerors is how to find out who can be trusted. One couple solved it in this manner: A few minutes before two o'clock every afternoon, the wife shouted to her husband, who was working in the garden, "Come in, dear. It's almost two o'clock." Two o'clock being the time for a London news broadcast, their next-door neighbors reported them to the Gestapo . . . The Gestapo didn't arrest the couple, however, because they were able to prove that they didn't own a radio . . . But their neighbors had swallowed the bait and unmasked themselves as Nazi stool-pigeons.

Ever since the Nazis conquered Holland, the natives have been forbidden to listen to the Dutch broadcasts from London, but most of them defy the regulation, at the risk of their lives . . . One Dutch woman, who was recently caught listening to BBC (the British Broadcasting Chain), was arrested. The infuriated Gestapo asked her explanation . . . "I wanted to hear Hitler speak," was her calm reply. "Hitler said he was going to speak from London last September, and I'm still waiting for him."

THE TRUTH SIMPLY TOLD

Today's popularity of *Doan's Pills*, after many years of world-wide use, surely must be accepted as evidence of *satisfactory* results. And favorable public opinion supports the claims of the able physicians who test the value of Doan's under exacting laboratory conditions.

These physicians, too, approve every word of advertising you read, the objective which is only to recommend *Doan's Pills* as a good diuretic treatment for disorders of the kidney function and for relief of the pain and worry it causes.

If more people were aware of how kidneys must constantly remove waste that cannot stay in the blood without injury to health, there would be better understanding of why the whole body suffers when kidneys lag, and diuretic medication would be more often employed.

Burning, scanty or too frequent urination sometimes warn of disturbed kidney function. You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel weak, nervous, all played out.

Use *Doan's Pills* It is better to rely on a medicine that has won world wide acclaim than on something less favorably known. *Ask your neighbor!*

First U. S. Admiral

this year was more than nother Independence day ittle city of Hastings on N. Y. Combined with it observance of Farragut the next day, July 5, he 140th anniversary of the he man who was its most hed citizen—David Glasragut, the first man who d the rank of admiral in d States navy.

h Farragut was born near , Tenn., on July 5, 1801, om a little cottage in Hast- Hudson that he went forth s greatest fame as a naval der. He was living there in aiting a call to duty, when summoned to Washington ed on the career which was him the victor in two of the portant battles of the Civil to place him in our galaxy heroes along with John Paul aac Hull and Oliver Hazard And all this he accomplished was 60 years old!

if any, American naval offi- e had as long and as dis- d a record as Farragut. by a famous naval officer, avid D. Porter, at the age of ung Farragut was given the ment of midshipman before 0 years old. He served on ate Essex, which captured prizes at the outbreak of of 1812 with England, and

HRAL D. G. FARRAGUT

tender age of 12, Midship- arragut was made prize-mas- one of the captured ships.

he time of the outbreak of the ith Mexico in 1846, Farragut sen to the rank of command- He immediately applied for nd of a ship and was finally the sloop Saratoga. In it he d there too late to take part capture of Vera Cruz, which ready fallen to the American orces. During the rest of the e had to content himself with de duty.

ever, greater glory awaited 6 years later and the story of rt in saving the Union is one s familiar to every American boy For it was Farragut who d his flagship, the Hartford, his fleet up the Mississippi, the thundering guns of Fort on and Fort St. Philip, and ed New Orleans in the spring 62. The immediate effect of ictory was to change the pur- of Emperor Napoleon III of e, who was about to recognize onfederacy and take measures se the blockade. It was Far- who ran by the batteries at Hudson and helped Gen. N. P. capture that important post y, 1863, so that Abraham Lin- was able to write "The Father aters now flows unvexed to ea."

finally it was Farragut who he great victory of Mobile Bay and to the famous sayings of heroes, such as John Paul "I have not yet begun to " and Oliver Hazard Perry's have met the enemy and they urs," added his own immortal n the torpedoes! Go ahead! speed!" Stopping the passage lockade-runners from Mobile hus closing another main ave- of supplies for the Confederacy Farragut's last important con- tion to winning the war.

November, 1864, his health had to fail and he was ordered . In December New York him a great public reception presented him with a purse 0,000 with which to buy a home . Soon afterwards he was made e admiral and on July 25, 1866, ress created the grade of ad- l, hitherto unknown in the Unit- tates navy, and that rank was to Farragut. He died in Ports- th, N. H., August 14, 1870.

* * *

rragut's memory survives in a sal bronze statue which stands arragut square in Washington, . It was made by Vinnie Ream, amous woman sculptor of Civil days, and was paid for by con- sional appropriation. There is a statue of heroic size executed Augustus St. Gaudens, in Madi- square in New York and in Church of the Incarnation is a ble tablet containing a bas-re- likeness of the man who has called "the greatest naval com- der the world has ever seen."

Woolknit Swim Suit Should Be Included in Vacation Plans

By CHERIE NICHOLAS

IT IS very evident that women are becoming increasingly impressed with the value of swimming for health and beauty. Not only do crowded beaches at seaside and lake resorts testify to the enthusiasm felt for water sports, but many inland towns have created attractive and pretentious modern swimming pools that offer infinite enjoyment to their communities. Then too, most private estates have picturesque swimming pools where guests may indulge in water sports.

Which all goes to show why smart bathing suits together with a goodly supply of beach togs and accessories have become a positive "must" in the plans for the summer vacation. As to this season's swim-suit fashions, they surpass all that has gone before in way of smart, versatile fabric, clever styling, eye-appeal in color and all the dramatic accents that add to the picture of Miss America as she takes off for a merry swim on a summer day.

Outstanding news in regard to current swim-suit trends is the strong revival of woolknits and woolknit fabric for both sculptured form-fitting types and that which is ultra chic this season—the suit that is cunningly dressmaker styled New to the scene this summer is the jacquard woolknit suit such as is shown to the left in the illustration Note the sleek front-paneled skirt in shadow plaid of brown and green on yellow. The back is cut very low for sun-tanning.

Bright red and white diagonal striped woolknit fabric makes the smart slenderizing princess (a favorite styling this season) bathing suit pictured to the right. The V-neckline is banded in the solid red knit, continued into cross straps at the back. Panties are separate so there is nothing to break the flattering smooth line of the suit.

Machine woolknits that look like handknits are also staging a big comeback in simple sculptured type such as adept swimmers love to wear. You will find handknit technique of heavy cable stitch in stunning colors, the stripe effects such as white with red or with navy being especially intriguing.

There is also a strong revival of wool jersey. These stress dressmaker styling which now is so pronounced throughout the entire swim suit program. Most of the jersey suits have practical zipper fastenings

Designers are turning out perfectly charming suits dressmaker-fashioned after the manner of the Ballerina type of waffle pique centered in the group Note the coin dot banding. Dot trimmings are very smart this season.

Floral prints and various cotton weaves make front page fabric news for swim suits and beach togs. The more audacious the coloring, the more daring the patterning, the smarter! This is especially true of the gay and fascinating Hawaiian prints now so fashionable The sarong drape skirt in exotic prints with bra top showing bare midriff is a leading style Novelty types are often styled with "grass skirts" inspired by Hawaiian native design. A lei necklace of flowers added, is the final glamour accent.

Bathing suits of elasticised fabric are to be had by the score. The newest thing in these types is two-color effects done in white with bright colored godets or inset vertical bands Allover shirred lastique insures a sculptural figure fit. Bright applique of gorgeous flowers on white jersey is especially effective with a long matching beach cape. There are endless cunning dressmaker-styled gingham shantung and crinkled seersucker suits. In knits and lastiques girls love the suit that zips up the back from the waistline to give a perfect fit.

(Released by Western Newspaper Union.)

Chic Plus Glamour

In a blaze of glory, lovely neckwear comes into its own this season. Women of fashion are enthusiastically playing up the vogue with appreciation of what magic frothy, snowy lingerie touches perform in way of accentuating feminine charm. Fine lace insertion, tiny tucks, dainty lace edging and eyelet embroidery combine for sheer femininity in this dainty collar and cuff set designed for the new V-neckline. In fine permanent finish Swiss organdy famous for its washability, this set provides a practical way to add glamour to a simple frock.

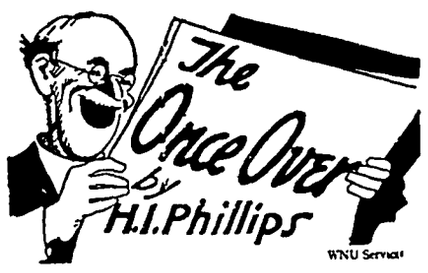
Cool Summer Outfits Of All Black Are New

You can dress in all black from head to foot and still look cool and summery. This is the miracle style creators have wrought. Briefly outlined the plan is sheerest of sheer black frock, hat of black sheer, gloves of the lacy sort and black stockings so cobwebby sheer they are almost transparent.

The newest black sheer dresses are finished off with edgings of fine black lace. This use of black lace trims is being played up to the point of being recognized as a most important vogue. Not only are dress-up black sheer frocks feminized to a most fascinating degree with lace frilled at throat and sleeves, on pockets and here, there, and everywhere to add glamour but the movement has been taken up by milliners who either make the entire hat of lace or trim with it. Big brims edged with lace frills are one of the new and entrancing lace expressions.

Enormous Brims Versus The 'Pretty' Little Hat

The problem is up to milady whether she will go hatted this summer in the flattering little frivolous flower concoctions she loves to wear or whether she will top her costume with a hat of enormous brim and look chic and sophisticated. Each type is attractive and the fashion-right way is to include both in this summer's wardrobe of hats.



OUR OWN GALLUP POLL ON THE DEFENSE PROGRAM

Question No. 1—How do you feel about America being the arsenal for all victims of aggressor nations?

Yes . . . 46 per cent.

No . . . 4 per cent.

Not sure what the word arsenal means . . . 32 per cent.

Wouldn't mind being an arsenal if it didn't interfere with week-end motor trip . . . 8 per cent.

* * *

Question No. 2—What do you think of the all-aid-short-of-war idea?

Yes . . . 42 per cent.

It's okay with me if it's okay with you . . . 12 per cent.

All right if the emphasis is put on the "short" . 8 per cent.

Any man who calls what we are doing short of war is a bad judge of distance . . . 30 per cent.

* * *

Question No. 3—Do you think the lag in our defense program is serious?

Yes and no . . . 35 per cent.

Undecided . . . 4 per cent.

Think what America needs most is a lag in microphone . . . 60 per cent.

Wouldn't know a lag if I saw one . . . 1 per cent.

* * *

Question No. 4—Do you think America is menaced as never before in its history?

Uhuh . . . 27 per cent.

Who am I to argue with the President? . . 40 per cent.

Too frightened to answer after listening to the last two messages on the state of the nation . . . 33 per cent.

* * *

Are you willing to make any sacrifice?

Who? Me? . . . 11 per cent.

Wait till I ask the missus . . . 12 per cent.

Yes, but I want to be sure all you fellows who are asking me that question in polls like this are not out playing golf . . . 68 per cent.

Are you in favor of an all-out war?

Not too far out . . . 25 per cent.

I am for an "all out" war if it doesn't leave us "all in" . . . 75 per cent.

* * *

What do you think of the situation in the Near East?

Yes . . . 40 per cent.

No . . . 10 per cent.

Undecided . . . 30 per cent.

I tried to find out about it, but the wire was busy . . . 20 per cent.

* * *

Mussolini is so quiet these days that you can hear a general dropped.

* * *

Sonja Henie's husband has been called in the draft, but the soldiers would much rather see Sonja in camp.

* * *

FISH STORY

It may be old, but it's new to this department. The story of two fishermen returning from a Florida trip. Asked if he had had much luck, the first fisherman told of landing a 600-pound sailfish first time out. "What did you get?" he asked.

"I hooked into something and when I pulled up I had a big brass lantern from an American ship sunk back in the War of 1812 and it was still burning!" he replied.

"Say," said the first fisherman, "I'm a reasonable fellow. If you'll blow out that light, I'll take 550 pounds off that fish."

* * *

Yehudi Menuhin, the famous violinist, has been given a Class I rating in the draft. But a lot of us will wonder why a great violinist is taken when the country is so full of bum fiddlers who ought to be shot.

* * *

Simile by Vincent Lopez: as modern looking as the hat grandma used to wear.

* * *

FAIR WARNING!

They say somebody dropped a bomb over Kilkenny the other day from 2,000 feet and that a Kilkenny man picked it up, threw it back and destroyed an enemy at 10,000 feet.

* * *

Elmer Twitchell hopes there is no lag in our fire hose program. "I agree with Mr. Roosevelt that if a neighbor's house is on fire the thing to do is to lend him your hose without quibbling. And if he asks for a ladder, I am for handing him one without all the crossbars missing."

* * *

It took a dentist two hours to pull one of Clark Gable's teeth recently. We understand that when Clark inquired, "Where's your strength in that good right arm!" the dentist replied, "Gone with the windup."

* * *

RESTAURANT MAN

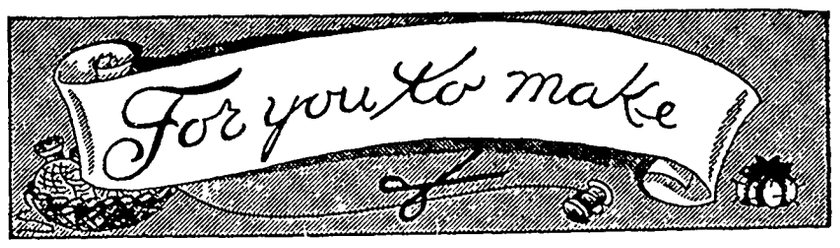
To customers he throws a curve,
His rating isn't high,
For he's the kind of guy who'll serve
Six portions to a pie.

* * *

On Hitler's doorplate in his old Munich home he is still listed as an author. And he appears to be the only author in history determined to kill off most of his customers.

* * *

Maybe Hitler gets his author idea from the feeling he is one of Europe's best "shellers."



Pattern 2797.

EASY stitchery—a little time—and this appealing panel is ready to be hung up—a brightener for any room. Even the beginner will find this simple and pleasant to do.

* * *

Pattern 2797 contains a transfer pattern of a 15 by 20 inch hanging, illustrations of stitches; color chart, materials required. Send your order to

HOUSEHOLD HINTS

When frying don't put in the article to be fried until the fat is still and a faint smoke is seen rising from the pan.

* * *

Window screens may be washed with a hose.

* * *

Add about a third of a cup of cooked crisp bacon to the regular muffin batter. This addition makes a delicious muffin.

* * *

Cook linked sausages in a covered frying pan over a low fire. The fat will then cook out so slowly that the links will keep their shape and all the flavor will remain in the sausages.

* * *

When polishing hardwood floors be careful not to use too much wax. Put on too thick, it is hard to polish. Let the wax remain on the floor for 24 hours and it will be much easier to polish then.

JUST RESTING

Quick Effect

"Was your lecture on economy a success?" asked Blankley.

"Yes," replied Blinkson, "they gave me two hearty cheers."

In court the quarrelsome woman admitted that she had pulled out a handful of her neighbor's hair. She said she wanted it for a locket.

Called Her

"Any knives or scissors to grind, ma'am?" inquired the man at the door.

"Don't think we have," replied the facetious young wife, "but can you sharpen wits?"

"Yes, if you've got any!"

Quite Apparent

"Don't you see the resemblance? asked the proud mother, exhibiting her baby. "Just look at our faces side by side."

"Nothing could be plainer," replied the guest absent-mindedly.

Stamping Coins

The pressure required to stamp the design of United States silver coins varies tremendously with the size of the coin itself. A dime requires from 35 to 45 tons, a quarter from 60 to 100 tons, a half-dollar from 100 to 110 tons and a dollar 160 tons.

It is not by saying "Honey, honey," that sweetness comes into the mouth.—Turkish Proverb.

It's A GOOD AMERICAN CUSTOM

PEANUTS FOR JUMBO

Feeding peanuts to the elephant is a good American custom that probably started when Crowninshield's elephant made its historic bow in Salem, Mass., in 1796.

Another national custom is enjoyment of the full, fine flavor of America's most popular cigar—King Edward. For real smoking pleasure, try a King Edward today.

Attest

FRED C MISSAL, County Auditor — PENN ECKELS, Chairman

EVENTFUL MOMENT

A rock in the road caused Frank Popelka, Marion, quite an exciting moment last week Swerving to miss the rock, he struck a chuckhole, the car went out of control and landed in the ditch. Popelka suffered a shoulder injury.

AVERY TOWNSHIP NEWS

Fred Bachman was taken to the Hamptoi hospital Friday for medical treatment for a ruptured blood vessel in his leg.

Mrs. Henrietta Wilkins and Mrs Onno Suntken, Larry and Jerry, of Meservey visited at the Verner Nelson home Friday afternoon

Mrs. H. A. Nelson and son Byron returned to their home Saturday after a visit at the Tom Nelson home.

Mrs Bert Clausen of Fairbault, Minn, came Friday for a week's visit at the home of her parents, Mr. and Mrs. Fred Bachman

Mr and Mrs Tom Nelson visited at the Bert Lauen home in Belmond Monday evening

Mrs. Fred Bachman and Wayne, Mrs. Bert Clausen, Mr and Mrs. Ed. Neuhring of Belmond and Mr and Mrs Walter Neuberger of Rockford spent Sunday afternoon visiting with Fred Bachman at the Hampton hospital.

Verner Nelson and family visited in Meservey Monday evening

the West Coast. Mr. and Mrs. Chambers will visit with her sister and other relatives at Seattle, Washington, while Mrs. Bredbenner and Novella will visit with her sister, Mrs Steve Day at Hubbard, Oregon. They will also take in the National Parks and many other points of interest along their route of travel. Miss Thelma Chambers, who has been in Seattle most of the summer, will return home with her parents.

What do you know about women? Are they more affectionate? Tactful? Ticklish? Better liars, bosses and drivers than men? Dr Laird, psychologist, explains many curious notions about the much misunderstood ladies. Read this interesting feature in The American Weekly, the magazine distributed with next week's Sunday Chicago Herald-American.

noleum

• THIS IS THE BEST TIME OF year to lay Linoleum Floors, as Linoleum and Hard Rugs handle nicely in hot weather; not so much danger from "cracking."

• IT PAYS TO HAVE US PASTE your Linoleum to the floor. This adds about 35c per square yard to the cost of installation but it will double the life of your linoleum and positively prevents "buckling."

• THE PRICE OF LINOLEUM and Hard Rugs has not advanced as yet, and we are selling for less than last year.

By Jergie

HE BUILDS POWER LAWN MOWERS

Our blacksmith frfend, Wallace Pavey, is a handy man, which he demonstrated recently when he built a power lawn mower for one of his cu tomers

The machine consisted of an ordinary lawn mower to which Mr Pavey attached a small gasoline washing machine motor. The finished product looked like a factory job and worked to perfection.

HONKING CAR HORNS AT NIGHT AGAINST LAW

Residents of Klemme have been complaining the past couple of weeks of the unnecessary noise, especially to the honking of automobile horns at night

Saturday nights after midnight seems to be the favorite time for the horn honkers to get to work [illegible] to be reminded that honking horns after such-and-such is against the law except in case of emergency

There are several streets in this town that can stand a few loads of gravel We suggest to the authorities that be to slap a good stiff fine on these late merry-makers and let them contribute to the gravel fund!

It's time that our officials put a stop to the night noise making

THIS LAD CAN SHOW YOU HOW TO CATCH CARP

'Jack' Bock, son of Phillip Bock, can show some of you old timers a thing or two when it comes to fishing for carp in the Iowa River near Klemme

In two trips to the river "Jack hooked and landed forty-two good sized carp!

NEBRASKA STEALING OUR THUNDER SAYS HALL

Earl Hall has the following to say in his Eye Observing column in the Globe-Gazette.

"I note with some concern that Nebraska is trying to steal Iowa's tall corn thunder This is reflected in the following from a Cuming county, Nebraska, newspaper"

A farmer climbed a corn stock to view his field To his dismay he found he could not slide down as fast as the corn stalk grew Efforts of friends to save him were in vain for they could not gash the stalk twice in the same place so fast did it grow When the poor man was last heard from, he was somewhere up there with nothing but green corn to eat Four bushels of corn cobs lay at the foot of the corn stalk'

PERIL FOR AMERICA INCREASED

Forest City Summit The necessity for Hitler's invasion of Russia shows several failures on the part of the nazi military machine It proves that the British blockade of Germany has been effective and that the British defensive position in Egypt is fairly safe in spite of 'defeatist" talk in this country. However the invasion does increase peril for this country as it shows Hitler is contemplating a world conquest and should he get, as it seems quite probable he will, the wheat and oil of southern Russia, he will be supplied with materials for a long war, circumventing the British blockade Immediate and decisive action with Great Britain and her allies in our common defense should be our policy Instead of decreasing our danger, Hitler's action in Russia will in the end, increase the peril in this country

FILL YOUR COAL BINS DURING THE SUMMER!

You may save yourself a lot of trouble next fall and winter if you will fill your coal bins now. It is quite possible there may be a car shortage due to defense work and it may be hard to get coal.

This may sound like a "plug" for the coal dealers, but we think it is good advise. At any rate, we are scared enough of a possible coal shortage, that we are having our own bin filled as fast as we can spare the cash.

"SAFE RIDER CODE FOR BICYCLISTS"

There are a large number of bicycle riders in Klemme. They can be better "cycle drivers" if they will observe the following safety rules:

1. Always use hand signals before stopping or making a turn.
2 Always have a light on both front and rear of bike when riding after dark
3 Always stop for STOP signs.
4. Always ride on right side of road or street near curb.
5 Always ride in straight line. Don't wobble, weave or zig-zag.
6 Never carry another passenger on your bike with you.
7. Always keep hand on handle bars and never "trick" or "stunt" ride
8 Never ride over two abreast. Single file is safer yet
9 Never hitch onto moving vehicles It is too dangerous.
10 Never carry objects in the hands while riding. Put them in proper carrier, basket or rack so as to have one hand free to signal and the other to keep on handle bar

"SAFE BICYCLE RIDERS ARE NEVER SORRY"

Klemme Local News

Joy Evans of Kanawha, Betty Etchen, Evelyn Arnold, Ellen Kilgore, Eloise Etchen and Velma Kaduce are spending this week at a cottage at Clear Lake enjoying an outing.

Mrs Walcutt came Monday and took her mother, Mrs Herb Bailey to Rochester, Minn on Tuesday where she will have a check-up at the Mayo Clinic Mrs Walcutt expects to spend the balance of the week visiting in the community

Mrs. John Dominy and Josephine returned last Wednesday evening from a visit with relatives at Wagner, South Dakota. They also visited with Mr and Mrs Dale Schriener at Moville, Iowa. Mrs. Schreiner is a daughter of Mr and Mrs. Elmer Schneider.

Dr and Mrs W F Missman, and Dr. Byrnes Missman of Garner, left Saturday evening for Lan 'O Lakes, Wisconsin to spend their vacation at the Missman cabin on a lake Dr and Mrs. Missman expect to be gone from Klemme ten days or two weeks

Mr and Mrs. Ernest Gerardi and little daughter, Gracka Maria, left Monday on a two week's vacation trip. They will spend several days in Chicago visiting with Mr Gerardi's relatives and will be at the Quandt cottage on Lake Superior, near Two Harbors, most of the time.

Mrs Herman Paul writes interestingly of her trip to Louisiana, in which she described the beautiful scenery along the way. Mrs Paul and her mother, Grandma Suckow accompanied Mr. and Mrs Carl Suckow to their home in Jennings, La, for a visit They expect to remain there for a month.

Miss Ethel Overholt is enrolled for a summer course in Nutrition at Iowa State College. Eight other students from Hancock County are enrolled for summer classes and there are a total of 1728 students enrolled for summer courses this year, the largest in the college's history

Mr and Mrs Wm. Baack and children, who live on a farm south of Mason City, spend Sunday visiting with relatives in this community Mr. Back has not been well for several months and was in a hospital for several weeks He expects to enter the University hospital at Iowa City for further treatment.

A dinner at the Pavey home on Sunday served the double purpose of honoring W. F. Pavey's birthday which was Friday, and the wedding anniversary of Mr. and Mrs. Wayne Pavey on Monday. Those who enjoyed the dinner were Wayne Pavey and family, Mr. and Mrs. John Clements and Mr. and Mrs W. F. Pavey.

NOISES

In lieu of firecrackers for noise, the Pella Gun Club invited everyone to their club shoot on the 4th. Each contestant was to be presented with a ring of bologna.

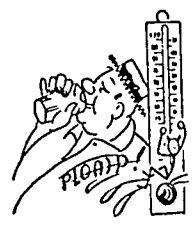
Plenty of the protective foods, such as eggs, milk, fruits and vegetables—all excellent salad materials—should be eaten.

Japanese Potato Salad will really give a meal a lift! Easy to prepare, inexpensive, it may be used as a main dish, with a cold meat platter, or for additional variety so acceptable to the buffet table.

Japanese Potato Salad.

1 cup flaky, hot boiled rice
1 medium to large potato, hot mashed
4 hard cooked eggs
¼ cup french or boiled dressing
2 tablespoons chopped sweet red pepper, or pimiento
1 tablespoon chopped green pepper
1 tablespoon chopped onion
1 tablespoon chopped parsley
½ teaspoon salt

Mix rice, potato and two of the eggs, which have been sieved, into salad dressing. Chill. Just before serving, add remaining ingredients. Taste and add more seasoning if desired. Heap on lettuce, or serve without greens in a large bowl. Garnish with remaining eggs, sliced or sieved. Yield: 4 servings.



* * *

When the mercury soars skyward and appetites are on the wane, nothing tastes quite so good as a chilled, molded mixture of fresh vegetables or fruits, placed on a bed of crisp greens and garnished with a tart, taste-teasing dressing.

Lime Cucumber Salad.

1 package lime gelatin
1½ cups hot water
2 tablespoons vinegar
½ teaspoon salt
2 teaspoons scraped onion
Dash of paprika
1 tablespoon chopped pimiento
1 cucumber, diced

Dissolve gelatin in hot water, then add vinegar, salt, scraped onion and dash of paprika. Chill until beginning to thicken, then fold in chopped pimiento and diced cucumber. Chill until firm and serve on salad greens with a garnish of mayonnaise.

* * *

Since it's open season on salads, homemakers who like variety will be interested in several types of salad dressings. Here are two which will do much to bring out the full flavor of your tasty concoctions.

Thick French Dressing.

1 cup salad oil
½ cup vinegar
1 teaspoon mustard
1 tablespoon sugar
3 teaspoons paprika
1 teaspoon gelatin

Mix dry ingredients; add oil and vinegar. Beat thoroughly. Put the gelatin in 1 tablespoon cold water and dissolve in 2 tablespoons boiling water. Cool; add dressing. Beat thoroughly about 15 minutes and allow to stand until a good emulsion is formed. Use fruit juice instead of vinegar for fruit salad. Use more paprika if a darker red is desired.

Egg Dressing.

½ teaspoon paprika
½ teaspoon celery salt
¼ teaspoon pepper
5 tablespoons vinegar
1 egg yolk
½ teaspoon mustard
1 teaspoon sugar
½ cup salad oil
1 teaspoon salt

Mix ingredients and shake well. Add beaten egg yolk when ready to serve. Half lemon juice and vinegar may be used.

THE RESPONSIBILITY OF THE CHURCH REGARDING BEVERAGE ALCOHOL

LESSON TEXT—I Corinthians 5:9-13; Titus 2 1-8.
GOLDEN TEXT—Ye are the salt of the earth.—Matthew 5 13.

The church has a grave responsibility regarding alcoholic beverages, but in recent years it has largely failed to meet it with intelligence and enthusiasm. Let us never forget that the first business of the Christian and of the church is to preach the gospel, winning men to Christ. It is not our calling to attempt by social or economic methods to right the wrongs of this world. Nor is ours a "social gospel" with the emphasis on "social." But have we forgotten that it is a gospel with serious social implications and responsibilities?

The man, and the church, who follows Christ should be vitally concerned about every influence in American life which is destructive to character, and right at the top of that list stands alcohol. To meet this gigantic (and growing) problem effectively the church must be

I. Separated From Sin (I Cor. 5:9, 10).

A church living in careless worldliness has no testimony against the sin round about it. In fact, its influence is definitely on the wrong side The Christian is to be in the world, but not of it. He must live with the sinners, but he must never by word or deed, or even by his presence in the wrong place, seem to condone their sin nor fellowship with them in it.

Here we have one of the horrible weaknesses of our day. Men and women who profess to follow Christ (whether they really do, only He can judge) indulge in a social glass of wine, or sip a cocktail "for the sake of courtesy," or attend gatherings which are obviously non-Christian or anti-Christian. If there is to be effective dealing with any problem—with the liquor problem—we must have separated Christian living.

II. Cleansed of Wicked Persons (I Cor. 5:11-13).

Even a "man that is called a brother" (v. 11) may not be one at all, but may be a "wicked person" (v. 13). We are not able to judge any man's spiritual experience. His relationship to God is a matter between him and God, but if, in his life, he shows himself persistently to be on the side of wickedness, it is the duty of the church to have him "put away from among" them (v. 13).

We can only judge a man by his actions, but we are required to do that for the sake of the purity of the church and the effectiveness of its teaching. This is not to be done in self-righteousness, but in humility and with the constant effort to restore such a one (Gal. 6:1). But it should be done. We are woefully weak in the matter of church discipline, and it shows in the inability of the church to do valiant service for God and country.

III. Intelligent in Doctrine (Titus 2:1-8; esp. 1, 7, 8).

To be informed is to be wise, able to plan properly, balanced in judgment and action, useful and effective. Fundamentally every problem of life finds its solution in a proper knowledge of the doctrines of the Christian faith. It is of great importance that we have information about the liquor traffic, about the dreadful results of the use of alcohol, etc. Helpful material on such subjects is available, and the sources are known to ministers and Christian workers. However, we must hold and use this information in relation to Christian truth if it is to be fully useful. A temperance worker without Christ in his own life and in his labors against liquor is weak, lacking the real solution and the dynamics to proclaim it effectively.

IV. Consistent in Life (Titus 2: 1-8, esp. 2, 5, 7).

It is what we are that speaks so loudly that folk do not pay any attention to what we say. This passage clearly states the fact that both young and old, both men and women —yes, even the preacher (v. 7)—are to present before the world the undeniable teaching of a consistent Christian life.

Read the exhortations of these verses again with great care and apply them first to your own life, and then to your own church. What great Christian graces we have here! Note that again and again there is the admonition to temperance. No user of intoxicants can be sober, temperate, discreet, chaste, sound in faith, and so on.

The writer of these notes is convinced that the only consistent position for the Christian (individually or in the church) to take regarding alcoholic beverages is that of total abstinence for himself and the legal elimination of temptation from others.

PATTERNS
SEWING CIRCLE

HERE is the peasant flavored Basque silhouette which junior girls have taken to so widely in the past few months. Barbara Bell interprets the popular new fashion in a one-piece frock. Typically basque, with the long top fitted through the waistline and gathered at a bustline to emphasize feminine curves. The full skirt is attached at the hipline. Order Pattern No. 1402-B for yourself today and be the first in your community to wear the new, youthful basque fashion. Shows off the best features of the young girl's figure and has a fresh appeal of complete femininity.

The pattern can be made up in the new flower printed cottons—chintz, percale or broadcloth. And in soft batiste, lawn, voile or dimity. It's cute, too, in gingham, seersucker or calico. It's a real summer frock, adaptable to any summer materials.

* * *

Pattern No 1402-B is designed for sizes 11, 13, 15, 17 and 19. Corresponding bust measurements 29, 31, 33, 35 and 37 Size 13 (31) requires 4⅞ yards 35-inch fabric without nap. 10 yards of ric-rac braid are needed for trim. Send your order to:

Ask Me Another
A General Quiz

The Questions

1. What is a chuck-will's-widow?
2. When it's 11 a. m. in Omaha, what time is it in Galveston, Texas?
3. Where are the Plains of Abraham?
4. What does a mace symbolize in legislative houses?
5. How does the world's record for running and ice skating 100 yards compare?
6. Who did Sir Walter Raleigh plot to place on the British throne in place of James I?
7. In what state is Harper's Ferry, the scene of John Brown's raid in 1859?
8. How many Presidents of the United States died on July 4?

The Answers

1. A bird. (So called from its note.)
2. 11 a. m.
3. Canada (Quebec).
4. Authority. A mace is a staff or mallet.
5. The record in both cases is 9.4—Identical to the split second.
6. Arabella Stuart.
7. New York.
8. Three—John Adams, Thomas Jefferson and James Monroe.

DOES YOUR JOB OFFER THESE 10 OPPORTUNITIES?

You can get them ALL in the U. S. NAVY!

		YOUR JOB	NAVY
1	**TRAINING WORTH $1500.** The U. S. Navy offers you technical training in nearly 50 trades and vocations, worth at least $1500. You can become an expert in radio, aviation, electricity, Diesel engines and many other well-paid trades at absolutely no cost. The Navy gives you good pay (and keep) while you learn.		✓
2	**STEADY PAY GUARANTEED.** No layoffs . . . no seasonal slumps . . . no pay cuts when you're in the Navy. The Navy guarantees you a generous pay envelope twice every month in the year.		✓
3	**REGULAR PAY INCREASES.** You can be sure of steady pay increases up to $157 a month . . . with plenty of opportunity for additional allowances and promotions as you go along. Your income can increase seven times during your first enlistment.		✓
4	**ALL LIVING EXPENSES PAID.** In your present job you must use your income to pay for food, rent, education, travel, entertainment, and savings for the future. ALL THESE THINGS ARE FREE TO NAVY MEN. Your pay is your own to use in any way you please.		✓
5	**FREE MEDICAL AND DENTAL CARE.** Unexpected sicknesses, expensive doctors' and dentists' bills can take a big slice of your civilian income. But not in the Navy! This is one worry you can avoid, one emergency you never have to save for. Navy men get the best of medical and dental care absolutely free.		✓
6	**RETIREMENT INCOMES.** In the Navy you'll never have to worry about your future. If you stay in the Navy, you'll never have to skimp and save for your old age. When you become eligible for retirement (sometimes as early as age 37), the Navy guarantees you a monthly income for life.		✓
7	**CHANCE TO REACH THE TOP.** By enlisting now you may have the opportunity to attend the U. S. Naval Academy at Annapolis . . . or the opportunity to become a Commissioned Officer in the Naval Reserve . . . or the opportunity to become a Naval Aviator.		✓
8	**FUN AND RECREATION.** Where else can you lead the healthy life that the Navy offers you? Ashore or afloat, you get year-round boxing, swimming, baseball, football, and other sports. You associate with the finest group of men in the world. And you enjoy entertainment of all kinds *plus the latest movies.*		✓
9	**TRAVEL AND ADVENTURE.** Navy maneuvers take U. S. ships all over the world—Alaska, Hawaii, the Philippines, North and South America. You get regular shore leaves in exciting foreign ports.		✓
10	**CHANCE TO SERVE YOUR COUNTRY.** No other calling gives a red-blooded young American so great a chance to serve his country. No other career offers him so great an opportunity to build a successful future.		✓

Earn good Navy pay while you train for any one of these 45 jobs:

- ▶ AVIATION MACHINIST
- ▶ PRINTER
- ▶ PHOTOGRAPHER
- ▶ BANDMASTER
- ▶ PAINTER

IS FAMILY REUNION D SUNDAY

Lewis family reunion was held ay at the Paul Van Buskirk e honoring Clifford Lewis, e birthday was Saturday.

mong those who were present : Mr and Mrs. J. R. Maitland, and Mrs. Roy Tyler, Mr. and Jesse Fisher and Audrey, Mr. Mrs. Howard Lewis and Bobby, and Mrs. Floyd Porter and ren, Mr and Mrs. Alva Dunaand family, all of Fort Dodge rs. Wayne Nissen and family, Irene Peck of Mason City.

r. and Mrs. Leon Gilpin and ly, Mr and Mrs. Clifford Lewd sons, Mr. and Mrs. Paul Van urk and Francis Lee of this munity.

he affair was planned as a sure gathering on Mr. Lewis, and as very successfully carried to his complete surprise.

he guests brought well-filled kets of food and a buffet din was served at noon. Later in afternoon ice cream and cake e served.

ear the close of the day, Mr. is was presented with many ful gifts and all wished him a py birthday and many more of m.

KLEMME SCOUTS WILL GATHER ALUMINUM

The Klemme Boy Scouts will make a house-to-house canvass on Friday afternoon of this week Get your old pots, pans and scrap aluminum ready for them. The drive will take in every residence in the town of Klemme.

ORPHANS HOME BAND WILL GIVE CONCERT HERE ON FRIDAY EVENING

This week Friday the Orphans Home Band of Fort Wayne, Ind, will give a concert at the Klemme Legion Hall, beginning at 8 30 o'clock.

This program is sponsored by the Reformed Churches of Ell Town and Klemme.

The ladies of these congregations will entertain the members of the band and provide lodging for them

The Orphans Home of Fort Wayne is owned by the Evangelical and Reformed Church. The Rev. A. Stienecker is the superintendent and will be here with the children and show pictures of the home

An offering will be received for the benefit of the Home. Such offerings are the only means of support on which this institution depends.

From here the band will leave for Menno, South Dakota, where they will take part in a Youth Conference on Sunday.

Rev. and Mrs. Grosshuesch are also leaving for Menno Saturday, where Rev Grosshuesch will speak at the same conference.

On the 3rd of August the band will play at the Mission Festival at Freeman, South Dakota, where Rev Grosshuesch will also speak

There will be no services Sunday at the Reformed Church Rev Thompson of the Garner Presbyterian Church will conduct services here August 3rd.

MRS. TOD BERLIN HONORED AT GARNER BRIDGE PARTY

Mrs Edwin Bock, of Garner, entertained a number of Klemme ladies at her home Friday at a one-thirty o'clock dessert lunch followed by bridge at two tables. The party was given in honor of Mrs. Tod Berlin of New York City, who is visiting in Iowa for six weeks.

High prize was won by Mrs. C G. Waterman, and second high for the afternoon was won by Mrs. P M. Wilson. Mrs. Berlin was presented with a gift

KLEMME CIVIC CLUB WILL MEET THURS. JULY 31

President R R Reece has called a meeting of the Klemme Civic Club for Thursday evening, July 31st, at the Legion Hall.

At this meeting plans will be made to assist the Farm Bureau in putting on their Sport Festival to be held in Klemme August 14th.

All business men are urged to attend this meeting.

HELLO, FOLKS!

Mr. and Mrs. Clell La Favre are the proud parents of a six pound baby son born to them at the Belmond hospital on Tuesday, the 15th of July. Before her marriage, Mrs La Favre was Miss Iris Sherwood. They reside on the Sherwood farm southeast of Klemme.

RETURNED

For the past ten years, a gold watch and chain belonging to J R. Strickland, Parkersburg, had been lodged in an old vacuum cleaner discarded years ago. The watch was found last week by a man rummaging through a trash heap where the sweeper had been discarded. The watch was returned to Strickland as good as ever after a thorough cleaning.

U. S. NAVY RECRUITING OFFICER PRESENTS APPLICANT WITH NEW "BADGE OF HONOR"

COMMANDER F. K. O'BRIEN, of the U. S. Navy Recruiting Service, is shown here placing the new Navy "Badge of Honor" on the lapel of an applicant for enlistment in the Navy. (Badge shown above at right.) All ambitious young men who apply for service in Uncle Sam's "Two-ocean" Navy, whether accepted or not, are given this new badge as a mark of their patriotism. To learn of the many opportunities the Navy offers, local men of 17 years and over can get the official illustrated free booklet, "Life in the Navy," from this newspaper's Navy Editor.

Navy Does Not Demand High School Education

LEGION HEAD, HIGH SCHOOL PRINCIPAL TELL OF OPPORTUNITIES FOR YOUNG MEN

Since Secretary Knox ann unced the enlistment drive for Uncle Sam's new Two-Ocean Navy several weeks ago, many young men have asked if they were eligible to enlist without a high school education

J C Thomas, Commander of the American Legion Post in Klemme, answers this important question for the young men of this community

Thomas states, "Navy enlistees do not have to be high school graduates Any ambitious and patriotic young fellow who want to serve his country has that opportunity now by joining the United States Navy. Of course, he must be of average intelligence and good character and able to pass certain physical and mental exminations. Now, more than ever before the Navy needs men of that type

"All applicants, whether or not they have high school diplomas, are given an elementary examination containing about one hundred questions," explained Mr. Thomas. "Those receiving a grade of 50 per cent or more satisfy Navy educational standards"

"Naturally, a high school education is helpful in the Navy, just as it is in civilian life," pont out local school men

"There are certan advantages for the high school graduate in the Navy," said A L. Kingery, principal of the Klemme high school "He has a wider background to call upon in earning advancement in position and pay For example, men who are proficient in English may be sent to one of the Navy's communications or clerical schools Recruits with a knowledge or aptitude for handling tools might be marked for a trade or engineering course"

The Navy has four excellent trade schools to which new recruits may be sent after a training period, providing they pass entrance examinations with sufficient high grades. At these schools they will be trained in any one of nearly fifty trades or vocations to which their aptitude suits them and will receive schooling free, and valued at $1,500 in addition to regular pay. Such an education is valuable for advancement in the Navy and in later life.

Young men who are interested in getting an education and learning a good trade are asked to fill in the coupon in the Navy advertisement in this issue and mail to the Klemme Times The Editor will send you a book telling all you want to know. You are under no obligation whatever Mail the coupon or bring it to the office.

FORMER KLEMME GIRL BRIDE OF GARNER BUSINESS MAN

Garner Leader Miss June Ludeke, eldest daughter of Mr. and Mrs. Ralph Ludeke of Ventura, became the bride of Daniel Collins, son of Mr. and Mrs D. F Collins, Saturday morning at 7 o'clock at St. Boniface Catholic church, with the pastor, the Rev M. J. Manternach, officiating They were attended by Miss Mary Collins and Bernard Collins, sister and brother of the groom

The bride was attired in a street length white ensemble with accessories to match.

Both the bride and groom graduated from the Garner high school with the class of 1936. The bride has taught in the rural schools of Hancock county for the past five years and the groom has established a filling station business near the Garner Sales Barn just west of town

Following a trip to the Dells of Wisconsin, Mr. and Mrs. Collins will establish their home here

A wedding breakfast was served following the wedding at the home of the groom's parents, with members of the immediate family in attendance Miss Doris Ludeke, sister of the bride, of Des Moines, was an out of town guest.

(The Ludeke family formerly lived on a farm near Klemme.)

BULLET EXPLODED IN HER KITCHEN STOVE

Mrs. John Walker of near Rodman, was injured six months ago when a bullet exploded in her kitchen stove. The lead struck the palm of her hand causing a wound which apparently had healed. Recently, the wound became painful and it was found that the bullet was still in her hand. The bullet has been removed and the wound is healing a second time.

FIVE KLEMME SCOUTS AT CAMP ROOSEVELT

Five Klemme Boy Scouts are enjoying a week of camping and scouting activity at Camp Roosevelt, Clear Lake.

The following boys entered the camp Sunday: Jimmie Thomas, Herb Mueller, Duard Lewis, Ewald Grosshuesch and Junior Buntenbach.

KLEMME CHOSEN AS SITE FOR ANNUAL FARM BUREAU SPORTS FESTIVAL

Second Annual Event Will Be Held Thursday, August 14th

Plans for the second Hancock County Farm Sports Festival to be held at Klemme on Thursday, August 14th were announced today by committee chairman Clark Lackore Other members of the committee were: Mr. and Mrs. George Gaskill and Gratus Cooper of Magor township, Mr and Mrs C A. Bird of Bingham township, Ruby Schram of Ell township and county agent, Burlin Hamer. This committee was announced following the July meeting of the Hancock County Farm Bureau Board.

Upon invitation this year's event will be held at Klemme and will include the following events: baseball throwing for distance; basket ball free throw; chair quoits; clock golf; dart throwing; dashes; broad jump; horse shoe pitching; nail driving; 4-H boys 440 yard relay; softball; tug o'war; rolling pin throwing.

Each event is open to all Hancock County farmers and their families and Farm Bureau members and their families residing in town Those appointed on committees for the various events are baseball throwing, Wayne Huling and Lloyd Zwald; basketball free throw, Clark Lackore and Oscar Anderson; chair quoits, Mrs. Floyd Friedow and Ruby Schram; clock golf, Mildred Gaskill, Mrs. C J Wille and Mrs D. Keat; dart throwing; Lucille Anderson and Mrs. Chas. Hall; dashes, Robert Guernsey, Walter Thorson; broad jump, Lester Wilhite and Clark Clement; horse shoe pitching, C. J Wille and Klemme business men; nail driving, C A. Bird and Geo. Gaskill, 4-H boys 440-yard relay, Wm Wickelman and John Ostercamp; softball, Floyd Friedow, Gratus Cooper, Wiley Weaver, Harry Ostlendorf, Walter Anderson and Melvin Hill; tug o'war, V. A. Cook, Carl Franzen, Joe Mikkelson, Guy Geddes; rolling pin throw, Mrs. L. F. Weaver, Robert Hoadley, Walter Kahl

The games will begin at 9:00 o'clock in the morning. Plan to come and spend the day in Klemme.

There will be plenty of seats at both the Park and the school play grounds and ample facilities for those who want a picnic dinner.

MOTHER OF FORMER SCHOOL SUPERINTENDENT HERE DIED AT MASON CITY

Funeral services were held Tuesday afternoon at Mason City for Mrs. William Galbreth, 68, who died Sunday morning following a stroke on Friday evening.

Mrs. Galbreth was the wife of Rev. William Galbreth,, associate pastor of First Methodist church in Mason City.

Mrs. Galbreth is survived by her husband, her daughter, Agnes at home and former principal of the Klemme high school, Henry, of Des Moines, and former superintendent of the Klemme schools, her daughter, Ruth, who is Mrs. J. W. Van Deest of San Fernando, Cal, and two sisters and five brothers in Pennsylvania There is also one grandson, Billy, of Des Moines.

A number of Klemme friends attended the services.

NO SERVICES SUNDAY AT REFORMED CHURCH

Rev. Grosshuesch announces no services are scheduled at the Reformed church next Sunday.

Sunday school also has been cancelled for that date.

Friday at 8:30 p. m. there will be a concert by the Fort Wayne Orphans Home band at the Legion Hall. An offering will be taken for the benefit of the home.

KLEMME RED CROSS WORKERS HAVE COMPLETED 99 ARTICLES

Mrs. Sumner Trumbull, leader of the Klemme Red Cross group of workers, announces that the ladies here have completed 99 articles up to July 15, which have been packed and sent to the Chapter at Garner.

Following is a list of the finished garments completed by the local workers·

3 Baby Layettes, 15 pieces each.
33 Wool Dresses.
15 Pairs Men's Pajamas
6 Pairs of Baby Booties.

Red Cross Workers

The following ladies have assited with the work here:

Mrs Paul Mueller, Mrs. Arthur Wellemeyer, Mrs. Louise Rosendahl, Mrs. Orville Bridges, Mrs. John Etchen, Mrs. C. C. Kilgore, Mrs. P W. Johnson, Mrs Benn Coobs, Mrs. Henry Lewis, Mrs. G. A Goll, Mrs Naska Bock.

Mrs Clarence Waterman, Mrs. Ralph R. Reece, Mrs. Gerald Koerner, Mrs. John N Day, Mrs. J E. Stille, Mrs. W C. Keraus.

Mrs. Ed Becker, Mrs. Wallace Pavey, Miss Lydia Bock, Mrs. A. E. Jackson.

Mrs. Clarence Larsen, Mrs. Awalt Yahnke, Mrs. George Lawhorn, Mrs. Walter Lemke.

Mrs Tom Roths, Mrs. Ray A. Jorgenson, Mrs. Alfred Merkel, Mrs. Henry Galbreth, Mrs. Sumner Trumbull.

Mrs. A. H. Dulmes, Mrs. Ernest Lewis, Mrs. Clarence Lemke, Mrs. Della Christie.

Work Every Tuesday

Tuesday afternoon has been set aside as the time for working on Red Cross sewing and many ladies meet with Mrs Trumbull at her home on that date.

Those who would rather work at their own home can come to Mrs. Trumbull's home on Tuesday afternoon and receive supplies and instructions.

More workers are needed. Mrs. Trumbull pointed out that there is a variety of work to be done and ladies can find something to do to their liking and ability.

Help the Red Cross!

NEW H. D. A. EMPLOYED FOR HANCOCK AND WINNEBAGO

At a joint committee meeting of Hancock and Winnebago County Farm Bureau officials Miss Eleanor Ruth Eyestone of Fairfield, Ia., was hired to succeed Ruth Willits Hitch as home demonstration agent for the two counties. Miss Eyestone is a Home Economics Education graduate of Iowa State College where she finished work in June of 1940. During the past year she has been teaching in the Montrose public school in the vocational home making department. At Montrose Miss Eyestone had charge of an adult women's evening school class.

Miss Eyestone has a good background of training for the new work she is about to take up. She was born and raised on a farm and has splendid records as a 4-H club girl. She will take up her duties in the two counties on Aug 11th.

ADULT SIZE BULLHEADS PUT IN IOWA RIVER FRIDAY

The Iowa Conservation Commission brought in a truck load of good sized bullheads which were placed in the Iowa River west of Klemme Friday morning.

The bullheads were brought in from the Mississippi River and were seined near Lansing. There were over 2,000 bullheads in the load turned loose in the river west of Klemme.

The bullheads are providing a lot of sport for those who enjoy fishing and some good catches are reported.

Low-Cost Houses Foundation For Healthy, Happy Home Life

Some of the 48 houses being removed above to make room for new homes which will have comfortable and modern living quarters, similar to the top scene. This slum clearance project is being sponsored by the city of Frankfort, Ky., and will house 61 families who previously occupied the area shown here.

WASHINGTON.—Pounding hammers, buzzing saws, swishing paintbrushes and rattling plumbing are harmonizing in a new song of progress as the nation pushes forward its new-born drive to bring better low-cost housing to millions of families in the smaller cities and towns throughout the land.

Hundreds of small communities are swinging into the movement as Uncle Sam and many of his nephews carry on the task of doing something about the 10,000,000 American families living in homes that are considered to be dangerous to health and safety. While the big city slum clearance and rehousing campaigns have been marching along for several years, it was not until recently that the equally important rehousing drive in the smaller towns moved into high gear.

Families that had always lived in dilapidated houses without the "decent necessities," are getting new thrills by switching on real electric lights, trying out their own bathtubs, cooking in airy kitchens, while the children play and romp around the landscaped lawns and in the playgrounds. While the living conditions of these families have been revolutionized, they pay the landlord about the same rent they paid in the old places, when he comes around every month.

Playing the leading role in the growing rehousing movement is the federal government, through the United States Housing authority, thanks to the $800,000,000 that congress dropped in its lap to lend to local communities. Although a sizeable part of this pile of dollars has gone into cleaning up the blighted areas of big cities, an increasing share has been pouring into small cities and towns during the past 12 to 15 months. About 80 communities of less than 50,000 population have already benefited by the USHA program. As a part of its rural housing drive, new farm houses for 1,300 low-income families have been completed within the last year, and 203 housing authorities have been created to speed the program.

Twin Houses.

A typical example of the USHA program in action in the small town is found at Mount Hope, W. Va., where the census taker counted 2,361 men, women and children last year. Borrowing 90 per cent of the needed $238,200 from the federal agency, the local housing authority raised the other 10 per cent by issuing bonds, and proceeded to demolish the rows of 36 tottering shacks that had been the homes of workers for the nearby coal mines. To house the evacuated families, and others in the town, 70 dwelling units are now being built in the form of twin houses extending along a narrow strip of rolling land about three-quarters of a mile long, facing a site being developed as a park. Each family will have a lot of 40 by 210 feet for raising some flowers and fresh vegetables in the summer.

Government is not the only driving force in the new movement. One of the most encouraging developments now taking place is the increasing interest and financial support being given by large corporations with plants in the communities.

To qualify for a new housing project it was necessary for the city of Frankfort, Ky., to agree that a collection of 48 shanty houses be demolished. The Schenley Distillers corporation contributed $25,000 for the purpose, and the way was cleared for 61 families living there.

In Chicopee Falls, Mass., the Chicopee Manufacturing company undertook to turn a row of century-old dilapidated houses into a clean, modern and attractive group of homes. Today the tenants are living in the remodeled houses, with play and garden fields, at rentals running from three dollars a room per month for three rooms, up to four dollars and sixty cents a room per month for five rooms.

Government and corporations are also digging into their pockets to put up money to speed the building activities for poor groups.

And local citizens are stepping up to shoulder some of the load in many towns. In Vincennes, Ind., for instance, a group of 25 leading men and women, joined as the Vincennes Emergency Relief committee, decided that something had to be done about a squatter settlement of nondescript hovels that stood along the river bank. Known as "Pearl City" because the inhabitants depended on mussel fishing for a livelihood, and sometimes found valuable pearls, the settlement had stood for 30 years as an eyesore, and a menace to health.

The Vincennes group arranged for the demolition of Pearl City, and erected "Sunset Court" for the families. Here are 20 houses, arranged in a quadrangle, with a four-acre court in the center; 14 are two-room houses, and the other six are three-room houses. Every home has a small porch, facing the center court, a drilled well, a coal shed and chicken house, and modern sanitary unit. Each tenant has signed a lease to pay one dollar a year as rent, agreed to keep the house and surroundings clean and in good repair, and works two days a month on the site.

East Oil Problem Is Becoming Acute

NEW YORK CITY. — Adequate distribution of oil supplies, vital to a motorized nation in both peace and war, is creating concern among United States government officials as more military airplanes, tanks and bouncing army "jeeps" (field cars) are lined up daily at gasoline pumps.

Secretary Ickes, appointed by President Roosevelt as petroleum co-ordinator for national defense, already has hinted at "gasless Sundays" in the Eastern states, where transfer to Great Britain of 50 American-flag tankers has cut down the steady arrival of oil. Congress is studying a bill designed to clear the way for laying an oil and gasoline pipe line system to the Atlantic seaboard from the Gulf states' oil fields.

"The current oil problem is largely one of transportation," says a bulletin from the National Geographic society, "for federal statistics indicate that aggregate supplies of gasoline, fuel oil, and lubricants are sufficient for anticipated needs. Oil reserves are at their highest point in the United States, which since 1906 has produced more than 60 per cent of world stocks.

"From 375,000 active wells—about twice the number in operation in 1917—petroleum companies in this country last year took a daily average of 3,500,000 barrels of oil. This was about two-thirds of world production. The vast Texas fields furnish about two-fifths of the domestic supply, with other important amounts coming from California; the Mid-Continent field of Oklahoma, Arkansas, Kansas and northern Louisiana; the Gulf coast area, which includes southern Texas, Louisiana and the Rocky Mountain region.

Mrs. F. Roosevelt Answers Critics Of Her Four Sons

WASHINGTON. — Four of the Roosevelt boys, sons of the President and Mrs. Roosevelt, have commissions in the military and naval forces of the United States.

Did these boys get their commissions with Uncle Sam through "inside pull" or did they actually work for and earn them?

Writing in the August issue of the Ladies Home Journal, Mrs. Roosevelt answers a letter which questioned her pointedly concerning the technique required to secure commissions. This statement will no doubt let loose another flood of both criticism and praise.

Mrs. Roosevelt responds in part: "As far as I know, the most important thing, in order to obtain a commission today in our military services, is to be qualified to have one. To do that, one must have done some work in the past which can be usefully applied in some branch of the service, and to have done it well."

Another way, she notes, is to qualify through reserve officers' training courses.

"Since you ask me specifically about my own sons, I will tell you exactly how they obtained their commissions.

"James took the course in college. He was then taken into the marine corps and did the required training as a reserve officer, long before the present emergency, to hold his commission. When his father went to South America, James was given a high rank in order to be able to appear with his father at certain functions. On his return to the United States he himself asked his father to request his demotion. Before he was called as a reserve officer in this emergency he reported for duty in Los Angeles, where he was then living and worked with the unit with which he would be called to serve. He was actually called for active duty in that unit last autumn.

Capt. James Roosevelt.

"Elliott had worked for a time on the West coast, and some of his first work was with an airplane-manufacturing company, and later he worked as an aviation editor for a newspaper. He learned to fly and held a license, but his eyes would not permit his entry into the army as a pilot. He knew that he would not be drafted because he has a wife and children, and yet he felt he would like to be useful, so he came to Washington and asked the army authorities where his experience could be of use. He was commissioned and, as far as I know, his work has been satisfactory.

Capt. Elliott Roosevelt.

"Franklin Junior took his navy training course in college and has done his cruise in the naval reserve every year since. He was commissioned an ensign as a result of the work, and has been in the reserves. He was called in April, and has been on active duty ever since.

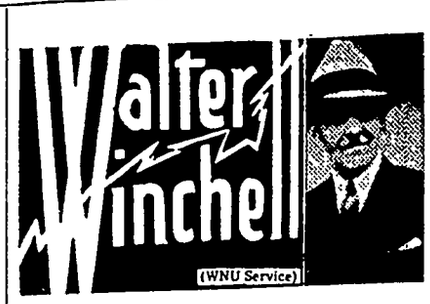
Ensign Franklin Roosevelt.

"John, our youngest son, never was interested in anything military and took no courses in college. He has, however, applied himself to the merchandising business, and when he made his application for ensign in the supply corps of the navy, he explained that he was then an assistant manager of a branch store and was about to be made manager, and he thought his merchandising experience could be useful either on a ship or at a shore station. His number has not yet been called in the draft, and, like all other boys in the navy, he was taken as a volunteer. Of course, as you know, practice cruises and courses at Annapolis are now available to those who wish to apply, and the boys will be selected on their ability to qualify. John, like Elliott, unfortunately is extremely nearsighted, and for some branches of the navy service, that would be a bar."

Ensign John Roosevelt.

Labor Employment Breaks All Records for U. S. Jobs

CHICAGO. — Spring rains have ceased, but not the rain of jobs which have poured down in such a deluge that the National Industrial Conference board estimates that more than 50,000,000 Americans are now working, out of a potential 55,000,000 workers available. This figure sets a new record, never before in the nation's history, this private research group said, were so many workers employed at the same time



Private Papers Of a Cub Reporter:

J. Edgar Hoover and the G-Men received great acclaim from all sources for rounding up those spies . . . Some congressmen, however, showed their appreciation by killing the wire-tapping bill—designed to make things easier for the G-Men in espionage cases . . . What's the matter with them? . . . Afraid they'll hurt the civil liberties of a few spies and kidnapers?

Many of the papers now praising the G-Men for their efficiency in rounding up the spies are the same ones that found fault with the G-Men a short time ago . . . And you were a G-Man's stooge if you defended the FBI.

From page 187 of William Shirer's best seller, "Berlin Diary": "Representative Ham Fish seems to have been completely taken in by Ribbentrop, who gave him an airplane to rush in to the Inter-Parliamentary meeting in Scandinavia."

Boy, that sure explains a lot of things.

By all means read the article on Wheeler and Roosevelt in the July 15 Look . . . While Wheeler goes around the country wrapping himself in the Flag and rapping the President by using all kinds of idealistic arguments—this article proves that the whole thing is strictly personal . . . And get this: The reason Wheeler sneers at everything the President does—according to the article—is that Mrs. Wheeler doesn't like the President!!!

Everett Roeder, one of the alleged spies rounded up by the G-Men, had an important job at the Sperry Gyroscope company—which manufactures some of our most vital defense material . . . When that company was first given defense contracts, we pointed out (in the column and on the air) that Nazi agents worked there . . . It has taken more than a year to confirm these allegations.

Congressman Coffee introduced a resolution in congress to stop the sale of oil to Japan . . . Just the other day we gave some oil to Vichy, but if we send any oil to Britain, we are trying to get the country into the war.

With typical stupidity, Virginio Gayda is giving away Nazi plans . . . The other day he boasted that if Germany whips Russia, they will have air bases near Alaska and will be able to bomb the Western hemisphere . . . Of course, the appeasers refuse to believe that anything like that can happen.

Or maybe they know they can stop bombs from hitting their homes by making certain kinds of speeches now.

A bored gal buttonholed a stag at the Stork Club bar and begged him to crash the table where she sat with her kluck.

"He's boring me with his monologue," she wept. "He's repeating himself like a day-time radio commercial."

From F.P.A.'s Column: "New names for this and new names for that. How about the America Last Committee?"

How about getting it first? And don't WHOM me!!!

A Lexington Avenue motorist jammed on his brakes two inches from a jay-walker and cussed him to a cinder. "Gwan, you ape," the pedestrian squelched, "the last generation of your family was menacing people with coconuts instead of cars."

F.D.R. freezing Axis dough over here panicked lots of the well-heeled refugees . . . The allotment of $500 a month to everybody is going to cramp their style, shoo them out of the luxury hotels and hamper them from picking up cafe checks.

But if they think their money has been frozen, wait'll they see the expressions on the faces of some of their fair-weather friends.

Notes of an Innocent Bystander:

The Big Parade: Ex-Heavyweight Champion James J. Braddock, now a soda water emir, making the rounds of the midtown joynts and grills to peddle his product . . . District Attorney Dewey boarding a taxi near the Biltmore as cabmen gape in awe . . . Spencer Tracy and Paul Muni, a couple of Hollywiseguys, looking like any other two "out-of-towners"—ha, ha!

Sallies in Our Alley: One of the Broadway health-seekers was floored by the 90 per cent humidity . . . "Whew," he complained, "it's so hot I can't stand it under my sun lamp!" . . . An actress opened in a new show and was slapped with so many summonses and attachments on her first pay night that she thought it was snowing . . . Overheard description of a midtown magazine editor: "He's so yellow he could sell the streak up his back for a caution signal."

VITAMINS AND WORKERS
("A Minneapolis factory has been feeding its workers vitamin and halibut oil pills to protect their health and give them more pep."—News item)

I

A happy factory is ours—
We do not mind the daily toil.
We like the boss and he likes us—
It's largely done by liver oil;
We work and do it with a song,
Our faces are a sea of grins;
No task is ever hard for us—
We do it all through vitamins!

II

A carefree family we are—
We skip and frolic to our work;
We chortle as we punch the clock—
And never feel the urge to shirk.
We gaily sing, tra la, tra loo,
And do our tasks quite merrily—
We feel affection for the boss
Through vitamins from A to Z.

III

We thrill to hear the wheels go 'round—
We dash around like busy bees;
The corporation can not do
A single thing that will not please.
We hate to hear the whistle toot
To tell us that it's time to quit;
The little pills we daily take
Make each one love to do his bit.

IV

An extra hour doesn't count—
We feel no urge to watch the clock;
When there's an extra task to do
We have the wallop and the sock;
What if we labor overtime?
What if the perspiration flows?
A little oil of halibut
At noontime keeps us on our toes

V

What if the time for lunch is brief?
There is the thrill of getting back
And finding vitamins to give
To us the vigor that we lack;
The joy of honest toil we feel,
Reacting to its many thrills—
A worker isn't quite himself
Without his capsules and his pills

VI

To agitators we are deaf—
We pay no heed to what they say;
Their arguments are quite unheard—
Thanks to the vitamin called A;
Should we be urged to call a strike,
The impulse we proceed to kill
By paying no attention as
We blithely take another pill.

VII

So three cheers for our gracious boss!
And three more for the good old shop!
We find that working is such fun—
It pains us when we have to stop;
In vitamins we put our trust
Instead of union concepts new;
How happy would we workers be
If all our leaders took 'em too!

ng down **Yellow Wolf's Story** t to right) **Thomas Hart, in- ter; Yellow Wolf; L. Mc- er.**

years ago he began telling ory of his life to a frontier his- , L. McWhorter, of Yaki- Wash. The tale was complete e his life ended and recently published in book form by the n Printers of Caldwell, Idaho. re have been many accounts Nez Perce war but virtually them have been written from viewpoint of the white man. ow Wolf· His Own Story" for the first time, a complete nt of that tragedy as seen by f its victims It tells how the Perces were defrauded of their tral homes by land-hungry settlers and how Gen. O. O. rd, acting upon orders from ington, "showed the rifle" and pitated the crisis which Chief h had tried to avert.

en the Nez Perce chief, bur- d with the women and children s tribe, began his flight over of the roughest country on the American continent. Repeat- attacked, he either beat off his lants or outmaneuvered them way which won the admiration e army officers sent against Then with his haven of refuge s the Canadian border almost ght, he paused to let his weary e rest. Attacked in the Bear mountains by Col. Nelson A. s, who was later joined by rd's pursuing column, the fugi- were forced to surrender.

the light of Yellow Wolf's story history of that campaign must written. For instance, it shows Chief Joseph's fighting force only a fraction of the number arriors which his opponents said ad, and that fact adds to the of his achievement. It shows on the whole, the Nez Perces more humane toward non-com- nts than some of their white op- nts were. For Chief Joseph's tment of the tourists whom he ured while passing through the owstone park region is in ked contrast to the unnecessary g of Indian women and chil- in several of the attacks on f Joseph's camps. And there other examples which show that ictor's version of his conquest ot necessarily the true one.

as this warrior, speaking for the quished, "talked with a straight ue"? Any impartial student of an history, after reading his , can not help believing that as. And that is why the pub- tion of "Yellow Wolf: His Own y" is an "historical highlight" he past year!

* * *

ome of Chief Joseph's warriors aped to Canada, among them low Wolf, who lived for nearly a r among Sitting Bull's Sioux be- returning to the United States. n he was taken to Indian Terri- , where Chief Joseph and his ple, in violation of the terms of r surrender, had been sent. In they were settled on the Colville ervation in Washington and there f Joseph died in 1904. Thirty- years later, on August 21, 1935, low Wolf joined his chief in unkenekoo (Land Above).

For Summer Style Silhouettes Visit Your Corsetry Expert

By CHERIE NICHOLAS

THIS is a day and age that demands style-perfection throughout every detail of general makeup and apparel. One may be ever so glamorously groomed in matter of complexion, hair-do and fingertips, one's costume may be of fine fabric in colors delectable, stylized "to the queen's taste," but if one's figure is not expertly and scientifically brought under subjection into lines of smooth contour and grace via faultless foundation-garment technique, all is lost in matter of style-right and charming appearance

Note how slim, svelte and graciously satisfying the fashions pictured are to the eye. They demonstrate the efficacy of corset wizardry in giving the much-to-be-coveted smooth silhouette that modern fashion demands. In the foreground the "portrait of a lady" demonstrates how distinctive a smartly conservative graceful sheer print redingote costume looks when the wearer is nicely fitted in the correct foundation garment. In this instance the simple styling of the redingote with its accent of tiny white buttons down the front calls for a well-constructed corset in order to show to advantage the slender-waisted figure. Diminutive quill pens darting from tiny inkwells make the attractive white-print patterning on fine dark sheer for the redingote with matching crepe for the under slip. Shirred heart-shaped pockets add interest to the flaring skirt.

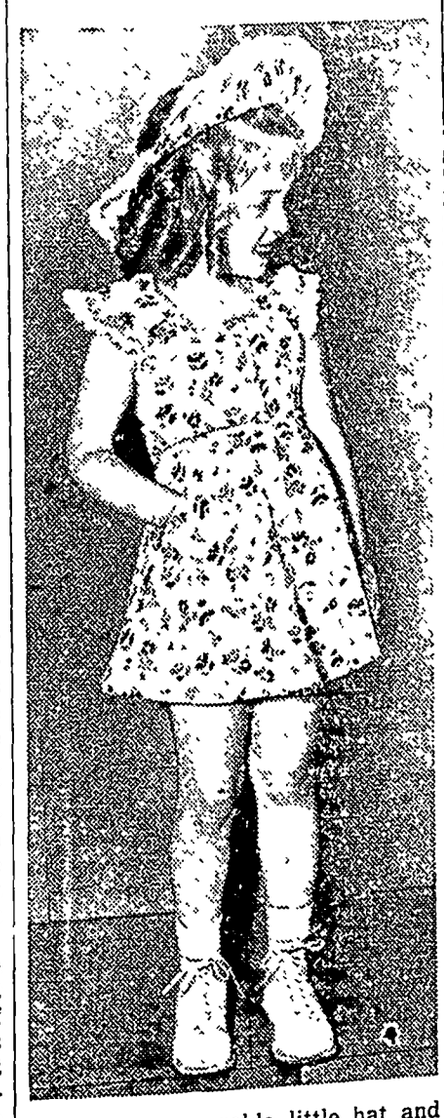
Slim through the waist and hips, smartly bulky through the blouse and shoulder, the lumberjacket slacks costume shown is beautifully tailored in cool spun rayon for active summer wear. For a slim, chic line and comfortable action freedom, the fashion-wise vacationist will wear this trim costume over a sleek panty girdle correctly fitted to her special needs.

Fresh and cool for summer the patrician jacket suit pictured to the left uses fine printed sheer and crepe in a clear white scroll and a leaf patterning A self-fabric softly styled jabot at the bodice front gives subtle accent to this sheer-with-crepe frock, with its all-around pleated skirt The season's important lingerie touch appears on the collar of the nipped-in jacket.

The influence of the new long-torso line is seen in the attractive spectator costume shown to the right in the group. Here a smartly striped one-piece frock is teamed with a trim short-sleeved jacket in solid white The broad collar of the frock is worn over the jacket collar to heighten the ensemble effect. Worn over a well-fitting foundation garment, this figure-revealing costume has a slender trim line of grace and beauty.

(Released by Western Newspaper Union.)

Hat to Match



It is a treasurable little hat and dress of cunning pique, patterned with pink rosebuds that this darling little girl is wearing. The gay posy pique is just the thing for the making of this little sun suit. A matching bonnet completes the vision.

Middy Blouse Types

One of the reactions to the vogue for long-torso lines is the revival of the middy blouse. The latest types accent the lowered V-line neck. Middy sweaters are very smart worn with pleated skirts. White wash-fabric middies are also good style.

City Cottons Go 'Tops' In Summer Fashions

Ladies who "know their fashions" dress in gingham, seersucker, chambray, tissue-crinkle organdy, dark boucles and other smart "city cottons" It is a picture that fashion paints for summer, most refreshing and one that goes keen on chic and charm. For downright practicality the jacket suit tailored to a nicety of dark check crinkle seersucker, of plaid gingham or striped chambray takes first prize this summer. Women of discriminating tastes have yielded wholeheartedly to the new cotton vogue, a fact impressed on one throughout the summer style parade all along the highways and byways of fashion.

Sweaters for Evening Wear Are Very Popular

Evening sweaters continue to be a smart fashion The latest arrival in formal sweaters reflects the bra influence in a most attractive way It is knitted of pastel wool, comes just below the bust neckline where it ties with velvet ribbon drawn through a deep scalloped V-neckline. Sleeves are short and for an evening fantasy this is one of the prettiest sweaters imaginable.

Dye White Venise Lace To Match Your Fabrics

The use of stark white stiffened Venise lace is outstanding in the summer mode. So successful has this adventure in lace proved, designers are planning to trim monotone frocks this fall in handsome Venise lace dyed to match the fabric that teams with it.

Gay Handkerchiefs

Carry out a summer note for your costume by flirtatiously flaunting a gaily flowered handkerchief. You can get perfectly fascinating "hankies" with realistically colorful life-size roses printed to look as if they were artfully hand-painted. Others are patterned with huge poppies, and the ones with big clusters of natural looking violets are lovely with the new and now-so-fashionable costumes in purple tones.

Star Dust
STAGE SCREEN RADIO

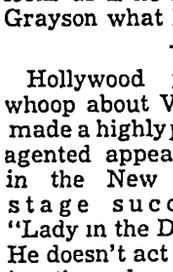
By VIRGINIA VALE
(Released by Western Newspaper Union.)

TESTING'S under way at Paramount for "For Whom the Bell Tolls"; Charles Laughton, Akim Tamiroff and Oscar Homolka have been considered for the role of "Pablo," but the burning question is—who'll play "Maria"? It calls for beauty, but even more for the ability to act.

We hear that Paulette Goddard heads the list of the girls to be tested; seems as if it would be a superb piece of miscasting if she got the part Ingrid Berman's our choice—and the author's.

—:—

Ginger Rogers has signed for three years more with RKO; she's been there for eight years. She did "Flying Down to Rio" then, and her dancing with Fred Astaire in that little number made them our leading dance team in pictures. She wisely insisted, at last, on acting as well, and worked up to "Kitty Foyle," which she didn't want to do, we hear, but which proved to be her greatest success. She's just finishing "Tom, Dick and Harry" now, and they say around the lot that it's a worthy successor to "Kitty Foyle."



Ginger Rogers

—*—

Orson Welles isn't making any announcements about his second picture for RKO Radio—he kept mum about "Citizen Kane" too, remember, and executives were pretty startled when they found out, too late, what it was all about and it looked as if they might have trouble if they released it. Instead of a trouble-maker, they had one of the best pictures of all time on their hands! Welles has admitted that he will write, produce and direct this new picture, and will star in it.

—*—

Joseph Pasternack, who guided Deanna Durbin through her successful screen career, has signed a contract with Metro-Goldwyn-Mayer; it looks as if he might do for Kathryn Grayson what he did for Deanna.

—*—

Hollywood just didn't give a whoop about Victor Mature until he made a highly press-agented appearance in the New York stage success, "Lady in the Dark." He doesn't act much in the play, just looks tall, dark and handsome. Now it's announced that two motion picture companies want him; one, Twentieth Century-Fox, has bought half his contract from Hal Roach and will feature him in two pictures a year. The first will be "Bowery Nightingale," co-starring with Alice Faye.

Victor Mature

—*—

Old timers among the movie fans will remember Raymond Hatton; probably they'll also declare that "The Whispering Chorus," in which he starred for De Mille, was one of the best pictures ever made. Well, Hatton is working for his old boss again in "Reap the Wild Wind."

—*—

W. S. Van Dyke, the ace director, has been on active duty with the marine corps for the past year. Now he's returned to the Metro lot. And what do you suppose his first assignment will be? "The Female of the Species"—a long cry from the Marines!

—*—

Did you happen to hear "Man on the Street" on the "Manhattan at Midnight" radio show about a month ago? Within 24 hours after the sketch was presented five motion picture studios were after it. Paramount won out; Bing Crosby and Mary Martin will co-star. They've just completed "Birth of the Blues," with Carolyn Lee and Brian Donlevy.

—*—

People who've heard Bob Hope rave on the radio about Madeleine Carroll have decided that he must know her well enough to get autographed pictures of the blonde star for them. She's on location in the West Indies, so they've been pestering him for the photographs. He doesn't mind; he just got a lot of her pictures, autographed them with his own name, and had them mailed.

—*—

ODDS AND ENDS—Wayne Morris got leave from the Navy Department to finish "The Smiling Ghost" for Warner Bros. before he became an ensign . . . NBC is preparing a new series, "Boy Meets Band," for its singer-bandleader, Ted Steele, who used to be an NBC page boy . . . Though Bing Crosby can't read a note of music, the boys in John Scott Trotter's band say he's a swell conductor . . . Metro will push Marsha Hunt up the ladder as a result of her work in "Blossoms in the Dust" . . . Service men who want to and can see Hollywood stars broadcasting should apply to Charles Posner of the United Service Organizations.

New Jobs Being Offered By U. S. Civil Service

WHAT a parade Uncle Sam could lead of his workers—workers of every kind. You may have often wondered if there is a place for you in that parade. What chance would you have in the United States Civil Service?

New tests are being given all the time and there are literally

There May Be a Place for You

thousands of different jobs. Perhaps you, too, are the kind of person our government needs.

* * *

To find out what your chances are, how you should apply, see our new 32-page booklet. Lists several U. S. Civil Service positions with salaries and requirements. Explains rules for applying, trial period, promotions, increases and benefits including retirement annuities. Send your order to:

Brown Was Starting Early To Get Along With the Cook

The bus was starting in the midst of a torrent of rain, when the conductor put his head inside and inquired: "Will any gentleman get out and oblige a lady?"

"She can come inside and sit on my knee, if she likes," said a passenger, jocularly, and, to his great surprise, in bounced a buxom woman, who forthwith appropriated the offered knee.

After a time the man, Brown, by name, got into conversation with his burden, and asked her where she was going. On hearing her destination, he exclaimed, "Why, that's my house!"

"Well, then," replied the woman, blushing, "I'm your new cook."

J. Fuller Pep

By JERRY LINK

"We're makin' new rules for you, Uncle Fuller," says that little shaver, Willie. "Since you've been eatin' KELLOGG'S PEP you got to run around the bases *twice* before your home runs count!"

Which shows how meager is the knowledge o' the young. For you have to get *all* your vitamins to feel as good as I do, and KELLOGG'S PEP has got the two that are most likely to be scarce in ordinary meals—vitamins B_1 and D.*

PEP's a wonderful *tasting* cereal, too. Why don't you try it?

Kellogg's PEP

*Per serving: 1/2 the daily need of D; 4/5 to 1/5 the minimum daily need of B_1.

Benefits to Our Readers

THE PUBLIC nature of advertising benefits everyone it touches. It benefits the public by describing exactly the products that are offered. It benefits employees, because the advertiser must be more fair and just than the employer who has no obligation to the public. These benefits of advertising are quite apart from the obvious benefits which advertising confers—the lower prices, the higher quality, the better service that go with advertised goods and firms.

Klemme Local News

Mrs. Wm. Fennema, of Alton, came Tuesday for a visit at the Lester Stille home. She is a niece of Mrs. Stille.

Mr. and Mrs. W. J. Barz and Mr. and Mrs. R. J. Corey, of Garner are sight seeing through the Black Hills this week.

Rev. and Mrs. Fred Griewe, of Aredalt are enjoying a vacation this week which they are spending in this community visiting.

We missed seeing Eugene Haberkamp around town, and upon inquiring we learn that Eugene is working on a farm and assisting Edmund Josten this summer.

Rev. and Mrs. Fred Griewe, of Aredale, and Mr. and Mrs. Emil Patet drove to Sibley, Saturday, and spent Sunday at the Cyrus Griewe home.

Dr. and Mrs. W. F Missman are enjoying a visit this week at their cottage at Land O'Lakes, Wisconsin, from Mrs. R. W. Specht and son, Gordon, of Garner.

Mrs. Claude Shirley (formerly Virginia Stille,) Mariam Stille, Irene Briges and Mr. and Mrs Clark arrived Monday from De Ridder, Louisiana for a visit with Klemme relatives and friends.

Today (Wednesday) Mr. and Mrs. Emil Patet, accompanied by Rev. and Mrs. Fred Griewe of Aredale, drove to Garden City, Minn for a visit with Mr. and Mrs. Albert Yahnke.

A letter from Mrs Herman Paul states that she and Grandma Suckow are enjoying themselves at Jennings, La. Mrs. Paul visited with Lieut. and Mrs. Earl Schaefer and "Bodge" Bowles at Camp Claiborne.

J. E. Stille and Wm. Stille are doing some remodeling at the late Grandma Haefner property . They have torn down an old chicken house and are remodeling a small barn, which when completed, will be a garage.

Mrs. Catherine Baine and son, John, Lucille De Poe and David Herwald, of Green Bay, Wisconsin, came last Friday and visited over Sunday at the home of Mr and Mrs. John Velau southwest of Klemme.

Dr. and Mrs. A. H Dulmes and son, Dick, accompanied by Mr and Mrs. Art Kudje and baby daughter drove to Lake Okoboji, Sunday, to spend the day visiting with Mrs. Mary Mutch and daughter, Ada, at their cottage. Mrs. Dulmes and Dick remained for a visit of a week at the Lake.

Dr. Byrnes Missman returned Saturday evening to Garner after spending a week's vacation at the Missman cottage at Land 'O Lakes, Wisconsin. Dr. and Mrs. W F. Missman of Klemme expect to return home July 30th from their vacation.

A barn and corn crib at the Stenus Harms farm southeast of Klemme burned to the ground early Saturday evening Origin of the fire is unknown and the family were not at home at the time. The Klemme Fire Department was called but too late to save buildings.

Robert Hanson and children, of near Kanawha, were Klemme visitors Monday afternoon. Robert has been suffering from an infection in one of his fingers on his left hand.

Mr. and Mrs. W. V Wildman, of Nevada, spent Wednesday and Thursday visiting at the home of their son-in-law and daughter, Mr. and Mrs. R. R. Reece. They were accompanied by Miss Lulu Stevens, music supervisor in a Huston, Texas school.

More Truth Than Poetry--

- Usually a CARLOAD of FURNITURE arrives at our Store about 2 weeks after we place the order, but in these prosperous times BUSINESS IS SO GOOD that factories find it IMPOSSIBLE to keep up, and there is considerable delay.

- We BOUGHT A CARLOAD EARLY In June and after waiting four or five weeks we wrote the factory for a definite shipping date They answered they would ship the first week in August (two months after we placed the order) and they enclosed a copy of the following poem.

"Keep your temper, gentle sir
Writes the manufacturer,
Though your goods are overdue,
For a month or maybe two.
We can't help it, please don't swear
Labor's scarce and steel is rare,
Can't get wools, can't get dyes,
These are facts, we tell no lies."

"Johnny's drafted, so is Bill,
All our work is now uphill,
So your order, we're afraid,
May be quite a bit delayed.
Still you'll get it, don't be vexed
Maybe this month, maybe next.
Keep on hoping, don't say die
We'll fill your order bye and bye."

- It takes an "old head" and plenty of cash to run a Furniture Store in times like this, but by placing orders far ahead and buying for cash, we expect to keep our store well stocked for the convenience of our customers.

Lunch was served after play.

REFORMED LADIES AID WILL MEET

The Ladies Aid Society of the Klemme Reformed Church will meet Wednesday afternoon, July 30th, with Mrs. Martin Barz and Mrs Karis Kropp, hostesses.

Frank Senneff F.E. Blackstone
Senneff & Blackstone
LAWYERS
Garner Iowa

Mrs. Tod Berlin, of New York City spent the past week in Klemme visiting at the home of her grandfather, Henry Freie and with her aunt, Mrs. George Lawhorn and husband Mrs. Berlin is visiting in Iowa for six weeks with her parents, Mr. and Mrs. John Braund at Williams, and with Mr. Berlin's parents at Mason City Mr and Mrs Berlin formerly lived at Washington, D C for several years, but Mr Berlin has been transferred to New York where he is employed by the government in the internal revenue department.

A wind storm followed by heavy rain struck Klemme Thursday evening at about eight o'clock Several large limbs were broken from trees around town, and a window in Quandt's Cafe was pushed in by a gust of wind Two windows at Wilson's Drug Store were cracked Heavy hail fell at Clear Lake and leaves were stripped from trees in town, electroliers smashed, windows broken and many cars were badly damaged. R R Reece, who was at the Lake, reports his car was damaged to the extent of $75 by hail denting the roof and body A tree in falling struck the corner of the front porch at the Cliff Montgomery residence, damaging the roof No other serious damage was reported here

CRISPLY COOL ON A SUMMER DAY!
(See Recipes Below)

ST QUENCHER IDEAS

hermometer's soaring and mer sun's too hot, you say? u'll want a cool, gracious th tinkling ice to lift your pirits.

the favorite pickup for a y is nothing more than a rink of fruit juices, tea, or ilk with shimmering ice. ness of the fruit juices in inks will refresh and cool the your disposition long u've sipped them. Besides ive vitamins and minerals you up even more.

really quick cooling drink ht try some of the prepared ce powders on the market. n be mixed in a flash and ery satisfying beverage. The will like working with o, and won't muss the kitch- ey have this type of easy tion to use.

er drinks can be especially e when served with those fragrant sprigs of mint you have growing on the side of the house, strawberries from the patch, or long, length-wise slices of lemon to bring delicate flavor of tea. Ice with cherries, red berries, aves, orange or lemon slices, juices all frozen in the cubes ke your thirst quenchers a ook at.

***Iced Tea.**

ust be made double strength sed with ice, so use 2 tea- for each cup of water. Meas- cup of freshly drawn water, o a boil. Pour over leaves, p 5 minutes, then strain into er. Cool, pour into glasses ith ice, two-thirds full. Serve ces of lemon.

can do such delightful things is combination of tea, or- nd mint, so here's a recipe you might like to try. It's a y favorite!

Orange Mint Julep.
(Serves 10)

glasses of strong tea
cups sugar
½ cup water
orange rind grated
juice of six oranges
sprays of mint

he sugar and water and grat- nge rind for 5 minutes. Re- rom fire, add crushed mint and let cool. To the strained d orange juice, and pour into which are half-filled with d ice, and sweeten to taste e strained mint syrup. You'll is garnished with mint sprays oating orange slices.

a really exhilarating drink as nutritive value so vital to ging spirits, here's eggs and ombined with fruit and juices. -o-o good and looks like a

LYNN SAYS:

snowy frost on the glass in n you serve your cooling mer drinks is very attrac- and simple to make. All do is dip the top of the glass e it is filled into slightly en egg white and then into ulated sugar. Allow to dry oughly before using.

you'd like a true frost for glass try a drink which is anteed to have one. Such the old-fashioned "granits" h may be of any flavor you e. The granit is a half- n drink which is put in the gerator or freezer until a snow-frost appears, but es the drink still liquid gh to pour.

r a strawberry granit, mash art of berries and cover with pounds of sugar, then set e for several hours to let a p form. Drain and press ugh a sieve. Add 1 table- n of strawberry extract, then with 1 pint of water. Freeze the top is snow-frosted and e in long, thin glasses.

THIS WEEK'S MENU

Fruit Cup
Noodle Ring with Fried Chicken
Cream Gravy Hot Biscuits
Fresh Asparagus with Browned Butter and Crumb Sauce
Tossed Fresh Vegetable Salad
French Dressing
*Iced Tea
Red Raspberry Fluff
*Recipe given.

Fruit Float.
(Serves 2)

1 cup water
2 cups sugar
Juice of 2 lemons
Juice of 2 oranges
2 eggs
⅛ teaspoon salt
½ cup fresh raspberries or strawberries
Chipped ice

Boil the sugar and water for 5 minutes. Cool. Mix all the ingredients except the ice and beat thoroughly. Chill. When ready to serve, pour into glasses half filled with ice Garnish with a few whole berries

Fruit Swizzle.
(Serves 8-10)

1 quart strong tea
1 quart ginger ale
Juice of 3 lemons
1 small bottle maraschino cherries
Juice of 3 oranges
2 cups pineapple juice
1 cup diced or crushed pineapple

Mix all the ingredients together, sweeten to taste and serve iced.

Here's an old-fashioned treat that always makes new friends. I can still remember how nice the kitchen smelled when mother used to put it up, and then again how hospitable everyone thought she was when unexpected guests came and she served this drink. It has a delightful color, and unusual flavor.

Currant Syrup With Raspberries.
(Makes 3 quarts)

1 pint currant juice
2 pounds sugar
6 pounds currants
1 pound sour cherries
1 pound raspberries
1½ pints water

Pick, wash, seed, and dry the currants carefully. Seed and stem the cherries, and the raspberries Pound and mash them well and let stand in a cool place for 36 hours. Then strain through a bag. Cook the sugar and water until it will snap when tested in cold water. Then add the fruit syrups, let boil 5 minutes, remove from fire. Let it get cold and then put up in bottles.

Cinnamon Almond Float.
(Serves 6)

⅓ cup sugar
¼ teaspoon ground cinnamon
1 quart cold milk
1 teaspoon almond extract
½ teaspoon vanilla
1 pint vanilla ice cream

Combine sugar and cinnamon; add milk and flavorings and stir until sugar is dissolved. Pour into tall glasses and top each with a generous spoonful of ice cream.

Coconut Flake Cookies.
(Makes 5 dozen)

1⅓ cups sifted flour
3 teaspoons double-acting baking powder
½ teaspoon salt
3 cups corn flakes or bran flakes
1 cup butter or other shortening
1 cup granulated sugar
½ cup brown sugar, firmly packed
2 eggs, unbeaten
1 teaspoon vanilla
1½ cups shredded coconut

Sift flour once, measure, add baking powder and salt, and sift again, add flakes. Cream butter, add sugar gradually, and cream together well. Add eggs, one at a time beating thoroughly after each. Add vanilla. Add flour and flakes mixture, mixing well. Add coconut Drop from teaspoon on ungreased baking sheet and bake in moderate oven (375 degrees F.) 12 to 15 minutes, or until done. For variation ½ cup chopped nuts may be added to mixture before baking.

(Released by Western Newspaper Union.)

Lesson for July 27

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education, used by permission

THE HOLY SPIRIT INSPIRES NEW TESTAMENT LETTERS

LESSON TEXT—Galatians 1.11, 12, I Thessalonians 2.13, II Timothy 3 14-17; II Peter 3 14-16, Jude 3.

GOLDEN TEXT—All scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness.—II Timothy 3:16.

Letters are usually interesting, frequently very important, and always revealing as to the character and interests of the writer. That is generally true of ordinary daily mail, but how very true it is of the letters of Scripture, the epistles of Peter, Paul, Jude, and John. For in them "holy men of God spake as they were moved by the Holy Ghost" (II Pet. 1:21).

I. The Gospel (Gal. 1.11, 12; I Thess 2·13).

The good news (for that is the meaning of "gospel") of salvation by grace through faith in Jesus Christ as Saviour has from the very beginning of its proclamation been subject to attack. Men are not content to receive God's way of salvation, but want to add something to it, adjust its requirements to meet new situations, to tinker and twist.

1. A Divine Revelation (Gal. 1: 11, 12).

Paul was not presenting something which he or some other man had "worked up," but a message that he had "prayed down." Paul was only delivering that which he had received from God (see I Cor. 15:1-4). He was careful that it should not be confused with or by the teachings of men, so he "conferred not with flesh and blood" (see Gal. 1:15, 16).

We too are privileged to proclaim a divine revelation which has come to us in the inspired Word of God. How delightfully sweet and tremendously powerful is the message which we may thus bring forth. It has no human frailty and weakness, no human error, and no misleading philosophies. It does not need to be revised every year or two. It is God's eternal message of redemption.

2. A Message of Salvation (I Thess. 2:13).

It works in those who believe. Yes, it does—blessed be the name of God! God's Book says so, and the experience of hundreds of thousands of men and women over a period of almost 2,000 years agrees.

Note, however, that to work, the message must not only be "received," but also "accepted" as the Word of God. The message of the Bible may be received as a matter of fact, but for salvation it must be accepted and believed as a matter of faith.

II. The Bible (II Tim. 3:14-17; II Pet. 3:14-16).

Near the end of a life given in utter sacrifice to God's cause, Paul is ready to be used of the Holy Spirit to speak concerning the written Word.

1. It Is God-Inspired (II Tim. 3: 14-17).

Be sure to read this passage in the Authorized Version. The Revised has taken liberties with this verse which the finest scholarship does not countenance. It properly reads, "All scripture is given by inspiration of God, and is profitable for doctrine (teaching), for reproof, for correction, for instruction," etc. Other books may claim some kind or measure of human inspiration—this Book is inspired of God. If there were space, proof of the truth of that statement could easily be given. It is available for all who want to believe it.

2. It Is Not to Be Wrested (II Pet. 3 14-16).

If permitted to do so, God's Word will bring peace of heart, make a man spotless and blameless (v. 14). But its salvation (v. 15) is not for those who ignorantly, or because of their ignorance, or because they are not steadfast in their lives, wrest its truth. Let us receive the Word with gladness, not twist it or distort its meaning to our own destruction.

III. The Faith (Jude 3).

1. It Was "Delivered Once for All"

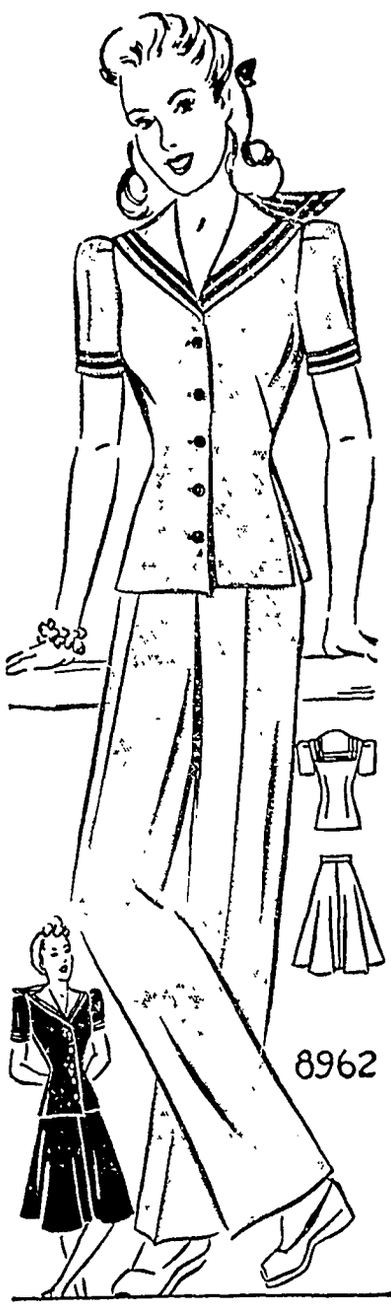
It is a final revelation from God. There is no other gospel, and there never will be another. What assurance that gives us both in believing it and proclaiming it! But the world hates this gospel, and attacks on it are to be expected. Therefore

2. It Is to Be Earnestly Contended For.

No matter how peaceable we may be, how loving and tenderhearted, if and when attack is made upon the Lordship of Christ, when men make light of sin, and so seem to minimize the vital importance of holiness of life—then, however unpleasant contention and controversy may be to us, it is time we cast our self-regard aside and contend earnestly for the faith once for all delivered to the saints." (J. D. Jones).

PATTERNS

SEWING CIRCLE



ON YOUR boat or on dry land you'll enjoy this play suit which features the smart nautical theme. The sailor collar top mates well with either slacks or a skirt—have both in your vacation ensemble! Make it in faded blue denim, trim with red, white and blue braid, the result is a smart young costume which will add fun to every hour you wear it.

* * *

Pattern No 8962 is in sizes 12 to 20 and 40. Size 14 blouse top requires 2⅛ yards 36-inch material. Slacks, 2⅜ yards; skirt, 2⅜ yards, 7½ yards braid for trim. For this attractive pattern send your order to:

Education's Beginning

The education of the human mind commences in the cradle; and the impressions received there frequently exert their influence through the whole of life. Principles which take the deepest root are those implanted during the seasons of infancy, childhood and youth.—Logan.

Ask Me Another

A General Quiz

The Questions

1. How many tablets of stone held the Ten Commandments as given to Moses?
2. The average amount of blood in the human body is about what proportion of the body weight?
3. "Double, double, toil and trouble; fire burn and cauldron bubble" is a quotation from what?
4. What is a binnacle?
5. In Greek legend, who sowed the dragon's teeth?
6. What country named its capital after an American President?
7. What is meant by 0:15 a. m.?
8. Who were Egbert, Ethelwulf, Ethelbald, Ethelbert, and Ethelred?

The Answers

1. Two.
2. One twentieth.
3. "Macbeth."
4. A box containing a ship's compass.
5. Jason.
6. Liberia (Monrovia, named for President Monroe).
7. Fifteen minutes after midnight. The zero is used to denote that the first hour of the day has not elapsed
8. The first five rulers of England, reigning 12, 19, 2, 8, and 5 years respectively, from 827 to 873. Their conquest formed part of the rich early Saxon-Danish history of the island.

Failing Community

A churchless community, a community where men have abandoned and scoffed at or ignored their religious needs, is a community on rapid down grade.—Theodore Roosevelt.

Copr. 1941 by Kellogg Company

Record Pour

A 100-ton glass furnace in a Detroit plant recently set a world's record by pouring, without interruption, a melt that weighed 58,486 tons, reports Collier's. This single operation, which requires two years and a day, produced a 51-inch-wide sheet of glass which, if uncut, would be 2,400 miles long.

CAMEL—THE CIGARETTE OF COSTLIER TOBACCOS

Local Happenings

Klemme and Vicinity

Lowell Thompson, of Cedar Rapids, spent Sunday visiting at the Ed Thompson home here.

Jerry Lewis, of Mason City, was a visitor last week at the Verner Lewis home

Mr and Mrs. Guy Judd, of Kanawha, were visiting with Klemme friends Sunday afternoon.

Peggee Ann Long, of Whitten, spent Friday visiting at the Ralph Reece home in Klemme.

Mr and Mrs. Tony Ahrenkeil of Goodell were Klemme visitors on Saturday evening

Mr and Mrs. Tom Mitchell, of Swea City, spent Sunday vistiing with relatives in Klemme.

Harley, son of Mr. and Mrs. Harvey Barz, spent the past week in the country visiting at the Ben V. Greiman farm home.

Leo Brinkman entered the Mercy hospital at Mason City last Wednesday for X-Ray examination and medical treatment.

Mrs. McDowell and three sons, of Vina, California, were visiting at the J. C Thomas home Saturday

Mr and Mrs. Clarence Bachman and Mrs. Fred Bachman were at Hampton Tuesday for a visit with Fred Bachman in the hospital.

Melvin Newberger and family left in their car for the north last Thursday to enjoy their annual vacation.

Phyllis Kirkwood has gone to Des Moines where she will spend six weeks visiting at the T. C. Wooten home.

Mr and Mrs James Trumbull of Mason City spent Friday visiting in Klemme at the Sumner Trumbull home

Mr and Mrs R. R. Reece were dinner guests of Mr and Mrs. Long of Whitten at their cottage at the Lake Thursday evening.

Mrs Fred Ridder left Sunday for Elmhurst near Chicago, for several week's visit with her son-in-law and daughter, Mr and Mrs. Walter Beatty and daughter, Joyce.

Mr. and Mrs. T W. Pavey and son of Albert Lea, Minnesota, and Mr and Mrs. Wayne Pavey and baby daughter, were dinner guests Sunday at the W F Pavey home.

Mr and Mrs. W. J. Billbrey, of Clarion drove over Saturday evening for a visit with their son, Frank and family and to help him observe his birthday

Mrs Joe Burgess underwent a major operation at a Mason City hospital Friday morning She is making a satisfactory recovery at this writing The Burgess children are staying with their grand parents, Mr and Mrs. C C. Kilgore.

The Lau Brothers have improved the appearance of their implement store the past week by treating the front trim to a new coat of paint.

Mr. and Mrs. Henry Smid and little daughter of Hampton, spent Sunday visiting at the Melvin Buseman home, and with other Klemme relatives.

Kenneth Patet, of Chicago, visited in Klemme the past week with his father and brother, Emil Patet and Milo. Kenneth is employed at a photo - engraving plant in Chicago, where he has resided for the past seven years.

Mr. and Mrs. Earl Josten, of Des Moines spent Saturday in Klemme visiting with Earl's father, John Josten, and with other relatives.

Mr. and Mrs. Keith Albertson and son, Jimmie, and Patrica Kudje returned Sunday evening from a week's vacation spent at a lake in northern Minnesota.

Mr. and Mrs. Clair West and baby of Fort Dodge spent Sunday visiting at the Sumner Trumbull home. They left the baby here for a few days with Grandpa and Grandma Trumbull.

The Farm Bureau picnic held in the Klemme park Sunday attracted a large crowd and the get-together and picnic dinner was enjoyed. The Klemme park is a favite spot this year for large picnics and gatherings.

A number of friends staged a birthday surprise party on Frank Bilbrey Sunday, when they arrived at his home with baskets of food for an early picnic supper. In the evening they enjoyed playing cards and visiting. Those who came were Mr. and Mrs. Fred Rohlin, Mr. and Mrs. Jim Shelton, Mr. and Mrs. Stanley Tripp and daughter Sandra, all of Kanawha.

The gentlemanly "Bo-Peep" who wanted to mow his lawn with lambs. But the neighbors didn't like it any more than they did some of his other hobbies, and finally routed him with a poetic blitzkrieg. Read of this latest rumpus in the tumultuous life of a multi-millionaire's son, as told in The American Weekly, the magazine distributed with next week's Sunday Chicago Herald-American.

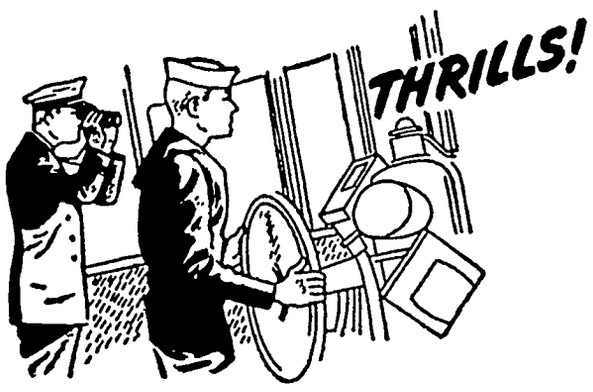
"Imagine me, steering a Destroyer!"

"And I've had two pay raises in only eight months! I'll say you can't beat Uncle Sam's Navy!"

YOU couldn't ask for a greater thrill than that which a fellow gets when he comes back home wearing a trim Navy uniform. The folks crowd around. They all want to know where you've been, what you've done. And man, do you have stories to tell!

GREATEST LIFE IN THE WORLD

You're proud. And you should be. For you've been leading the greatest life in the world. And it's a thrill to tell about it, too. A thrill to see the admiration in the eyes of the One and Only Girl as you tell about the first time you steered a Destroyer. Or handled a P.T. Boat at more than 45 miles per hour. Or stepped out in front of your shipmates to receive your first promotion.

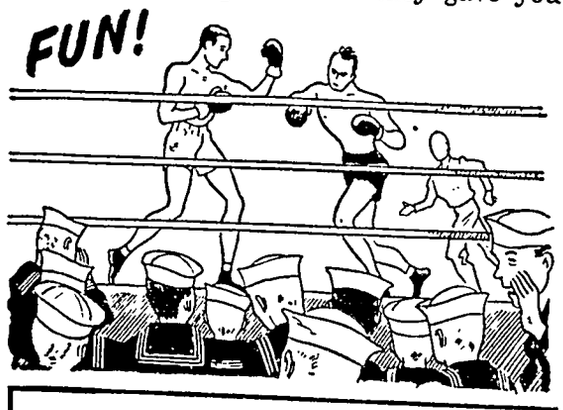


And with that promotion came an increase in pay. And there were more to come. Second Class. First Class. And then Chief Petty Officer. You might even go to Annapolis. Or to Pensacola with the flying cadets!

Exciting? You bet, and fun too. Something doing all the time. Real he-man's stuff. Boxing. Baseball. Football. Swimming. AND MOVIES... previews, too!

FREE TRAINING WORTH $1500

And all this time you're taking care of your future! The Navy said, "Pick a trade—we'll make you an expert." And they gave you



LOOK WHAT THE U. S. NAVY OFFERS YOU

FREE TRAINING worth $1500. Nearly 50 trades and vocations to choose from.

GOOD PAY with regular increases. You can earn up to $157 a month.

EACH YEAR you are entitled to a generous vacation period, with full pay.

GOOD FOOD and plenty of it.

FREE CLOTHING. A complete outfit of clothing when you first enlist. (Over $100 worth.)

FREE MEDICAL CARE, including regular dental attention.

FINEST SPORTS and entertainment any man could ask for.

TRAVEL, ADVENTURE, THRILLS—You can't beat the Navy for them!

BECOME AN OFFICER. You can work for an appointment to the Naval Academy or the Annapolis of the Air at Pensacola.

FUTURE SUCCESS. It's easy for Navy trained men to get good-paying jobs in civil life.

LIBERAL RETIREMENT-PAY.

nearly 50 skilled trades and vocations to choose from: Radio expert, machinist, welder, aviation mechanic, dental technician, electrician—to mention a few.

Yes, training that would be worth $1500 to you in one year's time. Training that will assure you of a well-paid job in civil life. Yet you get paid while learning—get your keep and a complete outfit of clothing free.

Where else in the world are there such opportunities for thrill, for fun, for a future as in Uncle Sam's Navy!

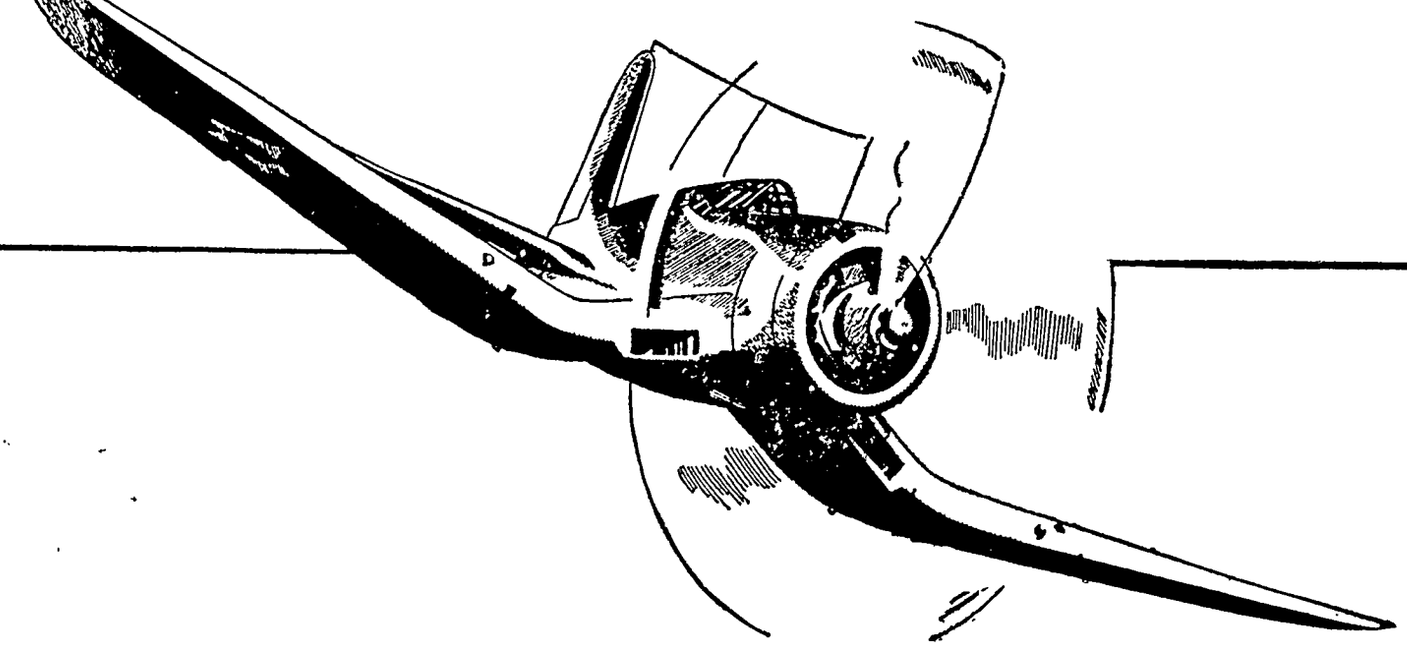
WANTED:

MEN TO FLY THIS PLANE



25,000 young men wanted immediately to get best aviation training in the world

Right now the world's fastest planes are rolling out of America's factories by the thousands. That's why the United States Navy needs 25,000 *new men* to fly and service these planes. That's why your Navy is offering qualified young men the finest training course offered anywhere. Now you can get paid to lead the greatest life in the world. Aviation Cadets in the United States Navy get $75.00 a month during seven months of flight training. Then they become Naval Aviators receiving as much as $245.00 a month.

Earn while you learn

Uncle Sam's Navy offers you tremendous opportunities for advancement in a wide variety of fascinating jobs. There are 45 skilled trades and vocations which the Navy will teach you if you are qualified. If you're interested in radio work, engineering, aerial photography, carpentry, pharmacy, welding, the Navy may spend $1,500 in one year training you to become an expert in your chosen field.

Opportunities for advancement

If you apply yourself, advancement and increases in pay will follow regularly. Before the end of your first enlistment you can be earning up to $126 a month—with your board, keep, and a complete outfit of clothing given you *free!* If, at the end of your term of service, you wish to get a job in civil life, your Navy training will be a tremendous asset to you. Employers the country over are eager to employ Navy-trained men.

Good fun, good food, good friends

The Navy is noted for its popular sports program. Every kind of sport from baseball to boxing and swimming is offered the man who enlists. On board ship, the latest moving pictures are shown *free*. Organized recreation, such as dramatics, singing and musical entertainment, goes to make the life of a Navy man the best fun in the world.

The food served in the Navy would do justice to your own mother's cooking. It's well prepared—and there's plenty of it.

Folks look up to a Navy man

Any man who wears the trim uniform of Uncle Sam's Navy is bound to be looked up to! When he walks down the street, heads turn to follow him. And that's how it should be—for you've got to be good to get in the Navy.

LOOK WHAT THE U. S. NAVY OFFERS YOU

FREE TRAINING worth $1500. 45 trades and vocations to choose from.
GOOD PAY with regular increases. You may earn up to $126 a month.

TWO HANCOCK COUNTY MEN NAMED FOR NEXT DRAFT

Benjamin D. Gilbert, Forest City, and Clyde H Standley, of Klemme have been named by the Hancock County Selective Service Board to report at Britt at 9 45 A M on July 31st, whereupon they will be sent to Fort Des Moines to be inducted into the Army

Guy T. Swenson, of Corwith, was named as the replacement

Pans For Planes

ALUMINUM DRIVE HERE WAS A BIG SUCCESS

The aluminum "pots and pans for planes" drive held here over the week end was a real success

The Klemme Boy Scouts made a house-to-house canvass and procured 114 pounds of the precious white metal Farmers and others added to the pile of scrap aluminum at the Hancock County Oil station until there is a sizeable pile there.

The metal has not been weighed but it is estimated that there is over 300 pounds in the heap

NAVY ENLISTMENTS ARE NOW CREDITED AGAINST LOCAL SELECTIVE SERVICE QUOTA

"Secretary Knox of the Navy Department has announced that local communities are given credit for each Naval recruit and that local Selective Service quotas are reduced accordingly,' said officials of the local Selective Service board at Britt, today.

"Every young man who joins the Navy or Naval Reserves thus helps to fill our local Selective Service quota. Young men within Selective Service age limits who have not been deferred would do well to consider the opportunities the Navy offers for specialized training and advancement while serving their country in its emergency.

"The age limits for the regular Navy are 17 to 31 and for the Naval Reserve the limits are 17 to 50 All applicants under 21 require the written consent of their parents or guardian."

In addition to explaining that Navy enlistments are credited against the local Selective Service quota, Walter Dirksen of the local Selective Service Board, also stated that a high school education is not necessary for acceptance by the Navy. "Any ambitious and patriotic young man of average mentality and good character who meets physical and other requirements may be acceptable to help man Uncle Sam's new "two-ocean" Navy."

C. S. C. S. WILL MEET SUNDAY MORNING

The C S C S of the Methodist Church will meet Sunday morning. A good attendance is desired.

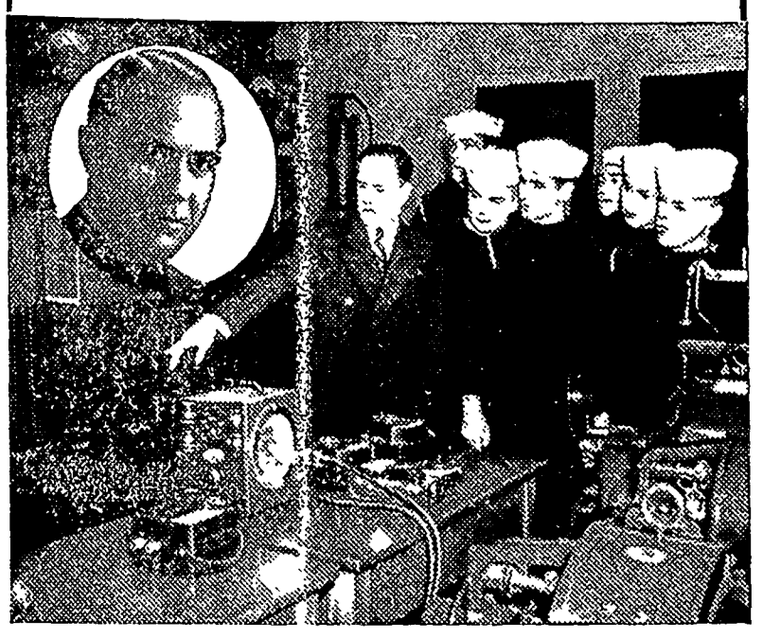
KLEMME CIVIC CLUB MEETS THURSDAY THIS WEEK

A meeting of the Klemme Civic club will be held on Thursday evening of this week at the Community Hall.

Two important plans will be brought up at this meeting. First, a plan to assist the Farm Bureau in putting on their county-wide Sports Festival and picnic here on August 14th. The second proposition will be discussed in regard to a county-wide picnic of businessmen to be held at Eagle Lake's state park to which Klemme business men are invited

President Reece also states there are several other things to be presented and urges ALL business men to be present.

"NAVY TRADE TRAINING GAVE ME MY START" SAYS PRESIDENT, SPERRY CORPORATION



THOMAS A. MORGAN (pictured in insert), president of the Sperry Corporation, world's largest manufacturers of aeronautical and marine instruments, received his early technical training in the U. S. Navy, in which he enlisted as a young man. "This has proved of great value to me in later years," said ex-sailor Morgan. Pictured above are new Navy recruits receiving electrical training at one of the modernly equipped Navy Trade Schools. The Navy offers training to young men in nearly 50 different trades and vocations.

Triple A Official Gives Ruling On Farmer Draft Deferment

MEN FARMS NEED, TOLD HOW TO ASK DRAFT DEFERMENT

What Hancock County farmers can do to help assure themselves a labor supply adequate for the production of essential farm foods was outlined this week by J M Townsend, chairman of the Hancock County AAA Committee The Director of the Selective Service System has asked all local draft boards to give special consideration to deferment of men needed in agricultural production In addition, the WPA is making special effort to supply demands for farm labor

Mr Townsend said in case a man believed to be indispensible to the farm is drafted, here is what to do (1) when the Selective Service questionaire is received, ask deferment in Class 2, occupational deferment, or, if there are dependents, Class 3, dependency (2) the employer or dependent should submit to the local draft board the Form 42 or a letter properly witnessed and presenting the reasons for requesting deferment The registrant should also present the facts and request for deferment by letter if necessary, in addition to the statement in the questionaire (3) If the local board does not grant the requested deferment, the case may be appealed to the Board of Appeals by the registrant, by the person who signed Form 42, by a dependent, by the Goevrnment appeal agent, or by the State Director of the Selective Service A Government appeal agent is attached to each local board, and he will assist in filing appeals

"Agriculture is not asking treatment that is not warranted," Mr. Townsend said, but it is in the national interest that cases affecting production of vital products should be studied carefully. The Selective Service has recognized this already, and a substantial proportion of the occupational deferments has been made for agriculture."

CARD OF THANKS

We want to take this means of thanking neighbors and friends, Royal Neighbors and the Double Four Club for the help, sympathy and acts of kindness extended to us in the loss of our beloved daughter and sister, Mrs Olive Norris, who passed away at Belmond We also want to thank all who contributed flowers.

Mrs. Drake,
Mrs. Martin Barz. 1tc

KLEMME YOUTHS IN TEXAS MILITARY CAMPS

Lyndon "Pete" Kilgore, son of Mr and Mrs C. C Kilgore has been transferred from an Illinois military training camp to Camp Wolters, Texas His address is now Private Lyndon E. Kilgore, 60th Ing Bn Co. D., 1st Pl, Camp Wolters, Texas

Milton Paul, who is at Fort Leonard Wood, Mo., expects to be transferred to Texas, but his new address is not available as yet

KLEMME YOUNG MAN NOW SECOND LIEUTENANT

Victor Greiman returned home last week from Camp Leonard Wood, Missouri, where he has been for the past six weeks taking officer's training

Victor, who will be a senior in the engineering department of the Iowa State College at Ames this fall, has been taking military training while in college and last summer took six weeks training at Fort Snelling. His work in military training has been rewarded with a commission of Second Lieutenant in the Army Officers Reserve Corps.

FORMER KLEMME GIRL HONORED WITH SHOWER

Mrs Lester Stille and daughter, Ruth, entertained a number of friends and relatives at a miscellaneous shower in honor of Mrs. Daniel Collins of Garner, on Saturday afternoon, July 26th.

Before her recent marriage, Mrs. Collins was Miss June Ludeke, a daughter of Mr and Mrs. Ralph C. Ludeke of near Ventura, and formerly of near Klemme.

Games were played and the bride was presented with many lovely gifts, after which lunch was served by the hostesses.

Out of town guests were the bride's mother, Mrs. R. C. Ludeke of Ventura and daughter, Doris of Des Moines; Mrs. Claude Shirley, Miss Mariam Stille, Mrs. Clark and Miss Irene Bridges all of De Ridder, Louisiana; Mrs J. D. Bailey of Cedar Falls; Mrs. Lou Conway of Camp Claiborne, La.: Mrs. Wm. Fennema of Alton, Iowa.

Mrs. Lydia Hartzel, Mrs. B. F. Hartzel and Mrs. C. L. Hartzel of Britt; Mrs Art Jass of Garner and Miss Harriett Gibbs of Mason City.

Former Goodell Athletic Star Married Sunday

This year the squirrel season is open from September 15th to November 15th The law sets the season from August 1st to October 15th The season was changed to the latter date by administrative order last season Daily bag limit on squirrels is 6, possession limit, 12.

Earl Writes

FOOD EXPENSIVE SAYS EARL REITZ OF ALASKA

Eggs Three For A Quarter And Hamburgers A Luxury Too

Earl Reitz, Klemme youth, who is a bombadier in the 36th Bombardment Squadron located at the army flying field at Elmendorf Field, Anchorage, Alaska, writes the following interesting letter received by Mrs Mary Church·

July 10, '41

Dear Mrs. Church:

This is Thursday afternoon, and it is a half-holiday, so will answer your letter which I received yesterday We were up at Wassilla Lake over the Fourth of July on a fishing trip but we didn't get to finish our week-end because the Army called every one in and declared a state of emergency, and we haven't been able to leave the post yet Nobody knows just why it is a state of emergency but personally, I think somebody saw a Jap fishing boat off the Coast and got panicky.

Tell Bim that a "G. I." truck is an Army truck (Government Issue)

Prices are much higher here in Alaska than they are in the states. It costs $1.00 to clean and press a pair of slacks. A two-year old movie costs 50 cents; ice cream is 40 cents a pint; eggs are three for a quarter; a hamburger sandwich costs 25 cents. However, I received another raise in pay from $61 to $72 per month.

You asked how I got the last raise in pay. Well, there are three ways to get promoted 1. Not what you know, but who you know. 2. Hand-shaking. 3. Working hard

The field has changed quite a bit since we came here. We used to have to chase the moose and bears off the runway before the planes could take off, but the Army Engineers are doing a pretty fast job of building up the field.

This is Beck's typewriter, and he wants to use it now, so I will quit for this time, remaining the same.

Earl.

KLEMME AUXILIARY WILL MEET

Klemme Auxiliary ladies will meet at the Legion Hall on Tuesday evening, August 5th.

All members are urged to be present at this meeting.

DELINQUENT TRUCK PLATES DRAW PENALTY AUG. 1

All truck owners who have not renewed their first half of the year truck licenses before August 1st will be liable to a penalty of 5 per cent a month after that date.

With only a few more days left in which to renew the licenses, there are still some truck operators in the county who have not bought second half plates. These operators will be assessed the extra penalty if the licenses are not renewed before the first of August.

The plates actually expired on July 1 but the state law gives the delinquent truck owners another month before the penalty is assessed.

WHITTEN GIRL BRIDE OF GOODELL YOUNG MAN

On Sunday afternoon, July 27th at 4 00 o'clock, the Church of Christ at Whitten, Iowa, was the scene of the beautiful wedding of Miss Mary Ellen Clark, daughter of Mr. and Mrs. John L Clark of Conrad, to Taalkeus G Ahrenkeil, son of Mr. and Mrs Anthony Ahrenkeil, of Goodell, Iowa. The double ring ceremony was performed by Rev. S R. Wall in the presence of many relatives and friends

* * *

Miss Wallace Doud, of Whitten, cousin of the bride, played the Bridal Chorus from Lohengrin (Wagner) as the processional, and Mendelssohn's Wedding March for the recessional. Preceeding the ceremony Miss Doud played "Ave Maria" (Schubert) and "Berceuse" from "Jocelyn" (Godard.) Mrs. Gerald Putman, of Eldora, cousin of the bride, sang "O Promise Me" by De Koven

* * *

The altar was banked with palms and ferns and pink and white gladiolas and the aisle leading to the altar was flanked on both sides with white baskets filled with white and pink gladiolas. The ushers unrolled a white carpet down the aisle before the playing of the Bridal Chorus.

The bride, who was given in marriage by her father, wore a floor length gown of white satin, fashioned princess style with train and wore a long veil held in place with a seed pearl tiara, and carried a shower bouquet of Sweetheart and snow white roses with sweet peas

The maid of honor, Miss Margaret Clark, sister of the bride, wore a gown of pearl Marquisette and carried a bouquet of Talisman roses

The groom wore a medium and light blue striped suit with white carnation boutonniere. Kenneth Boller of Goodell served as best man

Barbara Putman, ring bearer, small cousin of the bride, wore a pink taffeta gown with blue ribbons She carried a lovely corsage of white Easter lillies in which rested the wedding rings.

Lawrence and Clifford Hauser of Des Moines were the ushers.

* * *

A reception was held immediately following the ceremony at the home of the bride's parents. A three tier wedding cake decorated in pink and white was first cut by the bride and later cut and served to the guests by Mrs. Hugh Clark. The others who helped serve the lunch were Miss Eileen Forsythe, Des Moines, Miss Evelyn Hanisch, Conrad, Mrs. S. Howard Gimre, Marshalltown, Miss Lois Miller, Union, Miss Ruby Gabrielson, Belmond, and Miss Donna Mae Hauser, Des Moines.

* * *

The couple left immediately after the reception for a wedding trip

Mrs. Ahrenkeil is a graduate of the Conrad high school and of the Central Iowa Business College at Marshalltown

Mr. Ahrenkeil is a graduate of the Goodell high school and Drake University of Des Moines. He was prominent in both high school and college basketball.

They will make their home at Radcliff, Iowa, where Mr. Ahrenkeil will be the athletic coach for the Radcliff Consolidated School this coming year.

Operation of New Farm Parity Measure Puts U. S. Agriculture on 'Business' Basis

WASHINGTON. — When the history-making Farm Parity law went into effect the first of this month American agriculture began for the first time to operate like a gigantic manufacturing organization, with every farmer guaranteed a definite sales price for the things he produces — whether cereals, meats, fats, dairy products, tobacco, eggs, fruits, poultry or cotton.

What does parity mean and how does it operate?

Simply that from now on the American farmer will receive prices for his products that will give him a purchasing power equal to that which he held in the pre-World war years of 1909 to 1914. That was one of the most favorable farm price periods in history. The farmer is guaranteed a crop loan rate of 85 per cent, figured on a fixed valuation basis. If prices go above parity he reaps the benefit. If they fall below that valuation the farmer's crops go into the government's surplus bins and Uncle Sam takes the loss.

The parity law will add a billion dollars to American farm income this year, agricultural economists predict. It will generate a buying power that will be translated into expanding purchases of practically every commodity the farmer uses.

Manufacturers have usually been able to name the price at which they wished to sell the volume of their output. Now a floor has been placed under farm prices similar to the floor under industrial income. So the farmer can roll up his sleeves and pitch in with the knowledge that he has been placed virtually on an economic equality with industry. With the manufacturer such a program has required good judgment concerning costs, desired profit, supply and demand, competition and the volume of production. To all intents and purposes a similar responsibility has been placed on agriculture.

$1.15 Wheat Assured.

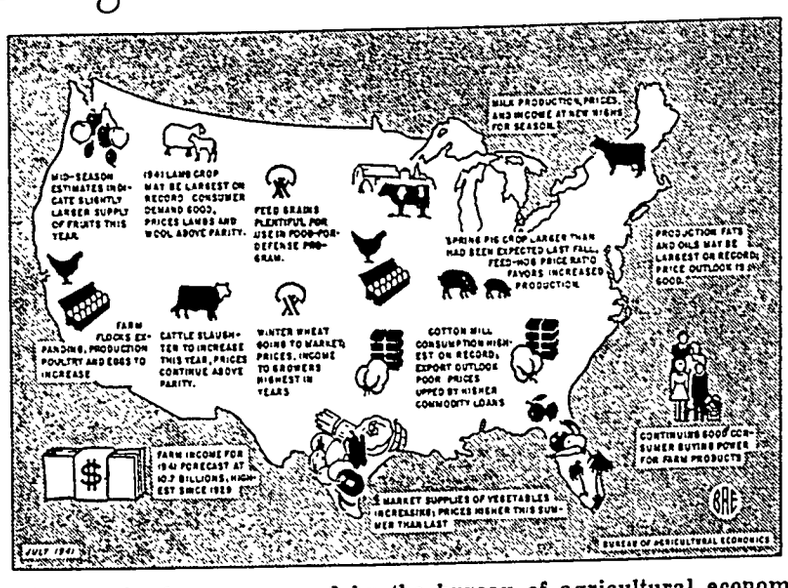
In order to prevent price breaks due to overproduction, safeguards restricting the volume of farm output have been set by the new law. And to protect prices further, surpluses of the farmer's production are limited to quantities that can be easily absorbed by the Federal Surplus Commodity corporation.

Sponsors of the law believe it will assure farmers a return of at least $1.15 a bushel for wheat, 87 cents a bushel for corn, and 16 cents a pound for cotton. With an increasing demand for farm products for defense purposes and the "Feed Britain" program under the lease-lend bill, prices may easily rise above these levels.

One thing is certain. Farm income and farm expenditures will be sharply increased by this new parity law. Last year agriculture received $9,120,000,000 for its production. The 1941 income will mount well over $10,000 000,000, according to current forecasts of the U. S. department of agriculture History has demonstrated that when national farm income rises above $7,000,000,000 a year, agricultural expenditures rise about as sharply as income.

Another favorable factor is that at the present time the farmer has a good deal of last year's production

Edward O'Neal, president of the American Farm Bureau federation. Operation of the farm parity measure culminates 25 years of effort on the part of this organization to bring about these benefits.



MID-SEASON ESTIMATES INDICATE SLIGHTLY LARGER SUPPLY OF FRUITS THIS YEAR.
1941 LAMB CROP MAY BE LARGEST ON RECORD. CONSUMER DEMAND GOOD; PRICES LAMBS AND WOOL ABOVE PARITY.
FEED GRAINS PLENTIFUL FOR USE IN FOOD-FOR-DEFENSE PROGRAM.
MILK PRODUCTION, PRICES, AND INCOME AT NEW HIGHS FOR SEASON.
SPRING PIG CROP LARGER THAN HAD BEEN EXPECTED LAST FALL. FEED-HOG PRICE RATIO FAVORS INCREASED PRODUCTION.
PRODUCTION FATS AND OILS MAY BE LARGEST ON RECORD; PRICE OUTLOOK IS POOR.
FARM FLOCKS EXPANDING; PRODUCTION POULTRY AND EGGS TO INCREASE
CATTLE SLAUGHTER TO INCREASE THIS YEAR; PRICES CONTINUE ABOVE PARITY.
WINTER WHEAT GOING TO MARKET; PRICES, INCOME TO GROWERS HIGHEST IN YEARS
COTTON MILL CONSUMPTION HIGHEST ON RECORD; EXPORT OUTLOOK POOR. PRICES UPHELD BY HIGHER COMMODITY LOANS
CONTINUING GOOD CONSUMER BUYING POWER FOR FARM PRODUCTS
FARM INCOME FOR 1941 FORECAST AT 10.7 BILLIONS, HIGHEST SINCE 1929
MARKET SUPPLIES OF VEGETABLES INCREASING; PRICES HIGHER THIS SUMMER THAN LAST
JULY 1941
BUREAU OF AGRICULTURAL ECONOMICS

The graph above, prepared by the bureau of agricultural economics, of the United States department of agriculture in Washington, illustrates the current farm situation in the nation today.

in storage under loan. He is therefore holding a good-sized equity in his last year's production which he can sell at better prices due to war conditions as well as the guarantee of parity prices. The farmer's last year's production is like money in the bank.

Labor Cost Is Up.

Increased taxes and higher costs for farm labor and for many of the products the farmer buys will syphon part of the income gain. The price the farmer pays for fertilizer, however, promises to be relatively lower than for numerous other products. Teamwork between science and industry has combined to cut the cost of soil improvement. A. L. Mehring of the U. S. department of agriculture recently pointed out that American farmers now save $200,000,000 a year due to reductions in the cost of fertilizer resulting from scientific research.

One of the almost inevitable results of increased farm income will be a rise in the value of farm land. The history of all past eras has shown that whenever farm products have risen in price for a considerable period, land has likewise risen in value. The rising trend may tempt many farmers to overexpansion. As a matter of fact the improved outlook for agriculture has already caused many farm folks to consider buying an extra farm.

If farmers will remember the aftermath of World War No. 1's farm expansion a good many future headaches can be avoided. During that first World war American agriculture was pushed to the limit. "Food Will Win the War" was the slogan. Under high pressure millions of new acres came under cultivation. Prices pyramided. But after the Treaty of Versailles, agriculture fell into difficulties. And many farmers to this day feel the hangover twinges of that speculative spree.

Improve Soil Program.

What is the alternative to the urge for more land today?

It lies in diverting any extra money that comes in from the farm parity law into lines that will bring more permanent security at less risk in the long run. For instance, paying off indebtedness, repairing old and putting up needed new farm buildings, improving livestock and increasing the fertility of the soil on the present farm.

This last is especially important, for on the productivity of the soil depends the farmer's ability to produce abundant crops for defense needs and to take advantage of the added income the parity law provides. And as a matter of fact, farmers can actually "enlarge" their farms without incurring the hazards of overexpansion.

"The secret lies in making the present farm acreage do a better production job," said a recent statement of the Middle West Soil Improvement Committee. "This means following a soil management program that will raise the land's total fertility level.

"Even in the most productive areas the average farm can usually be enlarged, so to speak, the equivalent of 10 per cent and sometimes as much as 50 per cent through intelligent soil treatment.

"In combination with other sound farming practices the use of fertilizer containing nitrogen, phosphorus and potash is essential in stepping up the soil's productive capacity. Such a practice not only has an immediate effect in increasing the per acre yield of crops needed in the nation's defense effort, but represents an important long range soil building program. It likewise means lower production costs and improved crop quality."

The soundness of this principle may be appreciated by a brief but detailed study of the performance of farm land prices from the pre-1914 days through the World war expansion and down to the depression.

Farm Values Rise and Fall.

In a group of middle western states the price of farm products more than doubled from 1910 to 1920. During this period land values also rose to record levels. After 1920 the reverse was true. But 1940 prices of farm products were only about one-half as high as in 1920 and land values were likewise cut in half.

Walter H. Ebling, a farm economist studying land values, discovered that a piece of typical farm land that was worth $100 an acre in the first "parity" days preceding the World war had reached a selling price of $171 an acre in 1920 —an increase of 71 per cent. By 1930 it was worth only $117, or a drop of $54 from 1920. Then during the low ebb years of the depression, the value of this same piece of land receded to $80

With some improvement in the prices of farm products after 1933, the value of farm land rose slightly. By 1937 the piece of land Ebling studied would have been worth $89—or $9 more than during the lowest years of the depression but still $11 less than its value before the World war. When the recession of 1937-38 carried the price of farm products down, farm lands again slipped in value. So by 1940 the piece of land would have been worth only $84, or $5 per acre less than in 1937 and $16 less than it was in the pre-World war period.

U. S. Civilian Blood Donors Asked by Army

NEW YORK CITY —Civilians on the home front can fill a new and important role in the national defense program by donating blood for transfusions to produce 200,000 half-pint units of dried blood plasma required by the army and navy during the fiscal year beginning this month, the war department announced recently.

The aim of the blood plasma program, which is already under way on a small scale, is to build up a reserve not only to meet military emergencies but to succor the wounded in civilian catastrophes as well.

This is a defense enterprise involving the co-operation of five components of the national structure: Pre-eminent is the public, which will be asked to donate the blood. The American Red Cross and the division of medical sciences of the National Research Council share the responsibility of directing the program, while the Red Cross also enrolls the volunteer donors and provides the personnel and equipment to collect the blood.

Commercial concerns in various parts of the country will process the blood The army and navy will maintain the plasma reserve for general and war use, with the army acting as purchasing agent to deal with the commercial concerns. A "pilot" project to procure 15,000 units is already under way. Donors are supplying blood through their local Red Cross chapters as fast as it can be processed.

Physicians Volunteer.

Plans for the larger objective of 200,000 units are still in their early stages However, the American Red Cross and the division of medical sciences of the National Research Council have already enlisted the co-operation of leading physicians and surgeons in a dozen cities These physicians, in co-operation with local Red Cross chapters, have promised to supervise the proper technique of drawing the blood from the volunteer donors.

The army and navy have each estimated their needs at 100,000 units.

The aim of the Red Cross and the National Research Council is to invite several drug and chemical concerns in various parts of the country to make bids for the processing work. In this way a strategic dispersion of the knowledge of preparing human blood in dry form will be accomplished and the chances of improving the technique are increased.

The medical departments of most armies of the world have recognized the value of dried blood plasma for transfusions and are building up a supply.

Army Heads Are Endangered by Recent War Games

WASHINGTON.—Uncle Sam has discovered startling weaknesses in army personnel, brought to light by recent war games. Congressmen are studying a new promotion system based more on real ability, less on seniority. Underfit and over-age combat commanders are to give way to younger men.

Graduates of the new army school, which begins this month, will be selected for duty. Enrollment is based on army-wide competition. Their slates will be the war-scarred face of Europe and their text-books will contain the summarized lessons of modern "blitz" methods of battle.

To the general public, official war maneuvers is a serious military game to train and develop fighting and tactical personnel and equipment. To the soldiers it is more than that. It is a grim test of their personal qualifications, and literally their heads hang beneath the "Damocles" sword of necessity.

The Washington MERRY-GO-ROUND

By DREW PEARSON & ROBERT ALLEN

WNU SERVICE

CHANGES IN PRESIDENT

WASHINGTON.—Recent months of war in Europe have made some significant changes in the habits and the outlook of the President. He is more serious, more worried. Also he is more circumscribed. The latter is important, because it means that he sees fewer people, loses some of his old contacts.

During his first eight years in office, probably no President in history was in closer touch with the country as a whole than Franklin Roosevelt. Not only did he see a great number of congressmen, labor leaders, business men and politicians during his daily routine, but he traveled more than any other President. Several times a year he took turns round the country, kept his ear to the ground, met all sorts of people.

Ever since the international emergency, he has stuck close to Washington. Not once has he got out into the Middle West, even during the 1940 campaign. Seldom has he gone farther away than New York or down the Potomac. Thus he has missed the relaxation, the rest, and the obvious joy he used to get from his roving junkets. Also he has missed his old personal contacts.

Note—The President boasts that he rests on a railroad trip, and this is really true. He seems to sleep better on a Pullman, and on occasion orders have been given to the train engineer to stretch out a run between towns in order to give the President extra sleep.

More Gold Braid.

Roosevelt's contacts thus are limited by remaining in Washington, and in Washington also, he is more circumscribed than ever. He does not see nearly as many members of congress and men from many walks of life as formerly. This is because he is concentrating so much time on national defense and foreign affairs.

All important decisions in the state department come across his desk. The freezing of Axis funds, the closing of German-Italian consulates, the speeches of Secretary Knox, have to get the President's O. K. Important decisions regarding the army and navy come to him, and a constant stream of questions regarding OPM and aid to Britain confronts him daily.

So the President sees far less of the men who helped to build up the New Deal, far more of army-navy officials, One Dollar Men and diplomats. Much of this is unavoidable, though part of it could be eliminated by more diversification of control.

However, this change in the President's mode of operation is not as important as the change which gradually has crept over his general outlook. On the surface, and in press conference, he is the same old wise-cracking, fun-loving Roosevelt. But underneath he is not.

No longer does he have the same zest for what he is doing. In the old days when he was building PWA bridges and WPA schoolhouses, writing labor laws, crusading for social security, fighting the big utilities, he loved every minute of it. He was building up, crusading for human needs and human rights. And his enthusiasm was boundless.

No War Enthusiasm.

Now, however, he knows that every step he takes in foreign policy, every dollar he spends for the navy, every man he inducts into the army, may be a step toward tearing down rather than building up. He believes the steps he is taking are absolutely necessary But he has no enthusiasm for them. In other words, he has no enthusiasm for war.

Most of the men around Roosevelt believe that war is inevitable, and it may be that he does, too—though he has not admitted that publicly. But judging by his hanging back in opposition to his more vigorous military-foreign policy advisers, the President hates and dreads the idea of this nation going into war.

He hates the reactions and aftermaths of war, and he hates the idea of having history record him as a War President

At the same time he believes that this country will have to move fast, and if it does not move now it may be too late. For the best definition of an isolationist, Roosevelt firmly believes, is one who by procrastination wants to see his women and children in the thick of the fighting here at home

* * *

MERRY-GO-ROUND

Ben Welles, son of Undersecretary of State Sumner Welles, is working as a newsman in Panama.

Nelson Rockefeller, government worker, gets up at five in the morning, shuns parties, goes to bed at ten.

The Rockefeller office has been flooded with requests from movie stars who want to tour Latin America.

When senators fail to pay their bills at the senate stationery room, the disbursing office, instead of dunning them, merely docks the amount from their pay checks.

"America," latest popular booklet by David Cushman Coyle, has been officially endorsed by the American Legion, General Federation of Women's Clubs, the Council for Democracy, and the selective service board.

Walter Winchell

(WNU Service)

Man About Town:

Secretary of State Cordell Hull has recovered sufficiently from a threatened collapse. He will resume the burden of his office and the world soon . . . Mrs. FDR's new radio sponsor may be Brazil at $2,000 a broadcast . . . Hitler's squawk that an American ship is arriving daily in Alexandria is a lie. It's two ships! . . . Insiders argue that Columnist Joe Alsop was sent to Bombay, India, presumably because there is no greater distance from Washington. Alsop embarrassed the White House and the navy by stating in print that his kin, the President, was waiting for an incident to get us into war—just before he got his naval commission.

Carol and Lupescu are concerned about their reception here. Why? They got a most cordial press on their arrival to this hemisphere . . . Hess is supposed to have said that he fled because the stars by which Hitler lives "deserted him after May 12th" . . . Our submarine detectors have been perfected to the point where surface craft can now signal: "Come up for identification or be sunk!" . . . There are models of cargo vessels being tried out in Long Island sound, which are Mr. Hitler's newest headache. For practical purposes these ships are as far out of the water as the subs are under it.

Exclusive! Jap subs, manned by German crews, are waiting in the narrow straits of Vladivostok to sink American supplies to Russia . . . A great number of German-American Bunders will have their citizenship revoked shortly—thanks to the splendid work of the Immigration Service via Sylvester Pindyck's office.

The Democratic brain trust figures that either Farley or O'Dwyer can lick any G.O.P. candidate for Mayor of New York. Some believe Farley will race against Dewey for Governor, but it may be Farley vs. Willkie.

Notes of an Innocent Bystander:

Magic Carpet: Ralph Ingersoll, the publisher, now on his way to Russia (to interview Stalin) was complaining to Steve Early at the White House the other day. "Steve," Ingersoll intoned, "those Russians are holding my passport."

"They are?" responded Steve. "And they want us to give them a hundred million dollars worth of machinery!"

Steve then called the State Dep't and, before Ingersoll knew it, he was on his way to Moscow.

Eyebrow Lifter: Mr. Ingersoll was saying before he left that he had just learned the hardest thing to find in Russia was a Communist. "How's that?" he was asked.

"Because," he explained, "the population of Russia is 160,000,000, and there are only 5,000,000 party members."

Despite the rigid censorship in Germany, the underground manages to circulate the latest news picked up via short-wave from England and America. When they want to discuss in public what they heard on BBC, the favorite method is to say, "Do you know what I dreamed?" and then proceed to relay the news picked up on the foreign station . . . Another popular method is to tell about a speech heard on the Nazi station and praise it and then add how a foreign station cut in with a "lot of lies." The speaker repeats the "lies" he heard, and his listeners get the drift . . . Since meetings are verboten in Germany, the anti-Nazis have become great funeral-goers. When a funeral is announced, a mob shows up at the cemetery and, as they walk behind the hearse, they trade information.

Add Picturesque Reporting: The best description of the Russianazi tangle, with both sides out-bragging the other in their communiques, is the New York Times' Edwin L. James' phrase: "The war of the typewriters."

By Way of Report: They are going to film the life of Lou Gehrig, which certainly was a life to admire.

There is plenty of drama in the career of another ball player. After he had been great for two decades, he faded. But the baseball mighties put a bust of him in the Hall of Fame. His bust had a home, but he had none.

Grover Cleveland Alexander.

Cartoon Material: A Nazi spy overhears a conversation between two of Secretary Hull's aides and gleefully sends the punchline to his decoding office, to wit:

"Awful news, but awful! I just drew the Washington Senators in the $10 pool!"

You've Met 'Em: It's Paul Hartman's tale of the three efficiency experts who were waiting impatiently in front of a hotel for a friend—so they could make it a foursome going through the revolving door.

Mistakes to Be Avoided In Summer Care of Dog

"DOG DAYS" are coming they needn't bother your dog. With simple, right summer care he'll be healthy and cool as a cucumber!

Do not clip him, for he sheds his undercoat, leaving his outer coat to protect him against

Enchanting Party Frocks of All-White for Evening Wear

By CHERIE NICHOLAS

DO YOU believe in the magic of fairy wands? Unless it be at the touch of a fairy wand how could such visions of loveliness as the trio pictured ever come into being?

It is just such lacy, beguiling sheer and lovely gowns as these that women who yearn for pretty clothes envision in their dreams of "what to wear," when they go dancing on a gay summer night So be as sentimental, as blithely romantic as you will in choosing your midsummer night festive gowns, keeping in mind that fashion particularly favors exquisitely fragile sheer media this season, with the emphasis definitely on all white for evening wear.

The all-white lace dress as pictured to the left is making its appearance again and again on best-dressed women who are attending fashionable night clubs or formal events at important summer resort hotels. It adds to the lure of this lace that it is American made It is as exquisite and beautiful as it is surprisingly inexpensive Crisp, white and delicate, the new laces make you look your prettiest with their lure and charm. The dress has its own rayon taffeta slip

The South American influence is very prominent in the white cotton lace evening gown shown centered in the group The four flounces on the skirt are reminiscent of the Spanish dancer's costume. The deep capelike collar opens at the back. With the return of the "gracious lady" period, the call for handsome lace such as fashions this distinguished frock is outstanding Nothing in the way of sheer cottons surpasses organdy and when it is elaborately eyeleted as is the organdy used for the "picture" gown on the fair socialite portrayed here, the effect is most eye-appealing. The introduction of black jersey in the bodice is in keeping with the present trend This touch of black gives a sophisticated look to an otherwise airy, fairy ingenue frock. The wing-sleeved bolero and the very full over-skirt effect are high-style details.

This matter of sheer airy-fairy fabrics for the party dress carries all the way through the program of the "pretty" frocks fashion so definitely favored this season. Often yards and yards of billowy tulles or stiffened chiffon or thinnest of marquisette go to make up the full skirt with its quaint little fitted bodice.

A new vogue this season is that of enormous florals handpainted on either most diaphanous filmy white sheers or these flower paintings are done on white jersey likewise white sharkskin in dazzling color glory.

Most of the new white dresses of rayon jersey (with a dull finish) or rayon crepe are made very simply. They are, however, given a look of distinction and importance by intriguing touches such as gold kid trimmings, gold or jeweled buttons, girdles with an enrichment of jewel embroidery

Watch buttons! They promise to be as important as jewelry in the evening mode, and are used conspicuously so as to call attention to their intricate design. Huge flower buttons add infinite charm to the otherwise all-white frock Immense mother-of-pearl buttons are fashion highlights Some of the pearl buttons are made up with a filigree design worked out in gold or silver. You can get buttons that snap on and off and thus change the entire aspect and color scheme at will.

(Released by Western Newspaper Union.)

Vacation Outfit

You can bank on this simple rayon sheer striped dress no matter where you vacation, for simplicity is America's fashion this summer from coast to coast. Broadening horizontal shoulder stripes, with whittling vertical stripes prove the stripe is quicker than the eye when it comes to actually whittling down the figure. This optical-illusion outfit comes in brown and blue, navy and white, also gray and white. A flaring brimmed hat and gauntlet gloves complete this outfit.

Chic Fur Capes Are on Fashion's New Calendar

Keep on the lookout for fur capes. They're on their way! They are available in any length from shoulder to waist depth and longer. If you have a coat that has served its time go to your favorite furrier without delay and have him transform it into a latest-model cape. If you are buying out-and-out new furs, before you invest take a look at the stunning cape fashions that definitely will carry the "new" look from now on. These are the final word in chic.

Linen Dresses and Suits Season's Smart Styles

Women of assured fashion intuition regard suits in black or brown, navy, or dark green linen as the best-looking costume of the season for town wear. These are meticulously tailored and are given charm and femininity via lovely white lingerie accents.

One-piece dresses of non-wrinkle linen are very popular this summer They are made with all the fine dressmaker details such as enhance chic models in crepe or thin wool. There are such highlight touches as braid trims, odd huge buttons and so on. The dress that looks like a suit, also princess types, are popular in linen.

Print Lingerie

Enthusiasm for lingerie and negligee apparel that is fashioned of either cotton or silk prints that are patterned with luscious looking strawberries is running high. You will love the new rose-motif prints, too.

IT HELPS SOME

("The Aga Khan has been compelled to cut his racing stable down to one horse."—News item)

If you've been hard hit by the war—
If you have felt its frightful touch—
If you are getting more and more
To feel your lot is not so much;
If you're enveloped in the blues—
If daily by some blow you're hit,
Here is some rather soothing news—
The Aga Khan is feeling it!

II

If you are prone to knit your brows
And worry over what's ahead—
If you've a tendency to grouse
About the way that you've been bled,
If you're complaining of the mess—
If every broadcast makes you blue,
This thought will help a bit, I guess—
The Aga Khan is scrimping, too!

III

If Europe's war has burdened you
And made you go a little slow
In making any outlays new
Or being careless with your dough;
If you have felt war's bitter sting
And think that you've been put upon,
This item may be comforting—
All's not so well with Aga Khan.

IV

If your life isn't what it was—
If you must count your sheckels now—
If day by day the conflict does
Its best to sink you by the bow;
If you are cutting down on gas
To make each dime the limit go,
This ought to help you let it pass—
The Aga Khan is low on dough.

V

If you can't live the way you did
And must add water to the soup;
If it's been months since you were rid
Of all the cares that 'round you swoop;
If you must now economize—
If you've cut out the fresh meat course,
This fact may help your spirits rise—
The Aga Khan's on his last horse!

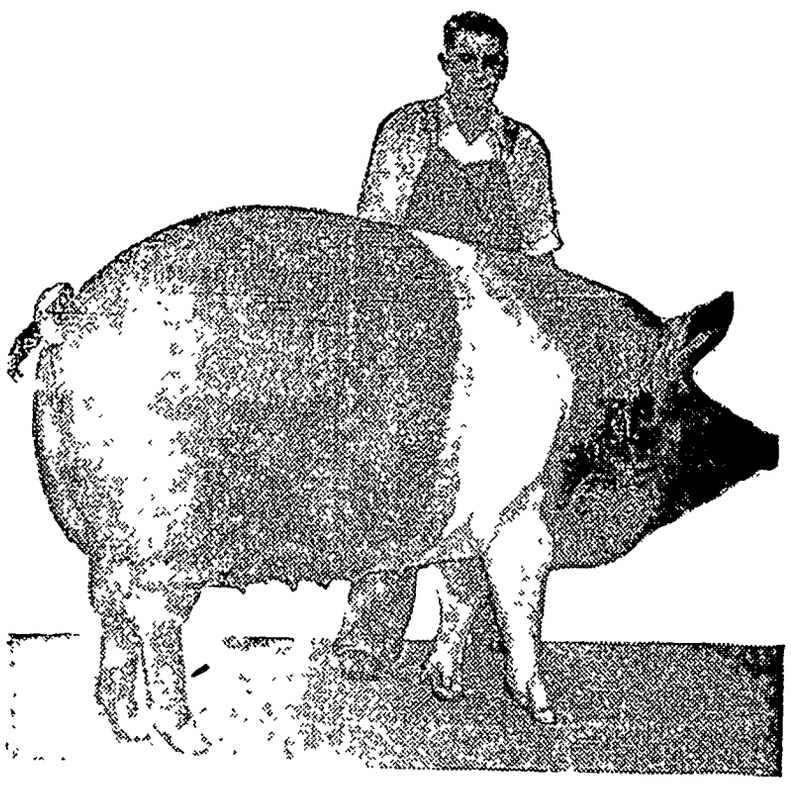
Benefits to Our Readers

THE PUBLIC nature of advertising benefits everyone it touches. It benefits the public by describing exactly the products that are offered. It benefits employees, because the advertiser must be more fair and just than the employer who has no obligation to the public. These benefits of advertising are quite apart from the obvious benefits which advertising confers—the lower prices, the higher quality, the better service that go with advertised goods and firms.

Boys and Girls to be Free At Iowa State Fair Aug. 22

Des Moines, Ia, Special An invitation to all boys and girls under 15 years of age to attend the Iowa State Fair free of charge on the opening "Children's Day", Friday, Aug 22, was issued here today by exposition officials. Elaborate festivities are being planned for the youngsters, starting with a mammoth children's party and entertainment program at 9 a. m in the State Fair grandstand. The program will feature circus acts, daylight fireworks, trained animals, clowns, and other favorites Over 30,000 children are expected to take advantage of the fair management's invitation to a free outing.

Famous Livestock Champions Vie in Iowa State Fair Show



Des Moines, Ia, Special More than two million dollars worth of championship livestock—the pick of the breeding herds of thirty states—has been entered at the 1941 Iowa State Fair, officials announced here today This will be the largest show of its kind in the United States this year, it is said More than 6,000 horses, cattle, swine, and sheep will enter the fair's judging rings between Aug. 22 and 29 in competition for more than $91,000 in cash prizes.

Noted Bands Booked For State Fair Dances

Griff Williams

Bernie Cummins

Des Moines, Ia, Special A "dance jamboree" for eight nights of the Iowa State Fair, with some of the nation's top "name" dance bands furnishing the music, was announced here today by the exposition management Bernie Cummins and his orchestra will be the featured attraction the evenings of August 22, 23 and 24, Joe Sanders, "the ole left-hander" will furnish the music August 25 and 26, and Griff Williams, whose orchestra drew the largest crowds at last year's fair, will play the nights of August 27, 28 and 29 The largest dance floor in Iowa is being built on the plaza to accommodate the crowds which are expected. Dancing will continue from 9 p m until 1 a. m each night.

Since they were inaugurated two years ago, the nightly dances on the State Fair plaza have taken their place among the most popular features of the fair The huge maple dance floor in the center of the plaza accommodates more than fifteen hundred couples at one time In addition, seats for several hundred spectators will be erected around the dance floor [illegible] ant to hear these radio network orchestras in person before they go to participate in the dancing. A mammoth circus tent will be erected over the floor so that the dances may be held each night, rain or shine.

Hancock County Board Proceedings

5TH ADJOURNED JUNE MEETING

Garner Iowa July 21 1941

The Hancock County Iowa Board of Supervisors met in session on above date with G E Klipping F J Schoun and Penn Eckels present

The minutes of the last meeting were read and approved as read

Supervisor Klipping is appointed a committee to investigate and cause repairs to be made in D D No 27-39

On motion by Schoun and second by Klipping George Morgan, weed commissioner is hereby authorized to exceed the sum of $25 00 in expenditures for the eradication or destruction of weeds on any individual farm, in accordance with a written agreement on file in the office of the county auditor Said expenditure to be controlled strictly by provision of the weed law Code of Iowa, 1939, and amendments thereto

This being the 21st day of July 1941 the date set heretofore for a hearing on the petition of Emil W Haes et al for a cleanout of the main open ditch of Drainage District No 6 Hancock County Iowa and of the open ditch of lateral No 4 of D D No 6, by the Board of Supervisors of Hancock County Iowa in a resolution adopted on June 9 1941 fixing the time for hearing at 10 o'clock A M of the above captioned date is a time for hearing

WHEREAS the proof of publication is on file showing the notice to owners of real estate in said district and laterals was given as by law provided and the engineer's report is on file and that such repairs are necessary and conducive to public health convenience welfare and use That the cost thereof will not be excessive and the benefits derived are greater than the cost thereof and all objections oral and written were duly considered by the Board and the Board having fully considered the [illegible] reports recommendations and estimated costs submitted by Engineer C F Metten and being satisfied that the plan is feasible and [illegible]

NOW BE IT THEREFORE RESOLVED by the Board of Supervisors of Hancock County Iowa that the prayer of the petitioners be granted the reports of the Engineer together with plans and recommendations be approved and the repair petitioned for be ordered made and established in accordance with the plans, specifications and recommendations of the Engineer

BE IT FURTHER RESOLVED that the county auditor be and he is hereby directed to give notice by publication once each week for two consecutive weeks in the Garner Leader and Signal a newspaper published in Hancock County Iowa, of the time and place of letting said work, which notice shall specify approximate work to be done on the main and on lateral No. 4 of D D No 6, the time for commencement and completion that bids will be received on the entire job in each lateral and bidders will be required to deposit certified check on some Iowa bank with the county auditor, as provided for by Iowa law

BE IT FURTHER RESOLVED that said letting shall be held before this Board at Garner Iowa, in the Court Room on the 4th day of August 1941 at the hour of 1 30 P M and bids not filed in accordance with this resolution will not be considered and the auditor shall so state in his notice to bidders. The Board reserves the right to waive technicalities and reject any or all bids.

The foregoing resolution was offered and read by Supervisor Schoun who moved its adoption, was seconded by Supervisor Klipping whereupon the Chairman, Penn Eckels, placed the motion of its adoption and upon roll call the following members voted aye G E. Klipping, F J Schoun and Penn Eckels. Nays—None Whereupon the Chairman declared the resolution duly adopted

This being the 21st day of July 1941, a date heretofore set for a letting on the cleanout of laterals A and 28 of D D No 7, Lateral No 1 of D D. No. 3 and 4 and lateral 4 and a part of East Main in D D No 1 and 2, all in Hancock County Iowa the hour for said letting having arrived the proof of publication being on file and the Board being fully advised the Chairman of the Board proceeded to open all bids on file, and after duly considering all bids on file did find the bid of George Russell of Muscatine, Iowa, to be the lowest and best bid therefor

BE IT THEREFOR RESOLVED by the Board of Supervisors acting for and in behalf of Drainage District No 7, No. 3 and 4, and D D 1 and 2, that the bid of George Russell be accepted as the lowest and best bid for cleanout of items No 1 to 5 inclusive as set out in the notice to bidders and he is hereby awarded a contract for said cleanout. All other bids are hereby rejected.

BE IT FURTHER RESOLVED that Chairman, Penn Eckels, be and he is hereby authorized to execute said contract in behalf of Hancock County, Iowa.

On motion and second Board adjourned to August 4, 1941 at 9 o'clock A. M.

Chairman

Sneeze by Stroboscope Studied by Scientists

That respiratory diseases may be spread through the expulsion of germs in a sneeze or cough is fairly generally known. With the aid of a comparatively new photographic process, which can take 600 pictures a second, an investigation was underway to determine how widely and rapidly the droplets in a sneeze spread. The investigators hoped their findings would be of some help in the battle against respiratory diseases.

The photographic process used was that invented by Dr. Harold Edgerton of the Massachusetts Institute of Technology. Called stroboscopic photography, the process differs from ordinary photography in that the camera shutter is left open and the light (supplied by a gas-filled tube, or stroboscope) is broken into 36,000 flashes a minute. Impressions are left on the photographic plate each time the light flashes; in ordinary photography the light remains constant and the camera shutter opens and closes.

Heading the research into the common sneeze was one of Dr. Edgerton's colleagues at M. I. T., Prof. Marshall W. Jennison of the department of biology and public health. Using Edgerton's technique, Professor Jennison made several photographs of the effect of a sneeze. Among his early findings:

Near the end of a sneeze, the mouth closes involuntarily and propels at high speed (two miles a minute) a great number of droplets through the restricted opening.

In a single spasm, thousands of droplets ranging down to one two-hundred-and-fiftieth of an inch in diameter are expelled.

The smallest of these drops evaporate but others are left floating in the air. These particles may be distributed to other persons.

Compared with the number of drops issuing from the mouth, those coming from the nose are insignificant.

In general, coughing gives forth fewer but larger droplets than sneezing.

Summers Getting Hotter, Claims Weather Bureau

Many of us incline to grin indulgently when the old folks dash the perspiration from their brows and grumblingly assert that when they were young the weather was pleasant in the summertime and not torrid as it is today. We wink and, like as not, say to ourselves that distant things seem pleasantest, and the only reason why Dad and Granddad imagine those long-gone summers to have been more mild is because they are victims of the very human tendency to forget the unpleasant and recall only the serene and balmy days.

However, we are wrong and the old folks are right. The summers are hotter now than they were when the horseless buggy was an object at which to gape And if you have any doubt about it, there are the statistics of the weather bureau as ineluctable proof of the fact.

According to the bureau's charts the average summer temperature has jumped by at least three degrees during the last 20 years. This is really a phenomenal advance, and a rise of an average of three degrees means but one thing—that there have been a good many scorching hot days.

The weather bureau is quite frank in admitting that it does not know how to account for this rise in general summer temperature.

How President Resigns

A President or vice president of the United States may resign by signing a written statement of resignation and forwarding it to the department of state—not to the legislative or judicial branch of the government This procedure is set forth in a federal law adopted in 1792 and still in effect. The law says in part "A resignation of the office of President or Vice President shall be an instrument in writing declaring the same . . . and delivered into the office of the Secretary of State." No President has ever resigned, but one vice president has—John C. Calhoun of South Carolina. He quit the vice presidency in 1832 in order to become a senator.

Sizing for Rugs

Rugs in constant use frequently lose their shape and just won't lay down because the sizing on the under side has deteriorated. According to the extension service of the University of Nebraska agriculture college, the life of such rugs may be prolonged by resizing them. First thoroughly clean the rug by shampooing and let it dry. Then tack it napside down on the floor and apply a solution of one part glue (one-fourth pound) and eight parts water (two quarts). If the rug is light weight, be sure not to put on so much glue that it penetrates to the right side. After application of the sizing, let the rug dry for 24 hours before relaying.

Accidental Burns

Accidental burns, exclusive of conflagrations, are the only type of home accidents in which more women than men are injured fatally. Fatal burns in the home occur about twice as frequently among women as men.

DINNER BELL

The dinner bell now in possession of Mr. and Mrs. Dan Lorenz, of Dennison, has been put to a new use. Coated with a new coat of aluminum paint, it decorates the gate at the entrance to the home The bell belonged first to Dr H McWilliams, Crawford county's first doctor.

EXPLODED

A glass jar filled with chicken exploded causing the arms and face of Mrs. Clarence Kruse, Holland, to be cut by the glass. Steam in the jar after heating caused the explosion. Glass and chicken were splattered all over the room.

Cave In

Omeal Nelson near Humboldt investigated a field earth hump that looked strange The next he knew, he was falling virtually into an old well. By catching hold of a tractor he saved himself a fall of some 45 feet.

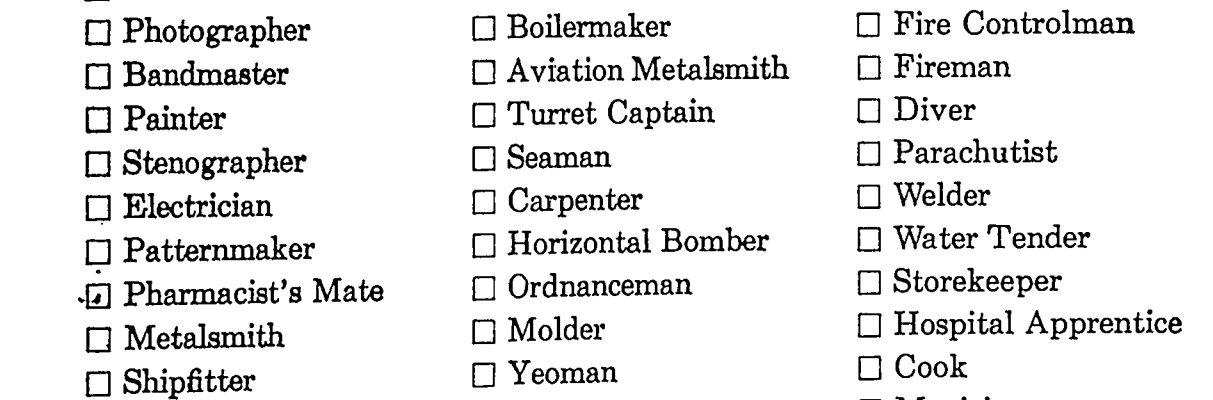
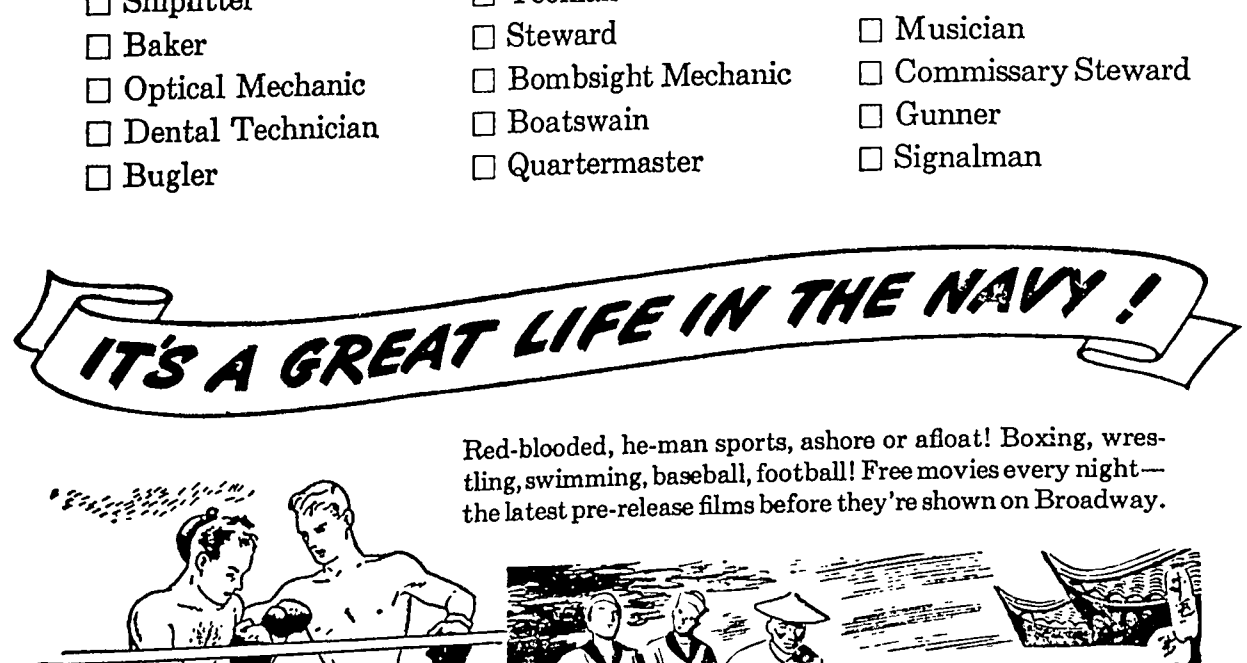
IT'S A GREAT LIFE IN THE NAVY!

Red-blooded, he-man sports, ashore or afloat! Boxing, wrestling, swimming, baseball, football! Free movies every night—the latest pre-release films before they're shown on Broadway.



You get frequent shore leaves at home and in such exciting far-flung places as Hawaii, Alaska, Latin America, the SouthSeas, New York—places most men only read about.



How you can get steady pay with regular increases up to $157 a month (and keep) guaranteed by the U. S. Navy.

TODAY, the Navy offers you the chance of a lifetime to get to the top in a job of your choosing. What's your hobby? Radio . . . flying . . . mechanics? The Navy will make you an expert in your field through free training worth $1500 a year or more . . . training that pays big dividends whether or not you remain in the service.

You don't need money. You don't need experience. The Navy gives you both. And it guarantees you regular cash pay plus all living expenses while you learn.

In the Navy you don't have to fight for advancement. Promotions come your way regularly. And pay increases go with them. After only four months you get a raise in pay. And by the end of your first enlistment you may increase your pay seven times.

LOOK WHAT THE U. S. NAVY OFFERS YOU

FREE TRAINING worth $1500. Nearly 50 trades and vocations to choose from.
GOOD PAY with regular increases. You can earn up to $157 a month.
EACH YEAR you are entitled to a generous vacation period, with full pay.
GOOD FOOD and plenty of it.
FREE CLOTHING. A complete outfit of clothing when you first enlist. (Over $100 worth.)
FREE MEDICAL CARE, including regular dental attention.
FINEST SPORTS and entertainment any man could ask for Boxing. Baseball. Swimming. And movies—previews, too.
TRAVEL, ADVENTURE, THRILLS—You can't beat the Navy for them!
BECOME AN OFFICER. You can work for an appointment to the Naval Academy or the Annapolis of the Air at Pensacola
FUTURE SUCCESS. It's easy for Navy trained men to get good-paying jobs in civil life.
LIBERAL RETIREMENT-PAY.

As a Navy man, your future is assured. You embark on a life of travel, adventure, thrills. You can rise to be a highly-paid commissioned officer. If you complete 20 years or more of service, the United States guarantees you a substantial monthly income for life. If you return to civil life, your skilled Navy training makes it easy to land a good-paying job.

Don't pass up the biggest opportunity now open to young Americans. Choose the job you want. Then send for all the details on how to get in the Navy today.

ACT NOW! HERE'S HOW!

(No Obligation)

TODAY... get the free illustrated booklet called "Life in the Navy." It gives you the glowing facts. If you are 17 or over, all you need do is to ask the Navy Editor of this newspaper.

TELEPHONE HIM, or fill in the coupon below and give it to him at this newspaper's office. Or mail the coupon to him, either in an envelope or pasted on a penny postal card.

WEAR THIS BADGE OF HONOR! If after reading the free booklet you decide to apply for a place in the Navy, you will receive this smart lapel-emblem. It is a badge of honor you will be proud to wear.

Tear out and take or send this coupon to the Navy Editor of this newspaper D

Without obligation on my part whatsoever, please send me free booklet, "Life in the Navy," giving full details about the opportunities for men in the Navy.

Miss Erdene Nelson spent the past week visiting at the home of her grandparents, Mr. and Mrs. Tom Nelson.

Mr. and Mrs. Ed. Neuhring and Jeanne Kay of Belmond and Wayne Bachman visited with their father in the hospital at Hampton on Saturday afternoon.

Paul Kramer has been suffering from injuries received when a pitchfork, falling from a load of bundles, ran into his arm Thursday.

Mr. and Mrs. Wm. Bell have enjoyed a visit from her neice of Chicago this past week.

Mr. and Mrs. Tom Nelson and grandaughter, Erdene, were callers at Belmond on Friday evening.

Mr. and Mrs. Ed. Neuhring and Jeanne Kay of Belmond were Sunday dinner guests at the Owen Neuhring home.

Iowa produces and markets more hogs than any other 2 states in the union.

Drawing 'Without Plan' Aids Mental Treatment

Doodling — drawing without any plan—has a definite value in the treatment of mental cases and helps relieve mental tension, in the opinion of Dr. Purcell G. Shube, assistant superintendent at Boston State hospital.

Since 1934 mental patients at the hospital have been allowed to draw—in fact, are encouraged to draw—and the results show that "active patients become quieter, more controlled and reasonable, and the restrained patients are less depressed."

The treatment, Dr. Shube says, is of no value to artists, however. "It can be used as a therapeutic medium only when it represents an unused potentiality . . ."

More than 6,000 "doodles" have been collected at the hospital and have been classified into the work of restrained mental cases and the work of the active insane.

Each type of patient has definite qualities in the work done and, by analyzing these, Dr. Shube believes he can tell whether artists were sane when they painted pictures for museums.

Study of the modern artists has led him to believe that many of the artists were insane. And when surrealists are mentioned, Shube remarks:

"If I had a patient who produced that work, I would say without hesitation that he was suffering from dementia praecox or psycho-neurosis."

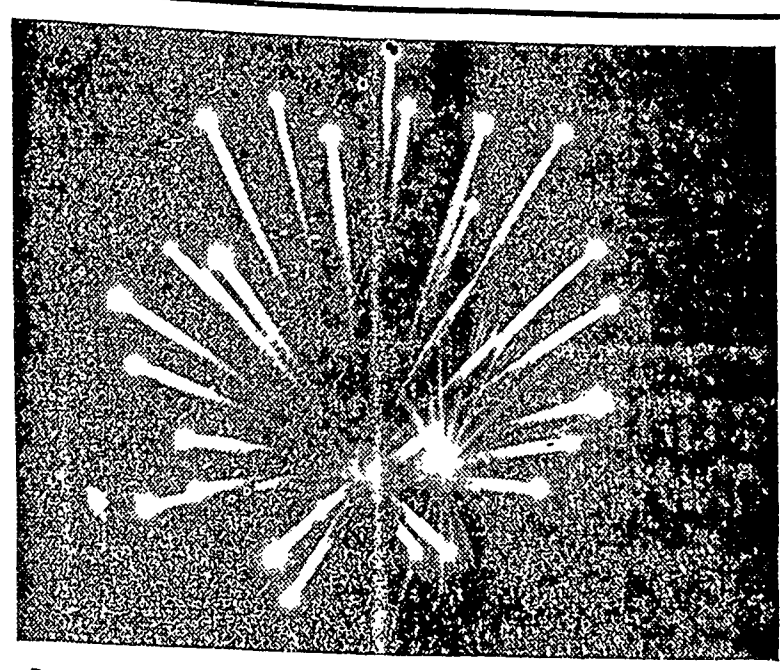
State Fair in Patriotic Vein



Des Moines, Ia., Special — The largest patriotic fireworks display seen in the midwest since the days of the last World War will feature the night show at this year's Iowa State Fair, Aug. 22-29, officials announced here today. The huge display will strike the keynote for the exposition's "preparedness" theme, with pyrotechnic spectacles of America's two-ocean navy, military events, new types of rockets and bombs in patriotic colors, and dozens of other All American features. Fair officials report that other night show headliners will include musical extravaganzas, open air circus, harness and saddle horse shows and dancing to nationally known "name" bands.

THE BULLHEAD

(First of a Series on Common Iowa Fishes)

We pause briefly to pay a bit of humble homage to the much maligned BULLHEAD, of which there are three distinct species in Iowa. The black bullhead, brown bullhead and yellow bullhead all are found in the waters of our state.

You'll recall of course many things about the lowly bullhead most of them learned in the school of experience. Who hasn't fished for the ubiquitous bullhead. Most abundant of the three species in Iowa is the black bullhead or the "Ameirus melas" as our scientific friends choose to call him.

Most of us cut our angling eye teeth fishing for this ugly-looking denizen of our lakes and streams, inhabiting even the stagnant, overflow ponds of the state. He's a sociable critter for all his ugly looks, the fisherman's friend the angler's ally, the ace in the hole that often provides fish for the skillet when his more aristocratic brethern refuse to take to the hook.

You can learn a lot fishing for bullheads and one of the initial more forceful lessons is the fact that bullheads are equipped with formidable spines that have a way of sticking themselves in your thumb, despite any degree of care you may exercise in removing a bullhead from your hook.

Black bullheads twelve to fourteen inches in length are common in our waters though they usually run shorter. Both the black and yellow bullhead are found in our artificial lakes. These fish are lunkers, often running up to two pounds in weight. The anal fin of the yellow bullhead is more rounded than that of his dusky brother. The tail fin of the black bullhead is squarish to slightly notched. The bullhead is a common sort of individual, a proletarian if ever there was one. He's omnivorous in his feeding habits, gobbles up whatever comes his way, be it fish, fowl or vegetable. Anglers take him on angleworms, minnows, liver and what have you.

Bullheads furnish more angling than any of the other fishes found in the state. Simon pure anglers scoff at fishing for this repulsive looking little rascal, little realizing the good bet they are passing up. He may not be a picture of grace and charm on a stringer, but once in the skillet he takes a back seat to no fish that swims. Fried to a rich, golden brown, the lowly bullhead at last comes into his own, a gastronomical triumph designed to tickle the palate of any epicure.

There is a continuous open season on bullheads in Iowa. There's no minimum length limit and the daily catch limit is 25. In the artificial lakes, fishing for bullheads is not permitted until June 15.

You'll find bullheads in most of the state's water areas. Lost Island Lake near Ruthven, in Palo Alto County, long has been a mecca for bullhead fishermen.

Black Hawk Lake, near Lake View in Sac County, is another bullhead fisherman's paradise. Census work on that lake taken when the lake was opened on May 15th of this year indicated that 42,000 bullheads were taken there in a single day's fishing.

Iowa supplies the consumers of the nation with more corn fattened beef than any other state.

Here's a chance to test your knowledge and have a lot of fun doing it. Simply read the question, indicate choice of answer in space provided, check for correctness, then tally score to get your rating.

(1) Will Rogers, America's famous humorist, was a native son of (a) Missouri, (b) Arkansas, (c) England, (d) Oklahoma. ☐

(2) Lewis and Clark (a) won the Davis cup for the U. S. in 1929, (b) led an expedition through the Northwest territory in 1804-6, (c) completed the first successful non-stop flight to Hawaii, (d) surveyed the first railroad through the Rockies. ☐

(3) **If you were introduced to this animal you would meet: (a) Sammy Skunk, (b) Billy Beaver, (c) Ronald Raccoon, (d) Ferdinand Fox.** ☐

(4) Proper method of displaying the U. S. flag is: (a) with field of stars to upper-right of the audience, (b) to upper-left, (c) stars in lower right corner, (d) there is no definite rule. ☐

(5) First all-motion picture theater in the world was opened in 1905 at (a) New York city, (b) Paris (c) Pittsburgh, (d) Hollywood. ☐

(6) "I'd rather be right than President," said: (a) Alfred E. Smith, (b) Alf Landon, (c) Henry Clay, (d) William Jennings Bryan. ☐

Pronunciations Differ

In Quebec they spell it Joliette. Most of the towners call it Jollyet but a few ritzed it to Zholy-aye. In Wisconsin there is a burg spelled Allouez. Natives say Al-o-weez. Purists claim it should be Al-o-way.

In Egypt, one would say Ky-ro; but the division point on the Illinois Central is Kayrow. If you are buying a ticket in Peoria to the adjacent Mason county town you ask for a ducat to San Joz. If the transaction is made at San Francisco for transportation to the main town of Santa Clara county the pronunciation is San Hosey.

Layfee-et might horrify an alumnus of the Sorbonne, but it'll get you where you want to go if you are headed for the Wabash settlement. Perhaps lexicographers would hold out for Terra Hote but most Vigo county folk still call it Terry Hut.

An Overcrowded Cemetery

The famous Campo Santo cemetery in Genoa, Italy is so crowded that even the flat and unprotected roof of its great public mausoleum is packed with rows of marble tombs.

ROTATION GRAZING WILL INCREASE GRASS YIELD

Iowa farmers who want to get the most out of their pastures during the rest of the summer, can boost production of their pasture crops as much as 25 per cent simply by adopting a program of rotation grazing. This is the conclusion reached by Paul M. Burson, Iowa State College extension agronomist, after surveying the results obtained by farmers who are practicing rotation grazing in the pasture improvement and management programs.

Farmers in the pasture program have boosted their pasture production on an average of from 63 pasture days per year to 239 pasture days by renovating old pastures and following with a program of rotation grazing, Burson reports.

One factor which has made rotation grazing more feasible is the advent of electric fences, Burson points out. He asserts it will pay farmers big dividends, however, to rotate their pastures even though it necessitates building a temporary fence.

Some farmers divide their permanent pasture areas in half and some believe three areas are more suitable. If three areas are provided, each section may be grazed for a week at a time and will then have 2 weeks to recuperate.

Burson asserts that many farmers also have found it a paying proposition to pasture temporary grasses, such as sudan, in such rotation.

In reference to new seeding, the specialist says that such pasture crops as brome grass and alfalfa may be seeded in Iowa (particularly in the western portion) starting about the middle of August. However, he cautions farmers not to start pasture renovating work until nearly next spring.

IT HAPPENS . . .
In The Best of Families

Frank, attaining the grown-up age of 10, and beginning to feel independent of parental authority, often became angry at not having his own way. "Well, if I can't, I'll leave home," he threatened belligerently one day after being refused one of his many requests. "You'll be sorry if I run away!."

"Well, son, it's up to you," Mother said seriously. "We don't like to have you go, but we can get along without you if we have to."

"If you want to go, don't run away. I'll help you get your clothes ready and give you a little money to get away on. When you come back, though, you'll have to work for your board and room, just like anyone outside the family. Then you'll feel better about sleeping in your own bed and eating at the family table."

Frank stunned thought of something to do outside right away. The incident was strangely unmentioned after that.

SANDWICHES THAT REALLY TEMPT
(See Recipes Below)

BUFFET SUPPERS

If there's one season of the year when you like to feel really free from the heat of the kitchen, then summer's that season. You can do it easily, too, if you'll plan and prepare C-O-O-L meals in the early hours of the day before the heat becomes sweltering. Then stay strictly out of the kitchen until suppertime.

Make mealtime during these months as simple as possible. Not only will you be the more charming for doing less work, but your family will enjoy the simplicity as a change. One of the answers to this is buffet service. An attractively arranged table on the summer porch is a tonic for hazy summer appetites.

***Sandwich Loaf.**

For Chicken Filling use:
1 cup ground, cooked chicken
½ cup ground almonds
2 to 4 tablespoons chopped celery
Salt to taste
Lemon juice to flavor
Salad dressing to moisten

Mix chicken, celery and almonds Season with salt and lemon juice and add enough dressing to give spreading consistency.

For Egg Filling use:
4 hard cooked eggs
⅓ cup chopped cooked bacon or
⅓ cup stuffed olives, chopped
Salt to season
Few drops Worcestershire sauce
Salad dressing or cream to moisten.

Chop eggs, add bacon and Worcestershire sauce. Moisten with salad dressing to give spreading consistency.

Remove the crusts from an uncut loaf of day-old white sandwich bread. Slice lengthwise to make three or four slices about ¾ inch thick. It's a good idea to have the bottom slice thicker than the other three since it helps in placing the loaf when served. Spread slices, except top and bottom, with creamed butter, mayonnaise, then with different fillings. Use chicken filling between two slices; egg filling for the next and chopped vegetables moistened with mayonnaise for the third or tomato slices.

Stack and cover top and sides with soft cream cheese piled like frosting. Garnish with thin radish slices and dust with chopped chives Chill in the refrigerator several hours before serving. It's better not to use lettuce because it offers slicing difficulties after the loaf is served.

For the cream cheese frosting use ¼ to ⅓ pound of cream cheese. Add rich milk or cream to make a thick paste. Beat cheese and cream until evenly mixed and of good consistency for spreading Spread over loaf to give a fluffy effect, as though you were swirling icing.

***Tomato-Cheese Salad.**
(Serves 8-10)

1 can (10½ ounces) condensed tomato soup
1 tablespoon butter
1 tablespoon grated onion
1½ tablespoons gelatine
¼ cup cold water
6 to 8 ounces cottage cheese
½ cup mayonnaise
Salt to taste
1 cup chopped cucumber
1 cup chopped celery
½ cup sliced radishes
½ cup finely chopped onion
Lettuce
Tart french dressing

Heat the tomato soup, butter and grated onion Soften gelatine in cold water and add it to the hot tomato mixture. Add the cottage cheese and mayonnaise, stir the mixture thoroughly and salt it to taste Let the mixture cool until it thickens slightly, then add the chopped vegetables Pour into a large ring mold or individual molds and chill until firm. When ready to serve unmold on crisp lettuce Use a tart french dressing with this salad.

A one-dish summer meal that will help you be a cool and collected homemaker is this tasty ham mousse which may be served as a salad main dish, heaped high with garden greens, tomato aspic cubes, devilled eggs, carrot strips, peas marinated in french dressing, ripe olives, celery hearts.

Ham Mousse Salad Plate.
(Serves 6-8)

1 tablespoon of plain gelatine
¼ cup cold water
2 cups stock or bouillon
½ cup mayonnaise
½ cup diced celery
¼ cup diced dill pickle
¼ cup minced pimiento
1 cup chopped, cooked, smoked ham

Soak gelatine in cold water for 5 minutes Heat stock or bouillon to boiling point and add gelatine which is soaked Stir until dissolved Chill until slightly thickened, then whip in the mayonnaise. Add remaining ingredients, pour into ring mold and chill until firm. Unmold on salad plate and garnish with accompaniments suggested above.

Muffins that will bake in a few minutes will give your meal a tang and zest that will bring cheers from the family. These are so good you'll want them often for any meal of the day. If made in the smaller muffin tins, they'll make a grand addition when you have the ladies in for luncheon

***Honey and Nut Bran Muffins.**
(Makes 16 large muffins)

½ cup honey
1 cup flour
¼ to ½ teaspoon soda
½ teaspoon salt
2 cups bran cereal
1 tablespoon melted butter
1½ cups milk
¾ cup walnuts, chopped fine

Sift together flour, soda, salt, and mix with bran cereal Add other ingredients. Place in greased gem pans and bake in a quick oven (425 degrees) for 25-30 minutes.

A jam spicy and delicious to go with your muffins is this one which needs only a few minutes' cooking and is therefore guaranteed not to make your kitchen unbearably hot.

***Spiced Rhubarb Jam With Orange.**
(Makes 7 6-ounce glasses)

3⅓ cups prepared fruit
4 cups sugar
1 box powdered fruit pectin

To prepare fruit, trim and slice fine (do not peel) about 2 pounds of small red-stalked rhubarb Add 1 cup of sugar, mix, let stand for 15 minutes (This cup of sugar is added in addition to the ones specified above) Add 1 teaspoon each of cinnamon and cloves, and grated rind of 1 orange.

Measure prepared fruit into a 5- to 6-quart kettle filling up last cup or fraction of a cup with water if necessary. Place over the hottest fire, add fruit pectin, mix well, and continue stirring until mixture comes to a hard boil. To reduce foaming ¼ teaspoon butter may be added Pour in the 4 cups of sugar, stirring, bring to a full rolling boil, and boil hard 1 minute.

Remove from fire, skim, pour quickly into glasses. Paraffin at once.

THIS WEEK'S MENU

*Sandwich Loaf
*Tomato-Cheese Salad
*Honey and Nut Bran Muffins
*Spiced Rhubarb Jam
Cool Beverage
Chilled Assorted Fruit Plate
*Recipe given

LYNN SAYS:

When you think the thermometer's going to burst, then think cool, eat cool, act cool, and you'll be cool Drink plenty of water and cooling beverages.

Be gay and have your meals casually out on the shady porch on a bright table cloth. Serve things buffet style for it'll make it easier all the way around less table setting, less dishes, and less to do.

No one may feel much like eating, and people, generally eat less during summer months, but they must still have the proper diet. So bring out your crisp garden salads, chilled main dishes, and assorted fruits. Be Cool!

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Dean of The Moody Bible Institute of Chicago
(Released by Western Newspaper Union.)

Lesson for August 3

PAUL PREACHES FAITH IN CHRIST

LESSON TEXT—Romans 3 21-31, 5 1, 2.
GOLDEN TEXT—As it is written, The just shall live by faith.—Romans 1.17

Justification by faith is a doctrine which lies at the very heart of the gospel. It provides the answer to man's age-old question, "What must I do to be saved?" (Acts 16:30).

"This was a question with which Paul had himself grappled, and for years he had sought salvation in the traditional Jewish way. Then one day he met Christ and he underwent a spiritual transformation through faith in Him, apart from the works of the law. Because of that experience, and because of the divine revelations made to him, he was able to show others how to be saved and how to live a life of victory. Among the writers of the New Testament it is Paul who most clearly sets forth the doctrine of justification by faith, a doctrine which has brought comfort of soul to multitudes, and the consciousness of sins forgiven." (Olmstead).

I. How Can God Be Just and Justify Sinners? (Rom. 3:21-31).

The portion of Romans just preceding our lesson is devoted to a devastating treatment of man's sinfulness, bringing him face to face with the question, "What can I do about it?" The answer has a hopeless ring to it.

1. Man has no righteousness of his own, and cannot by any of his own works save himself. "He has tried many ways, in every age, but no human being, or groups of men or women, have ever devised any scheme, have ever conceived of any ritual, have ever established any religion by their own efforts, through which peace with God has been found and a sinner has been enabled to stand before a holy God without condemnation. Man being helpless, God now intervenes" (Wilbur M. Smith).

2. Christ paid the penalty for man's sin by His own blood. How clearly verse 25 declares the sacrificial death of Christ to provide a covering of blood (the real meaning of "propitiation") which will enable a just God to forgive the sinner that believes in Christ (v. 22). Why not receive it in all its grace and power, not trying to explain it away or to evade its requirements? Why attempt to provide some other means of salvation when we know that "without the shedding of blood is no remission" of sin (Heb. 9 22)?

3. Man receives salvation by grace through faith, apart from works. Man can only be "justified freely by his grace" (v. 24). It is for "them that believe" (v. 22), it is "through faith" (vv. 25, 26) and, note with care, "man is justified by faith apart from the works of the law" (v. 28). Thus God establishes the law (v. 31) and yet becomes the righteous justifier of a repentant believing sinner.

II. What Happens When a Man Is Justified? (Rom. 5:1, 2).

These verses sound like the uplifting music of a mighty organ, with the celestial choirs joining in to sing. "Therefore being justified by faith, we have" — What? Oh many precious possessions, three of which are here mentioned.

1. "Peace With God."

"Through our Lord Jesus Christ" the barrier of sin with all its malicious enmity has been broken down and the believer is at peace with God What could be more wonderful than thus to be really "in tune with the Infinite"? That is something, by the way, which can only be true of the believer, one who has both peace with God and the peace of God flooding his soul. Every sinner who covets that experience may have it—now—by faith in Christ.

2. Standing in Grace.

"To stand in grace is to occupy the position wherein love is able to carry out its desires. To stand in grace is to come into such relationship with the Lord that He may do that thing that is in His heart, the thing which His love prompts To stand in favor is to be unafraid It is to be able to pass into the presence of One of whom we are unafraid, and know that there will be welcome. It is to know that to come into the presence of this One is to receive, not necessarily a gift, but love, and of Himself, in a communion which is unbroken and perfect" (G. Campbell Morgan).

3. Rejoicing in Hope.

The world is sorrowful for it has lost hope, but the believer rejoices "in hope of the glory of God" (v. 2). The Christian has the forward look. His future is as bright as the promises of God. He knows that he will one day see the glory of God revealed in all His holiness, power, love and grace. Even now the believer has that hope in his heart, and lives a rejoicing life (or should do so!). It's a great thing to be saved!

JUST HUMAN

Gets the Mouse

"I didn't run after you when we were courting," said Mrs. Browne.

"No," replied her husband. "A trap doesn't run after a mouse, but it catches it."

Ah! That's It

"So you liked my novel. What did you like especially?"

"Your quotations from Byron."

Some women make a fool of a man. But don't forget all the other women who've made a man of a fool!

First Choice

An old woman married a man even older than herself. One day she met the rector, who inquired why she had married again, and if she had now given up her occupation of washing.

"Oh, no, sir," she said, pointing to her husband, who was wheeling a barrow a few paces away. "If I 'adn't married 'e, I'd 'ad to 'ave bought a donkey "

Her Doing

"Still a bachelor?"
"Yes."
"Necessity or choice?"
"My necessity—her choice."

Three-Day Sabbath

The Khevzurs of the Caucasus mountains of Russia are the only people who observe a three-day sabbath, Friday, Saturday and Sunday, reports Collier's. Their only liquor is a beer brewed and served by the church at religious festivals and whose women are forbidden to have children during the first three years of their married life.

BIRTHDAY PARTY HELD FOR LITTLE GIRL

Joan Carpenter was eight years old Friday, July 25th, so in honor of the event her mother, Mrs. Gertrude Carpenter, planned and successfully carried out a party which was attended by Joan's friends.

Games and stunts were enjoyed, but the high-light of the party was the fine 2-course lunch served by Mrs. Carpenter.

Joan received a variety of gifts and wished birthdays came oftener.

One of the best methods of seeding alfalfa is to cultipack, broadcast the seed and cultipack again.

Iowa farm boys who participated in the 1940-41 western lamb feeding project made an average profit of nearly $30 on each lot of 16 lambs over original investment and feed costs.

In 1940 Iowa marketed more than 13½ million head of hogs over half of which were slaughtered by packing plants within the state

FLOATING DENTAL OFFICES PROVIDED BY NAVY FOR UNCLE SAM'S SAILORS

THE NAVY DENTAL OFFICER pictured above is working on the teeth of an enlisted man in the ship's dental office aboard the U.S.S. Salt Lake City, 10,000-ton cruiser.

Included among the fifty-odd trade and vocational training courses open to Navy recruits who pass the required examination is dental technician schooling. This course, like all Navy trade and vocational courses, is free and provides an excellent groundwork for a future career in later civilian life. All recruits receive their regular Navy pay during the period they are at a Navy trade school. This training is valued at $1500.

Klemme Farmer Leads Hancock County In Test Association .

V. A. COOK LEADS IN DAIRY HERD IMPROVEMENT ASSOCIATION FOR JULY

In the July report of the Hancock Dairy Herd Improvement Association, V. A. Cook's registered Holsteins lead with an average of 1129 pounds of milk and an average of 38 7 pounds of butterfat

Mr Cook also had two cows that took high honors His cow "Spruce" took second high with 1,-404 pounds of milk and 66 0 pounds butterfat. His cow "May" was in third place with 2117 pound of milk and 65 6 pounds of butterfat.

Hastings & Dethmers "Pearl" was high cow with 1,845 pounds of milk and 66 4 pounds butterfat

Second high herd was John Knoedler's with average of 849 lbs milk and 37 1 lbs butterfat. Others with an average over 32 pounds of butterfat were Martin Kroeze 36.6, Roy Jacobs 32 9 , Edwin Thieman 32.3 and Hastings & Dethmers 32.0.

There were 420 cows on test during the month with 35 of them dry. Twenty-seven herds on test averaged 730 pounds of milk and 27 7 pounds of butterfat. Fifty one cows averaged between 40-50 pounds of fat, 19 between 50-60 pounds of fat and 7 between 60-70 pounds of fat for the month

Members feeding an adequate amount of protein with their grain have found that they have to a great extent, prevented a heavy seasonal slump in production due to hot weather and other adversities at this time of the year

Ralph Ruggenberg is the supervisor of the association.

The program, sponsored by the Extension Service, will present a complete menu for three meals a day and will contain information on vitamin and mineral content of the various foods used.

U. S. D. A. Cooperating

Through the cooperation of the U. S. Department of Agriculture, the wholesale and retail food dealers of Iowa, and its own resources, the college will present information on food price trends and appearance of seasonable fruits and vegetables on the market, particularly surpluses.

Menus will be built around the foods that are available at reasonable prices and those that are produced at home, so that the homemaker can feed her family adequately at the least cost.

Aid Defense Program

Martha Duncan of WOI's Homemakers' Half Hour, will conduct the Market Basket. Extension nutritionists and home management specialists will work out the menus and food price information

The broadcasts will be a daily supplement to the home economics extension study of nutrition in which about 100,000 farm women in Iowa are expected to enroll this fall, according to Mrs Sarah Porter Ellis, state home economics extension leader. They also will contribute to Iowa's defense program which aims at improved nutrition and health.

DEFENSE BOND QUIZ

Q. In what denominations are Defense Savings Stamps Available?

A. Ten Cents, 25 cents, 50 cents, $1, and $5. An album is given free with first stamp purchase to mount stamps of 25 cents up.

Q. In what denominations are Defense Savings Bonds available?

A. You can buy a Series E Bond for $18.75, $37.50, $375, or $750. The prices of Series F Bonds range from $74 to $7,400; Series G Bonds from $100 to $10,000.

To buy Defense Bonds or stamps go to your nearest post office.

4-H Clubs Will Hold Annual Show At Garner

HANCOCK COUNTY CONTRIBUTES TO PLANES

Hancock County collected 1,670 pounds of aluminum according to a report issued by Penn Eckels, Chairman of the drive in this County. Mr. Eckels estimates that considerable more could have been gathered in the rural areas if the drive would have been made at some other time than during the threshing season.

Hancock County authorities wish to thank the Hancock County Farm Bureau, the Boy Scouts, Campfire Girls, Women's Clubs, American Legion and Auxiliary, newspapers of the county, and the various firms and persons who permitted use of their place of business as collection centers and the various civic organizations who co-operated to help make the drive a success.

The aluminum was delivered to the district delivery point at Mason City in one of Hancock County's big semi-trailer trucks.

ALUMINUM CAMPAIGN IN IOWA WAS GREAT SUCCESS

Iowa's part in the national aluminum collecting drive was described Monday by Frank Miles, one of the state co-ordinators, as "beyond our most opimistic hopes"

Miles said reports from only 20 counties and five cities showed a total of more than 150,000 pounds collected.

On the basis of present returns, he said, he would not be surprised if the total state yield goes over 400,000 pounds whereas not more than 300,000 was expected.

LARGE SUPPLY OF GOOD SEED OATS AVAILABLE

More Than 350,000 Bushels Of Boone, Hancock, Marion Are Predicted

Iowa farmers will have the best opportunity in history this summer to secure good seed oats for next spring, according to Joe L. Robinson, Iowa State College research agronomist and secretary of the Iowa Corn and Small Grain Growers Association

Robinson revealed that the 7,049 acres of Boone, Marion and Hancock oats inspected by officials of the Association this summer will provide more than 350,000 bushels of these varieties of oats.

Examine 466 Fields

The varieties were released by the Iowa Agricultural Experiment Station during the past 2 years to responsible growers throughout the state who have maintained increase plots in an effort to supply farmers throughout the state with sufficient seed.

A total of 466 fields were surveyed by examiners and 139 of them corrected for such faults as nearness to barley fields, other varieties of oats, presence of weeds and other violations of production rules. Fifty-one of the fields had quack grass in them, 35 were infested with Canada thistle, 18 had horse nettle and 4 had creeping jenny in them. All of these were removed and the fields pronounced free of weeds. Thirty-four of the fields were rejected for certification because it was impossible for the growers to correct their faults.

List Of Growers

"This is probably the best supply of oats ever available to Iowa farmers and they will probably sell at reasonable prices because of the large supply," Robinson said. "Seven other growers have produced a total of 400 acres of exceptional quality smooth brome grass this summer, too," he added.

A list of growers may be secured by writing Joe L. Robinson, secretary, Iowa Corn and Small Grain Growers Association, Agricultural Hall, Ames, Iowa.

ANNUAL 4-H ACHIEVEMENT SHOW AUGUST 18 - 19

The annual 4-H boys and girls achievement show will be held at Garner on August 18 and 19.

The show is open to all boys and girls in Hancock County who are 4-H club members or are regularly enrolled in vocational agriculture under supervision of a Smith-Hughes instructor.

Exhibits must be in place by 8 a m Aug. 18th, and left until 4:00 p. m. August 19th..

The achievement show will take in the many divisions of 4-H club work and will include Baby Beef and Dairy Heifer Clubs, Colt clubs, Sow and Litter clubs, Market Pig clubs, Ewe and Lamb clubs, Poultry clubs, Demonstrations, Record Books, Short Course Trips, and, in fact a great big county fair all engineered by the 4-H club boys and girls of our county.

There will be club booths, demonstrations, health contests, style shows, clothing exhibits and other 4-H activities put on display for the public

FIND STUDENTS OF FARM YOUTH SCHOOL ARE KEEN

One hundred young men and women (representing every county in Iowa), students of the Farm Youth School now in session on the Iowa State College campus, have stepped readily into the routine of college life and constitute "the keenest and most responsive audience of high school or college age ever encountered on the campus," according to C. H. Brown, Iowa State College librarian.

The students, who will be on the campus for 6 weeks, are studying subjects designed to equip them for leadership in farm and community affairs There have been geology and wild life hikes and picnics as well as classes. The 50 boys enrolled in the course have taken field trips to various farms in Story County to acquaint them with different crop programs, soil resources and farm equipment.

80 MILLION BABY CHICKS

Iowa produced in commercial hatcheries about 80 million chicks up to the middle of July, a survey made by W. M. Vernon of Iowa State College reveals. This is about a 26 per cent increase over the number produced last year. This indicates Iowa farms will have at least 15 per cent more laying birds on next Jan. 1 than a year ago.

Constantly taking the best tree out of the woods when timber is needed around the farm is faulty woodland management.

Two New "Thrill Days" For Iowa State Fair Crowds

Des Moines, Ia., Special: Captain F. F. Frakes, who crashed an airplane into a house to provide one of the biggest thrills of recent years for Iowa State Fair audiences, will returned on two days of this year's state fair with a new repertoire of hair-raising stunts, officials announced here today. Frakes and a dozen other daredevils, will be featured in two afternoon "thrill day" programs on Saturday, Aug 23 and Thursday, Aug. 28. Head-on automobile collisions, crash rolls, auto broad jumping, "dive-bomber" crashes, suicide leaps, and numerous other thrillers will be included in the two days' events at the fair. Above is a view of Frakes crashing one car into another at 60 miles an hour. Other afternoon headliners will be three days of auto races and three days of horse races and rodeo.

AMERICA ON GUARD!

Above is a reproduction of the Treasury Department's Defense Savings Poster, showing an exact duplication of the original "Minute Man" statue by famed sculptor Daniel Chester French. Defense Bonds and Stamps, on sale at your bank or post office, are a vital part of America's defense preparations.

U. S. Soldier-Boys Become School-Boys To Study New Technique of Modern War

Text Book School Lessons From European-War Battlefields.

By LIEUT.-COL. W. H. WELLS
(Released by Western Newspaper Union.)

"What d'ya know?"

This casual, friendly American greeting has assumed tremendous significance in the army and is the essence in securing military preferment in place of "Who d'ya know?"

So important is the "what d'ya know" that in order to develop the innumerable technical and professional specialists needed in a modern fighting force, approximately 60,000 of our soldiers are in constant attendance at some 71 schools. Their studies range from brief clerical courses, to six months of practical and theoretical work for air mechanics. This school work is a full-time job with the entire day devoted to the classroom or shop. Evenings are taken up with "home work." Thousands of officers also are attending schools, but that is another story, the war department stated.

Military experts claim that the army, in being and planned, is essentially a motorized, mechanized, technical force, utilizing every gadget or contrivance ever devised by Yankee ingenuity which has military value. In proportion to that of other powers, it contains more motors and more technically trained men, both enlisted and commissioned, than any force ever organized in the world's history.

Because of the emergency, war department instructions provide for the continuous operation of army schools. As the graduates of one class receive their certificates of completion of a course, another is waiting to occupy the desks or benches of their predecessors It is estimated that over 300,000 men will pass through these schools this year

Technical Knowledge Vital.

"Essentially, our army is a fighting force, and its only reason for existence is national defense," General Marshall, U S. chief of staff, declared. "A modern army trained to cope with any foe, or meet any situation must be composed principally of technical experts. Even a soldier running a caliber-30 machine gun must have a fair knowledge of mechanics; while the crews of the large 16-inch coast defense guns must have expert knowledge which includes both mechanical and electrical subjects.

"Modern pedagogical standards have been adopted by the armed forces, and the khaki-clad student finishing one of the courses is certain to have mastered his subject with consequent increased value to himself and the nation on the termination of his military service," he continued.

It is obvious that every man in the army will not attend one of these special schools. Aptitude, previous civil occupations, and the results of intelligence tests invariably will govern commanding officers in recommending soldiers to take special courses of study.

Every branch of the army is conducting schools for the development of its particular type of specialists. In the ordnance department men are trained to repair and maintain, under field service conditions, articles of equipment ranging from intricate precision fire control instruments to the rugged prime movers of heavy artillery. The finance department has special courses in accountancy and finance. The signal corps stresses communications. While the coast artillery courses of instruction emphasize electrical installations. Weather forecasting, road making, X-ray technicians, and cooking are among other courses taught.

Intensive instruction in every phase of military operation and testing of war equipment is well under way today in army schools and camps located at hundreds of points in the U. S. The personnel of the army, navy and air corps is being trained to a razor-edge of efficiency in preparation for stern times that may lie ahead. Above at top, is pictured a young soldier being initiated into the mysteries of field telephone communications. To the left at bottom, a machine-gun instructor explains the mechanism, and at right bottom, a 16-inch steel spokesman for America roars out a thunderous message, while artillery recruits look on.

When these soldiers return home, the family jalopies should be maintained in perfect running condition as a result of this training, one officer observed; while the static which interferes with Pa's radio set should be readily eliminated.

School Centers Scattered.

Army schools are scattered from coast to coast, with the air corps schools, with an enrollment of 20,265 students, leading the 13 branches of the army. This figure does not include flying cadets or commissioned officers undergoing instruction. At Scott field, over 4,000 men are learning to be radio operators and radio mechanics; while at Chanute field, over 11,000 men are taking technical courses of instruction.

Close behind the air corps in the number of soldiers attending schools is the quartermaster corps with 17,212 men being trained in practically every activity found in civil life, ranging from electricians, carpenters, painters, and plumbers to shoe repairers and welders. The quartermaster corps also has motor transport schools at Camp Holabird, Baltimore, Md.; Fort McPherson, Atlanta, Ga.; and Camp Normoyle, San Antonio, Texas, where 700 men graduate each month from a three-months' course as specialists in motor mechanics.

The armed force school at Fort Knox will eventually graduate 26,000 men a year, and at present, has a student body of 4,298. The tremendous expansion of the armored force, from one division to the four now in training with four more planned in the immediate future, calls for innumerable specialists. The maintenance of motor vehicles and tanks is indeed a job for specialists.

All methods of electrical communications are stressed, and every combat branch of the army is training radio operators and radio engineers, as well as every type of wire communication operators. Army methods require that the soldier not only be able to install a telephone, but he must also be able to stretch wires, operate a switch-board, and maintain the whole system in working order.

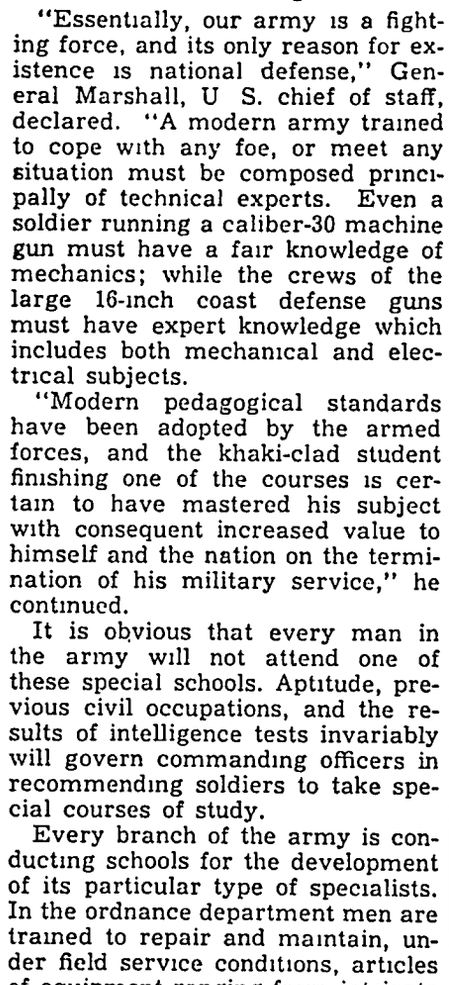
Huddled under a bush with a heavy caliber-45 automatic pistol strapped to his side, and frequently in a driving rain, the army switchboard operator occupies a far different role than the "hello girl" we all know. When communications fail, the fog of war envelops the commander, and all too frequently, chaos results. Pigeons have not been neglected and "pigeoneers" who train these carriers are recognized with specialists ratings.

Continuous Education.

Unlike most civilians, the soldiers' education never ceases. In addition to the 60,000 men putting in full time at schools, every division and regiment in the army is conducting part time additional schools. Tactics are the principal courses taught in these troop schools, but thousands of men are devoting their afternoons to mastering the fundamentals of motors, radios, telephones and telegraph instruments.

Another tremendous factor in the promotion of Americanism which is a part of the army's educational system are schools conducted in many units for the teaching of the three R's. Chaplains conduct most of these schools and instruction is given during the soldiers' "free time."

"Every man with the colors will gain something from his service," General Marshall said in closing, "for many, it will be a trade; for others it will be an increased knowledge of human nature through the democracy of the tent; while all will be strengthened physically. The old expression, 'The army will make a man out of you' is as true today as when it was first coined."



GEN. GEORGE C. MARSHALL
Chief of Staff of United States Army.

Prison Counterfeiters

OMAHA, NEB —The federal penitentiary at Leavenworth, Kan., has become a "counterfeiters' college" where bogus-money makers often teach other convicts how to "make" fake money, according to Russell Daniel, United States secret service agent in charge here

All money counterfeiters eventually reach Leavenworth, and there they discuss among themselves methods and compare notes on imitating the United States currency.

Russian Failure to Ship Fresh Caviar Opens a Market for Ontario Fishermen

BOSTON.—Caviar, the delight of the cosmopolitan gourmet for which the lesser epicure must definitely acquire a taste, has become "black gold" to the fishermen of northern Ontario since shipments from Russia, chief source of caviar supply, have been curtailed for the duration.

With the price of caviar soaring to three dollars a pound as it is taken from the sturgeon, and one dollar per ounce by the time it reaches the consumer, the Ontario fishermen have been quick to set additional nets in the northern lakes and rivers to meet the demand.

Bearing out the adage that "It's an ill wind that blows no good," the new activity is attracting many tourists to the fisheries of the north.

The Ontario Indians, usually Ojibways, also share in the boom. When the fish is dressed they get the head —an Ojibway delicacy when cooked as we cook a pig's head—and with the increased activity of the fisheries every day is feast day.

Like the moose, another native of northern Ontario, the sturgeon is also pre-historic in appearance; a strange thing left from an age when living things were large and ugly. The sturgeon has from 11 to 13 bony plates on its back and about as many of these hard bony armor shields on each side.

In the northern lakes sturgeon are taken in traps having nets several hundred yards long stretched across a lake or river and leading the fish into a circular net from which they are taken by the fishermen.

Thus the sturgeon fishermen of the lakes constantly hope for high winds to move the fish into their traps. Four or five fish taken in a haul, although a highly profitable catch in the present market, is considered a poor "take." When a high wind blows the catch is always better and with caviar selling for more than twice as much as fine silver (caviar $1 00 per ounce to consumer; fine silver $.42 per ounce), the large fish are well named "black gold."

Because the roe is highly perishable, and must be treated by the fishermen immediately after the sturgeon is dressed rather than shipped to market "raw," converting it into caviar is an art that is handed down from father to son and held just as much a secret as a chef's formula for a favorite sauce. The result is that some fishermen get twice as much as others for their caviar because of the manner in which they treat it The female fish will produce about 20 pounds of roe, netting fishermen up to $3 per pound.

Washington MERRY-GO-ROUND

DREW PEARSON & ROBERT ALLEN

Washington, D. C.

DEFENSE 'INCIDENTS'

Out of 26 major "incidents of damage" in defense plants last month, military intelligence authorities have evidence that 14 were caused by sabotage. The other 12 were accidents.

Of the 14 sabotage cases, four were fires and 10 were mechanical damage. Two are attributed to Communists; the others to Nazi agents. There is no indication that Communists and Nazis worked together.

Since the outbreak of the Russo-German war, the Communist party line has somersaulted. The current dictum is, no intereference with defense output. It is significant that since the Nazi attack on the Soviets there has been a sharp decline in strikes.

However, intelligence agents report that the party has made no change in its policy of propagandizing soldiers and sailors. This is being pushed as vigorously as before, although with little success. In fact, party generals are so dissatisfied with results that they recently ordered labor unions dominated by Communists to help their campaign by offering their halls as soldier recreation centers.

Japanese Consulates.

Another significant development in subversive influences relates to the Japanese.

Since the expulsion of the Nazi and Italian consulates, intelligence officers have found that the Japanese consulates in Los Angeles and Seattle have become the chief clearing houses for espionage on the West coast. Japanese residents are sending in a constant stream of reports on airplane production, ship movements and other military information

The recent arrest of two Japanese spies in Los Angeles caused a flurry in Japanese quarters, and a number of Japanese rushed to Washington, apparently to place themselves under the protection of their embassy. Others hotfooted for Mexico, which may mean they are planning to shift spy headquarters to Mexico City.

SECRET NEW AAA CZAR

American Farm bureau and National Grange moguls are smart politicians. Although their bill to create an independent, five-man board to rule the AAA has not yet seen the light of day on Capitol Hill, they are already greasing the way by canny wooing of possible opponents.

Latest to be "propositioned" is Rudolph ("Spike") Evans, ambitious head of the AAA, who might be a vigorous foe of their scheme to gain control of his own agency. The farm leaders have sent word to Evans that they will back him for chairman of their proposed board if he will go along with them

An inner group of 11 decided on this move at a secret pow-wow during the recent conference in Chicago of the Farm bureau, Grange and National Co-op council on the defense emergency.

The master minds also accepted Walter Randolph of Alabama as the Farm bureau's selection on the boards, pledged themselves to take whomever the Grange picked, and agreed to allow this hand-picked trio to name the other two board members.

The plan is very pat, but the mystery is where Roosevelt and Secretary Claude Wickard fit into the picture. Under the law the President appoints board members, and on agricultural selections he naturally would consult Wickard. Apparently, the Grange and Farm bureau manipulators propose to do the picking and force Roosevelt and Wickard to go along

No Chance.

Actually, the five-man board scheme has no chance of getting anywhere this year.

Not yet even introduced, it faces such a long battle when it does appear that months will elapse before it goes through the committee process Further, there are indications that certain Farm bureau moguls privately don't want the legislation considered at all this session.

According to Farm bureau insiders, Earl Smith, Illinois big-gun, and Francis Johnson, Iowa chief, secretly want to make it a political issue in next year's congressional election. Militant New Deal foes, they are said to believe that a lot of GOP campaign hay can be made in the rural districts by raising the cry of "give the farmer control of the AAA."

How much control he would have is shown by the fact that the boys already have made sure that they would do the controlling.

* * *

MERRY-GO-ROUND

Frank Grillo, secretary-treasurer of the United Rubber Workers, is slated for membership on the anti-discrimination committee that President Roosevelt is planning to set up to eliminate bars against Negroes and other minority groups in defense industries.

On the desk of Lawrence Fly, scrappy chairman of the Federal Communications commission, is one of those little plaster busts designed for temperamental people to smash —when they lose their temper.

FHA Government Agency Helps You Buy a House

IS A "home of your own" an unfulfilled dream? Then you will want to know more about the Federal Housing Administration, one of the most important agencies created by the national government in the past few years.

Loans insured by the FHA have helped thousands of families—many making under $2,000 a year —to buy their own homes. Other government agencies might also be of interest to you.

* * *

Our 32-page booklet fully describes how you can make use of these government agencies, also government-sponsored employment and education opportunities. Gives facts on Selective Service. Send your order to:

LET'S HAVE AN ICE CREAM SOCIAL!
(See Recipes Below)

CE CREAM 'N CAKE

g in their starched dresses, ls are ready "to recite their " the boys, slicked and , are watching them shyly, everyone's for re- ent time me Of it's an am social, typically an festi- o which makers heir most ble cakes and choicest ice There, too, you'll find lem- "made in the shade by the id."

e was a time when an ice social, though as pleasant an as you'd find on the summer ar, carried with it a great of careful preparation. Ice had to be kept in heavy con- s which in turn were wrapped kets, and if the speeches and m lasted too long it was be more melted than icy you were finally served. But ger do you have such a risk. e cream can be stored in your erator and it will be kept real- d.

king ice cream with the freez- ethod is fun, and usually the family gets together to do of the cranking. The freezer wooden or metal bucket hold- he ice and salt and a non- g metal container with a close- ing cover for holding the mix- to be frozen. The mixture is d by a paddle attached to the which is operated by hand, ometimes by a small electric .

three parts of ice to one part lt. Turn the crank slowly at for about five minutes or until ixture stiffens, then as quickly ossible until it is difficult to This takes about six minutes. more ice and salt if necessary. off salt water, push down ice alt being careful to get none in an of ice cream.

e top of can, uncover, take out paddle, and beat the frozen ure with a wooden spoon. Cover with wax paper, and pack n. Let stand several hours to n.

you would be famous for your creams and have them spoken ell at the social, follow direc- to get the desirable smooth, my triumphs. Ice cream free n crystals and splinters will get prize every time.

***Vanilla Ice Cream.**

(Makes 1¼ quarts)

cups sweetened condensed milk (15-oz. can)
cups thin cream
cup cold water
tablespoon vanilla

lend thoroughly the sweetened densed milk, thin cream, cold

LYNN SAYS:

Did you know that:

Ice creams should stand sev- al hours to blend or ripen the any flavors combined in them? ch flavor will stand out sepa- tely if the mixture is not prop- ly ripened.

Texture is affected by the ethod of freezing? Ice cream ill be coarse and rough if frozen o quickly, whereas slower eezing improves texture. Be- re putting the cream in the eezer it should be properly hipped or it will be icy.

Richer mixtures give smoother xtured ice creams? The mount of fat in the cream also ffects the flavor. Richer ice reams have full bodied flavor.

Ice cream expands? If the ice ream is well made, it expands o at least one-third more than s original size, and that this as an important bearing on fla- or. If frozen too rapidly, ice ream is prevented from increas- ng size.

Flavors should be lightly sug- ested, not pronounced? Amount nd quality of extracts used are ery apparent in the finished roduct.

THIS WEEK'S MENU

Ice Cream Social
*Vanilla and Chocolate Ice Cream
*Walnut Torte
Lemonade
*Recipe given.

water and vanilla. Freeze in one-quart freezer. Remove dasher. Pack in ice and salt for one hour or more after freezing.

For Banana Ice Cream, use the above recipe, except to substitute 1 teaspoon of lemon extract in place of vanilla. Mash three bananas to a smooth pulp with a silver fork and add to ice cream after removing dasher.

Coffee Ice Cream: Proceed as for Vanilla Ice Cream, using 1 cup of cold black coffee in place of 1 cup of water and ½ teaspoon vanilla in place of 1 tablespoon of vanilla.

Maple Nut Ice Cream: One of the most requested flavors, made just like the vanilla except mapeline flavoring is substituted for vanilla, and ⅓ cup of chopped nuts is added just after removing the dasher.

If you like chocolate flavoring, here's a recipe I'm sure will please you. Rich and creamy, full of satisfying chocolate flavoring, it's one kind of ice cream of which there can never be too much made.

***Chocolate Ice Cream.**

4 eggs separated
¾ cup sugar
1 cup milk
1 teaspoon cornstarch
1 pint cream, whipped
1½ ounces chocolate

Mix cornstarch and sugar. Stir into well beaten yolks. Mix and blend with milk, heat in double boiler, and cook until thick. Add chocolate and cook till blended. Cool, fold in beaten egg whites and whipped cream. Freeze.

Among the pleasant surprises in appearance and in flavor among ice creams is this one called Tutti-Frutti. If you're longing for a change from familiar favorites this one leaves nothing to be desired. To make it really gala for the youngsters, take a scoop of it, pop two raisins in for the eyes, a currant for the nose and a cherry for the mouth. It's a simple gesture but one which they'll appreciate for all it's worth.

Tutti Frutti Ice Cream.

(Serves 6)

⅔ cup sweetened condensed milk
½ cup water
1½ teaspoons vanilla
1 cup whipping cream
¼ cup finely chopped maraschino cherries
¼ cup seeded raisins, finely chopped

Mix sweetened condensed milk, water and vanilla. Chill. Whip cream to custard-like consistency. Fold into chilled mixture. Freeze in freezing unit of refrigerator till half frozen. Scrape from tray, beat until smooth but not melted. Add chopped fruit. Replace in freezing unit until frozen.

No social is completely a success without an array of freshly baked, nice smelling cakes with their swirls of frosting piled high to tempt. One cake which will really give you a new high in reputation is this Walnut Torte, an old-fashioned favorite with new found fame.

***Walnut Torte.**

1 cup zweiback crumbs
1 teaspoon baking powder
1 cup chopped walnuts
4 eggs separated
½ cup sugar
½ pint cream, whipped

Crush the zweiback crumbs, mix with baking powder and nuts. Beat egg yolks thick and lemon color, beat in sugar, and then gradually, the crumb nut mixture. Fold in stiffly beaten egg whites. Turn into two greased and floured tins and bake in a moderate (375 degrees) oven 10 to 15 minutes. When mixture is light to touch and pulls from sides of pan it's done. Cool thoroughly. Put layers together with whipped cream and garnish with whole walnuts.

(Released by Western Newspaper Union.)

Historical Highlights

by Elmo Scott Watson

(Released by Western Newspaper Union.)

Strenuous American

WHEN a German bomb fell on the Church of St Mary Woolnoth in London recently, its explosion had repercussions in America. For it not only destroyed the church but it also blasted into oblivion the dust of a "strenuous American" whose career won him the right to that characterization two centuries before Theodore Roosevelt made the use of the term popular. William Phips was his name—or, more accurately, Sir William Phips and he was born on February 2, 1651, in Pemmaquid, now the city of Bristol, Maine, but at that time a town in the British colony of Massachusetts bay.

He was the son of a gunsmith who is described as a man "in humble circumstances." But there was nothing humble about the size of his family. There were 26 children and William was his twenty-first son! At the age of 18 William bound himself to a ship-carpenter and at the end of his term of service went to Boston where he started out on his amazing career.

Ten years after he left his birthplace he was the master of his own ship. In 1684 he set out to recover the lost "Hispaniola Treasure" which lay beneath the clear waters of the Bahamas in a wrecked Spanish galleon. His first search was a failure but three years later, under the patronage of the duke of Albemarle

William Phips

he recovered bullion, coin and plate worth more than a million and a half dollars.

So generous was William Phips and so liberal was he to his sailors that his own share amounted to only $90,000, as compared to the duke of Albemarle's $250,000. King James II, who by law was entitled to one-tenth of all treasure discovered by his subjects, received nearly $150,000 and he was so grateful to the bold young colonial that he made Phips a knight and gave him a commission as high sheriff of New England.

In 1690 Sir William commanded an expedition against the French at Port Royal in Acadia which captured that place and later in the year he was placed at the head of an expedition of 34 vessels, manned by 1,500 sailors and carrying 1,300 New England militia which attempted to take Quebec. After a siege of several days, the colonials were forced to withdraw and, when nine of his ships were later wrecked, Phips greatly depressed by his failure, returned to Boston. However, he did not suffer any loss in prestige, for when he went to England to urge another expedition against Canada, the king appointed him captain-general and governor-in-chief of the Massachusetts Bay colony.

Phips arrived in Boston in May, 1692, and immediately asserted his authority by putting an end to the witchcraft nonsense by organizing a special court to pass upon all such cases. As a result the jails were soon emptied of persons accused of witchcraft, but it won Phips the enmity of powerful political and ecclesiastical forces in the colony. They began making claims of dishonesty and cruelty against him and in 1694 he was summoned to England to answer to these charges.

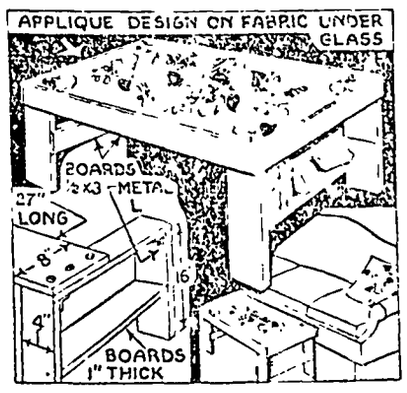
Assured by crown officials that he was still in royal favor, he was preparing to return to New England to resume his duties as governor when he died suddenly of a malignant fever on February 18, 1695. He was buried beneath the floor of the Church of St. Mary Woolnoth and there his bones lay for 245 years—all but forgotten until the explosion of a German bomb reminded his countrymen once more of this early-day "strenuous American."

* * *

In his day Phips was noted for his height—six feet, three inches—his mighty fists and his sense of humor. While he was short on "book learning," he was long on signs and superstitions. He believed that seven was his lucky number and, since he was the twenty-first, or the thrice seventh, son, he believed that the three sevens gave him a triple advantage over other men. He must have felt assured of that when, after one failure, he recovered so much of the "Hispaniola Treasure."

NEW IDEAS for Home-makers

By RUTH WYETH SPEARS



IT ALL started with a bright idea for making a simple, painted coffee table from odds and ends of lumber. The sketch at the lower left gives the dimensions. The two end sections were made first; the top and sides of these being screwed together with 1-inch metal angles. A shelf was then nailed in and a ½ by 3-inch board nailed across the back of it. Two boards for the top of the table were then screwed to the end sections.

Now the needle-lady comes in. The table was to be painted putty color and then waxed. She bought a yard of slightly darker tan sateen and appliqued a design of bright blue and red morning glories and green leaves on it with stems and tendrils in green outline stitch. This was placed over the table top and tacked around the edge. A piece of window glass was then cut to fit and ½ by 3-inch pieces were screwed to the sides.

* * *

NOTE: This graceful morning glory design is so attractive that Mrs Spears has arranged to furnish transfer patterns to be used in stamping fabric for a table and matching cushion. The pattern is for both cushion and table top. If you are interested in husband and wife projects in homemaking you will be fascinated with the Book 7 in the series of booklets available with these weekly sketches. Book 7 contains directions for more than 30 things to make and a full description of other numbers in the series. The pattern is 15 cents and the booklets are 10 cents each. Order direct from:

MRS. RUTH WYETH SPEARS
Drawer 10
Bedford Hills New York

Enclose 15 cents for pattern and 10 cents for each book ordered.

Great Gang

Justice is as strictly due between neighbor nations as between neighbor citizens. A highwayman is as much a robber when he plunders in a gang, as when single, and a nation that makes an unjust war is only a great gang.—Franklin.

Only Firestone

TIRES GIVE YOU THESE EXCLUSIVE ADVANTAGES and SAVE YOU MONEY

UP TO ONE GALLON OF FUEL FREE FOR EVERY SEVEN
NO TRACTION LEAKS
NATURALLY, THE WORLD'S MOST IMITATED TRACTOR TIRE
Old Dobbin laughs every time he hears anyone say, "An open center gives a better pitch."

IT'S just good judgment to BUY THE BEST *right now*—and that means Firestone tires for tractor, truck or car. You'll get longer mileage and greater dependability through Firestone's patented construction features of a Safety-Lock Gum-Dipped cord body and a wear-resisting Vitamic tread rubber compound—extra features that cost you no more. It's smart to buy now and have the tires when you need them.

All tractor tires are *not* alike. Only Firestone Ground Grip Tractor Tires have the patented Triple-braced traction bars which provide up to 215 extra inches of traction bar length per tractor. This means a stronger backbone in the "traction zone" where the pulling job is actually done. Continuous traction is assured because the Triple-braced bars cannot bend, slip or tear off and they automatically clean themselves. To get more work out of your tractor, to decrease your gasoline and tire cost, equip now with Firestone Ground Grip Tires.

★ Mr. EXTRA TRACTION gets his name from the Extra Traction Bar Length on Every FIRESTONE GROUND GRIP TIRE.

MORE FARM TRACTORS ARE EQUIPPED WITH FIRESTONE GROUND GRIP TRACTOR TIRES THAN WITH ANY OTHER MAKE

AN AMAZING NEW TRUCK TIRE
★ Fits Passenger Car Rims
★ Carries Heavier Loads
★ Truck-Bus Construction Features
AT A SENSATIONALLY LOW PRICE

Here's the way to put real truck tires on your ½, ¾ and 1 ton trucks at low cost. The new Firestone Standard Delivery Tire is a truck tire that fits passenger tire rims. It's built with Firestone's patented construction features to withstand heavier loads at higher speeds and its Vitamic tread rubber compound delivers thousands of extra miles.

SEE YOUR FIRESTONE DEALER—HE'LL MAKE YOU A REAL DEAL FOR YOUR PRESENT TIRES.

Buy the best while you can buy at low price. The Firestone DeLuxe Champion is the world's *first* and *only* *Safti-Sured* tire—*Safti-Sured* against blowouts, *Safti-Sured* against skidding and *Safti-Sured* for longer non-skid mileage. Put a set on your car now for lowest cost per mile.

TODAY, IT'S WISE TO INVEST IN THE BEST

Did you Know?

YOU CAN CHANGE OVER ALL FOUR WHEELS OF YOUR FARM WAGON TO PNEUMATIC TIRES for as little as $22.50 UP

LET YOUR FIRESTONE DEALER SHOW YOU HOW

EVERY FIRESTONE TIRE CARRIES THE LIFETIME GUARANTEE

Listen to the Voice of Firestone with Richard Crooks, Margaret Speaks and the Firestone Symphony Orchestra, under the direction of Alfred Wallenstein, Monday evenings, over N. B. C. Red Network

KEEP GOING IN AUGUST

We have left July and have started in August wondering just where is the summer gone and what have we accomplished during the heat besides a heap of complaining. Some of the more fortunate ones took vacations and had a real time but glad to get home to mind to yard garden and business that somehow managed to get along while they brought home a good tish or two the story to tell acquired a healthy sunburn that could have itched as well if they had stayed at home. Maybe they spent more money than they intended or perhaps they saved some by not taking a vacation after all.

But whatever we did with the month of July we did get through it somehow in spite of the scorching heat of the last couple of weeks in July Mark Twain said that it was the sort of weather that everybody talked about but about which nobody ever did anything We get encouraging weather reports to cool us off mentally and like as not the cool wave warms up or gets sidetracked before it reaches us But we are going to take whatever August has to offer and not let it take all of the starch out of our collars

SKY TRAFFIC LAWS

We used to laugh about living to see the time when they would put stop and go signs in the clouds to control airplane traffic. This joke was perhaps as out of place as the chuckle our great, great grandfather had over the horseless carriage ever pushing the old gray mare off the road. We know that each year has increased our air travel and in the past few years its jump has been ever so large. So taking this into consideration and realizing that there is just so much flying space, even as vast as it is, that there is need for controlling it for the increasing number of speeding pilots This has brought us up-to-date in air passage control as the Civil Aeronautics Board adopts traffic rules for the skies which became effeitive in July and which will make the air safer for transportation, just as we never thought would happen in our day

There is a lane of traffic above 17 000 feet which is reserved for military planes except for special permission granted from the board to commercial planes which are engaged in experimenting purposes. Any plane that comes in the line of traffic between 3,500 and the 17,000 feet must have two-way radios and altimeters. The planes that operate below 3,500 feet need not have the two-way radio but must observe all other restrictions placed on the planes

So we see another step forward in transportation and an attempt to lessen the dangers which accompany it So don't laugh at a neighbor's fantasy or an inventor's mania, just recall the cartoon of the traffic cop standing on a cloud directing traffic in the air, and merely ask "what next?"

STORAGE SPACE SHORT

SAYS THE HANCOCK CO. A A A COMMITTEE

BUMPER CROP PROSPECT

SAYS THE FEDERAL CROP REPORT

NO MORE STEEL BINS

BECAUSE OF DEFENSE NEEDS

Yes, we know that you probably have all the CRIB ROOM you need in NORM... times, but can you afford to do without room to STORE this YEAR'S CRO... Feeding is on the UP-GRADE. Hogs are increasing in numbers, but the DEMA... for CORN won't come soon enough to clear your cribs of the STORED CORN be... the NEW CROP is ready to be harvested.

YOU NEED STORAGE TO QUALIFY FOR A LOAN!

The cost of a NEW CRIB is low . . . probably around 14 cents per bushel at the present material prices. Spread this over a three-year period, that is only about 4½ cents per bushel

See us for plans and prices, without obligation, of course

The AAA announces that farmers are being allowed to assign payments under the AAA program to finance purchase, repair or construction of bins and cribs. This will make it possible for farmers to arrange with their local dealers or bankers for additional farm storage to be paid thru 1941 AAA payments. In addition, farmers providing additional farm storage for wheat by building new or repairing old graneries this year, may obtain a 7-cent per bushel storage allowance in advance, at the time the loan is approved. This advance will be allowed only on wheat stored in new or repaired structures.

Iowa produces more oats than any other state

PREVENT HEAT PROSTRATION

Dissolve a little salt in the jugs of water the men take to the fields these hot days and rest assured that you've done your bit to prevent heat prostration A teaspoonful of salt per person each day is the amount recommended by nutritionists. Use more salt in cooked foods and also add a pinch to cold beverages.

Fattening of 4-H baby beef steers became a "million dollar project" for the first time in Iowa last year as club members marketed an estimated $1,053,000 worth of livestock

Soybean production in Iowa during the past 10 years has jumped from three-fourths of a million bushels to more than 14 million bushels

A state-wide survey of 110 family gardens in Iowa showed that the average value of each garden was $84.

A number of Klemme business men will attend the county-wide Business Men's Picnic at the State Park at Eagle Lake this week on Thursday afternoon.

YOU'RE A STIR-CRAZY DRAFTEE IF—

1. You're always raving how the girls went nuts over you at home and you never receive any boxes of eats.

2. You think you're the "big boss" as soon as you become the First Sergeant.

3. You start forgetting what details you were supposed to finish before you're half started

4. You believe the only-girl-in-the-world when she says she's staying alone at home pining for you.

5. You're dressed in denims most of the day and you call yourself a yardbird 326 times a day and expect it always to fetch a laugh.

6. You're in the outfit three weeks and believe the Top Kick when he says he'll get you a first and third.

7. You are tent corporal, and you get the idea the whole tent must bow to your whims about loud radio plays and blaring news reports.

8. You believe old-timers when they say this is the worst army they've ever been in, and will never again join up

9. You believe all the wondrous tales about the greener pastures to be found in "other camps."

10. You think anything will ever come from trying to get into a conversation with telephone operators, 5-&10-cent store dames, and canteen girls.

LINES ON DUTY

("It is not enough for us merely to trim the wick and polish the glass in the lamp of victory."—President Roosevelt.)

With the lamp on the floor
'Neath a volley of bricks,
Let no man offer help
As a trimmer of wicks.

With the light almost out
And the oil low, alas!
Would you bellow, "One side!
Lemme polish the glass!"?

* * *

When a swimmer yells "Help!"
With his chances quite slim,
Would you toss him a book
On "The Right Way to Swim"?

If he slips 'neath a wave
And there isn't much hope,
Would you cry, "Your address!—
I will mail you a rope!"?

* * *

When a man's on a raft
As the sharks near him swish,
Do you think it's enough
To denounce all such fish?

To be brief, in a war
Such as this frightful one,
Are you just one who says
"Something OUGHT to be done!"?

* * *

Add similes: as unwelcome as an invitation to come to Berchtesgaden.

* * *

WHY IS IT—

That there seem to be more left-handed eaters in cafeterias than in other restaurants?

* * *

That, if she has a dog and you have a dog, you can speak to a strange girl without offense?

* * *

That the coffee at breakfast always seems to be better than the coffee at supper and that the scrambled eggs at supper seem to be better than the scrambled eggs at breakfast?

—Gardiner S. Dresser.

* * *

Toto, the gorilla that has become the mate of Gargantua, is now with the Ringling circus. It's an even bet that both gorillas spend most of the time looking at each other and thinking, "I hope I never get to look as terrible as that."

Probably the Ringling outfit is now wondering about the old adage that two gorillas can live as cheap as one.

* * *

William McChesney Martin, youthful head of the New York Stock exchange, has been called by his draft board. Any training for war that he will get in camp will be superficial compared with what he has gone through as head of the exchange.

* * *

What Elmer Twitchell wants to know is whether Mr. Martin is going into the army for the long pull or a quick turnover.

* * *

The Louvain library, restored largely by America after the Germans destroyed it in the last war, was again wrecked by the Germans in this war, it develops. It seems the Nazis couldn't bear the report that there was a book in it.

* * *

APPEAL

Life is real, life is earnest,
So away with all pretence!

Come! Let's cut out playing marbles
And speed up with that defense!

—B. A. S.

* * *

In occupied countries the Nazis are rationing dogs, but word comes from Belgium that this applies only to dogs that can be shown to have German blood. A smart dog over there is one that knows enough to goose-step to his meals.

Star Dust
STAGE SCREEN RADIO

By VIRGINIA VALE
(Released by Western Newspaper Union.)

WHEN it was decided that the new Garbo picture would get under way on Friday the thirteenth, the assistant director called the cast together to see if anybody's superstitions would get in the way. Melvyn Douglas said that Friday was a lucky day for him, and the fact that it was the thirteenth would make it so much the better. Ruth Gordon, who gave up a number of summer stock engagements to take this one in pictures, declared that she deliberately walks under ladders, and loves black cats. Roland Young said that he'd bring along one of his china penguins, to break the evil spell of the jinx. As for Miss Garbo, she said nothing—just showed up on time.

Greta Garbo

Janet Blair used to be the featured vocalist with the late Hal Kemp's orchestra; now she has a Columbia contract and one of the top feminine roles in "Three Girls About Town." She'll play the younger sister of Joan Blondell.

David Niven not only went back to England to serve his country, but he's been made a major. Bing Crosby had a letter from him in which he mentioned the promotion. He heads a squadron of defense troops which is stationed on the English coast opposite France. In his letter he said that no less than 20 invading Nazi bombing planes had been knocked down above his sector the previous night.

David Niven

The March of Time's newest release, "New England's Eight Million Yankees," shows how the six northeastern states are making themselves invasion-proof. It is the first of a series of regional films and will be followed by releases on the Midwest, Texas, and other sections of the country.

Penny Singleton, who's been "Blondie" on the screen and on the air for so long, is hard at work now in her first film musical. It's called "Cowboy Joe" temporarily, and Glenn Ford plays opposite her. She'd made a name for herself as a singer and dancer on the Broadway stage before she went to Hollywood, and her nine "Blondie" comedies have made one for her in Hollywood.

The office of Heinrich Himmler, chief of Nazi SS men, is as authentic a reproduction in Warner Bros.' "Underground" as following actual photographs could make it. Himmler does not permit photos of his office to be released, however, Kurt Schmidt, technical adviser on "Underground," made some when he was in favor with the SS head, and smuggled them out of the country when he escaped two years ago. The film shows Himmler's dreaded office for the first time.

Bob Hope, who soared to film popularity with the song "Thanks for the Memory," will have another opportunity to warble an outstanding number, when he sings "You Can't Brush Me Off" in "Louisiana Purchase," which Paramount will produce. Lately he's been content merely to be one of the funniest men on the screen. His "Caught in the Draft" is hilarious, though the script writers dug up some of the oldest jokes in existence for it. Eddie Bracken hangs up a few laurels for himself in this one too.

With the exception of a few minor weekly cast additions, all the regular roles on the new "Hap Hazard" radio series, the summer replacement for "Fibber McGee and Molly," have been assigned. It stars Ransom Sherman, and features the singing of Edna O'Dell and Billy Mills' orchestra. Nowadays people in radio have begun to take these summer replacement shows seriously. The "Blondie" program started as one three years ago—now it tops all CBS half-hour shows in popularity, according to the latest Crosley report.

ODDS AND ENDS—Ona Munson wound up work in "Wild Geese Calling" at 20th Century-Fox, got a vacation from radio when Edward G. Robinson's "Big Town" show left the air for the summer, and headed for Santa Barbara and a rest . . . Ruth Hussey and Robert Young will be teamed in "Married Bachelors," a comedy of a young married couple who are always just two jumps ahead of the sheriff . . . Jane Wyatt has the feminine lead opposite Dennis O'Keefe in RKO's "Week End for Three" . . . At last they have a come-back vehicle for Shirley Temple—"Cathleen" . . . Myrna Loy and William Powell will be at it again before long, in "The Shadow of the Thin Man."

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Dean of The Moody Bible Institute of Chicago.
(Released by Western Newspaper Union.)

Lesson for August 10

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

JAMES TEACHES CONSISTENT CHRISTIAN LIVING

LESSON TEXT—James 1:17-22; 2:14-17; 4 13-17; 5 12.

GOLDEN TEXT—Pure religion and undefiled before God and the Father is this, To visit the fatherless and widows in their affliction, and to keep himself unspotted from the world.—James 1:27.

Spiritually minded but very practical was James, an outstanding leader in the Church (Gal. 2:9; Acts 15) and the brother of our Lord. His epistle speaks little about Christ, but it reflects more of His teachings than any of the other epistles. It parallels the sermon on the mount and in that way, as well as other ways, greatly resembles the teachings of Jesus. It is a straightforward discussion of practical Christian living.

There is so much inconsistency among Christians in their daily walk that nothing could be more needed than a careful study of the exhortations of James.

I. Be Doers of the Word—Not Hearers Only (1:17-22).

Knowing God's will is important, but it amounts to little except to bring condemnation upon us, unless we do it. It is good to hear with swift apprehension, but there is no point in talking about what we have heard unless we practice it.

God is the "giver of every good and perfect gift" (that's literally and wonderfully true). He has not withheld one blessing, even to the giving of His Son, who was sent down from heaven to redeem us.

His very goodness should prompt us to lay aside everything which dishonors His name. Wrath (v. 20), all uncleanness of speech or thought, pride (v. 21)—all these must go, and will go, as we permit the Word to take root (be "engrafted") in our hearts and lives. Note that it is not enough to read the Word, or even to memorize it. It must take root and grow in our life.

II. Believe—But Do Not Forget to Work (2:14-17).

Saved by faith? Yes, we are, and in no other way; but the man who says he has faith in Christ will inevitably show the results of that faith in his life.

James is not in any way contradicting the teaching of Paul's epistles regarding justification by faith, but is clearly stating what must be true, "that a faith which does not result in works, i. e., in a manifestation of a true Christian life, externally and visibly, is not the kind of faith commanded by God, and constantly revealed in the New Testament as the only instrument for the appropriation of the redemption that is in Jesus Christ our Lord. There is no such thing as real, genuine, vital, living, Christian **faith**, except it has its fruits in the works of faith" (Wilbur M. Smith).

How that faith will show itself in the practical dealings of daily life is graphically presented in verses 15 and 16. Pious talk has always been very cheap, and it certainly accomplishes nothing. Real Christianity works.

III. Trust—But Do Not Boast of Tomorrow (4:13-17).

There is a strange religious attitude which talks about faith as though it were something of which to boast, which encourages people not only to believe, but actually to presume. There is a radical difference between faith and presumption.

All Christians are subject to the temptation of talking about being "strangers and pilgrims" (Heb. 11:13) in this earth, and then planning their lives and their business as though everything will continue as it is through all eternity. It is right to plan, but every day we should plan subject to God's will, always realizing that this may be the day when we shall be called into His presence to give an account of the deeds done in the flesh.

Every hour of life should find us ready to meet the Lord, and with all in readiness, so that our going may leave behind a clear testimony of faith in God, and of consistent Christian living.

IV. Be Honest—Without the Need of an Oath (5:12).

A Christian should never need to give an oath in the ordinary affairs of daily life. His life should be so transparently honest and consistently aboveboard that his word ("yea, yea, or nay, nay") will be "as good as his bond."

The Jews were accustomed to use formulas for oaths such as those mentioned in Matthew 5:33-37. They would have felt much at home in our day when there is so much dishonesty that people are constantly calling on God to witness to their truthfulness. Those who have least to do with Him and the worst records for dishonesty are most prone to thus seek to bolster their word.

What a striking contrast is the simple "yes" or "no" of the true Christian. Let us make our word always good, because it is the expression of the integrity of our lives.

Doughnut Stones

Doughnut stones are perforated ring-like stone objects of prehistoric significance. They are found on the sites of early Indian settlements throughout North America, particularly in southern California, where many have been unearthed from ancient burial plots.

It is believed that the Indians slipped these stones over heavy sticks for use as hammers, weapons, or as weights for digging implements.

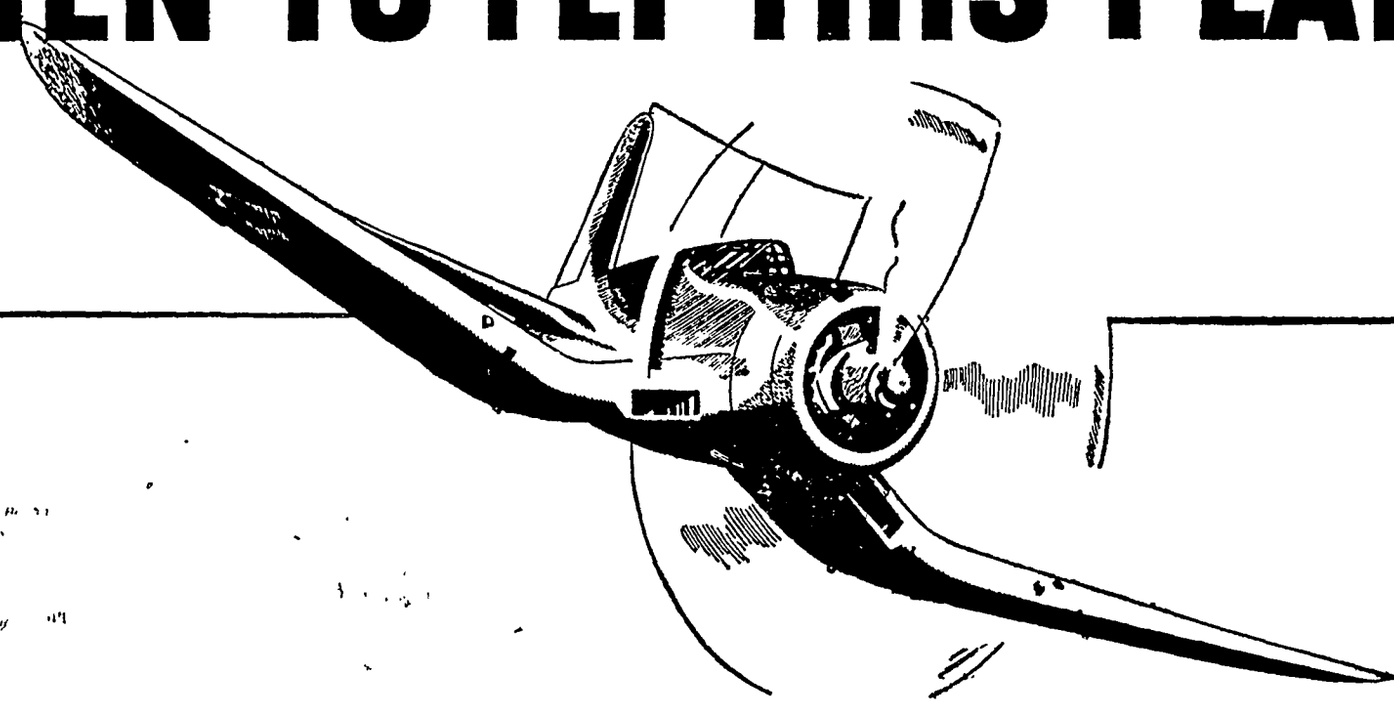
WANTED:
MEN TO FLY THIS PLANE



25,000 young men wanted immediately to get best aviation training in the world

Right now the world's fastest planes are rolling out of America's factories by the thousands. That's why the United States Navy needs 25,000 *new men* to fly and service these planes. That's why your Navy is offering qualified young men the finest training course offered anywhere. Now you can get paid to lead the greatest life in the world. Aviation Cadets in the United States Navy get $75.00 a month during seven months of flight training. Then they become Naval Aviators receiving as much as $245.00 a month.

Earn while you learn

Uncle Sam's Navy offers you tremendous opportunities for advancement in a wide variety of fascinating jobs. There are 45 skilled trades and vocations which the Navy will teach you if you are qualified. If you're interested in radio work, engineering, aerial photography, carpentry, pharmacy, welding, the Navy may spend $1,500 in one year training you to become an expert in your chosen field.

Opportunities for advancement

If you apply yourself, advancement and increases in pay will follow regularly. Before the end of your first enlistment you can be earning up to $126 a month—with your board, keep, and a complete outfit of clothing given you *free!* If, at the end of your term of service, you wish to get a job in civil life, your Navy training will be a tremendous asset to you. Employers the country over are eager to employ Navy-trained men.

Good fun, good food, good friends

The Navy is noted for its popular sports program. Every kind of sport from baseball to boxing and swimming is offered the man who enlists. On board ship, the latest moving pictures are shown *free*. Organized recreation, such as dramatics, singing and musical entertainment, goes to make the life of a Navy man the best fun in the world.

The food served in the Navy would do justice to your own mother's cooking. It's well prepared—and there's plenty of it.

Folks look up to a Navy man

Any man who wears the trim uniform of Uncle Sam's Navy is bound to be looked up to! When he walks down the street, heads turn to follow him. And that's how it should be—for you've got to be good to get in the Navy.

LOOK WHAT THE U. S. NAVY OFFERS YOU

FREE TRAINING worth $1500. 45 trades and vocations to choose from.

GOOD PAY with regular increases. You may earn up to $126 a month.

EACH YEAR you are entitled to a generous vacation period with full pay.

GOOD FOOD and plenty of it.

FREE CLOTHING. A complete outfit of clothing when you first enlist. (Over $100 worth.)

FREE MEDICAL CARE, including regular dental attention.

FINEST SPORTS and entertainment any man could ask for.

TRAVEL, ADVENTURE, THRILLS—You can't beat the Navy for them!

BECOME AN OFFICER. Many can work for an appointment to the Naval Academy or the Annapolis of the Air at Pensacola.

FUTURE SUCCESS. It's easy for Navy-trained men to get good-paying jobs in civil life.

LIBERAL RETIREMENT PAY.

ACT NOW! HERE'S HOW!

(No Obligation)

TODAY . . . get the Free illustrated booklet called "Life in the Navy." It gives you valuable facts. If you are 17 or over (high school education not necessary), all you need do is to ask the Navy Editor of this newspaper.

TELEPHONE HIM, or fill in the coupon below and give it to him at this newspaper's office. Or mail the coupon to him either in an envelope or pasted on a penny postal card.

WEAR THIS BADGE OF HONOR! If after reading the free booklet you decide to apply for a place in the Navy, you will receive this smart lapel-emblem. It is a badge of honor you will be proud to wear.

★ SERVE YOUR COUNTRY
★ BUILD YOUR FUTURE
★ GET IN THE NAVY NOW

Tear out and take or send this coupon to the Navy Editor of this newspaper

Without any obligation on my part whatsoever, please send me free booklet, "Life in the Navy," giving full details about the opportunities for men in the Navy or Naval Reserve.

KLEMME LEGION POST HAD ELECTION OF OFFICERS

At their meeting last week Tuesday evening, the Klemme American Leion Post held their annual election of officers for the coming year.

Dr D. P. Anderson, past Commander of a few years ago, was elected Commander to succeed J C. Thomas who has been at the head of the local post for the past year.

Others elected to office were as follows:

Lester Stille, First Vice Commander and Ernest Henschen, Second Vice Commander

Ernest Helps, Adjutant.
Benn Coobs, Finance Officer.
Dick Bamman, Chaplain
Pete Etchen, Historian.
Jacob Hess, Sergeant-at-Arms.

Lester Stille, First Vice Commander, attended the State Legion Convention held at Des Moines this week starting on Sunday thru Wednesday

WILL BROADCAST PROGRAM

This coming Saturday, August 16th, Hancock County will present the 56th consecutive AAA Program of a series being broadcast over Station KGLO at Mason City.

Hancock County's broadcast will be presented by four women of the county. Two of them, Mrs. D. E. Keat and Mrs. Semon Steiff from Forest City are farm women; and the other two, Mrs. J. E. Tierney and Mrs. M. J. Mertz from Garner are women who live in town.

These four ladies will discuss the woman's part in the national defense program. The discussion will be led by Mrs. Keat, county farm fieldwoman for Hancock County, who has charge of the women's educational work for the AAA.

Everyone is invited to listen in to this program. It will be broadcast over station KGLO, Mason City, at 12:45 p. m. next Saturday, August 16th.

MISS EYESTONE BEGAN WORK AUGUST 11

Miss Eleanore Ruth Eyestone recently hired as Home Demonstration Agent for Hancock and Winnebago counties, began her duties in Hancock county on Monday, August 11th. She will be in Hancock County for two days and will proceed to Winnebago county on August 13 and work there for the remainder of the week during the county achievement show in that county. She will arrive back in Hancock County on Monday, August 18 and be present for the activities of the achievement show. Following this county-wide activity, Miss Eyestone's duties will require her to be in attendance at the Iowa State Fair in Des Moines for the entire length of the fair.

KLEMME REFORMED CHURCH
Calvin Grosshuesch, Pastor

Sunday, August 17

The Garner Reformed Church will celebrate Mission Fest on Sunday Services in morning and evening. Our congregation is invited to both of these services. No service or Sunday School in Klemme Sunday.

Tuesday, August 19

8:30 P. M. Young Peoples Bible Class.

Thursday

8:30 Mixed Choir.

MOVIE STAR JOINS U.S. NAVY

Ensign Wayne Morris Seeks Wings

Wayne Morris, recent star of "I Wanted Wings, became a member of Uncle Sam's Navy in May 1941, when he was appointed to the rank of Ensign.

When asked what he thought of the United States Navy, Morris said, "I think every man who is considering joining a military service should look into the 'chance of a lifetime which the Navy offers to get in to the big pay field of the future—aviation. In the Navy you can attend the finest flight training schools in the world, and receive instruction from Navy pilots who introduced dive bombing, aircraft carriers and catapult take-offs to the rest of the world. Also, there are opportunities in Naval Aviation for men who don't want to fly. They can be trained as aviation machinists, metalsmiths, photographers, observers, or they can receive instruction in many other trades. It's a great life in the Navy."

Ensign Wayne Morris is pictured here in his line of duty as a member of the Naval Aviation Cadet Selection Board at the Long Beach Naval Reserve Air Base.

IOWA'S STORED CORN IS IN GOOD CONDITION

Recent Iowa Survey Included Corn On Farms And In Steel Bins

Iowa's stored corn is remarkably free from insect infestation, and there have been no appreciable losses to date from insect damage, according to G C. Decker, Iowa State College extension entomologist.

Decker, who has recently completed a survey of more than 1,000 bins, both farm and Commodity Credit Corporation steel bins, said he had found a few live insects in from 50 to 60 per cent of the bins but that less than 10 per cent of the bins had what he termed "serious" populations.

Fumigate

"These infestations can be easily taken care of with a fumigating mixture of ethylene dichloride and carbon tetrachloride with no appreciable loss of either grain or the grade," he declared.

He said that in counties in which the corn in steel bins had been turned to remove insects and fine material the average amount of spoiled corn per bin was considerably less than 1 bushel. In a few of the bins high water had raised this figure to as much as 6 and 8 bushels per bin, but Decker said this was more than offset by the number in which there was no spoilage.

Insects found

The most common insects found in the survey were the sawtooth grain beetle and the flat grain beetle. Decker recommended the application of 6 gallons of the fumigating mixture per 1,000 bushels of grain. The fumigant should be sprinkled or sprayed on the surface of the corn and allowed to run down into the stored grain.

"This treatment is effective only in reasonable tight bins," he said, "and it is impossible to fumigate corn efficiently which is stored in cribs."

Cold Weather Helped

Decker attributed most of the freedom from insects to the unusually low moisture content of most of the corn stored in the state and to the location of most of the stored corn in the northwestern part of the state Cold weather in that section of the state is severe enough in winter to kill many of the insects.

Decker also announced that the United States Department of Agriculture, in cooperation with the Agricultural Experment Station of Iowa State College, will launch a study and establish a station in which to work on the problem of insect damage to stored corn. T. F. Winburn, assistant entomologist of the Bureau of Plant Entomology and Quarantine of the United States department of Agriculture, will be stationed at Ames to assist with the study

I LIKE TO BE AN AMERICAN BECAUSE:

The U S. Creed which reminded school children of the freedom guaranteed to them by the Bill of Rights, reads.

"There's no way like the American way . . Why? . . Because.

"I can go to any church I please

"I read, hear and see what I choose.

"I can express my opinions openly.

"My mail reaches me as sent . . uncensored

"My telephone is untapped

"I can join any political party I wish

"I can vote for what and whom I please.

"I have a constitutional right to trial by jury.

"I am protected against search and seizure.

"Neither my life nor my property can be forfeited wihout due process of law."

COOBS FAMILY RE-UNION HELD AT WAVERLY

A re-union of the Coobs family was held Sunday at Waverly.

Those present included Henry Coobs and family and Herman Coobs and family of McGregor; the Wm. Coobs family of Elkader; Mr. and Mrs. Wallace Pavey, Mr. and Mrs. John Clemens, Mr. and Mrs. Wayne Pavey and daughter, Mr. and Mrs. Benn Coobs and children, Verner Lewis and family and Mr. and Mrs. Henry Buseman, all of Klemme, and Mrs. Dick Ebeling of Marion, South Dakota.

Iowa's soil producers more wealth each year than all the gold mines of the world.

Irene Becker To Play In Chicago Music Festival

GROUP OF KLEMME BUSINESS MEN ATTENDED PICNIC

Klemme was well represented at the county-wide picnic for business men held at the Eagle Lake State Park last Thursday afternoon and which was attended by business and professional men from most of the towns in Hancock County A total of about two hundred and fifty men gathered for an afternoon of sports at the park followed by a picnic supper.

The menu consisted of a fourth of a spring chicken, potato salad, cheese, buns, butter, corn on the cob, coffee and lemonade. The corn, coffee and lemonade was prepared on the grounds

About thirty-five Klemme business men attended and all are looking forward to the picnic next year.

TOWN COUNCIL ASKED TO OIL KLEMME STREETS

For some time housewives have complained about the extremely dusty condition of the streets in Klemme and wanted something done about it.

A petition was circulated among property owners asking the Town Council to oil all the streets in town.

This petition signed by sixty-nine property owners and taxpayers of Klemme, was presented to the town council Monday evening

The council was reluctant to take any definite action on the matter until they had made an investigation as to how such projects are being handled in other towns, the kind of oil used, the cost of same and what preliminary work would be needed before applying the oil

Upon motion and seconded the council resolved to file the petition and the Mayor instructed to appoint a committee to investigate the matter thoroughly.

BAPTISMS AT REFORMED CHURCH SUNDAY

The following were baptized at the Klemme Reformed Church on Sunday morning, August 10th:

Carol Kay, daughter of Mr. and Mrs. Everett Barz.

Harold Lester, son of Mr. and Mrs. Lester Buseman.

Myrna Diana, daugher of Mr and Mrs. Harvey Barz.

Robert Dean Rodemeyer.

They were baptized by Rev. Calvin Grosshuesch, pastor.

KLEMME YOUNG LADY WILL TEACH AT NEWTON

Miss Irene Harms, who taught in the schools at Logan the past year, has accepted a teaching contract and this coming year will teach in one of the grade schools at Newton. She will instruct in the third grade.

The contract to teach at Newton will be a fine advancement for Miss Harms. There were twenty-two teachers in the Logan schools while at Newton there are one hundred and ten teachers.

How loveless marriages helped to ruin France. Princess Karapow, concluding her series of intimate glimpses of European courts, makes further enlightening disclosures of some of the causes that blinded her country's eyes to the brutal dangers of war, in the American Weekly, the magazine distributed with next week's Sunday Chicago Herald-American.

THE METHODIST CHURCH
William Zabilka, Pastor

There will be no preaching services or Sabbath School at either the Klemme or Liberty Methodist Churches next Sunday. August 17th.

Concert Will Be On Broadcast From Soldier Field

Miss Irene Becker, daughter of Mr and Mrs. Fred Becker, who reside at their farm east of Klemme, will leave for Chicago this week where she will play with the 150-piece marimba symphony orchestra for the twelfth annual Chicagoland Music Festival conducted by the Chicago Tribune Charities, Inc The concert is one of the outstanding musical activities of the year.

Miss Becker, who graduated from the Klemme high school this spring, won state and national honors in marimba competition during the past year. It was because of her ability that she was invited to take part in the Chicago Festival.

Marimba Players Busy

The members of the marimba orchestra will have a busy weekend ahead of them and will be royally entertained while in the city Upon their arrival all members of the marmiba symphony orchestra will be guests of the J. C. Deagan Co. and will tour the building where the Deagan marimbas are made.

But all will not be "play" for on Saturday morning, August 16th, there is scheduled a five and one-half hour reheasal for the concert. Miss Becker has been working on her concert music for the past week or more to get acquainted with the music for the concert.

After the group rehearsal, all will be taken to the Navy Pier where they will board a steamship for a five hour cruise on Lake Michigan.

The performance will be given at Soldier's Field at 7:30 o'clock Saurday evening, August 16th.

The orchestra will broadcast from Soldier's Field, over WGN from 8 to 9 p. m., central standard time. The broadcast will be over a national hook-up and will be hear over 104 stations.

Miss Becker will be accompanied on her trip to Chicago by her parents, Mr. and Mrs. Fred Becker, who leave Thursday for Chicago.

HANCOCK COUNTY REAL ESTATE TRANSFERS

Raymond S. Card and Mable Irene Card to Hazel Stephens, single. Wty Deed, 7-30-41, $1.00. Part of Lot 15, block 4, Corwith.

Travelers Life Ins. Co. to Geo. P. Newman. Spec. Wty. Deed, 6-4-41, $15,500. SW¼ and S½ NW¼ and W½ NE¼ and SE¼ NE¼ & 4 acres in S7 corner NE¼ NE¼ 21-97-24 except right of way of Mpls. & St. L. RR. as the same is now constructed over and across said premises.

WM. STILLE SURPRISED ON BIRTHDAY, SUNDAY

The children of W. F. Stille and their families surprised him Sunday when they came with well filled baskets for dinner in honor of his birthday which was on the same day.

Those present were Lester Stille and family; the Harvey Stille family of this community, and Mrs. Lee Anderson of Charles City.

METHODIST CIRCLES WILL HAVE PICNIC IN PARK

All of the Circles of the Methodist Church will have a picnic in the Klemme Park on Thursday afternoon, August 21st beginning at 2:00 o'clock. Bring your picnic lunch for supper.

Farm Income to Pass Ten Billion For Current Year

Elements Are Government Loans, Purchases and Consumer Demand.

By FRANK GEORGE
(Released by Western Newspaper Union.)

WASHINGTON. — Farmers have the best financial outlook in more than a decade. Prices of farm products are the highest since 1937, and farm cash income from crops and live stock will be the largest since 1929. Costs of farm production also have risen, but in smaller amount than the rise in prices and prospective farm income.

Federal agricultural economists have estimated that farm income will exceed 10 billions of dollars this year. This compares with slightly more than 9 billions in 1940, and with more than 11 billions in 1929. The estimate for 1941 is more than twice the total of farm income of less than 5 billion dollars at the bottom of the economic depression in 1932.

Farm income prospects have been raised this year by the continuing high consumer demand for farm products, the large government purchases of farm products in the Food-for-Defense program, and by recent federal legislation increasing to 85 per cent of parity the rate of government loans on basic farm commodities.

Estimates are that the increase in government loans will add more than $500,000,000 to farm income this year. This figure is included in the estimated .$10,000,000,000 of total cash income. The higher loans will raise the income of cotton growers by about $225,000,000 this year over last, and of wheat growers by an equivalent amount.

Cotton Income to Lag.

It is pointed out, however, by federal agricultural officials, that whereas the income of wheat growers will be larger than it was in 1929, the income of cotton growers will be much smaller than it was in that year Cash income from wheat marketed or put under government loan will total $670,000,000 this year, as compared with $727,000,000 in 1929. The addition of government conservation and parity payments will raise the income of wheat growers above the 1929 total.

Cash income of cotton growers—from marketings and the cotton put under government loan—may total close to $900,000,000 this year. This compares with more than $1,500,000,000 in 1929. Cotton growers also will receive government conservation and parity payments, but not enough to make up the difference between 1941 and 1929 incomes. The much smaller income of cotton growers is accounted for largely by the loss of export markets.

The United States department of agriculture reports that crops and live stock began the 1941 season in unusually good condition, then ran into a period of drouth that seriously threatened the Food-for-Defense program, but recently have been doing better. Total farm production may be a little larger this year than last, even though the production of hogs, pork, and lard is smaller.

The federal agricultural expansion program calls for increased production of dairy and poultry products, of canning crops, and dry beans. For a number of months past, the dairy industry has been setting high production records in the output of milk and manufactured products Poultry and egg output also will be much larger during the last half of this year, than in the same period of 1940.

Beef to Increase.

Hog producers are being urged to increase the breeding of sows and to feed hogs to heavier weights. The pig crop was smaller this spring than last, but a sizable increase is expected this fall in view of government assurances as to minimum prices and the favorable ratio of corn and hog prices. Cattlemen are being advised to increase the marketings of cattle this year, and an increase of about 5 per cent in the supply of beef is in prospect.

The latest federal analysis of economic conditions is that the demand for farm products continues to be influenced by the increase in industrial activity and the accompanying rise in consumer buying power.

The government specialists report that prospects are "good" for the production of feed crops this year, and that the total supply of feed may be larger this year than last . . . They look for a slight increase in production of fats, oils, and oilseeds, but the demand for these commodities is increasing, and prices are much higher this summer than last. . . . The supply of fruits may be slightly larger this year than last, but the money returns to producers likely will be larger in view of the steadily rising consumer buying power.

Eastern Indian Uprising in War Dance

"East Meets West" this month when 36 Indian tribes join in colorful pageantry, symbolic of their life before their white brother touched the shores of America. The redmen gather at Gallup, N. M., August 13-16, not in solemn conclave to smoke the pipe of peace with the "paleface," neither to prove that Mark Twain was wrong, but to don feathers and war paint for a championship Inter-Tribal Indian ceremonial contest. From out of misty American history, these bronzed phantom-like figures will again dance to the throb of crude war drums and the exhortations of their weird medicine-men. This is the first challenge ever flung, by New York's historic tribe, the Iroquois, to the west and south tribes.

GALLUP, N. M.—Leading ceremonial dancers of the Six Nations of the Iroquois, New York state's historic tribes, have for the first time challenged the 30-odd Southwestern tribes to meet them during the Inter-Tribal Indian ceremonial to be held at Gallup, N. M., the Indian Capital, August 13-16, to compete before a group of Indian judges in any Indian ceremonial dances common to both East and West, for the title of Champion Indian Ceremonial Dancers of North America.

The Ceremonial board was surprised that any Eastern tribes would challenge the colorful ceremonies of Western Indians who have been influenced so little by white penetration of their country. Many of the Western Indians do not speak English and their point of view and customs are known to be strictly Indian as they were before the coming of the white man.

Chief Big Kettle of Buffalo, N. Y., declares that neither time nor education has interfered with the excellence of the steps, rhythm, song or costuming of the Eastern Indians who will show their ceremonies for the first time before the crowds at the twentieth annual Indian Ceremonial at Gallup.

Tribal leaders of the Zuni Indians, who many believe to be the most authentic and finished dancers of the West, and of the Navajos, Apaches, Lagunas, Hopis, Acomas and a score of other Western tribes are anxious to meet the Eastern Indians at the Ceremonial, which will decide the championship, before a competent Indian board of judges.

Canada Represented.

Chief Big Kettle will be accompanied by a group composed of Senecas, Onondagas, Mohicans, Mohawks, Iroquois and Cayugas from New York and Canada. Well-known dance leaders among the visitors will be Awl Breaker Cayuga, who is solo dance champion of New York and Canada, Chief Big Kettle, past champion, and Chief Corn Planter, Ceremonial chief of the Six Nations.

Each year the best and finest is presented at the Ceremonial in centuries-old games, arts and handicrafts, and all that is most beautiful and impressive in the spiritual and ethical life of the Indian tribes inhabiting the isolated mountain and desert reservations in the far Southwest.

Renowned Medicine men, dancers and singers of the 30-odd nomadic and pueblo tribes gather at Gallup to perform ancient ceremonial dances and rites of the various tribes

Each year the Ceremonial association offers cash awards in a consistent effort to encourage Indian craftsmen to adhere to the best traditions of their race and to continually improve their workmanship and the entries for these awards are exhibited in the great Exhibit Hall.

Foot races, horse races, bucking contests, calf-tying, games and the presence of thousands of tribesmen and their families add to the interest in the event.

A roof has been added to the new steel stadium which was erected last year with a seating capacity of 4,000.

The program for each of the four days is as follows. August 13, at 8 p. m., Indian Dances, Ceremonial grounds; August 14-15-16, 10 30 a. m., Parade through downtown Gallup, 2 p m, Games and other events, Ceremonial grounds; 8 p. m., Indian Dances, Ceremonial grounds.

English Wheat Farmers May Use U. S. Process

WASHINGTON.—Sir Quintin Hill of the British food mission, who has been in Washington for some months, is returning to London with full details of a newly discovered American process for separating grain seeds to determine their degree of fertility. If England's farmers should adopt the process, it is estimated that Britain's crop might increase as much as 22 per cent.

Grandmothers Club Grows Nationally

CHICAGO.—One of the country's unique organizations, the "National Grandmothers Club, Inc," has reached a membership of nearly 2,000, numbering its members either in branch clubs or at large in nearly every state in the Union.

Mrs. Marie K. Brown, for 18 years the head of the women's department of the Baltimore & Ohio railroad in Chicago, is the founder and national president. "To be a grandmother," says Mrs Brown "is a crown ... experience of life." She, herself, has four grandchildren and she is giving all her spare time to extending the work of the National Grandmothers club. One of the chief benefits of the organization is the new zest for life which it has brought to many grandmothers, especially the modern grandmother who doesn't wish to sit all day long in an easy chair, but who in dress and general appearance, is more youthful and active than grandmother was.

Heading the women's department of the Baltimore & Ohio R. R. in Chicago, Mrs. Brown, shown above, also heads, as president, the National Grandmothers Club, Inc., with headquarters in the same city. They have a national membership of nearly 2,000. The members unite for educational and charitable work among children and for local civic enterprises. They also urge a more modern life for present-day grandmothers.

Wherever Grandmother clubs exist they participate in the work of their communities along civic lines and are non-sectarian and non-political

Mrs. Brown was speaking to a gathering of business women in Godfrey, Ill., in 1936, when a telegram brought the news that she was a grandmother. She asked for a showing of hands of the grandmothers present. Next morning she entertained them at breakfast. On two subsequent years they met again at breakfast and then the National Grandmothers Club, Inc., was organized.

The Washington MERRY-GO-ROUND

By DREW PEARSON & ROBERT ALLEN

Washington, D. C.

BIG DAY FOR NEWS MEN

Twenty newspaper men leaned forward around the long blue baize table in the ante-room of the secretary of state. At the extreme end stood tall, austere acting secretary, Sumner Welles. On his face was an expression of grim-lipped intensity. In his hand was a typewritten statement. He read it aloud. It was a scathing, carefully worded blast against Japan.

At the opposite end of the table stood three Japanese news men, short, affable, eager. For months and years they had been attending press conferences, given the same privileges as any American news men. For months also they had waited for some such bombshell.

Now it came.

One split second after Welles finished reading his statement, the Japanese were out the door, pattering down the marble corridor to the press room telephones. It was a big day for Japanese news men.

Finally Ickes Wins.

It was also a big day for certain members of the Roosevelt cabinet. For months and years they also had been waiting. For months and years also they had been urging Roosevelt to embargo oil shipments to Japan.

At a cabinet meeting just before Japan moved, Secretary Ickes, as new oil administrator, raised the embargo question again. He proposed to stop oil shipments to Japan. But the acting secretary of state said no. Japan, he said, was going to make a move toward Indo-China and it would be wiser to wait.

Once before, Ickes had stopped a shipment of oil to Japan and aroused the wrath of the state department. Last June a Philadelphia manufacturer complained to him that a Japanese ship was loading 240,000 gallons of lubricating oil.

"I can't get oil myself to speed up my own defense orders," wrote the manufacturer, "and yet I see in front of my nose this shipment of oil going to Japan. To hell with defense, if the government is as screwy as that."

So Ickes called the coast guard and asked them to act before the oil was loaded. They did.

Then things began to boil. It did not leak out at the time, but the state department complained to the White House that Ickes' action had interfered with the policy of appeasing Japan so she would not go south to the Dutch East Indies.

However, Ickes held his ground He insisted that he was not meddling in foreign policy, but that it was nonsense to ration oil and gas on the Atlantic seaboard and at the same time let Japan ship oil away from the Atlantic seaboard.

In the end Ickes won.

Bombard Tokyo.

Naval strategists make no secret as to what they would do to curb Japan. They consider it foolhardy and suicide to send a lot of U. S. warships across the vast expanse of ocean to Singapore or the Dutch East Indies.

They figure we are going to get into the war anyway, and it is good strategy to deal knockout blows in the very first round. They favor sending waves of U. S. bombers from the Philippines to raze the paper and bamboo cities of Tokyo, Yokohama, Kobe and Osaka. They also favor sending the fleet, plus airplane carriers to the coast of Japan.

They favor doing this immediately. There is no use, say the navy men, of punching at a man's legs when you can strike for his heart.

* * *

CLOSING PANAMA TO JAPAN

Secretary Stimson was telling the absolute truth when he denied that the discovery of a time-bomb was responsible for keeping 10 Japanese ships out of the Panama canal. For this was not the reason.

Real reason why the canal was barred to the Japanese was the discovery that two of their ships were floating bazars being rushed to the east coast of South America to grab off the trade which Axis operators were forced to abandon as a result of the U. S. blacklist.

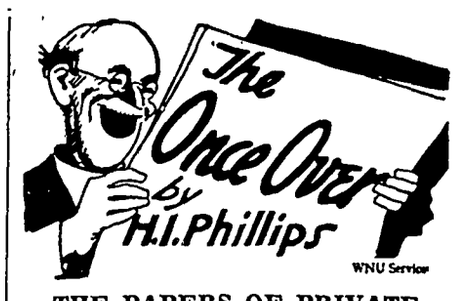
Apparently the Japs had a tip that the blacklist was going to be issued, because the two ships hastily left the west coast and were waiting to go through the canal, when suddenly the blacklist was published. Equipped with elaborate merchandizing displays, and carrying high-powered, Spanish-speaking salesmen, the ships were literal arsenals of economic warfare With them, the Japanese would have invaded the most lucrative markets in Latin America before either the U S. or the Latin Americans could have moved to block them.

* * *

MERRY-GO-ROUND

U. S. authorities are quietly keeping an eye on Andre Maurois, well-known French writer, who has departed on a mysterious "private mission" to South America. Maurois is strongly pro-Vichy and is suspected of going south for the purpose of plugging the Nazi-controlled French regime.

The army's new heavy tank is equipped not only with machine guns and a 75-mm. gun, but also with a nice shiny horn to keep soldiers themselves from getting in the way.



THE PAPERS OF PRIVATE PURKEY

Dear Ma:

I got your letter about not yelling at anybody on no golf coarses and please do not worry as I am always a gentleman espeshully since that Tenersee division was maid to do a 15 mile hike all over again for yelling yoo hoo at half dressed women and male golfers looking for lost balls. From now on I go strictly on the idea that anybody I see in open lots may be a general for all I know.

* * *

Personally I wood not poke no fun at a general on a golf coarse any how on account of I like to see them there. The farther a general is from the camp the less times I get inspected. This is a war of deception, ma, and where can a general find more deception than on a golf linx? It is also a war of movement and you don't know what movements are until you see a middle-aged duffer going into his golf swing.

* * *

Generals need exercise like anybody else but if he is seen walking on a highway he loses face. The only place he can be seen hiking five or ten miles a day without being disgraced is on a golf coarse so I don't see no sense criticizing General Lear for being on one that day.

* * *

The outfit I am with is very good mannered and wood not yell at no golfers in a ungentlemanly manner. A couple of weeks ago we was passing a linx and Otto Bixby yelled at a duffer but he was so deep in a trap he could hear no voices unless they were from China. There was a few women players in shorts and at first I thought they was fugitives from ladies' day in a turkish bath. We paid no attention to them, not even one yoo hoo and the ladies seemed soarer than if we had paid some notiss to 'em. Women may get soar if soldiers yell at them but they mind it worse if they snub 'em.

* * *

There was a very pompous looking man looking for a lost ball near the highway witch we marched on and one of the boys made some remarks like "Looking for something, mister?" and "Did you try under the bureau?" He did not think much of it then but ever since reading about the General Lear incident he has been scared stiff for fear the man was a officer and got his description.

* * *

Personally I think General Lear is getting worse punishment than his troops and I bet he wishes he never played golf in his life. I think people are rubbing it in. Dissipline is dissipline in a army and most of the boys here do not think a army should give Bronx cheers to nobody on the line of march and espeshully not to ladies no matter if they wear shorts or whoopskirts. This is a all out war but we should not be all out of manners.

* * *

We don't even wave at nobody no more becuz for all we know it might turn out to be Secretary Stimson or Mrs. Roosevelt. The Lear thing maid the army awful careful. But I hope the people let up on General Lear becuz I hear he had plenty of excuse for being upset. I hear he was nine strokes on a par four hole and still 125 yards from the green when the soldiers yoo hooed. And not only that but he had gave his opponent a stroke a hole. Anything wood've made him soar.

* * *

Well so much for that. I got the heavy sox in case I get to Iceland. Tell Irene Mahoney if I get to Ireland I will look up her old man.

Love,
Oscar.

* * *

Not much headway can be found in making the world fit to live in again until somebody invents a tank-proof treaty or develops a hog-proof man.

* * *

Beautiful models have paraded in a style show before the draftees at Camp Upton. The idea is to show the soldiers what the well-dressed Iceland woman will not wear.

* * *

25-CENT SPECIAL

There's one thing I can't do, I've found,
No matter how I try.
I cannot get my mouth around
A sandwich three decks high.
Merrill Chilcote.

* * *

We have seen the photos of Marshal Semyon Budenny of the Russian forces, and think this is the first time a panzer mustache has been used in the war.

* * *

HERE'S HOPING!

When the Hitlers cease to hittle
And the "Mussies" muss no more
Then may humans sit and whittle
With no further thoughts of war.

* * *

It appears that Uncle Sam has decided to cease bundling with the Bunds.
